

# ALL NEW RX

# AMAZING IN MOTION

Amazing in Motion isn't just an aspiration for Lexus, it's what guides us in every new model we produce. We are constantly exploring the frontiers of new design and the development of new technologies to make cars cleaner, safer and more rewarding to drive. We are committed to giving our customers the finest quality, again and again.

Amazing in Motion is about all those things and more. It's the spirit that makes your Lexus more original and makes us unlike any other car manufacturer.

# THE ALL NEW RX

The new Lexus RX is the fourth generation of the model that originated the concept of a luxury SUV. Delivering all-wheel drive capability, a commanding driving position, exceptional comfort and the finest craftsmanship, the RX is a showcase for ground breaking Lexus hybrid power. The all new RX takes all these great qualities to new heights and delivers even more - incisive styling, unsurpassed refinement and innovative technologies. There is a choice of hybrid and petrol turbo engines, impressive equipment specifications and a host of options to help you make your RX truly individual.

**RX 200t**

Equipped with the new Lexus turbocharged 2.0-litre petrol engine, the RX 200t offers a new dimension in the RX range. Crisp throttle response, strong torque and agile handling are delivered with the option of both front and all-wheel drive.

**RX 450h**

Never has Lexus RX Hybrid represented such an all-round exceptional proposition in terms of performance, spaciousness, safety, comfort and quality. Its hybrid system brings together a 3.5-litre V6 with efficient electric motors to deliver the best of both worlds - more power and even better environmental performance.

**RX 450h F SPORT**

The impact of the new RX's design is given head-turning emphasis in the RX 450h F SPORT, with powerful bodywork treatment and sport-themed cabin styling that broadcast its performance-oriented character. The thrilling looks are complemented by precision handling and high driver rewards, delivered by Adaptive Variable Suspension, specially tuned steering and Sport S+ drive mode.

**RX 200t F SPORT**

F SPORT styling, honed chassis dynamics and turbo engine performance make a perfect match in the RX 200t. Acceleration to 62mph is despatched in less than 10 seconds, while Adaptive Variable Suspension, quicker steering and the Sport S+ drive mode take ride and handling to another level.

**RANGE**

# RX 200t

The RX 200t delivers an exhilarating driving performance with its 2.0-litre turbocharged petrol engine, whether you are enjoying the open road or navigating city-centre streets.

The six-speed electronically controlled automatic transmission offers paddle shift operation (on F SPORT) if you want to enjoy a more involving drive. Lexus Active Torque Control provides intelligent all-wheel drive that constantly assesses the road conditions, and there is the option of a two-wheel (front-wheel) drive if you prefer.

# RX 450h

From its emphatic and individual exterior styling to its application of multiple advanced technologies, the RX 450h is sophisticated and equipped to meet your highest expectations.

It offers impressive spaciousness and flexibility, and its full hybrid system is supremely refined and quiet, delivering power with impressive responsiveness. Its efficient E-Four all-wheel drive system knows just when you need the security of extra grip.

Class-leading emissions and fuel consumption is achieved through its hybrid system's seamless switching between its petrol and electric power sources. Low CO<sub>2</sub> figures translate into significantly lower tax bills for company car drivers with potential annual savings of up to £4,000 compared to the equivalent diesel powered SUV.

# HYBRID

Lexus was the first to introduce hybrid power to the premium car market and with more than a decade's experience it continues to extend its technology leadership to deliver an unprecedented combination of strong performance, fuel efficiency and low emissions. Lexus Hybrid Drive also provides an exceptionally smooth, quiet and refined drive that is a hallmark of all Lexus hybrids.

The advanced quality of the technology lets you adapt the system to focus on performance or efficiency at the turn of the Drive Mode Select control. And, unique to the full hybrid system, you can even switch to all-electric EV driving in slow-moving traffic to run with zero emissions and fuel consumption. Running costs are kept low with lower road and company car tax rates and the technology has a proven track record for long-lasting reliability.

LEXUS

# F SPORT

The F SPORT models have a direct bloodline to Lexus LFA supercar. This influence can be seen in the sports instrumentation and the steering wheel design, while LFA engineers helped develop the car's handling. Adaptive Variable Suspension ensures a sporty yet comfortable ride that automatically adjusts to road conditions and your driving style, and the revised Electric Power Steering delivers even greater response and feedback.

