Rethink adventure

Why see adventure as a one-off experience? For you, it's a state of mind. You know you don't need a 20-kilo backpack and a six-month career break to head out and find it. From the bright city lights to the wide, sweeping skies – every place, time, and moment brings something new. Introducing the all-new Ford Kuga. Adventure in every drive.

Kuga ST-Line X PHEV in White Platinum metallic body colour (option).

Power up

Be ready for anything with Kuga's electric hybrid power. With two all-new hybrid versions available, Ford Kuga offers newer, cleaner, and more economical ways to enjoy SUV driving. The Ford Kuga Plug-In Hybrid (PHEV) combines a separate battery-powered electric motor with its efficient 2.5L Atkinson-cycle petrol engine.

The electric motor kicks in to provide extra support when needed, meaning you can drive further with lower emissions. You can run the vehicle solely on electric power up to a range of 35 miles (WLTP test range)*, making it ideal for moving through heavy traffic and ultra-low emissions zones. And when you head out of town for a long country road trip, the engine switches to running on fuel, so there's no need to worry about reaching your destination.

The PHEV battery is easy to recharge at most public charging points, alternatively, a domestic charging cable is supplied with the vehicle (as standard) and in addition to this Ford also offers an EVBox+ Elvi Wallbox solution (Accessory, available at additional cost).

*Tested with a full battery charge. Up to 35 miles of electric-only range based on results from the Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Actual range varies with conditions, such as external elements, driving behaviours, vehicle maintenance, and lithium-ion battery age.

♣Item covered by third party supplier's warranty, please see back cover for details.

Kuga ST-Line X PHEV in Solar Silver metallic body colour (option).

Take on your world

Ford Kuga is equally at home exploring rolling landscapes or seeking adventure from a city commute. Wherever your journey takes you, you'll enjoy the perfect balance of rugged SUV capability and beautifully sculpted styling.

The vehicle's impressive array of assistance features – including SYNC 3 navigation, FordPass Connect with Live Traffic*, and Adaptive Cruise Control with Stop & Go** – make it ideal for negotiating the crowded stop-start traffic of urban environments.

Or just take a mountain bike in the generous rear loadspace and head out into the countryside. With advanced technologies such as intelligent All-Wheel Drive (only available on 2.0 Ecoblue 190PS) and a new Selectable Drive Modes system, you can adapt your driving experience to suit the road conditions.

*FordPass Connect with Live Traffic is available for 2 years trial then subscription charges apply.

**Available as standard for models with automatic transmission only.

Redefine your space

The feeling of movement and freedom continues into the vehicle and flows through every interior feature. From the fluid design of the fascia and centre console, to the sumptuous style of the leather-trimmed front seats (standard on Vignale) – the all-new Kuga creates a sanctuary of premium comfort.

Additional clever design features complement an active lifestyle. The rear seats include an all-new sliding function (standard feature), which allows you to offer extra legroom for rear passengers if needed, or to extend the rear loadspace for extra storage capability. While the hands-free tailgate lets you access the loadspace even when your hands are full with luggage (standard on ST-Line X and Vignale).

Kuga ST-Line X PHEV with Sensico trim with red stitching (standard on ST-Line and standard on ST-Line X with 10-way power seat adjust).

Effortless driving

Adaptive Cruise Control with Evasive Steering

The all-new Kuga helps driving in heavy traffic. Adaptive Cruise Control with Stop & Go* can automatically maintain a safe distance between you and the vehicle in front, even if it slows to a stop. And when the traffic starts moving again, your car will pull away too. While Pre-Collision Assist with Evasive Steering Assist will keep a watchful eye on the road ahead and alert you to potential hazards.

- **Adaptive Cruise Control with Stop & Go***† maintains a comfortable distance from the vehicle ahead, and can even bring your car to a complete stop and move off again as the traffic allows
- **Pre-Collision Assist**†‡ with pedestrian and cyclist detection, monitors your proximity to other vehicles, cyclists and pedestrians and can alert you to a potential collision
- **Evasive Steering Assist**†‡ is designed to detect an evasive swerve and help you steer around an obstacle in your path (part of Pre-Collision Assist)

*Available for models with automatic transmission only.

†Uses sensors.

‡Driver assistance feature.

Electric power in your hands

Electric Vehicle (EV) modes

The all-new Kuga Plug-In Hybrid can help you reach your destination more efficiently by using two sources of power. You can choose when to run on electric power and when to use the vehicle's efficient 2.5 L Atkinson-cycle petrol engine – or let Kuga choose for you in Auto EV mode. During your journey, the vehicle will be reclaiming energy when decelerating or braking.

