

QX50

 INFINITI

A BREATH

Take it in. A moment crafted just for you. The QX50 is an extension of yourself and an expression of style that rewards the senses as it caters to your comfort. A luxury crossover that at once merges alluring coupe design, welcoming touches and intuitive technology to celebrate the true you every time you drive.

INFINITI INTELLIGENT KEY sets up your vehicle to suit you and you alone, and you never have to lift a finger. When you push the ignition button, the seat, steering wheel and mirrors are automatically adjusted to your personal preferences. The ignition button will even illuminate to let you know it's ready to please and to excite.

INTELLIGENT CRUISE CONTROL (ICC) automatically slows you down when traffic in front of you slows down, even to a crawl. When the way is clear, it accelerates back to your desired speed. Less effort, more ease.

DISTANCE CONTROL ASSIST (DCA) employs radar to monitor the distance between you and vehicle in front of you and helps maintain a safe following distance. From a warning to a gentle adjustment in the brakes or gas, it's designed to assist not control.

INTELLIGENT BRAKE ASSIST (IBA) with Forward Collision Warning¹ (FCW) helps warn against a potential collision and can automatically apply your brakes to help reduce collision speed and impact. It's a smart precaution in an unpredictable world.

AN AWAKENING

Be transported by a new sense of awareness – of yourself, of your senses, of everything that surrounds you. Every mile moves you to a different place.

LANE DEPARTURE PREVENTION (LDP) watches road markings with a camera and can subtly apply brakes to help keep your vehicle from unintentionally drifting out of your lane. When you're out on the road, surround yourself with confidence.

BLIND SPOT WARNING² (BSW) helps boost your confidence by using radar to watch carefully for danger where you can't see. If it detects a vehicle in your blind spot area, it warns you to help you avoid a collision.

A feeling of rejuvenation inspired by intimate gestures. Materials that beckon your touch, technology that empowers your movements and immerses you in every note of the moment define an environment that is profoundly welcoming.

INFINITI HARD DRIVE NAVIGATION SYSTEM offers a more intuitive view and interface for increased ease and confidence, helping you expertly find your location and your destination, even in crowded city environs.

INFINITI VOICE RECOGNITION³ allows you to set a destination on the navigation system, call a contact from your phone, play an audio track and much more without taking your hands off the wheel. The system recognises a wide variety of commands, making your life that much simpler and more elegant.

BOSE® PREMIUM SOUND SYSTEM brings 11 individual speakers to bear in its powerful array. Their positioning and sound delivery are precision-engineered specifically for the interior of the QX50 to filter out noise and distortion, and to surround you with rich auditory indulgence.

A PASSAGE

A transformation from one existence to another.
An effortless transition from tight control to
free-flowing exhilaration extends from its advanced
all-wheel drive to make your journey simultaneously
exciting and deeply satisfying.

INTELLIGENT ALL-WHEEL DRIVE (AWD) is
another way that design creates a more
confident and enriching driving experience.
It was engineered to be one of the most
advanced all-wheel-drive systems on the
planet, adapting to your driving conditions
by delivering power where you need it.

AROUND VIEW MONITOR (AVM) is a ground-breaking technology from Infiniti that gives you a virtual 360° view of your environment while parking. You see your surroundings as though from above for an extraordinary level of awareness.

19-INCH DOUBLE-SPOKE ALLOY WHEELS heighten both the look and performance of the QX50. Large and distinctive, they are crafted in lightweight aluminum and framed by low-profile tires for agile, responsive handling. A subtle nod to the ambitious few who seek beauty in both form and function.

OBJECT OF ATTRACTION

THE INFINITI QX50

AMBIANCE

A welcoming and evocative space is measured by its ability to stir your emotions.

0.6^{MM}
CLOSER

OPTICAL PERFECTION Where interior components meet – where the dash meets the door or the center console – they are assembled not to be mathematically perfect, but to look perfect. This requires an exacting manufacturing process, tightening the space where dashboard meets door from 3 mm to 2.4 mm helps achieve a seamless visual design from the driver’s point of view. But we believe in considering every angle in creating an emotionally transcendent environment.