The dramatic external looks, led by a unique rendering of the spindle grille, are matched by a dedicated F SPORT interior. The front seats are constructed using a motorsport-derived technology that guarantees a perfect fit and are upholstered in perforated leather that can be specified in an opulent Dark Rose. The pedals and footrest are rendered in high-grip drilled aluminium.

Lexus has paid special attention to engineering even better handling and performance in the new RX. Comprehensive improvements have been made to the full hybrid powertrain, suspension and body rigidity and a 2.0-litre turbocharged petrol engine has been introduced to the range. Every element underwent many thousands of miles of rigorous testing, both in laboratory simulators and extreme real-world driving conditions to ensure the finest quality and performance are achieved.

**Lexus Hybrid Drive** The RX 450h is powered by a new development of Lexus Hybrid Drive that delivers higher performance yet significantly lower fuel consumption and emissions that extend its impressive environmental efficiency and low tax. The combination of the 3.5-litre V6 Atkinson cycle petrol engine and two high-output electric motors together produce 313 DIN hp yet with CO<sub>2</sub> levels from 120g/km\* and combined cycle fuel economy from 54.3mpg.\*

\*SE grade with 18" wheels.

**Chassis and handling** Greatly increased body rigidity is key to the new RX's improved handling stability and ride comfort, achieved using advanced new welding and bonding technologies and strategic use of high-strength yet lightweight steels. At the same time the suspension and steering have undergone important revisions to provide sharper response and better feedback, while maintaining the comfort and cabin quietness that are hallmarks of all Lexus vehicles.

**Turbocharged Petrol Engine** The turbocharged 2.0-litre four-cylinder petrol engine in the RX 200t is the most recent addition to Lexus range of powerplants. It is engineered to be both efficient and to give rewarding performance, witnessed in its fast throttle response and instantaneous torque delivery throughout the rev range. Advanced valve timing and turbocharger design help secure both power and economy - 238 DIN hp and 350Nm of torque, yet CO<sub>2</sub> emissions from 181g/km\* and 36.2mpg.\*

\*S model with 18" wheels.

## BREAKTHROUGH ENGINEERING

**All-wheel drive systems** The RX 200t is equipped with Lexus Active Torque Control system, which intelligently delivers drive to the front and rear wheels as conditions demand, from 100:0 full front-wheel drive to a 50:50 front-to-rear split. The RX 450h uses Lexus E-Four technology, with an additional electric motor on the rear axle to provide instant drive torque the moment you need extra grip.

**Drive Mode Select** You can tailor the RX's performance to suit your preference and the driving conditions using the Drive Mode Select control on the centre console, with Eco, Normal and Sport S. And, on F SPORT and Premier models, you also have the option of Sport S+ which brings the performance of the Adaptive Variable Suspension into the dynamic mix. According to choice, the engine performance, hybrid system, throttle, air conditioning and suspension are adapted to prioritise fuel economy or a more dynamic and engaging drive.

**Aerodynamics** The RX's distinctive, individual design is also aerodynamically efficient, its wind-cheating shape helping reduce fuel consumption and provide a quieter cabin and smoother ride. The attention to detail includes an almost flat underbody, precise profiling of the door mirrors and strategic use of small but very effective aerodynamic fins around the vehicle.

**Adaptive Variable Suspension** The Adaptive Variable Suspension (standard on F SPORT and Premier models) gives the RX sports saloon-style handling, together with excellent ride comfort and stability. It automatically adjusts the damping force of the shock absorbers at each wheel in line with the quality of road surface and the way the driver is using the throttle and steering.

## BREAKTHROUGH ENGINEERING

# TAKUMI CRAFTSMANSHIP

In a world of computerised design and robotised manufacturing, there is still nothing to rival the human hand and eye when it comes to delivering the finest quality. That's why the Lexus Takumi craftspeople play such an important part in overseeing the production of every car, using their unmatched skills to ensure perfection.

Their meticulous work takes the benchmark for luxury to a higher level in the new Lexus RX. The leather seats are hand-stitched by a team of 17 Takumi to achieve the flawless finish. The deep lustre and unblemished quality of the paintwork are due to the wet sanding by hand of each foundation coat.

