ŠKODA

The ŠKODA Fabia

Effective: November 2011

Welcome to the Fabia

The Fabia; what is it?

The Fabia is a small city car that offers you the space and versatility required for everyday life. With space for 5 people and still enough room in the back for your luggage, the Fabia is the ideal small family car. It's as happy doing 30mph through town on the school run as it is doing 70mph on the motorway and of course, at its core is the traditional ŠKODA offer of value for money and that legendary "extra bit of car".

Versatility across the range.

Unlike many of its competitors, the Fabia is available in hatch and estate. With eight different trim levels, five petrol engines, four diesel engines and a DSG gearbox, there will be a Fabia in the range that suits you.

Driving Position. As we spend more and more time in our cars, being comfortable is essential. With this in mind, the Fabia has been designed with a high driving position, allowing greater visibility of the road ahead, more headroom, and not to mention making it easier for you to get in and out of. From entry level the Fabia also comes with an adjustable driver's seat and a height and reach adjustable steering wheel so you will find getting a comfortable and safe driving position easy.

Boot space. The Fabia continues to impress even in the boot where, with the seats up, the hatch offers 315 litres of space while the estate offers a whopping 505 litres. With the seats down, the hatch and estate have 1,180 litres and 1,485 litres of space respectively. So regardless of whether it's the weekly shop, the annual holiday, or a trip to the garden centre, the Fabia's boot won't be lacking the space you need.

Music. In addition to the standard radio, every Fabia comes with a 3.5mm aux in socket. With the addition of a cable, this allows MP3 players to be connected to the car, meaning that you can listen to your MP3 player through the car radio. There is also an optional MDI (Multi Device Interface) cable. This enables you to connect a variety of music players through the purchase of additional cables (through retailer supplied accessories) from ipods to devices with USB or mini USB ports.

SE Plus. We are delighted to announce a new trim level for the Fabia range. The special edition Fabia SE Plus offers you the most popular options built into the standard specification of the car, at a fantastic price.

To ensure you get great value for money, we have packaged together our new Kristal upholstery with sunset glass, climate control, a multi-function steering wheel, rear electric windows and a multi device interface, just to mention a few items!

These additional features offer value in excess of £1,000 over the standard Fabia SE, but you will pay much less!

More details about the Fabia SE Plus can be found on page 9.

The Fabia was refreshed in March 2010, giving the car a more dynamic appearance. The main changes were to the front, a redesigned, wider front grille and newly designed headlights optically widen the car, strengthening the horizontal lines and increasing its road presence. The sculpted bonnet and wraparound windscreen with black A pillars and 'floating' roof remain, providing an air of style, elegance and contemporary design.

The modern exterior is matched by the updated interior. Newly designed stereos, steering wheels and upholsteries improve the feeling of style and quality in the Fabia - soft touch surfaces and ergonomically laid out controls make the car a joy to drive. With outstanding boot space, headroom and legroom, not to mention lots of room for luggage, driver and passengers can travel in comfort.

The biggest change for Fabia was under the bonnet. Cleaner and more efficient petrol and diesel engines offer the driver a suitable engine for every situation. TSI petrol engines offer a great blend of power and torque combined with low CO₂ and improved fuel economy, whilst the range of 'Common Rail' diesel engines emit just 109g/km of CO₂, helping to reduce the impact on the environment.

The new Fabia GreenLine II is fitted with technological advancements such as a Stop/start system, gear change recommendation and energy recovery, improving economy and lowering CO₂ emissions even further. These advancements mean the Fabia GreenLine II emits just 89 g/km CO₂, with a combined fuel economy of 83.1 mpg making it the most economical ŠKODA ever!

So now the introduction to the Fabia is over, why not take a look in a little more detail?

L	226 - 255	£790	£445
M	Over 255	£1,000	£460

OTR (Recommended On The Road)

* Recommended 'On the Road' prices include delivery, 12 months Road Fund Licence, DVLA First registration Fee (at £55), and apply to the United Kingdom only.

VED (Vehicle Excise Duty)

** All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO₂ figures may differ on these vehicles if taken from current ŠKODA UK stock. The VED bands are shown in the table opposite.

¹First year vehicle licence rates for petrol and diesel cars purchased on or after 1st April 2011. First year rate or 'showroom tax' applies to new car purchases only.

² Rate reverts to the Government's applicable Standard VED rate in subsequent years.

Please confirm figures with your ŠKODA retailer. Edition: UK 30th May 2011. VAT is calculated at 20%. For fuel consumption data, please refer to page 26-27.

Company car tax is based on your cars carbon dioxide emissions. The higher the car's emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes.

To help you work out your tax liability please refer to page 30.

