» smart EQ fortwo coupé.

2.69 m forward thinking: the original for the city. Just as short, but electric through and through – with intelligent connectivity, even greater agility, and always with full torque thanks to seamless acceleration.

>> smart EQ fortwo cabrio.

Open for new energy: the urban convertible. Open sky, empty road and virtually no driving noise – the smart EQ fortwo cabrio is a fresh breeze in the city with new design and intelligent ideas.

» smart EQ forfour.

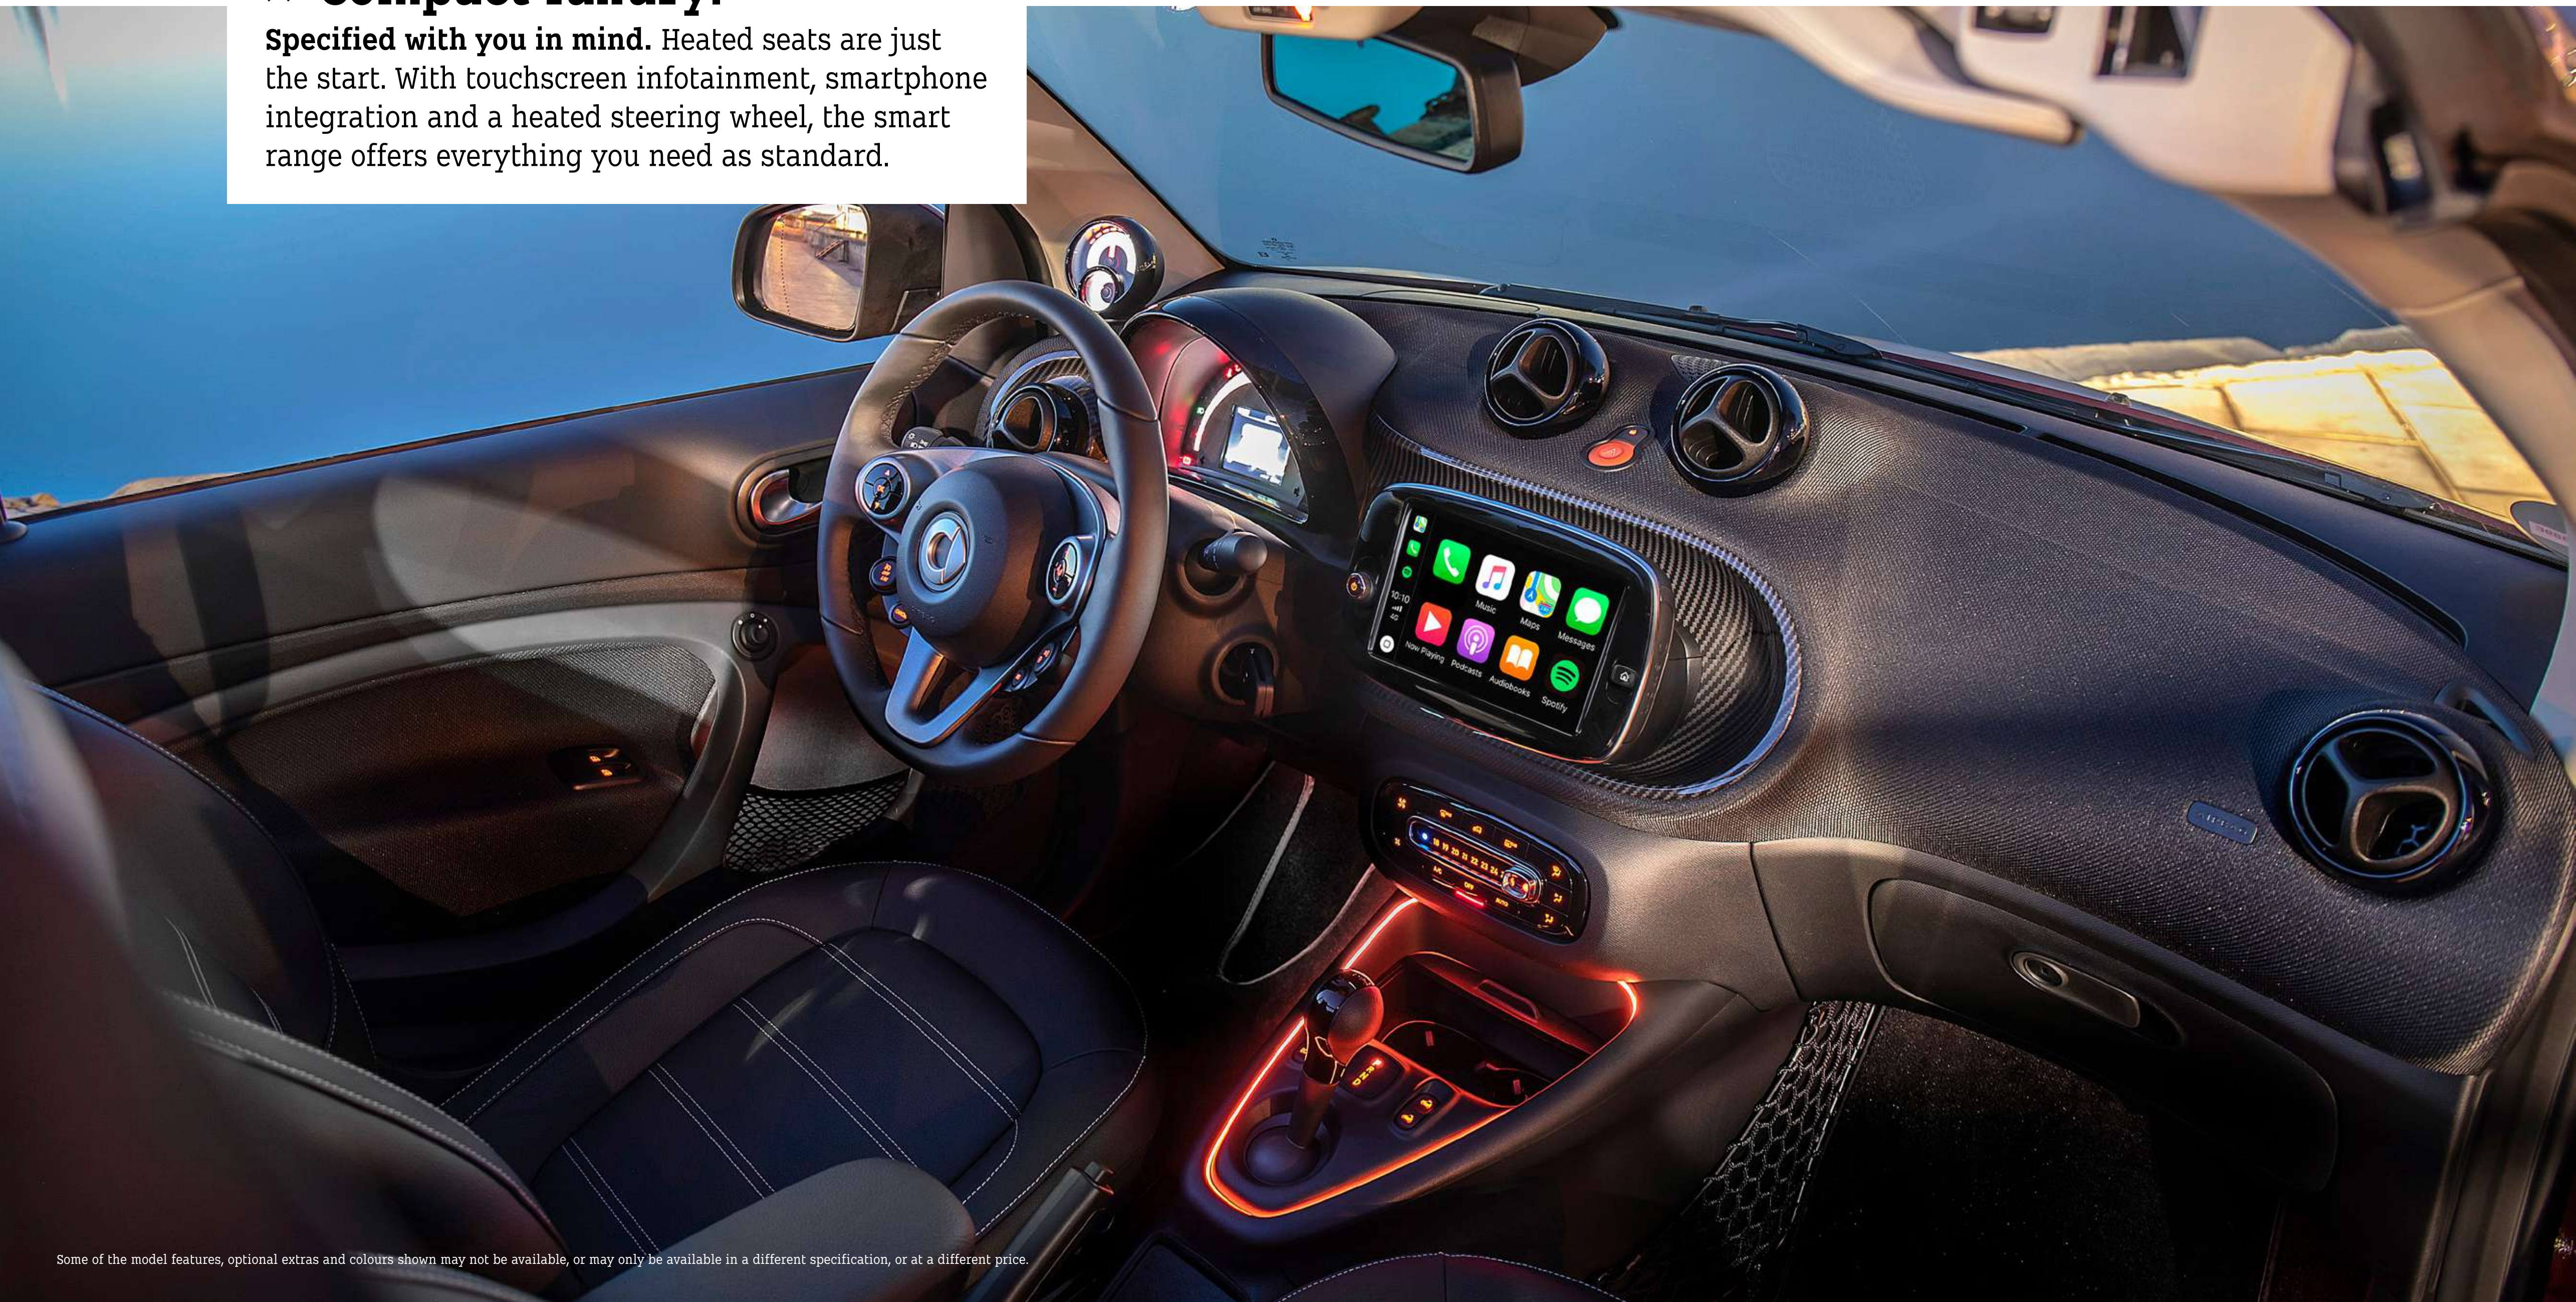

Intelligent charging and plenty of storage space: the electric four-seater for the city. 100% electric. The smart EQ forfour is the perfect city car for four people or lots of luggage.

»» Compact luxury.

Specified with you in mind. Heated seats are just the start. With touchscreen infotainment, smartphone integration and a heated steering wheel, the smart range offers everything you need as standard.

>> EQ Control App.