Every new RX is equipped with Lexus Safety System +, the new safety and driver assistance features that work together to deliver exceptional help to prevent accidents happening, giving the RX the top five-star Euro NCAP rating.

**Adaptive Cruise Control** Controlled by a radar system mounted on the front of the car Adaptive Cruise Control will keep you a safe distance from the vehicle ahead, smoothly returning the RX to your selected cruising speed once the road is clear.

**Lane Departure Alert/Lane Keep Assist** A camera at the front of the RX monitors lane markings on the road surface. If you begin to drift out of lane, the system will sound a warning and briefly weight the steering to help you return the RX to its correct path.

**Automatic High Beam** Using the same camera as Lane Keep Assist, Automatic High Beam detects oncoming vehicles and traffic ahead, automatically switching the headlights between high and low beam, avoiding the risk of dazzle and maximising illumination when you need it.

**Pre-Crash Safety** The Pre-Crash Safety system constantly monitors the road ahead and calculates the risk of a collision. If it determines an impact is likely, it triggers audible and visual warnings and prepares the brakes to deliver emergency stopping power. If the driver takes no action and an impact is unavoidable, it will automatically apply appropriate braking and tighten the front seatbelts. The Pre-Crash Safety system is also able to pinpoint pedestrians and other hazards in the RX's path and will activate automatic braking to prevent a collision, operating across a wide range of vehicle speeds.

**Traffic Sign Recognition** Traffic Sign Recognition uses the front camera to recognise important command and restriction signs on motorways and major roads. It replicates the information on the multi-information display, reducing the risk of the driver failing to notice them.

## LEXUS SAFETY SYSTEM +

LEXUS SAFETY SYSTEM +

**Built-in strength** The RX has an exceptionally strong and rigid body engineered to absorb, disperse and channel impact forces away from the cabin in the event of an accident. A collapsible steering column, structural reinforcements in key areas, side impact beams and seats designed to protect against whiplash injury all help keep you and your passengers safe.

**Adaptive High-beam System** On Premier grade models the Lexus Safety System + includes an Adaptive High-beam System which automatically adjusts the light distribution of the LED headlights to avoid dazzling other road users, instead of switching to low beam, thus maintaining maximum illumination.

**Ten airbags** All RX models are fitted with 10 airbags. These include dual-stage front airbags that deploy according to the level of impact, driver's knee and front passenger cushion airbags, front and outer rear seat side airbags and full-length curtain airbags.

**Blind Spot Monitor** Rear-mounted radar detects vehicles in adjacent lanes travelling in the driver's blind spot and warns of their presence with a warning light in the door mirror on the appropriate side of the car. Should you indicate to change lane, the light will flash to emphasise the warning. Standard on Premier grade.

**Rear Cross Traffic Alert** The same radar used for the Blind Spot Monitor also provides a Rear Cross Traffic Alert, warning you of vehicles approaching from either side when reversing out of a parking space by sounding a buzzer and activating the lights in the door mirrors. Standard on Premier grade.

## ADVANCED SAFETY

**Panoramic roof** A large panoramic roof floods the cabin with natural light. The front section can be opened to heighten the sense of open-air driving. Optional on Luxury, F SPORT & Premier grades.

**Sunroof/aluminium roof rails** An electric tilt and slide glass sunroof is standard on Premier grade. Smart aluminium roof rails are ideal for carrying large sports and leisure items such as skis, bikes and surfboards. Excluding SE grade.

**Floating roof design** The new RX's rear pillars have a gloss black finish that creates an attractive floating roof effect. It's the first time this styling feature has been used on a Lexus, enhancing the vehicle's elegant profile.

## EXTERIOR FEATURES

**Smart power tailgate** If you are carrying bags there's no need to search for your key fob to open up the boot.\* Instead, you can simply place your hand over the Lexus emblem on the tailgate to operate the mechanism. You don't even have to touch it and you can use your elbow if your hands are full. A sensor recognises the key fob in your pocket or bag and raises the tailgate to your preferred height.

\* Not available on S and SE grades.

## EXTERIOR FEATURES

#### Sequential LED indicators

The RX's sophisticated appearance is enhanced by front and rear LED indicators that light up sequentially. Excluding SE grade.

#### Welcome illumination

Standard on Luxury, F SPORT and Premier grades. As you approach the new RX, the car recognises the key fob in your pocket and bag and welcomes you with gentle illumination of the door handles.

