

**NISSAN
MICRA**

THE MICRA. A TASTE OF FREEDOM.

The Nissan Micra is everything you'd expect from a small car. And more.

The exceptional economy and versatile performance of the most popular Nissan in Britain have already won it many friends. Compact and stylish, it offers drivers all the

flexibility and lively performance a driver can demand from a small car.

You enjoy the freedom of sufficient room for your family and friends plus ample space for all your luggage.

That's the freedom of the Micra experience.

13-DOOR

1.2 SUPER S

THE FREEDOM OF THE CITY.

With the Micra Super S you can make the most of city living.

With only a 9.8-metre turning circle, it can squeeze in and out of the busiest city traffic, and park in the smallest spaces. And its styling and personality make it the perfect partner for anyone who's going places.

The tilt-up sunroof, colour coordinated roof spoiler, sports-style seats, driving lamps and leather-wrapped 3-spoke steering wheel, all add to the fun of driving the Micra. While the wide-opening hatchback comfortably swallows all your luggage and shopping.

13-DOOR

1.0 SUPER

TAKING TO THE GREAT OUTDOORS.

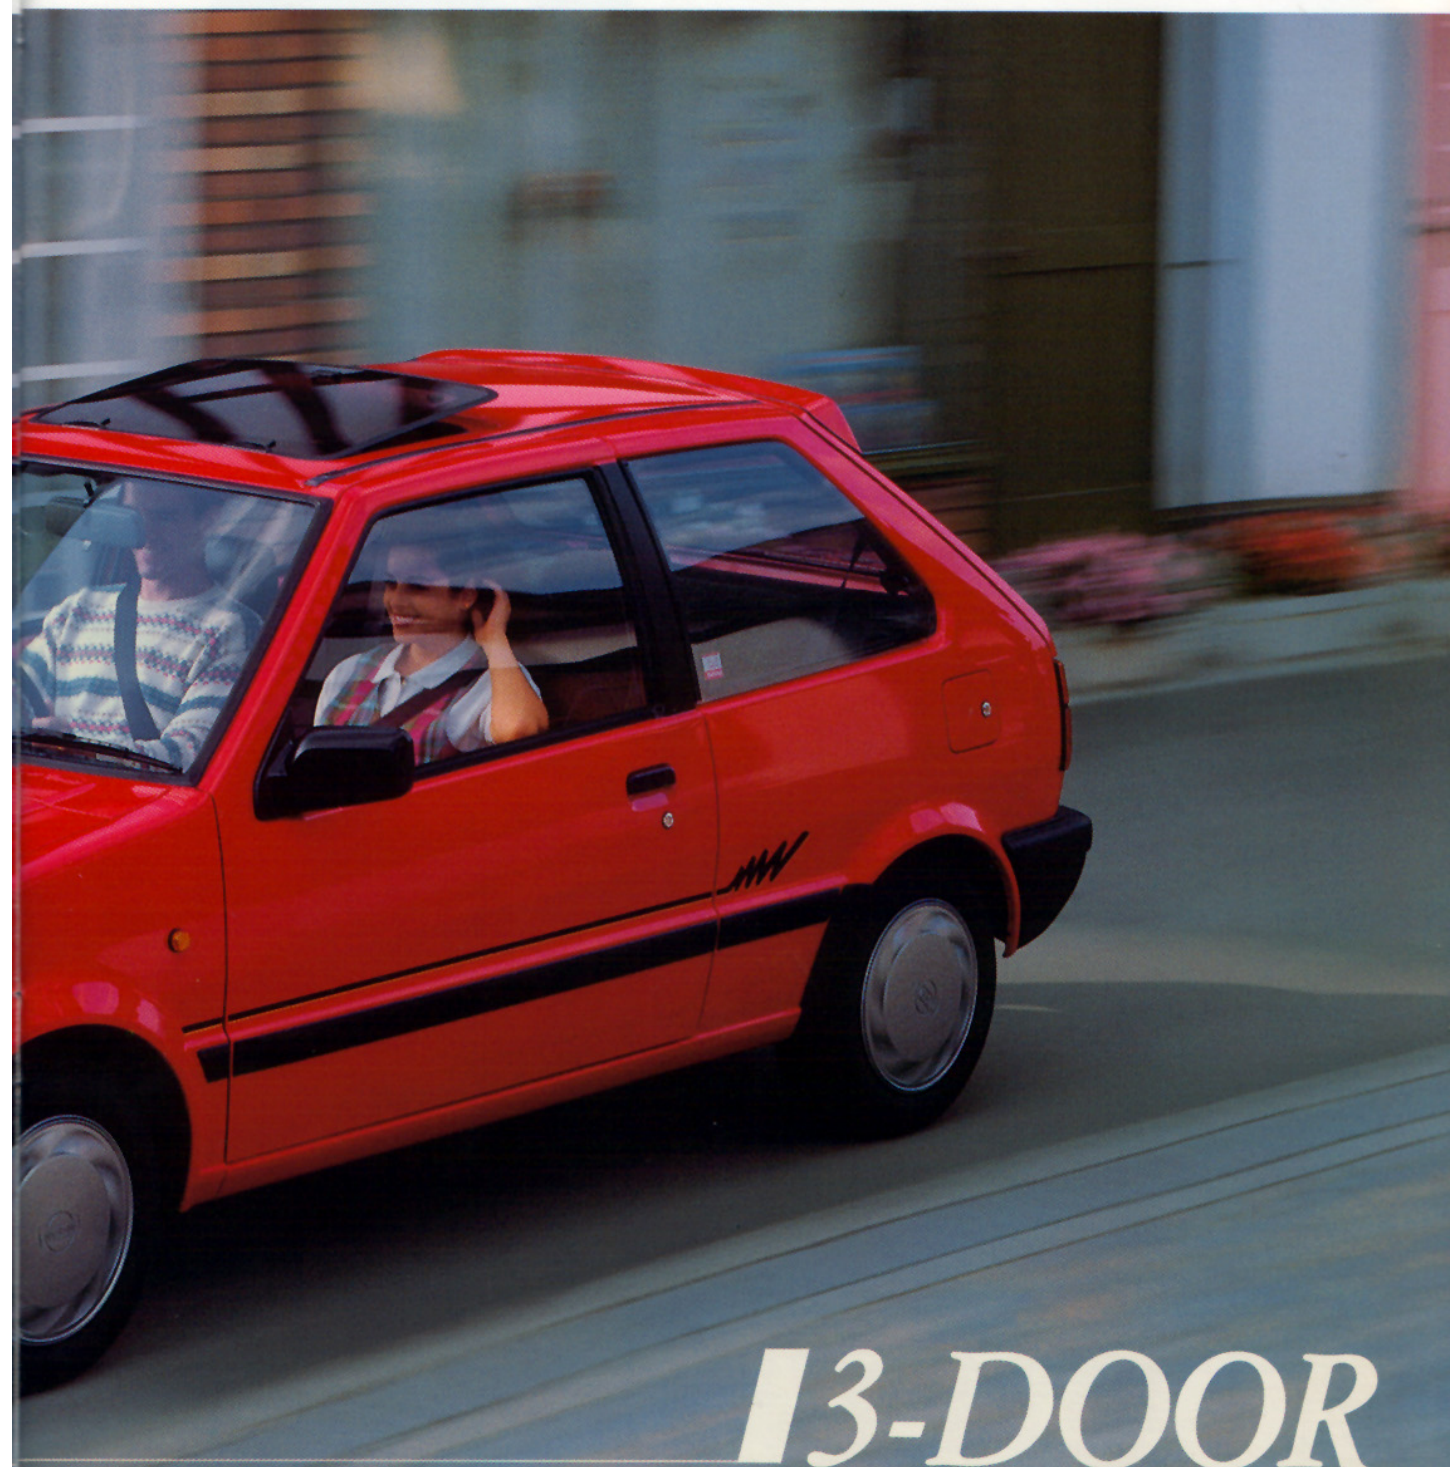

The 3-door Micra has everything you need for those trips to the country.

Its smart body profile may present a small image to the outside world but inside it's surprisingly spacious. Body-contoured seating in colour-coordinated fabric upholstery and

an all-weather ventilation system mean you stay fresh and comfortable on even the longest trip.

And the tilt-up sunroof can be detached in moments for a breath of fresh air.

Wherever you are, the Micra brings a sense of enjoyment to your outdoor lifestyle.

1.2 SLX

5-DOOR COMFORT FOR ALL THE FAMILY.

