

SKODA

The all-new
Kodiaq

Your new space to explore

Your car should be your family's second home on the road. A partner to explore the world. A tool to make your life smarter. Škoda Kodiaq does all that. And more.

The all-new Škoda Kodiaq boasts a more rugged appearance with a redesigned front grille, squared-off wheel arches, further enhanced by a new Unique Dark Chrome finish for a strong road presence. The new design also enhances aerodynamics and efficiency, while retaining the simply clever features and providing even more space for an exceptionally comfortable drive.

The exterior design features new technologies such as Full LED Matrix headlights, a horizontal light strip across the grille, and interconnected LED rear lights with animated indicators, all debuting on the all-new Kodiaq.

The new interior concept blends sustainable materials and a spacious design with innovative controls, including the new Škoda Smart Dials.

That's the smart way of family life. That's what we call Škoda.

Upscaling the looks

Bigger does not only mean more practical. It's also an opportunity to make the design bolder and the proportions sleeker. The new look goes hand in hand with new capabilities. It's a family safe space that you can take exploring your latest adventure. Enjoy the ride and look good doing it!

Bigger. Bolder. Better.

The longer length not only provides more space for you and your family. It also allows for a sleeker, more elegant profile, underscored by details like the gloss black trim around the upper part of the window and D-pillar in Unique Dark Chrome finish. Proof that even practicality can attract admiring looks everywhere you go. Your family's stylish partner for exploring the world.

LED Matrix beam headlights

Crystal clear view with a Crystallinum style. Top LED Matrix system provides great visibility even with other cars around. The coloured crystalline element accentuates the sharp contours of the headlights, adding a touch of elegance and visual appeal.

Redesigned front grille with horizontal light strip

To grab even more attention on the road, the new wider and bolder grille has its vertical slats illuminated by LEDs. This makes the new Kodiaq an unmistakable sight when driving at night.

LED rear lights

The unmistakable C-shaped LED rear lights with animated indicators are connected by a full-width decorative strip. This creates a unique signature that is easily recognised by anyone driving behind you.

Enhanced aerodynamics

Discover enhanced aerodynamics with a drag coefficient from $c_w = 0.282$, ensuring optimal efficiency on every journey. The stretched roofline gently slopes downwards towards the rear, enhancing both style and performance. Plus, the extended tailgate spoiler and integrated roof rails further improve aerodynamics, giving you a sleek and dynamic driving experience.

KESY Advanced

Never forget to lock your car ever again. KESY is not only able to lock and unlock the car just by you touching the front handle. In its latest iteration, it also uses the 'Open on Approach and Walk Away Locking functions', where the car automatically unlocks when approached and locks again when you walk away from it.

Effortless convenience at your fingertips

With the electrically operated tailgate, a simple press of a button effortlessly opens and closes the tailgate, providing ultimate convenience for loading and unloading cargo.

Space for the digital age

Digital yet tactile. Stylish yet sustainable. With the new interior concept, the Kodiaq makes the best use of both the latest technologies and tried and tested tactile controls. The new materials are attractive to look at and pleasant to touch, yet made of environmentally-friendly materials. The combination of Virtual Cockpit and 13" infotainment display gives an immediate sense of ease and luxury. Positioned on the steering column, the DSG gear selector allows for generous space in the center console. Above which you'll find customisable Škoda Smart Dials, which combine physical dials and digital displays, providing intuitive access to various vehicle functions. The ambient lighting can be set up to adapt the interior to your current mood. Every single detail contributes to the unique atmosphere on board.

Smart Dials

Combining practical haptic control with innovative digital technology. The two outer Smart Dials allow for easy function of the interior temperature. Whilst the centre dial can control up to four other functions, such as driving modes, map zoom, and speaker volume.

Virtual Cockpit

All the key information right in front of you. The 10.25" digital display offers driving data in easy-to-comprehend, and can be customised with four views (Classic, Basic, Extended and Modern).

Repositioned gear selector

Easy control, more space. Mounted on the steering column, the gear selector is right at your fingertips. Leaves the centre console free for more storage space.

Information. Communication. Entertainment.

Be connected to the world around. The new Kodiaq creates a digital environment around you, carefully curated so that what's most important is right in front of you, while the large screen displays items that require detail.

Infotainment screen

The world at your fingertips. With the 13" touchscreen, the new Škoda Infotainment offers an even clearer way of displaying all the information and entertainment features that will make travelling a truly enjoyable experience.

Display cleaner

Screens always clean and shiny. Easily remove smudges and fingerprints from the infotainment display or any other shiny surface. Display cleaner is neatly stored in the centre console, so it's always easily on hand any time you need it.

Ambient lighting

Adjust the style of your car's interior to suit your current mood. The ambient lighting on the dashboard and both front and rear doors can be set to any colour you like, instantly changing the overall atmosphere.