PLEASING TO THE EYES There is no detail too small to inspire our designers. The electroluminescent gauges on the QX50 provide a soothing glow while delivering accurate, stylish information.

EVERY BREATH FRESHER AND CLEANER Even the invisible is never overlooked. The Advanced Climate Control System features the dual-zone adaptive climate control with auto-recirculation. It works in concert with the Grape Polyphenol Filter, which removes up to 99.5% of allergens from the air coming in from the outside.

HOSPITALITY/DESIGN

Simple yet effective design that evokes a deep emotional connection without sacrifice.

7
LIGHTS

1
METER / 3 FT

INVITING YOU IN We use light to not only make you feel more secure, but to make you feel like an honored guest. Welcome Lighting responds to your presence automatically by gently illuminating seven lights, including the puddle light and several interior lights, when you are one meter (three feet) away from the driver's side door with the intelligent key in your pocket. This choreographed sequence ends with the Start/Stop Button lighting up – inviting you to bring your QX50 to life and building anticipation for the road ahead.

THOUGHTFUL ACCOMMODATIONS In ways large and small, the personal touch is found throughout the Infiniti QX50, including the head-restraint-mounted retractable coat hanger. Located on the back of the driver's seat, it provides a smart, innovative way to place dry cleaning or your jacket without blocking your view.

EMPOWERED VERSATILITY For transportation of oversized objects, either one or both of the rear seats fold down virtually flat. Optional is an easily accessible button that powers the seats back to their upright position.

PERFORM

On its surface you’ll find spacious luxury. At its foundation – the thrilling dynamics of Infiniti Direct Response performance engineering.

46%
REAR

54%
FRONT

INNATELY RESPONSIVE BALANCE The engineering philosophy behind Infiniti performance sedans, the Front-Midship Platform, also underlies the design of the QX50. Placing the engine’s center of mass just behind the front wheel center line creates a near-equal front-to-rear weight ratio, with a slight front bias that you’ll feel as quicker turn-in and even balance as you accelerate out of a corner.

LIMITLESS RUSH Acceleration Swell is our vision of power, dedicated to delivering a shape and feel to acceleration. By tuning Infiniti engines to unleash torque that climbs a broader rev range, the force you feel seems to increase the faster you go – building like the surge of a continually rising wave, peaking ever higher. The emotional energy surges in tandem, making Swell feel like a limitless rush more than a momentary thrill.

3.7-LITRE V6 ENGINE is a potent blend of exciting response and intelligent efficiency. Benefiting from Variable Valve Event and Lift (VVEL) technology, the engine adjusts on the fly to make the most of every bit of fuel and every breath it takes. The result is a stirring 320 horsepower that still manages a fuel economy of up to 8.6 l / 100 km (32.9 mpg)*.

CONTROL WITHOUT COMPROMISE When conditions are ideal, Intelligent All-Wheel Drive (AWD) sends 100% of the power to the rear wheels for more sporty response and performance. But it also constantly monitors wheelspin, throttle position and vehicle speed, and can divert up to 50% of the available power to the front wheels to enhance traction and control when conditions are less than optimal. Your need for control, and your desire for excitement are both satisfied.

AN INTELLIGENT CONNECTION Vehicle-speed-sensitive steering smartly detects your speed to deliver just the right amount of control. At lower speeds, it delivers more power assist so you can adeptly maneuver in parking lots, and supplies less power assist at high speeds for a firmer, more controlled feel on the highway.

THE SOUND OF PERFORMANCE A performance car speaks to you through its exhaust, and the specialty exhaust tuning on the QX50 shapes that sound into something uniquely compelling. Not only does it make an Infiniti unmistakable, it makes every trip up and down the tachometer an experience that transcends engineering and enters the realm of pure emotion.

