

The New Peugeot | **206** | GTi 180

We all strive for different things.

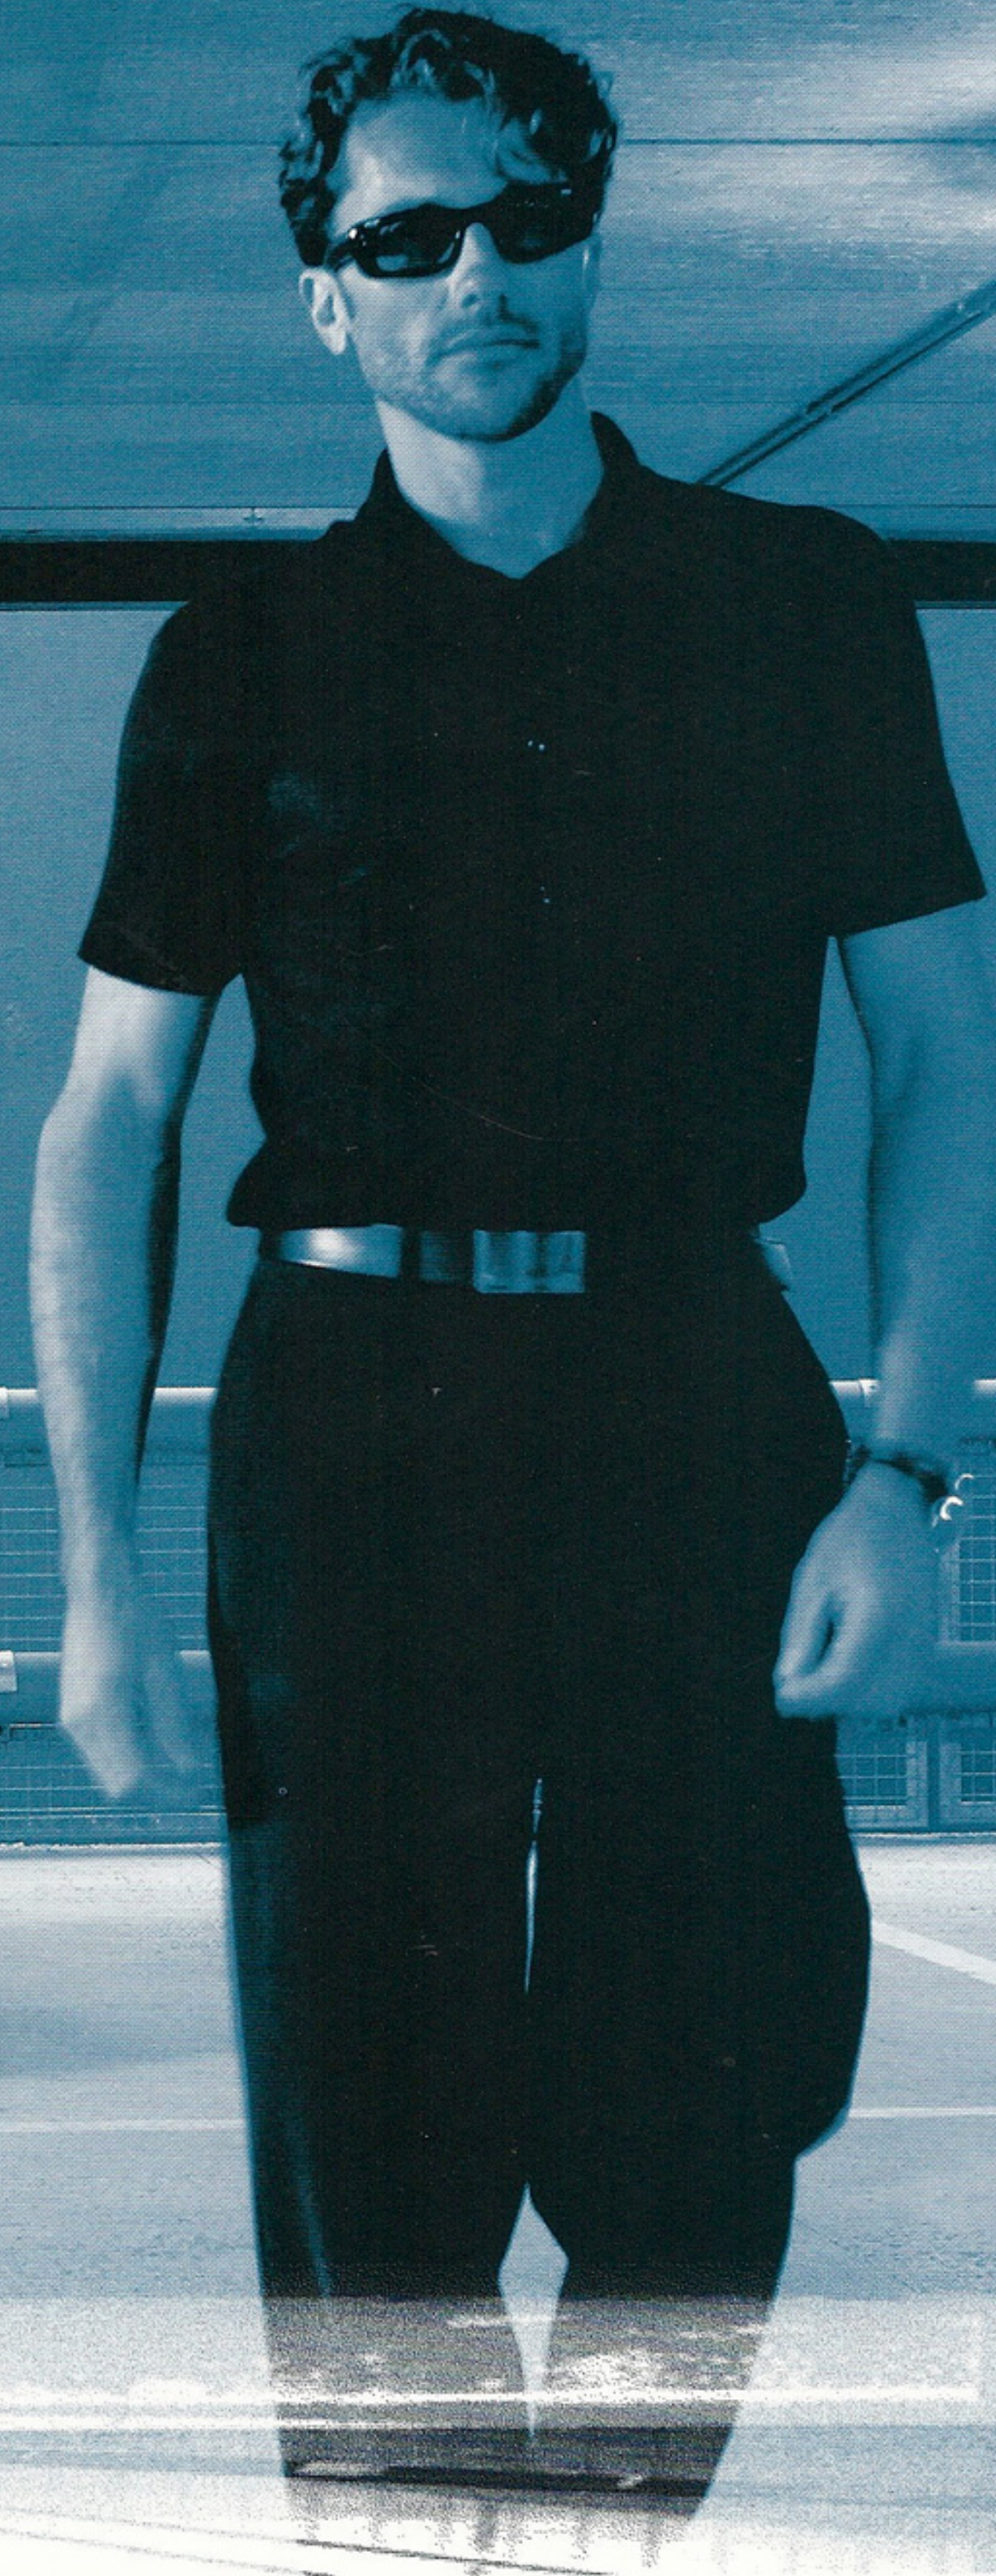

The word compromise does not exist in the minds of Peugeot designers. The stunning new 206 GTi 180 is proof of that. Every aspect of the car, from the inside out, contributes to a perfect balance between power, design and style.

000000

Respecting the road.

