CITROËN ZX VOLCANE

For some motorists it is the sheer pleasure of driving that makes even the most routine of journeys a satisfying experience.

For them, dynamic performance, sharp handling and responsive steering are what motoring is about. Such qualities lie at the heart of the Citroën ZX Volcane too. It has the kind of handling, roadholding and throttle response to make a trip to the shops as enjoyable as a drive on the open road.

The 1.9 litre engine fitted with the Bosch Motronic fuel injection pumps out 130 hp to push this exhilarating hatchback from a standing start to 60 mph in under 7.8 seconds . . . and in rare style.

The ZX

If you're looking for chic good looks, a practical roomy interior and low running costs, you'll like the sound of the Citroën ZX Reflex.

The Reflex has body-colour bumpers, tinted glass, rear sunblind, a bold, colour co-ordinated interior, height-adjustable steering wheel and a useful fully-folding back seat.

Under the bonnet – a peppy 75 hp 1.4 litre engine which can whisk you up to 60 mph in 11 seconds, yet which still delivers up to 53.3 miles of enjoyable motoring on just one gallon of petrol.

CITROËN ZX REFLEX

If you have more than yourself to consider when you buy a car, consider the new 1.4 litre Citroën ZX Advantage.

It's solidly built, cleverly designed with the practicalities of everyday motoring in mind – and very economical.

The interior, with its stylish yet hardwearing cloth upholstery, is perfectly suited to the needs of the family motorist. Notice, for example, the ingenious rear seat which slides backwards and forwards to provide extra luggage space (or a safe sleeping area for a youngster) or to give extra legroom for rear passengers.

Sound it out.

There are more and more motorists who value the comfort and luxurious feel of a larger car – but who are drawn to the low running costs and nippiness of a smaller one.

Those motorists will find true happiness with the 1.6 litre, fuel-injected Citroën ZX Aura, distinguished by its rich velour interior as well as remote control central locking, electrically operated sunroof and front windows and a long list of similar comforts to distinguish the ZX Aura as a car of real refinement.
