INTELLIGENT MOTION

OUTLANDER

THE WELL ROUNDED ALL-ROUNDER

“A great car that does everything
you need from a family MPV” DR, Glos.

THE ALL-ROUND GOOD GUY

Spacious, well-made and versatile; capable, comfortable and consistent; durable and honest; the Mitsubishi Outlander Diesel is the great all-rounder in its class.

Never shouting, never showy, this is a car for people who need their car to do a job, not just to make a statement. It is a modern SUV, designed for modern-thinking folk, so it also does its job with respect. It is an SUV which can seat up to seven people (all in properly padded seats with plenty of leg-room) or swallow a couple of mountain bikes whole, yet it won't take over your garage or dominate your drive since its footprint is smaller than that of most family estates.

It is comfortable and capable, and it provides all the high-vantage, big car protection you could ask for, yet it does so in such a way as to minimise injury to pedestrians or damage to vehicles lighter than itself. It offers loads of cutting-edge technologies which make driving safer and easier, and a whole host of luxuries which make it far more pleasurable. And its styling is refined: mature and tasteful, with just enough attitude to give it presence. In all, it's the crossover car you can rely on to do exactly what you want, when you want, day after day after day.

INTELLIGENT MOTION FROM THE CLEVER CAR COMPANY

Those in-the-know have long recognised Mitsubishi to be the clever car company. Over the years we have been quietly innovative in terms of automotive engineering: our name is synonymous with both road-hugging and terrain-taming four-wheel drive technology; we're known for our intelligent use of space (it's not widely known but we were the very first manufacturer to introduce a layout now known as the MPV and we pioneered the concept of tall cars with a small footprint); and we've approached the hybrid concept from a totally different angle, resulting in a vehicle which has revolutionised EV sales in every country where it is available.

“Some of the technology here is genuinely forward-thinking, not only for Crossovers of this kind, but also for family cars... This car also feels a good deal more suited to light off-roading than the Crossover competition” RAC

This Mitsubishi ingenuity is personified in the Outlander. For starters, this is no MPV in racy clothing since every single Outlander benefits from Mitsubishi's electronically controlled four-wheel drive. This AWC (All Wheel Control) system offers three selectable four-wheel drive modes, and is an 'on demand' system, which means that the car automatically calculates the optimum amount of torque required at each wheel, depending upon driving conditions. So, in 4WD ECO the Outlander operates in front wheel drive for fuel-efficient driving but, if the system detects a deterioration in road conditions, torque is automatically allocated to the rear wheels to help maintain safe progress. For improved traction on slippery road surfaces 4WD AUTO controls the distribution of power to all four wheels, as well as enhancing stability whilst towing under all road conditions. To cope with more challenging off-road terrain such as mud, sand or wet grass, 4WD LOCK increases the amount of torque sent to the rear wheels to ensure maximum traction. As you'd expect from a Mitsubishi, this is an SUV with a four-wheel drive system man enough to actually take you off the road.

A PLEASANT WAY TO GET FROM A TO B

In the Outlander, comfort is the name of the game. It is refined and relaxing for driver and passengers alike, with little noise from engine, road or wind whatever your speed. Handling is predictable, thanks to a wide track and a chassis designed for accuracy, whilst its suspension is forgiving over bumpy roads and provides a notably polished ride; steering is light and there's always plenty of grip and traction, even in two-wheel drive.

The 6-speed manual transmission is fine and precise, and the automatic equally impressive, with steering column-mounted shift paddles providing a manual option for when the mood takes.

A 2.2 litre engine delivers decent punch (150 PS and plenty of torque to hustle along when you feel the desire to put pedal to metal) with a frugal and clean running nature: manual models with their Auto Stop & Go function deliver over 53 mpg and automatics in excess of 48 mpg. Furthermore, an Eco Drive Support System helps to maximise environmentally responsible driving pleasure at the flick of a switch, instigating energy saving controls for the engine (where it prohibits excessive acceleration), air conditioning and four-wheel drive systems (by only utilising 4WD when the wheels slip).

53 MPG
AND CO₂ EMISSIONS AT 139 G/KM

"A good go-anywhere family car." RS, Durham

AND A VERY SAFE PAIR OF HANDS

Awarded the full five stars in Euro NCAP crash tests, the Outlander is undeniably a safe pair of hands. It features a stability and traction control system which identifies and corrects any oversteer or understeer caused by overly ambitious acceleration, as well as particularly clever brakes which include ABS with EBD (adjusts the loading on each individual wheel to accommodate the location of weight), power assisted emergency braking, and an Emergency Stop signal System which automatically engages the hazard warning lights.

