

# NISSAN BLUEBIRD

# PRIME SEDAN

## for people who lead

Responsibility is the key to the design of the all-new Nissan Bluebird. Developed from a thorough review of contemporary automotive design, this trendsetting sedan meets Nissan's triple objectives of *responsible performance*, *responsible comfort* and *responsible aesthetics*.

*Responsible performance* marks the meeting point of leading running performance and advanced driving safety. A twincam, four-valves-per-cylinder engine puts the Bluebird at the cutting edge of performance and technology. At the same time, the Bluebird's Head-Up Display (HUD), Anti-lock Brake System, Super Toe Control rear suspension and other advanced features let you enjoy its powerful performance with **maximum safety**.

In pursuit of *responsible comfort*, Nissan has created in the Bluebird an

interior that is a cut above its class in roominess. A medium-sized sedan in exterior dimensions, the Bluebird offers as much interior space as a larger-sized car. And thanks to the extra safety provided by the impact-absorbing body and side door beams, you can enjoy the comfort of this plush interior with greater peace of mind.

*Responsible aesthetics* finds eminent expression in the Bluebird's full-door body. Not only does this "monofrom" body please the eye with its natural, organic look, but its light monocoque construction also provides superior rigidity which in turn **enhances safety**.

The all-new Bluebird leads its class in performance, comfort and aesthetics. That's because it's designed for people who are themselves leaders in their chosen lifestyles.

For people who appreciate the finer things in life

Interior roominess equals that of larger-sized cars

SSS-G

Wood-styled fascia serves to highlight the sophisticated look of the interior.

As outstanding as the Nissan Bluebird are few and far between. Here is a car that reflects the kind of quality valued by people who appreciate the finer things in life. Second to none in roominess, the plush and classy interior lets you ride in unsurpassed comfort. With its effortless handling, accurate response and extensive safety features, the Bluebird will give you a deep sense of satisfaction wherever you go.

# A benchmark in contemporary automaking

To travel in the Nissan Bluebird is to travel in style and comfort. Note the elegantly unified interior, highlighted by a two-tone color scheme and wood-styled facia. For your listening pleasure, the sophisticated audio system includes a CD player and six speakers which create a superb ambience throughout the cabin. Other interior features include one-piece door trim and fully automatic air conditioning.
