THE BMW 4 SERIES COUPÉ, CONVERTIBLE AND GRAN COUPÉ.

www.bmw.co.uk/efficientdynamics

**MORE POWER
FROM LESS FUEL.**

More power from three to twelve cylinders. Consume less, experience more – the **BMW TwinPower Turbo** engines offer the greatest possible dynamic performance with the greatest possible efficiency thanks to the newest injection systems, variable output control and sophisticated turbocharger technology. Whether diesel or petrol, and no matter how many cylinders, the engines from the BMW EfficientDynamics engine family allow more agile power delivery and outstanding responsiveness even at low rpms, while being fuel-efficient and low in emissions.

**MORE DRIVING PLEASURE,
LESS EMISSIONS.**

BMW EfficientDynamics includes not only the engine and drivetrain, but rather the whole vehicle concept, including intelligent energy management. Provided as standard in every BMW, a variety of innovative technologies contribute to continuously improving efficiency. Via engine efficiency measures, electrification, lightweight construction methods and optimised aerodynamics, BMW has managed to reduce the CO₂ emissions of its fleet by 33% since 2000.

**MORE SPEED,
LESS WEIGHT.**

Lower weight with intelligent lightweight construction. Special consideration for every last detail – intelligent lightweight construction means that the optimal material is found and implemented for each part of the vehicle. With extremely light high-tech materials such as aluminium and carbon fibre, **BMW EfficientLightweight** is pursuing the goal of minimising vehicle weight. That leads to even more dynamic performance, increased stability and heightened vehicle safety and comfort.

**BRAKE ENERGY
REGENERATION**

Brake Energy Regeneration uses the energy that is created when the driver eases off the accelerator or brakes. Thus, the alternator is used efficiently, and kinetic energy that so far went unused can now be turned into electric energy to charge the battery. Fuel consumption is reduced and performance increases.

AERODYNAMICS

Every BMW boasts an excellent drag coefficient, thanks to aerodynamic optimisations that complement each other perfectly. This in turn has a positive effect on efficiency and fuel consumption. Examples include the flat undercarriage cover and aerodynamically optimised exterior mirrors.

**INTELLIGENT START/STOP
FUNCTION**

The Automatic Start/Stop function switches off the engine when the vehicle comes to a temporary standstill (e.g. at traffic lights or in a traffic jam), which can reduce overall fuel consumption. When the driver presses down on the clutch (manual) or takes their foot off the brake (automatic), the engine automatically starts up again in a fraction of a second.

**THE BMW 4 SERIES COUPÉ, CONVERTIBLE
AND GRAN COUPÉ – DYNAMIC AND EFFICIENT.**

REGISTERS UP TO **360** DEGREES OF THE VEHICLE'S SURROUNDINGS.

Enjoy the greatest convenience and the highest level of safety with BMW ConnectedDrive. For driving, parking and visibility, the BMW ConnectedDrive driver assistance systems are there when you need them, reliably, in every situation. The most cutting-edge systems, such as radar, ultrasound and cameras, dependably register the vehicle's surroundings, forming the basis for intelligent driver assistance systems. Whether activated when desired, or as emergency assistance in the background – the assistance systems from BMW ConnectedDrive make every drive in your BMW safer and more convenient.

CONNECTED FOR OVER **40** YEARS.

Focused on the future – from the very beginning. By the 1970s, BMW had already made headway in connected mobility. Another milestone of the digital future was surpassed in 1999 with vehicles with built-in SIM cards. Then came the first online services, Google Services and innovative driver assistance systems such as BMW Head-up Display. Throughout this process, the desires of the customer have always taken centre stage. As the first premium automobile manufacturer, BMW makes it possible to book and pay for services flexibly via the BMW ConnectedDrive Store, in the vehicle or on a computer at home. With the introduction of BMW Connected and the Open Mobility Cloud, BMW is taking the next steps into the future of mobility.

IN TOUCH **24/7** WITH BMW CONNECTED.

What would it be like if you were never late again? What if your BMW already knew your preferred destinations? How would you like reliable navigation, whether you're sitting in your vehicle or not? BMW Connected provides you with the information you want, when and where you want it. BMW Connected is a personal mobility assistant which facilitates your everyday mobility and aids you in reaching your destinations relaxed and on time. With the BMW Connected app, mobility-relevant information such as recommendations for optimal departure times are available at any time via smartphone or smartwatch and can be seamlessly transmitted to the car.

MORE THAN **20** SERVICES IN THE BMW CONNECTED DRIVE STORE.