But, should the worst happen, the Outlander has been designed and engineered to meet the most stringent safety requirements

whilst improving pedestrian protection, minimising damage to lighter vehicles and reducing repair costs in the event of low-speed impacts – a tall order which has been met by a variety of structural measures. For example, a particularly high proportion of high-tensile steel is used to increase body strength whilst keeping the weight down, and energy absorption is optimised with a reinforced girdle body construction which, in combination with additional underfloor reinforcement measures, is so effective in dispersing impact energy that Outlander occupants are protected whilst damage to a smaller car is reduced. Further occupant protection is provided by no fewer than seven airbags.

A SETTING FOR CALM AND RELAXATION

Mitsubishi vehicles have always been built for durability, with a typically Japanese emphasis on the use of long-term quality materials, but there is no denying that each year the Outlander's interior becomes a little more European: surfaces are ever more tactile and gloss black styling accents look truly sophisticated. It's quiet too, thanks to the extensive measures to reduce noise and vibration, and the attention to detail is typical of Mitsubishi: wipers automatically adapt to your speed and door mirrors are heated for clear vision on damp mornings, as well as being linked to the central door locking system to automatically fold neatly out of harm's way when parked.

“The cabin is kept simple, but of a near premium quality with dashings of black gloss and carbon fibre-esque matt aluminium inserts making it look smart.” Motoring

