

 **CITROËN**

**CITROËN e-SPACETOURER  
ELECTRIC**

During the 90s Le Tone had a major hit, "Joli Dragon", and devoted himself to music for 15 years before progressively moving towards illustrative art. Since 2011 his creations have been exhibited in famous places such as the Pompidou centre. An admirer of artists who know how to make the best use of colour, Le Tone confesses to having a weakness for black and white, which he uses to tell simple stories by using felt pen drawings in notebooks.

## 1974

Citroën launches CX. It's the ultimate mix of technical innovation and advanced design with the engine and gearbox positioned together at the front. Sophisticated hydropneumatic suspension, concave rear screen and a futuristic dashboard help it to succeed amongst more ordinary rivals.

## 2019

The spectacular design of the 100% electric 19\_19 Concept is inspired by aeronautics and pushes comfort to the extreme, with a lounge on-the-move experience created by intelligent suspension. It also provides autonomous driving, a personal assistant and a range of 500 miles.

### 1934

Citroën revolutionises the automotive landscape with Traction Avant. The famous name relates to its ground breaking front wheel drive engineering.

### 1939

Citroën launches 'TUB', a supremely practical modern design with a sliding side door: its successor is the famous Type H, above, launched in 1948.

### 1948

The much-loved 2 CV is created as a "safe and economical vehicle, able to carry 4 people on-board and 50 kg of luggage". More than 5 million are made.

### 1955

Unveiled to a stunned public at the 1955 Paris Motor Show, DS takes futuristic design to new heights. Its stunning aerodynamic shape, created by Flaminio Bertone, earns it the nickname 'flying saucer'. Under the skin it's just as advanced.

### 1968

It's a golden age for light and agile vehicles like Ami 6, Dyane and Mehari, a unique design for all roads and multi-purpose use.

### 1970

The modern looks and neat style of GS will see it remain one of the most aerodynamic and comfortable vehicles on the market for years to come. Equipped with a flat 4-cylinder engine and hydropneumatic suspension, this hatchback will go on to sell around 2.5 million units.

Discover the models that make up Citroën's extraordinary history, from 1919 to the present day.

# A CITROËN FOR EVERYONE

In town and on the open road, you will enjoy comfort and well-being on board, the values that have always driven Citroën. Today, Citroën offers you a diverse range, offering fully electric, plug-in hybrid, diesel and petrol vehicles.

# DRIVING PLEASURE

With low-emission zones in town centres becoming a regular occurrence, Citroën ë-SpaceTourer Electric becomes your ideal partner. Available in 2 lengths, it stands out with its unrivalled driving experience; with instantly-available torque; minimal noise and vibrations, and zero emissions at tailpipe whilst driving.

RANGE OF UP TO  
136 MILES\*

100 KW (136 HP)  
MOTOR

50 KWH BATTERY  
FAST CHARGING TO 80%  
IN 30 MINUTES\*\*

\* WLTP test cycle. Range is subject to payload carried and operating conditions. \*\*The vehicle will rapid charge at a rate of up to 100kW, depending on the power of the rapid charging station used and will take longer to charge at a lower power, achieving between 15-80% of the vehicle's charge in 32 minutes from a 100kW charger.

# ELECTRIC MOTOR

RANGE OF UP TO  
**136 MILES FROM  
THE 50 KWH BATTERY  
(WLTP TEST CYCLE)  
80% CHARGE  
IN 32 MINUTES\***

**TRACTION BATTERY WARRANTY  
8 YEARS/100,000 MILES (160,000 KM)**

*\*The vehicle will rapid charge at a rate of up to 100kW, depending on the power of the rapid charging station used and will take longer to charge at a lower power, achieving between 15-80% of the vehicle's charge in 32 minutes from a 100kW charger.*

Instant torque is the secret to the smooth performance of Citroën ë-SpaceTourer Electric. The electric motor provides power of 100kW, the equivalent of 136hp, and a maximum speed of 81mph (where legally permitted). Three driving modes let you tailor performance to your mood or need: Normal is the best compromise between range and dynamic performance; Eco optimises energy consumption, and Power delivers an identical performance to the unladen vehicle, even when fully loaded. The minimal noise and vibration makes Citroën ë-SpaceTourer Electric particularly comfortable. The selector on the centre console makes it easy to control the Park, Reverse, Neutral, Drive and Brake functions. "Brake" mode captures regenerative braking energy captured during braking and deceleration, returning it to the traction battery.