ConnectedDrive Services forms the basis for intelligent BMW ConnectedDrive functions, as well as for the integration of selected smartphone apps. This equipment also provides access to the BMW ConnectedDrive Store, in which services and apps can be ordered or extended any time and anywhere to suit the user's individual requirements – for example with Concierge Service or Online Entertainment, which can turn every drive into a convenient and entertaining experience.

BMW CONNECTED.

BMW Connected is a personal mobility assistant which facilitates everyday mobility and assists drivers in reaching their destinations relaxed and on time. Relevant mobility information, such as recommendations for optimal departure times, are available outside of the vehicle via a compatible smartphone or compatible smart watch, and can be seamlessly transmitted to the vehicle.

PARK ASSIST.

Park Assist^{1,2} makes parking simple. The system works by measuring potential parking spaces while driving past at a low speed. When a suitable space has been found, the Park Assist takes over the steering, while the driver is responsible for selecting the correct gear, as well as pressing the accelerator and brakes.

DRIVING ASSISTANT.

Driving Assistant^{1,3} combines the Lane Departure Warning and approach control warning systems. When travelling at speeds up to 35mph, the approach control and person warning with light city braking function issues a warning if there is a risk of collision with vehicles or pedestrians, and brakes the vehicle in the event of an emergency. At speeds above approximately 45mph, the Lane Departure Warning draws the driver's attention to an unintentional lane change by means of slight vibrations of the steering wheel.

SURROUND VIEW.

Surround-view^{1,2,4} includes the camera-based functions Top-view and Side-view. Cameras in the exterior mirrors and a rear-view camera allow a 270° view to be shown on the Control Display, as well as an overhead view. Side-view makes it easier to approach intersections and side roads with difficult visibility.

¹ Available as optional equipment.
² Only available with and included in Advanced Parking package.
³ Function may be limited in darkness or in fog.
⁴ Only available with Reversing Assist camera.

SUSPENSION AND SAFETY.

■ Standard equipment □ Optional equipment

The **Variable Sport steering** with Servotronic creates a direct and agile steering response and ensures less physical effort is required to turn the wheel. It reacts to the angle of the steering wheel with varying steering ratios. This improves handling when driving more dynamically and reduces the effort needed to steer when parking and turning. SPORT+ mode is a further feature of this option.¹

The **eight-speed Sport automatic transmission** enables not only automatic gear selection but also manual shifting using the gear lever or gearshift paddles on the steering wheel. Anything is possible, from comfortable cruising to a very dynamic drive with Launch Control activated if desired. In SPORT+ mode, the gear shifts are configured for maximum performance.¹

Drive Performance Control lets the driver choose between the standard Comfort mode, the more efficient ECO PRO mode and Sport and Sport+ modes for an even more dynamic drive. ECO PRO mode adjusts the characteristics of automatic transmission and heating/air conditioning settings to make the drive as fuel efficient as possible.²

The intelligent **BMW xDrive all-wheel drive system** smoothly and variably distributes drive power to the front and rear wheels for maximum traction, driving dynamics and safety in every driving situation. For even better agility, the electronically controlled power distribution counterbalances over and under-steering on bends.

The **Adaptive M Sport suspension** can be electronically adjusted at any time to suit the road and driving conditions. The driver can also adjust the suspension characteristics via the Drive Performance Control to enable their preferred driving style at the time – from comfortable to extremely athletic with markedly agile handling.¹

■ **Dynamic Stability Control+ (DSC+)** stabilises the vehicle as soon as any skidding motion is detected. Its extended functionality includes Cornering Brake Control (CBC), Hill-start and Brake Assist, brake drying and braking readiness. For even more athletic driving, the Dynamic Traction Control (DTC) function allows increased wheel slip.

■ **BMW Emergency Call** service automatically establishes a connection with the local emergency services without the use of a mobile phone. It transmits information regarding the vehicle's current location and the severity of the accident. BMW Emergency Call can also be triggered manually in case other road users require help, for example.

■ The **LED Headlights** emit an exceptionally bright light yet use comparatively little energy.

□ **Dynamic Safety** warns the driver if it detects signs of tiredness, intervenes in critical situations and brakes the car to a standstill after an accident.³

■ The **Airbags** for driver and front passenger, as well as the side airbags integrated into the front seat backrests, are integral elements of the well-interconnected safety components of each BMW and offer targeted protection in case of an accident.

■ The **roll-over protection system** in the rear headrests ensures optimum head protection should the car roll over – guaranteeing a higher degree of safety.⁴

¹ Available as optional equipment on 420i/d models.

² Only in conjunction with Sport automatic transmission, Variable Sport Steering or Adaptive M Sport suspension.

³ Only available with Active Security package.

