

Das Auto.

The new Eos

**The new Eos.
Some things you have to just watch and admire.**

Model shown is new Eos SE with optional 17" 'Minneapolis' alloy wheels, luxury pack, leather upholstery, Bi-Xenon headlights and metallic paint.

The new Eos.

At one with nature. At the push of a button.

Classic coupé or sporty cabriolet, the choice is yours. That's the beauty of the new Volkswagen Eos, enabling you to be at one with nature whenever you wish. Stylish new headlights with permanent running lights and a new, wider grille with chrome detailing give the redesigned front an elegant new look, while the restyled interior features a host of superior features all fitted as standard. Awe-inspiring, spell binding, breathtaking, the new Eos is truly a force majeure.

Model shown is new Eos Sport with optional leather upholstery, Bi-Xenon headlights and metallic paint.

From coupé to cabriolet in just 25 seconds, the new Eos offers you the best of both worlds. As a coupe, it provides boundless fun and enjoyment, but as a cabriolet, it really comes into its own, delivering nothing less than pure driving pleasure. The folding hardtop lowers automatically at the touch of a button, letting you enjoy open-top exhilaration as the mood – or weather – takes you. And if you want a halfway measure, the electric slide/tilt sunroof lets you enjoy fresh air while the roof is closed. Which means, blue skies or grey, you're ready for both in the unique new Eos.

**There's only one way to enjoy a blue sky or starry night.
With the top down.**

Model shown is new Eos Sport with optional leather upholstery, Bi-Xenon headlights and metallic paint.

Equipment

Elegant, stylish and charismatic, the new Eos creates a lasting impression at the very first glance. And it's not just the redesigned exterior that's impressive, either. Inside, the story is one of stylish design, high quality materials and a host of high specification features all fitted as standard, including sports seats, 'Climatic' air conditioning and a leather trimmed multifunction steering wheel. Combining the ultimate in comfort and innovation with striking design and elegant detail, the new Eos makes every journey one of luxury, excitement and sheer driving pleasure.

01 The **redesigned front** of the new Eos is unmistakably Volkswagen, yet thanks to the new wide grille with chrome detailing and new headlights with permanent running lights, it retains its own distinctive character. A restyled bumper with a larger air intake and fog lights with chrome surround gives it wider, stronger features, enhancing the overall look. Model shown features optional Bi-Xenon headlights with LED daytime running lights.

02 **Rear lights incorporating LED technology** give the new Eos a distinctive and stylish look at the back, not only emphasising the strong rear bodylines, but also producing clear, bright illumination. Indicator and brake lights also benefit from LED technology, ensuring they can easily be seen even in bright daylight, enhancing safety for vehicle occupants and other road users.

03 **'Michigan'** 7J x 17 alloy wheels with 235/45 R17 self-sealing tyres enhance the dynamic look of the new Eos, leaving a lasting impression. Standard on SE and SE BlueMotion Technology models.

04 **'Kansas'** 8J x 18 alloy wheels with 235/40 R18 self-sealing tyres help to provide an even sportier and dynamic look to the exterior of your new Eos. Standard on Sport and Sport BlueMotion Technology models.

05 **'Vicenza'** 7½J x 18 alloy wheels with 235/40 R18 self-sealing tyres add an extra touch of elegance to your new Eos. Standard on Exclusive and Exclusive BlueMotion Technology models and optional on Sport and Sport BlueMotion Technology models.

06 The **electric slide/tilt glass sunroof** can be tilted upwards by 35 millimetres, letting light and fresh air into the passenger compartment regardless of the weather. Tinted glass provides protection against the sun, and if you'd like more fresh air, the sunroof slides open towards the rear.

07 **Controls** for the CSC roof system and slide/tilt glass sunroof are easy to reach, located within the front centre armrest.

08 The innovative five-section folding **CSC roof system** combines the characteristics of a coupé, sliding glass sunroof and convertible roof – all-in-one. At the push of a button, the hardtop lowers automatically into the boot in just 25 seconds and, thanks to its compact dimensions, there's still 205 litres of luggage space. When the roof is up, a generous 380 litres of boot space is available. Model shown is new Eos Sport with optional leather upholstery, Bi-Xenon headlights and metallic paint.

01 The **multifunction computer (Highline)** displays important information, such as details about your journey, and a visual gear change recommendation which better helps you optimise your fuel consumption. Plus, with optional telephone preparation, it can also show the status of your connected phone.

02 The optional **keyless entry/locking and starting system** enables you to open and close your vehicle and even start your vehicle using a button conveniently located on the steering column, all without taking the key out of your pocket. You can even remotely open or close the CSC roof system. Optional on all models.

03 You'll feel totally at home as soon as you sit in the passenger compartment of the new Eos thanks to the **ergonomically designed dashboard and user-friendly controls**, which set new standards in functionality. Front sports seats are fitted as standard, ensuring total support and comfort, and if you wish, you can personalise the interior with stylish optional leather upholstery, which includes heated front seats for those cold winter mornings. Interior shown is SE BlueMotion technology with optional 'Vienna' leather upholstery and luxury pack.

