The comprehensive range of quality Ford cars, commercial vehicles and performance models has something to suit virtually every vehicle user's needs.

There are Ford cars for the budget-conscious and for the luxury-minded, RS models for those who appreciate performance, and a wide range of practical yet comfortable and easily driven commercial vehicles. These include the new Ford Courier, voted Van of the Year at the 1992 Geneva Commercial Vehicle Show, and the New Generation Transit, now even better than ever. As you'll see from the following pages, Ford is now moving into a new era, with a newly-developed range of high technology 16 valve engines for front-wheel drive cars, and a new-look Granada and Scorpio range, which now includes estate models by popular demand. Ford's new engine technology ensures that smooth, emission controlled power units are available at affordable cost - through volume production - to meet the needs of the '90s and beyond. Variants of the new engine will power top-selling Ford front-wheel drive cars, including Fiesta, Escort and Orion models. The Granada and Scorpio ranges now have even more refinement and style, and the arrival of estate models will delight large numbers of motorists for whom luxury, refinement and practical load carrying are principal requirements. Today, therefore, the Ford range has much more to offer. It is backed by extensive resources, a Dealer network of over 1000 and a multitude of support services for peace-of-mind motoring. When you think driving, think Ford. For more information on any aspect of Ford, please ring the Ford Information Service on Freephone 0800 111222.

## ...News from Ford...News from Ford...

Ford announces a new generation of high-technology engines for the '90s and beyond

New, four-cylinder engines, with 16 valves, electronic management and fuel injection and three-way exhaust catalysts, have been announced by Ford. Detailed descriptions, which explain the technical authority and motoring significance of the new engines are given in the following pages.

## Ford - Leaders in customer care

When you buy a Ford you begin a partnership with one of the world's greatest vehicle manufacturers . . .

Because of Ford's coveted reputation for quality and reliability, you are assured of lasting, attentive service in many ways . . . all of which prove that Ford Cares.

Ford Cares in the way the bodywork is thoroughly protected and finished in a highly durable paint coating. Ford Cares in the painstaking training of Dealers staff, to make sure you are properly advised during your purchase, and that your after-sales needs are met to the fullest extent. Ford Cares through Dealers providing well-equipped workshops to see that your Ford is properly serviced at the recommended intervals. Ford Cares by offering long-term warranties to protect against unexpected repair bills and, through its Lifetime Guarantee

### It's golfing time again

Ford's long association with golf continues this year with the Ford Amateur Golf Tournament and the Ford Ladies' Golf Classic. You'll find more details inside the back cover of this publication, and for any further information, ask your Ford Dealer.

New Granada and Scorpio estates - by popular demand

Together with a programme of further refinements and styling, the Granada and Scorpio range has been extended with the introduction of estate models. This outstanding range of executive models now has even more to offer. Turn to page 102 for full details of the revised range.

Scheme, enables most Dealers to guarantee their repairs for as long as you own the vehicle. When you visit your Ford Dealer, you'll understand just how deeply Ford cares . . . and goes on caring.

### Customer Order Price Protection Plan

This Price Protection Plan means that the price you pay is the same as the price on your order, as long as you are prepared to accept delivery within 3 months, and in any event, as soon as your car is available. Your Dealer has full details of the Plan.

### . . . and the Most Trusted Team on the Road.

Ford not only cares in the many ways described, it also assures total peace of mind in your driving, by providing the benefits of membership of the RAC - free for the first year - on every new Ford car. Private and business buyers alike benefit from the many services of the RAC, plus some very special

privileges. It assures mobility, enabling you to complete your journey. Private buyers are registered automatically, company car users must enroll, and existing membership can be suspended and reinstated after the first year. Ask a Ford Dealer about RAC membership courtesy of Ford. It's yet another way in which Ford cares about your motoring. RAC vehicle membership courtesy of Ford includes:

- Exclusive Free Linkline to Ford Personal Incident Managers
- Rescue
- Recovery
- 'At Home' service
- Assured Mobility - one day's free car rental (subject to status) or onward travel or hotel accommodation
- European Rescue service
- Reduced rates for European Cover, 2nd car membership and RAC vehicle insurance
- Free technical information service
- Free legal services
- Route planning service
- Motoring discounts and privileges . . . and lots more besides.

## What's new in '92?

A new generation of multi-valve engines from Ford.

**Many models in the Ford range of front-wheel drive cars are now available with a new, high-technology 16 valve catalyst petrol engine.**

The 1.8i engine has just been introduced on the exciting new Fiesta XR2i, is now available on Escort and Orion LX and Ghia models and is standard on the stunning Escort XR3i hatchback and Cabriolet and on the elegant yet sporty Orion Ghia Si. See pages 3 - 5 for full details and model availability.

**Even more refined Granadas and Scorpions – and estates.**

**Ford Granada and Scorpio four and five-door models have earned a well-deserved reputation for smoothness and refinement among executive car users. They have now been improved still further, and estate models have been added to the range.**

Granada and Scorpio models – now including purposeful estates – have an even stronger image-building appearance, with a new-style front end, a restyled rear end and new wheel covers and alloy wheels, according to model. Refinements such as white direction indicator lenses, a new grille and an elegant paint band enhance the sleek appearance of these executive car marques. The styling of the new

estate models complements the smooth lines of the basic design, incorporating a 'clam shell' tailgate which closes around the rear pillars for maximum loading width and aerodynamic refinement. Improvements to the interiors of Granada and Scorpio models are extensive, creating an even stronger image of executive opulence. A new 'wrap-around' Burr walnut effect panel extends across the fascia and along the front door trims, and the instrument panel has been redesigned for extra clarity. The steering wheel is of a new four spoke design, and there is now an additional central sun visor. Much attention has been paid to the matter of security, in the battle against 'autocrime'. All Granada and Scorpio models now have central and double locking with high-security Tibbe locks. The standard alarm system has an electronic interior movement sensor, and estate models have, in addition, rear side window sensors to give added loadspace protection. All Granada and Scorpio models have electrically-powered side windows, including a 'one shot' lowering system for the driver's

window. With just one quick movement, the driver can fully lower his window hands-free, though he retains full control when closing the window.

The load compartment of the new estate models incorporates a host of thoughtful and practical features to simplify load carrying. Self-leveling suspension is provided on Granada and Scorpio estate models, to maintain poise and prevent headlight misalignment when laden. The load compartment floor, sidewalls and rear seat back are carpeted, and tie-down hooks are provided in the floor. A load compartment cover is also a standard item, to keep your goods out of view. The rear lights are incorporated vertically into the rear pillars, and the reversing lights are integral with the rear number plate light. The tailgate wash/wipe system is interlinked with reverse gear selection and shares the intermittent function of the windscreen wash/wipe system. All Granada and Scorpio models now have silken-smooth petrol engines, which deliver responsive and effortless power, in tune with the overall refinement of the range as a whole.

# A new generation of multi-valve engines from Ford

## Ford at the forefront of engine technology

The frontiers of technology are continuously being expanded as the fruits of scientific research into materials, electronics, engineering and environmental considerations come to life. Ford is at the forefront of technical development and the introduction of new 16 valve engines for front-wheel drive cars is one of the most significant expressions of that research.

Ford engineers realised that only a completely new approach to design, materials and manufacturing techniques could provide the engines needed for the cars of today and tomorrow, at affordable costs, so a dedicated research programme was instigated.

After four years of development and multi-million pounds investment, the benefits of this programme are now available to buyers of selected Fiesta and Escort and all Orion models. The smooth power delivery, instant response and exceptional torque characteristics of the new 16 valve engines provide even more rewarding driving qualities. Their quiet operation and freedom from harsh vibrations enhance passenger comfort, too.

Technically, the new engines incorporate many advanced techniques. The very metals from which the block, head and sump are manufactured – all three components are integral parts of the engine structure – were chosen only when exhaustive materials testing programmes were completed. And though the three materials are different from each other, they are compatible. Similarly, the pistons, connecting rods and crankshaft materials were chosen with scrupulous care, and the most

quality-conscious machining methods were selected. The double overhead camshafts are also the products of careful materials choice, and are driven by a new-specification belt which is designed for extended service life, reducing long-term maintenance costs. The valves are operated by maintenance-free hydraulic tappets, and operate in conjunction with

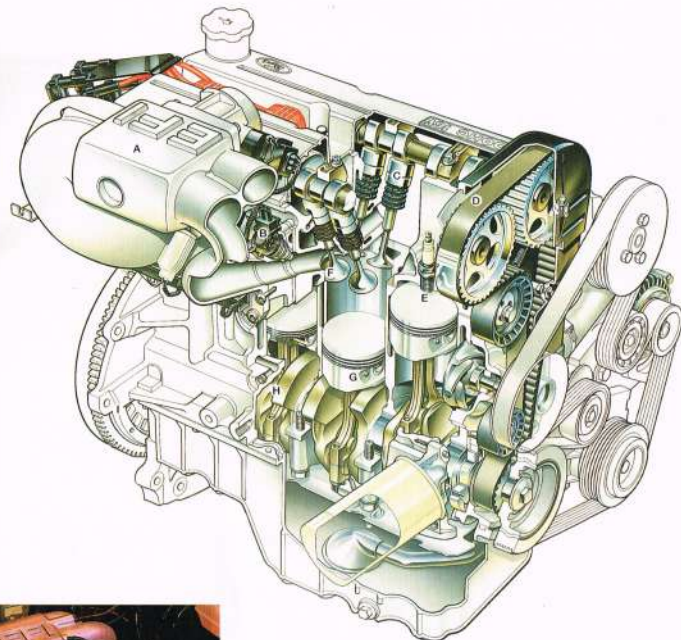

newly-devised combustion chambers, which induce High Velocity Tumble (HVT) upon the incoming gas and air. This optimises mixing and creates an active gas "ball" inside the combustion chamber, where special long-reach spark plugs ignite the gas.

The ignition system has only one moving part – the key. There is no distributor nor any wearing component. Control of the spark plugs is entirely electronic, dependent only upon the throttle position. The fuel system is also electronic, injecting fuel into each cylinder at exactly the right moment, according to parameters monitored by the many sensors which supply the vital information on a continuous basis.

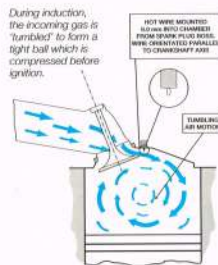

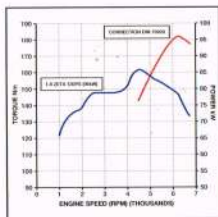

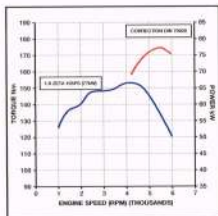

The entire electronic control system is an advanced version of proven Ford EEC IV technology, developed within the Ford organisation and tailored to Ford engines. In its new guise, the microprocessor has greater capacity and speed compared with earlier units and perfectly matches the requirements of the new generation of Ford 16 valve engines.

Continued on page 6

- (A) Full electronic engine management and fuel injection control. Microprocessor technology ensures split-second precision of timing, ignition and combustion.
- (B) Each cylinder has its own individual fuel injector, operated sequentially for maximum power output.
- (C) Hydraulic tappets provide smooth and precise valve operation under all conditions, with no need for maintenance or adjustment.
- (D) The toothed belt driving the double overhead camshafts is made from a newly developed material designed to give a service life of up to 60,000 miles. The tooth profiles are specially shaped for smooth, quiet and positive engagement.
- (E) Long-reach spark plugs deliver their spark close to the heart of the body of gas, further improving combustion and efficiency of each power stroke.
- (F) The four valves per cylinder arrangement provides optimum gas flow, and the specially designed High Velocity Tumble (HVT) combustion chamber ensures the best possible air-fuel mixing for more complete combustion.
- (G) High silicon aluminium lightweight pistons feature a newly developed three-piece oil control ring, and have steel internal expansion strips to minimise noise throughout the speed range.
- (H) For maximum smoothness and refinement, the crankshaft runs on five bearings and has eight counterweights.
- (I) Ignition timing is activated by flywheel indentations, avoiding the need for a distributor or an ignition system with moving parts.

## Power with control

Continued from page 4

### Power with responsibility

Great attention has been paid to the design of the exhaust system, both for operating efficiency and because of our concern for the environment. HVT technology promotes more complete combustion, but the exhaust gases are collected in individual pipes, which converge to form two pairs, and then merge into one large-bore pipe. This is connected to the main exhaust pipe by a flexible coupling, which cushions any vibrations, preventing them being transmitted through the car's bodywork. The three-way catalyst is an integral part of the main exhaust pipe. It is a wide-body type, which allows the exhaust gases to contact the largest possible surface area of catalyst without excessive length. An exhaust catalyst changes carbon monoxide into carbon dioxide, nitrous oxide into nitrogen and hydrocarbons into water vapour.

The design of the engine incorporates other measures which are influenced by environment-conscious considerations. Crankcase fumes are collected as they are produced, and recycled through the engine to prevent them entering the atmosphere. These engines can run only on unleaded petrol, and petrol fumes occurring in the fuel tank are collected and gathered in a chamber containing activated charcoal, which re-liquifies the fumes into petrol.

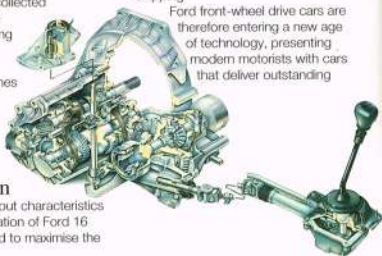

### A specially-matched transmission

To match the output characteristics of the new generation of Ford 16 valve engines, and to maximise the

driving and smoothness qualities, most cars fitted with these engines have a newly-designed five-speed manual gearbox as standard. All Escort XR3i models, and Escort and Orion models powered by the 130 PS version of the new 1.8i engine are fitted with the new MTX 75 all-synchromesh gearbox. The new gearbox has been designed for strength and durability within the lightest weight limitations, and new machining processes ensure perfect gear meshing during gearchanges. Synchromesh is provided on all gears, including reverse, for ease of operation and to prevent gear chipping.

