Unleashed.

However you look at it, there's no mistaking the Ford Mustang. With its lean and muscular lines, advanced technology and exhilarating performance, the Ford Mustang is more than just a sports car. It's the heart and soul of Ford.

From every angle, the new Mustang makes a powerful impression. At the front, you'll find a wider, more aggressive mesh grille and a re-profiled bumper. New air extractor bonnet vents not only turn heads, but ensure the engine remains cool, even in the most demanding conditions. And no-one should fail to notice its eye-catching new LED headlights with instantly recognisable signature lighting.

Vocal.

Iconic.

Mustang BULLITT limited edition

Celebrating the 50th anniversary of the iconic movie "Bullitt". Ford introduces the sensational new Mustang BULLITT limited edition. Powered by a re-tuned 5.0-litre V8 engine and finished in classic Dark Highland Green or Shadow Black, it revives the screen legend with new levels of power and precision.

Model shown is a Mustang BULLITT Fastback in Dark Highland Green body colour with 19" alloy wheels.

BULLITT and all related characters and elements © & ™ Warner Bros. Entertainment Inc. (s18)

Distinctive.

What sets the new Mustang apart is the sheer pleasure of a shape that differs so much from the rest. From the shark-nose front with its lower, re-profiled bonnet to the sculpted rear shoulders, its cool, classic form is one of pure emotion.

Aerodynamics Mustang is the first Ford to be equipped with front wheel aero curtains that help guide airflow across the front wheels. At the rear, the tapered bodywork channels air effectively from the back of the car to further reduce aerodynamic drag.

Tactile.

Taking inspiration from aircraft cockpit design, the new Mustang delivers a thrilling drive. Important controls are within easy reach with a **digital instrument cluster** that can be read at a glance, face-level **centre air vents** and **aircraft-style toggle switches**. The **gearshift** is perfectly placed with a short-throw between gears. And the leather-wrapped **steering wheel** feels just right in your hands.

Emotive.

The look may say new, but its soul is pure Mustang. Strong side lines with wide shoulders, a noticeable set of haunches and a raked roofline combine for a powerful muscle car look. New Mustang changes the way we see things. It's a presence you just can't ignore.

360°

Authentic.

360°

Liberated.

Enjoy the wind in your hair with the captivating Ford Mustang Convertible. Designed from the very start as a convertible, it's packed with all the performance and attitude of the Fastback, but with the added thrill of open-top driving.

Memorable.

Confident.

Now you can feel more confident than ever behind the wheel of the new Mustang. In addition to its powerful braking system – with six-piston Brembo front calipers on GT models – Mustang benefits from an expanded suite of safety and driver-assistance features.

Pre-Collision Assist

Scans the road ahead for moving objects and pedestrians, even at night, and is designed to warn you if a collision is likely. If you don't react, it automatically starts braking to help slow you down. (Standard)

Distance Alert

Displays the distance to the vehicle in front and can alert you if you get too close. (Standard)

Lane-Keeping System

Designed to warn you if you accidentally drift out of lane on a multi-lane road, and can guide you back safely into the right lane. (Standard)

Driver Alert

Monitors your driving behaviour and can alert you if it detects signs of driver fatigue. (Standard)

Agile.

Mustang has always been a unique sports car, and now the experience soars to a new high. The specially-developed chassis with fully-independent suspension is designed to make this the most agile Mustang ever. Lateral stiffness has been increased at the rear and, along with new shock absorbers and stabiliser bars, has further enhanced its handling.

Limited slip differential

Mustang's limited slip differential is ideally suited to rear-wheel drive sports cars. If one wheel starts to slip, engine torque is automatically transferred to the other wheel. This greatly improves traction and agility out of corners and on slippery surfaces. (Standard)

Selectable driving modes

Mustang also comes with electronic chassis calibration. Four driver-selectable modes – Normal, Sport, Track and Snow/Wet – determine throttle response, gearshift points (on automatic transmission models), steering effort and stability control calibration to suit different driving conditions. (Standard)

Rev-matching

Mustang GT's 6-speed manual transmission is now offered with rev-matching. This feature is designed to enhance the driving experience by matching the throttle position to the wheel speed for smooth gear changes, especially when down-shifting. Can be turned on/off in Track Apps. (Standard on GT with manual transmission)

Athletic.

New Mustang lets you adapt your car's dynamic performance to suit your driving style.