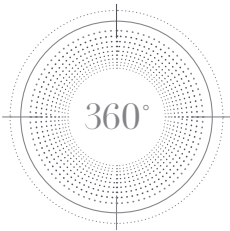

LIGHT ON ITS FEET These stunning 19-inch double-spoke alloy wheels heighten both the looks and performance of the QX50. Lightweight thanks to both material and design, they reduce unsprung weight. That reduction of mass makes driving more exciting by allowing the suspension to be more finely tuned and by making the handling of the QX50 more nimble.

* This figure refers to the extra-urban fuel efficiency.

ASSIST/ENTERTAIN

Infiniti InSuite™ integrates a host of intuitive technologies to simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.

ALL-AROUND AWARENESS The Around View Monitor (AVM) with Front and Rear Sonar Systems gives you exceptional awareness of your environment as you park. You'll see a simulated 360° view from above, showing you clearly the objects around your car. It helps put you intuitively in total control, while simultaneously putting you at ease.

SECURING YOUR SPACE Distance Control Assist (DCA) employs radar to monitor the vehicle in front of you and helps you maintain a safe following distance. As your following distance becomes too short, the system can automatically engage the brakes as you release the gas pedal, and it can warn you if you need to brake. If your foot stays on the gas pedal while closing in on the other vehicle, it can push the pedal upwards to assist you in releasing it.

PERSONALISED COMFORT The dual occupant memory system allows each Infiniti Intelligent Key to store a custom profile for one individual driver. Preferred settings for the seat, steering column, and mirrors are automatically executed, depending on which key you possess.

EASE IN TRAFFIC Intelligent Cruise Control (ICC) with Low Speed Following (LSF) allows you to choose your desired speed and following distance, and automatically slows your vehicle in slowing traffic, going all the way to a complete stop. Then, as traffic flow picks up again, it re-accelerates your vehicle to your preset speed.

A BETTER VIEW OF YOUR WORLD Infiniti Hard Drive Navigation System is packed with advanced yet intuitive technology that makes both more informative and easier to use. Birdview perspective control give you a more natural view of the map, while 3-D building graphics make it easy to locate your destination in crowded urban environments. Also, you can simply speak your instructions to the system thanks to full integration with Infiniti Voice Recognition³.

A SMARTER WAY TO SEE The Adaptive Front-lighting System (AFS) on the QX50 lights not just the way ahead, but around as well. It directs light toward corners by turning the headlights in coordination with steering input to help the driver see upcoming vehicles, pedestrians and to help you reach our destination safely.

AUDITORY INDULGENCE Bose® Premium Sound system brings 11 individual speakers to bear in its powerful array, which add palpable depth to every form of music. Their positioning and sound delivery are precision engineered specifically for the interior of the QX50 to filter out noise and distortion, and to surround you with compellingly rich and realistic sound.

PROTECTION

The Infiniti Safety Shield® concept – our comprehensive approach to safety – layers technologies to monitor conditions, help you avoid a collision, and help protect you and your passengers if one occurs.

1,350 MPa

ULTRA-HIGH
TENSILE STEEL

590 MPa

CONVENTIONAL
STEEL

STRONGER AND LIGHTER Ultra high-strength steel is used to help enhance your safety in the case of a collision. The unique process used to create this material can give it more than twice the tensile strength of conventional steel. Not only does this ultra-strong material add to the vehicle’s resiliency, it allows us to make the vehicle lighter overall.

BETTER STABILITY WHILE STOPPING Electronic Brake force Distribution (EBD) adjusts the amount of brake force applied to the front and rear wheels for improved braking performance. It not only helps the brakes wear more evenly, it reduces front-end “dive” during heavy braking, increasing your stability and ability to control the vehicle. The system also detects vehicle-load conditions, and distributes additional brake pressure to the rear brakes as needed.