⁴ Only available for Convertible models.

■ Standard equipment □ Optional equipment

■ The cockpit featuring the Sport multi-function leather steering wheel, BMW Navigation System with 6.5" display and automatic air conditioning with two-zone control.

- SE model equipment:**
- 17" light alloy Star-spoke style 393 wheels
 - Air Breather, Matt Black
 - Armrest - front, folding with storage compartment
 - BMW ConnectedDrive Services
 - BMW Navigation System
 - Cruise control with braking function
 - Dakota leather upholstery
 - Exhaust tailpipe - dual, left with Chrome finisher
 - Extended lighting
 - Exterior trim, Matt Black
 - Interior trim, Satin Silver
 - LED foglights, front
 - LED headlights
 - LED tail lights with Dynamic brake lights
 - Park Distance Control (PDC), front and rear
 - Seat heating, front
 - Windscreen with grey shade band

□ Optional Sport seats shown here upholstered in Black Dakota leather.

■ 17" light alloy Star-spoke style 393 wheels, 7.5J x 17 with 225/50 R17 run-flat tyres.¹

□ 18" light alloy Star-spoke style 707 wheels in Reflex Silver, 8J x 18 with 225/45 R18 run-flat tyres.

¹ Standard for the 420d/420d xDrive Gran Coupé models.

SPORT.

Discover more with the new BMW brochures app. Now available for your smartphone and tablet.

■ Standard equipment □ Optional equipment

Sport model exterior equipment¹:

- Kidney grille, Chrome with extra-wide Black, High-gloss vertical slats
- Air breather, Black, High-gloss
- 18" light alloy Double-spoke style 397 wheels; other wheels available
- Exterior trim Black, High-gloss
- Front air inlet with Black, High-gloss finisher
- Rear bumper with Black, High-gloss finisher
- Exhaust tailpipes with Dark Chrome finisher

Sport model interior equipment¹:

- Door sill finishers with BMW designation
- Sport seats in Dakota leather
- Sport multi-function leather steering wheel with Red contrast stitching
- Air conditioning and radio control panel in Black, High-gloss
- Ambient lighting – switchable BMW Classic Orange/Cold White LED
- Centre console panel highlight in Chrome
- Drive Performance Control with ECO PRO, Comfort, Sport and Sport+ modes
- Interior trim Black, High-gloss with Coral Red finisher
- Remote control, with integrated key and inset in Red
- Sport instrument cluster with Red highlight and chrono scale

■ The Sport leather steering wheel with a thick rim and contoured thumb rests has an exceptionally pleasant, high-grip feel.

■ Sport seats shown here upholstered in Black Dakota leather with Red highlight emphasise the sporty interior.

■ 18" light alloy Double-spoke style 397 wheels, 8J x 18 with 225/45 R18 run-flat tyres.

□ 19" light alloy Star-spoke style 407 wheels, Bi-colour Orbit Grey with mixed run-flat tyres, front 8J x 19 with 225/40 R19 tyres and rear 8.5J x 19 with 255/35 R19.

¹ Standard equipment may differ between models, please consult your local BMW Retailer for more information.

M SPORT.

Discover more with the new BMW brochures app. Now available for your smartphone and tablet.

■ Standard equipment □ Optional equipment

■ The cockpit featuring the M Sport multi-function leather steering wheel, Navigation system - BMW Professional Multimedia with 8.8" display and two-zone automatic air conditioning.

■ Sport seats in Night Blue Dakota leather with Dark Oyster highlight underscore the vehicle's powerful, athletic appearance.

M Sport model exterior equipment:

- M aerodynamic bodystyling
- Kidney grille, Chrome with extra-wide Black, High-gloss vertical slats
- 18" M light alloy Star-spoke style 400 M wheels with mixed tyres; other wheels available
- M Sport suspension (not xDrive models)
- Exterior trim, High-gloss Shadowline
- Side exterior M designation badges
- Exhaust tailpipes with Chrome finisher
- Exclusive paint in Estoril Blue metallic; other paints available
- Air Breather in Black, High-gloss

M Sport model interior equipment:

- Door sill finishers with M designation
- Sport seats for driver and front passenger in a range of Dakota upholsteries
- M Sport multi-function leather steering wheel
- Headliner, Anthracite
- M Sport instrument cluster
- Air conditioning and radio control panel in Black, High-gloss
- BMW Professional Media package
- Interior trim, Aluminium Hexagon with Estoril Blue trim finisher; other trims optionally available
- Short-shift gear lever with M designation for manual transmission
- Drive Performance Control with additional SPORT+ mode
- Ambient lighting, switchable BMW Classic Orange/Cold White LED
- Remote control with integrated key and inset in Blue

■ 18" light alloy M Double-spoke style 400 M wheels, front 8J x 18 with 225/45 R18 tyres, rear 8.5J x 18 with 255/40 R18 run-flat tyres.