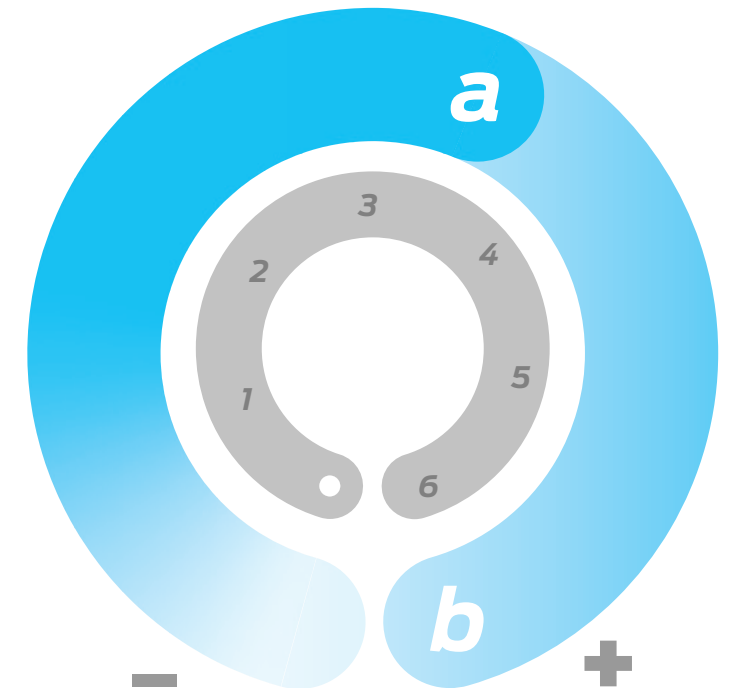

- **Auto EV mode** Switches between the electric motor and blended electrical/ petrol engine (hybrid) operation, according to your driving conditions and available charge
- **EV Now mode** Allows you to drive using electric power only, until the battery is almost depleted, then the vehicle switches back to using the hybrid operation
- **EV Later mode** Enables you to save electrical charge in the battery for later use. The vehicle will predominantly drive in hybrid operation, until you switch to electric mode
- **Battery charge mode** Allows you to charge the battery using the Atkinson-cycle petrol engine when the vehicle is stationary

Charging your Kuga

Whether you're at home or away, charging your Kuga is easy via a domestic 230-volt mains socket, EVBox* Elvi Wallbox (accessory, available at additional cost) or public charging points.

*Item covered by third party supplier's warranty, please see back cover for details.

Kuga ST-Line X PHEV in Frozen White solid body colour (option).

a. EVBox* Elvi Wallbox and public charging point

Full recharge can be achieved in 3.5 hours via optional wall-mounted charging box (accessory, at extra cost), and at most public charging stations.

b. Mains charging

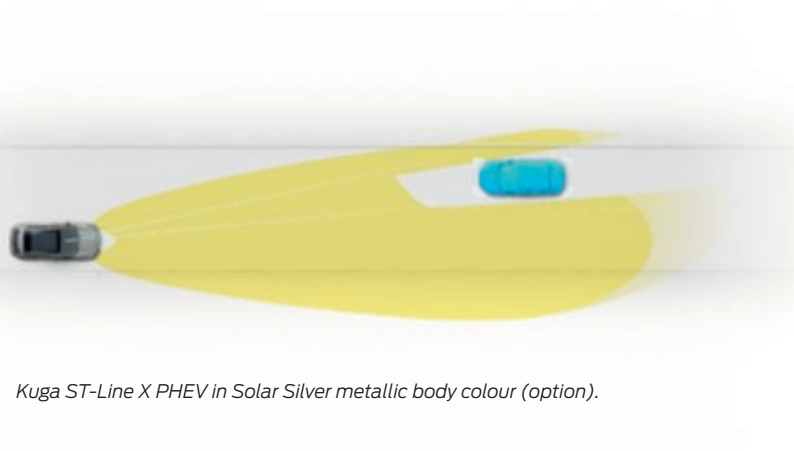

Full recharge can be achieved in 6 hours via domestic 230-volt mains socket.

See and be seen

Adaptive Front Lighting System

Kuga's eye-catching advanced LED headlights provide excellent illumination at night, and in poor visibility. Dynamic LED headlights with full adaptive lighting use camera technology to alter the light pattern to illuminate bends before you enter them, for improved night driving (standard on Vignale, available as part of optional Technology Pack excluding Zetec).

