MUSSO PICK-UP

A great looking pick-up that drives like a saloon car?

A hard working truck that's man enough for your business?

Dynamic family transport for next weekend's adventure?

A huge load carrier with a 1 tonne payload and 3 tonne towing capacity with a hugely versatile loadspace?

Musso Pick-up is all of the above – it's a vehicle with huge abilities and a thirst for hard work.

And it's covered by the most comprehensive warranty in the business – 5-year and limitless mileage – more generous than any of its competitors.

And all of that is for a price our competitors can't match.

But it's not just a bargain, it has features that shame many of its peers. Most pick-ups use a rudimentary leaf-sprung rear suspension. Musso Pick-up has multi-link rear suspension with coil springs – just like a car, which is how it drives.

All models feature stylish 18" alloy wheels; and the EX also has smart LEDs around the fog lights, roof rails, auto folding mirrors, rear parking sensors and 18" alloys that are finished in black to add just a little drama.

INTERIOR COMFORT

Deep windows bring brightness to the spacious five-seat cabin, while the dark upholstery and LED-lit instruments keep things cool and contemporary. Air conditioning, leather covered steering wheel and gear knob, a high grade radio with both MP3 and Bluetooth capabilities are standard across the range.

The SE features new leather-look seats, a bright finish to the vents and controls and a smart steering wheel featuring controls for the radio, phone and cruise control.

Stepping up to EX brings the luxury of leather seats with front seat heaters and power adjustment on the driver's side, an easy to use 7" touchscreen to control radio, phone and music via either USB or Bluetooth. There's also automatic climate control, rain sensing wipers and auto headlights to give that extra feel of luxury.

REAR VIEW CAMERA

Fitted to EX models and linked to the dash-mounted 7" touchscreen the useful reversing camera gives you rear vision in the tightest corners.

DIESEL ENGINE

Smooth and composed on the road, rugged and surefooted off-road, strong and dependable when towing a load. Musso's 178PS turbodiesel engine provides 400Nm of pulling power, while selectable 4x4 with low range and electronic driver aids (Electronic Stability Program and Active Rollover Protection) keep you firmly in control on and off the road.

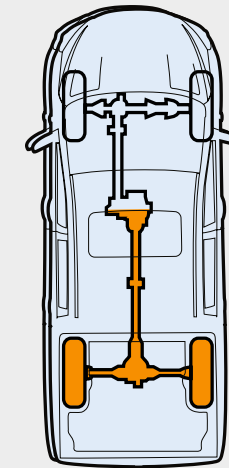

And with a 1 tonne payload and 3 tonne towing capacity, Musso is ready to perform, whatever your business.

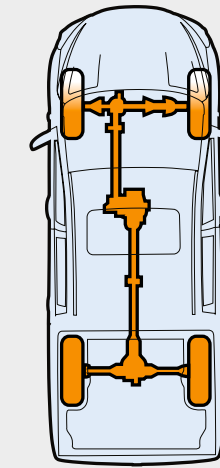

MANUAL TRANSMISSION

A smooth shifting 6 speed manual transmission allows you to take control regardless of the conditions – ideal for controlled off-road driving and towing or carrying the heaviest loads.

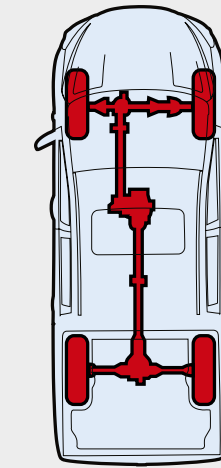

4 X 4

Rear wheel drive

High range
4WD (4H)

Low range
4WD (4L)

AUTOMATIC TRANSMISSION

Musso Pick-up's 6 speed automatic gearbox is from Japanese manufacturer Aisin – renowned for its seamless shifts and with the ability to match the 400Nm produced by Musso's torque new engine.

HARD TOP OPTIONS

The moulded rear canopy provides estate car versatility. Styled, colour-matched and with a heated rear window, sliding front glass, an LED interior light, central locking, opening side windows and roof bars; your pick-up can become an elegant estate.

The chequerplate cover is a good looking and versatile top which is hinged to provide a flexible storage area just right for your business.

PRACTICALITY

A rigid separate chassis brings exceptional strength and durability to handle heavy towing and serious off-roading, while car-like refinement keeps you comfortable inside. Musso Pick-up is built to tackle any task; from the building site to the beach, or from the top field to the school run and all journeys in between.

Keep the top open for easy access to the 2.04m² load deck. The fully-lined rear deck includes integrated anchor points for securing loose loads. Musso Pick-up is designed for whatever life throws at it.

REXTON CSE

The new Rexton CSE is the affordable commercial 4x4. Based on the Rexton SE, the rear seats have been removed and a flat load floor created, leaving a cavernous space for you to fill with whatever your business requires. In addition, the rear windows have been tinted and an optional bulkhead is available for enhanced security.

- Efficient 2.2 litre diesel engine
 - 3 tonne towing capacity
 - Selectable 4x4 with low range
 - Flat load floor
 - Roof rails
 - 16" alloy wheels
 - Tinted rear windows
 - 6-speaker audio system with Bluetooth and iPod connectivity
 - Optional bulkhead available
-

KORANDO CSE AND CSE 4X4

Ideal as a small delivery van or go-anywhere vehicle for service engineers, or simply a light commercial to ensure you reach your destination in comfort.

The completely flat load area is accessed via a high lifting tailgate or two side doors and packs a useful 1,312 cubic litre load volume. Korando CSE makes the perfect business partner – and add 4x4 for security whatever terrain your business requires you to traverse.

- Efficient 2.2 litre diesel engine
 - 2 tonne towing capacity
 - Torque on demand 4x4 (CSE 4x4)
 - Flat load floor
 - Roof rails
 - 16" alloy wheels
 - Tinted rear windows
 - 6-speaker audio system with Bluetooth and iPod connectivity
 - Optional bulkhead available
-

* At maximum towing weight the trailer must have remote braking capability. ** A guide to fuel economy and CO2 emissions which contains data for all new passenger car models is avaiable at any point of sale free of charge. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel consumption and CO2 emissions. CO2 is the main greenhouse gas responsible for global warming.
