

ŠKODA

SUPERB

ŠKODA
SIMPLY CLEVER

WHAT IS ŠMART?

Is it just a word? Just a label? Just a category?

No. It's more. Much more.

ŠMART is intuition, turning intelligence into value
And taking it to the streets

Making small feel big
Making inexpensive feel awesome

Making performance and comfort sync like never before

After all, who would say 'no' to feeling good?

ŠMART is owning your ride
Instead of having it own you

High quality without the high price tag
In a car you really really want to drive

ŠMART is a status you expect
because you've earned it

And will do so year after year after year

Performance + Reliability + Safety + Quality + Value

That's what ŠMART is
ŠKODA ŠMART

WHAT IS IT ABOUT THE SUPERB

Imagine a car that blurs the line between elegance and functionality. Where stylish comfort and spaciousness are in perfect harmony. Where there's room for everything except compromise. We imagined such an ambitious car. And we call it the ŠKODA SUPERB, with good reason. Winning more than 26 awards internationally between 2015 – 2017, the ŠKODA SUPERB is an instant conversation starter and the perfect car of choice for family and business alike.

GEOMETRY OF BEAUTY

The SUPERB's design invites you not just to look, but to look closer. The signature angular contours and sharp dynamic lines prove how the beauty of the whole is revealed in every exciting detail. The result is a rousing display of precision and purpose.

FRONT VIEW

The imposing lines of the bonnet are complemented by the profiled contours of the Bi-Xenon headlights (with LED daytime running lights) and equally crisp front fog lamps – their design paying homage to Czech glass-making.

REAR VIEW

The interaction between convex and concave forms on the rear of the car creates a striking interplay of surface light. The LED technology combined with crystalline elements in the distinctive C-shaped rear lights further adds to the feeling of poised elegance while crystalline elements appear in the unlit area of the rear lights for a distinctive look.

SIDE VIEW

The style quotient of the car is underlined by the decorative door sill strips with the SUPERB inscription – a clear nod to the car's overall blend of form and function. In addition, the external side view mirrors retract automatically once you lock the car; something you'll especially appreciate when parking on packed city streets. The mirrors also feature automatic dimming and memory functions.

TRAVEL IN BUSINESS CLASS

Sometimes you just need your space. The SUPERB offers ample room in all directions for you and your passengers.

COMFORT

The interior offers a luxurious 1,507 mm in width and 991 mm of headroom for the driver and front passenger.

BOOT CAPACITY

The luggage compartment capacity puts the SUPERB at the top of its class with boot space of 625 litres or a massive 1,760 litres after folding down the rear seats.

ELECTRIC BOOT LID*

The boot opens and closes at a mere touch of the button on the remote control or central panel. Especially handy in unfavourable weather. You may also adjust the boot lid position to suit your needs.

*Available only on SUPERB Ambition Plus and above.

ORDER ROOM SERVICE

Loaded with thoughtful features, the SUPERB indulges you in absolute convenience.

PERSONALISATION

The car's infotainment system offers great personalisation options. These include setting the driving mode, climatronic air conditioning, navigation system and more. A personalised car is provided with three keys, so each driver in your family can use their own key.

DRIVER SEAT WITH MEMORY

The electronically-adjustable driver seat with built-in memory can store three different seat and external side-view mirror positions.

BOARDING SPOTS

Avoid puddles in the dark. Boarding spots with LEDs, designed to illuminate the entry areas, are located on the external side-view mirrors.

MORE INSIDE THAN MEETS THE EYE

Underneath the stylish exterior of the SUPERB lies a perfect example of solid, reliable ŠKODA engineering. In its class, the SUPERB isn't just ŠMART, it's technically ahead.

SMARTLINK

SmartLink delivers an elegant connection between car and smartphone by supporting Apple CarPlay, Android Auto and MirrorLink technologies. Whether you want to select and listen to music on your smartphone or receive turn-by-turn directions, all of these are mirrored on the central display.

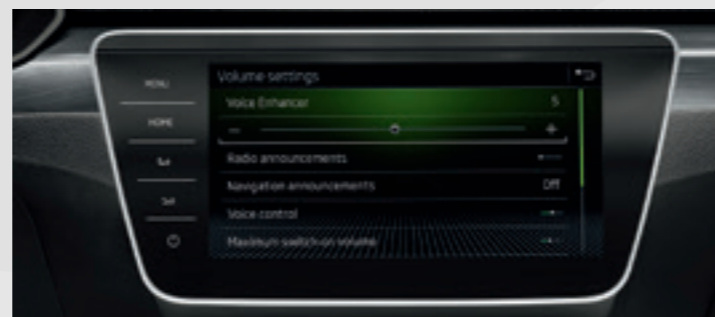

BOLERO

The Bolero radio with an 8" colour touch-screen display offers USB and SD card slots, Bluetooth, SmartLink system and eight speakers. The device can be used to control the car menu.

IN-CAR COMMUNICATION

Digital voice enhancement improves communication between passengers inside the car by extracting the driver's voice from cabin noise and playing the enhanced speech from rear speakers.

WIRELESS CHARGING

This practical phone compartment, located in front of the gear stick, creates an amplified signal for your mobile device. At the same time, it wirelessly charges your phone while driving.

NEVER LOSE A THING

There's a place for everything, even in your car. The SUPERB features a multitude of compartments, pockets and holders, keeping your elegant interior tidy.

GLOVE COMPARTMENT

The storage compartment in the dashboard on the front passenger side can also be cooled when the air conditioning is on.