- **Sign-based light** recognises if you approach a roundabout or stop sign, and can adapt the headlight beam to match the road layout
- **Predictive curve light** uses lane-markers to detect bends in the road and illuminate bends before you enter them
- **Glare-free high beam** adjusts the headlight angle for enhanced illumination, while the front camera helps the system to protect other drivers from glare

Kuga ST-Line X PHEV in Solar Silver metallic body colour (option).

Let Kuga park itself

Active Park Assist

From identifying a suitable parking space to steering you in and out, Kuga makes parking easier, even in tighter spaces.

- **Active Park Assist** helps control the steering as it guides you in and out of a space. As well as the rear wide-view camera, the system includes a front wide-view camera (Standard on Vignale, Stop & Go available with automatic transmission only)
- **Cross Traffic Alert with Active Braking*** helps when reversing out of a parking bay, by warning of traffic approaching from either side and can automatically apply the brakes if you fail to respond (Part of an option pack)
- **Rear wide-view camera** provides a wide view to the left and right at the rear of your car when reverse gear is selected (Part of the optional Driver Assistance Pack)

*Part of the Blind Spot Information System (BLIS).

Connected and in control

Ford SYNC 3

Ford SYNC 3 integrates seamlessly with compatible smartphones to make communication and navigation effortless. You can control SYNC-compatible apps with AppLink, while Apple CarPlay and Android Auto let you use the 8" colour touchscreen as if it were your smartphone handset.

Using the touchscreen or simple voice commands, you can make calls, write and listen to text messages, and control your music and satellite navigation. In the event of an accident, Emergency Assistance† helps occupants place a call to emergency services with your vehicle's location.

FordPass Connect*

FordPass Connect modem gives you on-board Wi-Fi (3 month trial)** for a maximum of ten devices. Live Traffic†† sends regular traffic information straight to your SYNC Navigation system (2 year trial), while Local Hazard information‡ warns you of upcoming hazards before they are encountered.

FordPass app

The FordPass app lets you access even more features via your smartphone, such as searching for recharging/refuelling points and comparing pricing, heating your vehicle remotely, locating available parking spaces, and selecting points of interest to send to your SYNC 3 Navigation when you connect through AppLink. For PHEV models, you can also receive notifications of your electric charge level.

Please note: Full SYNC 3 smartphone integration only available with iPhone 5/Android 5.0 (Lollipop) or higher. Some SYNC 3 functions require a data connection, so mobile data charges will apply. To check whether Apple CarPlay and Android Auto are available in your market, please check official Apple CarPlay and Android Auto websites for the latest information. Map updates are complimentary for a limited time following vehicle registration.

†Ford Emergency Assistance is an innovative SYNC feature that uses a Bluetooth®-paired and connected mobile phone to help vehicle occupants initiate a call to the local Communications Centre, following a vehicle crash event involving an airbag deployment or fuel pump shut off. The feature operates in more than 40 European countries and regions.

*FordPass Connect is an optional extra provided on a trial basis for 2 years (from the date of vehicle's first registration). After this, subscription charges will apply. The on-board modem will be connected at the time of vehicle delivery. You may choose to opt in/out of certain data sharing. The technology will be made available in selected markets in 2019, with the remaining markets following through in 2020.

**Wi-Fi hotspot (up to 4G LTE) includes a complimentary wireless data trial that begins when customers activate the trial with Vodafone and expires at the end of 3 months or when 3GB of data is used, whichever comes first. Afterwards data bundles can be purchased from Vodafone, refer to their website for details of their data packages. To take advantage of the built-in Wi-Fi hotspot capability, a Ford vehicle must come with the appropriate hardware, and a data plan is required. Data coverage and service is not available everywhere and terms of your data plan, including applicable message and data rates, may apply.

††Live Traffic access is complimentary for the first 2 years following the registration of a new Ford featuring SYNC 3 with navigation; thereafter a licence fee is payable.

‡Local Hazard information is complimentary for the first 2 years following the purchase of a new Ford with certain driver information modules; thereafter a licence fee is payable.

Head-up display

Projects key information in your field of vision, so you can keep your eyes on the road ahead. The clear, bright image can display your choice of content, including vehicle speed, navigation, cruise control notifications and Traffic Sign Recognition data. Compatible with polarised sunglasses (standard on Vignale, included in the optional Technology Pack).

Selectable Drive Modes

Tailor your Kuga driving experience to suit the conditions through a selection of available drive modes. The system adjusts various settings, including throttle response and steering feel, as well as gear-change behaviour on cars with automatic transmission (standard).

