The Macan Turbo with Performance Package

Life, intensified

Performance-optimised engine electronics

169 mph
Top speed

Sport Chrono Package

3.6-litre twin-turbo V6 engine

New, enlarged front brakes, grooved

Internally vented brake discs
390 mm front, 356 mm rear

324 kW
(440 hp) at 6,000 rpm

Titanium Grey
engine compartment cover with
carbon inlay

Porsche Active Suspension Management
(PASM) including a 15 mm lowered

sports suspension

4.4 Acceleration from
0 to 62 mph in
seconds

600 Nm
torque at
1,500–4,500 rpm

Sports exhaust system
with sports tailpipes available in a choice
of silver or black

Fuel consumption (in mpg urban 22.4–23.0 · extra urban 35.3–36.7 · combined 29.1–30.1; CO₂ emissions 224–217 g/km)

**All your senses instantly ignite.
Especially when the key turns.**

The Macan Turbo with Performance Package.

100% is not enough. At least when building a Porsche. This is what repeatedly drives us. And spurs us on to greater things. The most recent being the Macan Turbo with Performance Package.

The figures simply speak for themselves: the 3.6-litre twin-turbo V6 engine produces 324 kW (440 hp) and delivers an additional 30 kW (40 hp) more than the Macan Turbo. It accelerates from 0 to 62 mph in just 4.4 seconds – making it four tenths faster. Its top speed: 169 mph. Performance that befits the ultra-modern, efficient 6-cylinder engine. The Sport Chrono Package adds even more excitement to the Macan Turbo: the SPORT PLUS button makes the engine even more responsive. The rev-limiter is adjusted to a harder setting, the shift times become even shorter and the gear changes

even sportier. The improved performance on the race track can be measured using the digital and analogue stopwatch. And the Launch Control function ensures optimum acceleration from a standing start. The sports exhaust system is not a fan of subdued tones. Why would it be? It delivers the typical Porsche sound – at the touch of a button and in its most powerful, resonant form. The sports exhaust system with sports tailpipes is a treat for both the eyes and ears.

Extremely close to the action: the steel spring suspension is lowered by 15 mm and has adaptive dampers (PASM), to guarantee improved road holding. From 100% we deliver peak performance. And then continue to improve.

- 1** Sports exhaust system with sports tailpipes available in a choice of silver or black
- 2** Titanium Grey engine compartment cover with carbon inlay
- 3** Sport Chrono Package
