CALIBRA SE4

VAUXHALL

BLUE SPIRIT

Calibra. Few would argue that this masterpiece of modern automobile design continues to set the pace of European motor car styling.

Truth is, of course, genuine works of art never age, they simply grow in stature. And, despite all those pale imitators that have tried so hard to steal a piece of its styling crown, Calibra has remained way, way out in front.

Now, as if to add more weight to this already rather one-sided argument, along

comes the Special Edition Calibra SE4 – a car of such stunning visual impact, with its deep Magnetic Blue paintwork and luxuriously sophisticated cream leather seat trim, that one might not immediately appreciate its remarkable value, comprehensive equipment levels, or even the brilliant power potential of its lusty 115PS 2.0i motor.

Those joys are to come. For now, as Calibra enters its blue period, simply do as any lover of great art would do: Stand back. Admire. Enjoy.