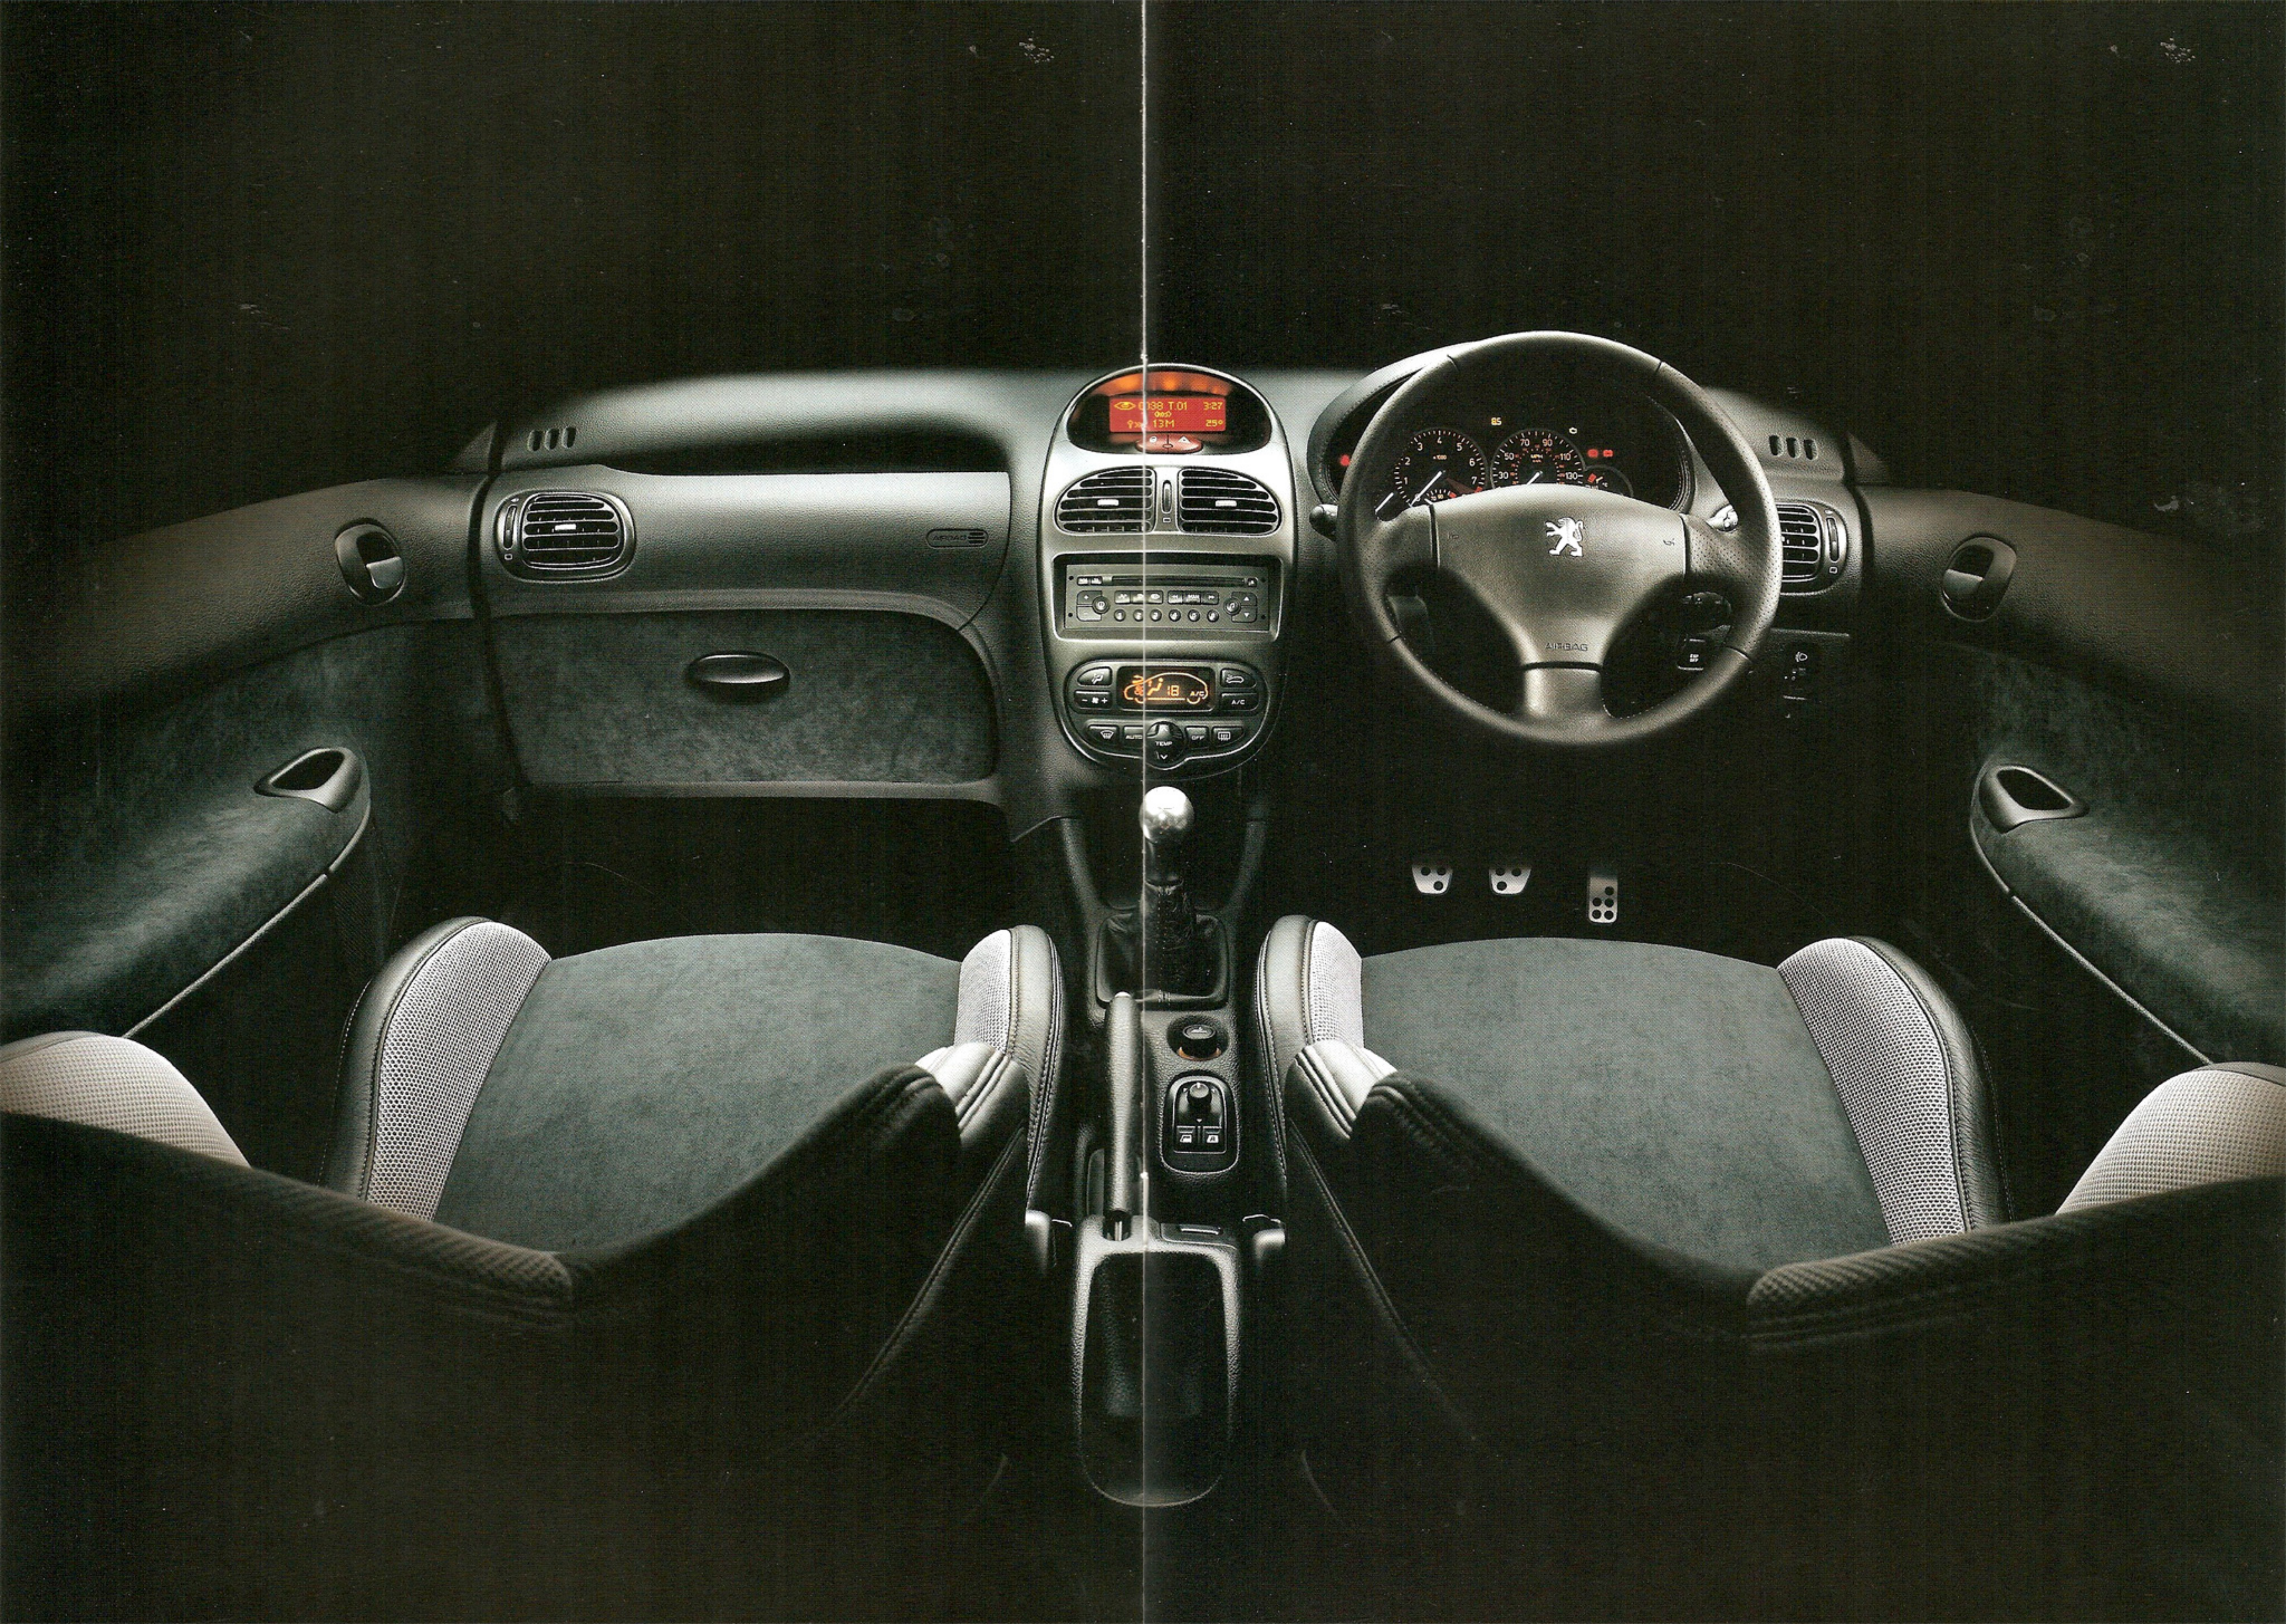

With the 206 GTi 180, you'll appreciate that road-hugging feel with its stiffened suspension, knowing that every bit of horsepower under the bonnet is perfectly harnessed.

Delivering 0-62 mph in 7.4 seconds and a scintillating top speed (where legal) of 137 mph, this GTi badge is not just a label - it's a bold statement.

