

THE ALL-NEW ŠKODA

KODIAQ

ŠKODA
SIMPLY CLEVER

WHAT IS ŠMART?

Is it just a word? Just a label? Just a category?

No. It's more. Much more.

ŠMART is intuition, turning intelligence into value
And taking it to the streets

Making small feel big
Making inexpensive feel awesome

Making performance and comfort sync like never before

After all, who would say 'no' to feeling good?

ŠMART is owning your ride
Instead of having it own you

High quality without the high price tag
In a car you really really want to drive

ŠMART is a status you expect
because you've earned it

And will do so year after year after year

Performance + Reliability + Safety + Quality + Value

That's what ŠMART is
ŠKODA ŠMART

INTRODUCING A NEW SPECIES OF SUV

It's in our nature to be in touch with nature – and each other. But if modern life is pulling you away from what matters most, KODIAQ, ŠKODA's first 7-seater SUV, is designed to help you reconnect with life. As the winner of both What Car? Car of the Year Award in 2017, this is an all-new vision of what an SUV should be. The KODIAQ's stunning exterior design is as robust as it is beautiful, while inside innovative connectivity solutions, generous space and state-of-the-art assistance systems will keep the entire family hungry for adventure. And as always, numerous Simply Clever features ensure that your escapades remain fully practical. The KODIAQ is yet another example of our philosophy of making beautifully designed cars that are as passenger-focused and a joy to drive now as they were back when we started.

That's Simply Clever. That's ŠKODA.

BEAUTY OF THE BEAST

Ready to take on the toughest conditions, the ŠKODA KODIAQ radiates majestic power. Its panoramic sunroof and precise, sharp lines are shaped by ŠKODA's new design language for SUVs, making it distinctive, emotional and timeless.

FRONT VIEW

The concept for the front headlights with an eye-catching integrated strip of LED daytime running lights is KODIAQ's characteristic element. The location of the sharply drawn fog lamps at the height of the radiator grille, where they are protected from damage, clearly shows the car's off-road ambitions.

SIDE VIEW

The sharp edges combined with smooth surfaces give the KODIAQ a robust look, while its square wheel arches, angular mud flaps and the protective sill covers show that this car is equally at home on dirt roads.

PANORAMIC SUNROOF

The electronically-adjustable panoramic sunroof provides extra sunlight and fresh air at the simple touch of a button.

INNER BEAUTY

Make your space more cosy and comfortable. With innovative features and soft, harmonious lights running along the inside of the car, set the perfect mood for any journey.

FOOT AREA ILLUMINATION

The discreet illumination turns a comfortable space into an exceptional one.

BOARDING SPOTS

Avoid puddles in the dark. The LED boarding spots, designed to illuminate the entry area, are located on the external side-view mirrors.

AMBIENT LIGHTING

It's up to you to choose one favourite colour to complement each day with a different tone.

EVERY ADVENTURE'S COMMAND CENTRE

The KODIAQ helps you stay connected wherever you are. Access entertainment and information, as well as navigation assistance while on the move.

PHONE BOX + WIRELESS CHARGING

This practical phone compartment, located in front of the gear stick, creates an amplified signal for your mobile device. At the same time, it wirelessly charges your phone while driving.

SMARTLINK

SmartLink delivers an elegant connection between car and smartphone by supporting Apple CarPlay, Android Auto and MirrorLink technologies.

BOLERO

The 8" Bolero radio with colour touch-screen display offers a USB/AUX-in connection, SD card slot, Bluetooth, SmartLink system and eight speakers.

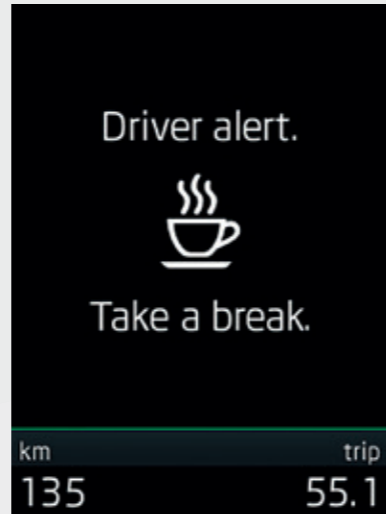

THERE'S HELP AT HAND

We have done everything in order to ensure that you arrive at your destination safely. The KODIAQ comes with plenty of assistants allowing you to react to various situations promptly. Some of the systems can even prevent an impending collision all by themselves.

