PROJECT SWARM

Introducing the one-off Project Swarm, part Mitsubishi L200, part Top Gear Magazine project truck and here to show the world how it's really done.

The story begins with an L200 Warrior Double Cab, in Electric Blue. Heavily modified by Tom Ford, a leading motoring journalist at Top Gear Magazine, this car is now virtually unrecognisable from its original state, and is set to be put through its paces on the world's biggest sand dune (which is higher than The Shard!) later this year.

Project Swarm has inspired us to come up with our own version, the L200 Barbarian SVP (Special Vehicle Projects).

This model has been specifically built from the ground up, giving it a rugged new appearance with 17" bespoke black alloy wheels and BF Goodrich off-road tyres, aggressive oversized wheel arches, black detailing, special seat trims with embroidered Limited Edition vehicle number and a tailgate SVP badge. With only 250 available visit your Mitsubishi dealer without delay and get set for your own big adventure...
