

CUPRA ATECA

“WE ARE THE REDEFINITION
OF HIGH PERFORMANCE. OF
CRAFT AND UNIQUENESS. OF
THE WORLD OF RACING. OF
SOPHISTICATION AND DESIGN.
WE ARE MORE THAN A CAR
BRAND. WE ARE CUPRA.”

UNCONVENTIONAL PATH

It's about so much more than
just driving at high speed. It's
the sound, the materials inside
the car, even the smell. In a
performance car, everything
appeals to the senses.

MEET THE CUPRA ATECA

SPORTINESS, MEETS SOPHISTICATION

A symbol of understated power, and balanced control. Directly linked with CUPRA's performance heritage, the new CUPRA Ateca is a statement of authenticity and confidence. It's designed to offer all the space and comfort of an SUV, yet with the calm certainty of its power to deliver. Dynamism combined with serenity. Wildness, fused with restraint. It's more than a car. It's a lifestyle.

MORE THAN JUST AN ENGINE

A 2.0 TSI engine delivers 300PS, 400NM of torque, 0-62mph in 5.2 seconds and a top speed of 153mph. This engine comes with a powerful sound, and is equipped with a newly developed 7-speed DSG gearbox for faster, smoother and more precise changes.

In addition, the 4Drive traction system analyses road conditions in real time, including the speed of the car, speed of each wheel, the steering wheel position and the driving style or mode to quickly and progressively deliver power at each moment to the necessary wheels.

*The Recommended 'On The Road' price includes delivery charge to dealer and number plates, one year's Road Fund Licence at the First Year Rate (£0 – £2,070 depending on the CO₂ output of the vehicle), and the new vehicle registration fee (£55). VAT is calculated at 20.0%. Vehicles listed are WLTP (Worldwide Harmonised Light-Duty Vehicles Test Procedure) type approved. More information is available at seat.co.uk/wltp. In line with Government guidance, to facilitate direct comparison between different models from different manufacturers and to accommodate the full transition to this new testing regime, we have displayed NEDC derived figures. These NEDC figures are the values for this vehicle used in registration and taxation documentation until further notice from the UK authorities. These NEDC figures have been derived from WLTP testing, and may not be equivalent to NEDC figures from NEDC testing, so comparisons may be unreliable. Fuel consumption and efficiency figures are provided for comparative purposes only and may not reflect 'real world' driving results. Choice of wheels and other options may affect fuel consumption and emissions data.

**When Design and Comfort and Sound are combined, Space-saving spare wheel is replaced by Tyre fit kit.
