

Q70

 INFINITI

IT'S INSTINCT

Give in to it. Be summoned by an audacious beauty that stirs something within. It will lead you to rewards that can only come from engineering and design that satisfy through your senses. In the new Infiniti Q70, you'll discover a different type of flagship luxury that elevates the tactile and celebrates power and dynamic movement. Trust your impulses. They've been waiting for the exceptional.

INFINITI DIRECT RESPONSE HYBRID doesn't require a compromise between efficiency and exhilaration. It pulses with 364 PS delivered with heart-pounding immediacy while achieving up to 145 g/km.

IT'S INSTANT

INTELLIGENT CRUISE CONTROL (ICC) automatically slows you down when traffic in front of you slows down. When the way is clear, it accelerates back to your desired speed. Less effort, more ease.

DOWNSHIFT REV MATCHING expertly translates performance driving technology. Flick the magnesium paddle shifter for a lower gear and it blips the throttle to ready the engine for the new gear. Smoother, quicker downshifts mean balance and response (available only on Q70 Hybrid and Q70 3.7 models).

4WAS (4 WHEEL ACTIVE STEERING)* engages each wheel as you steer. Your Q70 turns in and tracks with clarity and precision to make cornering more immediate, stable and exciting.

*Availability can vary within model range.

ACCELERATION SWELL transforms mechanical power into emotional excitement. Precise engine tuning unleashes torque over a broader rev range, and the feeling of acceleration is shaped to increase the faster you go.

Within every movement is a commitment to inspire every moment. Our insatiable drive for an invigorated connection is revealed when your space is a sanctuary and when your fingertips find tools to facilitate your journey. In motion, you will discover dedication.

ADAPTIVE FRONT-LIGHTING SYSTEM (AFS) turns your headlights to shed light on where you're steering. The all-new LED headlights of the Q70 do more than create a response – they respond.

FOREST AIR® SYSTEM The natural rejuvenation of a cool, soothing breeze is brought into your personal space as you drive. Air is circulated with a gentle ebb and flow.

ACTIVE NOISE CONTROL (ANC) seeks to cancel out unwanted noise entering the cabin, so the only thing you hear is silence and the song of performance.

Order above chaos. Preparedness rises over the unexpected. When you are attuned to your environment, you will more confidently move through it.

BLIND SPOT INTERVENTION™ helps alert you to vehicles you may not see. If it detects a vehicle in your blind spot area, it warns you and can intervene to help you avoid a collision.

LANE DEPARTURE PREVENTION (LDP) helps keep your vehicle from unintentionally drifting from your lane. Traffic may surround you, but so will confidence.

AROUND VIEW MONITOR (AVM) lets you see your surroundings as though from above when parking, for an extraordinary level of awareness.

IT'S POISE

Step out of the routine and reach new heights of potential. Step from the Infiniti Q70 and find you have been moved in new ways. In the richness you touch, the space that surrounds, the sounds that invigorate, you will discover the true reward is the transformation of refinement into rejuvenation.

CLIMATE CONTROLLED SEATS surround you in greater comfort by pushing cool or warm air through the front seats to keep you entirely in your preferred temperature zone. Arrive at your destination refreshed and relaxed.

INFINITI CONTROLLER allows you to command your technology in the manner you find most intuitive. Through buttons, turning ring or touchscreen, it responds to you rather than you conforming to the system.

BOSE® PREMIUM SURROUND SOUND SYSTEM envelops you, creating depth and ambiance for a wider, more immersive sound. Music fills the cabin with soothing richness and thrilling intimacy.

IT'S BOUNDLESS

Is there a more satisfying rarity than the recognition of your desires? Is there a more passionate automotive experience than when luxury recognizes you?

INFINITI INTELLIGENT KEY custom-tailors your Q70 to personalize every drive. Everything from the driver's seat positioning to the outside mirrors and steering wheel settings accommodates to your presence without ever taking it out from your pocket or purse.

