

TURISMO

SSANGYONG

SPACE WITH ELEGANCE

A spacious and elegant seven seater with effortless cruising performance. Designed to appeal as a family, leisure or business vehicle, Turismo blends multi-role flexibility with great ride comfort and the appointments and equipment levels of a luxury saloon. Turismo's huge interior space and flexible passenger and load carrying capability means it can carry seven adults and 875 litres of luggage, through to two adults and 3,146 litres of load space.

The introduction of a new 2.2 litre diesel engine has taken Turismo's performance to new levels. With 400Nm of torque from just 1,400 rpm, the new engine gives great driving flexibility and now features the Mercedes-Benz 7 speed E-Tronic automatic transmission which makes Turismo the ultimate long distance family cruiser.

SUMPTUOUS AND SPACIOUS

Thanks to its 3,000mm wheelbase, Turismo provides a huge interior space where seven adults can travel in supreme comfort with their luggage loaded in the back, without having to compromise on passenger accommodation. There are three rows of seats, finished in leather in EX and ELX models, with the rear two rows able to slide forward and back to accommodate your changing needs. The large load space can be further increased by removing the third row completely, whilst the second row of captains seats provides convenient 'walk through' access to the third row, and can also be folded individually. That gives a luxurious, flexible and accessible interior that can accommodate the needs of a large family or business with comfort and style.

AUTOMATIC TEMPERATURE CONTROL THROUGHOUT

Cabin temperature is maintained throughout the vehicle with a climate control system equipped with rear ceiling mounted vents and a fan control above the second row of seats allowing passengers in the back to enjoy greater comfort.

FULL SPECIFICATION

Turismo, together with other SsangYong vehicles is noted for its comprehensive levels of standard equipment, backed by our 5 year limitless mileage warranty to ensure peace of mind.

All Turismo models feature automatic air conditioning, an RDS radio with iPod and Bluetooth connectivity, electric windows front and rear, electrically operated and heated door mirrors, a height adjustable steering wheel and tinted glass as standard.

Turismo EX adds leather upholstery, an electrically adjustable driver's seat, smart 16" alloy wheels, rear privacy glass and rear parking sensors – and EX with Mercedes-Benz 7 speed automatic transmission also features electronic cruise control.

Our flagship ELX features selectable 4x4 with low range transmission and E-Tronic automatic transmission as standard and adds 17" alloys, solar controlled glass, automatic headlamps, wipers, and dipping rear view mirror to EX specification.

HEATED SEATS

Turismo is all about long distance driving comfort and heated front seats are a welcome luxury on those chilly days.

STEERING WHEEL CONTROLS

Turismo's steering wheel includes controls for the entertainment system, phone and RDS radio.

SEAT-BACK TABLE FOR SECOND ROW SEATS

Aircraft style flip down tables add a little luxury and are handy for beverages, snacks or entertainment equipment during long trips.

FAMILY BUSINESS

Turismo is one of the most versatile vehicles on today's roads with the unique ability to transport up to seven adults in comfort over long distances. That makes Turismo both a useful business tool as well as a stylish family people mover. Slide the rear seats forward and there is room for a substantial load swallowed by Turismo's wide, tall and flat floored load space. Remove the rear seats completely, slide the middle row forward and fold them flat and there's a space that would embarrass any estate car or small van. Turismo's great talent is that it can be all of these things, and within the same day. So whether your need is driven by your business, your family, or both, Turismo has a seating combination to accommodate.

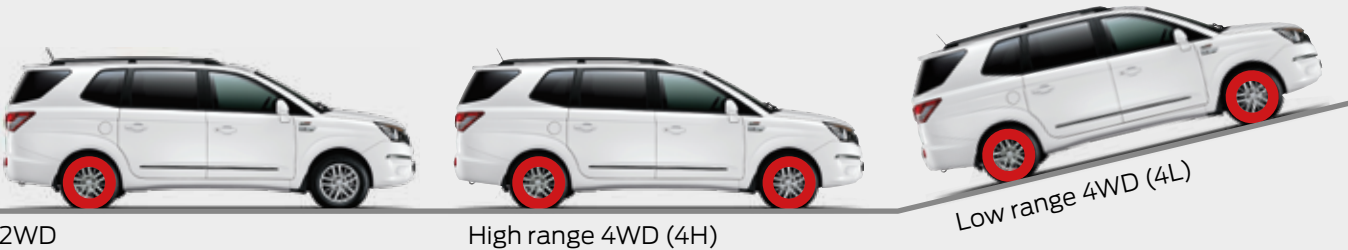

NEW E-XD1220 DIESEL ENGINE

Turismo's new 2.2 litre Euro 6 engine offers maximum power of 178PS@4,000rpm and maximum torque of 400Nm@1,400-2,800rpm and is designed to provide low end torque for effortless cruising whatever the conditions and whatever the load. There's a choice of 6-speed manual transmission and Mercedes-Benz 7 speed E-Tronic automatic transmission, ensuring world class durability and a smooth gear change.

TURISMO ELX WITH 4X4

While rear wheel drive features across the range, the top of the range ELX also features selectable 4x4 with low ratio as standard. This makes Turismo ELX a car you really can rely on, no matter what the British winter throws at you. It is also an especially practical proposition for those who tow a caravan, horsebox or boat trailer, or whose other country and leisure activities necessitate driving across challenging terrain. As with the other Turismo models the ELX has a useful 2.0 tonne towing capability.

FAMILY SAFETY

Turismo features a comprehensive package of active safety features, including Electronic Stability Program (ESP), Active Rollover Protection (ARP) and Brake Assist System (BAS). There are dual front and side airbags, while ISOFIX anchorage points for child seats are fitted to the second row. Passive safety is further increased thanks to two high strength subframes fitted to the front and rear of the car. These help to disperse any impact shocks from a frontal or off-set collision and protect passengers by minimising cabin distortion.

*A guide to fuel economy and CO2 emissions which contains data for all new passenger car models is available at any point of sale free of charge. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel consumption and CO2 emissions. CO2 is the main greenhouse gas responsible for global warming. **At maximum towing weight the trailer must have remote braking capability.