Never lose connection

In today's digital world, everything is just a touch away. Use the intuitive infotainment screen to effortlessly set up your car or navigate to your destination with ease. Plus, enjoy the convenience of wireless smartphone charging, ensuring your devices stay powered up and ready to go on every journey.

SmartLink

Stay connected on the go with SmartLink, which allows you to effortlessly connect your smartphone to the infotainment system. With Apple CarPlay and Android Auto as standard across the range, you can access your favorite apps right from the dashboard.

Dual wireless charging

Arrive at your destination with a fully-charged smartphone. Simply place your compatible device on the wireless charging pad to start receiving power. Plus, the integrated cooling function helps prevent your phone from overheating.

First-class comfort for up to seven passengers

Even more space for your family or friends. The new larger interior offers comfortable seating in three rows with more room than ever before. The passengers in the third row get an extra 15 millimetres of headroom compared to the previous model. The third row of seats is easy to fold under the boot floor if you need more luggage space.

Bigger and more spacious than ever

With the rear seats folded, you get an impressive 2,035 liters of space. That means ample room for everything important to you. Plus, the release button makes folding the rear seats effortless.

More room for your everyday life

There's always room for more toys, more snacks, and the occasional four-legged friend. After all, life's too short to let anything hinder quality family time away especially a lack of space.

Spacious storage

Several spacious storage compartments have been included in the interior to help you keep it looking its best.

Jumbo box

Increased storage space thanks to the repositioned gear selector, equipped with cup holders and handy storage compartments, the Jumbo Box will store your gadgets, house keys and books.

Stylish, Comfortable, and Sustainable

The new Kodiaq's interior is not only stylish and comfortable but also sustainable. Its attractive look is achieved using a variety of eco-friendly materials. The seat upholstery features ecologically tanned leather made with residues from coffee bean production. Additionally, the traditional chrome has been replaced with the new and much cleaner Unique Dark Chrome. This change enhances both the vehicle's modern solid look and its commitment to sustainability.

Design Selection ecoSuite Black

Perforated black leather/leatherette upholstery dominates the stylish interior. The overall look is highlighted by grey cross-stitching on the dash and Swan drawing Grey décor, underscored by ambient lighting.

State-of-the-art assistance systems

Equipped with numerous assistance systems, the Kodiaq offers enhanced active and passive safety and comfort. New and improved systems such as Travel Assist, Attention and Drowsiness Assist provides enhanced visualisation of nearby vehicles as well as increased range of detection. These state-of-the-art assistance systems offers maximum protection and a smoother, stress-free drive.

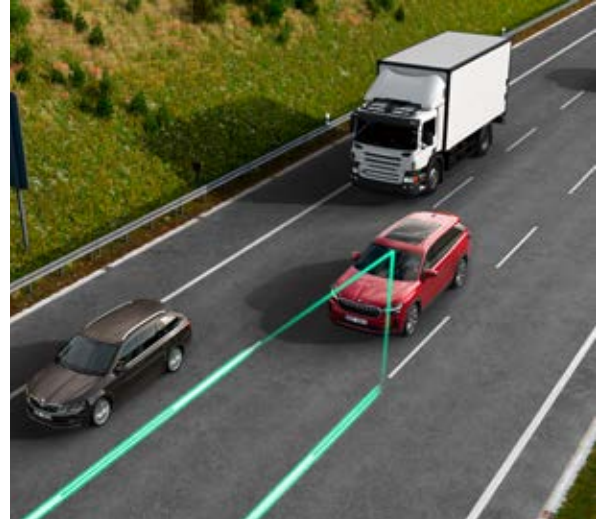

Front Assist

Using radar sensors and cameras, Front Assist monitors the traffic ahead, detecting vehicles, pedestrians, and other obstacles. If the system senses a potential collision, it provides a visual and audible warning to the driver. If the driver does not respond in time, Front Assist can automatically apply the brakes to reduce the severity of a collision or potentially avoid it altogether. This feature enhances safety by helping to prevent accidents and protecting both passengers and pedestrians.

Lane Assist

Using a camera mounted on the windshield, Lane Assist detects lane markings on the road. If the system senses the vehicle unintentionally drifting out of its lane without signaling, it gently steers the car back into its lane. This feature is particularly useful on highways and long-distance drives, enhancing safety and reducing the risk of accidents caused by unintentional lane departures.

Side Assist with Exit Warning System

Using radar sensors at the rear of the car, Side Assist detects vehicles approaching from behind or that are in the car's blind spot. The driver is informed of this using a LED signal on the inside of the wing mirror housings. Additionally comes with Exit Warning system which detects an approaching object, it warns both the front and rear occupants visually and audibly about the potential danger of exiting the vehicle.

Travel Assist

Experience the convenience of Travel Assist, which integrates several advanced systems and functions. When activated, Travel Assist can automatically adjust your car's speed according to the surrounding traffic, keep the vehicle in its lane, and even handle stop-and-go situations in traffic jams. Enjoy a smoother, more stress-free drive with Travel Assist taking care of the details.