**Make your smart smarter with the EQ Control App.
Available on Android, Apple and Apple Watch.**

With the smart EQ Control App you are able to:

Remotely check how much range you have left

Schedule charging to ensure you're ready to go when you need to

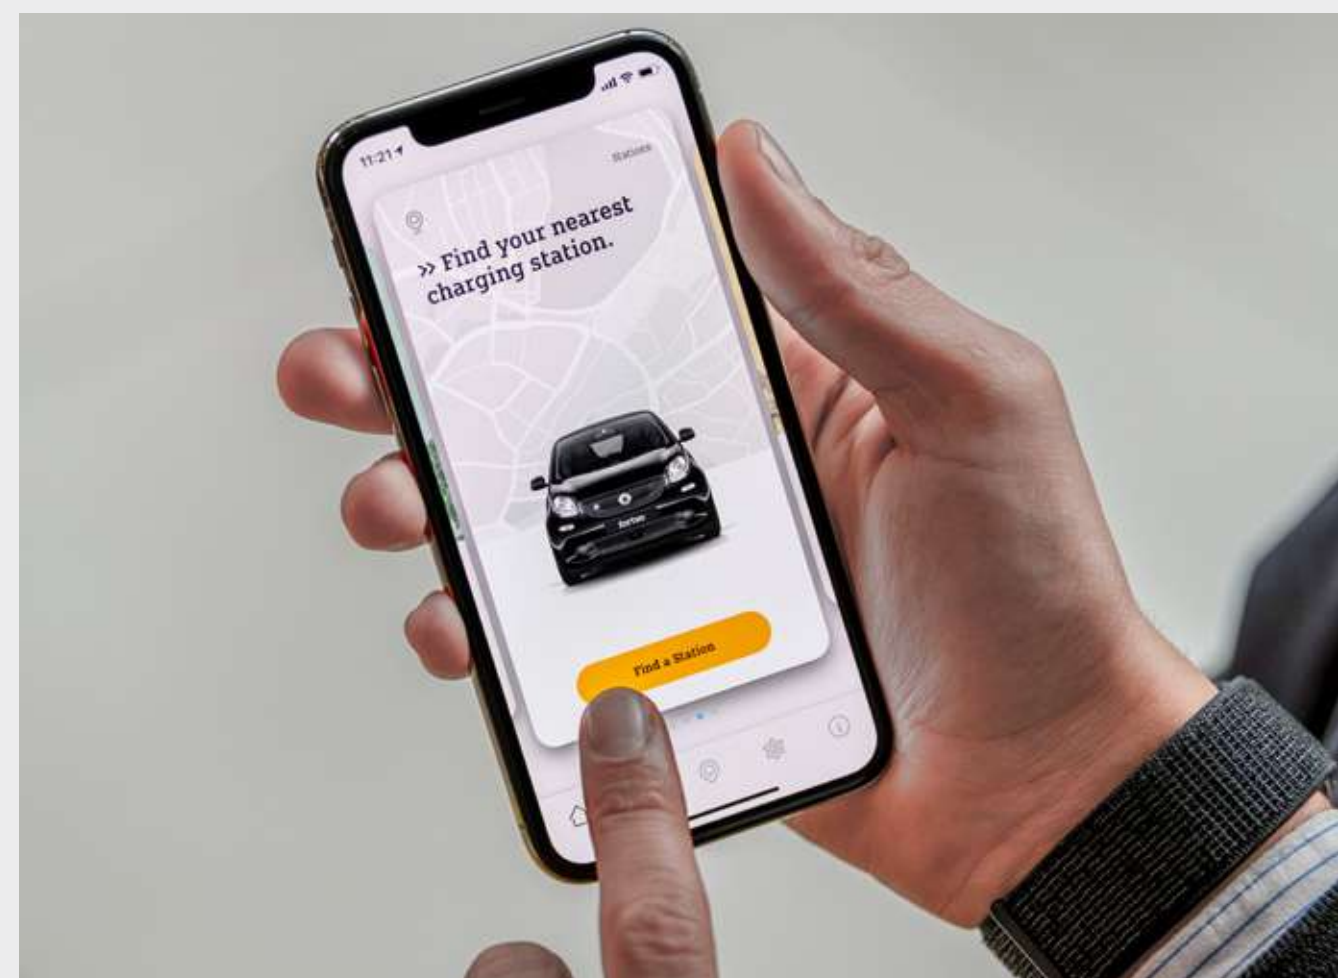

