

Pushing the limits for Better

COROLLA **GR-S**

TUNED BY GAZOO RACING

OVERTAKE THE TWISTS AND TURNS OF LIFE

The all-new Corolla GR-S is packed with everything you love about our popular sedan.

Now, the addition of front and rear anti-roll balance bars ensures improved stability when cornering, so you can take on life's twists and turns with more confidence. The all-new Corolla GR-S delivers the performance and style to make your everyday drives more thrilling.

FROM STARTING GRID TO PRODUCTION LINE

For over 60 years, Toyota has been involved with motorsports of all kinds, all over the world. Toyota Gazoo Racing (TGR) first took to the track in 2007, when the team completed the Nürburgring 24 Hours, paving the way for further success.

Since then, TGR has conquered every imaginable terrain and track, refining everything they've learnt—in the most extreme conditions—to make ever-better cars, pushing the limits to forge new technology and solutions.

Toyota Gazoo Racing's ambition is to put exhilaration, the sheer joy of driving and sporting performance safely into your hands. So, whatever your ambitions are, you can race them.

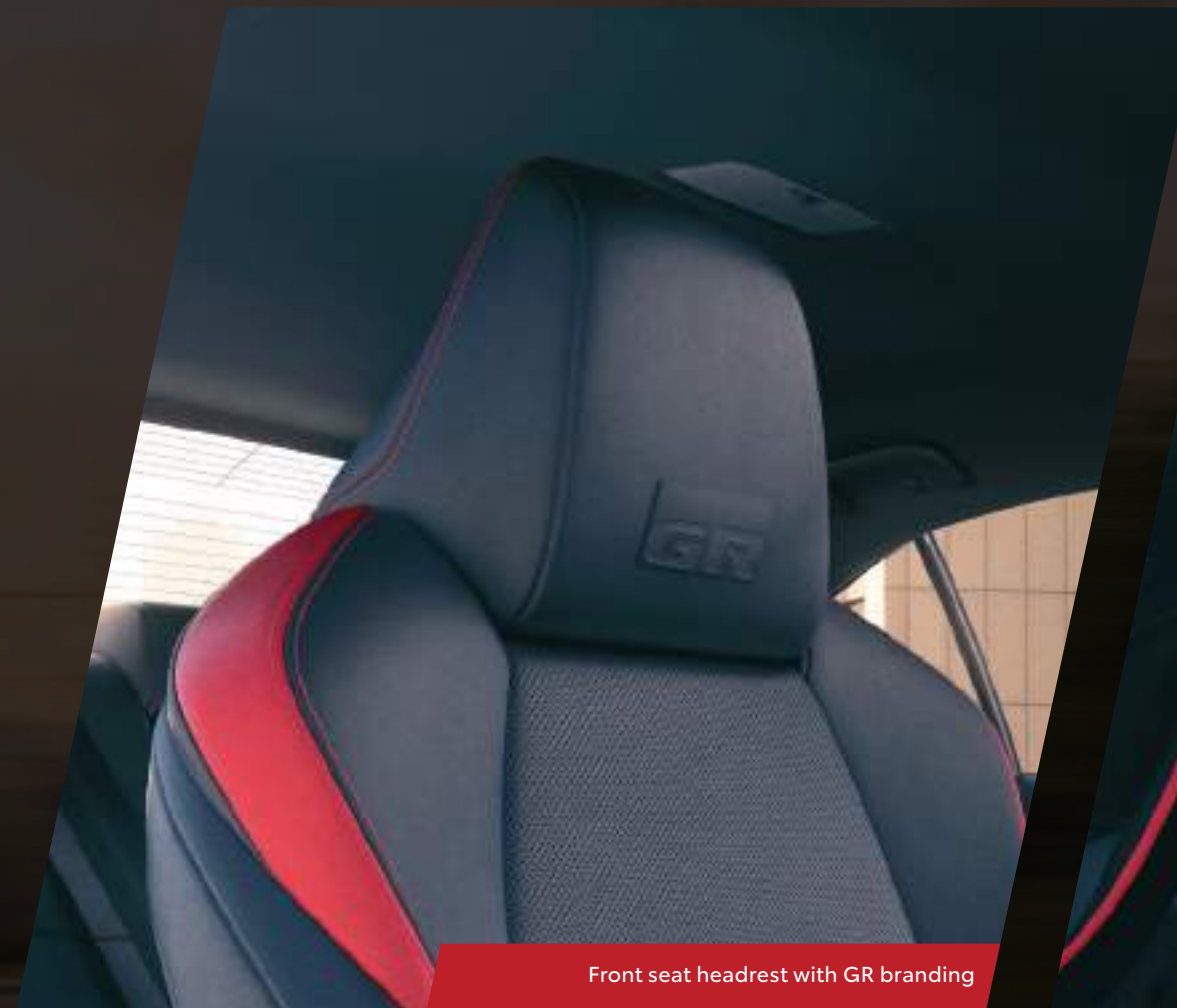

GR-exclusive black and dark red interior

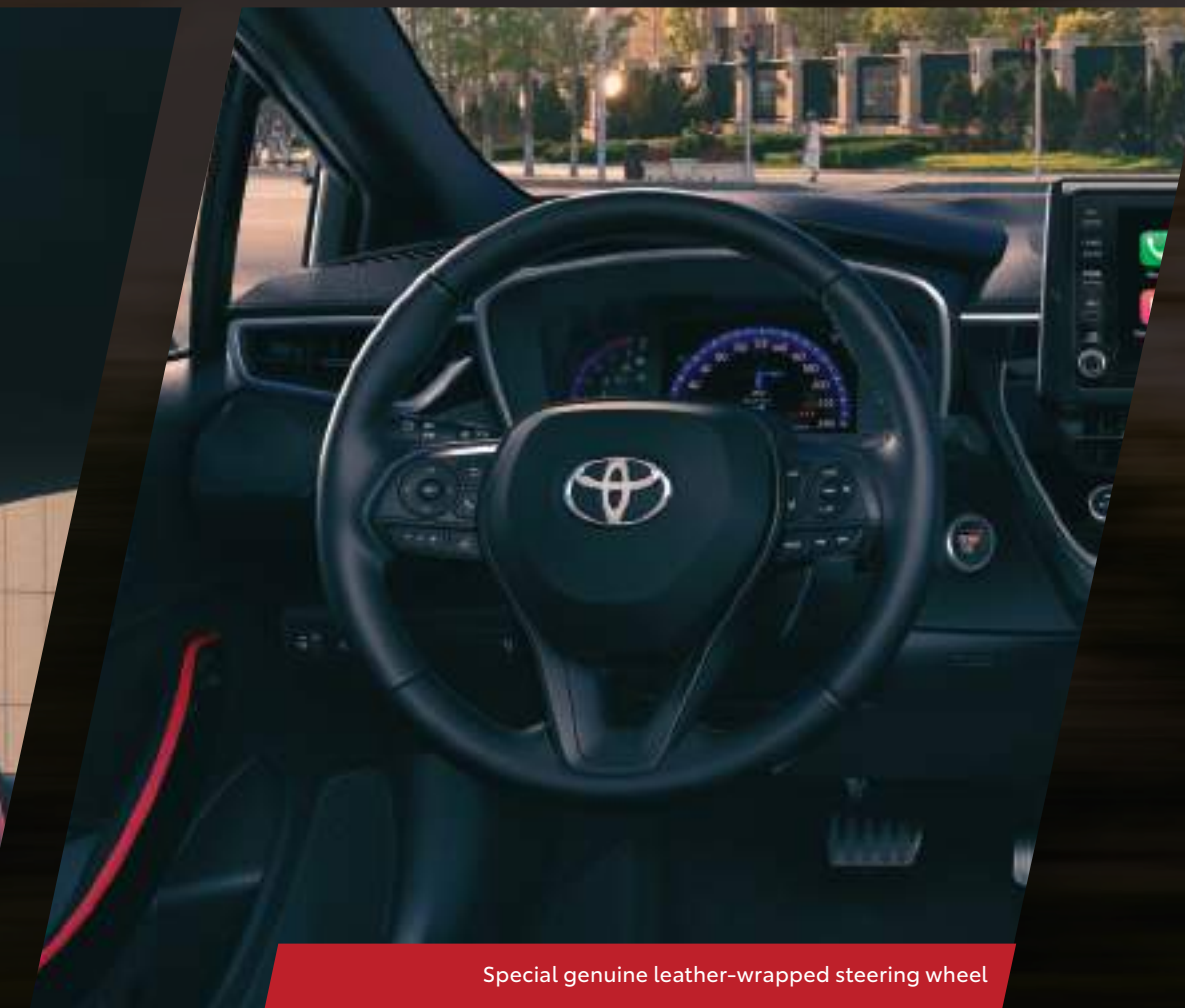

THE RACING TOUCHES ADDED TO THE INTERIOR

The interior of the all-new Corolla GR-S is impeccably styled in sporty red and black, so you can experience its exhilarating racing spirit both inside and out. On the dashboard, the ergonomic interface with intelligent driver assistance makes even everyday commutes more exciting.

The custom-designed seats in the Corolla GR-S are crafted to ensure maximum comfort, while the red stitching and the embossed GR-S logo on the headrests enhance your style. The leather steering wheel offers perfect grip and unmatched control to help you race through your day.

THE DYNAMICS OF ITS ALL-ROUND SPORTIER EXTERIOR

Outside, the special black radiator grille and the rear spoiler accentuate the exhilarating, sporty nature of the Corolla GR-S. The 17" rims with high-performance tires deliver enhanced grip so you get better road feedback. The specially developed four-wheel aerodynamic deflector successfully reduces wind resistance and maintains high-speed driving stability.