WELCOME LIGHTING celebrates every return and elegantly draws you into the driving experience. Upon your approach, a sequence of exterior then interior lights acknowledge your presence. The ignition button will even illuminate with a pulsating glow, to let you know it's ready to please and excite.

OBJECT OF ATTRACTION

THE INFINITI Q70

AMBIANCE

A welcoming and evocative space is measured by its ability to stir your emotions.

16 SPEAKERS

AUDITORY INDULGENCE Each of the 16 speakers of the Bose® Premium Surround Sound system are custom-tuned for the interior of the Infiniti Q70. Every speaker, including those mounted in the shoulders of the front seats, reproduces sound with legendary Bose® signal processing to create rich and realistic 5.1 surround sound imaging. The system also allows for a wide variety of media sources, including your personal iPod and wireless streaming with a compatible Bluetooth®-enabled device.

FINER FABRICS The seat belt is one of the few surfaces you continually touch, so we found a variable herringbone weave for the webbing that is softer than standard fabrics. Not only is it more pleasing to the touch, but being more compliant, it allowed us to reduce the friction of the seat belt mechanisms. The seat belt is more comfortable to wear, easier to pull out and even less likely to snag the thread of your finest fabrics. We pay close attention to even the finest details.

ABUNDANT SPACE The interior of the Q70 was designed to emphasize both the rewards of spaciousness and the feeling of space. It offers excellent head and hip room for all passengers. Interior elements like the roof and windshield pillars are shaped to give a more open feeling. Each seat is rewardingly supportive and even taller rear passengers will have comfortable legroom. What's more, a wide trunk opening gives you easy access to a spacious luggage compartment.

MATCHLESS MATERIALS The craftsmanship in an Infiniti Q70 is not limited to the exquisite ergonomics and trim. Your fingertips will seem to recognize an instinctively rewarding feel in the armrest and other surfaces. We took one-and-a-half years, surveying 360 people all over the world to ascertain the most pleasing tactile feel. With a tension and texture that match the depth and spacing of the ridges in your fingerprint, the surfaces with which you'll most commonly engage offer the perfect touch.

POWER

Exceptional build quality, fuel efficiency and output can be measured with instruments or graphs, but the true excellence of Infiniti engines is captured in the feeling unleashed as you drive.

364	45.6*
PS	mpg

3.5-LITRE V6 WITH INFINITI DIRECT RESPONSE HYBRID The Infiniti Q70 Hybrid is the vehicle that redefined hybrid power. Combining a powerful V6 engine with a 50 kW electric motor gives the system a total of 364 PS. But unlike many hybrids, it transitions from all-electric mode to full-power hybrid mode with thrilling intensity and organic responsiveness. All while achieving a surprising 145 g/km of CO₂ emissions.

170	57.6*
PS	mpg

2.2-LITRE DIRECT INJECTION TURBO DIESEL ENGINE As clean burning and fuel efficient as it is emotionally invigorating. This engine uses the latest diesel technology to achieve 57.6 mpg*, while putting 170 PS and 400 Nm of torque at your command. And it delivers this power while producing only 129 g/km of CO₂ emissions.

320	27.7*
PS	mpg

3.7-LITRE V6 GASOLINE ENGINE Its robust design, exceptional power-to weight ratio, advanced technology and fuel efficiency have won it acclaim from critics and fans alike. Benefiting from Variable Valve Event and Lift (VVVEL) technology, it adjusts on the fly to make the most of every breath and every drop of fuel, resulting in a stirring 320 PS.

* This figure refers to the combined fuel consumption

PERFORM

Underneath its alluring physique lies the foundation of the thrilling dynamics of Infiniti Direct Response performance engineering.

