

NEW

MUSSO

SSURPRISINGLY SSANGYONG

Musso, striking uncompromising authentic

Musso has always been a great looking truck, but new Musso has revised front styling that adds drama and impact to its appeal. The ladder style grille and projection headlamps with LED DRL's flanked by triple stacked LED fog lamps give maximum roadside impact to this well-proportioned truck.

Musso picks-up awards

Year after year. Musso and Rhino LWB keep picking up the weightiest awards for value and for pulling power. In the best pickup for payload category we're proud to be the strongest performer against the heaviest of competition.

Pick-up strength SUV style

It's big. It's bold. It's built to do the job. Musso may be tough, but it's not rough. Its pick-up DNA is now more elegant whilst retaining an uncompromising work ethic. Its SUV heart is all sophistication and style.

Electric, folding, heated door mirrors with side repeater

Electrically controlled door mirrors with integrated turn indicators and puddle lights give perfect rear vision.

Stylish light cluster and fog lights

Musso drivers do early mornings and late nights. These lights will show you the way with style.

Roof bars

Practical, purposeful and aerodynamic. These are proper roof bars for a proper job.

Equipped for any task

Musso is engineered to go wherever it's needed and do whatever needs doing. Thoughtful features are added to a big, strong, capable vehicle – for practicality, not show.

Rear view camera

Not just for supermarket car parks. A genuine tool for getting into and out of the tightest places.

Front and rear parking sensors

Musso is big. Seriously big. Sensors mean parking is never a spot of bother.

Clean sill doors

The sill is covered by the bottom of the door, so your clothes are protected when getting in or out of the vehicle.

The great indoors

Prepare for the unexpected. On the outside Musso is muscular and strong. Inside it's a haven of quiet well-appointed sophistication almost unique in a pick-up. Settle back in the commanding driver's seat and admire the touches of luxury and style.

Seriously comfortable front and back

Musso is big on comfort, any day of the week. Workdays and weekends, it's comfortable and, unusually for a pick-up, equally accessible front and back.

Heated front and rear seats

Heated front and rear seats are an indulgence that warms everyone up on early starts.

Ventilated and power adjustable front seats

There's 8 way power adjustment to the driver's seat (6 way front passengers) both with power lumbar support.

Rear row air vents plus aircon on all models

Keep the guys in the rear seats happy and chilled with independent air vents in the back.

Tools of the trade

Musso drivers are no ordinary drivers. They're first on the road in the morning before the frost thaws. They drive longer, harder miles in tougher, more trying conditions. Musso gives them the tools to get the job done. Better.

Heated steering wheel

When it's cold outside, there's nothing more warming than the comfortable touch of a heated steering wheel.

Dual zone climate control

We've all got to work together. You may want to turn the heat up, whilst your passenger chills out. Dual zone. Joint decisions. No sweat.

Remote locking

The doors can be opened with a button on the remote.

Push button start

Musso is ready to go. A touch of the start button and the response is immediate.

Remote control audio and cruise control on steering wheel

Auto headlamps and auto wiper controls

It's sound stuff

Get comfortable and discover three advanced state-of-the-art infotainment systems. Saracen and Rhino LWB models feature a 9.2" touchscreen (main picture), DAB radio, TomTom© Navigation, Apple CarPlay or Google Android Auto to play your favourite podcasts or tracks whilst keeping you on track.

EX models: DAB audio system

Clear DAB radio with 4" LCD display. Bluetooth for your phone and USB for your sounds.

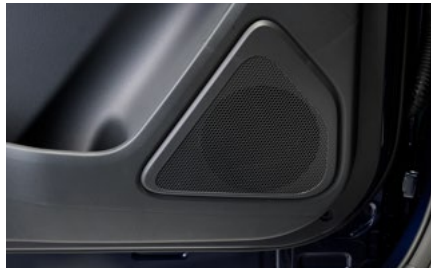

Rebel models: 8" Smart touchscreen smart audio

An 8" touchscreen controls DAB radio, Apple CarPlay or Android Auto connect your smartphone to the car, or use Bluetooth connectivity, or the handy USB.

Google Android Auto and Apple CarPlay

No need to look down at your phone, it's all on-screen. Access favourite apps and enjoy your music or podcasts whilst on the move.

6 speaker system with carbon nanotube speakers

The very latest in thermoacoustics, these wafer-thin speakers produce crisp audio.

Musso, a protected species

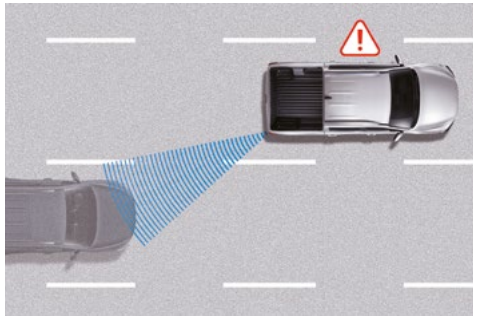

Saracen and Rhino LWB work as hard as you do. After a hard day's graft, you want to wind down. Relax in a comfortable, welcoming interior. Safe in the knowledge that impressive technology is working to keep you securely on the road.