B&O Sound System

Superior sound and stylish design is the ideal fit for your new Kuga. Unique Bang & Olufsen speaker patterns perfectly complement the car's distinctive styling – while the sophisticated, model-specific sound tuning elevates the experience of every journey, allowing you to rediscover your music the way the artists intended for it to be heard (standard on all series except Zetec).

Hands-free tailgate

Opening or closing the all-new Kuga's tailgate is easy, even when your hands are full. With the keys in your pocket or bag, simply use a gentle kicking motion under the centre of the rear bumper and the tailgate will operate without you having to touch a thing. Can also be opened and closed while sitting inside the car (standard on ST-Line X and Vignale, optional on Titanium and ST-Line).

Front and rear-view cameras

Views to the front and rear of the vehicle are displayed on the touchscreen display. Useful for making tight parking manoeuvres by allowing you to monitor the area around the car. Rear-view camera activates when the vehicle is shifted into reverse gear (optional as part of the Driver's Assistance Pack).

Retractable tow bar

Ford's fully power-operated retractable tow bar automatically stows itself out of sight behind the rear bumper when not in use for uncompromised styling and easier access to the loadspace. For extra transport and stowage capability, the tow bar can tow up to 2,100 kg depending on the powertrain (available as an option, check with your Ford Dealer for further details).

2

Select

With a choice of exterior and interior styling, there's a new Ford Kuga that's right for you.

Zetec

Kuga's elegant entry model has a richer level of standard features than ever before, including impressive integrated technologies.

Key features

- 17" 5-spoke Shadow Silver alloy wheels
- LED Day Time Running Lamps and LED tail lamps, halogen projector headlamps
- Privacy glass & silver roof rails, twin exhausts and rear spoiler
- SYNC 3 with 8" TFT touchscreen, navigation, embedded modem and mobile phone wireless charging pad
- Lane-Keeping System (includes Lane-Keeping Alert and Lane-Keeping Aid), Pre-Collision Assist with Autonomous Emergency Braking and Cruise Control with adjustable speed limiter

Titanium

Kuga's luxury model delivers elevated levels of sophistication and comfort, from superior quality materials to additional technologies.

Key features (additional to Zetec)

- 18" 5x2-spoke Magnetic machined alloy wheels
- Full LED headlamps, front LED fog lamps and auto headlamps with high/low beam
- Sports seats with Salerno partial leather trim
- Dual-zone Electronic Automatic Temperature Control (DEATC)
- B&O Premium Audio System with 10 speakers and subwoofer (575 watts) and 4.2" TFT coloured instrument cluster (6.5" on PHEV)

ST-Line

The striking Kuga ST-Line has distinctly sporty character thanks to the unique exterior styling and interior detailing.

Key features (additional to Titanium)

- 18" 5x2 spoke Rock Metallic alloy wheels
- ST-Line body kit, large rear spoiler, red brake calipers, black roof rails, flat bottom steering wheel with red stitching, alloy pedals
- Full digital 12.3" instrument cluster
- Partial Sensico sports seats with red stitching

ST-Line X

Kuga's top sport model has additional exterior and interior features that make the ride even more enjoyable.

Key features (additional to ST-Line)

- 19" 15-spoke machined alloy wheels
- Power opening panorama roof
- Hands free power tailgate
- Heated driver's seats with 10-way power adjustable driver's seat with memory and heated passenger seat

Vignale

With unique design features and exclusively sourced soft-touch leathers, Kuga Vignale places you in a world of unrivalled refinement.

Key features (additional to Titanium)

- 19" 10-spoke Luster Nickel alloy wheels
- Full LED Quad Projector Headlamps and full LED headlamps with automatic glare free
- Full Vignale Premium Leather seat trim with heated front seats, 10-way power driver's seat with memory and heated steering wheel
- Vignale body kit and metallic paint
- Full digital 12.3" instrument cluster, automated park assist, heads up display and Hands Free Power Tailgate

2 Select Zetec

Standard exterior features

- 17" 5-spoke Shadow Silver alloy wheels
- Halogen headlights with LED daytime running lights
- Halogen fog lamps
- Auto headlamps (on/off), LED Tail lamps
- Black mesh front upper grille with chrome-finish surround
- Privacy glass
- Silver roof rails
- Heated and power folding door mirrors
- Rear spoiler and twin exhausts