04 The **RCD 510 touch-screen radio/dash-mounted MP3 compatible six CD autochanger** features a large 6½ inch colour display, with intuitive menu navigation and touch-screen operation. It also features an AUX-in socket for connection to an external multimedia source such as an iPod or MP3 player, and an SD memory card slot. Optional on all models.

05 The optional **RNS 315 touch-screen navigation/radio system¹ with MP3 compatible CD player** features a 5 inch colour display with clearly arranged map navigation, as well as an SD card reader and AUX-in socket for connecting external audio devices such as an iPod or MP3 player. Optional on all models.

06 The **RNS 510 DVD touch-screen navigation/radio system** with integrated voice control will guide you to your destination using all but the last two digits of a UK postcode and includes a 6½ inch colour display. This state-of-the art system responds to spoken voice commands for navigation, CD and radio functions. It also plays DVDs (when the vehicle is stationary) and music from the DVD drive, 30 GB hard drive or via an SD card. Optional on all models.

07 The optional **'Dynaudio' soundpack²** produces phenomenal sound, ensuring complete musical enjoyment. A 10 channel digital amplifier delivers 600 watts through ten speakers located around the vehicle at optimum distances from one another, ensuring unique sound quality in every position. Optional on all models.

08 The **2Zone electronic climate control air conditioning system** divides the passenger compartment into two climate zones, for driver and front passenger, enabling front occupants to adjust settings of temperature, air supply and ventilation to their individual preference. The temperature is controlled electronically and shown on the display to within one degree accuracy. An air quality sensor monitors the exterior air, activating the automatic air circulation, if necessary, helping prevent outside odours from entering the interior. Standard on Exclusive and Exclusive BlueMotion Technology models and optional on all other models. Interior shown features optional RNS 510 DVD touch-screen navigation/radio system.

09 The **Eos Exclusive** interior offers stylish sports seats finished in contemporary two-tone 'Nappa' leather³ upholstery in Pepper Beige/Titanium Black with Pepper Beige piping. The seat centre sections contrast with the side bolsters and head restraints, creating an exclusive look, while stylish elements such as 'Silver metallic' decorative inserts and contrasting Pepper Beige stitching on the leather trimmed steering wheel, gear knob gaiter and handbrake grip add a touch of refinement, finishing the interior ambience perfectly. Interior shown features optional RCD 510 touch-screen radio system.

1 The RNS 315 navigation/radio system includes postcode search functionality for all but the last 2 digits of a UK postcode.
2 Only in conjunction with optional RCD 510 radio system or RNS 510 DVD navigation/radio system.
3 Some parts of leather interior will contain artificial leather.

01

02

01 The **Electronic Stabilisation Programme (ESP)** recognises critical driving situations and reacts in milliseconds by targeting brake and management systems, controlling the speed of individual wheels and helping to bring the vehicle under control. As a result, the vehicle achieves maximum directional stability. However, a careful driving style is essential, as even ESP cannot extend beyond the laws of physics.

02 **Four airbags** are fitted as standard in the new Eos. Driver's and front passenger's airbags also include a passenger's airbag de-activation switch, while the combined curtain and side airbag system protects both front and rear seat passengers. When an impact is registered, the airbag control unit ignites the gas generator, which then inflates the airbags in less than 40 milliseconds, helping to significantly reduce the risk of injury. In addition, active rollover bars behind the rear seats activate at the slightest hint of a roll or impact, whether the hardtop is up or down. The supporting profiles extend automatically by up to 265 millimetres within 0.25 seconds, giving further protection to occupants.

03 Volkswagen's **Park Assist system** has long made parallel parking significantly easier. However, making its debut on the new Eos, is a system that combines conventional Park Assist with the added functionality of reverse parking into a space at 90 degrees to the kerb. The driver activates the system by pressing a button on the centre console. Using ultrasonic and audible parking sensors, Park Assist will detect a large enough parking space for either reverse or parallel parking and then, the assisted parking process can begin. Having put the vehicle into reverse, all the driver has to do is operate the accelerator, clutch and brake, while keeping a good lookout. The new Eos then takes care of the steering into its chosen space. Further improvements mean Park Assist can now parallel park in particularly small spaces. Optional on all models.

03

To help reduce the impact on our environment, not only have we come up with a solution, we've designed many.

BlueMotion Technologies is our contribution to sustainable motoring. This means we offer optimum solutions for every demand, which makes driving more fuel efficient. Lower fuel consumption and lower emission petrol and diesel engines allied with BlueMotion Technologies are friendlier to the environment and your wallet, without having to give up everyday practicality and comfort.

Building over the already impressive specification for the SE, Sport and Exclusive, which already include a multifunction computer (Highline) including visual gear change recommendation for optimum fuel consumption, BlueMotion Technology models also include the Start/Stop function and battery regeneration (recuperation – energy recovery during braking) which all help further, to reduce emissions and improve fuel consumption.