## EXTERIOR FEATURES

**1/ 18" alloy wheels** The RX 200t S and RX 450h SE are fitted with sophisticated 7-spoke alloy wheels as standard.

**2/ Luxury grade wheels** These 20" wheels have slim spokes with contrasting machined-finish surfaces.

**3/ F SPORT grade wheels** The 20" alloy wheels for the F SPORT grades have a 20-spoke design.

**4/ Premier grade wheels** The 20" wheels for the Premier grade models have a 5-spoke design.

**5/ Coloured wheel inserts** Coloured inserts that co-ordinate with the body colour of your new RX can be specified for the Premier grade's 20" alloy wheels, available in black, white or copper brown.

## EXTERIOR FEATURES

**Flexible space** The generously proportioned load space is easy to access and to adapt to your needs, with folding rear seats that include an opening centre section to allow longer items to be stored.

**Leather and wood steering wheel** The Premier grade models provide a luxury steering wheel crafted in wood and leather, with integrated heating.

## INTERIOR FEATURES

**Ambient illumination** LED interior illumination helps create a sophisticated and relaxing ambience in the cabin.

**Console storage** The centre console storage box is spacious and equipped with a light to make finding things easier. There are also handy placed USB ports and AUX socket for connecting your digital equipment.

**Wireless phone charge** You can replenish the battery of compatible smartphones and devices without having to find a cable thanks to a wireless charger, handy located in the centre console. Standard on Luxury, F SPORT and Premier grades.

## INTERIOR FEATURES

**12.3" display screen** A large, 12.3" display screen (provided with the Lexus Premium Navigation) provides impressive presentation of multiple data and control functions, with clear, bright graphics. You can use voice commands or the Remote Touch control for quick and easy control of multiple functions. The display also provides a split-screen function that lets you access both navigation and other vehicle systems simultaneously. Standard on Luxury, F SPORT and Premier grades.

**Multi-information Display** All new RX models provide a 4.2" colour multi-information display in the driver's instrument binnacle. Using TFT (Thin Film Transistor) technology, this presents key information such as navigation directions, safety warnings and hybrid system status.

**Panoramic View Monitor** You gain a bird's eye view of your immediate surroundings with the Panoramic View Monitor, making manoeuvres in tight spaces easy to negotiate. Standard on Premier grades.

**Lexus Connected Services** You can access a wealth of information using Lexus Connected Services, from online providers including Online Search, Google Street View®, Panoramio and Connected Traffic. You can even forward your planned routes from your tablet or laptop direct to your car. Excluding S & SE grades.

## MULTI-MEDIA

**Pioneer audio systems** The new RX range features two new Pioneer audio systems - a 9-speaker arrangement with DAB tuner in the S and SE models and a 12-speaker system with subwoofer and DVD player in Luxury and F SPORT grades.

**Mark Levinson Premium Surround System** Audiophiles will appreciate the 15-speaker Mark Levinson Premium Surround System, with its technically advanced Clari-Fi compressed music restoration technology, standard on the Premier grade.

**Lexus hotspot** The new RX can provide its own WiFi hotspot, allowing connection of your navigation system and up to four other devices simultaneously, including phones, tablets and laptops. Optional on all grades.

**Lexus Navigation** Plan a hassle-free journey using the Lexus Navigation system, which provides full European mapping. This is standard on S and SE grades.

**Lexus Premium Navigation** The superb quality of Lexus' Premium Navigation system includes multiple mapping and route planning options, with voice command or Remote Touch operation. You can even transfer route data to your smartphone to complete the last steps of your journey on foot. Standard on Luxury, F SPORT and Premier grades.

**Colour Head-Up Display** The extra-wide Head-Up Display projects important vehicle data and information onto the base of the windscreen. The largest on the market (240 x 90mm), it uses colour graphics for clear and instant communication. Optional on F SPORT and standard on Premier grades.

## MULTI-MEDIA

The team that developed the Lexus LFA supercar and the RC F high-performance coupé, helped tune the performance of the amazing new RX F SPORT models. The special treatment includes exclusive design features, sports-tuned Adaptive Variable Suspension, highly responsive Electric Power Steering and an additional Sport S+ drive mode that lets you exploit the full potential of the F SPORT dynamic ride, handling and responsiveness capabilities.