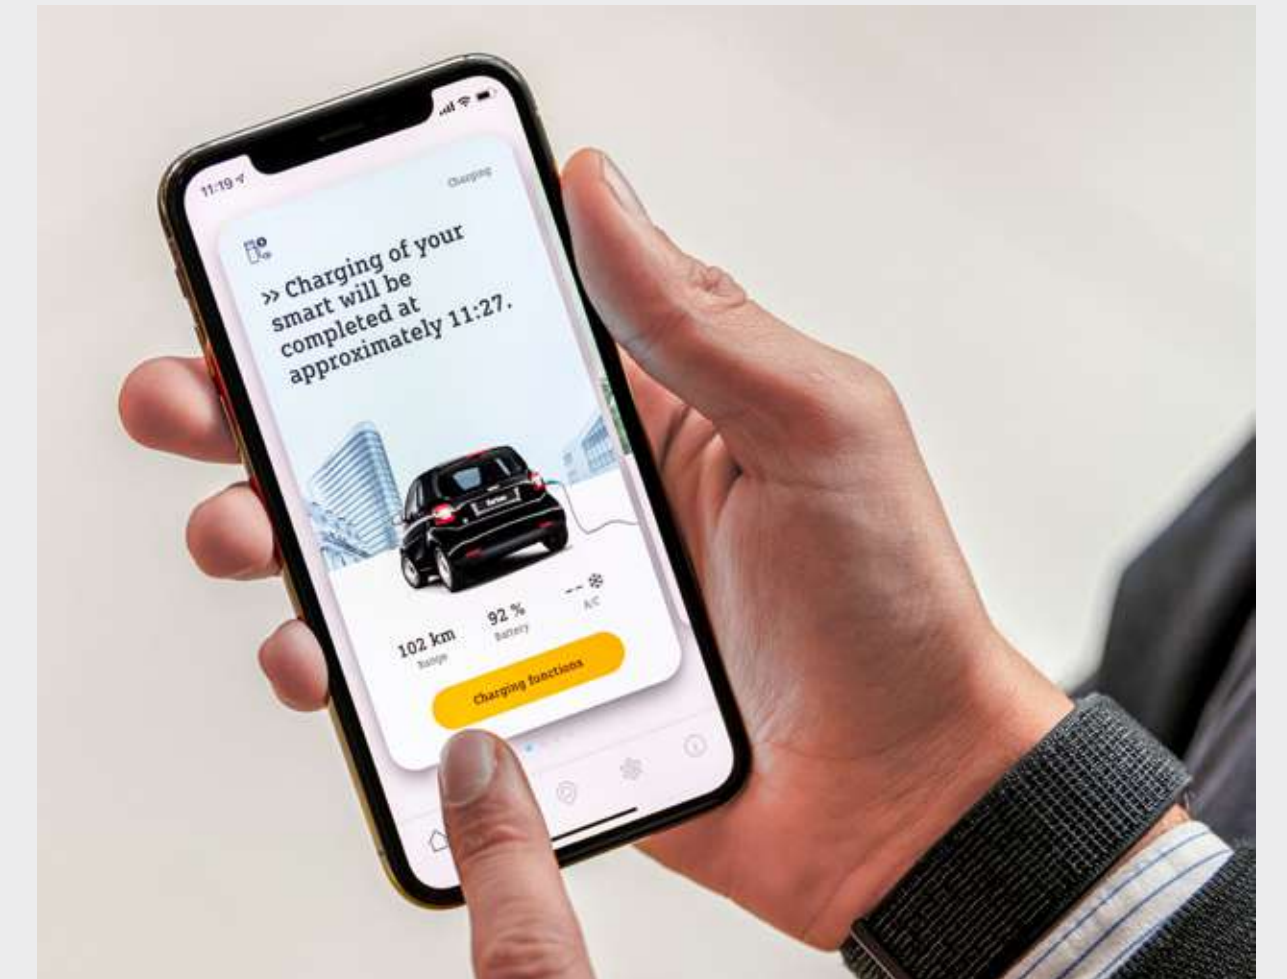

Set the pre-entry climate control and departure time, to ensure your smart is always ready, just how you like it

Charge point finder, so that you can top - up on the move

Eco driving tips, to help you get the best range

>> Home charging with bp pulse.

