

the micra model range

the micra gives you more

At Nissan, we like to keep improving our cars, so we have been making important changes to the Micra. Of course, there are some things which we won't change. The new Micra will still give you a lively, economical engine, smooth gear change and impressive road holding. Our tough testing programme will still ensure that your Micra is safe, dependable and reliable.

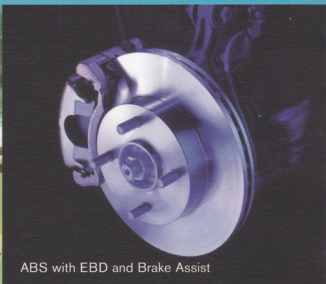

But with the new Micra you can also enjoy more power, more choice, great new looks and extra safety features. If you enjoy driving, you'll love the new Micra.

Improved engine performance

Refreshed exterior

ABS with EBD and Brake Assist

More power, more choice

With the new Micra, we have given you more power. The top of the range model now sports a bigger and more powerful 1.4 litre engine. So you can now choose between the proven, all aluminium, twin cam 16 valve 1.0 litre or the increased capacity of the 1.4 litre petrol engine. You'll find both engines are refined and responsive and the 1.0 litre version is up there with the very best when it comes to fuel economy.

New looks

We have also given you more style. We have modified the front grill and given you a range of exciting new modern colours: lava red, burberry and china blue. All models feature a distinctive grey sill strip that runs along the whole length of the car. On the inside, the Micra's new look interiors give you two distinctive styles. The contemporary/sporty look is bold and daring, while the traditional interior gives you a more subtle and refined elegance.

A clear improvement

Safety always features high in our priorities. We have introduced new big, single clear lens headlamps. Not only do they look stylish, they provide a good spread of bright light, with minimal glare for confident night driving. We have also modified the rear light lenses and repositioned the high mounted rear stop lamp to ensure that vehicles travelling behind you get a better opportunity to see when you are slowing down.

Braking confidence

With ABS to prevent the wheels locking, and EBD (Electronic Brake Distribution) for the shortest possible stopping distance, you're well equipped to face any situation. And there's Nissan's Brake Assist, unique in its class, which reduces the effort needed to press the pedal, bringing maximum braking performance within reach of every driver.

looking good

Whether you are looking for excitement or sophistication, you'll find one of our new look interiors to complement your lifestyle. The Sport and Sport+ models are fitted with new, bright and bold contemporary interiors. With a contrasting red and grey interior and a steering wheel to match, this exciting style is distinctly daring and original.

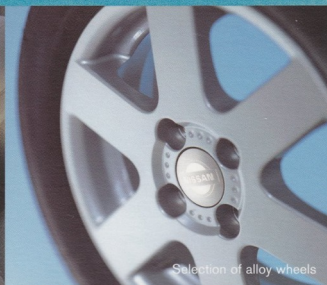

For a more understated look, the subtle blend of the two tone traditional interior trim gives the Micra S, SE and SE+ a smart, yet casual look which is both refined and elegant.

Chrome door handles

Traditional interior

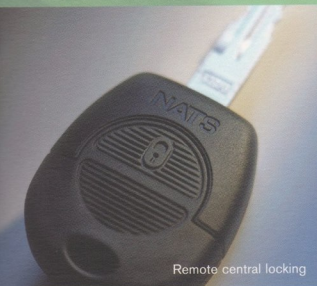

Selection of alloy wheels

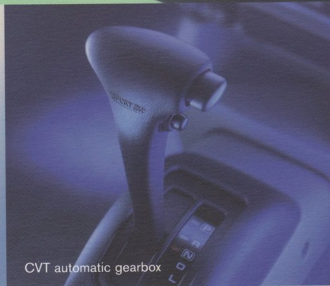

Contemporary interior

3door in China Blue

Remote central locking

CVT automatic gearbox

Sporty styling

S

With power assisted steering, 14" wheels, body coloured bumpers and grey side guard mouldings, the Micra S gives you comfort and style with a smart and elegant traditional interior.

SE

If you're looking for extra safety and comfort, the SE also boasts remote central locking, air-conditioning and front electric windows. Other features include a radio cassette with auto reverse and six speakers so you can enjoy excellent sound quality.

SE+

For the ultimate in style, the Micra SE+ features a leather steering wheel, chrome door handles, body coloured bumpers with chrome inserts, 14" alloy wheels and electric, heated body coloured mirrors. With ABS brakes (EBD & Brake Assist), tachometer, radio/CD player and sunroof, the Micra SE+ gives you all you need for a great driving experience.

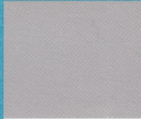

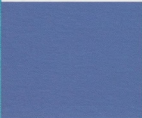

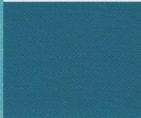

Sport

The Micra Sport, with its distinctive contemporary interior, gives you exciting, sporty good looks. It has body coloured bumpers, mirrors and side guard mouldings, as well as a small rear spoiler. For extra comfort and convenience, it also features remote central locking, front fog lamps, a sunroof and a radio/CD player.

Sport+

For even more sporty style and performance, the Micra Sport+ adds 14" alloy wheels, leather steering wheel and a large rear spoiler and a 1.4 litre engine. As well as being fun to drive, the Micra Sport+ enjoys a range of practical features including front electric windows, tachometer and radio/CD player with six speakers.