□ 19" light alloy M Star-spoke style 403 M wheels, front 8J x 19 with 225/40 R19 tyres, rear 8.5J x 19 with 255/35 R19 run-flat tyres.

■ Door sill finishers with M designation in the front sills emphasise the vehicle's athletic ambitions.

BMW Individual Tanzanite Blue metallic paint with BMW Individual 19" light alloy V-spoke style 626 I wheels.

BMW INDIVIDUAL.

The expression of personality.

The BMW 4 Series Coupé. Inspired by BMW Individual.

The BMW Individual Collection offers a wide repertoire of exclusive equipment options that allow you to realise your very own wishes for your BMW 4 Series Coupé. Each is distinguished by exquisite materials and craftsmanship of the highest quality. BMW Individual represents perfection down to the smallest detail.

The BMW Individual Tanzanite Blue metallic paint finish contains an impressive range of intense blue hues. In conjunction 19" BMW Individual light alloy V-spoke style 626 I wheels it emphasises the sporting and elegant character of the BMW 4 Series Coupé. In the interior, BMW Individual Extended Merino leather upholstery in Golden Brown adds premium appeal. A special highlight: the stylish contrasts created by the Smokey White piping and seams. With its brilliant gloss, the BMW Individual Piano Black interior trim complements this interior beautifully. The leather-covered instrument panel and details such as the leather steering wheel and headlining in Anthracite round off this ensemble.

Requests for even greater distinctiveness and exclusivity, all the way to hand-crafted one-off pieces, can be fulfilled by BMW Individual Manufaktur.

EXPERIENCE BMW INDIVIDUAL INTERACTIVE
WITH THE BMW INDIVIDUAL APP FOR iOS AND ANDROID.

BMW Individual Piano Black interior trim and instrument panel finished in leather.¹

BMW Individual Extended Merino leather in Golden Brown with BMW Individual Piano Black interior trim with Pearl Chrome finisher.

¹ Upper section in soft Black Nappa leather, and the lower section matches the colour of the chosen BMW Individual upholstery.

EQUIPMENT HIGHLIGHTS.

Discover more with the new BMW brochures app. Now available for your smartphone and tablet.

■ Standard equipment □ Optional equipment

□ The Adaptive LED headlights adjust their light distribution according to speed and steering angle. They provide optimum illumination of the road ahead, improve visibility in the dark and feature a range of functions: highlighters, light rings, anti-dazzle function, BMW Selective Beam, fog lights, cornering lights, indicators, daytime running lights and Adaptive headlights.

□ The electric glass sunroof allows airflow to be regulated, creating a pleasant in-car climate. The integrated wind deflector guarantees a high level of acoustic comfort.¹

■ The Rain sensor with automatic headlight activation automatically switches on the windscreen wipers when required and adjusts the wiper frequency to the rainfall intensity. When the light conditions require, the integrated automatic headlight activation activates the low-beam headlight.

□ Large brake discs are the hallmark of the high-performance M Sport braking system, along with its exclusive Blue calipers with M designation.²

■ The rear lights with lighting elements in LED technology consist of individual high-performance LED lighting elements and have the characteristic, striking BMW L-shape, meaning that the vehicle is clearly recognisable as a BMW even in the dark.

□ The Comfort access system allows passengers to enter the car via the front doors and open the tailgate without having to actively use the key. The key just has to be on the user's person. To unlock the vehicle, just touch the door handles or tailgate button. The tailgate can also be opened and closed without being touched via a quick wave of the foot under the bumper.³

□ This option features exterior detailing such as side window surrounds and trim elements of the Air Breather in Satin Aluminium.

□ The wind deflector provides the driver and front passenger with effective protection from draughts at neck and shoulder-height, even when travelling at high speeds. When it is not needed, the collapsible sides can simply be folded together for easy and compact storage.⁴

□ The Air collar ensures comfort when driving, by pleasantly providing warmth for the head and shoulders. When the roof is open, the warming system integrated into the front seats is automatically regulated based on the speed and outside temperature. Three different temperature levels can also be personally selected.⁴

¹ Only available for Coupé and Gran Coupé models.
² Only available for M Sport models.

³ Includes operation of the retractable hard-top on Convertible models.
Contactless opening is only available on Gran Coupé models.
⁴ Only available for Convertible models.

M4 COUPÉ.

Discover more with the new BMW brochures app. Now available for your smartphone and tablet.