Simple steps to effortless charging.

smart plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a home charger. Charge your vehicle with the home charger up to 3x faster than using a standard domestic socket.

Home charging with bp pulse: £999* incl. VAT and standard installation

Key benefits of the home charger:

- > bp pulse is one of the only full-service charging solution providers in the UK – producing and installing tens of thousands of their own smart-enabled and reliable Homecharge units across the country.
- > A comprehensive 3 year warranty.
- > The standard installation package includes up to 15m of external cabling.
- > It comes with a bundled offer of 3 month free subscription to the public network and 250 free miles of charge.
- > The bp pulse home unit is designed from the ground up to be user friendly, future proofed and feature packed with an exciting roadmap of over the air updates ahead.
- > The bp pulse public network consists of over 9,000 charging bays across the UK. Average costs are between £0.30–£0.55 per kW across fast, rapid and ultra-rapid charge points with the best rates on a subscription basis.
- > Choice of tethered or un-tethered units.

OZEV Grant:

You may be entitled to claim for an OZEV grant towards the cost of your home charger.¹ To find out whether you are entitled please contact your local Retailer.

Questions?

Please contact your local Retailer to submit an enquiry to your chosen charging partner on your behalf.

Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change

¹The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see <https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21>.

» Home charging with Pod Point.

Simple steps to effortless charging.

smart plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a home charger. Charge your vehicle with the home charger up to 3x faster than using a standard domestic socket.

Home charging with Pod Point: £875* incl. VAT and standard installation

Key benefits of Pod Point:

- › Pod Point is one of the leading provider of EV charging in the UK with over 120,000 home chargepoints installed.
- › A comprehensive 3 year 'swap out' warranty is included.
- › Auto Power Balancing lets you adjust your charge so that your electrical supply doesn't get overloaded when your home is using a lot of energy.
- › Built-in earthing protection removes the needs for expensive earth rods.
- › The Pod Point public network consists of over 6,200 charging bays across the UK with over 80% of the charge points free to use.
- › The standard installation package includes up 15 m of external cabling.
- › Choice of tethered or un-tethered units.

OZEV Grant:

¹In accordance with Directive ECE R85 in its currently valid version. ²The indicated values were determined according to the prescribed measurement method – Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. For Battery Electric Vehicles (BEV) figures determined with battery fully charged. These models require mains electricity for charging. ³The figures stated were determined in accordance with the stipulated measuring method in accordance with EC Directive 715/2007 in the currently applicable version. ⁴Depending on the local electricity infrastructure and the charging current set on the charging cable. **If you are planning to charge your smart electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.** ⁵Up to roof in accordance with standard DIN 70020-1. ⁶Figures in accordance with Directive 92/21/EC in the version 95/48/EC (mass in running order, with driver, 68 kg and luggage, 7 kg) for vehicles with standard equipment. Optional equipment and accessories generally increase this figure, which means that the payload is reduced accordingly. Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish fuel consumption and CO₂ figures can be found at <http://carfueldata.direct.gov.uk>

>> Finance & Insurance.

Why finance with us?

We believe a great driving experience should be matched by an equally great ownership experience. That is why we put just as much thought, time and effort into designing our finance options, our service plans and our insurance cover as we do into our vehicles.

We are not in the business of simply providing a loan to fund the purchase of your dream vehicle. We look on it as a journey that we take with you, from the moment you choose your new smart, to helping you in choosing your next one.

If you would like to find out more about any of our current offers, simply call into your local smart Retailer where one of our Business Managers will be more than happy to talk you through anything you need to know.

Helping you find the right solution.

You should find our finance packages are more convenient than a traditional personal loan because:

- > Funds are immediately available – no waiting for cheques or loans to clear.
- > We have clear and transparent rates – the APR we quote is the APR you get.
- > We have friendly Business Managers – experts in vehicle finance who can talk you through all of your plans in detail.

