CALIBRA V6

VAUXHALL

QUIETLY COMMANDING

A computer controlled 4-speed automatic transmission is optional at extra cost.

Sporting yet refined; powerful yet controlled; technically advanced yet uncomplicated when it comes to sheer driving pleasure...The new Calibra V6 is all of these things and more.

This newest addition to the acclaimed Calibra range adds a real sporting edge to the effortless sophistication of 6-cylinder motoring. At its heart is a proven 170PS 2.5l 24-valve V6 powerplant, capable of propelling it from 0-60mph in just 7.3 seconds. Yet this innovative, quad-cam unit delivers with a smoothness and quietness that is nothing short of astounding.

Head for the open road, and deep reserves of V6 power are at your command, tempered by the addition of switchable electronic Traction Control.

In town, the Calibra V6 will glide through the traffic, its driver unruffled in a driving environment designed to minimise

fatigue. And, for the ultimate in relaxed driving, a 4-speed, computer controlled automatic transmission can be specified.

As befits a coupé of this calibre, the V6 is superbly equipped. Hence you'll find a top quality audio system featuring a compact disc player and RDS-equipped stereo radio with six speakers. Supple leather seat trim signals the level of luxury the V6 affords. Many features – the sunroof and door mirrors included – are electrically operated. And, for ultimate comfort, air conditioning is available.

Beyond a shadow of a doubt, this is one of the safest coupés on the road, with protection that includes driver and front passenger full-size airbags. It's secure too, thanks to deadlocks and an ultrasonic high-security alarm with immobiliser.

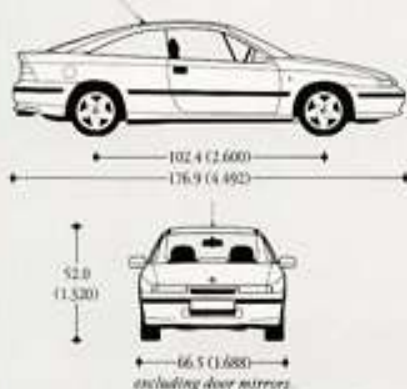

Calibra V6. The definitive coupé for the discerning driver.

Specifications

DIMENSIONS inches (metres)

NB overall width including door mirrors is 75.0 (1905).
overall height with roof antenna is 63.1 (1604)
