

C A M R Y

POWER & LUXURY IN PERFECT HARMONY

The new Toyota Camry Hybrid is no mere update. It's a whole new take on our iconic luxury sedan.

Our most powerful Camry yet, a new hybrid powertrain delivering unprecedented levels of performance is paired with dramatic looks and new levels of comfort. The result is a breakthrough drive that immediately demands your attention.

The images in this brochure feature vehicles that may have different details and specifications to those available, depending on the variant.

ALL STYLE. ALL SUBSTANCE.

Engineered for optimal ride quality and handling, the new Camry Hybrid's wide, low stance hints at a new sense of purpose—a powerful, renewed focus on incredible drive quality.

1/

LED HEADLIGHTS

A masterpiece of form and function, the LED headlights have Daytime Running Lights and Auto High Beam to ensure maximum safety and visibility for you and other road users.

2/

18" ALUMINIUM RIMS*

Perfectly designed to match the flowing lines of the new Camry Hybrid, the 18" Aluminium Rims have a bright machined finish and contrasting black accents.

3/

BOOT LID SPOILER*

Looking sharp from behind, this aerodynamic spoiler adds to the sleek, bold, sporty looks of the new Camry Hybrid.

4/

CHROME DUAL EXHAUST TIPS*

This bold feature hints at the dynamism and power of the new Camry Hybrid.

5/

AUTO FOLDING MIRRORS

Maintaining the Camry's sleek silhouette, the mirrors automatically fold back once the door is locked, keeping them out of the way in Singapore's tightest parking spots.

*Exclusively available with the Camry Hybrid Elegance Variant

4/

5/

The image shows the front interior of a Toyota Camry Hybrid. The dashboard is black with a large, rectangular infotainment screen in the center. The screen displays a user interface with icons for Radio, Audio Player, Video Player, Phone, Applications, Music Link, Settings, and Auto Mode. Below the screen are air vents and climate controls. The steering wheel is black with the Toyota logo in the center and various control buttons on the spokes. The instrument cluster behind the steering wheel shows the time 07:34 AM and a speedometer. The center console has a gear shifter and handbrake. Red leather accents are visible on the dashboard, door panels, and center console.

A WORLD OF **LUXURY** AWAITS

Open the door to the new Camry Hybrid and you open up a world of comfort. The elegant, spacious interior is fully-equipped to make every journey a positive pleasure.

1/
HEAD-UP DISPLAY*
Projecting important information onto the windscreen means you can stay focused on the road.

2/
**APPLE CARPLAY®
& ANDROID AUTO™**
Stay in control of your entertainment by connecting your chosen mobile device to the Camry's Audio Display Head Unit.

3/
WIRELESS CHARGING
As long as it's compatible with the Qi wireless charging system, your mobile device will always be ready to go if you keep it placed on the Camry's wireless station.

4/
RAIN SENSING WIPER*
To keep you safer and reduce distractions, you don't have to take your eyes off the road even when it rains. A sensor will detect the drops and automatically start your wipers.

5/
**DUAL ZONE AIRCON
WITH REAR VENT**
Create your own comfort zone. Dual-zone air-conditioning enables driver and front-seat passenger to each select different temperatures. While rear-seat passengers also benefit from having their own aircon vent, ensuring everyone stays cool and comfortable.

*Exclusively available with the Camry Hybrid Elegance Variant

INDULGE IN SPACE AND FUNCTIONALITY

Stretch out and relax on the ventilated, luxurious front seats inside the capacious cabin of the sedan that's ready for anything. With versatile 60:40 rear folding seats, a functional, wide cabin length, and 524 litres of boot space, rest assured that you'll have more than enough space to take everything you need on the road.

HYBRID

THE **MOST POWERFUL** & ADVANCED CAMRY YET

A new 2.5 litre Dynamic Force Engine with the Toyota Hybrid System makes this the most powerful Camry we've ever produced, incorporating an array of Toyota's most advanced technologies:

1/ Toyota's D-4S technology utilizes both Direct and Port fuel injection to enhance both output power and fuel economy.

2/ Variable VVT-iE and the Electric Water Pump further enhance overall engine performance.

3/ A combination of a longer engine stroke, a widened angle of the valve, and a laser-cladded valve seat strengthens the tumble flow, achieving high speed combustion.

4/ The Sequential Shiftmatic gearbox mimics a manual shift and produces an agile and highly responsive drive, creating a spirited performance and greater driving enjoyment.

QUICK ON ITS FEET

This elegant **combination of power and responsiveness delivers 155 kW (207hp)**. This will take the Camry Hybrid from **0 to 100 km/h in 8.5 seconds** and on to a maximum speed of 180 km/h, whilst generating CO₂ emissions as low as 101 g/km and returning combined **fuel consumption figures of just 4.4 l/100 km**.

