

\* Designed for the city.

**DESIGNED  
FOR THE CITY\***

**BIPPER**

**PEUGEOT**

## AN AGILE AND COMPACT PROFESSIONAL FOR ALL SITUATIONS

The Peugeot Bipper makes life easier for professionals looking for a compact commercial vehicle designed to go anywhere but particularly suited to city driving.

Agile and manoeuvrable, it can be parked anywhere, without compromising on interior space.

The Bipper is also the choice for economy with low running costs, an economical HDi engine and environmentally-friendly emissions of 119 g of CO<sub>2</sub>/km.

In addition, the technical capability of Peugeot's engines ensures excellent driving pleasure. Its style, with dynamic and rounded lines, expresses its modernity and strength. The four points that characterise the Bipper are: compactness, economy, driving pleasure and style. All these qualities are those of a dedicated professional, always ready and available to accomplish any task.

THE SMALLEST IN A LARGE RANGE

RANGE

The Bipper is the most compact of Peugeot's commercial vehicles. It fulfils the needs of professionals who need a small van particularly suited to city driving. It is practical, strong and agile but still provides

a generous amount of interior space.

The Bipper also benefits from excellent safety provision. There is reinforced fixed protection in the front bumper which emphasises its strength. The rear bumper highlights the low position of the floor and so the

ease of loading. With its protective mouldings running the entire length of the sides, your Bipper is protected from the frequent small knocks sustained while driving and manoeuvring in town.

# THE BIPPER CAN GO ANYWHERE

## Uniquely compact

The Bipper offers a usable space never before seen in the world of small vans. Its short overall length of only 3.86 m is very noticeable in restrictive urban driving conditions.

## Excellent manoeuvrability

With its compact size, the Bipper proves itself to be incredibly manoeuvrable. The excellent visibility offered by its semi-high driving position, the ergonomic instruments and controls, the quality of its

handling on all types of journey, in a city environment as well as suburban or rural, make the Bipper extremely easy to manoeuvre in the worst traffic or parking conditions.

### Small turning circle diameter

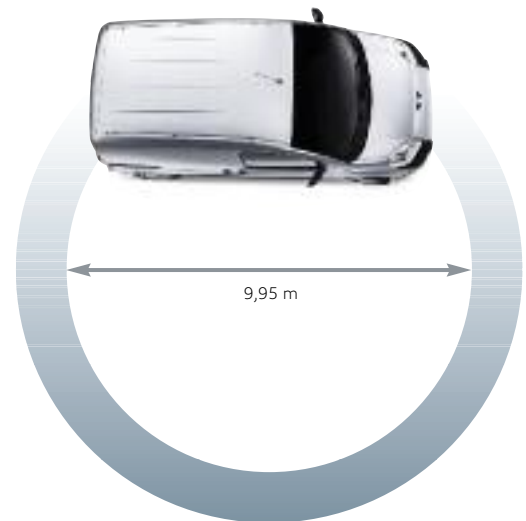

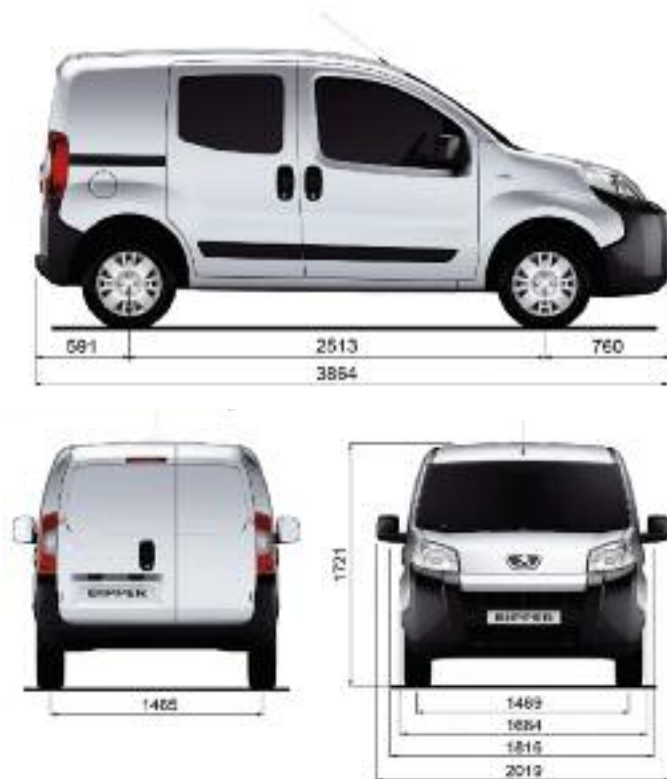

The Bipper has a remarkable turning circle of just 9.95m.