CITROËN

# Ë-SPACE-TOURER ELECTRIC

Citroën ë-SpaceTourer Electric is focused on leisure, whether with family or friends. Its sliding and removable seats give everybody a user-friendly and modular space to enjoy, and in either of its two lengths Citroën ë-SpaceTourer Electric can accommodate up to 8 people on board.

# TWO LENGTHS

Thanks to its modular platform, Citroën ë-SpaceTourer Electric is available in 2 lengths: M (4.95m) and XL (5.30m)

# DESIGNED TO BE PRACTICAL

## OPENING REAR SCREEN

Citroën ë-SpaceTourer Electric is here to simplify your life. Its opening rear tailgate screen\*, makes it easy to put things in the boot, take them out or just retrieve something from the parcel shelf without having to open the full tailgate. It's so simple.

## 'HANDS-FREE' SLIDING SIDE DOORS

How do you open and close your car doors with your hands full? With Citroën ë-SpaceTourer Electric's 'Hands-free' sliding side doors technology\*, simply pass your foot under the corner of the rear bumper to automatically unlock and open the side door you're next to. Practical, ingenious and unique. You can also close the door and lock the vehicle with the same action.

*\* Depending on version.*

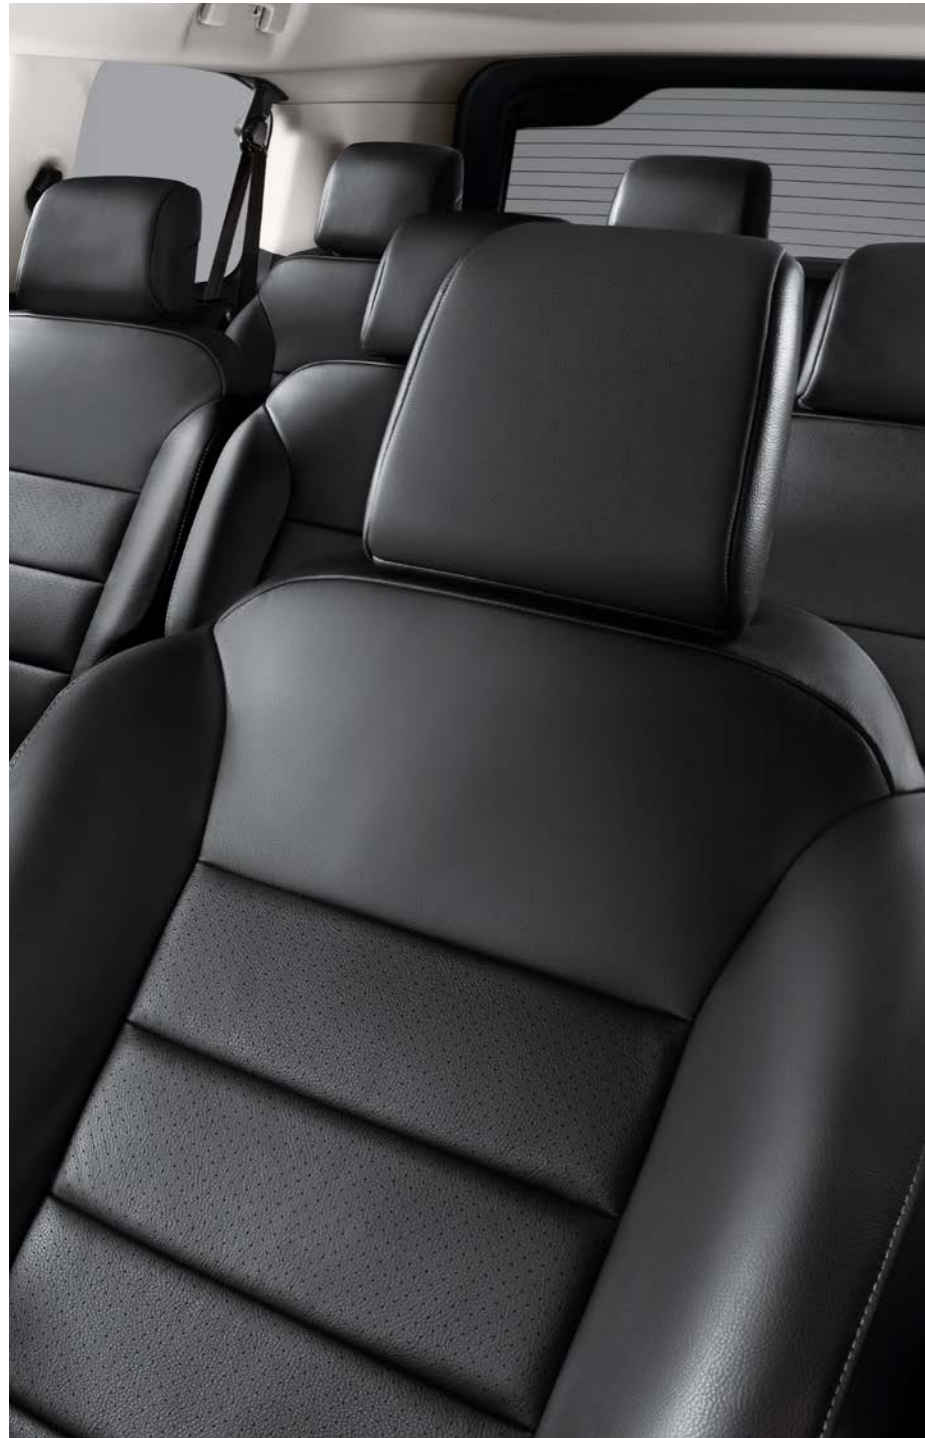

# LET THE LIGHT FLOOD IN

On board Citroën e-SpaceTourer Electric, passengers benefit from natural light flooding in through its two part glazed roof\*, each section with its own sunblind. In the centre, the Panoramic cielo glass roof houses air vents like those of an aeroplane, with soft air distribution for the air conditioning. At night, LED lighting creates a pleasant ambience in the passenger compartment.

