With alloy-effect detailing, a titanium grey or brilliant red central console and choice of leather or fabric seats\*, Juke's designed for action from the inside out.

\*Red interior available from Acenta Sport. Leather seats only available on Tekna grade "Some parts of leather seats may contain artificial leather."

## EXPECT TO BE SURPRISED

**BIKER BEAUTY.** JUKE's sleek, spacious cabin design is dominated by its centre console, sculpted like a motorbike fuel tank with a raised gearknob for better control and sportier attitude. With its combimeter all revved up in biker-style too, it's roaring with exuberance.

# BOOST YOUR MOOD

**LIVEN THINGS UP.** With Nissan's Dynamic Control System, you're streets ahead. Three driving modes - NORMAL, SPORT and ECO - and a multi-mode display screen complete with real time updates set you up for countless city moves.

- Acceleration: Throttle opening varies on drive mode to adapt to your needs.

- Steering: Reaction in SPORT mode is firmer for a sharper response.

- CVT gearbox: Gear shift mapping changes depending on the Drive mode (SPORT or ECO) on XTRONIC CVT and XTRONIC CVT-M6.

- Air conditioning: In ECO mode, the air conditioning reduces its energy and fuel consumption.

\*Drive mode control characteristics vary depending on engine

**HIGH-PRESSURE FUEL PUMP.** It works to significantly improve power output and torque.

**VALVE-TIMING CONTROL.** Maximum injection efficiency is ensured by a twin VTC system for higher response at low and medium speeds.

**CLEANER EXHAUST.** Stratified combustion during warm-up and optimized ignition timing activates the catalytic converter quickly for cleaner exhaust gas.

We see **SHIFT\_** as an invitation. To challenge whatever feels too familiar. To open your mind to the unfamiliar. To ask the questions no one else is asking. And to find answers no one else can. At Nissan, we do this every day. And it shapes everything we do. The result is a line-up of vehicles that represents a pure, uncompromising shift from the ordinary.