7 AIRBAGS

Front driver and passenger airbags, side airbags, head airbags and driver knee airbag are equipped in the car to ensure the safety of all passengers. The passenger airbag located in the dashboard can be deactivated when a child seat is installed on the front seat.

DRIVER ALERT

This clever assistant evaluates data from the power steering sensors to detect any driver fatigue behaviour. In such cases, the Maxi DOT display warns the driver to take a break.

PARK ASSIST

Minimise the hassle of parking in tight spots with Park Assist. It automatically selects an appropriate parking place in a row of parallel or perpendicularly parked vehicles. During parallel parking, it only needs a space of 80 cm longer than the car itself.

FRONT ASSIST

Front Assist warns the driver of an impending collision at speeds between 5 and 210 km/h and activates automatic partial braking or triggers emergency braking if necessary. The City Emergency Brake and Predictive Pedestrian Protection complements Front Assist in urban traffic by monitoring obstacles or pedestrians ahead.

BLIND SPOT DETECT AND REAR TRAFFIC ALERT

Using radar sensors in the rear bumper, Blind Spot Detect monitors the blind areas behind and beside the car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver. Using the same sensors, Rear Traffic Alert helps the driver reverse safely from a parking space in case of poor visibility or even engage the brakes automatically if it detects imminent danger.

ŠKODA'S LITTLE HELPERS

Life is easier when equipment is practical. That's why the KODIAQ comes with features based on your real needs and includes Simply Clever details that are as ingenious as they are intuitive.

JUMBO BOX

The spacious storage compartment is housed in the front armrest. The Jumbo Box can also be equipped with drinks and coin holders.

UMBRELLA STORAGE COMPARTMENTS

Ingenious compartments for two umbrellas are fitted inside both front doors. They are designed to let water drain away from the car, keeping the interior dry.

DOOR EDGE PROTECTION

When opening all side doors, plastic strips eject and cover the edges. In this way, the KODIAQ protects itself against damage. Perfect for tight parking spaces.

A POCKET FOR EVERYTHING THAT MATTERS

Children, dogs, bears, toys, snacks, plus situations you cannot anticipate – that's par for the course when travelling with the family. And the KODIAQ can handle all of it.

TRUNK HOOKS & NET PROGRAMME

To make the car even more versatile, you will find hooks and net programme in the boot to help you keep everything tidy in the car and prevent luggage from shifting.

CAPACITY

If you aren't planning a journey with a full load of passengers, you can create the luggage space that you happen to need in the seven-seater. Lay the third row of seats flat and you get 630 litres. Lay flat the second row as well, and you get a massive 2,005 litres.

STYLE

ADVENTUROUSLY STYLISH

Stay wild at heart while looking in absolute style. The KODIAQ Style gives every adventure a refined makeover.

ENGINE

Under the bonnet is the 2.0 litre turbocharged engine with 132kW of power.

AREA-VIEW

You will feel much more confident behind the steering wheel with four cameras that sense the space around the entire vehicle. They are located in the grille, external side-view mirrors and the boot. The picture is transmitted in real time to the infotainment display so you can react quicker to whatever comes your way.

ALL-WHEEL DRIVE

The 4x4 drive is provided by an inter-axle electronically-controlled multi-plate clutch. The coupling of the rear axle is automatic, so under normal conditions the car can utilise the advantages of front-wheel drive, and under extreme conditions the excellent traction of the 4x4 drive comes into action.

DYNAMIC CHASSIS CONTROL (DCC)

Enjoy the high performance of your car in maximum comfort and safety. The Dynamic Chassis Control (DCC) continuously evaluates and responds to various driving situations (braking, acceleration, turning), adapting the damping and steering characteristics. As part of the infotainment menu, it allows you to select one of the three modes according to your specific requirements: Comfort, Normal or Sport.

ADAPTIVE CRUISE CONTROL

Using a radar device in the front grille, in addition to its basic cruise control function, this assistance system maintains a safe distance from vehicles in front of you.

COLUMBUS + CANTON SOUND SYSTEM

The Columbus 3D navigation system features comfortable touch control on 9.2" display. The device offers many functions, including Bluetooth, SmartLink system and WiFi. Enjoy absolute sound clarity, whether it's music or the spoken word, on the Canton Sound System with ten speakers, including a speaker in the dashboard and subwoofer in the luggage compartment.

VIRTUAL PEDAL

How do you open or close the luggage compartment when your hands are full? Just swipe your foot underneath.