*\* Depending on version.*

# CITROËN ë-SPACE- TOURER ELECTRIC

In keeping with its versatile character, Citroën ë-SpaceTourer Electric is available in two lengths. Both M and XL versions can easily accommodate up to 8 people\*, with plenty of flexible storage space. While it's big on the inside, Citroën ë-SpaceTourer Electric is still easy to manoeuvre through town.

*\*Depending on version.*

# EXCEPTIONAL MODULARITY

Citroën ë-SpaceTourer Electric adapts to your every need. In the 2nd and 3rd rows, the 2/3-1/3 rear bench seats can slide independently to maximise legroom. To transport all types of objects, each seatback can be folded separately, including that of the front passenger seat. If necessary, the rear seats can be easily removed to leave a completely flat floor and allow use of the entire volume available (up to 4,554 litres in XL versions). For maximum comfort, there is also a 7-seat version with 2 individual and reversible sliding seats in place of the 2/3-1/3 rear bench seat in the 2nd row. And for the safety of young children, all of the rear seats are fitted with Isofix mountings. Passengers benefit from particular attention to comfort; from the sunblinds, to the aircraft-style picnic tables and the cup holders. In addition, numerous storage compartments are provided for convenience. Finally, there are up to 6 USB sockets, plus 12 V or 230 V sockets\* are available for charging portable devices in the passenger compartment.

