

JOHN COOPER  
WORKS

THE MINI  
**JOHN COOPER WORKS**  
FAMILY.

## TRUE LEGENDS ARE REWRITTEN EVERY DAY.

Very few people are prepared to commit to the challenge of ceaseless self-improvement. One of these people was John Cooper. A construction genius, he saw the future rally champion in the classic Mini the moment he saw it. The Mini Cooper won the Monte Carlo Rally three times, beating the much more powerful engines of its competitors to the finish line. Our four high-performance John Cooper Works models continue the great tradition of these racing legends.

Powerful engines, specially designed chassis and braking systems are the foundation for their extraordinarily dynamic drive. Even with standard equipment, you can feel the dynamic alignment throughout the vehicle. Characteristic detailing and high-performance technology enhance the authentic motor racing sensation on every journey. In a MINI John Cooper Works, you'll feel like a champion on every inch of the road.

## READY FOR A FAST LAP?

At the heart of both the MINI John Cooper Works 3-door Hatch and MINI John Cooper Works Convertible beats the same powerful 170 kW/231 hp MINI Twin Power Turbo engine, boasting a mighty 320 Nm of torque for lightning sprints. The 3-door accelerates to 100 km/h in just seconds from a standing start, with the MINI Convertible reaching 100 km/h in just seconds.

Always as standard: Sport suspension for outstanding road holding and the Aerodynamics kit with John Cooper Works specific air inlets for the ultimate in engine and brake cooling, side skirts in body colour and a rear apron with an understated diffuser insert for optimal airflow.

# WE'VE DISTILLED THE ESSENCE OF POWER.

Both the MINI John Cooper Works Clubman and new MINI John Cooper Works Countryman are equipped with the most powerful engine that has ever been fitted in a MINI straight from the factory. The turbo engine delivers an impressive 225 kW/306 hp and 450 Nm of torque. Both models feature ALL4 all-wheel drive as standard, which harnesses this tremendous power to secure the utmost in driving stability. The electrohydraulic multi-plate clutch automatically and seamlessly distributes the optimal amount of drive torque between the front and rear axles, whatever the conditions. A mechanical locking differential on the front axle ensures optimum handling round every corner.

Meanwhile, the eight-speed automatic transmission provides the perfect gear ratio between the engine and drive unit. The MINI John Cooper Works Clubman accelerates to 100 km/h in 4.9 seconds from a standing start, with the MINI John Cooper Works Countryman reaching this marker in 5.1 seconds.

## WELCOME TO POLE POSITION.

The MINI Head-Up Display (1) shifts all relevant journey-related data right into your field of vision. And exclusive to John Cooper Works models with automatic Sport transmission, this can also show the current rpm, the gear selected and optimal gear switching point. The red SPORT mode start screen appears in the MINI central instrument panel (2) when starting up.

Anyone sitting behind the John Cooper Works Walknappa leather steering wheel (3) with its JCW badge will feel the superb lateral support in the John Cooper Works sport seats with their optional Dinamica/leather combination\* in Carbon Black (3) and John Cooper Works logo below the headrest.

\* Leather covering on the seat cushions, backrest and headrests front and back

# EXCLUSIVE SPORTS INSIGNIA.

It's never enough to simply unleash extreme power; it needs to be controlled as well. Maximum braking performance comes courtesy of the 4-disc fixed calliper brakes (1) with red brake callipers. The John Cooper Works logo - also displayed on the athletic styling of the side scuttles in Chilli Red (4) - stands for quality tested at racing-level standards.

Greater downforce and improved road holding at increasing speeds are provided by the John Cooper Works front spoiler (2) and John Cooper Works roof spoiler (5). The double tailpipes of the John Cooper Works Sport exhaust system are positioned central to the rear diffuser on the 3-door (3) and Convertible, while the stainless steel tailpipes of the double-flow exhaust system on the Clubman and Countryman are both integrated externally into the bumper.

# WHICH COLOUR FINISHES FIRST?

The MINI John Cooper Works models come in an array of paintwork options. Some of these are tied exclusively to specific models. Alongside Jet Black as contrasting colours for the roof and exterior mirror caps, Chilli Red is also available exclusively for the John Cooper Works models. An exception here is of course the Convertible roof. This comes in a MINI Yours version with woven Union Jack design.

# READY FOR A TEST DRIVE IN A CLASS OF ITS OWN?

Familiar roads, like you've never driven them before-on a test drive in one of the most dynamic and exciting MINI John Cooper Works models of all time. Your MINI Partner is looking forward to hearing from you.

## SMART SERVICE, INTELLIGENT TECH.

### MINI TELESERVICES.

MINI Teleservices lets your MINI Service Partner connect with your vehicle. Wherever you are, we are there for you. If necessary, your MINI will connect you directly to emergency or repair services so that you can get help quickly.

But that's not all: this intelligent technology informs your preferred MINI Service Partner when, for example, an oil service is due or the battery charge level drops to a critical level. Your MINI Service Partner will then contact you to arrange a service appointment.

# NO RISK. MORE FUN.

## MINI SERVICE INCLUSIVE.

Everything covered in one. Life is full of so many surprises, and from now on, you have a dependable companion that's ready to share all your new adventures. That's because your MINI knows exactly if and when an inspection is due all by itself. And to make sure you're not surprised by unexpected service costs, there's MINI Service Inclusive. The principle: you receive the attractive Service Inclusive offers for new vehicles when purchasing a new MINI, or until the first inspection is due—you pay only once and all included service and maintenance work is covered for the term you choose. Let individual bill costs float away in your slipstream. Your MINI is always in the best of hands—at all participating MINI Service Partners around the world.

## ENHANCE YOUR QUALITIES.

### Maximise your character with the wide range of John Cooper Works Accessories.

Why not enhance your John Cooper Works. Look as aerodynamics as possible with the JCW Air Inlet in Stitched Carbon or keep things sporty yet tidy with the JCW Floor Mats.

Make the interior of your John Cooper Works your favourite place to be. With the JCW Steering Wheel, your grip on the wheel is as smooth as your style. Like with most things in life, it's the little things that bring out the most fun. The JCW Door Pins are a good example of this, as well as the JCW Tailpipe Finisher in Carbon Fibre.

1 JCW Steering Wheel. 2 JCW Air inlet, Stitched Carbon. 3 JCW Trunk Lid Grip, Stitched Carbon. 4 JCW Tailpipe Finisher in Carbon Fibre.