Standard interior features

- Manual air conditioning and Quickclear heated windscreen
- Ford Power starter button (Keyless Start)
- Power front and rear windows
- Ford SYNC 3 with 8" TFT touchscreen, 6 speakers and Navigation
- Embedded Modem with e-Call functionality
- Mobile phone wireless charging pad
- Electrical charging point in second row
- Leather trimmed steering wheel and gear knob
- Centre console with electronic parking brake
- Cruise control with adjustable speed Limiter
- Front and rear parking sensors
- Pre-Collision Assist with Autonomous Emergency Braking
- Lane-Keeping Aid with Lane-Departure Warning
- Selectable Drive Modes: Normal, Eco, Sport, Slippery & Trail
- Intelligent Speed Assist, Hill Launch Assist
- Electronic Stability Control (ESC) and ABS
- Sports seats in Zaha Etton in Ebony trim

3 Personalise

To make the all-new Kuga even more special, we have elevated the standard of our features offered across the range. In addition, we've packaged many optional extras together into standardised bundles – such as the Winter Pack or Driver Assistance Pack. Some options can also be ordered individually, helping you to configure your perfect Kuga. Please speak to your Ford Dealer for more information about the options available.

Driver Assistance Pack

- Adaptive Cruise Control (ACC) with Traffic Sign Recognition (incl. Stop & Go with automatic transmission only)
- Blind Spot Information System (BLIS)
- Driver Impairment Monitor (Standard on ST-Line X and Vignale)
- Front and rear-view camera
- Active Park Assist (with Stop & Go on automatic transmission) (standard on Vignale)
- Front and rear-view camera
- Door edge guards

Vignale Driver Assistance Pack

- Adaptive Cruise Control (ACC) with Traffic Sign Recognition (incl. Stop & Go with automatic transmission only)
- Blind Spot Information System (BLIS)
- Front and rear-view camera
- Door edge guards

Winter Pack

- Heated front seats (standard on ST-Line X and Vignale)
- Heated rear seats
- Heated steering wheel (standard on Vignale)

Technology Pack (standard on Vignale)

- Head-up display
- LED quad projector headlights with glare-free high beam and dynamic bending

Options and Packs

Zetec

- Single options:
- 18" 5x2 Magnetic & Machined Alloy Wheel
 - Retractable tow bar
 - Tow bar pre-equipment

Accessories

Rubber Floor Mats

Tray-style rubberised floor mats with Kuga nameplate are tailor-made and help to protect against dirt and damp. The driver's mat is securely fixed directly to the floor to help prevent it from slipping (Option and Accessory).

Rear bumper protection

Protection plates and foils are designed to protect against daily wear and tear. The plates combine protection with a stylish design, whilst the transparent foils provide protection without compromising the look of your vehicle (Accessory).

Tow bar

Ford's fully retractable tow bar automatically stows itself out of sight behind the rear bumper when not in use, retaining the model's sleek looks. (Option and Accessory) Also available is a detachable tow bar (Option and Accessory) and a fixed tow bar (Accessory).

Uebler* rear bike carrier

High-quality tow bar-mounted bike carrier with optional tilting mechanism (depending on bike carrier model), for easy access to the load compartment (Accessory).

Mud flaps

Contoured mud flaps help to protect the bodywork of your Kuga from stone chips and road spray. Available for front and rear (Option and Accessory).

Detachable tow bar

For extra transport and stowage capability, the tow bar can tow up to 2100 kg depending on the engine (check with your Ford Dealer for further details). The tow bar can be detached if not in use (Option and Accessory).

Thule®* roof attachments

High-quality, easy-to-install roof attachments from Thule®, including bike carrier (Accessory) and a fully-lockable ski carrier suitable for up to six pairs of standard size skis or four snowboards (Accessory).

G3 roof box

Designed to carry a wide variety of loads and help to protect them from weather and theft. Various sizes available all with dual-opening for easy access (Accessory).

To view a full range of accessories please visit www.ford-accessories.co.uk

For a range of Ford branded merchandise – from clothing to lifestyle products – visit www.fordlifestylecollection.com

*Meets European ECE-R17/ISO27955 safety requirements.

Fitment of accessories may have an impact on your vehicle's fuel consumption.

Items ordered as an option, will be fitted in the factory. If ordered as an accessory, items will be fitted at the dealership.

♦Item covered by third party supplier's warranty, please see back cover for details.