P11D (Expenses and Benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BIK (Benefit in Kind)
The BIK percentage value is based on the CO₂ emissions of the vehicle for the current tax year 2011/2012.

ŠKODA GreenLine II Technology

A combination of innovative technology and practical design features ensure that the Fabia GreenLine II is highly efficient and environmentally friendly. Below is an explanation of the technology present in the Fabia GreenLine II and how it works to keep fuel costs down and environmental impact low.

1.2 TDI CR 75PS DPF. The economical three cylinder 1.2 TDI diesel engine in the GreenLine II produces just 89 g/km CO₂ which means road tax is totally free!

The Fabia GreenLine II has a combined fuel economy of 83.1 mpg, making the Fabia GreenLine II the most frugal ŠKODA ever made!

Energy Recovery. Energy recovery is the process of converting kinetic energy (energy created through movement) back into usable electricity, which is either stored in the battery, or immediately used again by electrical components on the vehicle.

Depending on driving style, electrical energy is supplied to the vehicle by the alternator or directly by the battery. The principle of energy recovery is to reduce the load on the engine and therefore contribute to lower emissions and reduced fuel consumption.

Aerodynamics. One of the simplest ways to improve fuel efficiency and reduce emissions, is to create a more aero-dynamic vehicle. The Fabia GreenLine II model has changes to the rear spoiler that improve the car's efficiency without compromising on style.

To keep the weight and drag of the GreenLine II models down to a minimum and thus ensure the model is as efficient as possible, there is a reduced list of options available.

However, the comfort and safety of all occupants has not been compromised and so important features like airbags and air conditioning have been retained.

Low profile tyres. The Fabia GreenLine II has 15" 'Antares' alloys (6Jx15" 185/60 R15 84T) these lighter alloy wheels with low rolling resistance tyres have a higher prescribed air pressure to reduce friction.

Stop/start System. This innovative system turns off the engine when it is not needed, for example when the driver is stopped at traffic lights or in heavy traffic.

When a normal car is stationary, the engine will idle, which in turn consumes fuel and generates emissions. The Stop/start system cleverly cuts out this unnecessary work by stopping the engine automatically when the car is stationary, in neutral and the clutch pedal is released.

The Stop/start system does not inhibit a quick getaway either. As soon as the driver presses the clutch to put the vehicle in gear, the engine immediately starts up so acceleration is as instant as if the car had been idling.

Gear change recommendations. The recommended gear feature on the trip computer or Maxi-dot display shows the driver whether the gear they are in is appropriate or whether they need to change up or down.

The aim is to help the driver achieve optimum engine speed and reduce fuel consumption.

VED (Vehicle Excise Duty)

** All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO₂ figures may differ on these vehicles if taken from current ŠKODA UK stock. The VED bands are shown in the table opposite.

¹ First year vehicle licence rates for petrol and diesel cars purchased on or after 1st April 2011. First year rate or 'showroom tax' applies to new car purchases only.

² Rate reverts to the Government's applicable Standard VED rate in subsequent years.

Please confirm figures with your ŠKODA retailer. Edition: UK 30th May 2011. VAT is calculated at 20%. For fuel consumption data, please refer to page 26-27.

Company car tax is based on your cars carbon dioxide emissions. The higher the car's emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes.

To help you work out your tax liability please refer to page 30.

P11D (Expenses and Benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BIK (Benefit in Kind)
The BIK percentage value is based on the CO₂ emissions of the vehicle for the current tax year 2011/2012.

□ Where law permits.

Power transmission

Clutch The clutch assembly comprises of a single dry clutch disc with membrane spring, asbestos free.

Manual transmission Five-speed manual transmission, fully synchronised with direct gearshift.

Automatic transmission 7 speed DSG Two coaxial dry multiple disc clutch, electro - hydraulically operated.

Chassis

Front axle/rear axle McPherson suspension with lower triangular links and torsion stabiliser.

Suspension Coil springs, telescopic shock absorbers, rear springs located outside the shock absorber.

Braking system Hydraulic dual-diagonal circuit braking system vacuum assisted.

Front brakes Ventilated disc brakes in sliding calliper design with piston.

Rear brakes Drum brakes with two self-adjusting brake shoes.

vRS and GreenLine II (Hatch) Disc brakes front and rear.

Handbrake Mechanical handbrake operating on rear wheels.

Steering Maintenance free rack and pinion steering with power assist.

Turning circle (m) 10

Tank

Fuel tank content 45 litres

Fuel Unleaded petrol RON 95 or unleaded petrol RON 91[†]/ Diesel.

Body type Five-door, five-seat, double-space steel bodywork, fully zinc-coated.

