CALIBRA

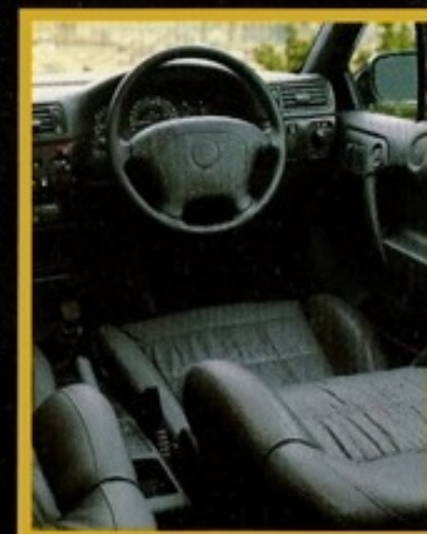

VAUXHALL

EGO FRIENDLY

Cars don't come much more exciting than Calibra. Stunningly attractive, stylish beyond compare – it's the car that the phrase 'a real headturner' could have been invented for. If driving an 'ordinary' Calibra is still not enough for you, however, take a look at the new Calibra SE2. The same unmistakable lines. The same indisputable style. But for those who want just that little bit more, the SE2 won't so much turn heads as blow minds. Mellow, it ain't. Yellow, it is. This colourful thriller is just the latest member of a distinguished family – the Calibra clan now stretches from sporting 8- and 16-valve models through to the staggering 204PS Turbo 4x4 and the effortless refinement of the new V6. And when you consider that Calibra's surprisingly spacious interior is every bit as stylish as the exterior, it's clear that this car has a very bright future. We won't be building many SE2s so, if your ego needs a boost, you'd be wise to take a closer look today.

Vauxhall Calibra SE2