Toyota
Safety
Sense

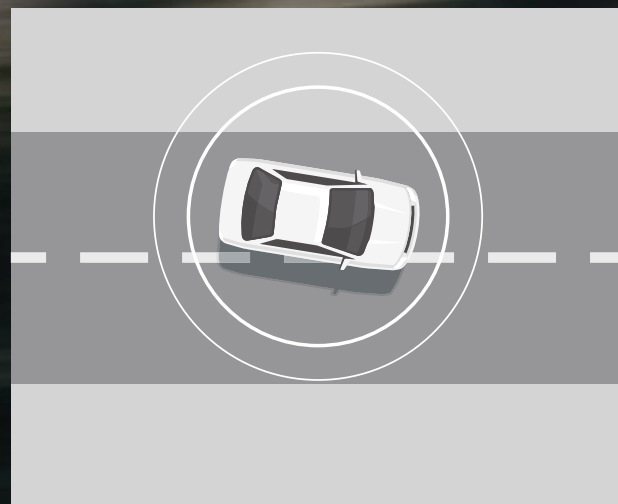

TOYOTA SAFETY SENSE

Toyota Safety Sense is a combination of several cutting-edge safety systems: Pre-Collision System with Pedestrian Detection, Lane Departure Warning with Steering Assistant and Dynamic Cruise Control. These safety features utilise a millimetre-wave radar sensor and an in-vehicle camera to help ensure you stay safe on the road at all times.

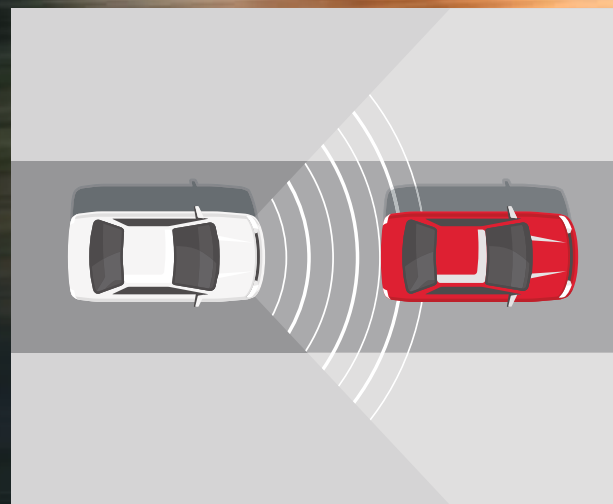

PRE-COLLISION SYSTEM

The Pre-Collision System with Pedestrian and Cyclist Detection can detect and alert you to an oncoming vehicle or a pedestrian/cyclist in certain situations. By combining a millimetre-wave radar with a camera capable of shape recognition, the system will warn you of a possible collision and, in certain conditions, brake automatically if you don't react in time.

LANE DEPARTURE WARNING WITH STEERING ASSIST

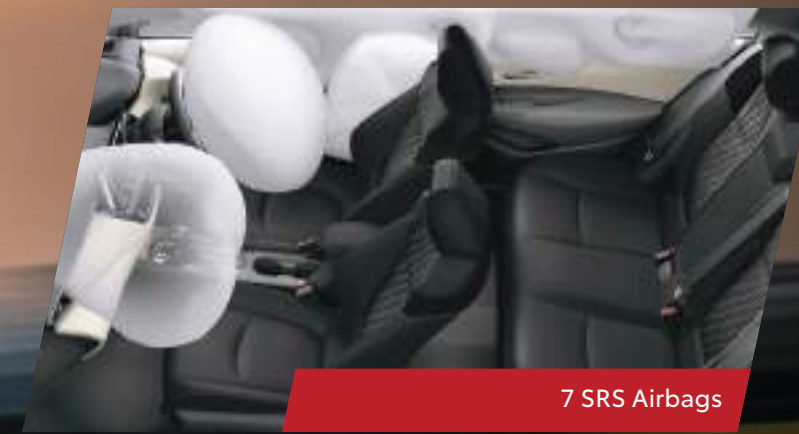

The Lane Departure Warning system identifies visible lane markings and detects an inadvertent lane departure. It will then issue both an audible alert and visual warning on the Multi-Information Display (MID) screen. If the system determines that the driver is not taking corrective steering action, the Steering Assist function is designed to initiate and provide gentle corrective steering to help your car stay in the lane.

DYNAMIC CRUISE CONTROL

Dynamic Cruise Control takes cruising to the next level. Using forward-sensing radar technology and an intelligent camera, the system is designed to detect the speed and distance of the vehicle traveling directly ahead of you and adjust your speed accordingly. In heavy traffic, it maintains a pre-set following distance, slowing when it shortens and accelerating back to your original cruising speed when the road clears.

ADDED SAFETY FEATURES

7 SRS Airbags

Rest assured that you'll have greater protection anywhere in the cabin with front, side, curtain and driver's knee airbags.

Blind Spot Monitoring System

Don't get caught unawares. A warning signal on the outer mirror alerts you when a vehicle in the next lane enters your blind spot.

SPECIFICATIONS

TOYOTA COROLLA GR SPORT

DIMENSIONS AND WEIGHTS		
Overall	Length (mm)	4,635
	Width (mm)	1,780
	Height (mm)	1,435
Wheelbase	mm	2,700
Min. Turning Radius	m	5.4
Kerb Weight	kg	1,370
Boot Space	l	468

ENGINE, MOTOR AND TRANSMISSION

ENGINE		
Engine Code/Type	1ZR-FAE 4-cylinders Inline Engine	
Valve Mechanism	DOHC 16-valve