Relax in a comfortable, welcoming interior safe in the knowledge that impressive technology is working to keep you securely on the road.

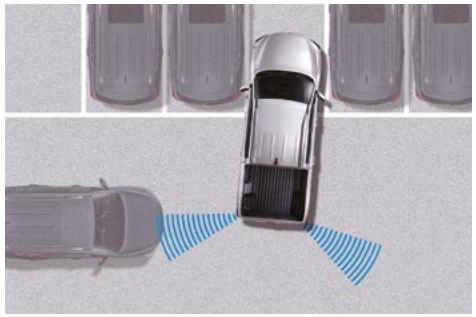

Blind Spot Detection Warning

Senses vehicles coming up in the blind spot behind or alongside, the system warns with a flashing light on the outside mirror.

Lane Change Collision Warning

Detects vehicles rapidly approaching from behind and flashes a warning light on the outside mirror, to alert the driver.

Rear Cross Traffic Alert

By using rear-corner radar, the system helps to prevent backing into crossing traffic by alerting when vehicles are detected.

It's got grunt

The SsangYong manufactured turbo diesel engine makes it highly efficient and yet remarkably quiet. 6-speed manual transmission, or 6-speed Aisin automatic transmission, the Musso offers a choice of either.

3,800rpm
Max Torque
420 Nm
1,600~2,600rpm

Towing

When it comes to towing, Musso pulls away from the competition. Nothing comes close to its Total Load Capacity. Its pulling power of 3.5 tonnes is gargantuan (auto only). And a payload of up to 1140kg takes a load off your mind. To do both at the same time makes Musso unique amongst its peers.

Total Load Capacity

Most pick-ups can't tow a trailer at maximum weight and carry a full payload at the same time, but Musso and Musso Rhino LWB are different from most pick-ups. With a class-leading gross train weight of 6405kg (manual), 6750kg (automatic) and 6900kg (Rhino LWB) our Korean beast has the highest total load capacity of any pick-up on sale in the UK.

	Man	Auto	Rhino LWB
Gross train weight (kg)	6405	6750	6900
Kerb weight (kg)	2155	2155	2260
Towing limit (kg)	3200	3500	3500
Payload (kg)	1050	1095	1140
Total load capacity (kg)	4250	4595	4640

Fully loaded

Built to gobble up an entire Euro-pallet, the load deck is the deepest on the market. It'll carry 1.011 litres of cargo and it'll shift anything that weighs a tonne (or 1050kg). The load bed features tie-down points to strap down loads and a moulded liner as standard. The load bed has easy access via the wide opening tailgate. With a width of 1570mm and a depth of 570mm it offers an impressive space.

Load Liner

Musso comes with a durable and practical load liner as standard.

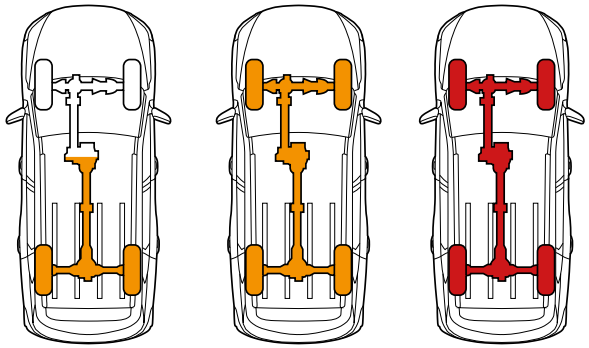

Cargo tie-down rings

Loads can be firmly stowed and secured in place.

Mud & guts

Peel back its robust exterior and underneath Musso has its roots fairly and squarely in SUVland. Primarily a pick-up, this is a pure off-roader by breeding. It shares its chassis and drive train with its sophisticated SUV cousins, so noise, vibration and harshness are minimised to levels you'd expect from a luxurious saloon.

2WD
High-range

4WD
High-range

4WD
Low-range

Part-time 4WD

Part-time four-wheel drive allows the driver to choose when to activate the system, depending upon changing conditions on or off the road. There is the choice of high range 4x4 for slippery conditions or low range for when the going gets really tough.

Hill Start Assist

Rolling backwards during a hill start is a thing of the past with the Musso. In these kinds of situations, Hill start assist acts as an automatic handbrake and is a great benefit when driving in tricky conditions or towing.

Hill Descent Control

Stay in control no matter how steep the incline. A low speed control activates when the vehicle is handling a steep downhill drive, automatically controlling the rate of descent.

There's big, then there's Rhino LWB

Try Rhino LWB for size

Big is good. Bigger is better. And Rhino LWB is best of all.

Musso Rhino LWB has a bigger load bed length than anything else on the road. Rhino LWB is 5.4m long. The load bed is 1.61m.

Practical and imposing, its elegant profile belies its size with strong haunches, 17" alloy wheels and a purposeful stance to give unmissable road presence.