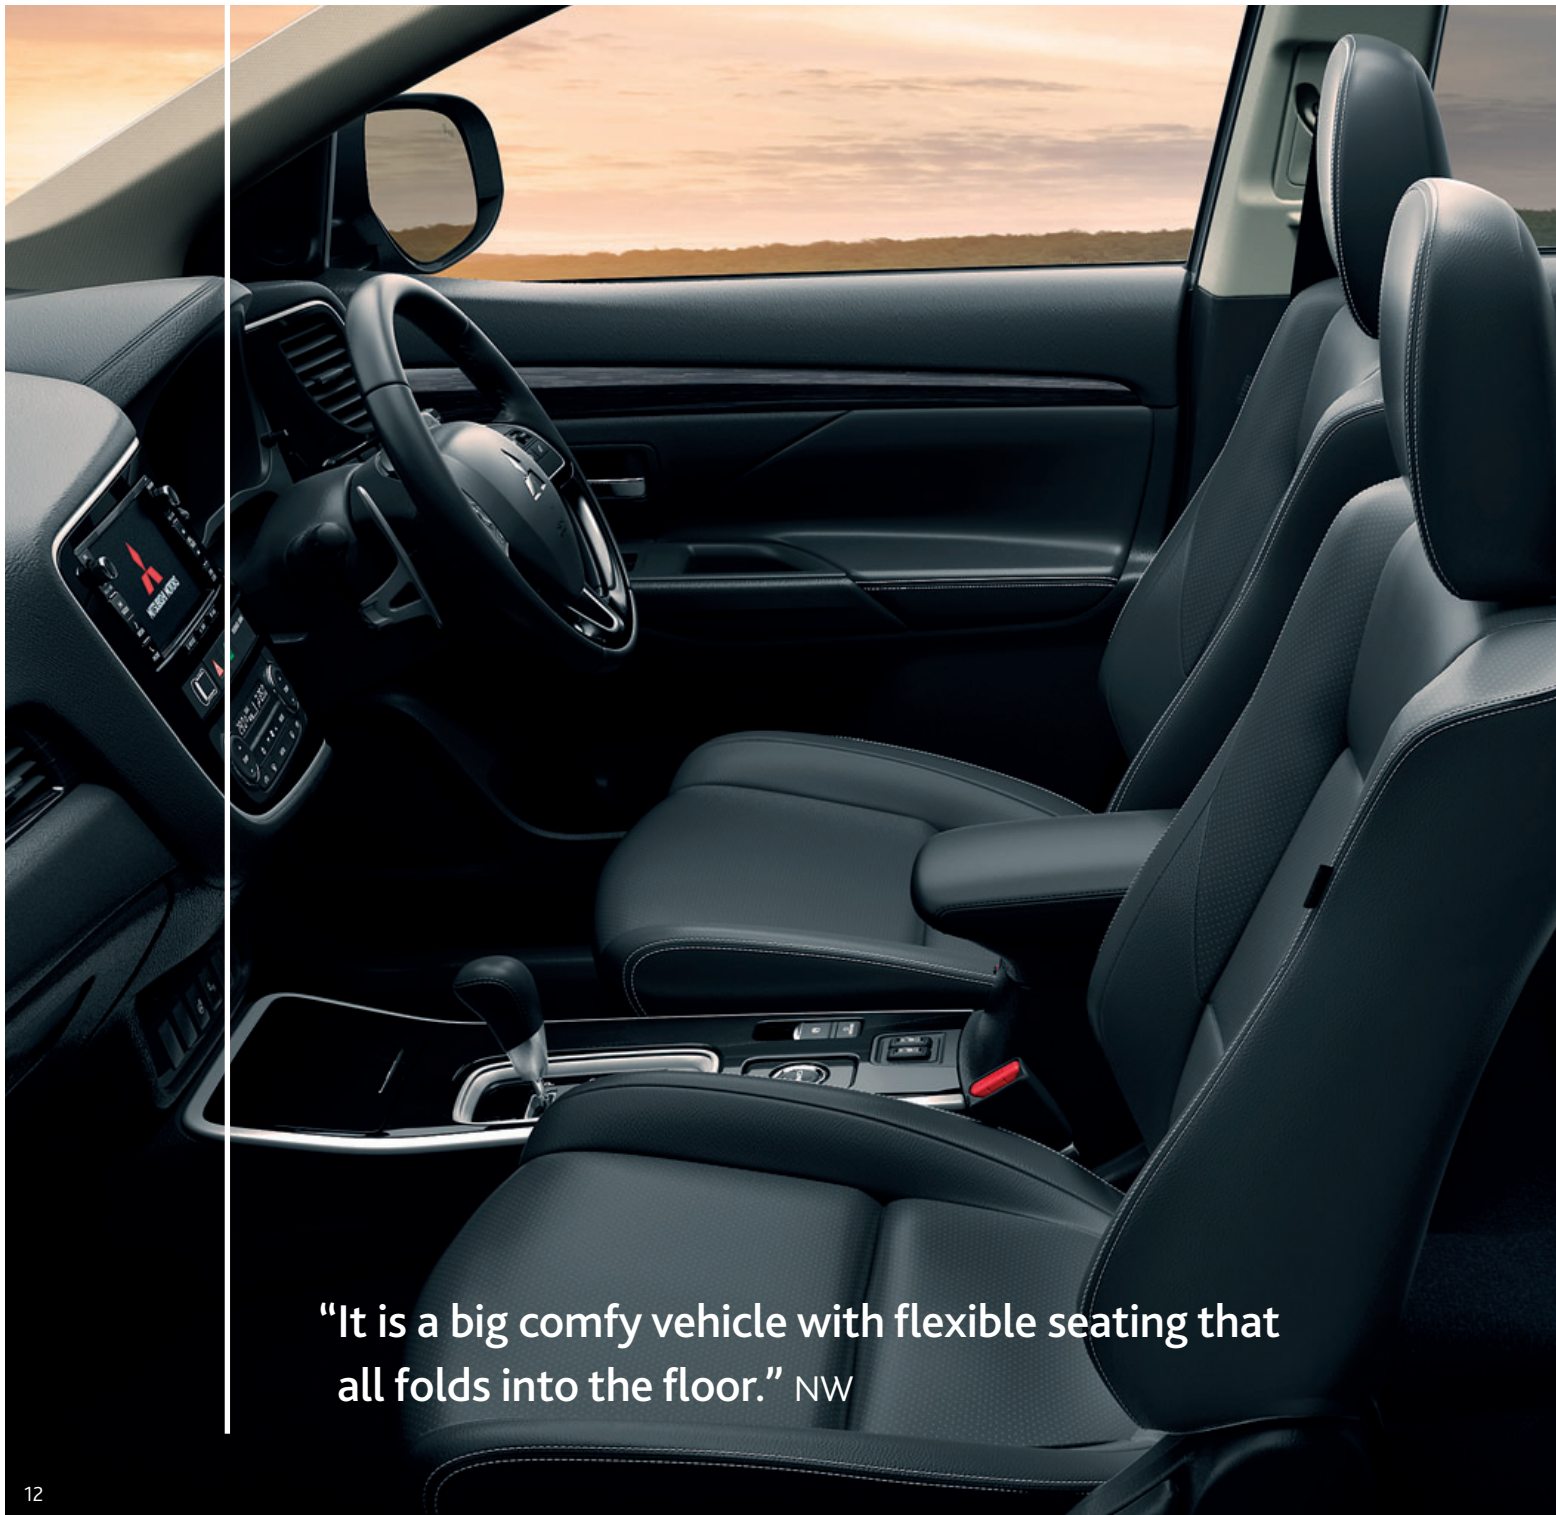

Of course, it's the luxuries which make travelling a genuine pleasure: heated seats you might expect, but it's the heated steering wheel which is a real joy on chilly days. Dual zone climate control air conditioning is standard on all models, the multi-function navigation system and DAB tuner are state-of-the-art, and the controls for Bluetooth® and audio are mounted on the steering wheel for safety.*