Ford front-wheel drive cars are therefore entering a new age of technology, presenting modern motorists with cars that deliver outstanding

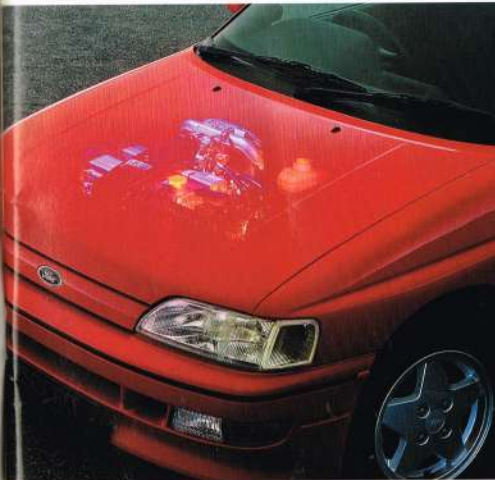

driving qualities, sublime passenger comfort and, for those who prefer them, sports-dedicated and estate models with their own particular qualities in addition to the benefits of the family car equivalents.

### New engines for a new kind of driving

The new generation of Ford 16 valve engines opens up a new world of travel for front-wheel drive motorists. For those who prefer sports motoring with affordability high on the list of attributes, the Fiesta XR2i puts the fun back into driving, with all the small-car qualities - manoeuvrability, ease of parking, round-town agility - plus a true sports personality and the zest and smoothness of the new 16 valve engine.

All Orion models are now available with new 16 valve engines, and there's a new model - the Orion Ghia Si - to suit those who prefer saloon styling, yet still yearn for sports-style motoring and a smooth, free-revving, responsive engine. The renowned Orion virtues of smooth, well-equipped and comfortable travel, are strengthened by the availability of the new, quiet-running 1.8i engine. Escort LX and Ghia hatchback and estate models are now available with the new engines, and the stunning new XR3i hatchback and Cabriolet models are offered only with new Ford 1.8i engines. The unit offered in the LX and Ghia models is the 105 PS variant, with the standard Ford five-speed manual transmission. In XR3i and Cabriolet models, both the 105 PS and 130 PS versions of the new engine are available, in each case with the new Ford MTX five-speed gearbox, which even has synchromesh on reverse gear.

# It all adds up to a Ford

When you buy a Ford, you receive a fine car with many additional benefits which relate not only to performance and reliability but also to your comfort, convenience and peace of mind as the miles roll by. The items described here are just some of those benefits which Ford provides to enhance the motoring experience.

By applying the latest developments in technology, the drivesability, travel pleasure and durability of your Ford is assured, and the engineering quality enables many valuable warranties – including six-year perforation – to be provided. Ford has been among the leaders in providing such advanced features as the 'Quickclear' heated windscreens. Similarly, Ford has been in the forefront of combating 'autocrime', by specifying high security locks, 'Keycode' radios and security glass etching as standard on all models, and anti-theft alarms on a wide range of models.

Ford now introduces a new generation of multi-valve engines, initially in selected Fiesta, Escort and Orion models. The new 16 valve engines, with electronic fuel injection and management, and exhaust catalyst, are the results of tremendous research and development, and will spearhead Ford's progress into the future. Every Ford car comes with a quality audio system designed, engineered and manufactured by Ford's own Electronics Division. Ford is the first car manufacturer to offer RDS equipped audio systems as standard equipment across all carlines (excluding lead price models), and a CD player is also available. Model 2006 and 2007 systems now have registration number security coding, for added protection. These and the many other refinements you'll find in the model of your choice, emphatically confirm that It All Adds Up To A Ford.

On fuel injection engines, the fuel supply is automatically cut off in the event of an accident by an inertia switch located on the vehicle according to model. To reset the switch, simply press the button on top.

All Ford audio systems are protected by a Keycode Anti-Theft System. If the radio, radio cassette or CD player is removed from the vehicle it remains inoperative unless the unit is re-programmed with the correct Keycode number.

RDS automatically interrupts your radio, tape or CD to ensure you receive all the latest traffic news. Ford RDS systems also display the radio station name and automatically tune to the strongest frequency for that station as you drive around the country.

ABS and ALB are anti-kick braking systems, specially developed by Ford for rear-wheel, 4x4 and front-wheel drive cars. Valuable aids to driving in adverse road conditions, they help prevent wheels locking under heavy braking.

Ford Audio Systems provide the highest standards of listening pleasure. Every component, from the radio cassette player to the speakers, antennae, wiring and CD player, has been designed specifically for Ford vehicles. The use of the latest audio technology ensures exceptional levels of audio performance.

Permanent  
4x4  
4-Wheel Drive

The Ford permanent four-wheel drive system is specified on selected Sierra models. It divides the engine power proportionally between the front and rear wheels, greatly improving traction on loose, wet and poor surfaces.

Ford phones are now available through your Dealer, from Ford Cellular Systems. These are designed and engineered for each vehicle in the Ford range. For further details please see page 136.

Catalytic converters are available on selected variants of each Ford car model. A catalytic converter transforms exhaust gases into more environmentally acceptable emissions and can only be used with unleaded fuel.

Adjustable steering wheels are fitted on selected Escort and Orion models (reach-adjustable) and standard on Colinar, Sapphires, Granada and Scorpio models (reach and rake adjustable). Used in conjunction with the seat adjustments, they allow each driver to find the most comfortable driving position.

The innovative Ford 'Quickclear' heated windscreens contain heating elements which provide rapid demisting for a fast start under all conditions. Like all Ford windscreens, they provide rapid, unobstructed visibility. The 'Quickclear' windscreens are made from laminated glass. All Ford cars have heated rear windows.

Air conditioning is standard on Scorpio models and optional on Sierra and Sapphire Ghia, XR4i, Granada, Escort and Orion Ghia models, Orion Ghia Si and the Escort XR3i. It enables the temperature of the car's interior to be maintained at maximum comfort level regardless of ambient conditions and the number of occupants travelling.

Before final painting, every Ford car body is treated with a multi-stage chemical and paint process designed to keep your car looking good. The process is so complete that Ford endorses it with a six-year perforation warranty. All Ford cars have front wheel arch liners as a further protection measure.

Ford has developed a new generation of multi-valve engines, embodying advanced gas flow and combustion techniques, electronic fuel injection and engine management, and advancements in metallurgy and construction. The engines are now offered in selected Ford front-wheel drive models.

Ford fits high security locks as standard. These are highly resistant to picking and are, in many cases, part of a central locking system. This prevents any door being left unlocked inadvertently. New Granada and Scorpio models have central, double locking.

Ford engine management systems ensure that the engines to which they are fitted produce optimum performance for maximum efficiency. They utilize microprocessor electronics to constantly monitor engine conditions and adjust the ignition accordingly.

Before delivery, every Ford car undergoes security etching on all window surfaces. The programme is a valuable security aid and both as a deterrent and a means of attracting attention in a theft attempt. The programme also provides free line of a similar vehicle for up to seven days, subject to status, should your vehicle be stolen within your first year of ownership.

Power steering makes a valuable contribution to effortless driving, and is available on Escort 1.6 LX, 1.8 diesel LX and LX, Orion 1.6 and 1.8 diesel LX and on selected Sierra and Sapphire 1.6 turbo diesel models. It is standard on all Escort and Orion 1.8 16V models, all 2.0 Sierra models and all Granada and Scorpio models.

Most Ford cars are fitted with anti-theft alarms. Where fitted, they are automatically activated and act both as a deterrent and a means of attracting attention in a theft attempt. The programme also provides free line of a similar vehicle for up to seven days, subject to status, should your vehicle be stolen within your first year of ownership.

Power steering makes a valuable contribution to effortless driving, and is available on Escort 1.6 LX, 1.8 diesel LX and LX, Orion 1.6 and 1.8 diesel LX and on selected Sierra and Sapphire 1.6 turbo diesel models. It is standard on all Escort and Orion 1.8 16V models, all 2.0 Sierra models and all Granada and Scorpio models.

**The superb Fiesta range of highly affordable hatchbacks now includes an even more exciting new XR2i sports model. Powered by the 105 PS version of the new Ford 1.8i high technology 16 valve engine, the new XR2i delivers a fine turn of speed with the kind of smoothness and response normally found only in larger cars. The entire Fiesta range is strong on driveability, with manoeuvrability and ease of driving high on the list of virtues. The range of petrol and diesel engines lets you tailor your Fiesta to your budget, and the 1.1 three-door model was recently named Best Value Car by 'What Car?' magazine (see page 13). The availability of anti-lock brakes as an option is a rarity for cars in this class. But then, every Fiesta is as special, in its own way, as the motorist who wisely chooses it.**

# Fiesta

The car that simply bears the name Fiesta proves that affordability can mean rewarding and stylish motoring. It's the car for budget-conscious buyers who nevertheless demand high standards of comfort and equipment, a quality audio system and a responsive engine for around-town or long-distance travel. As the curtain-raising model for the new line-up of Fiestas, it's a better buy than ever.

Standard features include:

- 1.1 HCS petrol engine with four-speed gearbox.
- Full wheelcovers.
- Bodyside mouldings.
- Colour-keyed non-woven velour carpet
- Moulded seats and height adjustable front head restraints trimmed in Goodwood fabric 3.
- Electronic Self-Seek AM / FM Stereo Radio - Model 2001 1 with two speakers and roof mounted aerial.
- Front door bins.
- 155 / 70 SR x 13 tyres.
- Carpet covered lidding rear parcel tray.
- Goodwood fabric trimmed upper door panels 3.
- Driver's and passenger's side manual remote control door mirrors.
- Heated rear window.
- Two-position front seat belt upper fixing.
- Stowage pocket in passenger footwell.
- Illuminated instrument panel with constant readout fuel gauge and warning lights 2.

For full specification details and option availability see pages 24 - 29.

"The Fiesta's engine is simple, tough and reliable. And when the time comes for service or repairs you won't have to travel far to find the nearest Ford dealer. Low running costs are a Fiesta strong point. The popularity of the model, plus reasonable repair prices, means that insurance costs can be kept low. Good fuel economy and low parts prices all help to keep running costs down. And when the time comes to sell, the Fiesta owner will have few problems. Demand will remain high, with good trade-in or private-sale values. This may not be the least expensive car in our price lists, but in terms of running costs, depreciation and trade-in values the Fiesta 1.1 has in our view, no equal."

Fiesta 3-door	1.1

# Fiesta L

The Fiesta L provides a generous level of features and equipment, in return for a surprisingly modest price. There's a choice of engines and transmissions, the added hatchback versatility of a split rear seat back and an exceptionally smart interior. The stylish exterior is enhanced by thoughtful finishing touches and distinctive wheel covers.

Standard features include:

- Choice of 1.1 HCS and 1.1 CFi (Catalyst) with four speed gearbox, 1.3 CFi (Catalyst) with automatic transmission or 1.8 diesel with five-speed gear box.
  - Full wheelcovers and 155 / 70 tyres.
  - Wide bodyside mouldings.
  - Bright bumper inserts
  - Colour-keyed non-woven velour carpet.
  - Seats trimmed in Spa fabric 1.
  - Spa upper door fabric trim with a patterned vinyl lower.
  - Electronic Self-Seek AM / FM Stereo Radio / Cassette - Model 2006 RDS 3 with 'Keycode' anti-theft coding, four speakers and roof mounted aerial.
  - 60:40 split rear seat back.
  - Intermittent wipe function.
  - Digital clock 4.
  - Load compartment light.
  - Passenger's sunvisor vanity mirror.
- Key optional features available at extra cost include a mechanically controlled anti-lock braking system, sunroof and metallic paint 2.

For full specification details and option availability see pages 24 - 29.

# Fiesta LX

The Fiesta LX delivers all the style and affordability inherent in this range of hatchbacks, plus levels of features and equipment more usually associated with cars in a higher price bracket. It's the Fiesta for the discerning, budget-conscious motorist who demands high standards of comfort and driveability.

Standard features include:

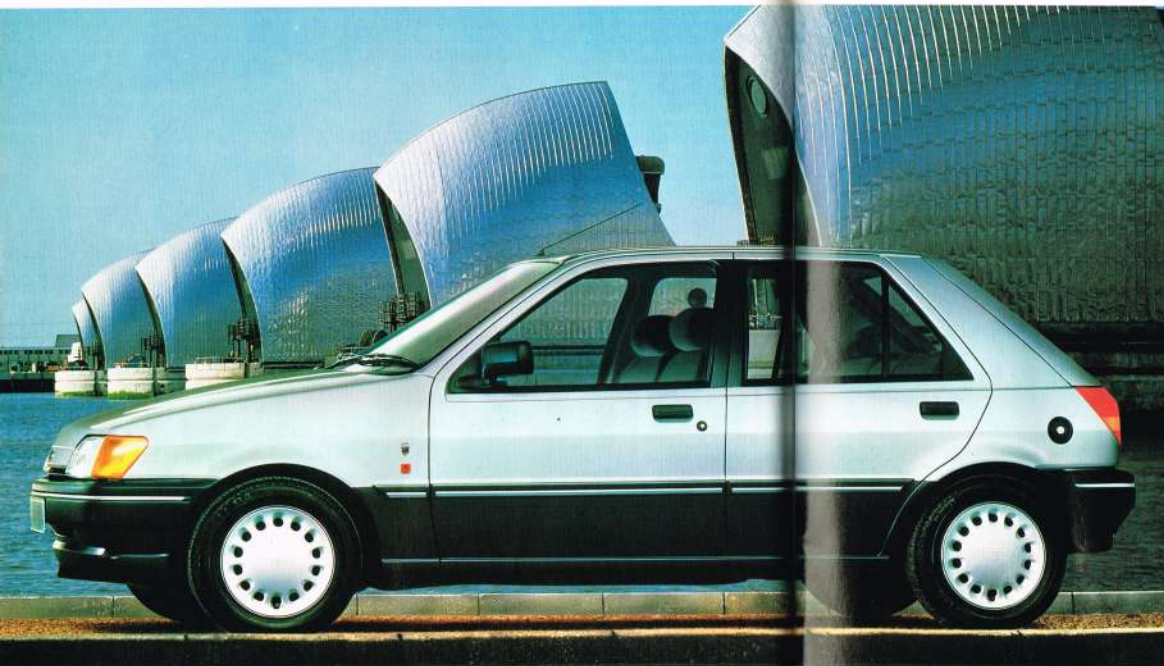

- Choice of 1.1 HCS, 1.3 HCS and 1.3 CFI (Catalyst) with five-speed gearbox. A 1.8 diesel with five-speed gearbox is available on the 5-door model.
- Astral fabric seat trim 4.
- Astral upper door fabric with a patterned vinyl lower.
- Tinted glass.
- 165 / 65 SR x 13 tyres.
- Bumpers and bodyside mouldings with bright insert.
- Tilting / removable screened glass sunroof with rotary knob 5.
- Intermittent wipe function.
- Tachometer 3 and trip recorder on petrol models.
- Four-door operated front courtesy light.
- Electronic Self-Seek AM / FM Stereo Radio / Cassette – Model 2006 RDS 2 with 'Keycode' anti-theft coding, four speakers and roof mounted aerial.
- Key optional features at extra cost include an automatic transmission on the 1.3 CFI (Catalyst) 5-door model, metallic paint 1 and an option pack that consists of central locking, electrically operated front windows, remote tailgate release and floor-mounted console.