5.3
SECS

UNRIVALLED PERFORMANCE Featuring a 1-motor, 2-clutch parallel hybrid powertrain, the Q70 Hybrid is able to go from 0 to 100 km/h (0 to 62 mph) in less than 6 seconds. Masterfully engineered, the high-speed motor control technology enables a seamless transition between the gasoline engine and electric motor, providing a smooth and responsive ride with thrilling acceleration that goes beyond what was thought possible from a hybrid.

EFFICIENT INVIGORATION No hybrid design is quite like it, and none can match its emotional intensity. The 50 kW electric motor and cutting-edge lithium-ion batteries of the Infiniti Direct Response Hybrid are powerful enough to allow you to maintain cruising speed in all-electric mode. When not needed, the 3.5-litre V6 petrol engine is turned off and completely disconnected, maximizing mechanical efficiency. And yet it responds to your call for power with a stirring intensity.

SHARPER SHIFTS When you flick the magnesium paddle shifter (only with sport versions) for a lower gear, Downshift Rev Matching (available only on Q70 Hybrid and Q70 3.7 models) blips the throttle to ready the engine for the new gear. It gives you the power of expert performance driving by delivering smoother downshifts for increased stability and more consistent engine power.

MORE RESPONSIVE BRAKING With ventilated discs and aluminium 4-piston opposed front callipers and 2-piston opposed rear callipers, the available Sport Brakes provide great stopping force from both sides of the rotor at the same time for better bite, more friction and direct feel.

THE SOUND OF PERFORMANCE A performance car speaks to you through its exhaust, and the speciality exhaust tuning on the Q70 shapes that sound into something uniquely compelling. Not only does it make an Infiniti unmistakable, it makes every trip up and down the tachometer an experience that transcends engineering and enters the realm of pure emotion.

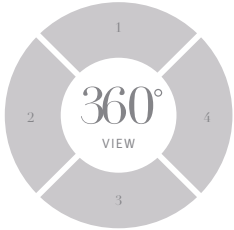

INNATELY RESPONSIVE BALANCE The engineering philosophy behind Infiniti performance coupés and saloons, the Front-Midship Platform, also underlies the design of the spacious Infiniti Q70. Placing the engine's centre of mass just behind the front wheel centre line creates a near-equal front-to-rear weight ratio, with a slight front bias that you'll feel as quicker turn-in and even balance as you accelerate out of a corner. Experience precision and engagement you might expect from a sports car.

LIGHT ON ITS FEET These stunning 20-inch alloy wheels heighten both the looks and performance of the Q70. Lightweight, thanks to both material and design, they reduce unsprung weight. That reduction of mass renders driving more exciting by allowing the suspension to be more finely tuned and by making the handling of the Q70 more responsive and more nimble.

ASSIST/ENTERTAIN

The advanced technologies of Infiniti InSuite™ simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.

ALL-AROUND AWARENESS The Around View Monitor (AVM) with Moving Object Detection and front and rear parking sensors gives you exceptional awareness of your environment as you park. You'll see a simulated 360° view from above, showing you clearly the objects around your car. And the system will even alert you to moving objects detected in your vicinity. It intuitively puts you in total control, while simultaneously putting you at ease.

CRAFTING TRANQUILITY Active Noise Control (ANC) ensures that the cabin of the Infiniti Q70 offers better solace from the outside world. Intelligent technology uses a microphone in the ceiling to identify undesirable low-frequency engine sounds and neutralizes them with sound waves of the opposite phase. The result is a quieter and more peaceful driving experience which still preserves the more invigorating sounds of engine performance.

A SMARTER WAY TO SEE The Adaptive Front-lighting System (AFS) on the Q70 lights not just the way ahead, but around as well. It directs light toward corners by turning the headlights in coordination with steering input to help the driver see oncoming vehicles and pedestrians, and to help you reach your destination safely.

INFINITI INTELLIGENT KEY automatically custom-tailors your car for you. Everything from the driver's seat to your navigation preferences, climate control, audio and performance settings, will be set precisely the way you like it.