*Specifications vary by model – please refer to pages 20- 24 for full details.

BEST SEATS ALL ROUND

Size matters, of course, but probably the Outlander's most appealing aspect is its incredible versatility. The front row of seats are perfectly set at hip height for easy access, whilst the second row recline for greater comfort, slide backwards and forwards a full 25cms* to benefit people or parcels at will, split 60:40 and fold-and-tumble forwards. Finally, the third row* of seats are designed to disappear individually into the floor, simply and swiftly, to leave a vast and completely flat loading area. Of course, that elevated seating position gives a panoramic view, and everyone gets to enjoy it with progressively higher seat squabs the further back you sit. In an Outlander everyone is equal – they all get the best seats in the house.

*Not Outlander 2

“It is a big comfy vehicle with flexible seating that all folds into the floor.” NW

THIRD ROW SEATS

Seat cushions use pads and springs to support passengers and realise outstanding riding comfort. Further improvement in comfort has been achieved through a reclining mechanism that enables the seatback angle to be adjusted.

POWER TAILGATE (OUTLANDER 4)

Operation can also be performed from the driver's seat by using a switch, so the tailgate can be conveniently opened and closed without exiting the vehicle.

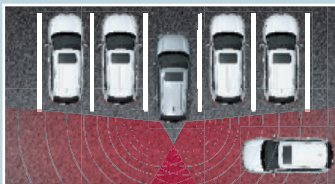

“Owners will be pleased by the strong residuals.” Autocar

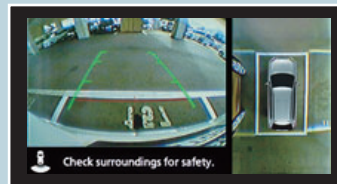

BLIND SPOT WARNING SYSTEM (BSW)

REAR CROSS TRAFFIC ALERT (RCTA)

360-DEGREE CAMERA (OUTLANDER 4 AUTOMATIC ONLY)

SO MUCH BETTER FOR THE LONG HAUL

Strong, safe, reliable (it's what Mitsubishi are renowned for, after all) and a real pleasure to drive: life with an Outlander is, quite simply, so much better. Furthermore, the car is packed with those little touches which you'll soon come to wonder how you ever lived without, like privacy glass, LED headlamps which turn themselves on at dusk, and a rain-sensing windscreen which automatically engages the wipers. There are also a whole heap of parking and manoeuvring aids ranging from a simple hill start assistance to complex radar and

360° camera features to aid overtaking, lane changing and reversing, and even an adjustable speed limiter to help stop you getting carried away*.

Dependable, sturdy, cost-effective to run; practical, comfortable and a warrior at heart: there's no denying that the Mitsubishi Outlander will bring a smile to your face, day, after day, after day.

*Specifications vary by model – please refer to pages 20-24 for full details.

me & my MITSUBISHI

When you buy a new Mitsubishi, you not only get a safe and reliable vehicle that is a real pleasure to drive, you also become part of the Mitsubishi family. And as our nearest and dearest, we want you to feel protected should you ever encounter a problem – that's why we have me&my.

All new Outlanders are provided with a comprehensive **five-year, 62,500-mile warranty** and **12-year anti-corrosion, perforation warranty**. Please ask your Authorised Mitsubishi Dealer for full details.

With the **Mitsubishi Assistance Package (MAP)** we go the extra mile. For the first three years following registration our assistance programme is there to help should you breakdown at the roadside or at home. It provides vehicle recovery following a breakdown or accident and help if your vehicle is stolen or vandalised and, if you should accidentally fill up with the wrong fuel, don't worry – we'll be there for you then too. What's more, you're covered 24/7 in over 30 countries throughout Europe. So whether you're on the daily school run or cruising through the Alps on your holidays, it's comforting to know that if the unexpected does happen, help is always at hand.