*\* Depending on version.*

# CONNECTIVITY

## MY CITROËN DRIVE

Citroën ë-SpaceTourer Electric comes with advanced technologies to make driving easier. The 7" colour capacitive touchscreen connects you to all of the car's functions: your media, phone and navigation. My Citroën Drive with voice control\* brings you a wealth of real-time traffic information, the location of fuel stations and their prices, car parks<sup>(1)</sup> and even the latest weather. A 'Speed Camera Alert' option sends audible and visible alerts throughout your journey, while the 180° Colour Reversing Camera\* displays an aerial view of the rear part of the car to help you park precisely in even the tightest spots.

## MY CITROËN ASSIST

Help whenever and wherever you need it with a geolocated Emergency and Assistance Call system. Available free of charge, without subscription and available 24/7. The appropriate emergency services are called, either automatically or by pressing the "SOS" or "Assistance" button in the vehicle.

## MY CITROËN PLAY

With Mirror Screen you can enjoy your smartphone safely, controlling compatible apps through the 7" touchscreen using Apple CarPlay® or Android Auto™<sup>(2)</sup>.

*\* Available as an option or standard on selected versions.*

*(1) Only information from partners can be displayed.*

*(2) Depending on smartphone model. Additional terms and conditions apply on connected services, including customer acceptance of location sharing prior to activation.*

MY CITROËN PLAY

# CITROËN È-SPACETOURER ELECTRIC **BUSINESS EDITION**

Citroën è-SpaceTourer Electric Business Edition, with its upmarket style, is ideal for passenger transport professionals. Tailor-made, in terms of the configuration of seats and equipment, it can accommodate up to 9 people, and their luggage, in its 2 lengths.

# CITROËN È-SPACETOURER ELECTRIC BUSINESS EDITION

## UP TO 9 PEOPLE ON BOARD

The Citroën ë-Spacetourer Electric Business Edition\* has room for up to nine people (and their luggage) to travel in comfort and style. It's robust, and with multiple ways to configure the seats, it's also extremely functional. For example, all rear seats\*\* can be removed, or the seats in the second row can all be tilted forward, opening up new space and allowing easier access to the third row.

\* Model shown with optional 50/50 swing glazed doors, vehicle supplied as standard with one piece rear tailgate.

\*\* As an option.

# BOOT VOLUME

Citroën ë-SpaceTourer Electric Business Edition provides 700 litres (655 litres VDA) of boot space. You can increase that even further by removing the third-row seats to provide 2300 litres (2228 litres VDA), or to a cavernous 4200 litres (3968 VDA) by removing the second-row seats too.