For full specification details and option availability see pages 24 – 29.

# Fiesta Ghia

**3** The name Ghia represents one of the highest levels of motoring refinement and the Fiesta which bears the Crest is a superb example. It has a distinctive exterior paint finish, and the interior incorporates many extra features which add up to luxurious motoring. It's the Fiesta for the motorist who prefers a small car, but who also takes an uncompromising attitude to travel comfort.

Standard features include:

- Choice of 1.3 CFI (Catalyst) with automatic transmission or 1.4 CVH and 1.4 CFI (Catalyst) with five-speed gearbox.
- Seats are trimmed in dual fabric Mirage and Monroe **5**.
- 165 / 85 SR x 13 tyres.
- "Quickclear" heated front windscreen on the 1.4 engine **1**.
- Grey paint treatment below bodyside moulding and on front and rear valance.
- Central door locking with torch key.
- Tinting / removable screened glass sunroof
- Front seat back storage nets.
- Variable position front seat belt upper fixing.
- Electrically operated front windows **2** and remote tailgate release.
- Electronic Self-Seek AM / FM Stereo Radio / Cassette - Model 2006 RDS **4** with "Keycode" anti-theft coding, four speakers and roof mounted aerial.
- Key optional features available at extra cost include a mechanically controlled anti-lock braking system and metallic paint **3**.

Please note that the electric window switch position may differ from that shown **4**.

For full specification details and option availability see pages 24 - 29.

# Fiesta SX

The Fiesta SX is designed to satisfy the driver who likes a sports-oriented car with agile performance and a lot of style. The smart exterior is emphasised by a rear spoiler and distinctive wheel covers and bodyside mouldings. The agility of the smooth 1.3 HCS engine is matched by sports suspension, a front anti-roll bar and front disc brakes.

Standard features include:

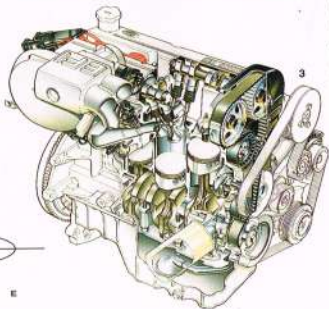

- 1.3 HCS engine with five-speed gearbox.
  - Three-door body style.
  - Manual remote-control door mirrors.
  - Tailgate spoiler.
- 2
- Full sports-styled wheel covers.
  - 185 / 60 HR x 13 tyres.
  - Wide black bodyside mouldings with red insert.
  - Stowage pocket in passenger footwell.
  - Front sports seats trimmed in Thrisk fabric 3 with fully reclining front-tilting backs.
  - Two-spoke soft-feel sports steering wheel 1.
  - Tilting / removable screened glass sunroof 2.
  - Tachometer.
  - Electronic Self-Seek AM / FM Stereo Radio / Cassette - Model 2006 RDS with 'Keycode' anti-theft coding, four speakers and roof mounted aerial.
- 3
- Key optional features available at extra cost are Ford's award winning anti-lock braking system and black or metallic paint.

For full specification details and option availability see pages 24 - 29.

SX 3-door	1.3

# Fiesta XR2i

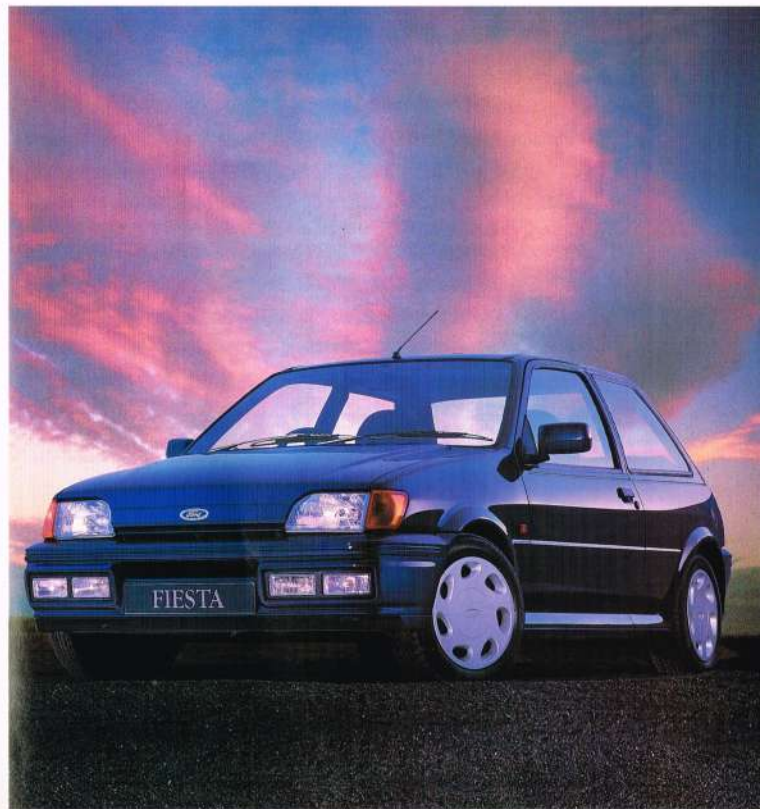

**1** Now with the zest of the new Ford 1.8i 16 valve engine, and a smarter, well-equipped interior the Fiesta XR2i delivers even more driving satisfaction for the image-conscious sports motorist. The new engine gives the XR2i a fine turn of speed, plus a new kind of obedience and response, thanks to the advanced electronics and technology incorporated in the engine.

Standard features include:

- Three-door bodystyle.
  - 1.8i 16V (Catalyst) engine **3**.
  - Sports suspension.
  - Full depth, body colour bumpers.
  - Body colour door mirrors.
  - Front fog and long range driving lights.
  - Tinted glass
  - Sunroof, tilting removeable screened glass.
  - Central door locking with torch key.
  - Body colour wheelarch extensions and rocker panel mouldings.
  - Tailgate spoiler **2**.
  - Leather effect gearshift gaiter **1**.
  - Sports front seats with adjustable head restraints and stowage nets **1**.
  - Leather-covered sports steering wheel and gearlever knob **1**.
  - Electrically-operated front windows and remote tailgate release.
  - Electronic Self-Seek AM/FM Stereo Radio/Cassette – Model 2006 RDS with 'Keycode' anti-theft coding and four speakers.
- o Key optional features, available at extra cost, include an anti-lock braking system, a 'Quickclear' heated front windscreen and alloy wheels.

For full specification details and option availability see pages 24 – 29.

## Model availability - (see key attached) & Weights and Loads

### Key:

This table shows the availability of standard/optional engine and gearbox combinations on Fiesta models and their resulting kerbside weights.

### Kerbside weights in bold denote standard models

[ ] Indicates optional transmission, see options on page 29

### Key:

BE Able to run on either loaded or unloaded petrol without adjustment.

NR Runs on unloaded petrol only.

Standard (optional) Gearbox (optional) Kerbside weight (kg)

	Fiesta	L	LX	GLi	SX	X2i	Overseas vehicle weight (kg)	Max. towing limit (2 ax) (kg)
<b>3-door Fiestas</b>

1.1 CFI (Catalyst) 4-speed	<b>825</b>						1275	800
1.3 HCS 5-speed			<b>845</b>				1300	900
1.3 CFI (Catalyst) 5-speed			<b>850</b>				1300	900
1.3 CFI (Catalyst) Automatic			<b>870</b>	<b>870</b>			1300	900
1.4 CVH 5-speed						<b>855</b>	1275	900
1.4 CFI (Catalyst) 5-speed						<b>865</b>	1275	900
1.8 Diesel 5-speed	<b>895</b>	<b>900</b>					1350	900

**Towing limits** quoted in this catalogue represent the recommended maximum towing ability of the vehicle with 2 occupants (150 lb each) to rest on an 8 per cent gradient at sea level. This means that where additional payload is carried (additional occupants, luggage, etc.), then this additional weight should be deducted from the recommended towing limit. The performance and economy of all models will be reduced when used for towing.

**Roof rack load** is a maximum of 75kg on all models.

TT Represents the lightest kerbside weight assuming full fuel levels and fuel tanks, subject to manufacturing tolerances and options, etc., fitted.

## Technical - Engine data

	Engine technical features	Minimum power	Maximum torque
<b>1.1 HCS (E)</b> 1118 cc	Cylinders - 4 in-line • Twin Venturi carburettor • Electronic breakless ignition	54 PS at 5500 rpm	86 Nm at 2700 rpm
<b>1.1 HCS CFI (Catalyst) (E)</b> 1118 cc	Cylinders - 4 in-line • Electronic single point central fuel injection • Electronic breakless ignition	50 PS at 5500 rpm	83 Nm at 3000 rpm
<b>1.3 HCS (E)</b> 1297 cc	Cylinders - 4 in-line • Twin Venturi carburettor • Electronic breakless ignition	60 PS at 5000 rpm	101 Nm at 2500 rpm
<b>1.3 HCS CFI (Catalyst) (E)</b> 1297 cc	Cylinders - 4 in-line • Electronic single point central fuel injection • Electronic breakless ignition	60 PS at 5000 rpm	101 Nm at 2500 rpm
<b>1.4 CVH (E)</b> 1392 cc	Cylinders - 4 in-line • Twin Venturi carburettor • Electronic breakless ignition	75 PS at 5600 rpm	109 Nm at 4000 rpm
<b>1.4 CVH CFI (Catalyst) (E)</b> 1392 cc	Cylinders - 4 in-line • Electronic single point central fuel injection • Electronic breakless ignition	71 PS at 5500 rpm	103 Nm at 4000 rpm
<b>1.6i (DHC) 16V (Catalyst) (E)</b> 1796 cc	Cylinders - 4 in-line • Electronic fuel injection with an advanced EEC-IV engine management system • Electronic breakless ignition	105 PS at 5500 rpm	153 Nm at 4000 rpm
<b>1.8 Diesel</b> 1753 cc	Cylinders - 4 in-line • Indirect mechanical fuel injection • Glow-plug pre-warm	60 PS at 4800 rpm	110 Nm at 2500 rpm

*The Escort is the first choice for millions of family and business motorists demanding high standards of comfort and driveability from a medium-sized car. Now with the availability of new-technology 16 valve 1.8i catalyst engines in LX and Ghia models, the Escort range has even more to offer. The new engine replaces the 1.6 EFI engine option and is standard in all XR3i and Cabriolet models. The range also includes load-packing estate models, with all the driving and style qualities of their hatchback counterparts, and LX and Ghia estate derivatives are also now offered with the new 1.8i engines in place of the 1.6 EFI unit. A new, specially developed MTX 75 five-speed gearbox has been developed for use with the high output version of the new 1.8i engine, but is also standard in XR3i and Cabriolet models, with the 105 PS engine.*

# Escort

The hatchback which carries the Escort badge offers the promise of rewarding family motoring at an affordable price. It now has stylish mid-grey bumpers, a new, brighter interior trim and a two-channel stereo radio/cassette audio system. Available with a choice of petrol and diesel power the Escort is a better buy than ever.

Standard features include:

- Choice of three- or five-door bodystyles.
- Choice of 1.3 HCS, 1.4 CVH and 1.4 CFI (Catalyst) petrol engines or 1.8 diesel with five-speed gearbox.
- Full wheelcovers.
- Rear seat belt webbing storage clips.
- Anti-theft alarm, 'Alarm activated' light within facia clock housing 2.
- Centre console.
- Manual remote control door mirrors.
- Passenger's upper stowage area 3.
- Front seats trimmed in Kempton fabric 4 with easy-to-use adjust levers.
- Heated rear window.
- Tailgate wash/wipe.
- 'Floodlit' instrument panel with warning lights and constant readout fuel gauge 1.
- Electronic Self-Seek AM / FM Stereo Radio / Cassette - Model 2015 1 with 'Keycode' anti-theft coding.

o Key optional features, available at extra cost, are Ford's award winning anti-lock braking system and metallic paint.

For full specification details and option availability see pages 46 - 51.

# Escort L

**3** The Escort L builds on the outstanding qualities of the lead-in model, offering a wider choice of engines and setting its own particular style. With colour-toned bumpers, wide bodyside mouldings and stylish wheel covers, the Escort L has a distinctive exterior and the Spa velour interior.

Standard features include:

- Choice of three- or five-door bodystyles.
- Choice of 1.4 CVH and 1.4 CFI (Catalyst) petrol engines or 1.8 diesel with five-speed gearbox.
- Colour toned bumpers and bodyside mouldings.
- Full wheelcovers.
- Rear seat belt stowage clips.
- Anti-theft alarm. 'Alarm activated' light within facia clock housing **2**.
- Tilt-or-slide glass: sunroof with loured blind.
- Tinted glass.
- Illuminated glovebox with lid **1**.
- Remote tailgate release.
- 60:40 split rear seat back.
- Front seats trimmed in Spa fabric **4**, with easy-to-use adjust levers.
- Electronic Self-Seek AM / FM Stereo Radio / Cassette - Model 2006 RDS **2** with 'Keycode' anti-theft coding and four speakers.

○ Key optional features, available at extra cost, are Ford's award winning anti-lock braking system, power assisted steering on 1.8 diesel 3 and 5-door, metallic paint **3** and central door locking.

For full specification details and option availability see pages 40 - 51.

# Escort LX

Now available with a 105 PS 1.8i 16 valve engine, the well-equipped Escort LX makes even more sense for motorists who take a pride in the car of their choice. The generous array of equipment and high standards of comfort are exceptional for cars in this price range, and the wide engine selection means there's more choice, too.

