

TIVOLI
XLV

SSANGYONG

STYLISH & VERSATILE

Tivoli XLV is stylish and practical, fun as well as versatile.

If you're looking for a small SUV but don't want to compromise on load capacity Tivoli XLV is the answer.

Whatever you need on your journey – bikes, golf clubs or luggage for five, Tivoli XLV has the answer. With a load capacity bigger than many in the class above, Tivoli XLV is the vehicle for those who want to downsize without compromise.

SPACIOUS & REFINED

Tivoli XLV redefines the standard for interior style and trim for a small crossover. A chunky D-cut steering wheel feels and looks good, the fascia is ergonomic, modern and purposeful.

Leather trim is standard and the front seats are heated – something not matched by Tivoli XLV's peers. This gives Tivoli XLV an interior usually found in vehicles at twice the price and makes travelling in a Tivoli XLV very special indeed.

Tivoli XLV doesn't scrimp on space either – there is plenty of room for driver and front seat passenger and three adults can travel comfortably in the rear thanks to the generously proportioned seats and nearly flat rear floor.

SMART INSTRUMENT CLUSTER

Tivoli XLV features a smart cluster that allows you to change its colour depending on your mood!

There's also a sophisticated trip computer on all Tivoli XLVs that shows tyre pressures, distance to empty, distance travelled and outside temperature.

SPACE & STORAGE

TTivoli XLV is as practical as it is elegant - the boot boasts a maximum 720L cargo space and the second-row seats can be folded either 60:40 or fully flat for even greater carrying and flexibility.

The cargo bay comes with a luggage cover for security and a luggage board that hides underfloor storage, maximising luggage space.

The centre console is large enough to fit an iPad, while the glove box has a handy inner tray. All four doors have side pockets that can hold a 1.5L bottle and a variety of smaller items.

AN INTERIOR FULL OF FEATURES

INFOTAINMENT

Tivoli XLV features a 7" touch screen with full European TomTom navigation. This highly specified unit controls radio, audio via USB or Bluetooth connection and your mobile phone via Bluetooth.

SMART STEERING

COMFORT: The steering wheel turns with less effort than when in Normal mode, good for use when parking, backing up or going forward at low speed.

NORMAL: The steering wheel effort is ideal for general driving.

SPORT: The steering wheel turns with greater effort than when in Normal mode, boosting steering responsiveness at high speed to ensure maximum operational control and precision.

FINISHING TOUCHES

- Remote steering wheel controls for radio, phone and cruise control
 - Smart Key system gives push button starting
 - Parking sensors front and rear
 - Cruise control for maximum efficiency
-

PARKING SENSORS

REVERSING CAMERA

Tivoli XLV features a reversing camera which transmits a picture of what's behind your vehicle to the infotainment screen – together with front and rear parking sensors makes parking is a breeze.

AIR CONDITIONING

Tivoli XLV features a dual-zone air conditioning system which allows driver and passenger to set individual temperatures – and there's also a memory feature for next time you drive your Tivoli XLV!

SMART KEYLESS START

AUTOMATIC HEADLAMP & RAIN SENSING WIPERS

1.6 LITRE DIESEL

- 1597cc
- 115PS @ 3,400 rpm
- 300Nm @ 1,500 rpm
- Combined mpg (4x2): 62.8 (manual), 47.9 (auto)
- Combined mpg (4x4): 57.6 (manual), 44.8 (auto)
- CO2 (4x2): 117 (manual), 154 (auto)
- CO2 (4x4): 127 (manual), 164 (auto)

TRANSMISSIONS

Tivoli XLV has a choice of two modern and efficient 6 speed gearboxes – manual and automatic. Matched with our new 1.6 litre diesel they complement your driving style with smooth shifts and well-chosen gear ratios.

The automatic gearbox is sourced from Japanese supplier Aisin and is equipped with three alternative shift strategies – eco, power and winter to suit your driving needs.

TORQUE-ON-DEMAND 4X4

Tivoli XLV 4X4 features an advanced 4x4 system that operates in two modes depending on conditions and settings. In auto mode and normal conditions, Tivoli XLV remains in two wheel drive to optimise fuel efficiency.

When sensors detect a potential loss of grip, the system switches to four wheel drive mode.

For very loose or slippery surfaces, the 4x4 system can be locked to allocate drive equally between front and rear wheels. This provides supreme grip and control for low-speed manoeuvres.

Mostly 2WD

4WD for better stability

50:50 torque distribution(4WD lock)

PASSIVE SAFETY

AIRBAGS
Tivoli XLV is equipped with 7 airbags for maximum passenger protection on impact – the most in its class. These include a driver's knee protection airbag – a feature normally found in prestige vehicles.

ISOFIX
Tivoli XLV is equipped with ISOFIX child seat mountings to the rear outer seats to allow firm and rigid attachment of child seats.

STRENGTH
The basis of a vehicle's safety is its monocoque structure – both how it's made and how it responds on impact. SsangYong's engineers have made extensive use of high strength steel to construct a rigid passenger cell.

SEAT BELT PRE-TENSIONERS
In the event of a collision, the pre-tensioner immediately tightens the seatbelt over the chest and lap, ensuring the occupant is in the best possible restrained position if the airbags are deployed.

ACTIVE SAFETY

Tivoli XLV is equipped with the latest technology to assist the driver to avoid accidents.

T P M S
Tivoli XLV has tyre pressure monitoring built into its electronics. Monitored through the trip computer each tyre is continually checked for pressure with the driver immediately warned of unsafe pressures.

E B D — A B S
ELECTRONIC BRAKEFORCE DISTRIBUTION ANTI-LOCK BRAKE SYSTEM
Brake force is distributed appropriately to the front and rear wheels according to the vehicular load of persons and/or cargo.

B A S
BRAKE ASSIST SYSTEM
This electronically controlled system automatically initiates full braking in an emergency to reduce the vehicle's braking distance and to help avoid an accident.

E S P
ELECTRONIC STABILITY PROGRAMME
The electronic stability programme monitors road conditions and vehicular status constantly, adjusting engine output and braking whenever the driver is about to lose control. The ESP integrates the anti-lock brake system, active rollover protection, anti-slip regulation and brake-force assist to improve the Tivoli XLV's intervention capabilities.

EQUIPMENT

✓ Standard

○ Optional

Comfort	
Height adjustable driver's seat	✓
Leather seats	✓
Front seat warmers	✓
Chrome interior door handles	✓