A very appreciable advantage when manoeuvring in tricky circumstances,

making a U-turn on a narrow street or parking in a tight space.

↑ Height 1,72m

↔ Length 3,86m

# THE BIPPER TAKES ON EVERYTHING!

## A 100% usable volume

With its compact size, the Bipper offers a usable volume of 2.5 m<sup>3</sup> and a payload of 610kg. The interior load length is 1.52 m which can easily accommodate bulky objects.

## Space well gained

The folding Multi-Flex passenger seat\* folds to the floor, freeing up 950 mm of additional space and bringing the usable loading volume to 2.8 m<sup>3</sup>. In addition to the driver's ladder fitted as standard, the Bipper offers several options for separating the passenger compartment from the load space.

## Maximum accessibility

On the Bipper, access to the load compartment is made easier by the the two rear doors which open to 90°. A clever Multi-Flex retractable check strap system allows them to be opened to 180° for even greater convenience.

Multi-Flex retractable seat freeing up additional space

Modular partition linked with the retractable passenger seat\*\*

For even easier access to the load space, the Bipper is fitted as an option with one or two panel or glazed sliding side doors. The loading sill, lowered as much as possible to 53 cm above the ground, makes handling operations easy.

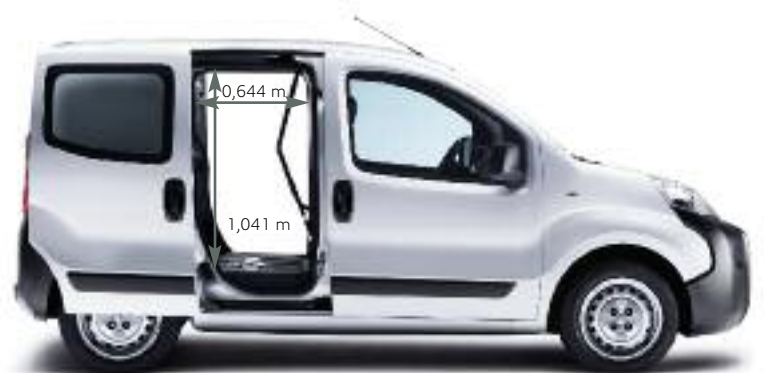

\* Optional.

\*\* Optional, linked with the Multi-Flex retractable passenger seat.

 **Payload of 610kg**

 **Usable volume of 2.5 to 2.8 m<sup>3</sup>\*\***

\*\* With folding Multi-flex passenger seat option.

(1) Usable interior height.  
(2) Loading sill.

# THE BIPPER LOVES TO MAKE YOU COMFORTABLE

## **Comfortable seats**

Life doesn't have to be hard just because you are working! Of generous dimensions, the Bipper's seats provide all the comfort and support you need.

## **An advantageous position**

The semi-high position of the Bipper's seats makes the driver and passenger's access to the cab easy, whilst offering car-like comfort.

## **Extreme visibility and light**

The size of the windscreen and the semi-high position of the seats afford both the driver and his passenger visibility not often found in a van.

### Everything within easy reach

The ergonomic fascia panel of the Bipper has been designed to offer the occupants no fewer than 12 storage spaces. Essential when driving in the course of your work, they're perfect for storing papers, files, tools, telephones and other work accessories.

### Peugeot Connect Sound

The Bipper has an audio system with a radio which plays CDs\* and MP3 files\*\*, connected to 4 speakers incorporated in the base of the mirror and on the door trim pads.

\* Optional or as standard according to version.

\*\* Linked with the Bluetooth® hands-free kit option.

### With Bluetooth®, even more professional!

The mobile telephone has become an essential work tool. With the Bipper's Bluetooth®\* hands-free kit you can use your telephone without taking your hands off the steering wheel.

\* Optional according to version.

# PEUGEOT AND THE ENVIRONMENT

Peugeot offers an extensive range of low emission vehicles; more than half of its worldwide sales are of vehicles which emit less than 140 g of CO<sub>2</sub> per km. This performance relies on proven technology for which Peugeot is a leader:

The FAP Particulate Filter (launched in 2000 on the Peugeot 607) reduces harmful particulate emissions by 99.99%. So far this technology has been fitted to 2.1m vehicles worldwide.