Driving pleasure intensified: M automobiles combine the best of each model range with the dynamic genes of BMW M to create a class of their own. An exclusive offer from BMW M GmbH, they embody style with razor-sharp design and impress with the most powerful drivetrains and maximum dynamics. At the same, they also offer high levels of comfort.

□ The lightweight M Sport seats featuring width-adjustable side bolsters offer perfect lateral support, while the breakthrough elements in the BMW M4 Coupé ensure effective ventilation on the racetrack. Shown here in BMW Individual Full Black Merino leather with contrast stitching in Sakhir Orange.

□ The exclusive forged 20" M light alloy Star-spoke style 666 M wheels with mixed tyres, shown here in Black, with the Competition package impress both with their striking looks and their grip.

M4 CONVERTIBLE.

■ Standard equipment □ Optional equipment

Facetted surfaces, precise contours and a strong three-dimensional effect are a compelling expression of the BMW M4 Convertible design philosophy. Athletic side contours and the sporty, flat rear are highly dynamic and exceptionally elegant at the same time.

□ The M Sport seats with illuminated badges are characterised by perfect ergonomics and outstanding body support during dynamic driving. Shown here upholstered in optional Silverstone Full Merino leather.

□ The M light alloy wheels feature a sporty design and also contribute to a reduction in weight. Optional 19" M light alloy Double-spoke style 437 M wheels with mixed tyres, shown here in Jet Black.

EQUIPMENT HIGHLIGHTS.

Discover more with the new BMW brochures app. Now available for your smartphone and tablet.

■ Standard equipment □ Optional equipment

□ The outstanding harman/kardon loudspeaker system features a 600 watt digital amplifier, 9 channels and 16 loudspeakers with chrome detailing. Its sophisticated sound perfectly fills the interior space. Vehicle-specific, speed-dependent equalising precisely compensates for any background driving noise.¹

■ Extended lighting features numerous LED lights, both inside and out, for increased convenience and a stylish look for the interior.

■ The Sport seats for driver and front passenger provide optimum lateral support with their raised side bolsters and manually adjustable thigh support. The fore-and-aft position and seat angle can be manually adjusted, while the backrest width can be adjusted electrically.⁴

■ The rear seats are individually formed, offering great comfort and with flexibility in the luggage compartment thanks to the asymmetrically dividable rear seat backrest.⁵

□ The Digital Cockpit with Black panel technology and a high resolution screen provides a highly impressive visualisation of the driving experience. Three different modes and their specific displays – each of which have their own colour scheme and graphic style – can be displayed in the instrument cluster: COMFORT, ECO PRO and SPORT.²

□ The full-colour BMW Head-up Display projects information relevant to the journey directly into the driver's field of vision.

□ Active Cruise Control with Stop&Go function maintains a preselected speed, as well as the distance to the vehicle ahead.

■ The BMW Professional Multimedia Navigation system, including USB interface, 8.8" LCD colour display and BMW Professional radio with a DVD player, comes with a three-dimensional map display and 20GB of memory. The system is operated intuitively via the iDrive Touch Controller or touch screen. Map updates are available for three years without license fees.

□ Enhanced Bluetooth with wireless charging offers a comprehensive telephony package with Bluetooth connectivity and the technical capacity for a WiFi hotspot.⁶

□ Concierge Services puts the driver through to a BMW Call Centre agent at the touch of a button. The agent can locate a particular restaurant, the closest cash dispenser or an emergency pharmacy and send the address details directly to the car's BMW navigation system.

□ Park Assist makes parking simple. The system works by measuring potential parking spaces while driving past at a low speed. When a suitable space has been found, the Park Assist takes over the steering, while the driver is responsible for selecting the correct gear, as well as pressing the accelerator and brakes.³

□ Thanks to its tightly spaced gear ratios and fast engine speed transitions, the eight-speed automatic transmission with Steptronic ensures greater driving comfort, smoother gearshifts and low fuel consumption.

□ BMW Individual steering wheel is finished in fine-grained Merino leather and has a thicker rim.

■ Automatic air conditioning features separate controls for the driver and front passenger. It also includes automatic air recirculation, an active carbon filter, a fog and solar sensor, as well as rear air vents.

¹ Convertible with 515-watt digital amplifier, 9 channels and 12 loudspeakers.
² Only available in conjunction with BMW Professional Navigation system.
³ Only available with and included in Advanced Parking package.
⁴ Optionally available for Gran Coupé SE models.

⁵ Only available for the Coupé and Gran Coupé.
⁶ For Smartphones without an inductive charging function, special charging cases are available to purchase via BMW Parts and Accessories.