Standard features include:

- Choice of three- or five-door bodystyles.
- Choice of 1.4 CVH, 1.4 CFI (Catalyst), 1.6 CVH and 1.8i 16V (Catalyst) petrol engines or 1.8 diesel. A five speed gearbox is standard and an automatic (CTX) is available on the 1.6 petrol.
- 14" wheels with 185/60 HR tyres and full wheelcovers.
- Body colour tailgate spoiler.
- Body colour door mirror housings.
- Mid-grey paint treatment below bodyside moulding.
- Driver's seat height/cushion tilt adjust.
- Front seats trimmed in Miami velour 5 with easy-to-use adjust levers.
- Electrically operated front windows 2.
- Extended centre console.
- Anti-theft alarm. "Alarm activated" light within facia clock housing 4.
- Tachometer in instrument panel 1.
- Tilt-or-slide glass sunroof with louvred blind.
- Central door locking with torch key.
- Electronic Self-Seek AM / FM Stereo Radio / Cassette - Model 2006 4 RDS with "keycode" anti-theft coding and four speakers.

- o Key optional features, available at extra cost, are Ford's award winning anti-lock braking system, "Quickclear" heated front windscreen and washer jets, power assisted steering on 1.6 petrol and 1.8 diesel and metallic paint 3.

For full specification details and option availability see pages 46-51.

# Escort Ghia

2 The Escort models bearing the Ghia crest can now be specified with the new Ford 1.8i 16 valve engine. The engine's smooth power delivery complements the refinement of this model, enhancing the driving qualities and contributing to the overall travel quality with its quiet running and low vibration characteristics.

Standard features include:

- Choice of 1.4 CVH, 1.4 CFI (Catalyst), and 1.8i 16V (Catalyst) petrol engines. Five-speed gearbox is standard
- 6x14" Alloy wheels 2
- Power assisted steering on 1.8i models.
- Electrically operated and heated door mirrors with body-colour housings.
- Rear seat head restraints.
- Front seat back stowage nets 4.
- Passenger's under front seat stowage tray 3.
- Body colour bumpers.
- Anti-theft alarm. \*Alarm activated" light within facia clock housing 1.
- "Quickclear" heated windscreen and washer jets.
- Front seats trimmed in dual fabric Space/Angora velour 1 with easy-to-use adjust levers.
- Electronic Self-Seek AM/FM Stereo Radio/Cassette - Model 2007 1 RDS with "Keycode" anti-theft coding and eight speakers.
- Key optional features, available at extra cost, are Ford's award winning anti-lock braking system, and the Premium Sound System - Model 2008 with a CD Player - Model 2028.

For full specification details and option availability see pages 46 - 51.

# Escort XR3i

130 PS model

'Ford should join the Magic Circle. For the second time in three months it has put the Escort into a hat and pulled out a fine car. It looks great, handles very well and, most importantly, is powered by an engine that not only has ample torque all the way round its rev-range, but also delivers its power in a smooth, civilised manner.'

'Autocar & Motor', 5 February 1992, page 37.

Now there's a stunning new XR3i model, introduced with the newly-announced Ford high-technology 16 valve engine, delivering your choice of 105 PS or 130 PS power. With the high-technology engine comes a slick newly-designed MTX 75 five-speed gearbox, which even has synchronesh on reverse gear.

Standard features include:

- Choice of 1.8i 16V engines with either 105 PS or 130 PS power outputs. Fully synchroneshed five-speed gearbox.
- Power-assisted steering.
- Sports suspension.
- Alloy wheels and all-round disc brakes on the 130 PS model.
- Anti-theft alarm. 'Alarm activated' light within fascia clock housing 1.
- Front fog lights.
- Long range driving lights.
- Central door locking with high security locks.
- Body colour tailgate spoiler.
- 'Quickclear' heated windscreen and washer jets.
- Sports instrument cluster with red symbols and red floodlighting.
- Map reading lights.
- Front sports seats.
- Sports three-spoke steering wheel, reach adjustable.
- Electrically-operated front windows.
- Electronic Self Seek AM/FM Stereo Radio/Cassette - Model 2007 RDS 1 with 'Keycode' anti-theft coding and eight speakers.

o Key optional features available at extra cost include anti-lock brakes, CD Player - Model 2028, Premium Sound System - Model 2008 RDS with 2028 CD Player.

# Escort XR3i Cabriolet

130 PS model

**5** The exhilarating Escort Cabriolet meets the needs of wind-through-the-hair motorists who prefer an open-top tourer. The new, high-technology Ford 1.8i 16 valve engine now adds smoothness and technical refinement to this much-prized model, enhancing the high standards of driveability, both in 105 PS and 130 PS ratings, according to your needs.

Standard features include:

- Choice of 1.8i 16V engines with either 105 PS or 130 PS power outputs. Fully synchromeshed five-speed gearbox.
- Power-assisted steering.
- Sports suspension.
- Alloy wheels and all-round disc brakes on the 130 PS model.
- Anti-theft alarm. "Alarm activated" light within fascia clock housing.
- Front fog lights.
- Long range driving lights.
- Central door locking with high security locks.
- Fast folding roof - (electrically-operated on 130 PS).
- Grab handles 4 and courtesy light 3 integral with roll bar.
- "Quickclear" heated windscreen and washer jets.
- Sports instrument cluster with red symbols and red floodlighting 2.
- Sports three-spoke steering wheel, reach adjustable 2.
- Electrically-operated front and rear windows.
- Electronic Self-Seek AM/FM Stereo Radio/Cassette - Model 2007 RDS with "Keycode" anti-theft coding and eight speakers 1.

o Key optional features available at extra cost include anti-lock brakes, leather trim, CD Player - Model 2028 1, Premium Sound System Model 2008 RDS with 2028 CD Player and Recaro front seats 1, 5.

For roof colour choices see page 49.

For full specification details and option availability see pages 46 - 51.

## Escort Estates

Escort estate models provide all the comfort and driving qualities of their hatchback equivalents, yet have strong practical virtues as spacious and efficient load carriers. The purposeful shape of the load area, plus the added versatility of the split rear seat configuration, means that a wide range of goods and passenger combinations can be achieved. When folded down, the rear seat back lies clear of the raised seat

cushion, presenting a flat, level load floor. The availability of three distinct models enables buyers to select the Escort estate which best suits their needs.

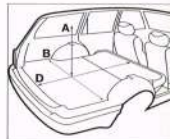

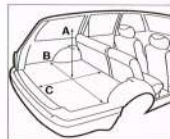

The Escort estate range comprises L, LX and Ghia models, each providing high standards of comfort and equipment. The L model is powered by a 1.4 litre petrol engine, offered in standard or catalyst form, or by the 1.8 diesel engine. The styling includes colour-toned bumpers and bodyside mouldings, and velour interior trim. The LX and Ghia models are now available with the new Ford 1.8i 16 valve engine, in addition to the choice of existing petrol and diesel units.

The Ghia model **1** is distinguishable by its alloy wheels, mid-grey wide bodyside mouldings and full body colour bumpers. An integral roof rack is provided as standard. The new Space/Angora velour trim enhances the new front seats and the well-equipped interior. Head restraints are provided for rear seat passengers.

For full specification details and option availability see pages 40 - 51.

- A** Maximum cargo height 650 mm
- B** Maximum floor width 1285 mm, width between wheelarches 1152 mm
- C** Load space length to back of rear seat 1646 mm
- D** Load space length to seat bottom (angled forward) 1695 mm

1.8 Diesel 5-speed	1030	1050	1060				1500	1200

### Cabriolets

1.8i 16V (Catalyst) 105 PS 5-speed						T.B.A.	1600	1200
1.8i 16V (Catalyst) 130 PS 5-speed						T.B.A.	1600	1200

### 5-door Estates

	Escort	L	LX	XR3i	GLi	XR3i Cabriolet	Desiccated vehicle weight (kg)	Max. towing limit (2 up) (kg)
1.4 CVH 5-speed		1025	1035		1050		1475	1140
1.4 CFI (Catalyst) 5-speed		1030	1040		1055		1475	1200
1.6 CVH 5-speed			1055				1500	1200
1.6 CVH Automatic			1065				1525	1200
1.8i 16V (Catalyst) 105 PS 5-speed			1110		1135		1600	1200
1.8 Diesel 5-speed		1105	1115				1550	1200

Towing limits quoted in this catalogue represent the recommended maximum towing ability of the vehicle with 2 occupants (150 lb each) to rest on an 8 per cent gradient at sea level. This means that where additional payload is carried (additional occupants, luggage, etc.), then this additional weight should be deducted from the recommended towing limit. The performance and economy of all models will be reduced when used for towing.

Roof rack load to a maximum of 75kg on all models except Cabriolet, where a normal roof rack cannot be fitted.

†† Represents the lightest kerbside assuming full fuel levels and fuel levels, subject to manufacturing tolerances and options, etc. †††

## Technical – Engine data

### Key:

Ⓜ Able to run on either loaded or unloaded petrol without adjustment.

Ⓜ Flare on unloaded petrol only.

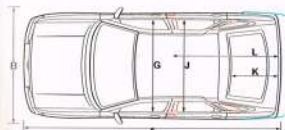

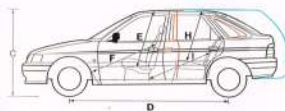

Engine	Technical features	Maximum power	Maximum torque
1.3 HCS Ⓜ	Cylinders – 4 in-line • Twin Venturi carburettor • Electronic breakerless ignition	60 PS at 5000 rpm	101 Nm at 3000 rpm
1.4 CVH Ⓜ	Cylinders – 4 in-line • Twin Venturi carburettor • Electronic breakerless ignition	73 PS at 5500 rpm	108 Nm at 4000 rpm
1.4 CFI (Catalyst) Ⓜ	Cylinders – 4 in-line • Electronic single point central fuel injection • Electronic breakerless ignition	77 PS at 5500 rpm	103 Nm at 4000 rpm
1.6 CVH Ⓜ	Cylinders – 4 in-line • Twin Venturi carburettor • Electronic breakerless ignition	90 PS at 5800 rpm	130 Nm at 4000 rpm
1.8i DOHC 16V (Catalyst) Ⓜ	Cylinders – 4 in-line • Electronic fuel injection with EEC IV engine management system • Electronic breakerless ignition	105 PS at 5500 rpm	153 Nm at 4000 rpm
1.8i DOHC 16V (Catalyst) Ⓜ	Cylinders – 4 in-line • Electronic fuel injection with EEC IV engine management system • Electronic breakerless ignition	130 PS at 6250 rpm	162 Nm at 4500 rpm
1.8 Diesel	Cylinders – 4 in-line • Indirect mechanical fuel injection • Glow plug pre-warm	50 PS at 4800 rpm	110 Nm at 2500 rpm

*Elegant Orion models have particular appeal for motorists who prefer saloon configuration but still require the benefits of modern design and engineering. Now, a further dimension of technology is added, with a new Ghia Si model featuring as standard the 130 PS new-generation 1.8i 16 valve engine. This engine, in 105 PS form is also available in Orion LX and Ghia models, replacing the 1.6 EFi engine. The choice of power units also includes the availability of 1.4 CVH, 1.4 CFi (Catalyst) and 1.8 diesel units. The new Ford 1.8i engine is exceptionally smooth, quiet-running and low in vibration, complementing the refinement for which all Orion models are renowned.*

# Orion LX

As the foundation for the Orion range, the exceptionally well-equipped LX model demonstrates the high overall standards of the marque. And now that the new Ford 1.8i 16 valve engine can be specified, this model has class-leading technical integrity, too.

Standard features include:

- Choice of 1.4 CVH, 1.4 CFi (Catalyst) 1.6 CVH and 1.8i 16V (Catalyst) petrol and 1.8 diesel engines. A five-speed gearbox is available on all engines and an automatic (CTX) is available on the 1.6 petrol.
  - 6x14" wheels with 185/60 HR tyres and new wheelcovers.
  - Body colour door mirror housings.
  - Mid-gray bumpers and bodyside mouldings.
  - Mid-gray paint treatment below bodyside moulding.
  - Driver's seat height/cushion tilt adjust.
  - Front seats trimmed in Miami velour 1 with easy-to-use adjust levers.
  - Electrically operated front windows 2.
  - Anti-theft alarm, "Alarm activated" light within facia housing 1.
  - Tachometer in instrument panel 3.
  - Tilt or slide glass sunroof with louvred blind.
  - Tinted glass.
  - Central door locking with torch key.
  - Remote boot release.
  - Electronic Self-Seek AM/FM Stereo Radio/Cassette - Model 2006 1 RDS with "Keycode" anti-theft coding and four speakers.
- Key optional features, available at extra cost, are Ford's award winning anti-lock braking system, power assisted steering on 1.6 petrol and 1.8 diesel and "Quickclear" heated front windscreen 1 and washer jets.

# Orion Ghia

**2** The coveted Ghia crest sits worthily on this Orion model. Elegant, refined, luxurious, the Orion Ghia combines everything that's best about saloon configuration with the refinement demanded by today's discerning motorists. And with the new Ford 1.8i 16 valve engine included in the choice of power units, the Orion Ghia is now more appealing than ever.

Standard features include:

- Choice of 1.4 CVH, 1.4 CF (Catalyst), and 1.8 16V (Catalyst) engines. A five-speed gearbox is standard.
  - 6x14 alloy wheels.
  - Power assisted steering on 1.8i model.
  - Electrically operated and heated door mirrors with body colour housings.
  - Front seat-back stowage nets **4**.
  - Passenger's under front seat stowage tray **3**.
  - Body colour bumpers.
  - Anti-theft alarm. 'Alarm activated' light within facia clock housing **1**.
  - 'Quickclear' heated windscreen and washer jets.
  - Front seats trimmed in dual fabric Space/Angora velour **1** with easy-to-use adjust levers.
  - Steering column adjustable for reach.
  - Electronic Self-Seek AM/FM Stereo Radio/Cassette - Model 2007 1 RDS with 'Keycode' anti-theft coding and eight speakers.
- Key optional features, available at extra cost, are Ford's award winning anti-lock braking system and the Premium Sound System - Model 2008, with a CD Player - Model 2028.

For full specification details and option availability see pages 50 - 53.

# Orion Ghia Si

The new Orion Ghia Si model is one of the first cars with the new Ford 1.8i 16 valve engine as standard. Producing 130 PS, the engine gives this elegant saloon a fine turn of speed, which will delight sporting drivers who prefer four-door configuration. There's a lot of style, too, so the Orion Ghia Si is sure to have wide-ranging appeal.