**F SPORT design** The RX F SPORT adds powerful, performance-focused elements to the design, taking visual impact to an even higher level. The front of the car makes an immediate statement of intent with the dedicated black mesh spindle grille and deep spoiler, underscored by a satin chrome protector. The black door mirror casings, definitive F SPORT badging and 20" multi-spoke alloy wheels further reinforce the model's special character.

**F SPORT**

**F SPORT instrumentation** The instrument binnacle reflects the performance profile of the F SPORT with a central meter design that's inherited from the LFA supercar. The tachometer and digital speed indicator are presented using TFT (Thin Film Transistor) technology that gives excellent clarity in all light levels. You can monitor an extra performance element on the multi-information display with a new G-sensor that records the lateral and longitudinal forces created as you drive. The screen can also show the steering angle, throttle position and hydraulic brake pressure.

**Aluminium F SPORT pedals and scuff plates** The motorsport-style pedals and footrest have drilled aluminium surfaces to give reassuring grip. The front sills have brushed aluminium-effect scuff plates, inscribed with the Lexus logo.

**F SPORT interior** The RX F SPORT models are available with a rich Dark Rose perforated leather upholstery, combined with a black roof lining. The F SPORT seats are designed to offer superior lateral support under hard cornering. The special quality of the cabin is also enhanced by aluminium inlays and a sports steering wheel - another feature inspired by the LFA supercar.

**F SPORT wheels** The 20" alloy wheels are unique to the F SPORT, with a multi-spoke design and dark metallic finish that create a powerful look.

\* The fuel consumption and CO<sub>2</sub> values are measured in a controlled environment, in accordance with the requirements of Directive 80/1268/EEC incl. its amendments, on a vehicle with European Standard equipment. For further information, or if you are interested in purchasing a vehicle with European Standard equipment, please contact your Lexus Authorised Importer.

The fuel consumption and CO<sub>2</sub> values of your vehicle may vary from those declared. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, tyre pressure, installed equipment, load, number of passengers, etc.) play a role in determining a car's fuel consumption and CO<sub>2</sub> emissions.

Please note: the information presented is based on manufacturer's preliminary data, which is subject to change without notice. Please consult your local Lexus Authorised Retailer and/or [www.lexus.eu](http://www.lexus.eu) for further information updates.

## TECHNICAL DATA

Please note: the dimensions illustrated / noted are measured in millimetres.

## ACTIVE SAFETY AND DRIVING DYNAMICS

- Active brake lights
- Vehicle Dynamics Integrated Management (VDIM)
- Braking, stability, steering and traction systems<sup>1</sup>
  - ABS / BAS / EBD / ECB (RX 450h) / EPB / EPS / TRC / VSC
- EV (Electric Vehicle) mode (RX450h)
- Hill-start Assist Control (HAC)
- Lexus Safety System +
  - Adaptive Cruise Control (ACC)
  - Lane Keeping Assist (LKA)
  - Pre-Crash Safety (PCS) system
  - Traffic Signal Recognition (TSR)
- Tyre Pressure Warning System (TPWS)
- Automatic High Beam

## PASSIVE SAFETY

- 10 airbags in total
  - driver and front passenger; head and side
  - driver knee
  - front passenger cushion
  - outer rear seats, side
  - cabin sides; full-length curtain shield
- Airbag cut-off switch, front passenger
- Audible and visual seatbelts reminder, front and rear
- ISOFIX attachment, outer rear seats
- Seatbelt pre-tensioners, front and rear outer seats
- Whiplash Injury Lessening (WIL) front seats with active headrests

## EXTERIOR

- Door mirrors
  - electrically adjustable, folding and heated
- Light Emitting Diode (LED)
  - daytime running lights
  - fog lights, front and rear
  - rear combination lights
- Smart entry system
- Ultra Violet (UV) and heat insulating tinted glass

## SECURITY

- Anti-theft system
  - immobiliser / intrusion sensor / siren
- Auto door locking
- Double door lock

## AUDIO, COMMUNICATION AND INFORMATION

- 8" Multimedia display (S & SE grade) - rotary dial
- 12.3" Multimedia display
- Remote touch interface
- 4.2" colour TFT multi-information display
- Analogue clock with LED illumination
- Back guide monitor
- Eco driving indicator
- Power meter (RX 450h)
- Steering wheel mounted controls
  - audio / display / voice / phone / ACC / LKA / Paddles on F SPORT