4

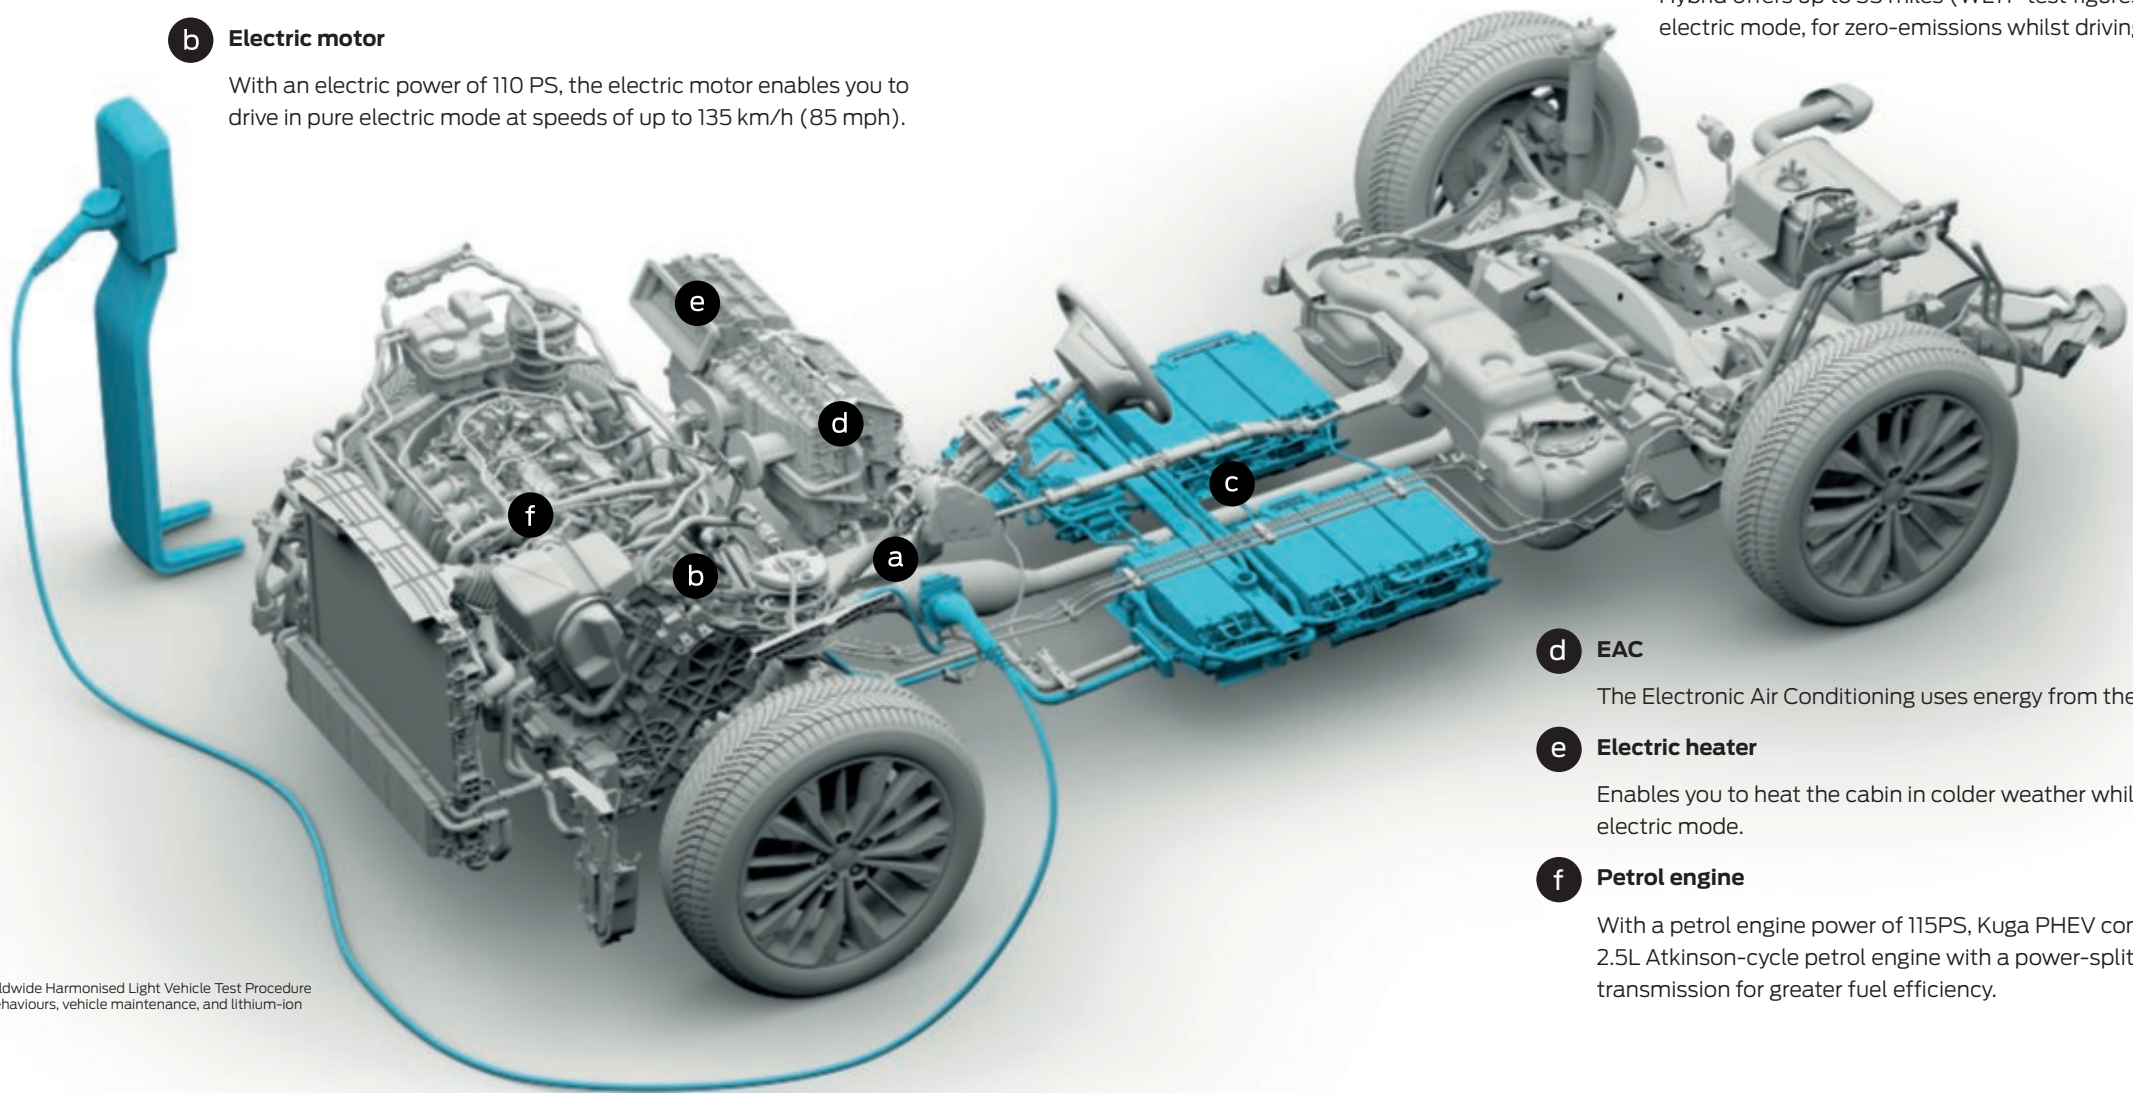

Specifications

Get to know your Ford Kuga PHEV inside and out, from its intelligent engine technology to its generous loadspace.

225 PS (165 kW)

2.5L Ford Plug-in
Petrol Hybrid (PHEV) engine

*Kuga's electric-only driving range is up to 35 miles based on results from the Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Actual range varies with conditions, such as external elements, driving behaviours, vehicle maintenance, and lithium-ion battery age. Official NEDC tested CO₂ emissions of 26 g/km.
♦Item covered by third party supplier's warranty, please see back cover for details.

a Charging port

The vehicle can be completely recharged in 6 hours via a 230-volt mains socket, or 3.5 hours via the Ford-offered Elvi* wall-box (accessory, available at extra cost) or at a public charging station.

b Electric motor

With an electric power of 110 PS, the electric motor enables you to drive in pure electric mode at speeds of up to 135 km/h (85 mph).

c HV Battery

With its 14.4 kWh lithium-ion battery pack, Kuga Plug-In Hybrid offers up to 35 miles (WLTP test figures)* in pure electric mode, for zero-emissions whilst driving.

d EAC

The Electronic Air Conditioning uses energy from the HV battery.

e Electric heater

Enables you to heat the cabin in colder weather while driving in electric mode.

f Petrol engine

With a petrol engine power of 115PS, Kuga PHEV combines the 2.5L Atkinson-cycle petrol engine with a power-split transmission for greater fuel efficiency.

Warm your vehicle before you go

FordPass app allows you to warm your vehicle remotely, so on colder days you can be sure that your cabin environment is welcoming and comfortable from the moment you step inside.

Timing is everything

For even greater convenience, you can set a timer to activate your heating, for example to warm the cabin every morning throughout the winter in preparation for your commute.