HIDDEN STORAGE SPACE

Keep your car tidy. A hidden storage space with a tilting lid for various small items can be found under the passenger seat.

JUMBO BOX

The spacious Jumbo Box storage compartment is housed in the front armrest. You can store your electronic items safely inside or cool it to keep your snacks fresh. A dual drinks holder can also be found in the centre console.

UMBRELLA BOX

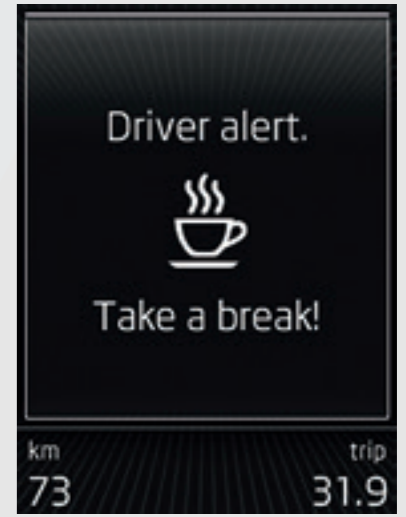

Ingenious compartments for two umbrellas are fitted inside both front doors. They are designed to let water drain away from the car keeping the interior dry.

VIP SAFETY

The SUPERB puts a host of assistants at your service, offering unmatched convenience and safety in unforeseen situations.

BLIND SPOT DETECT*
Using radar sensors in the rear bumper, Blind Spot Detect monitors the blind areas behind and beside the car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

DRIVER ALERT SYSTEM

This clever assistant evaluates data from the power steering sensors to detect any driver fatigue behaviour. In such cases, the Maxi DOT display warns the driver to take a break.

**REAR-VIEW CAMERA*
+ PARK DISTANCE CONTROL**

The rear-view camera displays the visual behind the car on the infotainment screen. Ultrasonic front and rear sensors alert you on what is happening around the car, enabling you to park easily in tight spots.

*Available only on SUPERB Ambition Plus and above.

LAURIN & KLEMENT

INHERIT OUR LEGACY

The Laurin & Klement equipment version is as high-class as it is high-tech. It is the epitome of beauty, originality, safety and maximum comfort. Best of all, you can own it.

BADGE

The car is stamped with the original Laurin & Klement badge on the sides. This inscription says it all: we are devoted to the legacy of our founders and their motto – 'Only the best is good enough for our customers.'

VENTILATED SEATS

Nothing gets as comfortable as turning up the cool seat ventilation on a hot sunny afternoon.

DYNAMIC CHASSIS CONTROL

Enjoy the high performance of your car in maximum comfort and safety. Dynamic Chassis Control (DCC) continuously evaluates and responds to various driving situations (braking, acceleration, turning), adapting the damping and steering characteristics. As part of the infotainment menu, it allows you to select one of the three modes according to your specific requirements: Comfort, Normal or Sport.

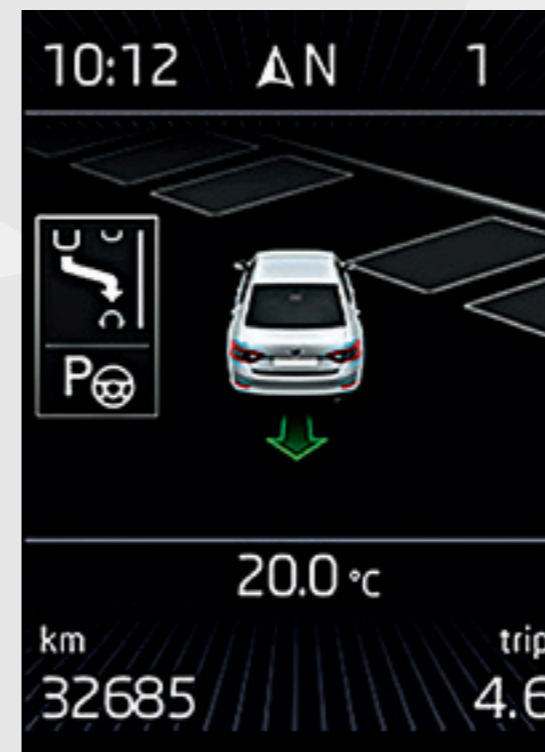

PANORAMIC SUNROOF

Open up new vistas with the electronically-adjustable panoramic sunroof, which will expand the feeling of space.

PARK ASSIST

Minimise the hassle of parking in tight spots with Park Assist. It automatically selects an appropriate parking place in a row of parallel or perpendicularly parked vehicles.

VIRTUAL PEDAL

Got your hands full? Just swipe your foot underneath and your luggage compartment will open for you automatically. The virtual pedal enables contact-free access to the boot.

CANTON

Enjoy absolute sound clarity, whether it's music or the spoken word, on the Canton Sound System with twelve speakers, including a central speaker and subwoofer in the luggage compartment.

COLUMBUS

The new Columbus 3D navigation system features a 9.2" display. The device offers not only convenient touch control, but also gesture control, which enables you to go through the menu and various lists.

THE ROOM IS THE VIEW

Make your space more harmonious and comfortable with soft, cosy ambient lights running along the inside of the car, setting the perfect mood for any journey.

AMBIENT LIGHTING

It's up to you to choose one favourite colour or to complement each day with a different tone. The ambient lighting offers ten amazing colour options.

Green ambient lighting

Amber white ambient lighting
