MITSUBISHI MOTORS

Drive your Ambition

INTRODUCING
THE NEW
PACK LEADER

The Mitsubishi L200 has long been leader of the pickup pack. For decades it has set the standards to which others can only aspire, collecting every major accolade, often multiple times. And now, to celebrate 40 years of pickup production, Mitsubishi brings to you the very best truck of them all: the brand new Series 6.

Of course, when you need to rely on your truck for work as well as play, reliability is as important as performance, and Mitsubishi enjoys an unrivalled reputation amongst L200 customers, with many coming back again, and again, and again.

READY FOR ANY ADVENTURE

Once upon a time, Mitsubishi revolutionised the pickup truck. They designed one specifically for our twisting and crowded European roads. They ensured that it combined a tough disposition and genuine packhorse load-lugging capacity with more doors, seats and a pleasant drive. And they added a level of sophistication only previously associated with upper end saloons.

So now you can run your pick-up to the building site, the beach, or the bistro, all thanks to Mitsubishi. And, whilst others still play catch up almost two decades later, both press and purchasers agree that the pickup most at home there is the Mitsubishi L200.

Right now, nearly one in every three pickups bought in the UK is a Mitsubishi. That's because the L200 is simply perfect for our roads.

It is neat and nimble, grippy and keen into the bends, with the tightest turning circle of any truck and an even smoother, quieter ride than its predecessor, despite the heavy duty suspension required for its day job.

It boasts a refined and efficient WLTP-compliant Auto Stop & Go engine, hooked up to a six-speed gearbox. And, even after all these years, the high end models* are extraordinary, allowing you to opt for either two or four-wheel drive on any roads, and to shift on-the-fly at will. Courtesy of Mitsubishi's renowned Super Select system, this provides the choice of better grip when you need it and better economy when you don't, backed by Trailer Stability Assist, makes these the perfect pickups for towing with.

But pickups are about packing, as well as pulling, and the L200's packhorse legendary capabilities are now even greater than ever before, with total load capacities ranging from 3960kg to 4125kg, depending upon the model.

*Available only on Trojan, Warrior and Barbarian models.
**3.5t towing capacity is possible with 3 axle braked trailer; 3.1t towing capacity is possible with 1 or 2 axle braked trailer; 0.75t towing capacity is possible

3.5 TONNES
TOWING CAPACITY**

THE MASTER OF ALL TERRAIN

Off-road, Mitsubishi has long provided the masterclass. Highly manoeuvrable, with a relatively light chassis and highly regarded 4WD systems, traction is simply never in question. Indeed, the L200 is spider-like over the steepest terrain, climbing seemingly impossible angles with ease.

This admirable ability when the going gets tough has been honed in some of the most arduous conditions on earth and, at heart, it is down to two iconic drivetrains. The Easy Select system, in operation on 4Life models, features 2WD for tarmac, two 4WD modes and a rear differential lock, ensuring traction even on sand, mud or rocky surfaces; on all other models the Super Select system automatically locks the centre differential when in the off-road modes. On Barbarian models, these locked settings are now further enhanced by an off-road mode selection option to optimise engine output, transmission and braking in various conditions - gravel, mud/snow, sand or rock - and are complimented by the newly introduced Hill Descent Control. And on the Barbarian X a 360° camera system provides a bird's eye view, helping to spot the safest path from the comfort of your cab.

Maximising space has always been a Mitsubishi strong point and, despite its relatively compact size, the L200's cabin provides better legroom than any other cab in the class. The seats are better too. Drivers find their position car-like, sitting down snuggly instead of in the traditional pick-up perch. Double Cab rear seat passengers are cosseted with a 25° reclined seat-back and great headroom, making this their pick of the pick-ups too. And everyone benefits from the excellent sound insulation: combined with the naturally quiet engine, this latest L200 cruises noticeably more quietly than its peers.

DESIGNED
TO OPTIMISE
YOUR LIFE

A GREAT SPACE FOR YOUR LIFE

You might choose the L200 for its ride alone; but then again, you might pick it for its class. That's because it exhibits the perfect balance between practical, durable materials and 'carlike' refinement. And, depending upon the model, the L200's list of standard kit reads more like that of a top-end saloon: central locking with keyless entry, electric windows to both front and rear, electric heated door mirrors for optimum vision whatever the weather, leather heated seats and dual zone climate control air conditioning. There is enormous attention to detail too: privacy glass, rain and dusk sensors, a Bluetooth®** hands free 'phone connection and a good sound system with steering wheel remote control.

*Specifications vary by model – please refer to pages 28-30 for full details.

** Please note that Mitsubishi cannot guarantee compatibility with all mobile phones and Bluetooth devices with the handsfree system fitted to this vehicle. Please check with the mobile phone manufacturer for further information on compatibility.

In 40 years of production the L200 has frequently set the benchmark,and never more so than in matters of safety. It was the very first pickup to feature a traction control system, an active safety feature that works alongside innovations like ABS with EBD (which adjusts the level of braking power applied between the front and rear wheels, depending upon the load), Brake Assist, and the Emergency Stop signal System which automatically alerts other drivers to a hazardous situation.

Now, L200 features like the Lane Departure Warning system, Forward Collision Mitigation (which warns of an imminent collision), Blind Spot Warning (a real boon for motorway driving), Rear Cross Traffic Alert (equally as useful when reversing) and the clever Ultrasonic mis-acceleration Mitigation System are the new yardstick in pickup world. Mitsubishi's L200 Series 6 may not be the biggest truck around. And it is certainly not the most expensive. But its high specification, solid build quality, and exceptional allround performance make it the measure by which others will always be judged.

MITSUBISHI AFTERSALES CARE

With a new Mitsubishi, you not only get a safe and reliable vehicle that is a real pleasure to drive, you also become part of the Mitsubishi family. And as our nearest and dearest, we want you to feel protected should you ever encounter a problem – that's why we have me&my, Which encompasses a wide range of benefits:

- A comprehensive **five-year, 62,500-mile warranty** (please ask your Authorised Mitsubishi Dealer for full details)

- The **Mitsubishi Assistance Package (MAP)**, which provides the reassurance of roadside or home breakdown assistance for the first three years following registration. It includes vehicle recovery following a breakdown or accident, help if your vehicle is stolen or vandalised, and even if you should accidentally fill up with the wrong fuel. 24/7 cover extends to over 30 countries throughout Europe. So wherever you are and whatever you're doing, if the unexpected does happen help is always at hand.

- In the unfortunate event of an accident we have **Mitsubishi First** – our customer support service for all Mitsubishi drivers. No matter which insurer you use, Mitsubishi First smooths your progress through an insurance claim, handling everything on your behalf – and all at absolutely no cost to you.

And once you're part of the family... it's service with a smile.

A **Mitsubishi Service Plan**, purchased at the same time as your vehicle, covers the first three scheduled services for a modest sum. It can be included in your vehicle's finance and transferred to a new owner if you sell.

Mitsubishi Motors also offer superior insurance cover at a competitive price which is specifically designed for Mitsubishi vehicles and uses only genuine parts and approved repair centres.