And should you be unlucky enough to have an accident we have **Mitsubishi First** – our customer support service for all Mitsubishi drivers following an accident. No matter which insurer you use, Mitsubishi First smooths your progress through an insurance claim, handling everything on your behalf – no hassle, no claim forms, no running about, and absolutely no cost to you.

And once you're part of the family... it's service with a smile.

A **Mitsubishi Service Plan**, purchased at the same time as your Outlander, covers the first three scheduled services for a modest sum. It can be included in your vehicle's finance and transferred to a new owner when you sell.

Mitsubishi Motors also offer superior **insurance cover** at a competitive price which is specifically designed for Mitsubishi vehicles and uses only genuine parts and approved repair centres.

Outlanders shown fitted with accessories – please refer to pages 25-27 for further details of the range of items available.

OUTLANDER 2

2.2 DI-D 4WD MANUAL

KEY FEATURES

- 5 seats
- 16" steel wheels
- ABS with EBD
- Mitsubishi Active Stability and Traction Control (M-ASTC)
- Auto Stop & Go (AS&G) (Manual model)
- Hill Start Assist (HSA)
- Remote central locking and alarm system
- Rear spoiler with LED stop lamp
- LED daytime running lights
- Electric door mirrors
- Silver front door and dashboard trim panels
- Front and rear electric windows
- Gloss black centre dash and floor console trim panels
- Dual-zone climate control
- Eco mode
- Cruise control
- Adjustable speed limiter
- Tonneau cover
- Mono-colour LCD info display
- Radio/CD/MP3 player (6 speakers)
- USB connection
- 12 volt accessory sockets
- Height adjustable driver's seat
- Front/side/curtain/driver's knee SRS airbags
- Steering wheel tilt and telescopic adjustments
- Automatic lights on/off and wiper rain sensor
- Auto-dimming rear view mirror

OUTLANDER 3

2.2 DI-D 4WD MANUAL
2.2 DI-D 4WD AUTOMATIC

KEY FEATURES

SPECIFICATION AS OUTLANDER 2 PLUS:

- 7 seats
- 18" alloy wheels
- Privacy glass
- Chrome beltline mouldings
- Chrome inner door handles
- Electric folding heated door mirrors with side indicators
- Leather steering wheel and gearshift knob
- Front fog lamps
- Rear parking sensors
- Bluetooth® hands-free telephone connection
- Multi-colour LCD info display
- Foldaway 3rd row seats with 2nd row sliding access
- Luggage area underfloor compartment
- Keyless operation system with engine start/stop button
- Steering column-mounted shift paddles (Automatic model)
- Electronic parking brake (Automatic model)
- Brake auto hold (Automatic model)

OPTION: Black leather-faced seats

OUTLANDER 4

2.2 DI-D 4WD MANUAL
2.2 DI-D 4WD AUTOMATIC

KEY FEATURES

SPECIFICATION AS OUTLANDER 3 PLUS:

- Blind Spot Warning and Rear Cross Traffic Alert
- LED headlamps with washers and auto-levelling
- LED front fog lamps
- Electric glass sunroof
- Power tailgate
- Black leather seats
- Heated front seats with powered driver's seat
- Heated steering wheel
- SD card satellite navigation with HD 7" touch-screen
- DAB radio
- Gloss black front door and dashboard trim panels
- 360-degree camera (Automatic model)

MITSUBISHI MOTORS RECYCLING

We all have a duty to protect the environment. After a long working life we will take back any Mitsubishi Motors vehicle originally sold by The Colt Car Company Ltd. and recycle it in an environmentally friendly manner in accordance with the EU Directive on End-of-Life Vehicles and any applicable national statutory provisions.

All Mitsubishi Motors vehicles sold by The Colt Car Company Ltd., irrespective of date of sale, will be taken back free of charge from the last owner, at one of the designated take-back points, provided the vehicle contains all major components and is free of waste.

For further information please visit www.cartakeback.com, email info@cartakeback.com or call the Cartakeback info-line on 0845 257 32 33.

The specification of the vehicles illustrated in this publication may not be applicable to the UK market, furthermore some vehicle illustrations may include accessory items which are not part of UK standard specification. However, every effort has been made to ensure that the written information was accurate, up-to-date and consistent with UK specification at the time of going to press. The right is reserved to change specification, features and prices without prior notice. To avoid any misunderstandings, your Mitsubishi Motors dealer will advise of any alterations made since the date of issue of this brochure. No part of this publication may be reproduced in any form or by any means, without the prior written permission of The Colt Car Company Limited.