SECURING YOUR SPACE Distance Control Assist (DCA) employs a sensor to monitor the vehicle in front of you and helps you maintain a safe following distance. As your following distance becomes too short, the system can automatically engage the brakes as you release the gas pedal, and it can warn you if you need to brake. If your foot stays on the gas pedal while closing in on the other vehicle, it can push the pedal upwards to assist you in releasing it.

EASE IN TRAFFIC Intelligent Cruise Control (ICC) with Low Speed Following (LSF) allows you to choose your desired speed, and automatically slows your vehicle in slowing traffic, going all the way to a complete stop. Then, as traffic flow picks up, it re-accelerates your vehicle to your preset speed. This visionary innovation and the personalized convenience it offers is available with a simple touch of a button.

EXTEND YOUR AWARENESS Engage reverse and the Rear View Monitor displays the area directly behind. Coloured guidelines help give you an accurate sense of how close you are to objects behind, and they adjust as you turn, to show your path. Also, the front and rear parking sensors emit a beeping tone and display an icon on the Rear View Monitor display when an obstacle appears near the bumpers.

PROTECTION

The Infiniti Safety Shield® concept – our comprehensive approach to safety – layers technologies to monitor conditions, help you avoid a collision, and help protect you and your passengers if one occurs.

1,350 MPa

ULTRA-HIGH
TENSILE STEEL

590 MPa

CONVENTIONAL
STEEL

STRONGER AND LIGHTER Ultra high-strength steel is used to help enhance your safety in the case of a collision. The unique process used to create this material gives it more than twice the tensile strength of conventioanal steel. Not only does this ultra-strong material add to the vehicle’s resiliency, it allows us to make the vehicle lighter overall.

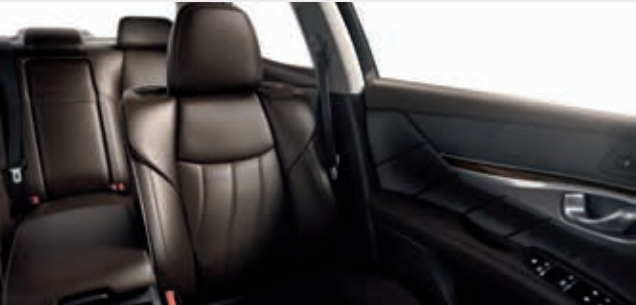

ALWAYS LOOKING FOR DANGER Forward Collision Warning (FCW)¹ uses radar to continuously monitor and analyse your closing speed to the vehicle ahead of you, helping detect an imminent collision. When the system detects that your vehicle is getting close to the vehicle ahead in the same lane, an indicator light on the instrument panel blinks and a warning chime sounds.

SENSES WHERE YOU CAN’T SEE The Blind Spot Intervention™ System uses sensors to help alert you to a vehicle detected entering the blind spot area in an adjacent lane and helps you avoid it. First, the warning light illuminates. Then, if you begin moving toward the occupied lane, a warning sounds. The system will even apply the brakes on the opposite side to help you guide your vehicle back to the centre of your current driving lane.

MAINTAINING YOUR LANE The Lane Departure Prevention System (LDP) uses a camera to watch for departure from the travelling lane when you haven’t signalled, emitting a warning tone if it detects drift. Then, if the drift continues, the system lightly applies selected brakes to help ease your vehicle back into the travel lane. But you never give up control. It’s designed to assist, not override.

HELPING YOU STAY IN CONTROL Comparing actual vehicle cornering performance to the driver’s input, Vehicle Dynamic Control (VDC) adjusts power levels and applies appropriate brake pressure to individual wheels to help correct oversteer or understeer, so as to keep the vehicle on the steered path. Working in tandem, the Active Trace Control senses wheel spin and automatically helps give you a surer foothold.