Drag co-efficient (Hatch)

Standard	0.32
GreenLine II	0.30
vRS	0.34

Drag co-efficient (Estate)

Standard	0.31
GreenLine II	0.30
vRS	0.33

Official fuel consumption for the Fabia range in mpg (litres/100km):

urban	36.7 (7.7)	-	68.9 (4.1);
extra urban	54.3 (5.2)	-	94.2 (3.0);
combined	45.6 (6.2)	-	83.1 (3.4).

CO₂ Range 148 - 89 g/km

[†]Using low-octane fuel may affect engine performance.

We measure the maximum power output figures of our engines in PS or Pferdestärke (horse strength in German), which is the metric equivalent of bhp. To convert from metric to imperial horsepower, divide the PS figure by 1.0139.

*Official fuel consumption according to EU Directive 99/94.

The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures which may differ from those calculated in this standard.

Nose weight max kg	50	50	50	50

* Kerb weight is the mass of the vehicle with body work in running order (kg) ** Payload includes driver at 75kg & equipment.

Technical glossary

ABS: the anti-lock braking system prevents the wheels from locking during heavy or emergency braking, enabling the vehicle to remain steerable. When braking, wheel speed sensors measure the road wheel speed and should one or more wheels start to lock the system reduces brake pressure to that wheel.

Elements of the ABS System :-

- **EBC:** Electronic brake control. The engine brake torque control regulates the power supply by intervening with the engine management system.

CAN Bus: the CAN Bus is an electronic data bus which links the various different electronic control systems in the car. It ensures ideal co-ordination between systems and reduces the amount of wiring needed in the car.

Fuel cut-out: should one or more of the airbags inflate after an accident, this system automatically cuts out the fuel supply, thus preventing subsequent leakage of the diesel or petrol.

Trip Computer: the trip computer not only features an impressive range of data displays, operating it is simplicity itself. A multifunction touch key enables you to call up all relevant data on the easy-to-read display. Features include external temperature, time, current fuel consumption, average fuel consumption, miles driven and average speed.

DPF: diesel particulate filter is part of the exhaust system responsible for cleaning the engine exhaust gases before they enter the atmosphere. The DPF catches soot particles emitted in the exhaust gas and it works in conjunction with the catalytic converter, which reduces the amount of harmful gases entering the atmosphere. The DPF must periodically be emptied of the soot particles, a process known as regeneration. This involves elevated exhaust system temperatures. A driving style is required during regeneration, where a constant vehicle speed above 37 mph must be maintained. This does not always suit customers who make frequent short journeys or experience stop/start driving or drive within inner-city or urban areas.

CR: the completely new range of diesel engines are built on a system of Common-Rail fuel injection. The diesel engines have a high-pressure common rail direct injection fuel system and four-valve technology. As a result, the new engines are much quieter, more refined in their operation and consume less fuel, compared to the Pump Duse engines and significantly reduce emissions.

ESP: electronic stability programme is designed to stabilise the dynamic handling response of the vehicle by counteracting any tendency towards oversteer or understeer. The ESP constantly compares the actual movement of the vehicle with predetermined values and according to the situation ESP reacts by braking each wheel individually (according to direction of slip) and automatically adjusting the engine's output.

Elements of ESP system:-

- **ASR:** anti-slip regulation traction control ensures the Fabia's stability when pulling away or accelerating. If the engine power or torque being transmitted to the drive wheels is too great, for example on a slippery road surface, engine torque is automatically reduced until optimum road holding returns, thus preventing wheelspin. A light indicates whether the ASR system is on. It can be manually switched off.

- **EDL:** the electronic differential lock continually compares the rpm of the drive wheels, and if it identifies a difference between them which could lead to an individual wheel spinning, for example if the two wheels are on different types of surface or accelerating on wet leaves, the system brakes the wheel affected until uniform rpm of all drive wheels is restored.

- **HBA:** Hydraulic brake assistant increases the optimal build-up of brake power. It ensures complete use of the brake system potential, thus shortening the braking distance.

- **HHC:** Hill hold control allows for a safe hill start by holding the brake for a small amount of time, reducing the risk of unintentional reversing or roll back.

- **TPM:** Draws the drivers attention to any pressure loss in any of the tyres. Early warning can prevent damage from occurring as a result of an under inflated tyre or a defect that radically changes the cars behaviour and driveability.

Calculating your tax liability

To find out how much tax you will pay, simply take the P11D value, then multiply this figure by the BiK percentage. Then simply multiply this figure by 20% or 40% depending on the level of income tax that you pay.

Please note if your employer provides you with free fuel, this is treated as an additional taxable benefit.