## COMFORTABLE AND DYNAMIC DRIVING

### **1.4L HDi 70 bhp**

This Diesel engine has a maximum power of 70 bhp. It is extremely comfortable to use, with perfectly controlled consumption on all types of journey. In town, its considerable torque available at low engine speed provides very appreciable driving comfort.

### **1.4L petrol 75 bhp**

Dynamic for use about town, with good road holding, this engine with a maximum power of 75bhp offers remarkable driving pleasure even when the vehicle is fully loaded.

Offering low running costs, this engine which complies with the Euro 4 emission control standards protects the environment with its low consumption.

### **Manual gearbox or 5-speed piloted manual gearbox**

The Bipper is fitted as standard with a 5-speed manual gearbox. A 5-speed piloted manual gearbox is also available which is remarkable easy to use in town

# INTELLIGENCE THAT PROTECTS

The Bipper is a modern vehicle which offers all the latest equipment intended to improve the safety of the driver and passengers.

## ANTICIPATE

### ABS – Anti-lock braking system

For optimal braking efficiency, endurance and reliability, the Bipper comes as standard with disc brakes at the front, drum brakes at the rear, and an ABS system. The ABS monitors any loss of traction or wheel locking in the event of extreme braking. If one of the sensors installed on all four wheels detects the onset of locking on any wheel, the ABS adjusts the braking pressure to ensure maximum efficiency and maintain the vehicle's manoeuvrability.

### Lighting and signalling

Fog lamps can be installed as an option in the front bumper. To accompany the two rear lights, a third brake light is positioned in the upper part of the left-hand hinged rear door.

### Audible rear parking assistance

Designed for the city, the Bipper offers optional rear parking assistance which operates via a system of reversing sensors. It is switched on automatically when reverse gear is engaged. An audible signal intensifies as the vehicle approaches an obstacle.

### Cruise control/Speed limiter\*\*

As they often travel long distances, a van driver must be able to drive with complete peace of mind. Which is why a cruise control/speed limiter, available as an option, programmes the speed of your Bipper to be constant regardless of the conditions (except in the case of a sharp descent) without the driver having to press the accelerator pedal.

\*\* Optional according to version and country.

## PROTECT

### Structure and dimensions

The Bipper offers highly sophisticated solutions to protect its occupants in the event of an accident. The robust structure of the Bipper preserves the integrity of the passenger compartment. The generously dimensioned front doors enhance overall rigidity.

### Seat belts

The front seats have three-point seat belts with pretensioners and force limiters. In the event of collision, the pretensioner holds the occupant in his seat and adjusts the seat belt, eliminating any period of latency between impact and locking of the seat belt. The force limiter minimises pressure exerted on the chest by the seat belt.

### Air bags

On the Bipper, a driver's air bag is offered as standard, with a passenger's air bag available as an option. The latter can be deactivated via the trip computer. As an option, side air bags are incorporated in a plastic frame in the sides of the front seat backrests\*.

\* According to country - not compatible with other options.

## ALERT

### Trip computer\*

In the event of an anomaly, the trip computer displays a warning message accompanied by an audible signal and lighting of the corresponding warning lamp if one exists.

\* The trip computer comes with the passenger air bag option.

### Overspeed alarm

Incorporated in the trip computer, a programmable overspeed alarm transmits a message and an audible signal, and switches on a warning lamp if the programmed speed is exceeded. You can be sure that you will not exceed the authorised limits at any time during your journey.

### **Anti-theft protection**

As a van often transports expensive equipment or costly merchandise, the Bipper places the emphasis on protection and anti-theft equipment.

### **Locking**

The automatic locking of the doors\*\* is linked with the central locking. The logic of the locking / unlocking of the doors permits isolation of the load area.

As you value your Bipper, numerous devices protecting against theft and intrusion are provided: electronic coded engine immobiliser system, optional automatic door locking over 10mph and opening of the bonnet and fuel filler flap from the inside. Any opening of a door, including the load space, is indicated by a warning lamp and a message on the instrument panel.

\*\* Automatic locking included in the Plus Pack.

### **Alarm**

An optional anti-intrusion and anti-lift alarm ensures the protection of the Bipper. The alarm system is activated when the vehicle is locked or unlocked by the remote control or the key. To guarantee the optimal protection of occupants, the doors of the Bipper are locked automatically above a speed of 10 mph (equipment linked to certain options).

