

TURISMO

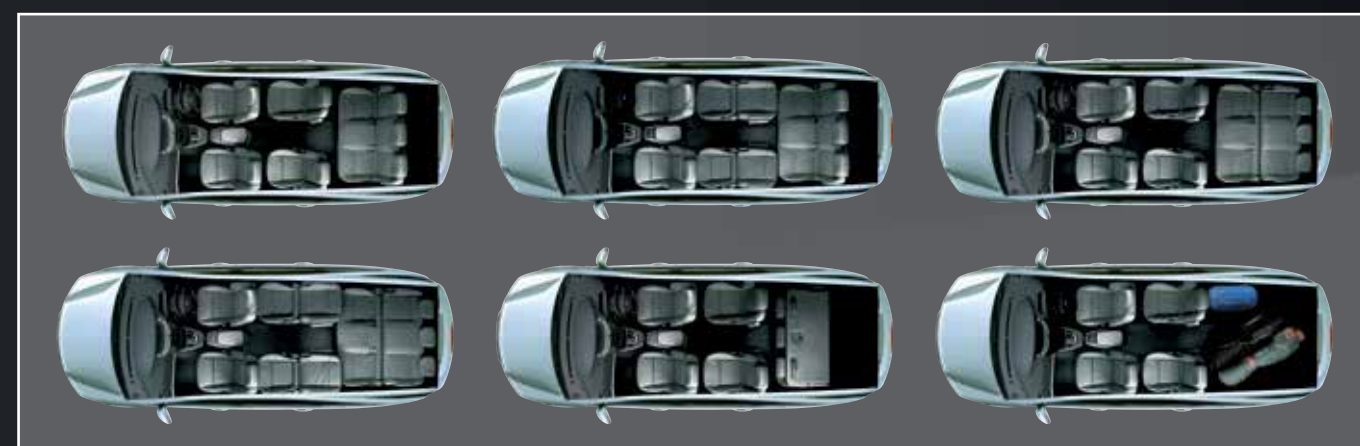

SSANGYONG

A spacious seven seater combining strength and elegance. Designed to appeal as a family, leisure or business vehicle, Turismo blends multi-role flexibility with great ride comfort and the appointments and equipment levels of a luxury saloon. Turismo's huge interior space and flexible passenger and load carrying capability means it can carry seven adults and 875 litres of luggage, through to two adults and 3,146 litres of load space. Turismo has been designed for your family's every adventure.

Thanks to its 3,000mm wheelbase, Turismo provides a huge interior space where seven adults can travel in supreme comfort with their luggage loaded in the back, without having to compromise on passenger accommodation. There are three rows of seats, with the rear two rows able to slide forward and back to accommodate your changing needs. The large load space can be further increased by removing the third row completely. The second row of captains seats provides convenient 'walk through' access to the third row, and can also be folded individually and used as tables while still providing sufficient space to accommodate airline style seat-back folding tables.

PULLING POWER

Turismo's e-XDi200 engine offers maximum power of 155PS/4,000rpm and maximum torque of 360Nm/1,500-2,800rpm and is designed to provide low end torque whatever the conditions; on or off road. There's a choice of 6-speed manual transmission and Mercedes-Benz 5 speed T-Tronic automatic transmission, ensuring world class durability and a smooth gear change.

TURISMO EX WITH 4x4

While rear wheel drive features across the range, the top of the range EX also features selectable 4x4 with low ratio as standard. This makes the Turismo EX a car you really can rely on, no matter what the British winter throws at us. It is also an especially practical proposition for those who tow a caravan, horsebox or boat trailer, or whose other country and leisure activities necessitate driving across challenging terrain. As with other Turismo models the EX has an impressive 2.5 tonne towing capability.

FAMILY SAFETY

Turismo features a comprehensive package of active safety features, including Electronic Stability Program (ESP), Active Rollover Protection (ARP) and Brake Assist System (BAS). There are dual front and side air bags*, while ISOFIX anchorage points for child seats are fitted to the second row. Passive safety is further increased thanks to two high strength subframes fitted to the front and rear of the car. These help to disperse any impact shocks from a frontal or off-set collision and protect passengers by minimising cabin distortion.

*Front airbags only on S.

Seat back table

CD & RDS radio with iPod & Bluetooth connectivity as standard

Noted for its comprehensive levels of standard equipment, SsangYong has ensured that Turismo delivers a high level of luxury, comfort and convenience. Air conditioning, eco cruise control, a heated lower windscreen to defrost the wipers when frozen and rear parking sensors all make driving easier. Leather upholstery, electrically adjustable driver's seat, heated front seats and an MP3 CD & RDS radio with a USB/auxiliary port and Bluetooth connectivity add to your comfort.

Rear parking sensors, leather upholstery, electrically adjustable driver's seat and heated front seats on ES and EX only. Heated windscreen on EX only. Eco cruise control on Auto only.

* At maximum towing weight the trailer must have remote braking capability. ** A guide to fuel economy and CO2 emissions which contains data for all new passenger car models is available at any point of sale free of charge. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel consumption and CO2 emissions. CO2 is the main greenhouse gas responsible for global warming.