Standard features include:

- 1 • 1.8i 16V (Catalyst) engine.
- Power-assisted steering 1.
- Sports suspension.
- Anti-theft alarm. 'Alarm activated' light within facia clock housing.
- Electrically-operated and heated door mirrors with body colour housing.
- 6x14 alloy wheels with 185/60 VR 14 tyres, with disc brakes on all wheels.
- 'Quickclear' heated windscreen and washer jets.
- Rear window wash/wipe 2.
- 'Lights on' audible warning.
- Front footwell courtesy lights.
- Sports steering wheel, reach adjustable 1.
- Tilt-or-slide glass sunroof with louvred blind.
- Electronic Self-Seek AM/FM Stereo - Radio/Cassette - Model 2007 RDS with 'Keycode' anti-theft coding and eight speakers.
- o Key optional features, available at extra cost, are air conditioning, anti-lock brakes, CD Player - Model 2028, Premium Sound System - Model 2008 RDS with a CD Player - Model 2028 and metallic paint 2.

For full specification details and option availability see pages 60 - 63.

# Orion specifications

## Model availability – (see key attached) & Weights and Loads

### 4-door Orions

	LX	Orion	Orion SL	Gross vehicle weight (kg)	Max. towing limit (2 up) (kg)
1.4 CVH 5-speed	1015	1030		1450	1200
1.4 CFI (Catalyst) 5-speed	1010	1035		1450	1200
1.6 CVH 5-speed	1035			1475	1200
1.6 CVH Automatic	1045			1500	1200
1.8i 16V (Catalyst) 10SPS 5-speed	1070	1090		1550	1200
1.8i 16V (Catalyst) 130PS 5-speed			1110	1575	1200
1.8 Diesel		1085		1550	1200

**Towing limits** quoted in this catalogue represent the recommended maximum towing ability of the vehicle with 2 occupants (150 kg each) to resist on an 8 per cent gradient at sea level. This means that where additional payload is carried (additional occupants, luggage, etc.), then this additional weight should be deducted from the recommended towing limit. This performance and economy of all models will be reduced when used for towing.

**Roof rack load** is a maximum of 75kg on all models.

†† Represents the lightest kerbweight assuming full fluid levels and fuel levels, subject to manufacturing tolerances and options, etc., fitted.

## Technical – Engine data

	Engine technical features	Maximum power	Maximum torque
<b>1.4 CVH</b> †	Cylinders – 4 in-line • Twin Venturi carburettor • Electronic breakerless ignition	73 PS at 5500 rpm	108 Nm at 4000 rpm
<b>1.4 CFI (Catalyst)</b> ††	Cylinders – 4 in-line • Electronic single point central fuel injection • Electronic breakerless ignition	71 PS at 5600 rpm	103 Nm at 4000 rpm
<b>1.6 CVH</b> †	Cylinders – 4 in-line • Twin Venturi carburettor • Electronic breakerless ignition	90 PS at 5800 rpm	130 Nm at 4000 rpm
<b>1.6 DOHC 16V (Catalyst)</b> ††	Cylinders – 4 in-line • Electronic fuel injection with EEC IV engine management system • Electronic breakerless ignition	105 PS at 5500 rpm	153 Nm at 4000 rpm
<b>1.8i DOHC 16V (Catalyst)</b> ††	Cylinders – 4 in-line • Electronic fuel injection with EEC IV engine management system • Electronic breakerless ignition	130 PS at 5250 rpm	162 Nm at 4500 rpm
<b>1.8 Diesel</b>	Cylinders – 4 in-line • Indirect mechanical fuel injection • Glow plug pre-heat	60 PS at 4900 rpm	110 Nm at 2500 rpm

### Key:

This table shows the availability of standard engine and gearbox combinations on Orion models and their resulting kerbweights

### Key:

†E: Idle to run on either leaded or unleaded petrol without adjustment

†† Runs on unleaded petrol only.

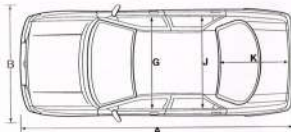

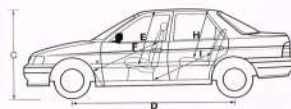

## Technical – Fuel and performance

### 4-door Orions

	Fuel consumption in mpg (L/100km)†	Simulated urban driving	Country 68 mph (89 km/h)	Country 75 mph (120 km/h)	Performance (Foot test) (mpg.)	0-60 mph (sec)	30-40 mph (sec)
1.4 CVH 5-speed	31.7 (8.9)	49.6 (5.7)	38.2 (7.4)	103	13.4	12.5	
1.4 CFI (Catalyst) 5-speed	28.2 (10.0)	48.7 (5.8)	40.4 (7.0)	101	14.0	12.3	
1.6 CVH 5-speed	30.7 (9.2)	50.4 (5.6)	39.8 (7.1)	110	10.8	10.3	
1.6 CVH Automatic	23.4 (11.1)	48.7 (5.8)	36.7 (7.7)	106	11.8	N/A	
1.8i 16V (Catalyst) 10SPS 5-speed	29.7 (9.5)	46.3 (6.3)	37.7 (7.5)	116	9.9	8.1	
1.8i 16V (Catalyst) 130PS 5-speed	28.2 (10.0)	47.1 (6.0)	35.3 (8.0)	126	8.8	7.1	
1.8 Diesel 5-speed	47.1 (6.0)	67.3 (4.2)	50.4 (5.6)	94	17.6	13.8	

† All figures in mpg (L/100km) are from officially approved tests under the passenger Car Fuel Consumption Order 1983. †† In 4th Gear. The fuel consumption test figures shown in the chart do not express or imply any guarantee of the fuel consumption of a car of the class in question. See back cover.

*Sierra hatchbacks and estates and Sapphire saloons are a highly respected 'family' of cars with extremely wide appeal among private and business users. They abound with driving satisfaction, enhanced still further by the 4x4 transmission which is standard on XR4x4 models and available on selected Ghia models. The power units include catalyst-equipped DOHC petrol engines and turbo diesel units as well as a high output V6 engine in the Sierra XR4x4. All the interiors are exceptionally well equipped for their model designations, and all models have a rake and reach adjustable steering column. This is just one item from an impressive list of standard features which contribute to the outstanding success of the Sierra and Sapphire range.*

# Sapphire

The Sierra Sapphire is a perfect combination of saloon elegance, modern technology and contemporary styling. It offers the choice of petrol, petrol injection or turbo diesel power and is generously equipped to provide comfort and convenience for both private and business users. With a split-fold rear seat back, it provides the loadspace versatility of a hatchback whilst retaining classical four-door configuration.

Standard features include:

- Choice of 1.6 CFI (Catalyst) and 1.8 petrol or 1.8 turbo diesel engines, with five-speed gearbox.
- Body colour bumpers with bright insert.
- Black bodyside mouldings with bright insert.
- Steering column adjustable for rake and reach.
- Remote release for fuel filler flap and bootlid.
- Driver's side tipping glovebox and seat height adjustment.
- Tinted glass and tilt-or-slide screened glass sunroof with loured blind.
- Four-spoke steering wheel with centre horn push 2.
- Long centre console with trinket tray 1.
- 60:40 split fold rear seat back.
- Quartz analogue clock 2.
- Electronic Self-Seek AM / FM Stereo Radio / Cassette - Model 2006 HD5 2 with 'Keycode' anti-theft coding and four speakers.
- Key optional features, at extra cost, include an electronically controlled anti-lock braking system (not 1.6) and metallic paint.

For full specification details and option availability see pages 94 - 101.

Steering wheel may differ from that shown.

# Sapphire LX

Now with standard power steering when the 2.0 EFI engine is specified, the Sapphire LX offers even more effortless and rewarding driving qualities. The new-look exterior styling enhances the established elegance and the generously equipped interior provides high levels of comfort and refinement. In addition, there are definite sporty characteristics that help give this car an appeal all of its own.

Standard features include:

- Choice of 1.6 CFi (Catalyst), 1.8 CVH, 1.8 CFi (Catalyst), 2.0 EFI and 2.0 EFI (Catalyst) petrol and 1.8 turbo diesel engines.
  - Body colour bumpers with red insert.
  - Black bodyside moulding with red insert.
  - Power-assisted steering on 2.0 EFI engines.
  - Anti-theft alarm with 'Alarm activated' light.
  - Steering column adjustable for rake and reach.
  - Electrically operated front windows **2**.
  - Front sports seats, trimmed in Astral fabric **1**.
  - Tinted glass and tilt-or-slide screened glass sunroof with louvred blind.
  - Audible lights on warning.
  - Central locking with torch key.
  - Tachometer and instrument panel rheostat **2**.
  - Electronic Self-Seek AM / FM Stereo Radio / Cassette — Model 2006 RDS with 'Keycode' anti-theft coding and four speakers **2**.
- o Key optional features, at extra cost, include an electronically controlled anti-lock braking system (not 1.6) and metallic paint.

For full specification details and option availability see pages 94 — 101.

# Sapphire GLX

The GLX designation means superior levels of equipment, plus more than a hint of sports motoring. Power steering is now standard on 2.0 EFI GLX models to enhance the effortless driving qualities for which this range of cars is renowned. The highly distinctive exterior creates just the right impression for the image-conscious motorist.

Standard features include:

- Choice of 1.6 CFI (Catalyst), 1.8 CVH, 1.8 CFI (Catalyst), 2.0 EFI and 2.0 EFI (Catalyst) petrol and 1.8 turbo diesel engines.
- Anti-theft alarm with 'Alarm activated' light.
- Body colour bumpers with bright insert.
- Power-assisted steering on 2.0 EFI engines.
- Steering column adjustable for rake and reach.
- Front sports seats trimmed in Halesy fabric 1.
- Centre console and stowage box with padded lid and provision for cassette stowage.
- Rear head restraints 2.
- Integral front fog lights and headlight wash / wipe 3.
- Audible lights on warning.
- Rear disc brakes on all 2.0 EFI models.
- Variable interval intermittent wipers.
- Electronic Self-Seek AM / FM Stereo Radio / Cassette - Model 2006 RDS 1 with 'Keycode' anti-theft coding and four speakers.

o Key optional features, available at extra cost, include 'Quickclear' heated windscreen and washer jets on all 2.0 EFI models, Electronic Self-Seek AM/FM Stereo Radio/Cassette - Model 2007 RDS with 2028 CD Player and an electronically controlled anti-lock braking system (not 1.6).

## Sapphire GLS

Now with electronic anti-lock brakes as standard, the Sapphire GLS is even more deserving of its reputation as a car for the driving enthusiast. The appearance has been enhanced still further by the standardisation of alloy wheels and the rear spoiler, both of which contribute to the strong sporty personality of this member of the Sapphire family.

Standard features include:

- 2.0 EFI or 2.0 EFI (Catalyst) engines.
  - Anti-theft alarm with 'Alarm activated' light.
  - Body colour bumpers with red inset.
  - Body colour rear spoiler.
  - Electronically controlled anti-lock braking system.
  - Front sports seats trimmed in Halley fabric.
  - Power-assisted steering.
  - Sports suspension.
  - 5 1/2 x 14 5-spoke alloy wheels and 195 / 60 HR14 tyres.
  - Front and rear disc brakes.
  - Electrically operated front windows.
  - Steering column adjustable for rake and reach.
  - Electrically operated and heated door mirrors.
  - Integral front fog lights and headlight wash/wipe.
  - Rear head restraints.
  - Audible lights on warning.
  - Electronic Self-Seek AM / FM Stereo Radio / Cassette - Model 2006 FDS with 'Keycode' anti-theft coding, and four speakers.
- o Key optional features, available at extra cost, include the Electronic Self-Seek AM/FM Stereo Radio/Cassette - 2007 FDS with 2026 CD Player and 'Quickclear' heated windscreen and washer jets.

# Sapphire Ghia & Ghia 4x4

2 Sublime travel comfort is the order of the day in this member of the Sapphire family, as might be expected from cars bearing the coveted Ghia crest. The elegance of the exterior is emphasised by distinctive alloy wheels, and the sumptuous interior can now be specified with leather seating at extra cost. The availability of 4x4 models opens up new dimensions of driving satisfaction.

Standard features include:

- Ford's 2.0 EFI and 2.0 EFI (Catalyst) engines.
- Body colour bumpers with bright insert.
- Electrically operated sunroof 2.
- Analogue clock with day and date display.
- 5½x14 8-spoke alloy wheels 1, 5½x15 alloy on 4x4 3.
- Electronically controlled anti-lock braking system.
- Anti-theft alarm with 'Alarm activated' light.
- Steering column adjustable for rake and reach.
- Front footwell and rear courtesy lights, and front map reading lights.
- Power-assisted steering.
- 'Quickclear' heated windscreen and washer jets.
- Graphic information module and auxiliary warning lights 4.
- Pneumatic lumbar adjustment on front seats.
- Electrically operated front and rear windows 4.
- Electronic Self-Seek AM/FM Stereo Radio/Cassette - Model 2007 RDS with 'Keycode' anti-theft coding and eight speakers 4.

4 Main interior and left: The Sierra Sapphire Ghia model shown is fitted with a Ford phone from the Ford Cellular Systems range. There are three different handsets and a Fax terminal in the range. For more details please see page 136.

Steering wheel may differ from that shown.

The Ford permanent four-wheel drive system is standard on the Sierra Sapphire Ghia 4x4. It combines the advantages of front- and rear-wheel drive, providing engine power to the front and rear wheels, via limited-slip differentials. This helps to improve traction and provides greater control of

wheelspin, a valuable asset at all times, and particularly welcome when rain, snow and ice pose problems for conventional cars. This is reassuring for family and business motorists alike. The extra traction provided is also valuable when towing, perhaps on wet grass.

# Sierra

With comprehensive levels of equipment and refinement, the Sierra represents the very best in family hatchback motoring. Offering a choice of petrol, petrol injection and diesel power, it can be tailored to suit your driving style and travel requirements, and the versatility of the hatchback configuration - enhanced by the split fold rear seat back - increases the appeal for both family and business use.

Standard features include:

- Choice of 1.6 CFI (Catalyst) and 1.8 petrol or 1.8 turbo diesel engines, with five speed gearbox.
  - Body colour bumpers with black band and bright insert.
  - Black bodyside mouldings with bright insert.
  - Steering column adjustable for rake and reach.
  - Remote release for fuel filler flap and bootlid.
  - Tinted glass and tilt-or-slide screened glass sunroof with louvred blind.
  - Four-spoke steering wheel with centre horn push 2.
  - Long centre console with trunkot tray 1.
  - Driver's side tipping glovebox.
  - 60:40 split fold rear seat back.
  - Quartz analogue clock 2.
  - Driver's seat height adjustment.
  - Electronic Self-Seek AM / FM Stereo Radio / Cassette - Model 2006 RDS 2 with 'Keycode' anti-theft coding and four speakers.
- Key optional features, at extra cost, include an electronically controlled anti-lock braking system (not 1.6) and metallic paint.