# COLOURS AND TRIMS

Metallic or solid, the Bipper offers a wide choice of colours. Choose the one that suits you.

# PEUGEOT AND YOU

When you choose Peugeot, you have the reassurance of knowing that your vehicle has been designed and manufactured to give you years of worry-free motoring. What's more, as a Peugeot owner, you can rely on a comprehensive range of customer care services from your Dealer. So you can be sure that you're talking to a specialist who'll listen to you, understand your problems and respond efficiently – someone who also has the expertise to maintain your Peugeot correctly, using trained technicians, Peugeot Diagnostic Equipment and Peugeot Original Equipment Parts.

## PEUGEOT WARRANTIES

As well as the 2 year unlimited mileage manufacturer's Warranty, all vehicles first registered in the UK and purchased from a UK Peugeot Dealer come with a free, optional additional year of Warranty through the Peugeot UK Dealer network. The mileage limit on this additional Warranty is 60,000 miles (100,000 miles for Boxer vans excluding Motorhomes and other converted vehicles) from first registration. At the end of the 3 year Warranty period (or after 60,000 miles) you have the option to purchase a Peugeot Platinum Extended Warranty. Our cars also come with a 12 Year Anti-Perforation and 3 Year Paint Warranty (6 and 2 years on vans). For full terms and conditions on all of these, please contact your Peugeot Dealer.

## PEUGEOT ASSISTANCE

All new Peugeots come with 12 months Peugeot Assistance – our breakdown assistance service. This covers all incidents involving vehicle-based faults for you and anyone else driving your car with your permission. It is available 24/7, 365 days a year. Peugeot Assistance includes European cover, homestart,

roadside assistance, vehicle recovery and a free replacement car or hotel accommodation if required. It can be extended for a further 12 months, or 24 months, and to protect you against non-vehicle faults (such as punctures) at specially discounted rates, by calling 0870 752 7050.

## PEUGEOT SERVICE CARE

Peugeot vehicles benefit from extended service intervals of up to 20,000 miles or 2 years (12,000 miles for 1.6 HDi diesel ; 24,000 miles or 2 years on Boxer, 10,000 miles or 1 year on 107). Please refer to the maintenance book for details of the service intervals for specific models and vehicles operating in arduous conditions. Finance – Let the Specialists help. Peugeot Financial Services offer a number of flexible finance plans that make owning a new Peugeot easy. We specialise in car finance and can provide you with choice, convenience and flexibility directly through your local dealer. Written quotations are available on request from: Peugeot Financial Services, Quadrant House, Princess Way, Redhill, RH1 1QA. Over 18's only, a guarantee may be required.

## PEUGEOT INSURANCE

Peugeot Insurance has been designed specifically for Peugeots and offers tailored cover at a competitive price. If you are unfortunate enough to have an accident, one of our Peugeot Approved Accident Repair Centres will repair your car, using only Peugeot original parts. Plus we'll give you a courtesy car while yours is being repaired (subject to availability when you use an approved repairer). When the time comes to renew your insurance cover, why not try Peugeot Insurance?

You can call Peugeot Insurance for a quote on 0870 0240 206. Lines open 8am-8pm weekdays, 9am- 5pm Saturdays. Max call charge from a BT landline is 8p per minute. Calls from other networks may vary. Calls may be recorded. Peugeot Insurance is underwritten by UK Insurance Limited. Conditions apply.

## PEUGEOT AND THE ENVIRONMENT

Our website has full details on all Peugeot products, and offers available in the UK. You'll also find information about our environmental and recycling policies.

## PEUGEOT ACCESSORIES

Peugeot Accessories are designed specifically for each model which means there are no compromises on fit or function. In addition they are rigorously tested to our own high standards giving you complete confidence and peace of mind.

The information contained in this brochure is based on the data and images available at the time of printing. Some feature combinations may not be available in the UK. Also, some photography may feature vehicles which are left hand drive. As part of our policy of continuous specification improvement, Peugeot reserve the right to modify technical equipment, the options available, and colours at any time. For full specification ask your Peugeot Dealer, or click on [www.peugeot.co.uk](http://www.peugeot.co.uk). Please note that print and photographic processes used in the creation of this brochure may alter the depth and tone of the colours shown. This brochure is not a contractual document or offer of sale. The details in this brochure cannot be reproduced without the expressed authorisation of Peugeot.