THE SUPPORT YOU NEED In certain rear-end collisions, the Front-seat Active Head Restraints found on the Q70 can move forward to help cushion the head, to assist in reducing whiplash-type injuries.

PREPARED TO PROTECT Under certain braking conditions the Front-seat Pre-Crash Seat Belts automatically tighten the front seat belts – helping to restrain you and helping to maximise the effectiveness of the other occupant protection devices, such as airbags.

SELECTION

Hues that change in response to light and angle. Matching exterior and interior colours to reflect the distinctive energy and mood of the seasons. These are just a few ways Infiniti uses paint to express feeling, evoke confidence, and shape the emotional essence of a vehicle.

It is subject to change and does not constitute an offer, representation or warranty (express or implied) by INFINITI Europe. Before relying on this brochure to make a purchase decision, interested parties should directly contact the Infiniti Centre to confirm the accuracy of any information given herein and how it relates to a specific vehicle. INFINITI Europe reserves the right to make changes, at any time, without prior notice, in prices, colours, materials, equipment, specifications and models and to discontinue models or equipment. Due to continuous product development and other pre- and post-production factors, the actual vehicle, materials and specifications may vary from this brochure. Some vehicles are shown with optional equipment. See the actual vehicle for complete accuracy. Availability and delivery times for particular models or equipment may vary. Specifications, options and accessories may differ in other countries. For additional information on availability, options or accessories, contact your Infiniti Centre.

All Infiniti Q70 models for UK are right-hand drive.

¹FCW is intended to warn you before a collision occurs; it cannot prevent a collision. Speed limitations apply. Always drive safely.

Infiniti has taken care to ensure that the colour swatches presented here are the closest possible representations of actual vehicle colours. Swatches may vary slightly due to the printing process and whether viewed in daylight, fluorescent or incandescent light. Please see the actual colours at your local Infiniti Centre.

GENUINE INFINITI ACCESSORIES

The same exacting standards applied to the creation of an Infiniti vehicle go into designing and manufacturing Genuine Infiniti Accessories. With a wide array of quality products designed to integrate seamlessly, you can be assured of a custom fit and finish.

ACCESSORIES SHOWN, 5-spoke 20" sport alloy wheel, roof box, loadcarrier.

18 INCH SILVER ALLOY WHEELS Wherever you go, there'll be no questions about your sense of style and love of sporty design. 245/50 R 18 alloy wheels.

ENTRY GUARDS Set in a stainless steel panel, these soft "Infiniti" illuminated entry guards give the sill area a sporty and sophisticated look. The kit, supplied in pairs, lights up your entrance and protects the paintwork.

TRUNKBOX Collapsible and constructed of a durable and flexible material, the trunkbox helps keep your belongings and other items from moving around while driving, protecting them and your boot from damage and reducing clutter.

REAR SPOILER* Custom-designed for perfect fit and factory-matched colour, it enhances your vehicle's sporty, aerodynamic appearance.

TOW BAR Tested to meet the highest demands of safety and functionality, the tow bar is integrated into the car's bodywork and can be removed easily when not needed.

MUDGUARDS Make your car's paint mud and stone resistant with these body-coloured mudguards.

* Please check applicability with your local Infiniti Centre.

PARTNERS IN THE INTENSE

The pulse races. Seconds split. Victories are won and lost. In Formula 1®, technology and human ingenuity are pushed to the limit. Yet, success is ultimately a measure of the passion that goes into every invention and is released every lap. This passion has led Infiniti Red Bull Racing to become, in recent years, the most dominant force on track.

Car shown is RB10/2014. Information and images correct at time of printing.

Infiniti is drawn to Formula 1® racing because it is engineering genius applied purely to creating emotional excitement. A feeling of exhilaration that extends from the track to the fans, to the culture of Formula 1®, through our partner, Infiniti Red Bull Racing. The heart and determination the team has shown has led them to four Formula 1® Constructors’ World Championships in the last five years.