# Sierra GLX

The GLX designation means even higher levels of comfort and a distinctly sporty personality. Power assisted steering is now standard on 2.0 EFI models. The impressive exterior styling creates a distinctive image, and the luxury, driveability and rewarding motoring qualities for which the Sierra is renowned, are abundant in the GLX model.

Standard features include:

- Choice of 1.6 CFI (Catalyst), 1.8 CVH, 1.8 CFI (Catalyst), 2.0 EFI and 2.0 EFI (Catalyst) petrol and 1.8 turbo diesel engines.
  - Anti-theft alarm with 'Alarm activated' light.
  - Body colour bumpers with bright insert.
  - Power-assisted steering on 2.0 EFI engines.
  - Steering column adjustable for rake and reach.
  - Front sports seats trimmed in Halley fabric 1.
  - Centre console and storage box with padded lid and provision for cassette stowage.
  - Rear head restraints 1.
  - Integral front fog lights and headlight wash / wipe.
  - Audible lights on warning.
  - Rear disc brakes on all 2.0 EFI models.
  - Variable interval intermittent wipers.
  - Electronic Self-Seek AM / FM Stereo Radio / Cassette – Model 2006 RDS 2 with 'Keycode' anti-theft coding and four speakers.
- Key optional features, available at extra cost, include the Electronic Self-Seek AM/FM Stereo Radio/Cassette – Model 2007 RDS with 202B CD Player, 'Quickclear' heated windscreen and washer jets on all 2.0 EFI models and an electronically controlled anti-lock braking system (not 1.6).

For full specification details and option availability see pages 94 – 101.

## Sierra GLS

With the verve of its 2.0 EFI engine matched by sports suspension and standard anti-lock brakes with discs all round, the GLS is the Sierra for the driving enthusiast. The individual styling exudes a strong sports personality, reflected in the lavish interior, where sports front seats and steering wheel and comprehensive instrumentation provide comfort and refinement in addition to sheer motoring pleasure.

Standard features include:

- 2.0 EFI or 2.0 EFI (Catalyst) engines.
- Anti-theft alarm with 'Alarm activated' alarm.
- Body colour bumpers with red insert.
- Body colour rear spoiler.
- Electronically controlled anti-lock braking system.
- Front sports seats trimmed in Halley fabric.
- Power assisted steering.
- Sports suspension.
- 5½x14 5-spoke alloy wheels and 195 / 60 HR14 tyres.
- Front and rear disc brakes.
- Electrically operated front windows.
- Steering column adjustable for rake and reach.
- Electrically operated and heated door mirrors.
- Integral front fog lights and headlight wash/wipe.
- Rear head restraints.
- Audible lights on warning.
- Electronic Self-Seek AM / FM Stereo Radio / Cassette - Model 2006 RDS with 'Keycode' anti-theft coding, four speakers

o Key optional features, available at extra cost, include the Electronic Self-Seek AM / FM Stereo Radio / Cassette - 2007 RDS with 2028 CD Player and 'Quickclear' heated windscreen and washer jets.

For full specification details and option availability see pages 98 - 101.

# Sierra XR4x4

1 The sporty Sierra XR4x4 now has larger, more purposeful yet stylish alloy wheels, for enhanced driving qualities and even better control. The 4x4 configuration provides new levels of traction, which translate into outstanding driveability, and the generous level of standard equipment now includes an electrically powered sun roof as standard.

Standard features include:

- Choice of 2.0 EFI, 2.0 EFI (Catalyst) and 2.9 EFI (Catalyst) engines.
- Electrically operated sunroof.
- 5½x15 alloy wheels with 195/55 R15 tyres 1.
- An electronically controlled anti-lock braking system with discs at front and rear.
- Anti-theft alarm with 'Alarm activated' light.
- Sports suspension and rear stabiliser bar.
- Body-coloured tailgate spoiler 1.
- Body-coloured bumpers and grey body-side mouldings with black insert 1.
- Front sports seats trimmed in Zolda fabric 2.
- Headlight and intermittent tailgate wash/wipe.

## Permanent 4x4 4-Wheel Drive

The Ford permanent four-wheel drive system is standard on the Sierra XR4x4. It combines the advantages of front- and rear-wheel drive, providing engine power to the front and rear wheels, via limited-slip differentials. This helps to improve traction and provides greater control of wheelspin, a valuable asset at all times, and particularly welcome when rain, snow and ice pose problems for conventional cars. This is reassuring for family and business motorists alike. The extra traction provided is also valuable when towing, perhaps on wet grass.

Steering wheel may differ from that shown

2 Left: The Sierra XR4x4 model shown is fitted with a Ford phone from the Ford Cellular Systems range. There are three different handsets and a Fax terminal in the range. For more details please see page 136.

- 'Quickclear' heated windscreen and washer jets.
- Graphic information module.
- Top quality Electronic Self-Seek AM/FM Stereo Radio/Cassette - Model 2007 RDS 2 with 'Keycode' anti-theft coding and eight speakers.

◊ Key optional features, available at extra cost, include air conditioning and a CD Player - Model 2028.

For full specification details and option availability see pages 94 - 101.

Model	Engine
XR4x4	2.0 EFI
XR4x4	2.0 EFI (Catalyst)
XR4x4	2.9 EFI (Catalyst)

# Sierra Ghia

The Sierra that bears the Ghia crest embodies all the refinement you rightfully expect, and the outstanding power delivery of the Ford DOHC engine reflects the overall smoothness of this model. There's travel comfort in abundance and all the prestige that goes with the coveted Ghia identity.

Standard features include:

- 2.0 EFI and 2.0 EFI (Catalyst) engines.
- Anti-theft alarm with "Alarm activated" light.
- Electronically controlled anti-lock braking system.
- Power-assisted steering.
- Colour-keyed bodyside mouldings with bright insert.
- Body colour bumpers with bright insert.
- Integral front fog lights.
- Electrically operated and heated door mirrors in body-coloured housings.
- 5½x14 8-spoke alloy wheels.
- "Quickclear" heated windscreen and washer jets.
- Headlight and intermittent tailgate wash / wipe.
- Variable interval intermittent wipe.
- Key optional feature, available at extra cost, is automatic transmission.

For full specification details and option availability see pages 94 - 101.

For interior features see pages 88 - 89.

Model	Engine
Ghia	2.0 EFI
Ghia	2.0 EFI (Catalyst)

# Sierra Ghia

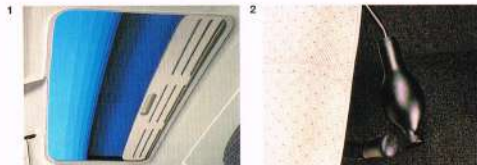

3 Now with an electrically powered sun roof as standard equipment, travelling in Sierra Ghia style is even more rewarding.

Furthermore, by specifying the seats with the option of leather trim facings, you can enjoy even greater refinement and luxury, whilst enjoying all the creature comforts of a car bearing the Ghia crest.

Standard features include:

- Colour-keyed cut-pile carpet.
- Analogue clock with day and date display 4.
- Graphic information module and auxiliary warning lights 4.
- Moulded headlining with Suedin soft fabric cover.
- Front footwell courtesy lights, and map reading lights in overhead console.
- Rear courtesy light.
- Pneumatic lumbar adjustment on front seats 2.
- Electrically operated sunroof 1.
- Electrically-operated rear windows.
- Electronic Self-Seek AM/FM Stereo Radio/Cassette – Model 2007 FDS with 'Keycode' anti-theft coding and eight speakers 4.
- Key optional features, available at extra cost, include leather trim facings 3, air conditioning, automatic transmission 3 and a CD player – Model 2028.

For full specification details and option availability see pages 94 – 101.

Right: The Sierra Ghia model shown is fitted with a Ford phone from the Ford Cellular Systems range. There are three different handsets and a Fax terminal in the range. For more details please see page 196.

Steering wheel may differ from that shown.

# Sierra Estates

Sierra estate models build on the established virtues of their saloon versions while offering highly practical load carrying ability in addition to style, comfort and driveability. All models offer extra loadspace capacity with the split-fold rear seat feature. GLX and Ghia models have a styled integral roof rack for extra versatility. The Ford permanent four-wheel drive system is standard on the Sierra Ghia 4x4 Estate. It combines the advantages of front and rear-wheel drive, providing engine power to the front and rear-wheels, via limited-slip differentials. This helps to improve traction and provides greater control of wheelspin, a valuable asset at all times and particularly welcome when rain, snow and ice pose problems for conventional cars. This is reassuring for families and estate users alike. The extra traction provided is also valuable when towing, perhaps on wet grass.

For interior features see pages 92 - 93.

In addition to the comfort, spaciousness and driveability of Sierra hatchback and Sapphire saloon models, this superb range includes estate models, which provide greatly increased loadspace and worthwhile payload capacities. The estate range comprises the Sierra 2 Sierra LX, Sierra GLX, Sierra Ghia and Sierra Ghia 4x4 1. All models are available with catalyst engines and turbo diesel power can be specified on Sierra, LX and GLX models. Power assisted steering is standard on 2.0 EFI models.

Estate Ghia 4x4	2.0 EFI (Catalyst)

# Sierra Estates

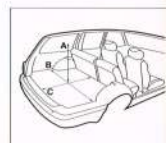

Sierra estate models provide practical and versatile load capacity, in addition to passenger comfort and all the driving appeal for which this range of cars is renowned. Load carrying is simplified by the thoughtful provision of tie-down eyes in the floor 4 and a tonneau cover 1 is also standard on all Sierra estate models. Now there are even more good reasons for making an estate from the Sierra range your first choice if you've a load on your mind.

Estate configuration has always provided the best of both worlds for family and business motorists who require bigger than average load capacity plus the ability to provide comfortable transport for up to four adults. With their spacious load compartments and the flexibility of the 60:40 rear seat back 2, which also folds down completely 3, Sierra estates have few rivals in payload/passenger capabilities, and now with the option of leather trim on Ghia models the comfort levels are extended to new dimensions.

Left: The Sierra Ghia Estate model shown is fitted with a Ford phone from the Ford Cellular Systems range. There are three different headsets and a Fax terminal in the range. For more details please see page 136.

- A Maximum cargo height 811 mm
- B Maximum floor width 1350 mm (width between wheelarches 1100 mm)
- C Loadspace length to back of rear seat 1073 mm
- D Loadspace length with rear seats folded down 1620 mm
- E Loadspace length to rear of front seats 1667 mm

**Towing limits** quoted in this catalogue represent the recommended maximum towing ability of the vehicle with 2 occupants (150 lb seats) to rest on an 8 per cent gradient all sea level. This means that where additional payload is carried (additional occupants, luggage, etc.) then this additional weight should be deducted from the recommended towing limit. The performance and economy of all models will be reduced when used for towing.

**Roof rack load** is a maximum of 75kg on all models.

†† Represents the lightest keroweight assuming full fluid levels and fuel levels, subject to manufacturing tolerances and options, etc., fitted.

## Technical – Engine

Engine Model/Variant	Maximum power	Maximum torque
<b>1.6 CVH (Catalyst) IJ</b> 1597 cc	Cylinders – 4 in-line • Electronic single point central fuel injection • Exhaust system catalyst • Electronic breakerless ignition	80 PS at 5500 rpm 119 Nm at 3000 rpm

# Granada & Scorpio

*The revised range of Granada and Scorpio four and five-door models – and now with equally luxurious and highly practical estates – is now more appealing than ever. Anti-lock brakes are standard on all models and the security system has been upgraded, with central double locking and the addition of an interior movement sensor alarm. This is further reinforced in estate models by sensors on the loadspace side windows to specifically protect the loadspace area. The sleek exterior benefits from styling refinements and the interior now has even more of an executive ambience. All Granada and Scorpio models are powered by smooth petrol engines, with the availability of the 24 valve engine on Scorpio four and five-door models.*

# Granada LX

**2** The Granada LX is now available in four or five-door configuration and as the new estate model. As the foundation model for this executive car range, it has all the elegance and refinement expected of cars in this class. Effortless driving, restful travel and a strong prestige image are just a few of the virtues you'll find in the Granada LX, whichever body style you choose.

Standard features include:

- Choice of four and five-door models plus five-door estates.
- 2.0 EFI (Catalyst) engine.
- Anti-lock braking system.
- Power-assisted steering.
- Anti-theft alarm with 'armed' warning light and an interior movement sensor.
- Electrically-operated and heated door mirrors.
- Central, double locking with high security locks.
- 'Quickclear' heated front windscreen with washer jets.
- Tilt-or-slide glass sunroof with louvred blind.
- Centre survivor **3**.
- Height adjustable rear seat headrests and rear central armrest **1**.
- Electrically-operated front and rear windows, with 'one shot' lowering on driver's window.
- Electronic Self-Seek AM/FM Stereo Radio/Cassette - Model 2006 FDS with 'Keycode' anti-theft coding and four speakers.
- Key optional features, available at extra cost, are automatic transmission and metallic paint **2**.

For full specification details and option availability see pages 122 - 127.

**Note.**  
For further details of the entire Estate range, please see pages 116 - 121.

Model	Engine
LX 4/5-door	2.0 EFI (Catalyst)

# Granada GLX

GLX designation means even higher standards of style and refinement for discerning Granada motorists. This model has larger wheels (15") than the LX, and sumptuous Astral fabric interior trim. There are also some extra handy interior features, and now that estate models are available too, being spoilt for choice is your only problem.

Standard features include:

- Choice of four and five-door models plus five-door estates.
- 2.0 EFI or 2.9 EFI V6 engine (both with Catalyst).
- Anti-lock braking system.
- Power-assisted steering.
- Automatic transmission standard on 2.9 EFI engine.
- Electrically-operated and heated door mirrors.
- Integral front fog lights.
- Central, double locking with high security locks.
- "Quickclear" heated windscreen with washer jets.
- Headlight wash/wipe 1 (petrol models only).
- Variable interval intermittent front wipers.
- "Lights on" audible warning.
- Courtesy light delayed "Switch-off" function.
- Electrically-operated tilt-or-slide glass sunroof with loured blind 2.
- Electrically-operated front and rear windows, with "one shot" lowering on driver's window.
- Electronic Self-Seek AM/FM Radio/Cassette - Model 2028 in conjunction with the Electronic Stereo Sound System - Model 2007 RDS or Premium Sound System - Model 2008 RDS.