MagneRide® adaptive suspension

For the ultimate driving experience, the new Mustang is now available with MagneRide® adaptive suspension. The system monitors and adjusts itself thousands of times per second to deliver exceptional levels of stability, comfort and control. Four settings are available – Normal, Sport, Track and Drag – so you can tailor the handling to suit the road conditions and the style of driving. (Option)

Electronic Stability Control (ESC)

Designed to compensate for oversteer or understeer, ESC detects sudden changes in steering, braking and vehicle attitude, and adjusts the speed of individual wheels to help keep you on course. (Standard)

Twin-scroll turbocharger

The 2.3-litre Ford EcoBoost is the first Ford engine to use a low-inertia twin-scroll turbocharger. Together with the integrated exhaust manifold that maximises pulse energy to the turbine, the result is improved responsiveness for overtaking manoeuvres, lower emissions and improved efficiency.

Efficient.

Based on state-of-the-art technology, Mustang's **2.3-litre Ford EcoBoost** engine offers the perfect balance between dynamic performance and effortless efficiency. A high-capacity direct injection system precisely controls fuel delivery, while a twin-scroll turbocharger delivers a strong 290 PS – and instant throttle response.

2.3-litre Ford EcoBoost petrol engine

With its specially-designed 2.3-litre Ford EcoBoost engine, the new Mustang is hungry for fun, not fuel. Part of the International Engine of the Year family, this powerful four-cylinder unit combines a low-inertia twin-scroll turbocharger, high-precision direct injection and Twin independent-Variable Cam Timing (Ti-VCT) to help reduce fuel consumption and emissions, while maximising dynamic performance.

5.0-litre V8 petrol engine

Performance of an epic scale is provided by our most powerful 5.0-litre V8 with 450 PS and muscular 527 Nm of torque. The numbers are impressive, but even they fail to convey the rich endless power delivery that results in such effortless flexibility. Or the engine's distinctive throaty growl that provides the soundtrack to every drive.

Mustang powered by **FORD EcoBoost**

Smart.

New Mustang's smart features make your experience even more special. **Mustang projection lamps** beam the iconic Mustang on the ground when you unlock the doors. Select reverse gear and the **rear-view camera** automatically displays the view from behind the car on the 8" TFT touchscreen. **Pre-Collision Assist** is designed to warn of a potential collision with a vehicle ahead and can apply the brakes if you fail to react. **Adaptive Cruise Control** is designed to maintain your desired distance from the vehicle in front. While the **Premium B&O Sound System** (option) delivers the optimum in-car audio experience.

Connected.

Ford SYNC 3

Ford SYNC 3 is designed to integrate seamlessly with your compatible smartphone*, letting you control everything from calls and text messaging to music and satellite navigation (option) – all via the 8" touchscreen, or the simplest voice commands.

Touchscreen

The SYNC 3 touchscreen supports multi-touch ‘swipe’ and ‘pinch-to-zoom’ gestures, and lets you arrange application icons and background displays, just as you would on your tablet or phone.

AppLink, Apple CarPlay and Android Auto

Control SYNC-compatible apps with AppLink, while Apple CarPlay and Android Auto let you navigate your smartphone HMI through the SYNC home screen as if it were your handset.

Digital LCD instrument cluster

Mustang’s new all-digital cluster lets you customise exactly what you want to see while you’re on the road. Choose from three modes – Normal, Sport and Track – to personalise the information that’s displayed, right down to the colour of your gauges.

Mustang MyMode

Allows you to save your favourite drive settings, including suspension and steering preferences.

*Please Note: Full SYNC 3 smartphone integration only available with iPhone 5/Android 5.0 (Lollipop) or higher. Some SYNC 3 functions require a data connection, so mobile data charges will apply. To check whether Apple CarPlay and Android Auto are available in your market, please check official Apple CarPlay and Android Auto websites for the latest information.

Utility

Gauge your performance.

Reality check. Making fuel economy figures more realistic.

From 1 September 2017, certain new vehicles will be type-approved using the World Harmonised Light Vehicle Test Procedure (WLTP), which is a new, more realistic test procedure for measuring fuel consumption and CO₂ emissions. From 1 September 2018 the WLTP will fully replace the New European Drive Cycle (NEDC), which is the current test procedure. During NEDC Phase-out, WLTP fuel consumption and CO₂ emissions are being correlated back to NEDC. There will be some variance to the previous fuel economy and emissions as some elements of the tests have altered i.e., the same car might have different reported fuel consumption and CO₂ emissions.