4 Specifications Electric Power

The all-new Kuga’s forward-thinking Plug-In Hybrid (PHEV) technology can deliver excellent performance, together with impressive fuel economy and low emissions figures.

What is PHEV?

Plug-In Hybrid (PHEV) vehicles have the functionality of full Hybrid (HEV) technology, with the added advantage that they can be charged from an external electricity supply.

PHEV technology, like full Hybrid, utilises two separate power sources, switching between the vehicle’s conventional petrol engine and a battery-powered electric motor. However, because PHEV relies mostly on external charging, once the battery is almost depleted the vehicle behaves like a hybrid, with the petrol engine running when necessary.

A PHEV has a larger battery compared with other Ford hybrid vehicles. This allows you to drive further on electric only power, with Kuga capable of driving up to 35 miles (WLTP test figures)* with zero emissions. As hybrids, PHEV vehicles also have the ability to ‘reclaim’ energy when decelerating or braking (energy that would be otherwise wasted) to help recharge the battery.

*Kuga’s electric-only driving range is up to 35 miles based on results from the Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Actual range varies with conditions, such as external elements, driving behaviours, vehicle maintenance, and lithium-ion battery age. Official NEDC tested CO₂ emissions of 26 g/km.

The test used to establish fuel consumption and CO₂ figures has changed to deliver results that are more representative of real life driving. The Worldwide Harmonised Light Vehicle Test Procedure (WLTP) has replaced the old NEDC test. The Fuel Consumption figures shown are derived from the new WLTP test. However, until 6th April 2020, the published CO₂ figures will be the NEDC equivalent and this will be used to calculate Vehicle Excise Duty. The adjacent tables shows the fuel consumption (WLTP) figures for each available engine on the Ford Kuga. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted, variations in weather, driving styles and vehicle load. The figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other vehicles tested to the same technical procedures.

*In 4th gear. ^{ao}Ford test figures. All petrol engines are equipped with a catalytic converter. ^aRepresents the lightest kerbweight assuming driver at 75 kg, full fluid levels and 90% fuel levels, subject to manufacturing tolerances and options fitted. **Towing limits** quoted represent the maximum towing ability of the vehicle at its gross vehicle mass to restart on a 12 per cent gradient at sea level. The performance and economy of all models will be reduced when used for towing. Tongue load is a maximum of 100 kg on all models. **Gross train mass** includes trailer weight. ^{aoa}The declared fuel/energy consumptions, CO₂ emissions and electric range are measured according to the technical requirements and specifications of the European regulations (EC) 715/2007 and (EC) 692/2008 as last amended. Fuel consumption and CO₂ emissions are specified for a vehicle variant and not for a single car. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car’s fuel/energy consumption, CO₂ emissions and electric range. CO₂ is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO₂ emissions which contain data for all new passenger car models is available at any point of sale free of charge or can be downloaded under <http://carfueldata.dft.gov.uk>.

4 Specifications Dimensions

Overall length (mm)	4614-4629
Overall width with/folded/without mirrors (mm)	2178/2000/1883
Overall height (unladen) (without/with roof rails) (mm)	1666/1742
Turning circle – Kerb to kerb (m)	11.4
Load capacity (litres)*	
5-seat mode with sliding second row seats (laden to package tray) (with tyre repair kit)	412-526
5-seat mode with sliding second row seats (laden to roof) (with tyre repair kit)	575-645
2-seat mode (laden to roof) (with tyre repair kit)	1481-1534
2-seat mode (laden to roof) (with mini steel spare)	1423-1478
Fuel tank capacity (litres)	
Petrol	57.0
Diesel	53.5
Plug-in Petrol Hybrid	45.0

Purchase

Getting behind the wheel of the all-new Ford Kuga is simple, with a variety of finance options.

Build your vehicle

Build and personalise your Ford Kuga online. Simply head to the Ford website, select your model, then choose your engine, body colour and extras. You'll be able to view the recommended price, and send your configuration to a Ford Dealer if you wish.

www.ford.co.uk/cars

Find a Dealer and request a test drive

You can search for a Ford Dealer by location or Dealer name on the Ford website, and request a test drive online. Simply fill in your details and your chosen Dealer will contact you to arrange a convenient time.

www.ford.co.uk/dealer-locator

Finance

When it comes to financing your vehicle, our size and expertise means we're well placed to provide you with a wide range of finance products.

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and recommended prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. Fitment of accessories may have an impact on your vehicle's fuel consumption. ♦ The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular vehicle. The vehicles themselves have not been tested and there are inevitably differences between individual vehicles of the same model. In addition, a vehicle may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.