THE ENHANCED **HYBRID EXPERIENCE**

5 KEY BENEFITS OF HYBRID AT A GLANCE

- 1/
Self-sufficient and self-charging, so there's never a need to plug the vehicle into a power outlet.
- 2/
Outstanding fuel economy at 4.4l/100km.
- 3/
Up to 50% zero emission driving on an everyday commute with **CO₂ emissions of as low as 101g/km**.
- 4/
Toyota Hybrid System with an Ni-MH battery enables **high performance from a smaller, lighter package**.
- 5/
Enjoy a remarkably **quiet cabin** experience with minimised engine noise and vibration.

Toyota Safety Sense

PRE-COLLISION SYSTEM (PCS) with Intersection Turning Assist & Emergency Steering Assist

In certain situations, the **Pre-Collision System** with Pedestrian Detection can detect and alert you to an oncoming vehicle or a pedestrian—including while turning corners.

By combining a millimetre wave radar and a camera capable of recognising shapes, **the system will warn you of a possible collision and, in certain conditions, brake automatically if you don't react in time.**

AUTOMATIC HIGH BEAM (AHB)

This smart sensor detects the headlights and taillights of cars in front of you, and **switches automatically between high and low beams** to ensure you never dazzle other drivers, making driving safer for you and your fellow road users.

DYNAMIC RADAR CRUISE CONTROL (DRCC)

Enjoy effortless cruising with **Dynamic Radar Cruise Control (DRCC)**. Forward-sensing radar technology and an intelligent camera enable the system to detect the speed and distance of the vehicle traveling directly ahead of you and adjust your speed accordingly. In heavy traffic, it **maintains a pre-set following distance**, slowing when it shortens and accelerating back to your original cruising speed when the road clears.

LANE TRACING ASSIST (LTA)

Lane Tracing Assist (LTA) uses the lines on the road and the vehicles ahead of you to **help keep the car centred and in its lane.**

LANE DEPARTURE ALERT (LDA)