ALWAYS LOOKING FOR DANGER Intelligent Brake Assist (IBA) with Forward Collision Warning¹ (FCW) uses radar to continuously monitor and analyse your closing speed to the vehicle ahead of you, helping detect an imminent collision. It provides a warning to alert the driver as the vehicle moves towards impact and – if needed – can automatically engage the brakes to help reduce the impact speed.

MAINTAINING YOUR LANE The Lane Departure Prevention System (LDP) uses a camera to watch for departure from the traveling lane when you haven’t signaled, and audibly warns you if it’s detected. Then, if the drift continues, the system lightly applies selected brakes to help ease your vehicle back into the travel lane. But you never give up control. It’s designed to assist, not override.

KEEPING YOU IN CONTROL Comparing actual vehicle cornering performance to the driver’s input, Vehicle Dynamic Control (VDC) adjusts power levels and applies appropriate brake pressure to individual wheels to help correct oversteer or understeer, helping keep the vehicle on the steered path. Working in tandem, the Traction Control System (TCS) senses wheelspin and automatically helps give you a surer foothold.

THE SUPPORT YOU NEED In certain rear-end collisions, the Front-seat Active Head Restraints found on the QX50 can move upward and forward to help cushion the head to help assist in reducing whiplash-type injuries.

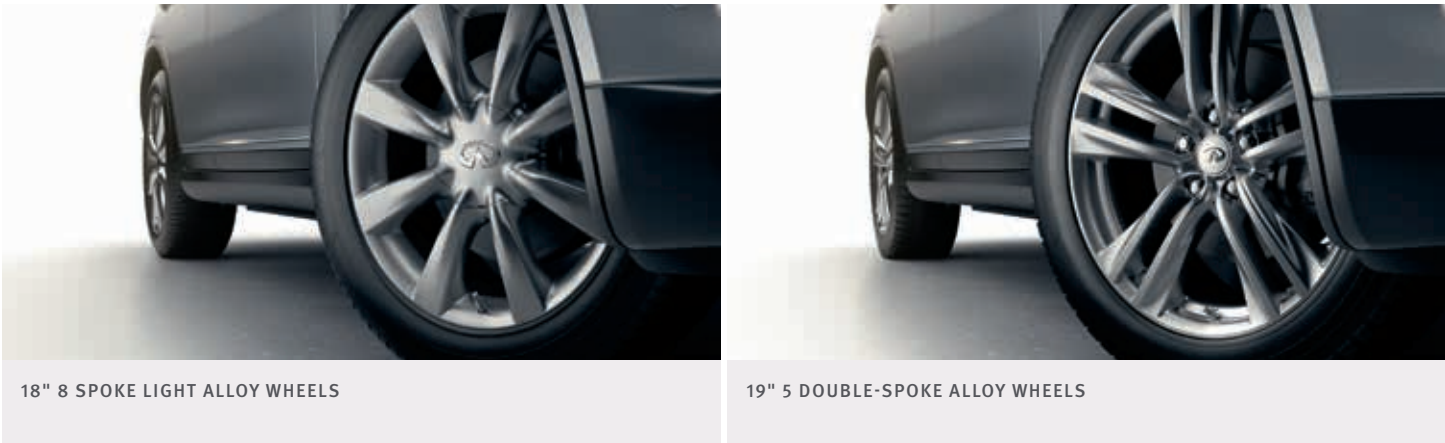

SELECTION

Hues that change in response to light and angle. Matching exterior and interior colours to reflect the distinctive energy and mood of the seasons. These are just two ways Infiniti designs colour to evoke feeling, express character and shape the emotional essence of a vehicle.

This brochure is intended for general descriptive and informational purposes only. It is subject to change and does not constitute an offer, representation or warranty (express or implied) by INFINITI Europe. Before relying on this brochure to make a purchase decision, interested parties should directly contact the Infiniti Centre to confirm the accuracy of any information given herein and how it relates to a specific vehicle. INFINITI Europe reserves the right to make changes, at any time, without prior notice, in prices, colours, materials, equipment, specifications and models and to discontinue models or equipment. Due to continuous product development and other pre- and post-production factors, the actual vehicle, materials and specifications may vary from this brochure. Some vehicles are shown with optional equipment. See the actual vehicle for complete accuracy. Availability and delivery times for particular models or equipment may vary. Specifications, options and accessories may differ in other countries. For additional information on availability, options or accessories, contact your Infiniti Centre.