For more information on company car taxation please visit the HM revenue and customs website www.hmrc.gov.uk

BiK calculation example- Fabia S Hatch 1.2 12v 69PS 5spd

P11D value	£10,365.00
Company Car BiK tax based on CO ₂ emission level	15%
Taxable BiK (for 2011/2012 tax year): 15% of £10,365.00	£1,554.75

Annual company car tax (2011/12)

20% Income Tax: 20% of £1,554.75	£310.95
40% income Tax: 40% of £1,554.75	£621.90

Monthly company car tax (2011/12)

20% Income Tax: £310.95 divide by 12 months	£25.91
40% income Tax: £621.90 divide by 12 months	£51.83

Customer services

Talk to us on 08457 745 745

No matter what the query, our dedicated call centre is always ready to listen. No matter how big or small the request, speak to one of our customer care advisors to see if they can help. The call centre is open from 8.30am-5.30pm. If you're calling out of hours, then a message can be left and you'll be contacted back.

Peace of mind with a ŠKODA warranty

In the first two years of owning your car, you'll get the peace of mind of a two year unlimited mileage warranty. In addition, you'll also get a further warranty on new vehicles supplied through the appointed dealer network until the vehicle has completed 60,000 miles or the end of the third year, whichever is sooner.

Your Fabia also benefits from a 3 year paint warranty and 12 year body protection warranty.

A network that's here to help

With 17 years in the top 10 of JD Power's customer satisfaction survey, our network of approximately 125 sales retailers know how to treat a customer. You can be sure that as a ŠKODA customer, your retailer will look after you from the moment you walk through the door, throughout the life of your ŠKODA. Your Fabia will be serviced and maintained to the highest standards by specially trained ŠKODA technicians. And when you need a spare part you'll be happy to know that most are held in stock, or can be ordered within 24 hours. So if top class customer satisfaction is what you're after, the ŠKODA network will be there for you.

Motability

People in receipt of the Higher Mobility Component of the Disability Living Allowance receive special help from ŠKODA. Preferential prices on low cost Contract Hire are available through your local approved Motability retailer. For full details, contact your retailer.

If your ŠKODA's in trouble, rely on ŠKODA Assistance

Completely free of charge, every new ŠKODA is covered by ŠKODA Assistance, provided by the RAC through a dedicated team. This cover lasts for 3 years, with no mileage limit. So if you ever break down, you can use the freephone number to call out someone who really knows about ŠKODA cars to help. This service is even available in Europe, so you don't need additional breakdown cover when you're driving on the continent.

Financing your ŠKODA

We all know that times are hard, so ŠKODA Finance specialises in providing funding solutions for ŠKODA drivers. Regardless of whether you're a private or business user, you can choose from a range of funding options.

Finance products available are:

- Solutions - a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all ŠKODA Finance products you can choose a fixed-cost maintenance plan designed to help you budget accurately. No matter what finance product you choose, your local ŠKODA retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs. ŠKODA Finance is a trading name of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230.

Congestion charges

Cars that emit 100g/km or less of CO₂ (such as Fabia GreenLine II models) qualify for a 100% discount from congestion charging. Vehicles need to be registered to qualify, for more information visit www.tfl.gov.uk. There is currently a £10 registration payment required for the application to be completed.

Adding that little extra to your car

If the standard specification and factory fitted options aren't enough for you, then why not take a look at our range of retailer fitted accessories? A separate accessories brochure can be found at your local retailer, or can be ordered by phoning our call centre, or by going on-line at www.skoda.co.uk

ŠKODA Insurance

We want you to start enjoying your new car from day one and thanks to ŠKODA Insurance complimentary seven day cover you can. Call free on 0800 316 7895, provide us with a few details, and we'll send a cover note to your retailer. They will then tax your car and you can drive it away. Telephone lines are open Monday to Friday 8am - 9pm and Saturday 9am - 5pm.

For details of our full range of insurance products visit insurewithskoda.co.uk. You can get an annual car insurance quote for your ŠKODA and buy it online too.

ŠKODA Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited, an appointed representative of Volkswagen Financial Services (UK) Limited, registered in England number: 2835230 (registered office: Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR). ŠKODA Insurance motor insurance is sold, underwritten and administered by Allianz Insurance plc, registered in England number: 84638 (registered office: 57 Ladymead, Guildford, Surrey GU1 1DB). Both organisations are authorised and regulated by the Financial Services Authority (FSA), whose registration numbers are 311988 and 121849 respectively. Authorisation details can be checked on the FSA's register at fsa.gov.uk or call 0845 606 1234. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are not part of the same corporate group.

The information in this brochure referring to specification, design, equipment, material and external appearance relates to the time at which this brochure was printed. Whilst every effort is made to ensure its accuracy, the information in this brochure is not binding and is subject to alteration. Some illustrations in this brochure depict left hand drive models, with both standard and optional equipment shown. Please confirm exact specifications, prices and colour availability with your SKODA retailer who will be notified of any specification changes as they occur.
