Why finance with us?

We believe a great driving experience should be matched by an equally great ownership experience. That is why we put just as much thought, time and effort into designing our finance options, our service plans and our insurance cover as we do into our vehicles.

We are not in the business of simply providing a loan to fund the purchase of your dream vehicle. We look on it as a journey that we take with you, from the moment you choose your new smart, to helping you in choosing your next one.

If you would like to find out more about any of our current offers, simply call into your local smart Retailer where one of our Business Managers will be more than happy to talk you through anything you need to know.

- > We have clear and transparent rates – the APR we quote is the APR you get.
- > We have friendly Business Managers – experts in vehicle finance who can talk you through all of your plans in detail.

If you would like to find out more about any of our current offers, simply call into your local smart Retailer where one of our Business Managers will be more than happy to talk you through anything you need to know.

Agility (our PCP product).

At the start of an Agility agreement, you put down a deposit and decide the term of your agreement and your annual mileage. You will be advised of the Guaranteed Future Value, which offers you the reassurance of knowing exactly what you will need to pay to own the vehicle outright in the future (this is known as the Optional Purchase Payment).

Throughout your agreement you simply pay your agreed monthly payments and when the agreement comes to an end you either purchase, hand back or part-exchange your vehicle.