# FOR PRACTICAL EVERYDAY USE

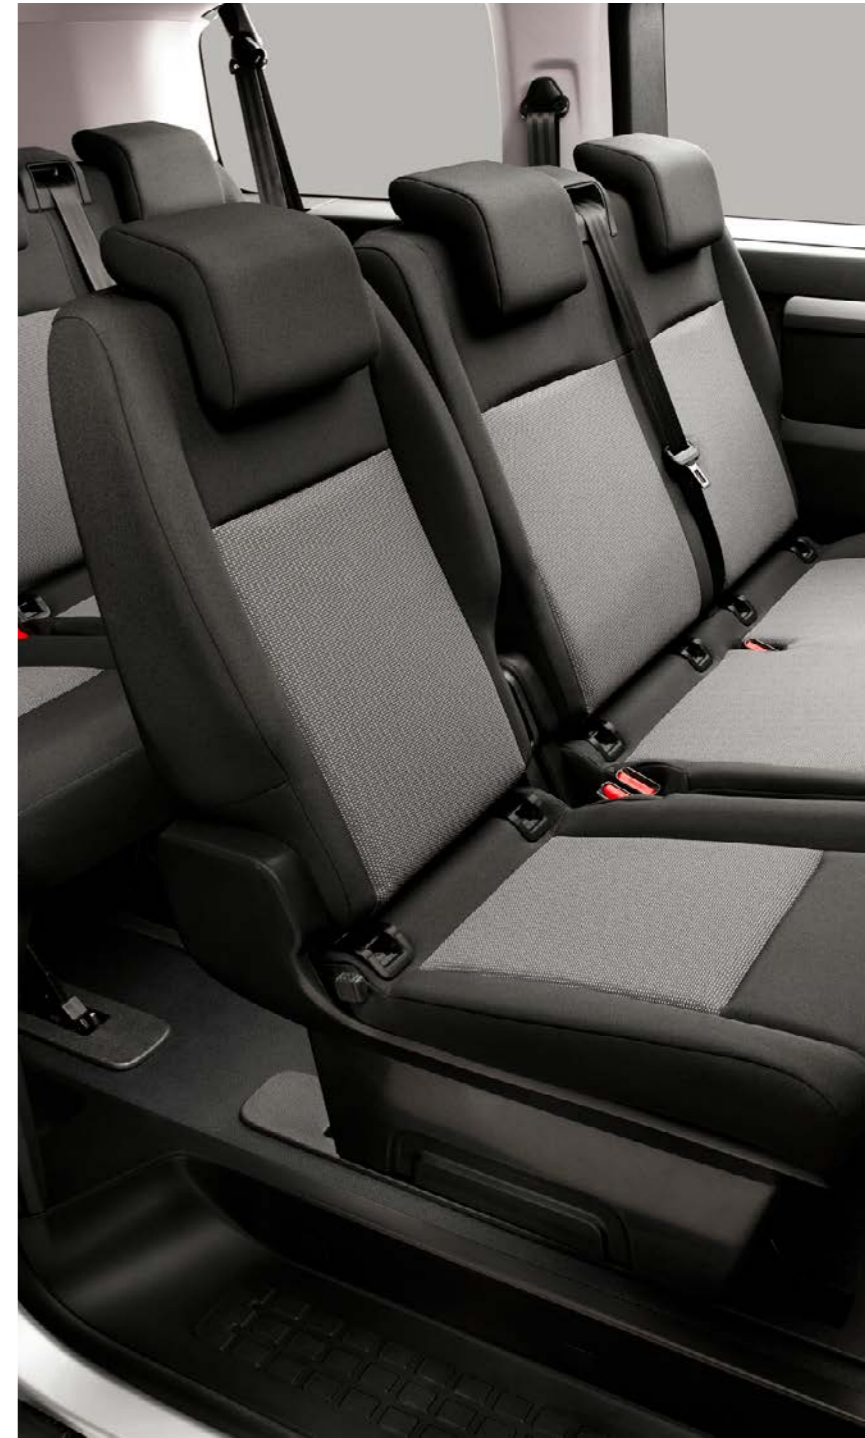

## WORRY-FREE CAR PARK ACCESS

With a roof height of 1.9m\*, Citroën ë-SpaceTourer Electric Business Edition lets you use most city car parks, underground parking, shopping centres and airport facilities without worrying about height restrictions.

## EASIER ACCESS TO ROW THREE

Citroën ë-SpaceTourer Electric Business Edition offers up to nine seats onboard. To make access to the third row of seats easy, the second row of seats can be folded with a single movement to create a wide opening.