The 5-door Micra is the perfect car for the perfect family outing.

Four wide doors and the high-opening rear hatch open onto an interior that's surprisingly spacious, enhanced by the low floor, high roof and compact front-wheel drive.

An interior that is finished with Nissan's customary attention to quality and detail.

Deep side pockets, lockable glovebox, ergonomically efficient driver's controls, the vanity mirror in the passenger's sunvisor...every detail contributes to complete family comfort.

With room for everyone and everything, the versatile Micra is the perfect companion for the family weekend.

5-DOOR

1.2 LX

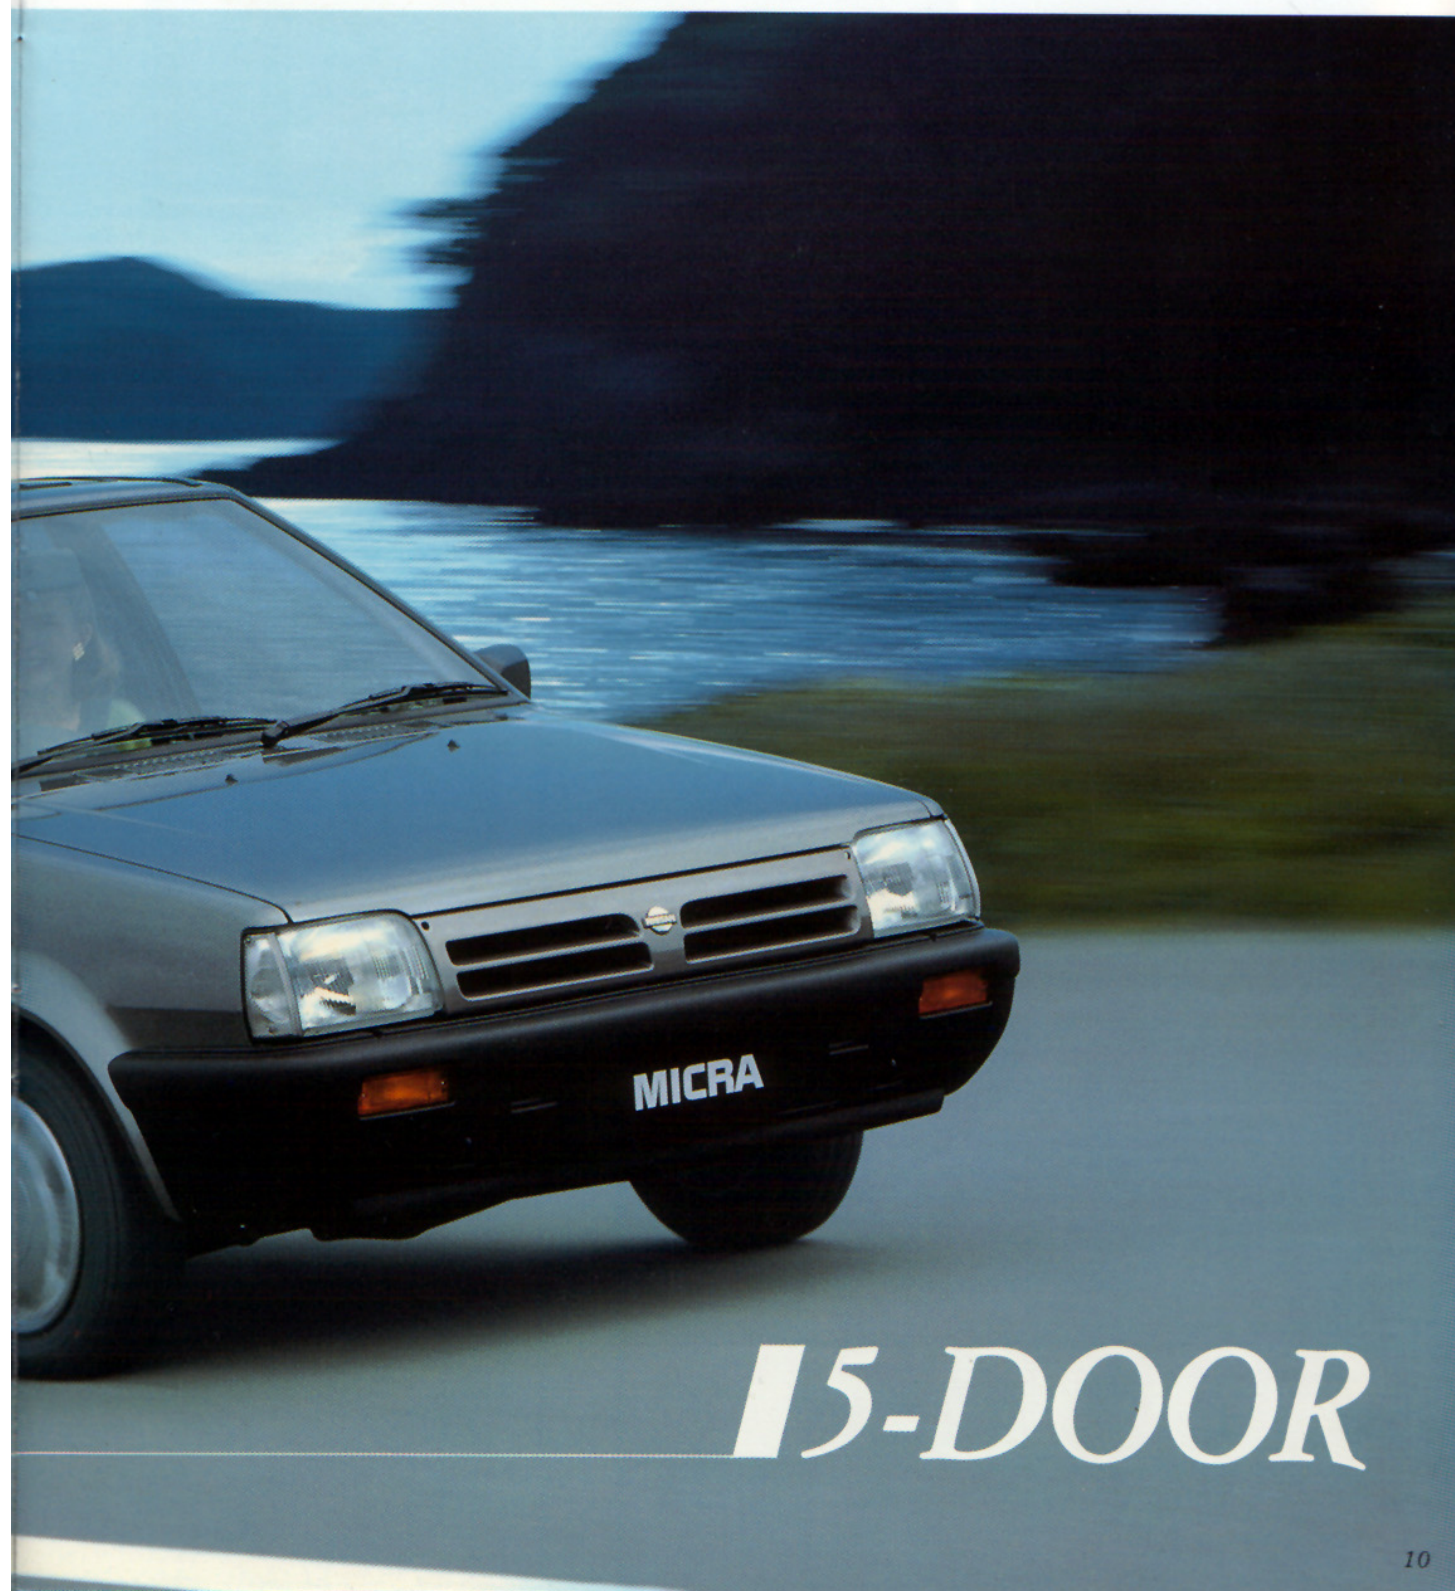

A LIVELY PERFORMER.

The Micra 5-door's contemporary looks are complemented by lively up-to-the-moment performance and precise, predictable handling.

The exceptionally fuel-efficient 1-litre and 1.2-litre engines deliver fast and lively response for cutting through the stop-start of city traffic. Both the surprisingly smooth 3-speed automatic

and the quick-shifting 4- or 5-speed manual transmission make for enjoyable driving.

The Micra's large windows and low, short bonnet give you maximum all-round visibility and, with the 9.8-metre turning circle, give the Micra exceptional manoeuvrability in the tightest situations.