○ Key optional features, available at extra cost, include metallic paint 3, and a CD Player - Model 2028 in conjunction with the Electronic Stereo Sound System - Model 2007 RDS or Premium Sound System - Model 2008 RDS.

For full specification details and option availability see pages 122 - 127.

**Note.**  
For further details of the entire Estate range, please see pages 116 - 121.

Model	Engine
GLX 4/5-door	2.0 EFI (Catalyst)
GLX 4/5-door	2.9 EFI (Catalyst)

# Granada Ghia

**1** As might be expected from a luxurious car bearing the highly-respected crest, the Granada Ghia leaves very little to be desired in style, comfort and refinement. The most recent styling changes have also improved the appearance and air flow at the front end, and have also given the rear end a new look. The addition of estate models also means that you can meet your practical travel needs in top-level comfort, too.

Standard features include:

- Choice of four and five-door models plus five-door estates.
- 2.0 EFI or 2.9 EFI V6 engine (both with Catalys†).
- Anti-lock braking system.
- Power-assisted steering.
- Anti-theft alarm with "armed" warning light and an interior movement sensor.
- Automatic transmission on 2.9 EFI engine.
- Body colour bumpers and wide grey body-side mouldings with bright inserts.
- Electrically-operated and heated door mirrors.
- Integral front fog lights.
- Central, double locking with high security locks.
- "Quickclear" heated windscreen with washer jets.
- 6x15 alloy wheels with 195/65 HR x 15 tyres.
- Headlight wash/wipe.
- Variable interval intermittent front wipers.
- Key optional feature, available at extra cost, is automatic transmission on 2.0 EFI.

For full specification details and option availability see pages 122 - 127.

**For interior features see pages 110 - 111.**

**Note.**

For further details of the entire Estate range, please see pages 116 - 121.

Model	Engine
Ghia 4/5-door	2.0 EFI (Catalyst)
Ghia 4/5-door	2.9 EFI (Catalyst)

# Granada Ghia

Inside the Granada Ghia, whichever bodystyle you choose, you'll find the highest standards of comfort and refinement. The luxurious Apollo fabric trim sets the tone for the elegance of the interior, which is comprehensively equipped to provide effortless travel comfort.

Standard features include:

- Colour-keyed cut-pile carpet on floor and on door bins.
- Multi-function quartz digital clock with ambient temperature read out.
- Automatic cruise control.
- Burr Walnut wood-effect appliques in fascia and door panels.
- 'Lights on' audible warning.
- Graphic information module and auxiliary warning lights.
- Multi-function fuel computer.
- Instrument panel rheostat.
- Four door operation front and rear courtesy lights with delayed 'switch off'.
- Front seats with pneumatic lumbar support, seatback map pockets and fully adjustable head restraints.
- Electrically-operated tilt-or-slide glass sunroof with louvred blind.
- Electrically-operated front and rear windows, with 'one shot' lowering on driver's window.
- Electronic Self-Seek AM/FM Stereo Radio/Cassette - Model 2007 RDS with 'Keycode' anti-theft coding and eight speakers.

o Key optional features, available at extra cost include air conditioning, CD Player - Model 2028 and Premium Sound System - Model 2008 RDS with either 7-band Graphic Equaliser or CD Player - Model 2028.

# Scorpio

**2** The very appearance of the Scorpio speaks volumes about achievement and authority. The status cannot be denied. The sleek lines of the four-door model and the smooth curves of the five-door, are now joined by an equally elegant estate, providing cavernous loadspace made even more usable by the thoughtful provision of many practical features. The new styling changes give all the models an even stronger image of prestige.

Standard features include:

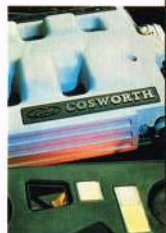

- Choice of four and five-door models plus five-door estates.
- Choice of 2.0 EFI (Catalyst), 1.2.9 EFI (Catalyst) (estate only), 2.9 24V (Catalyst) 2 (not estate) engines with four-speed automatic transmission.
- Anti-lock braking system.
- Limited slip differential on 24V.
- Power-assisted steering.
- Anti-theft alarm with 'armed' warning light and an interior movement sensor.
- Body colour bumpers and bodyside cladding with bright inserts.
- Electrically-operated and heated door mirrors.
- Integral front fog lights.
- Central double locking with high security locks.
- 6x15 alloy wheels with 195/65 HRx15 tyres on 2.0 EFI and 2.9 EFI models and 6x16 5-spoke alloys with 205/50 2F6x16 tyres on 24V.
- 'Quickclear' heated windscreen with washer jets.
- Headlight wash/wipe.1
- Variable interval intermittent front wipers.

For interior features see pages 114 - 115.

# Scorpio

The command position presents a comprehensive yet logical array of controls and auxiliary equipment, like the on-board fuel computer and the air conditioning system. The sheer finesse of the Space fabric trim helps create the executive image.

Standard features include:

- Leather or fabric trim available.
- Air conditioning.
- Colour-keyed out-pile carpet on floor and on door bins.
- Multi-function quartz digital clock with ambient temperature read out.
- Automatic cruise control.
- Graphic information module and auxiliary warning lights.
- Multi-function fuel computer.
- Front and rear map reading lights.
- Electrically-operated front and rear windows, with 'one-shot' lowering on driver's window.
- Four door operation front and rear courtesy lights with delayed 'switch off', front and rear footwell courtesy lights.
- Electrically-operated and heated front seats.
- Four-spoke leather-covered steering wheel.
- Electrically-operated tilt-or-slide glass sunroof with louvred blind.
- Electronic Stereo Sound System – Model 2008 RDS with 'Keycode' anti-theft coding, eight speakers and CD Player – Model 2028.

For full specification detail and option availability see pages 122 – 127.

Ten-position, power-adjusted front seats offer quick and easy adjustment of

cushion tilt, height, rake, mass, and lumbar support for maximum comfort.

## Granada & Scorpio Estates

The elegant lines of the Granada and Scorpio range translate smoothly and easily into the new estate derivatives, satisfying the earnestly-expressed desires of so many discerning Ford buyers. Retaining all the style, prestige and refinement of the range as a whole, Granada and Scorpio estates add, versatile, well-equipped and alarm-protected loadspace, meeting a wide range of travel needs.

Granada and Scorpio estates are available as LX, GLX and Ghia models, and the Scorpio estate is in a class of its own. Granada and Scorpio estates are fitted as standard with the Ford 2.0i DOHC engine and five-speed manual transmission, and can also be specified with the Ford 2.9i V6 engine, which comes as standard with four-speed automatic transmission.

These new models have been

designed from first principles as load carriers that mean business, but which retain all the luxury and refinement with which the names Granada and Scorpio are associated. The 'clam shell' tailgate is designed to partially enclose the rear pillars, for style and aerodynamic efficiency and to maximise the width of the alarm-protected loading aperture. The sleek lines that characterise all Granada and Scorpio models are

ideally suited to estate configuration, and all models have central double locking. Every Granada and Scorpio model is fitted as standard with an electronically-controlled anti-lock braking system, and the self-levelling rear suspension ensures that your Granada or Scorpio maintains its elegance and poise, even when fully laden.

For interior details see pages 118 - 121

## Granada & Scorpio Estates

*The interior of the Scorpio estate shown above has luxurious leather trim, readily available within the model range. The sumptuous levels of luxury hold the promise of effortless driving qualities and outstanding passenger comfort, enhanced by the standard air conditioning system which provides clean, dry and cool air for maximum interior freshness.*

**The new Granada and Scorpio estate models provide executive-class levels of interior comfort and refinement. Each model has its own distinctive kind of luxury, within the parameters of comprehensive equipment and refinement characteristic of this executive range. Choose the Scorpio, selecting from the sumptuous Space fabric or luxurious leather trim, and you'll enjoy the exceptional travel comfort that only air conditioning - one of the many high-grade standard items - can bestow.**

For driver and passengers alike, there are few cars to rival Granada and Scorpio models, and the new estates are no exception. In addition to their virtues as exceptional load carriers, they are refined cars in their own right, with comprehensive levels of interior equipment and a host of comfort and convenience features to delight drivers and passengers alike. All models have electrically-operated side windows front and rear, incorporating "one-shot" lowering on the driver's window, with full control during closing. Scorpio models also offer the choice of luxurious leather

seating, the hallmark of executive motoring, together with the provision of an air conditioning system as standard. All Granada and Scorpio models are fitted with high quality audio systems, and Scorpio models even have a CD player as standard equipment. Whichever Granada or Scorpio estate model you select, you are assured of purposeful travel in the highest standards of motoring comfort.

## Granada & Scorpio Estates

In addition to their undeniable virtues as executive cars the new Granada and Scorpio estate models have exceptional merits as high capacity load carriers. With versatile seating arrangements and many thoughtfully-provided loading and carrying features they deliver multi-purpose luxury motoring.

Granada and Scorpio estate models offer 0.55 cu m of loadspace\*, even with all the seats in position. With the versatile split-fold rear seat folded completely down, that space increases to a cavernous 1.6 cu m\*. The load compartment of each model is carpeted and a load cover is a standard item on all Granada and Scorpio estates, to keep prying

eyes away from your belongings. The comprehensive alarm system, with its interior movement sensor and loadspace-dedicated additional sensors, is sure to prove a persuasive deterrent to would-be thieves.

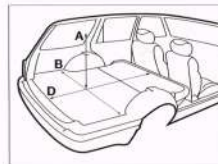

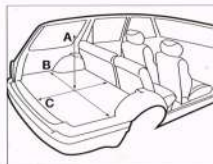

\* Measured by the VDA method.

For full specification detail and option availability see pages 122 - 127.

### Key to load area Diagrams

- A Maximum cargo height 805 mm
- B Maximum floor width 1362 mm width between wheelarches 1106 mm

- C Load space length to back of rear seat 1682 mm
- D Loadspace length to rear of front seats 1991 mm

2.9 EFI (Catalyst) 4-speed Automatic		1390	1415	1455	2000	2000

#### Key:

This table shows the availability of standard optional engine and gearbox combinations on Granada and Scorpio models and their resulting kerbside weights.

**Kerbside weights in bold denote standard models**

[ ] indicates optional transmission, see options on page 127

**Towing limits** quoted in this catalogue represent the recommended maximum towing ability of the vehicle with 2 occupants (150 lb each) to rest on an 8 per cent gradient of sea level. This means that where additional payload is carried (additional occupants, luggage, etc.), then this additional weight should be deducted from the recommended towing limit. The performance and economy of all models will be reduced when used for towing.

**Roof rack load** is a maximum of 100 kg on all models.

[ ] Represents the agreed kerbside weight assuming full fluid levels and fuel levels, subject to manufacturing tolerances and options, etc., fitted.

## Technical – Engine data

#### Key:

⊗ Full on unleaded petrol only.

Engine technical features	Maximum power	Maximum torque
<b>2.0 DDHC EFI (Catalyst) M</b> 1998 cc	Cylinders – 4 in-line • Fuel injection with EEC-IV engine management system • Electronic breakerless ignition	120 PS at 5500 rpm / 171 Nm at 2500 rpm
<b>2.9 EFI (Catalyst) M</b> 2503 cc	Cylinders – V6 • Fuel injection with EEC-IV engine management system • Electronic breakerless ignition	145 PS at 5500 rpm / 228 Nm at 3000 rpm
<b>2.9i 24V Cosworth (Twin Catalysts) M</b> 2533 cc	Cylinders – V6 • Fuel injection with EEC-IV engine management system • Electronic breakerless ignition	195 PS at 5750 rpm / 275 Nm at 4500 rpm

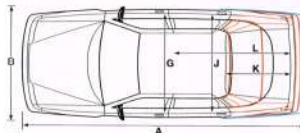

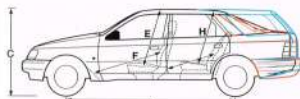

## Technical – Fuel and performance

4.5-door Granada/Scorpio	Fuel consumption in mpg (l/100km)†	Simulated urban driving	Constant 50 mph (80 km/h)	Constant 75 mph (120 km/h)	Performance (Ford test figs.)	0-60 mph (secs)	30-50 mph (secs) (std)
2.0 EFI (Catalyst) 5-speed	29.1 (9.7)	46.3 (6.1)	37.2 (7.6)		119	10.5	8.8
2.0 EFI (Catalyst) 4-speed Automatic	27.7 (10.2)	44.8 (6.3)	35.3 (8.0)		117	12.2	N/A
2.9 EFI (Catalyst) 4-speed Automatic	19.5 (14.5)	38.2 (7.4)	31.0 (9.1)		124	10.4	N/A
2.9i 24V Cosworth (Catalyst) 4-speed Automatic	16.7 (15.1)	33.0 (8.4)	28.0 (10.1)		140	8.2	N/A
<b>5-door Estates</b>							
2.0 EFI (Catalyst) 5-speed	28.5 (9.9)	44.1 (6.4)	35.3 (8.0)		115	11.2	9.8
2.0 EFI (Catalyst) 4-speed Automatic	25.4 (11.1)	42.2 (6.7)	34.0 (8.3)		113	13.1	N/A
2.9 EFI (Catalyst) 4-speed Automatic	18.3 (15.4)	35.8 (7.9)	29.1 (9.7)		122	11.3	N/A

All figures in mpg (l/100km) are from officially approved tests under the passenger Car Fuel Consumption Order 1983. \* In 4th Gear. The fuel consumption test figures shown in the chart do not express or imply any guarantee of the fuel consumption of a car of the class in question. See back cover.

# Ford Cares

All the service you expect

## Ford Service

From the moment your car leaves the showroom, and throughout its life, it can benefit from the total protection of Ford service. The Service Schedule for all Ford models commences with a free First Service at 1500 miles/3 months from the date of registration or first use†. For petrol models, service intervals are then at every 10,000 miles/12 months from date of registration or first use and for diesel models they are at every 6,000 miles/12 months from date of registration or first use. Scheduled Ford servicing is available to you through the finest Dealer network, and there are more than 1000 Ford Dealers in the UK, with a range of aftercare packages designed to make your motoring a pleasure that goes on and on.