*\* Depending on version.*

# SAFETY & WELL-BEING ON BOARD

∅ CAN BE DEACTIVATED

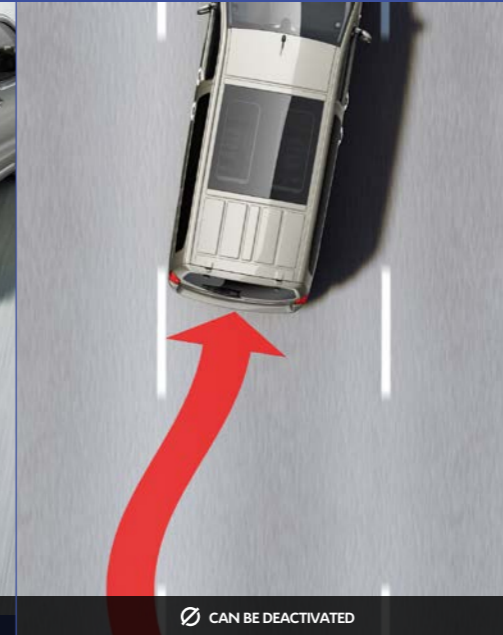

∅ CAN BE DEACTIVATED

∅ CAN BE DEACTIVATED

∅ CAN BE DEACTIVATED

∅ CAN BE DEACTIVATED

∅ CAN BE DEACTIVATED

## AUTO INTELLIGENT BEAM HEADLIGHTS

When another vehicle is detected at night, this system instantly switches from full beam to dipped and then back again once the oncoming vehicle has passed. It works from 15mph upwards.

## COLLISION RISK ALERT

If there's any risk of collision with a vehicle or pedestrian, Collision Risk Alert sends an immediate audible and visible warning. It works above 18mph using a camera fixed to the front of the car.

## COFFEE BREAK ALERT

When it's time to take a break from your journey, this system lets you know. It works after two hours of continuous driving over 40mph.

## DRIVER ATTENTION WARNING

This system monitors the attention levels of the driver via the multifunction camera located at the top of the windscreen. An audible and visual alert warns the driver if their attention drops.

## LANE DEPARTURE WARNING SYSTEM (LDWS)

This alerts the driver with an audible and visual warning when the car crosses a solid or broken lane-marker line, without the indicators being used.

## SPEED LIMIT RECOGNITION AND RECOMMENDATION

This system indicates the speed limit to be observed. When a speed limit sign is detected by the camera, the driver can accept the recommended speed and make it their new cruise control or speed limiter setting.

*Extended recognition of «Stop», «No Entry» and «No Overtaking» signs on Citroën e-SpaceTourer Electric.*

\* Depending on version.

# SAFETY AND WELL-BEING ON BOARD

∅ CAN BE DEACTIVATED

## TRAILER STABILITY CONTROL

This additional function of the ESP detects the swaying movements of a trailer being towed and acts on the vehicle's braking system to stabilise it.

∅ CAN BE DEACTIVATED

## ACTIVE SAFETY BRAKE\*

This reduces physical injury to passengers by braking for the driver thanks to the multifunction camera located at the top of the windscreen. It operates in the following situations:

- from 0 to 19 mph (30 km/h): to avoid an anticipated collision with moving or stationary obstacles or pedestrians;
- above 19 mph (30 km/h): to reduce speed before an anticipated impact.

∅ CAN BE DEACTIVATED

## HILL START ASSIST

This system prevents unwanted vehicle movement on a slope when the brake pedal is released. Hill start assist is activated on slopes of more than 3%, stabilising the vehicle for around two seconds. The driver can therefore calmly move from the brake pedal to the accelerator pedal.

## REVERSING CAMERA WITH TOP REAR VISION\*

In reverse gear, using the camera, the touch screen displays the rear of the vehicle with the addition of coloured lines representing the proximity of obstacles, as well as a 180° rear view of the vehicle surroundings.

## KEYLESS ENTRY AND START\*

This system allows you to lock, unlock and start your vehicle while keeping the key on your person. The vehicle recognises its driver as they approach.

\* Depending on version.

# INTUITIVE INTERFACE

Citroën ë-SpaceTourer Electric has been designed with one priority: to make its day-to-day use easier. A dedicated instrument panel continuously displays the battery charge status gauge and the power consumption gauge for electrical equipment such as the heating and air conditioning. This is supported by the information the 7" capacitive touchscreen provides, including among other things, an "Energy" section grouping together all of the information dedicated to the special electrical features of Citroën ë-SpaceTourer Electric: the energy flow with, in particular, the battery charge level, your consumption statistics and the programming of deferred charging.

