

korando sports

SSANGYONG

A hard working pick-up that drives like an executive car. A dynamic transporter for next weekend's sporting adventure. A rugged family 4x4 with a hugely versatile load space. Korando Sports is a car of many talents, and it's covered by our generous 5 year limitless mileage warranty.

CHOOSE YOUR COMFORTS

Deep windows bring a special airiness to the spacious five seat cabin while the dark upholstery and LED instrument lighting keep things cool and contemporary. Air conditioning, leather covered steering wheel and gearknob and a high-grade Kenwood stereo with MP3 and Bluetooth are standard across the range. Alloy wheels are 16" on the SX, 18" on the EX, which also includes luxury touches such as leather seats, complete with heated front seats and driver's power adjustment, auto folding mirrors and rear parking sensors.

Many pick-ups and 4x4s use a rudimentary, leaf-sprung rear suspension. Korando Sports employs a multi-link rear suspension with coil springs – just like a car. Which is how it drives.

Smooth and composed on the road, rugged and surefooted off road, strong and dependable when towing a load. The Korando Sports' 155bhp turbodiesel engine provides 360Nm of pulling power, while selectable 4x4 with low range and driver's aids (Electronic Stability Program and Active Rollover Protection) keep you firmly in control.

ADAPTABILITY

The optional moulded rear canopy provides estate car versatility. Styled and colour matched, it integrates with the central locking system.

Or leave it open for easy access to the 2.04m² load deck. The fully lined rear deck includes integrated anchor points for securing loose loads. Korando Sports is designed for whatever life throws at it.

WORKING FOR YOU

A rigid separate chassis brings exceptional strength and durability to handle heavy towing and serious off roading, while car-like refinement keeps you comfortable inside. Korando Sports is built to tackle any lifestyle, from the building site to the stables or from the top field to the school run – and all your journeys in between.

* At maximum towing weight the trailer must have remote braking capability.
** A guide to fuel economy and CO2 emissions which contains data for all new passenger car models is available at any point of sale free of charge. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel consumption and CO2 emissions. CO2 is the main greenhouse gas responsible for global warming.