Bed dimensions	**Length**	**Width**	**Depth**
Musso	**1,300**	**1,570**	**570**
Musso Rhino LWB	**1,610**	**1,570**	**570**
L200	1,520	1,470	475
D-Max	1,495	1,530	490
Ranger	1,549	1,560	541
Hi-Lux	1,525	1,540	480
Navara	1,578	1,560	474

Safety in numbers

Musso is equipped to cope with extremes. The safety measures are cutting edge and built-in to provide maximum security and reassurance in the most testing environments. The numbers all stack up.

6 airbags

Musso has 6 airbags for the greatest possible protection in the event of a sudden stop.

1 Driver's airbag
2 Passenger's airbag
3/4 Driver's & passenger's side airbags
5/6 Curtain airbags

79.2% of body chassis high density steel

High-density, high tensile-strength steel plate makes up 79.2% of all the steel used in the body and chassis, providing superb rigidity and protection against deformation in a collision. Stay safe.

Electronic brakeforce distribution anti-lock brake system

This smart braking system detects where braking force is needed and applies it to the front or rear wheels as required.

Electronic stability programme

ESP constantly monitors road conditions and vehicle status and automatically adjusts engine output and braking whenever the driver might lose control. It integrates the ABS, active rollover protection, anti-slip regulation and brake-force assist.

Traction control system

Musso's active vehicle safety system manages the traction available when accelerating on low-friction road surfaces.

Brake Assist System

BAS automatically activates full braking in an emergency to reduce the vehicle's braking distance to help avoid an accident.

Isofix

Musso has an Isofix point on both outer rear seats, ensuring ultimate safety for children travelling in the rear.

Saracen

EX

The tough, no-nonsense entry level workhorse, Musso EX is far from stripped back boasting unexpected levels of quiet sophistication throughout. Capable and uncompromising and tough enough to offer a 7 year or 150,000 mile warranty.

- 17" alloy wheels
- DAB radio with Bluetooth connectivity
- 6 airbags
- Manual air conditioning
- Push button start
- Power windows
- Remote central locking
- Rain sensing wipers
- Automatic headlight control

Rebel

A proper pick-up for a proper day's work. Hard as nails but packed with creature comforts like Apple CarPlay & Google Android auto. Side steps for an unmistakeable pick-up look. Rebel graphics make it stand out from the crowd. Tough enough to offer a 7 year or 150,000 mile warranty.

As EX +

- Black & silver roof rails
- LED front fog lights
- Apple CarPlay & Google Android Auto
- TPU leather look seats
- 8" smart audio touchscreen with rear-view camera & Bluetooth connectivity
- Heated and ventilated front seats
- Heated steering wheel
- Black and silver side steps
- Rebel graphics

Rhino LWB

Saracen

A bit of luxury after a hard day's graft. Heavy duty outside but soft and luxurious inside, with nappa leather front seats, heated rear seats and top quality sound and infotainment. Saracen graphics give it a distinctive look. Tough enough to offer a 7 year or 150,000 mile warranty.

As Rebel +

- Premium nappa leather seats
- Power adjustable front seats with power lumbar
- Heated rear seats
- 9.2" HD touchscreen with TomTom navigation, rear view camera & Bluetooth connectivity
- Apple CarPlay & Google Android Auto
- 18" black alloy wheels
- Electronic cruise control
- Front and rear parking sensors
- Privacy glass to rear windows
- Blind spot detection
- Lane change assist
- Rear cross traffic alert
- Projection headlamps
- LED daytime running lights
- Black finished exterior door handles
- Black finished door mirrors, belt line and tailgate finisher
- Saracen graphics

Rhino LWB

The biggest and the best. Rhino has the lot. The biggest pick-up bed on the road. Pure indulgence inside. Pure muscle outside. Bristling with safety aids which are required standard issue on a vehicle this gargantuan. Tough enough to offer a 7 year or 150,000 mile warranty.

As Saracen +

- 17" alloy wheels with 235/70R17 XL tyres
- Biggest pick-up bed available
- Rhino graphics

Colours and trim

Musso comes in a range of practical colours, from Atlantic Blue to Grand White, Fine Silver, Indian Red, Marble Grey and Space Black all available with a sophisticated Dark Grey interior. The choice is yours.

SsangYong aftersales

Customer service

We care passionately about delivering outstanding customer service. Attention to detail is important, so any question you ask, we'll do our very best to answer it.

SsangYong assistance

All SsangYong new vehicles come with 12 months Roadside Assistance, providing you with the best level of customer care both in the UK and on Mainland Europe.

SsangYong service plans

Routine maintenance is a major factor in prolonged vehicle life. Total peace of mind costs only a few pounds a week with one of our flexible service plans.

7 YEAR WARRANTY

7 year, 150,000 mile warranty. Beat that.

The Musso range has the best warranty of any pickup on the market. It's a Korean thing. When we promise something, we stick to it. If something goes wrong and it's definitely our fault, we fix it. Our customers like it, and they tell other people about it. So everybody's happy.

SSURPRISINGLY
SSANGYONG
7 YEAR WARRANTY