If you would like to find out more about any of our current offers, simply call into your local smart Retailer where one of our Business Managers will be more than happy to talk you through anything you need to know.

One of our most popular finance products is Agility (our Personal Contract Purchase product). We also offer Contract Hire, Operating Lease and Hire Purchase solutions.

If you would like to find out more about these speak to your Retailer or visit

uk.smart.com/fandi.

Agility (our PCP product).

At the start of an Agility agreement, you put down a deposit and decide the term of your agreement and your annual mileage. You will be advised of the Guaranteed Future Value, which offers you the reassurance of knowing exactly what you will need to pay to own the vehicle outright in the future (this is known as the Optional Purchase Payment).

Throughout your agreement you simply pay your agreed monthly payments and when the agreement comes to an end you either purchase, hand back or part-exchange your vehicle.

Insurance by smart

We know that once you have chosen your smart you can't wait to drive it – that's why we created First Cover¹. It gives you 7 days' free comprehensive Motor Insurance when you buy a new or used vehicle from a smart Retailer. We will also send you a quote for annual cover, so you can enjoy the same peace of mind all year round.

¹Terms and Conditions apply. We are an independent intermediary dealing with selected insurers in respect of annual insurance

>> Warranty.

smart road assistance.

With smart road assistance you can rest easy knowing your smart is in good hands in case of accident, breakdown, minor mishap, or vandalism. If your smart encounters trouble, you'll be able to get back on your way with smart road assistance thanks to benefits such as breakdown repair and towing, hotel accommodation and a replacement car.

All smarts registered in the UK on or after 01/11/2014 will benefit from smart road assistance for three years. After this, your smart road assistance will be automatically renewed for a year every time your smart goes in for an official smart service for up to 30 years.

Full flexibility. Not just in road traffic.

The new manufacturer's warranty without mileage restrictions from smart offers you a comprehensive scope of protection. We also offer smart ServiceCare, which is a service plan designed to take care of your servicing costs for the next two, three or four services. smart ServiceCare is a great way of keeping your smart in the best shape at a Retailer whilst keeping the costs as transparent as possible.

Warranty.

3 year warranty on new cars without mileage restrictions, for complete peace of mind. Corrosion cover warranty is 12 years on new cars.

Battery warranty.

Up to 8 years or 62,000 miles. Please refer to the service booklet for precise conditions.

>> Servicing.

smart ServiceCare.

With smart ServiceCare from £15.00 per month, it's easy to enjoy more flexible and affordable car servicing at your local smart Retailer. Because ServiceCare guarantees the price of parts and labour for up to four services and cleverly protects you against any further inflationary rises, the price will never go up.

2 services			
12 months		24 months	
£30.00		£15.00	
3 services			
12 months	24 months		36 months
£45.00	£22.50		£15.00
4 services			
12 months	24 months	36 months	48 months
£60.00	£30.00	£20.00	£15.50

But that's not all.

You'll have a choice of easy ways to pay as well. You can either add your servicing costs to your monthly budget from £15.00, or pay all your servicing costs in one lump sum. Either way, you can relax knowing it's taken care of in the best way for you.

- > ServiceCare guarantees the price you pay today is the price for the next two, three or four services, so what you pay won't go up even if inflation does.
- > Monthly costs from £15.00 make it easier for you to budget because you can spread the cost of servicing.
- > You'll be adding an official stamp to your service history. So when it comes to selling your pride and joy on, future owners can look for the manufacturers' seal of approval when they buy.
- > You'll have the satisfaction of knowing that your car will be serviced by specially trained technicians, using the latest diagnostic equipment and smart GenuineParts.
- > Fully transferable to a new owner if you sell your smart, providing the plan is paid for in one lump sum.

smart  fortwo & forfour

We will be happy to take back your smart for environmentally friendly disposal in accordance with the European Union (EU) Directive on End-of-Life Vehicles – but that day lies a long way off. To make it as easy as possible for you to return the vehicle, there is a network of companies which will take back your old car and dismantle and recycle it. You can return your vehicle to one of these companies free of charge. In doing so, you will be making a valuable contribution to closing the recycling loop and to saving resources.