**STATISTICS** : know your electric consumption so that you can optimise your driving.

**ENERGY FLOW** : view the operation of the electric technology.

**DEFERRED CHARGING** : programme charging to start at the time you choose.

# EASY RECHARGING

Again with the focus on ease of use, Citroën ë-SpaceTourer Electric has three battery charging methods, as well as a complete ecosystem of practical services. The charging flap is located on the front-left wing and incorporates an LED so that you can visually monitor progress. Note that Citroën guarantees the traction battery for eight years or 100,000 miles for 70% of its charging capacity.

# THREE WAYS TO CHARGE

Of the three charging options, the fastest is to use a Wall Box or public terminal. A Wall Box installed at your home or work provides a 0 to 100% charge in less than eight hours. On a 100kW public terminal, the 50kWh battery in Citroën ë-SpaceTourer Electric can achieve up to 80% charge in just 30 minutes\*, leading its segment for super-fast charging times.

To help you install your charging solution, Citroën recommends its charging partner, Pod Point. You can be confident of obtaining a quality installation, fully approved under the government Homecharge scheme, at the best price. Following the consultation\*\* for your electrical installation, the terminal will be installed using a special network of certified technicians at your service throughout the UK.

\* You can obtain 15-80% of the vehicle charge in 32 minutes from a 100kW rapid charging station.  
 The vehicle will rapid charge at a rate of up to 100kW, depending on the power of a rapid charging station used and will take longer to charge at a lower power.  
 \*\* In the unlikely event that a charging solution can't be installed, you will have the option of cancelling your order.

# YOUR PERSONAL SPACE ON THE MY CITROËN APP

Remain connected at all times thanks to the My Citroën smartphone app. Keep all of the important information about your vehicle at your fingertips, both for everyday use and for servicing. In this way, you can:

- Locate your vehicle.
- Make an appointment at a Citroën retailer's workshop.
- Consult the vehicle's digital handbook.
- Consult the servicing booklet.
- Contact Citroën Assistance.
- Access essential information concerning the charge status of your vehicle's traction battery, the time left to fully charge and the vehicle's remaining range.
- Programme a deferred charge.
- Start preconditioning the cabin temperature to a comfortable 21°C.

# ULTRA - MODULAR

## CITROËN È-SPACETOURER ELECTRIC FLAIR

Citroën ë-SpaceTourer Electric Flair is available in two lengths with eight seats. Interiors offer real modularity thanks to the rail-mounted removable seats, which mean optimum boot volume and generous passenger legroom. With its foldable seats making it easy to maximise space, Citroën ë-SpaceTourer Electric is ready to accommodate bulky items for leisure or home in minutes.

## CITROËN È-SPACETOURER ELECTRIC BUSINESS EDITION

Citroën ë-SpaceTourer Electric Business Edition is offered in both M and XL lengths. Both versions are available with up to nine seats. These stylish versions are perfect for passenger transport professionals (hotel shuttles, taxis, etc.), as it can be tailored to suit your specific seat configuration and equipment requirements.

## SELECTION OF ACCESSORIES

By choosing Citroën, you are entering a world where quality, safety, style and performance combine as one. The range of Genuine Citroën Accessories has been developed specifically for your vehicle. So, you invent a vehicle in your likeness, a reflection of your wishes and your needs. But that's not all... Tested in the most demanding conditions, Citroën Genuine Accessories offer an excellent level of quality and safety. And, to accompany you on all your journeys, Citroën has selected, for you, in addition to its genuine accessories, a wide range of additional accessories from the best manufacturers. Tested and validated by our engineers, all Citroën accessories are guaranteed for 1 year. You can see our complete range online at [citroen.co.uk/buy/equip-your-car/accessories.html](http://citroen.co.uk/buy/equip-your-car/accessories.html)

### • CITROËN WARRANTY

Every new Citroën car has the benefit of a 3 year\* warranty package, plus a 12 year anti-perforation\*\* warranty and a 3 year paint warranty.