Our synergistic relationship is one that promises thrilling new performance capabilities for both Formula 1® and Infiniti vehicles. This exchange of both technology and ideas includes input directly from our Formula 1® drivers – harnessing their supreme driving senses to ensure every future Infiniti vehicle is as dynamic as possible and ultimately, reinvigorating your drive.

Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion – pure and primal – should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine. Established in 1989, Infiniti has now grown to include saloons, coupés, convertibles, crossovers and SUVs in its lineup and reaches across 50 countries worldwide.

Infiniti has generated respect as the provocateur brand in the premium category, with a reputation for defying convention and creating irresistible and provocative automobiles, engineered with obsessive attention to detail. Our passion for ultimate precision, exhilarating performance and that exuberant driving experience is also manifested in the partnership that Infiniti established with Red Bull Racing in 2011. All of which contributes to the feeling that to drive an Infiniti is something special.

Steering			
Type	Vehicle-speed-sensitive variable-assist power rack and pinion	Vehicle-speed-sensitive variable-assist power rack and pinion	Vehicle-speed-sensitive variable-assist power rack and pinion
Type	Hydraulic power steering	Hybrid electric power steering	Hybrid electric power steering
Turning diameter	11.2 m	11.2 m	11.2 m
Suspension			
Front	Independent, double wishbone with coil springs over Double-Piston Shock absorbers (DPS), stabiliser bar	Independent, double wishbone with coil springs over Dual Flow Path (DFP) shock absorbers, stabiliser bar	Independent, double wishbone with coil springs over Double-Piston Shock absorbers (DPS), stabiliser bar
Rear	Independent, multi-link suspension, Double-Piston Shock absorbers (DPS), stabiliser bar	Independent, multi-link suspension with Dual Flow Path (DFP) shock absorbers, stabiliser bar	Independent, multi-link suspension, Double-Piston Shock absorbers (DPS), stabiliser bar
Brakes			
Front/Rear	355 mm front / 350 mm rear ventilated discs with aluminium opposed front callipers (4-piston front, 2-piston rear)	320 mm front / 308 mm rear ventilated discs ^{3,4} 355 mm front / 350 mm rear ventilated discs with aluminium opposed front callipers (4-piston front, 2-piston rear) ^{5,6}	320 mm front / 308 mm rear ventilated discs
Wheels and Tyres	20 x 9.0-inch alloy wheels with 245/40R20 W-rated tyres (front and rear)	18 x 8.0-inch alloy wheels with 245/50R18 W-rated tyres (front and rear) ^{3,4} 20 x 9.0-inch alloy wheels with 245/40R20 W-rated tyres (front and rear) ^{5,6}	18 x 8.0-inch alloy wheels with 245/50R18 W-rated tyres (front and rear)
CAPACITIES AND WEIGHTS			
Kerb weight ²	1,826 kg	1,875 kg ³ / 1,896 kg ⁴ / 1,897 kg ⁵ / 1,910 kg ⁶	1,895 kg ³ / 1,920 kg ⁴
Gross Vehicle Weight (GVW)	2,310 kg	2,375 kg ^{3,4} / 2,405 kg ^{5,6}	2,400 kg
Max trailer weight unbraked/braked	750 kg / 1,500 kg	750 kg / 1,500 kg	750 kg / 1,500 kg
Luggage volume	500 litres	450 litres	350 litres
Fuel capacity	80 litres	74 litres	70 litres
EXTERIOR			
Coefficient of drag	0.28	0.27 ^{3,4} / 0.28 ^{5,6}	0.26

¹ Results based on EU regulated laboratory testing, and may not represent real-life driving results (which vary depending on driving behaviour, conditions and other factors).

² Figures quoted according to Directive 92/21/EC, version 95/48/EC (kerb weight with 90% fuel tank filling, 68 kg for the driver and 7 kg for luggage) for standard-specification vehicles. Optional equipment and accessories may increase this figure.
