BEAUTIFUL ANGLES. WHAT IS STYLE? IN OUR VIEW, STYLE IS ABOUT DISTINCTION AND PERSONALITY.

STYLE IS SOMETHING THAT CATCHES YOUR EYE AND HOLDS IT. THE CITROËN C-CROSSER HAS THESE QUALITIES. SOME PEOPLE WILL SEE THEM IN THE EXPRESSIVE CITROËN CHEVRONS, OR THE FLUID LINES CREATED BY THE HEADLAMPS THAT FOLLOW THE FLOW OF THE WHEEL ARCHES; ON CLOSER INSPECTION, OTHERS MAY BE VISUALLY INTRIGUED BY THE AERODYNAMIC SLOPING ROOF, THE CHROME TRIM OR THE UNIQUE WHEEL DESIGNS.

SPACE, COMFORT
& DRIVE

100% DRIVER FOCUSED. OUR DESIGNERS HAVE WORKED HARD TO CREATE AN SUV THAT DOESN'T LOOK OR ACT LIKE AN SUV. INSIDE, YOU'LL FIND CONTEMPORARY INSTRUMENT DIALS THAT ARE WELL POSITIONED FOR SIMPLE OPERATION.

➤ THE CITROËN C-CROSSER IS A VERY SOCIAL VEHICLE

Its well thought out seating system of five standard seats, plus two fully retractable seats on Exclusive models that fold into the boot floor, means there's more than enough room for seven people to mingle. The comfortable sport seats, available in cloth or leather, not only look great but also provide an excellent driving position.

> STORAGE

Storage-wise it's very clever too; there are lots of inventive compartments dotted around the cabin, and the load area is one of the largest in its class. Really, everything about the Citroën C-Crosser has been designed for living: a split tailgate makes for easy loading; and an optional reversing camera for those tricky spaces. And on Exclusive models a simple press of a button folds the rear seats.

> SAFETY

Also, a rigid body and six airbags make for impressive safety. The tail lights use LEDs to ensure optimal visibility and low energy consumption.

> DASH

Nowadays, there's a button for everything. Some you need, plenty you don't. A car dashboard can end up looking like something NASA has created. It's not like that in the Citroën C-Crosser. Its dash is pure and uncluttered. There are buttons, of course, but each one is there for a reason and is well positioned for simple operation.

> DRIVING MODE

Let's talk safety – actual driving safety. The Citroën C-Crosser has three driving modes: two-wheel drive (2WD), four-wheel drive (4WD) and lock-up mode. Each one has a specific benefit, depending on driving conditions. Handy to know when there's a powerful diesel engine pushing out a good deal of 'oomph'.

CITROËN
C-CROSSER
RESPONSIVE

RESPONSIVE. THE CITROËN C-CROSSER IS ANYTHING BUT NORMAL OR RUN-OF-THE-MILL.

THE KEY DIFFERENCE IS A POWERFUL ENGINE THAT DELIVERS 160HP AND PLENTY OF TORQUE SO WHEN THE NEED ARISES, THE CITROËN C-CROSSER RESPONDS IN A VERY SPORTY MANNER – QUICKLY AND EFFECTIVELY.

Another sporty attribute of the Citroën C-Crosser is agility. Its highly responsive handling and glue-like road holding is delivered through the on-demand 4x4 system that matches up perfectly with the six speed manual and the automatic gearboxes and specially designed Michelin tyres. For complete confidence, the Citroën C-Crosser is also equipped with high-performance brakes, ABS, Electronic Brakeforce Distribution (EBD) and Electronic Stability Programme (ESP) with traction control as standard.

The Citroën C-Crosser is our pride and joy. Take the manual HDi 160 6-speed manual engine for example. Despite its power, the CO₂ emissions of 175g/km are among the lowest in its class. Also, when you combine the engine, the on-demand 4x4 system, plus factors like the weight saving aluminium roof, you'll be using less fuel – and that can only be a good thing.

Another good thing is our Diesel Particulate Filter System – a very important piece of innovation. This clever little filter stores up the particulates given out by diesel fuel, then burns them off long before they ever get near the atmosphere.

EFFICIENCY MINUS COMPROMISE. CITROËN HAS CREATED FUEL-EFFICIENT VEHICLES WITHOUT SACRIFICING DRIVER ENJOYMENT FOR SOME TIME. THE LATEST ADVANCES TAKE THIS FINE BALANCE FURTHER STILL...

WITH THE PROVEN CREDENTIALS AND ENVIRONMENTAL PERFORMANCE OF CITROËN HDi DIRECT INJECTION ENGINES AS INSPIRATION, e-HDi ADDS NEW TECHNOLOGY, SUCH AS A SMOOTH, SIMPLE STOP & START SYSTEM AND EGS GEARBOX. THE RESULTS ARE A DRAMATIC REDUCTION IN BOTH FUEL CONSUMPTION AND CO₂ EMISSIONS, COMBINED WITH RESPONSIVE PERFORMANCE WHEREVER YOU GO.

We've also been equipping more of our vehicles with more environmentally friendly breakthroughs, such as our Electronic Gearbox System (EGS), which boasts impressively greener credentials, with less pollution and up to 5% more economy than a conventional manual gearbox system. In addition, Citroën has expanded the use of the exceptionally efficient, self-regenerating Diesel Particulate Filter System in our models. Cleaner, greener driving without taking away from the drive – that's what you can continue to expect from Citroën.

› ELECTRIFYING. HOWEVER YOU LOOK AT IT

Forget what you know about electric cars. Citroën Survolt concept combines undiluted glamour with advanced sporting dynamics, then adds a 100% electric drivetrain. Outside, LED lights, voluptuous curves, two-tone charcoal and fuchsia paintwork, and a race-inspired rear spoiler meet your gaze. Inside, a stunning blend of curved chrome, swooping glass, high technology and organic forms welcomes you to an entirely new place. But this is no simple styling exercise. At heart, Survolt is even more radical, because although it is designed to thrill, it is powered purely by silent, efficient, clean electricity.

› AIRDREAM – A BENCHMARK

When it comes to the environment we wanted to show our genuine commitment as well as our profound expertise, so we have devised a benchmarking scheme with the signature 'Airdream'. To qualify for the Airdream signature, vehicles must have an e-HDi or an electric engine.