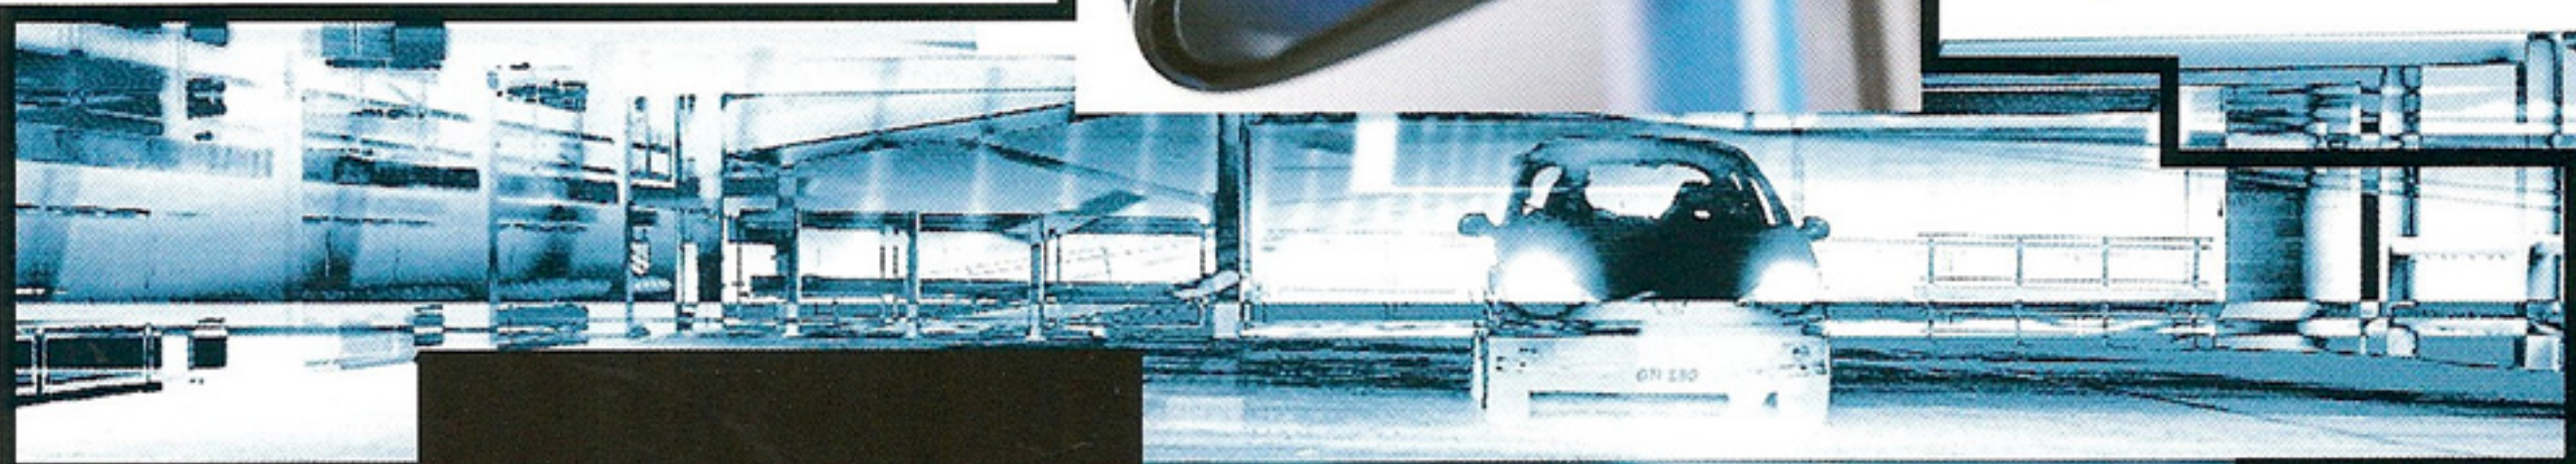

What you need, when you need it.

180bhp. That's a lot of power. And this car knows exactly when to use it – just like those who drive it. From an exhilarating open road to the bustle of the urban streets, the 206 GTi 180 takes any journey comfortably in its stride. This perfect balance of power and performance is due to some highly innovative advances in engine technology. The bimodal intake system and VVT (Variable Valve Timing) mean you'll benefit from a quieter ride when you're cruising while not compromising on power when you need it.

180

A cut above the rest.

Fashions fade, but style is timeless. That's why the look of the 206 GTi 180 is likely to still turn heads 20 years from now. Its twin exhaust pipes give the whole car a powerful feel as well as a sporty hum, while the rear spoiler accentuates the sleek, dynamic lines. Inside, you'll be treated to racing-style seats trimmed in a striking combination of Apicula mesh, Alcantara and black leather for body-hugging comfort and a stylish fascia design featuring stitched leather, chrome-surround black dials with white-neon needles and a microcarbon effect housing. You can also enjoy digital air-conditioning with climate control, ESP and a radio/multi CD player as standard.

Enjoy your journey.

It's thought that counts.

But intelligence is also a critical design element. For example, there's no point in a beautifully crafted body if your wing mirror gets knocked while parked. That's why, on the 206 GTi 180 they fold electrically. There's no point in having stunning 17" alloys if somebody less honest wants them. That's why these have special locking bolts. And what's the point in having perfect design if the colours aren't up to scratch. That's why this dynamic car will only be available in suitably dynamic colours.

The information and images in this brochure are based on the current technical data when going to print. The equipment shown is factory fitted or available as an option at extra cost, depending on the model. Where a feature is described as an option it should be assumed that it is at extra cost unless specifically stated otherwise. There may be some feature combinations that are not available in the UK and some photography may feature left hand drive vehicles. As part of a policy of continuous specification improvement, Peugeot reserve the right to modify the technical equipment, options and colours at any time. For full specification details please refer to the specification leaflet or ask your Peugeot Dealer who will be happy to help. Note that current print and photographic techniques do not allow us to faithfully reproduce the full depth and tone of the colours in this brochure. This brochure is designed to provide general product information and is not a contractual document or offer of sale. For current information please contact your authorised Peugeot Dealer. The details in this catalogue cannot be reproduced without the express authorisation of Peugeot.