5-DOOR

1.2 LX

VERSATILE. FLEXIBLE. WHATEVER THE LOAD.

Whether it's an afternoon on the golf course, a quick trip to the supermarket, a day's fishing or a weekend away, the Micra's versatile luggage space can cope. For easier loading, the rear hatch opens wide and gas-struts make sure it stays that way.

The back seat folds flat, one half at a time,

to accommodate particularly long items or extra luggage. The large door pockets, centre console, spacious glove compartment and rear side box all provide additional personal storage space.

The rear parcel shelf hides your luggage from view and can be removed completely for extra carrying space.

15-DOOR

5-DOOR, 1.2 SLX

TOTAL CONTROL AT YOUR FINGERTIPS.

Once behind the wheel, you're in complete control.

The Micra's body-contoured seating makes even the longest trip thoroughly comfortable. Ergonomically positioned driver's controls are all within easy reach. Large analogue dials and brightly lit warning lights provide vital information at a glance. Temperature

control and electronically tuned audio system are conveniently positioned on the centre console. The sunroof tilts open easily and can be detached in moments to let in the fresh air.

Easy-care fabric upholstery and colour-matched decor all contribute to a bright and attractive interior.

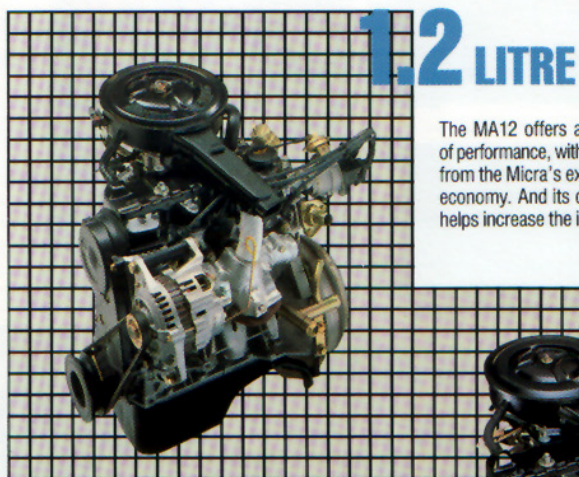

**COCKPIT &
INTERIOR**

EQUIPPED FOR THE DEMANDING DRIVER.

The Micra may be a small car, but it is equipped with Nissan's customary attention to detail and quality. Practical features like the tilt-up sunroof and double-folding, split rear seat are

complemented by quality touches such as the anti-dazzle rear view mirror, lockable glove box and intermittent tailgate wash/wipe.

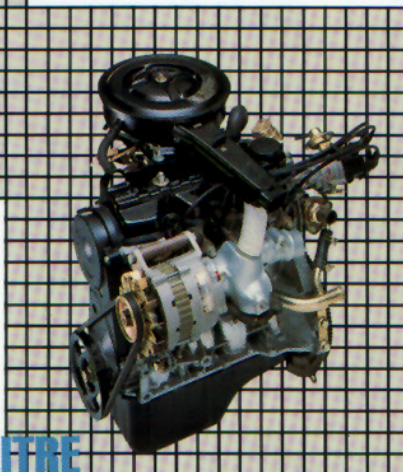

1.2 LITRE

The MA12 offers a new level of performance, without detracting from the Micra's exceptional fuel economy. And its compact size helps increase the interior space.

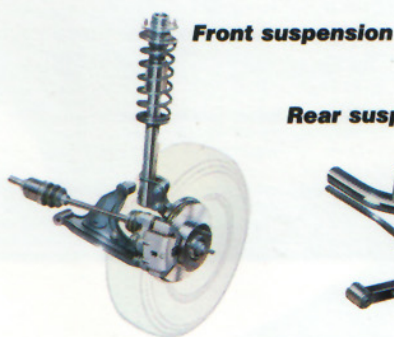

CATALYST

A 3-way catalytic converter is fitted to the Micra 1.2 SLX and Super S.

1.0 LITRE

The lightweight yet powerful MA10 engine is a model of efficiency, delivering spirited performance with outstanding fuel economy.

Front suspension

Rear suspension

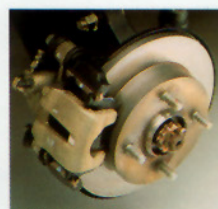

For easy handling and a smooth ride, the Micra has independent MacPherson struts up front and 4-link coil springs on the rear.