† Wherever occurs first.

### 12 Month Unlimited Mileage New Car Warranty

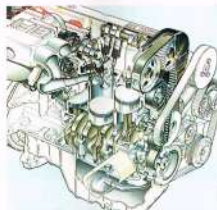

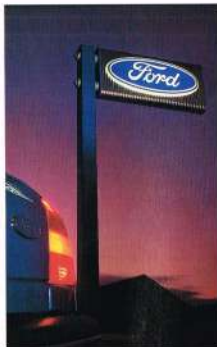

Ford protection starts from the moment you collect your new car. You have complete peace of mind because you have a 12 month, unlimited mileage Warranty. The Ford Customer Warranty states that if any part of your car becomes defective due to faulty manufacture or materials in the first 12 months from the date you took delivery, the part will be repaired or replaced free of charge, without any fuss.

### 6 Year Perforation Warranty

Your vehicle's bodywork is covered against corrosion for 12 months and in addition against perforation from 'inside out' caused by faulty manufacture or materials for 6 years from the date you took delivery. That is defined as originating from inside a section of bodywork, welded or joined sections, sealed edges or seams. Ask your Dealer for full details and conditions.

### Extra Cover - The Ford Optional Warranty Plan

Extra Cover is Ford's own optional extended warranty plan, giving you peace of mind for up to three years. With Extra Cover, you gain protection against unexpected repair bills for most mechanical and electrical components.

And your car's first year RAC membership is automatically extended for the full period of your Extra Cover plan, with Rescue, Recovery, 'At Home', Assured Mobility (subject to status) and many other benefits. Just think, only one unexpected bill could easily recoup the whole cost of your Extra Cover plan!

There are six Extra Cover plans, all of which run from the start of your new car's Warranty. Simply choose the plan which best suits your anticipated motoring.

- 2 years or 18,000 miles
- 2 years or 24,000 miles
- 2 years with unlimited mileage
- 3 years or 24,000 miles
- 3 years or 36,000 miles
- 3 years or 60,000 miles

Unlike most optional warranties, Extra Cover is not insurance based and is operated with the needs of Ford owners in mind. Ford values you as a customer, so you can rest assured that Extra Cover has a simple claims procedure and no 'small print'. All you need do is have your Ford serviced regularly by any Ford Dealer and keep the service record up to date. In the event of a claim your nearest Ford Dealer will be pleased to sort everything out for you.

Extra Cover - peace of mind for years of worry-free motoring. Ask a Ford Dealer for full details of the Extra Cover plans. Next to your new Ford, Extra Cover is one of the best choices you could make.

### Lifetime Guarantee

Most Ford Dealers will now guarantee any customer paid repairs involving Ford or Motorcraft Parts and carried out under the Lifetime Guarantee Scheme for as long as you own your Ford. Even if that's for its lifetime. That's what you call a guarantee!

## Motability

Ford Motor Company Ltd provide more cars to disabled people than any other manufacturer and are easily the largest supplier to Motability. Ford are committed to helping disabled people and their families by providing specialist help through its Dealer network. Should you want further advice about a car to suit your requirements, a Ford Main Dealer will be pleased to help without obligation, or contact our Motability Sales Department at Ford Motor Company Limited, Motability Administration Centre, PO Box 288, Marlow, Buckinghamshire, SL7 1Y5. Tel: 0628 895225.

## Ford parts

Ford parts are available from your local Ford Dealer and hundreds of Ford Dealerships nationwide who have the support and back-up of Ford's sophisticated parts distribution system.

## Ford Contract Motoring

Ford Contract Motoring combines the benefits of contract hire with a national service network that is second to none. It can be structured to allow your business to concentrate on success whilst our Dealers look after your cars. Ford Contract Motoring - Servicing Your Success

## Ford Credit plc

Ford Credit finances every third new Ford car sold in Britain. It is committed to the highest levels of service in all areas of its business. Credit facilities are provided to a wide market from first time buyers to fleet operators with finance plans designed to meet customers needs. When it comes to financing a new Ford vehicle, Ford Credit has the key. Ford Credit plc, The Drive, Brentwood, Essex CM13 3AR. Written quotations are available on request, guarantees and indemnities may be required.

## Tax Free Sales

Most cars in the Ford Range are available for Tax Free Personal Export. Details are available from your local Ford Dealer or Ford Motor Company Limited, Tax Free Sales, Beckett House, Chapel Hill, Brentwood, Essex, CM14 4BY. Tel: 0277 251100. Fax: 0277 231803.

## Motorcraft

Motorcraft is Ford's Original Equipment brand for service parts. The range includes spark and glow plugs, batteries, water pumps, fan belts, oil and air filters, shock absorbers, clutches, brake and steering components, to mention but a few. Motorcraft parts provide durability, quality and assured reliability for Ford vehicles - and they're also available to fit most other manufacturer's models.

# Motorcraft

# Accessories

Enhance your driving pleasure

**The comprehensive range of Ford accessories can enhance the style and practical virtues of your new Ford. From sporty RS styling kits for extra visual appeal to comfort and security items for travel luxury and peace-of-mind, the Ford range offers something for everyone. There are carefully selected accessories for all Ford cars, from compact Fiestas to the prestigious new-style Granada and Scorpio models.**

## Rear Spoiler Kits 1

Aerodynamic rear spoiler kits have been specially designed to complement your car's exterior body styling and add visual appeal. Kits are available for all Ford hatchbacks and saloons, including new-style Granada and Scorpio models.

## Rear Bumper Skirt Kits 2,4

Rear bumper skirt kits can provide that sleek finishing touch to the exterior styling of your car, making sure it stands out from the crowd. There are versions available for hatchback, saloon and estate bodystyles.

## Bodyside Skirt Kits 3

RS bodyside skirt kits, available for all models, are styled to complement the front spoiler and rear bumper skirt, to give your Ford car more style and even stronger visual appeal.

## Front Spoiler Kit With Integrated Grille 4

Both aerodynamic and attractive, this front spoiler kit with integral grille can enhance the styling of your new-style Granada or Scorpio. Wind-cheating front spoiler kits are available for all cars in the Ford range.

## Alloy Wheels 3,4

Alloy road wheels, available in a range of distinctive designs, add that extra touch of sports styling and individuality which makes your Ford stand out from the rest.

## Locking Wheel Nuts 5

1992 is Car Crime Prevention Year, and avoiding car crime is a priority for many motorists. Locking wheel nuts are a sensible and inexpensive precaution. Simple to fit, they can prevent the inconvenience and expense of replacing stolen wheels.

## Air Deflectors 6,7

Air deflectors are available for the side windows and sunroofs of all Ford cars. They improve travel quality with the windows open, by reducing wind noise and buffeting.

## Anti-slip Mat 8

An anti-slip mat for your luggage compartment can be particularly useful. It can help keep your belongings secure whilst in transit, and protect your load area from wear and tear.

## Child Safety Seats 9

The only way for a child to travel by car securely and in comfort is this self-contained child safety seat, which has its own table. No additional straps are required, and it is suitable for children from nine months to four years.

## Child Booster Cushion 10

This lightweight booster cushion provides comfortable travel at seat belt height for children over 33lbs. It can be fitted in any Ford car and is easily removed when not in use.

## Baby Seat 11

Babies up to nine months can be carried snugly and securely with this baby seat. It can also be lifted out of the car for use as a baby seat around the home.

**All these items - and many more -** are available from your Ford Dealer. To find out more about these and other accessories in the Ford range, pick up an Accessories brochure at your nearest Ford showroom.

## Ford Audio Systems

The Ford Audio range of high quality sound systems is designed and manufactured specifically for Ford cars. Most models feature RDS, described by the BBC as 'the most significant breakthrough in radio technology since stereo broadcasting'. RDS ensures you are tuned to the strongest signal for your chosen station and gives you constant access to the latest traffic information. All Ford Audio Systems are protected by the Ford Keycode security system.

### 2001 Audio System

This three waveband stereo radio has electronic tuning and four station presets with a 16 station memory. The negative mode LCD display (light on dark) has night time dimming.

- Power output – 10 watts
- FM stereo, MW and LW
- Auto search and manual tuning
- Last station memory
- 'Keycode' protected.

### 2015 Audio System

An AM/FM stereo radio cassette player which produces 12 watts of power through two full-range speakers. The auto-reverse cassette deck features fast forward, fast rewind and noise reduction. Features over the 2001 model are:

- Power output – 12 watts
- Auto-reverse tape deck
- Noise reduction
- Fast forward and rewind.

### 2006 RDS Audio System

This fully electronic RDS equipped auto-reverse radio cassette has an Autostore facility which stores the six strongest FM stations at the touch of a button. The tape deck has music search and Dolby noise reduction.

- Features over the 2015 model are:
- Power output – 24 watts
  - Four full-range speakers
  - RDS decoder with Traffic programme
  - Autostore
  - 24 station memory (18FM, 6MW/LW)
  - Music search
  - Dolby noise reduction.

### 2007 RDS Audio System

This sophisticated Audio system comes complete with a 4 x 20 watt remote amplifier and premium speakers. High quality digital sound can also be specified with the optional Ford 2028 CD player, as shown in the illustration.

- Features over the 2006 model are:
- Power output – 80 watts via remote power amplifier
  - Eight speaker system with four tweeters and four full-range premium speakers (6 speakers on Estates)
  - CD player option.

### 2028 Compact Disc Player

The superb digital sound quality of the Ford 2028 CD Player is now available as an option with both the 2007 and 2008 Audio Systems.

Features include:

- Seek and Fast Forward/Rewind
- Audio Compression system
- Track display and elapsed time indicator.

### 2008 RDS Premium Audio System

The Ford 2008 Premium Audio System has RDS, Dynamic Noise Reduction (in radio mode) and a full logic electronic cassette deck. The system includes a remote power amplifier, a 7-band graphic equaliser and premium speakers. The 2028 CD player can be specified as an option in place of the graphic equaliser.

- Features over the 2007 model are:
- 7-band graphic equaliser
  - 30 station memory (18FM, 6MW and 6LW)
  - Full logic electronic tape deck
  - Tape frequency response 20Hz to 20 KHz.

### RDS - Radio Data System

Ford is the first car manufacturer to offer RDS as a standard feature on a wide range of models across its car lines. The inaudible RDS signal is decoded by the radio, providing benefits which include station name display, automatic station following and the RDS traffic information system. The TP button on Ford RDS Audio Systems automatically tunes the radio to stations providing the RDS traffic information service. Travel news bulletins will then interrupt the tape or CD to ensure that the driver is kept informed of important traffic information.

Ford Premium speakers are manufactured to the highest standards of quality and performance, to give the best possible clarity and listening pleasure. The speaker unit illustrated is fitted to selected Sapphire models.

The Ford 'Keycode' security system is a valuable deterrent to audio theft. If disconnected, the radio remains inoperative until the special code number is re-entered.

Ask your Dealer for a copy of the Ford Audio Systems brochure, which gives full details of all Ford audio products.

## Cellular Systems

There is now a range of communications products specially tailored to all the models described in this edition of 'Cars'.

Each phone comes with:

- Lifetime maintenance
- Ford phone Carline pre-programmed into each phone so if you have any questions or queries then our trained personnel will be able to help you.
- Ford phone Messaging service which ensures you need never miss a call. This service is provided free of charge for the first three months. The Ford range also includes a car fax which allows you to send and receive paperwork, it also doubles as a photocopier and will operate in and outside your vehicle.

Whatever your requirements Ford Cellular Systems has products to meet your needs, contact your dealer or Ford Cellular Systems direct on 0793 546000.

### The Ford phone Mobile 1

The Ford phone Mobile is designed to meet the needs of drivers who spend most of their time in a vehicle. It is a fixed installation, tailored to the Ford of your choice, and provides 'hands free' operation. It is simple to operate, yet full of sophisticated features, including a memory for frequently used numbers, last number recall and a conference call facility. It even comes with a free three-month trial of the Messaging Service... which means you need never miss a call.

### The Ford phone Car Fax 4

A portable fax that works in the car and in the office...and just about anywhere else where you have access to a phone line. Normally it operates from the car battery, but it also has a rechargeable battery of its own. Compact and lightweight too, the Ford phone Car Fax doubles as a photocopier. Messages, plans, pictures, letters...the possibilities are endless.

### 2 The Ford phone Portable 2

The Ford phone Portable 2 is for people on the move who need to be contacted even when away from their vehicle. Used with the car kit inside the vehicle, it has 'hands free' operation. Outside, the integral battery has a life of up to 24 hours on standby and two hours of talk time, between charges; a battery charger is supplied with each Ford phone Portable. It shares all the features of the Ford phone Mobile, and you can slip it into your pocket.

### The Ford phone Personal 3

The Ford phone Personal is a triumph of technology and miniaturisation. Small and light enough to slip into a pocket, it has many of the features of the larger models in the range. The built-in 50 number memory, last number recall and clear green display make it easy to use. The standard battery lasts for 20 hours on standby or 75 minutes' continuous talk time. The Ford phone Personal - a discreet way to keep in touch.

## Your chance to play for your Country in 1992!

**FORD**  
in Golf

The Ford Amateur Golf Tournament is now in its 27th year, and though the early rounds are under way, there may still be time for you to enter this prestigious event. The Tournament offers club golfers throughout the United Kingdom the unique opportunity to represent their country in the Home International Finals at the famous Belfry course in August. Your own club can be sponsored by your local Ford Dealer as part of one of your club's monthly medal competitions. If you win the medal competition you automatically qualify for a place in

Scotland - the Winning Team 1991

a regional final, Regional final winners make up the 8-player National team, one team each for England, Scotland, Wales and Northern Ireland. Team coaches are Tommy Horton, David Jones, George Will and David Llewellyn.

Entry to the Tournament is open to all gentlemen over 18 years, providing them with the chance to fulfil a golfing dream and play for their country.

## Your complimentary invitation to watch the Ford Ladies' Classic at Woburn

This highlight of the ladies' golfing calendar takes place between 30 April and 3 May, on the lovely Duchess Course, Woburn Golf and Country Club. This event attracts some of the top names in ladies' golf, recent winners including Laura Davies, Gillian Stewart and Marie-Laure de

Lorenz, and this year Dale Reid will be defending her title. Your Ford Dealer may still have some complimentary season tickets, so hurry along now, and ask for details. We look forward to welcoming you to the Ford Ladies' Classic.

Dale Reid - Champion 1991
