

KODIAQ SCOUT

ŠKODA

Effective: October 2017

BORN TO BE WILD

The Kodiaq Scout's robust body with protective elements radiates wild beauty, toughness and a huge appetite for adventure.

SIDE VIEW

Rugged looks meet elegance. While the square wheel arches, angular mud flaps and the protective sill covers show that this car is equally at home on dirty roads, the chrome surrounds around the side windows represent a seal of luxury. The roof railings and side-view mirror covers come in silver.

FRONT VIEW

When looking at the car from the front, you can identify the Scout version by the robust front and rear unique bumpers. Another hidden, but crucial piece of equipment, is the rough road package on the chassis including, for example, the lower engine and transmission cover, so you can go off-road whenever the opportunity takes you.

REAR VIEW

The rear bumper with a silver protective cover lends the car's body a tough appearance. The vertical black extensions which merge with the roof spoiler and border the rear window improve aerodynamics. The rear lights, with familiar C-shaped illumination, are always equipped with LEDs.

Kodiaq Scout

HEADLAMPS AND FOG LAMPS

The characteristic fog lamps of the Kodiaq have found their way inside the Scout version, too. The location of the fog lamps at the height of the radiator grille, where they are protected from damage, clearly shows the car's off-road ambitions. The main headlamps boast an eye-catching integrated strip of LED daytime running lights. The top-end option is all about LED technology.

SCOUT BADGE

The car features the original Scout badge on both front wings.

DOOR SILL

You will find the Kodiaq inscription on the front decorative door sill strips.

4X4 BADGE

Scout versions, like all four-wheel drive ŠKODAs, carry the 4x4 badge.

A detailed view of the interior of a Skoda Scout. The dashboard features a large wood-grain panel with a 'SCOUT' badge on the right. To the left of the wood panel is a digital display showing the Skoda logo and 'Welcome to SKODA'. Below the dashboard, the center console has circular air vents and a 'SCOUT' badge. The passenger side door is visible, featuring a wood-grain trim and a green ambient light strip. The front seats are upholstered in dark fabric with light-colored stitching. The side mirror reflects a desert landscape.

ESCAPE BEFORE YOU EXPLORE

Models shown are not UK specification. Some of the equipment shown is optional.

START AS YOU MEAN TO GO ON

Live out your adventures in total comfort. While the car navigates the dust and mud, you can instead enjoy the advanced technology and clever details.

STEERING WHEEL AND PEDAL COVERS

The multifunctional leather steering wheel, which lets you control the radio, phone and alternatively DSG (Direct Shift Gearbox), can be equipped with heating function, controlled via the infotainment system. Your feeling of comfort is complemented by steel foot pedal covers.

LOGO

The Scout logo is embroidered on the seat backrests.

INTERIOR DESIGN

The specific décor as well as the Scout logo on the seats and dashboard are characteristic interior features. The ambient lighting offers ten colour options and runs along inside of the car.

BREAK FREE OF EXPECTATION

If you want to unveil its real skills, take the Kodiaq Scout off the beaten track. High hills, deep valleys, gravel, mud, snow, potholes – no problem.

ALL-WHEEL DRIVE

The 4x4 drive is provided by an inter-axle electronically-controlled multi-plate clutch. The coupling of the rear axle is automatic, so under normal conditions the car can utilise the advantages of front-wheel drive, and under extreme conditions the excellent traction of the 4x4 drive.

DSG AND 4X4

Whatever the conditions throw at you, enjoy absolute comfort and fuel efficiency with 4x4 drive and automatic 7-speed or 6-speed DSG (Direct Shift Gearbox).

DYNAMIC CHASSIS CONTROL

Your car can be equipped with the adaptive chassis (DCC), which continuously evaluates and responds to various driving situations (braking, acceleration, turning), adapting the damping characteristics. DCC always comes in combination with Driving Mode Select and allows you to choose Comfort, Normal or Sport mode.

OFF-ROAD MODE

With the intelligent Off-Road-Mode system, which operates at speeds of up to 19mph, you can handle even extreme terrain. It is designed to adjust the characteristics of the engine, electronic assistants and stability control systems. The activated functions are shown on the infotainment display.

DRIVING MODE SELECT WITH SNOW MODE

Activated with mode button on the centre console, Driving Mode Select offers Eco, Comfort (with DCC only), Normal, Sport and Individual modes as well as the Snow Mode, which ensures good handling even on low-grip surfaces.

CONNECTIVITY TO GO WHEREVER YOU GO

By enabling you to be fully online on the move, the Kodiaq Scout helps you stay connected wherever your adventure takes you. Thanks to its smart assistance systems, you'll also know the best places to park, shortcuts to take and routes to avoid.

STAY CONNECTED

The new ŠKODA Connect system turns the Kodiaq Scout into a fully interconnected car. Infotainment Online provides satellite navigation, traffic reports and calendar updates. With Proactive Services the car will contact your ŠKODA Retailer to arrange a service. Finally, Emergency Call will contact the emergency services in the event of an accident to get you the help you need.

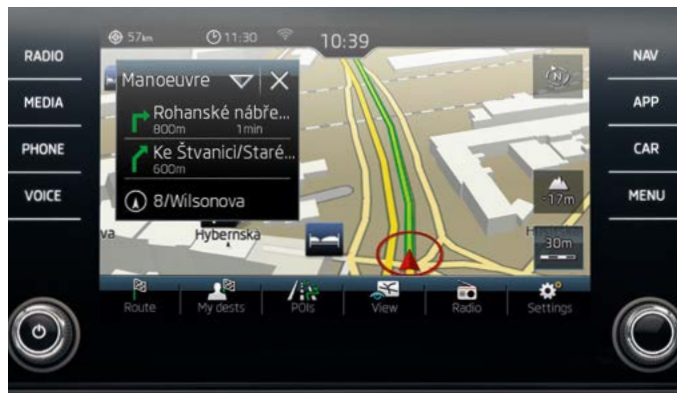

WIRELESS CHARGING

The days of scrambling for a charger and untangling cables are over. Located within the centre console, the Wireless Charging and Phone Box boosts your smartphone signal, whilst charging Qi-enabled handsets.

NAVIGATION SYSTEM

The Columbus satellite navigation with 9.2" touchscreen display and integrated Wi-Fi will get you from A to B, but why stop there? With its Bluetooth®, SmartLink+ and Wi-Fi capability, it offers more connectivity on-the-go.

SMARTLINK+

SmartLink+ enables you to connect your smartphone through the infotainment system with Apple CarPlay™ and Android Auto™ as standard across the range.

CANTON SOUND SYSTEM

Premium German sound engineering, tailor-made to your Kodiaq Scout. The CANTON Sound System delivers powerful clarity from 10 speakers around the car.