To learn more about the new testing procedures, please visit www.dft.gov.uk/vca/fcb/wltp.asp

*The declared Fuel/Energy Consumptions, CO₂ emissions and electric range are measured according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EC) 692/2008 as last amended. Fuel consumption and CO₂ emissions are specified for a vehicle variant and not for a single car. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO₂ emissions and electric range. CO₂ is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO₂ emissions which contains data for all new passenger car models is available at any point of sale free of charge or can be downloaded under <http://carfueldata.dft.gov.uk/>. All petrol engines are equipped with a catalytic converter. *Represents the lightest kerbweight assuming driver at 75kg, full fluid levels and 90% fuel levels, subject to manufacturing tolerances and options, etc., fitted.

2.3-litre Ford EcoBoost engine

Specially tuned for Ford Mustang, the 2.3-litre Ford EcoBoost engine combines the performance you expect with fuel economy. Turbocharging with Ford's transient overboost technology uniquely calibrated for Mustang, increases torque for wide-open throttle acceleration.

*Combined test figures. Fastback with manual transmission.

5.0-litre V8 engine

The acclaimed 5.0-litre V8 is the ideal engine for the Ford Mustang. Upgraded valvetrain and cylinder heads help the engine develop 450 PS and 529 Nm of torque. A specially-developed intake manifold improves low-speed breathing for better fuel efficiency and emissions.

**Combined test figures. V8 GT Fastback with automatic transmission.

Active valve performance exhaust

Mustang is so customisable that even its engine note can be adjusted. An all-new active exhaust is available on Mustang GT, allowing you to change the tone and volume of your exhaust system at the push of a button. (Standard on GT, Optional on EcoBoost)

Note Engine power output may be affected, depending on the exhaust mode selected.

Enjoy Mustang in dynamic detail.

- Standard
- Optional, at extra cost
- Part of an option pack, at extra cost

#Measured in accordance with ISO 3832. Dimensions may vary dependent on the model and equipment fitted.

*Whichever occurs soonest; from date of first registration. Year 1 – unlimited mileage. Subject to terms and conditions.

Making ownership easy and affordable.

Take advantage of a range of invaluable services and make the most of your car.

FORD SERVICE

Allows you to relax knowing we're always by your side.

With Ford, the service doesn't end when you leave the showroom. Ford Service is designed to keep your Ford in great condition and help you make the most of your car – throughout its life.

- Comprehensive service and maintenance plans
- Use of quality Ford parts for added peace of mind
- Ford trained technicians using the latest diagnostic equipment and tools
- Ford Online Service Booking
- One Call for everything Ford 0203 564 4444
- Ford Accident Management, service free to all drivers

Also, every Ford vehicle comes with 12 months UK & European Roadside Assistance from the date of registration. This can be extended for a further 12 months when your vehicle has a Scheduled service at a participating Ford Dealer.

FORD INSURE

At Ford Insure we provide insurance designed specifically for Ford owners. We have comprehensive cover which includes features and benefits that really matter to you, along with first class service.

- Repairs carried out by Ford-trained technicians at Ford Accident Repair Centres
- Genuine Ford parts with a 5 year guarantee
- Small replacement car for the duration of your repairs
- Ford Insure experts at UK call centres
- 24 hour accident recovery
- Unlimited cover for standard fit in-car entertainment equipment
- Up to 90 days European cover
- Replacement child seats in the event of an accident

FORD PROTECT

Extend your warranty up to 5 years/100,000 miles with Ford Protect.

Extend your standard 3-year/60,000 miles warranty and enjoy worry-free motoring for many years to come. Ford Protect provides a range of key benefits including:

- High flexibility in duration and mileage
- Cover against unexpected electrical and mechanical repair costs in the UK and Europe
- With Ford Protect, the price of parts and labour are guaranteed for the length of your plan
- Help prolong the lifespan of your Ford vehicle
- Help protect your vehicle resale value

To help increase potential resale value, Ford Protect New Vehicle Warranties are transferable to the new owner should you decide to sell your vehicle.

Ford Protect terms and conditions apply see ford.co.uk/extended-warranties for more information.

FORD Protect Extended Warranty for New Vehicles

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and recommended prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. ♦The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are instead covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions. **The Government fuel figures** do not express or imply any guarantee of the fuel consumption of any particular vehicle. The vehicles themselves have not been tested and there are inevitably differences between individual vehicles of the same model. In addition, a vehicle may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.