¹ FCW is intended to warn you before a collision occurs; it cannot prevent a collision. Speed limitations apply. Always drive safely.

² The Blind Spot Warning System (BSW) is not a substitute for proper lane change procedures. The systems will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you.

³ Some Voice Recognition functions are limited depending on the language. Please contact your local Infiniti Centre for further details.

Infiniti has taken care to ensure that the colour swatches presented here are the closest possible representations of actual vehicle colours. Swatches may vary slightly due to the printing process and whether viewed in daylight, fluorescent or incandescent light. Please see the actual colours at your local Infiniti Centre.

Reproduction in whole or part of this brochure without the written permission of INFINITI Europe is forbidden.

GENUINE INFINITI ACCESSORIES

The same exacting standards applied to creating an Infiniti vehicle go into designing and manufacturing Genuine Infiniti Accessories.

With a wide array of quality products designed to integrate seamlessly, you can be assured of a custom fit and finish.

ACCESSORIES SHOWN Crossbars, roofbox and front fascia.

18-INCH SILVER ALLOY WHEELS Wherever you go, there'll be no questions about your sense of style and love of sporty design. 8 twin-spoke 225/55 R 18 alloy wheels.

ENTRY GUARDS Set in a stainless steel panel, these soft "Infiniti" illuminated entry guards give the sill area a sporty and sophisticated look. The kit, supplied in pairs, lights up your entrance and protects the paintwork.

SKI CARRIER These ski carriers make your QX50 the perfect holiday partner. Easy to mount and lock you can transport up to 6 pairs of skis. Available in smaller sizes as well.

TOW BAR Tested to meet the highest demands of safety and functionality, the tow bar allows you to bring your needs wherever you want. It is well integrated in the car's bodywork and if you don't need it, the tow bar can be removed easily.

FRONT FASCIA Accentuates the off-road character of your QX50 and leaves a high-performance effect while driving through the city.

TRUNKLINER Constructed of durable and flexible material, it helps keep your packages and other items from moving around while driving, while also protecting your cargo area from scratches and damage.

PARTNERS IN THE INTENSE

The pulse races. Seconds split. Victories are won and lost. In Formula 1®, technology and human ingenuity are pushed to the limit. Yet, success is ultimately a measure of the passion that goes into every invention and is released every lap. This passion has led Infiniti Red Bull Racing to become, in recent years, the most dominant force on track.

Car shown is RB10/2014. Information and images correct at time of printing.

Infiniti is drawn to Formula 1® racing because it is engineering genius applied purely to creating emotional excitement. A feeling of exhilaration that extends from the track to the fans, to the culture of Formula 1®, through our partner, Infiniti Red Bull Racing. The heart and determination the team has shown has led them to four Formula 1® Constructors’ World Championships in the last five years.

Our synergistic relationship is one that promises thrilling new performance capabilities for both Formula 1® and Infiniti vehicles. This exchange of both technology and ideas includes input directly from our Formula 1® drivers – harnessing their supreme driving senses to ensure every future Infiniti vehicle is as dynamic as possible and ultimately, reinvigorating your drive.

Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion – pure and primal – should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine. Established in 1989, Infiniti's flagship line has now grown to include sedans, coupes, convertibles and crossovers, all available in 49 countries

worldwide. Infiniti has generated respect as the provocateur brand in the premium category, with a reputation for defying and creating irresistible and provocative automobiles, engineered with obsessive attention to detail. Our passion for ultimate precision, exhilarating performance and that exuberant driving experience is also manifested in the partnership that Infiniti established with Red Bull Racing in 2011. All of which contributes to the feeling that to drive an Infiniti is something special.