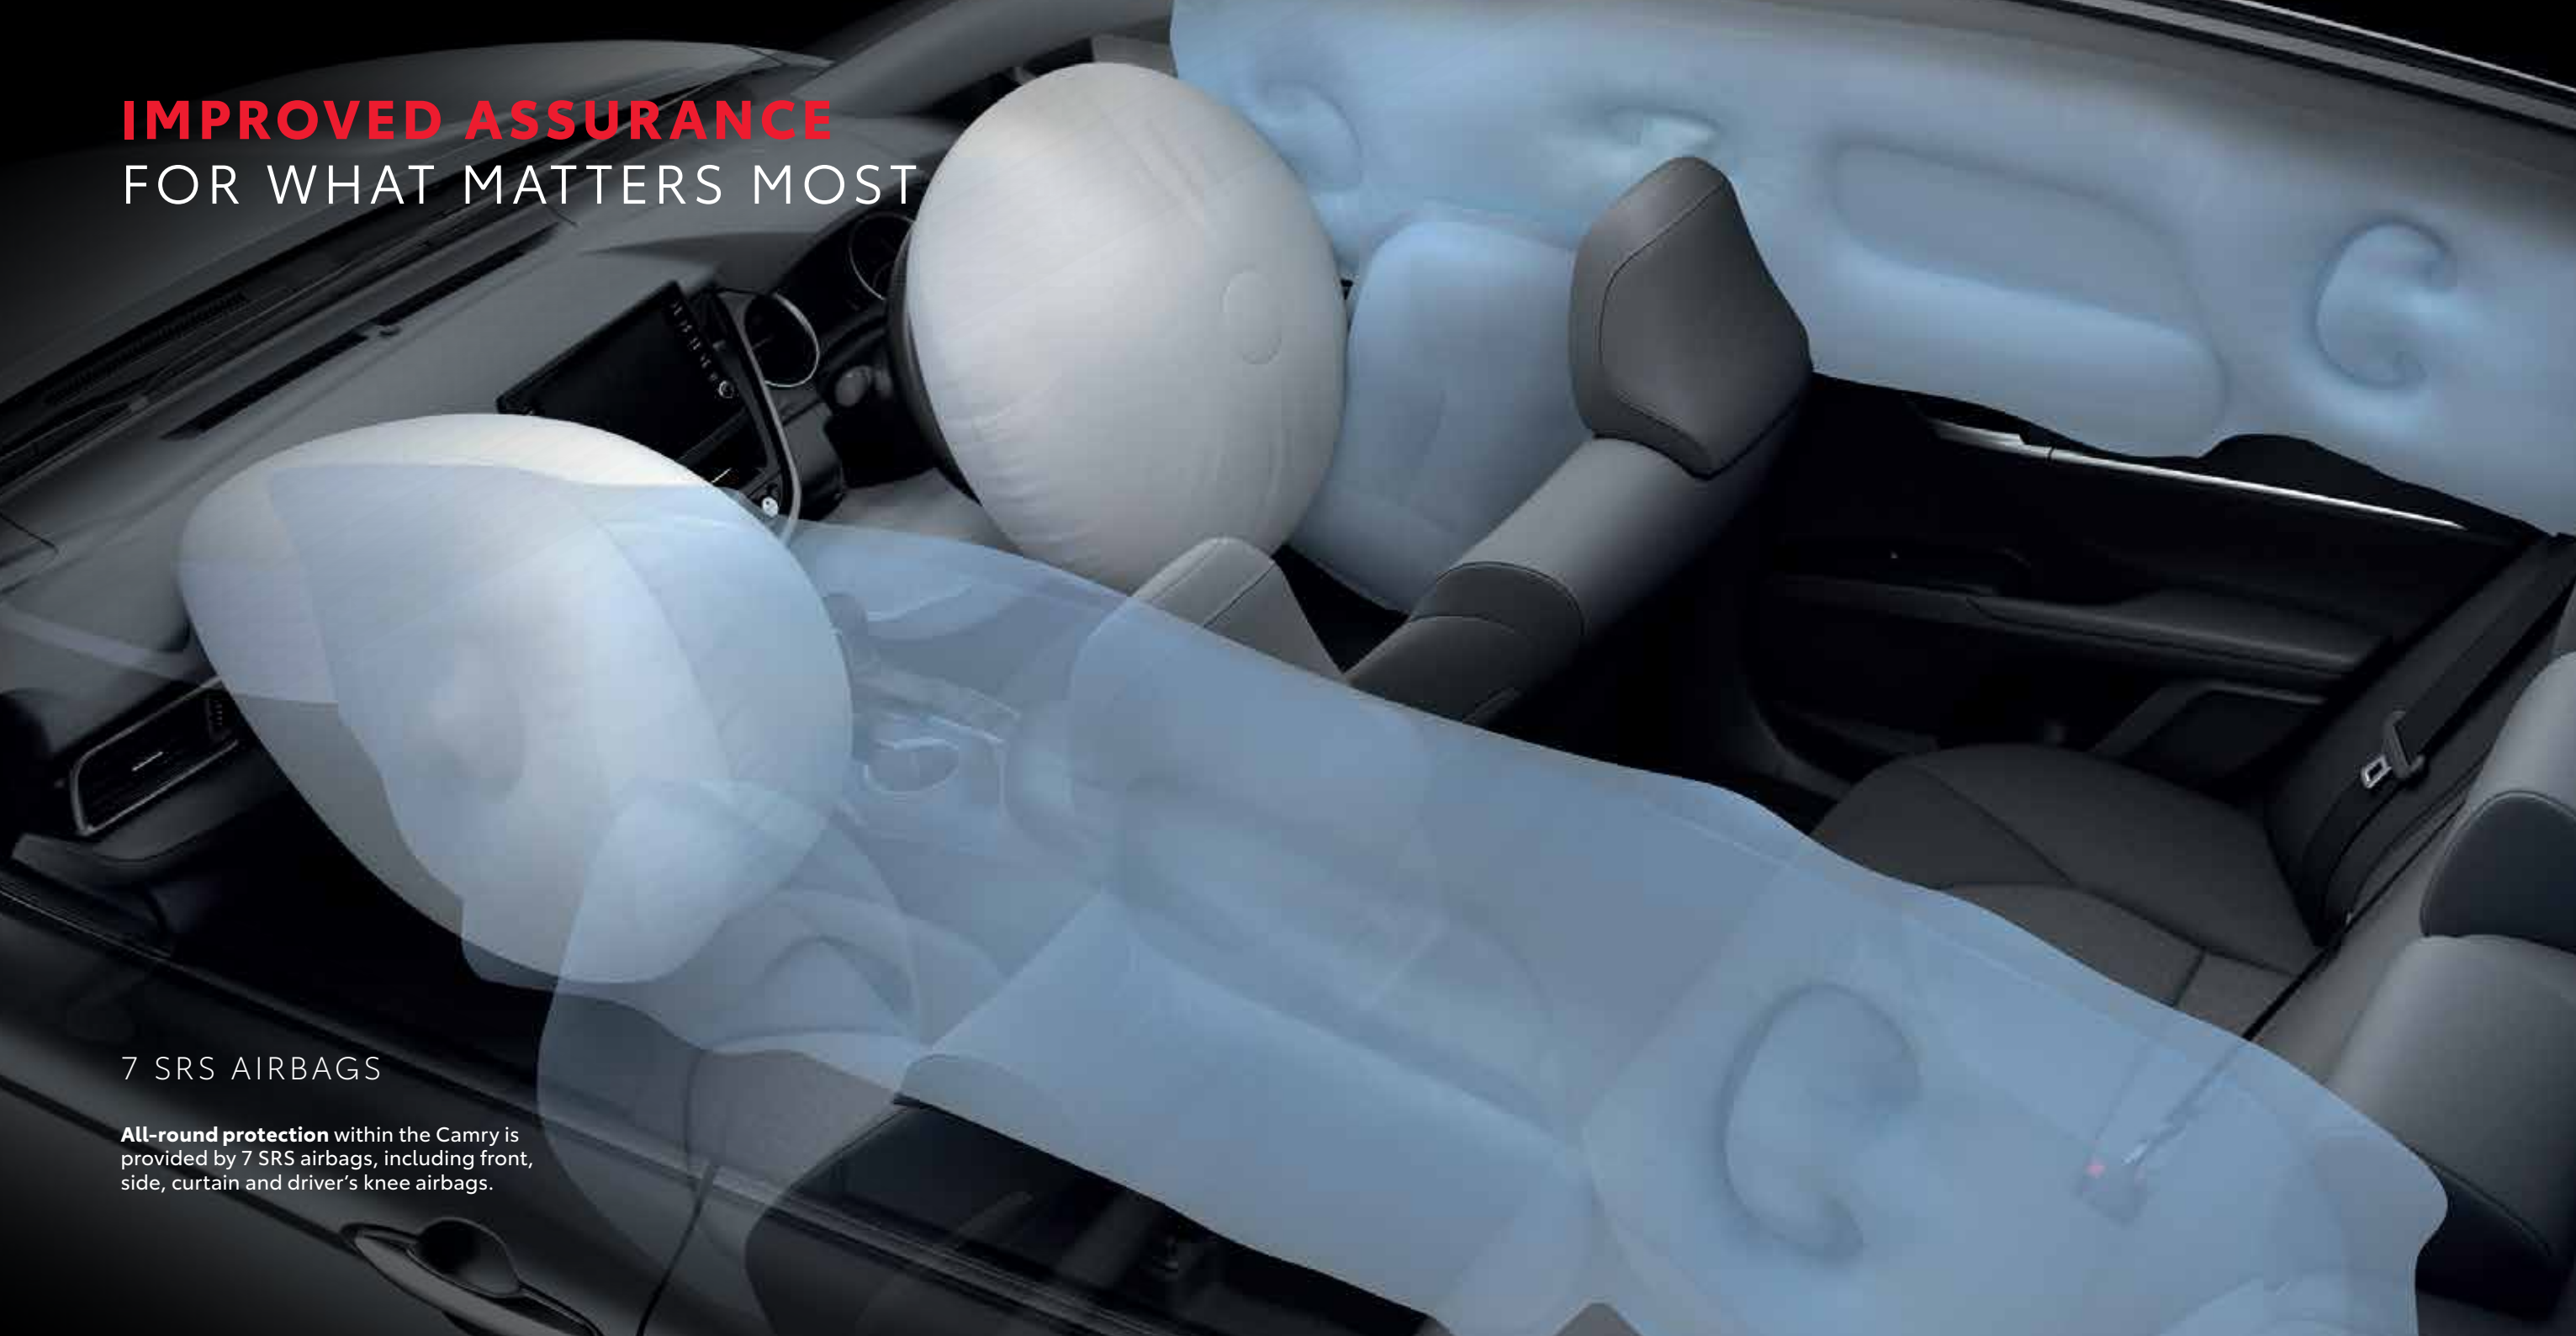

The **Lane Departure Alert (LDA)** system identifies visible lane markings and detects any inadvertent lane departure. It will then give you an audible alert and a visual warning. If the system determines that the driver is not taking corrective steering action, the Steering Assist function is designed to initiate and provide gentle corrective steering to **help your car stay in the lane.**

IMPROVED ASSURANCE FOR WHAT MATTERS MOST

7 SRS AIRBAGS

All-round protection within the Camry is provided by 7 SRS airbags, including front, side, curtain and driver's knee airbags.

BLIND SPOT MONITOR (BSM)

The Blind Spot Monitor, available in the Elegance variant, alerts you to the presence of vehicles that may have entered the blind spots on either side of the vehicle, **helping to make lane changes safer.**