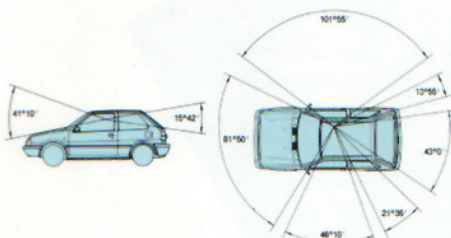

The Micra's rack and pinion steering offers light, positive steering and precise control.

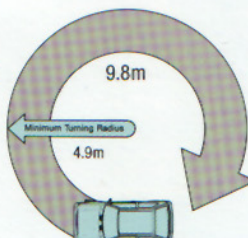

Rack and pinion steering

Powerful front discs and rear drum brakes ensure smooth, safe stopping power.

The Micra's high roof and thin pillars allow the driver exceptional all-round vision.

The Micra offers exceptional manoeuvrability. Its minimum turning circle is just 9.8 metres, so you can negotiate the tightest city streets and the smallest parking spaces with ease.

PERFORMANCE & MECHANICS

The Micra range offers a choice of 3 speed automatic or 4 and 5 speed manual transmissions.

The tilt-up sunroof can be detached in moments.

Front doors feature a convenient pocket for maps and other items, on the Micra LX, SLX and 1.2 Super S.

A vanity mirror is built into the front passenger's sunvisor.*

*Not available on L model.

For added safety, all models feature a heated rear window with intermittent wash/wipe.

A mechanical walk-in mechanism makes entry and exit easier for rear seat passengers.

YOUR PERSONAL NISSAN

The Nissan Micra is distinctive. It stands out from other cars not just for its technology and quality but also for its comfort and style.

To complement your Nissan, a range of specially developed accessories are available to add that personal touch to your Micra. The aerodynamic products, special graphics, car audio, tow-bars,

roof-racks and other specialized accessories blend in perfectly and are manufactured to the same high standards as the Nissan Micra itself.

The Nissan Accessory Brochure, with the full range of genuine Nissan accessories, can be obtained from your authorised Nissan dealer, who will be pleased to advise you.

ACCESSORIES

STAYING I

Big companies can all too easily become remote. At Nissan, we never forget what made us one of the world's top motor manufacturers – a total commitment to our customers.

Responding to their changing needs and expectations remains the basis of our company philosophy.

Staying in touch with the customer has meant keeping our operations local.

That's why we have already established 36 manufacturing plants in 22 countries, with a major presence in Europe.

Our UK factory in Sunderland, Tyne & Wear is probably Europe's most efficient car plant. And it's growing. By 1993 we will have invested £700 million and created 4,000 jobs.

That massive investment is more than justified by results. Primeras manufactured in Sunderland are exported to 30 countries. Including Japan. Meanwhile, at our European Technology Centres in Cranfield, Bedfordshire, and Sunderland, we're continuing to develop European cars for European drivers.

The launch of Nissan Motor (GB) Limited and the Nissan Dealer Network in January 1992 marked an important further stage in getting closer to our customers. Nissan Motor (GB) Limited is wholly owned by Nissan. This gives us full responsibility for marketing, distribution, selling and

N TOUCH

servicing in this country and allows us to maintain the high standards we set ourselves on your behalf. When you talk to a Nissan dealer, you are talking to someone who's in daily, direct contact with Nissan. So we hear what you have to say.

A car manufacturer's responsibilities, of course, don't stop with producing superb vehicles. Nissan owners also benefit from our unrivalled after-sales commitment: full 3-year warranty (materials and labour), a Pan-Europe Service (24 hour assistance anywhere in Europe including full touring assistance) and an outstanding parts service.

All Nissan dealers carry an extensive stock of genuine Nissan parts and there's further stock available at our brand-new parts centre at Lutterworth, Leicestershire. This is in turn supported by the main European parts centre in Amsterdam.

We also offer tailor-made finance. For the individual, flexible purchase schemes with first-class payment protection plans. For company users, lease or lease purchase arrangements

which have been structured for maximum efficiency.

Given the strength of our continuing commitment to all our

customers, it's hardly surprising if drivers looking for the latest in quality, performance, comfort, safety or after-sales service are choosing to stay in touch with Nissan.