## INTERIOR COMFORT AND CONVENIENCE

- Electronic climate control
  - 2-zone
- Front centre armrest with storage box and 2 cup holders (front holder is height adjustable)
- Privacy glass (rear side, back)
- Push start button
- Rain sensing wipers
- Rear-view mirror, electro chromatic (auto-dimming)
- Rear seat bench, 40:20:40 split-folding (manual operation)

## FEATURES AND OPTIONS

**SUV Pack**

A choice of two SUV Packs, which each give your RX a slightly different style.

**SUV Pack with Side Underrun**

A stylish silver front skirt, which integrates with the RX's front bumper to give your RX enhanced 4x4 styling combined with a silver side underrun to finish the look.

**SUV Pack with Side Step** A different look is achieved by combining the silver front underrun with a side step to give your RX a very different look. For all grades except F Sport.

**OPTION PACKS****Style Packs**

The Style Packs include the items from the SUV Pack and add some further styling enhancements to make your RX truly personal.

**Chrome side sill** Carefully designed to integrate with the contours of your car. The garnish adds a stylish visual highlight along the lower door panels.

**Rear chrome trim** The rear chrome trim makes a statement by highlighting your car's strong rear-end design.

**Illuminated scuff plate** Genuine scuff plates for the door sills create an immediate impression of style while also serving a very practical purpose of protecting the sill paintwork from dirty marks, scrapes and scratches. (Petrol engines come with white illumination, Hybrid engines with blue illumination.) For all grades except F Sport and Premier.

**OPTION PACKS**

**Protection Pack**

A comprehensive set of Lexus accessories to maintain your Lexus in pristine condition:

Horizontal Cargo Net  
Front & Rear Set Mudflap  
Rubber Floor Mats  
Trunk Liner  
Rear Bumper Protection Plate (plastic)

**Towing Pack**

Lexus towbars are designed to fully integrate with your RX and are extensively tested to meet the most stringent performance and safety requirements. Available to order for your new RX with either 7-pin or 13-pin wiring.

**OPTION PACKS****Entertainment Packs**

A series of Entertainment Packs are available to keep your rear seat passengers entertained. Building from two powered docks, which are integrated into the driver's and passenger's seats. Choose your initial pack configuration, and thereafter further DVD players and iPad holders can be added to your system.

**DVD Players** The DVD has a 7" screen, with a child-friendly top loading disc slot, stereo sound via headphones and a remote control. Systems can be configured with a single or twin 'master' DVD player(s), that can both play their own content, or in a 'Master plus Slave' configuration where the same content is played on both screens.

**iPad® Holders** Provides a stable location for securing an iPad, whilst also providing power via a USB cable (not included). Please check iPad compatibility before ordering.

**Headphones** Infrared stereo headphones with independent controls so the volume can be set to a child-friendly level. For battery saving, they automatically shut down when no signal has been received for a period of time. Included as standard in all kits with a DVD player.

**iPad Air® adapter** This iPad Air adapter slots into the iPad Holder to convert it into a holder for an iPad Air. Included as standard in all kits with a iPad Holder. Fits iPad Air and iPad Air 2. iPad® is a trademark of Apple Inc., registered in the U.S. and other countries.