### • CITROËN ASSISTANCE

Citroën Assistance brings rapid expert roadside assistance to you in an emergency in response to a telephone call. It comes free of charge for a full year and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both car and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required. Please note, Citroën Assistance only applies to incidents covered by the new vehicle warranty, and excludes non-vehicle faults, such as running out of fuel, misfuelling, loss of keys, lock-ins, road traffic accidents and punctures/wheel changes. For more details, please contact Citroën at <https://www.citroen.co.uk/owner-services/emergency-assistance>

\* 2 years' unlimited warranty. No-fee customer option of 1 year's Retailer provided warranty, only on cars sourced from Citroën UK Limited. Note: Retailer provided warranty is limited to 60,000 miles for cars.

\*\* Against all internal to external perforation to bodywork or underbody.

WARRANTY

### • CITROËN MAINTENANCE

From roadside assistance to replacing wear and tear parts or regular servicing, with Citroën Maintenance you have total peace of mind. For a one-off fee or low monthly payment, our experienced engineers will take care of your Citroën, whatever happens. To find out more, contact your Citroën retailer or Citroën Authorised Repairer.

### • CITROËN SERVICING

Available up to 1 year from your vehicle's registration date, but before its first chargeable service, a Citroën Servicing Package enables you to pay in advance for your vehicle's servicing needs for 3 years/35,000 miles. For further information, please contact your Citroën retailer.

### • CITROËN MOT TEST

Once your vehicle is three years old, it requires an annual MOT Test. This is a legal requirement to check that it meets road safety and environmental standards. Our nationwide network of Citroën Authorised Repairers know your Citroën best, so if your vehicle's MOT Test is due, why not contact your local Citroën retailer? You can be confident that your vehicle will be looked after by one of our expert trained Citroën Technicians, nominated by DVSA as accredited MOT Testers. Plus, whilst your vehicle is with us, we'll carry out a free manufacturer diagnostic test, check for any new technical updates and carry them out for free - that's the advantage of getting your test done by the people who really know your Citroën.

CONTRACT

Insurance groups (1-50) are an indication only, please consult your insurance company for further details.

CO<sub>2</sub> figures, P11D values, BIK% and MRRP pricing shown above are for a standard vehicle without any additional optional equipment. CO<sub>2</sub> figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BIK%. The addition of optional extras could increase the certified CO<sub>2</sub> emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the amount of Benefit in Kind (BIK) tax payable.

For further information on CO<sub>2</sub> and pricing for vehicles with optional equipment, please visit <https://www.citroen.co.uk/configurator.html>

+ Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO<sub>2</sub> values of other cars tested to the same technical standard. The fuel consumption achieved, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO<sub>2</sub> figures.

\* 'On the Road' MRRP includes registration plates and delivery to retailer (including VAT), 12 months' Vehicle Excise Duty and new vehicle registration fee of £55. Excludes fuel and insurance.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of, but not limited to, any changes in legislation and/or any changes by the Government). Please see our Prices and Specifications brochures or contact your local Citroën Retailer for the most up-to-date prices and specification details for all models.

<sup>1</sup> The SpeedCam/Danger Zones package helps you identify situations which require increased attention by sending you both audible and visual alerts (subject to settings). Within the UK the service highlights different types of speed cameras, and red light cameras, as well as accident blackspots. While the service is operational across most of

Europe, it adapts as necessary when travelling in different countries to ensure the local laws with respect to Speed Camera identification are followed. This option can be added to your Citroën Connect Nav subscription at any time. Please visit <https://services-store.citroen.co.uk/> to subscribe.

<sup>2</sup> Subject to subscription – please visit <https://services-store.citroen.co.uk/> to subscribe.