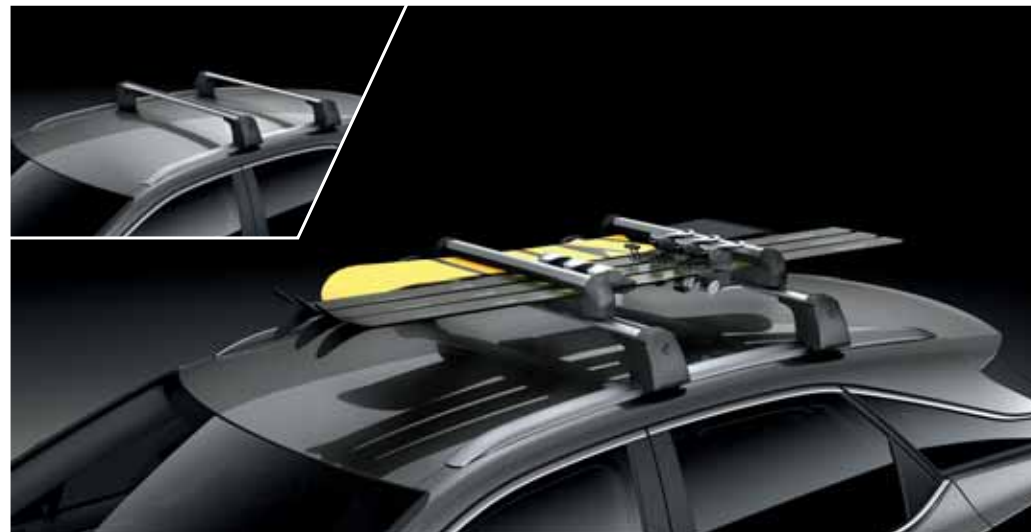

**OPTION PACKS**

**Rear foldable bicycle holder** A lightweight, high strength lockable design for carrying up to 2 bicycles. Includes an integral lights and licence plate holder with 13 pin socket. Also requires tow bar (available separately).

**Roof-top bicycle holder** This lockable, lightweight holder has special grips to secure both the bicycle wheels and the frame. Conveniently, the frame grip can be adjusted at roof height.

## ACCESSORIES

**Cross bars** For use with your car's pre-fitted roof rails. The cross bars lock onto the rails and form a secure base for carrying a wide range of specialised attachments.

**Ski and snowboard holder** Lockable holder with a soft inner grip to secure skis or snowboards without damaging them. Attaches to your car's cross bars and will hold six pairs of skis or four snowboards.

**Luggage box** A high capacity aerodynamic design that's ideal for holidays. It opens from both sides, has multi-point central locking and is finished in titan colour with an 'aeroskin' textured lid.

**Lexus Hotspot** Lexus Hotspot gives you internet access and effectively turns your car into a mobile hotspot. The Hotspot connects up to five WiFi capable devices including laptops, tablets, smartphones, iPads, iPhones and game systems and also enables in-car interaction between them. Importantly, the Hotspot is wired into your car electrical system to ensure constant power supply.

Visit [www.lexus.eu](http://www.lexus.eu) or pick up a brochure at your local Lexus Authorised Retailer for details of the full accessories range.

## ACCESSORIES

**Dog guard** The durable mesh design adds to safety by preventing stacked luggage tumbling into the passenger area and is also perfect as a dog guard to stop your pet climbing over the back seats.

**Dog guard divider** The ideal accessory to fit if your car is equipped with a dog guard and you regularly carry your dogs and want to separate them from each other or from other items in your boot.

**Boot liner** Tailored to fit the trunk of your vehicle and provide protection against dirt and spills. The design features a special anti-slip surface pattern to help stop luggage moving, as well as a smart and foldable partition system that will help keep your boot organised.

## ACCESSORIES

**Side mouldings** Reliable protection for the side panels against minor scrapes and damage. Available in black or can be painted in a colour to match your car.

**Rear bumper protection plate, black** Made of a rugged black composite material to provide durable protection for the rear bumper paintwork when loading and unloading the rear luggage space.

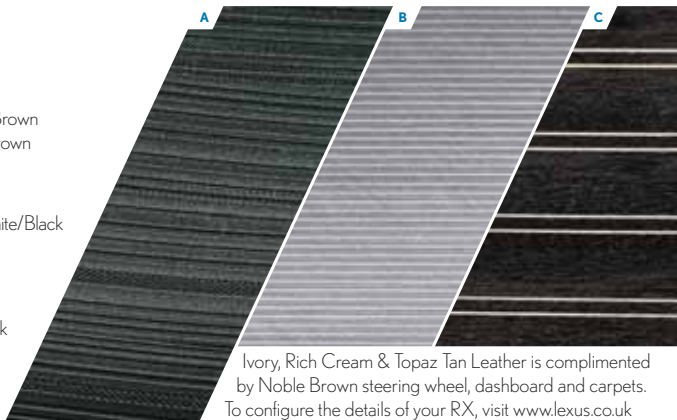

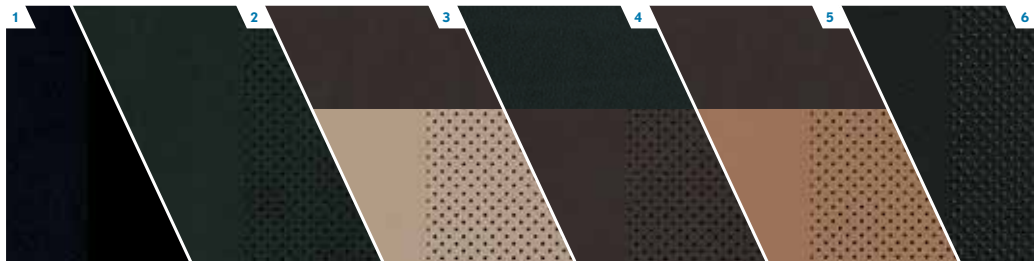

**Rear bumper protection plate, stainless steel** Combining style and strength - and made of polished stainless steel - the plate has a wrap-over edge to protect the rear bumper when loading and unloading the boot.

**Door edge protector** Protects vertical door edges against impact that might cause a damage to the metal or paintwork of your car's door. At the same time it is modelled to integrate into the door design so as to be hardly noticeable.

**Mud flaps** Lexus mud flaps are especially shaped to fit the wheel arches of your vehicle. They help to maintain the vehicle exterior by protecting against excessive dirt, mud spray and flying stone chips.

## INFORMATION CONTAINED IN THIS BROCHURE

We hope to have illustrated in these pages that Lexus creates vehicles of refinement, innovation and style. But only behind the wheel of one of our models can you truly experience the pleasure, performance and seamless anticipation of your needs as a driver at first hand. Simply consult your local Lexus Centre to arrange a test drive.

To find out more about Lexus vehicles or to simply locate your local Lexus Centre, please visit our website [www.lexus.co.uk](http://www.lexus.co.uk) or call 0845 278 8888 (calls cost 2p per minute plus your phone company's access charge.)

### Accuracy and Specification

All information contained in this brochure was correct at the time of going to print. Please note that while every effort is made to reproduce accurate information, we reserve the right to change specification, equipment and availability without prior notice. Images shown in this brochure may not be of UK models (for example, they may show left-hand drive vehicles) and may illustrate equipment that is only available on selected grades. Therefore, this brochure cannot be regarded as infallible and, as such, does not constitute an offer for sale of any particular vehicle shown.

### Fuel Consumption and emissions data

All miles per gallon (MPG), miles per hour (MPH) and CO<sub>2</sub> figures quoted in this brochure are sourced from official EU-regulated test results. These are provided for comparability purposes only and may not reflect your actual driving experience. Fuel consumption and emissions vary considerably depending upon driving style, conditions, vehicle load and speed.

In order to allow consumers to compare and make an informed choice between one vehicle and another, there is a European Commission standard (93/116/EC and 692/2008) to measure fuel consumption. This common standard must be adhered

to by all manufacturers selling motor vehicles in the EU and is the basis for all published fuel consumption figures. For information on how fuel consumption tests are performed, please visit: [www.dft.gov.uk/vca/fcb/faqs-fuel-consumption.asp](http://www.dft.gov.uk/vca/fcb/faqs-fuel-consumption.asp)

Please note that any references to "zero emissions" contained in this brochure refer to the vehicle running in Electric Mode only. This is measurable at the point of driving only and reliant upon speed, distance covered and driving conditions.

### Safe driving

Lexus is committed to promoting safe and responsible driving at all time. None of the images contained in this brochure should be taken to promote any unsafe driving practice. All sound, entertainment and navigation accessories that may be included in our vehicles should always be used alongside legal and attentive driving. Additionally, any driver assistance and other safety features included in our vehicles are not designed to substitute safe and careful driving.

### End-of-life vehicles

Taking care of the environment is a priority for Lexus. We strive to minimise the environmental impact of our vehicles throughout their life cycle – from design, production, distribution, sales and service to end-of-life. For more detailed information on environmental performance please visit [www.lexus.co.uk/environment](http://www.lexus.co.uk/environment).

### About Lexus

Lexus is a division of Toyota (GB) PLC registered in England & Wales with company number 0916634 with its registered office at Great Burgh, Burgh Heath, Epsom, Surrey KT18 5UX.