Externally, Volkswagen's 'BlueMotion Technology' badging identifies the cleanest, most energy-efficient cars in our range. So when you see these badges you'll know we're talking about ways to cut emissions and the cost of your motoring. Environmental technologies of today are meeting the driving challenges of tomorrow with one very important aim: to reduce the impact of our cars on the environment for future generations.

* Please see pages 18-19 for CO₂ emissions and fuel consumption figures.

01

02

01 The **Start/Stop function** turns off the engine when the vehicle is stationary, in neutral and the clutch disengaged, this is notified via a symbol on the multifunction computer display. This occurs when the engine is idle, such as at traffic lights, thereby saving fuel, then restarts when you put the vehicle back in gear.

02 The **'BlueMotion Technology' badge** at the rear. A short message to the people driving behind you that thrift and the finer things in life are not mutually exclusive.

Technology

Technical specification notes

- 01 The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02 Figures are calculated in accordance with manufacturer’s criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly.
The unladen weight and payload both include the fuel tank 90% full, driver (68 kg) and luggage (7 kg) in line with EU directive 95/48.
- 03 With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04 Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of unleaded Super plus. In order to achieve maximum fuel consumption benefits on the TSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- 05 The use of RME and FAME (bio diesel) is not possible.
- 06 Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 07 The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

Engines

1.4 litre/122 PS ⁽⁰¹⁾ (90 kW) petrol engine: CAXA TSI engine with homogeneous mode (Lambda 1), stratified high-pressure start, double injection catalytic converter heating, turbocharger with waste gate, air-to-liquid charge-air cooling, maintenance-free timing chain, plastic intake manifold with integrated intercooler, continuous inlet camshaft timing adjustment, grey cast iron cylinder block, steel crankshaft, duo-centric oil pump, dual-circuit cooling system. Fuel system regulated according to requirements using high pressure fuel pump with integrated pressure limiting valve

1.4 litre/160 PS ⁽⁰¹⁾ (118 kW) petrol engine: EU5 compliant four cylinder in-line engine with homogeneous mode (Lambda 1), stratified high-pressure start, turbocharger with waste gate, additional mechanical supercharger, intercooler and dual-circuit cooling system. Fuel system regulated according to requirements using high pressure fuel pump with integrated pressure limiting valve. Intake manifold flap change-over omitted, regulated duo-centric oil pump, metal cartridge oil filter and three way catalytic converter

2.0 litre/210 PS ⁽⁰¹⁾ (155 kW) petrol engine: four cylinder in-line engine, aluminium cylinder head, four valves per cylinder with roller rocker finger valve drive, electronic direct injection, variable inlet valve timing, programmed ignition with cylinder-selective anti-knock control, four single spark ignition coils, longlife spark plugs, exhaust gas turbocharger, three-way close-coupled pre catalyst and underbody catalyst, lambda control

2.0 litre/140 PS ⁽⁰¹⁾ (103 kW) common rail diesel engine: EU5 emissions standard, four cylinder in-line engine, four valves per cylinder, aluminium-silicon alloy cylinder head, reduced piston crown volume (improves swirl generation in the cylinder), toothed backlash compensator, intake manifold with electric continual tumble flap control, electronically controlled common rail direct injection fuel system with Bosch high pressure pump (up to 1800 bar) and 8-hole piezo injector units, pre-supply electronic fuel pump, oil cooler, intercooler, low temperature exhaust gas recirculation, additional coolant pump, turbocharger with variable turbine geometry, catalytic converter and Diesel Particulate Filter (DPF)

Transmission

- Six speed manual: 1.4 litre TSI 122 PS, 1.4 litre TSI 160 PS, 2.0 litre TSI 210 PS, 2.0 litre TDI 140 PS
- Six speed auto DSG: 2.0 litre TSI 210 PS, 2.0 litre TDI 140 PS

Running gear

- Electronic Stabilisation Programme (ESP) including Electronic Differential Lock (EDL) and Traction Control (ASR)

Steering

- Electro-mechanical steering rack, height and lengthways adjustable
- Collapsible safety steering column

Brakes

- Electronically controlled Anti-lock Braking System (ABS) with Electronic Brake-pressure Distribution (EBD)
- Hydraulic Brake Assist (HBA)

The Volkswagen Warranty.

Three-year Warranty.

All Volkswagen new Eos’ come with a three-year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer’s warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty. Should the mileage exceed 60,000 miles within the first two years, the manufacturer’s two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised Volkswagen retailer or repairer; however, this additional warranty must be purchased before the mileage reaches 60,000*. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

* All warranty work must be completed by an authorised Volkswagen retailer or repairer.

Three-year Paint Warranty.

The paintwork of the new Eos is covered against manufacturing defects for a period of three years. Naturally, the new Eos must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

12-year Body Protection Warranty.

The internal body sections and panels of the new Eos are covered against rusting through from the inside for 12 years. Naturally, the new Eos must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

Approved Accessories.

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen approved accessories purchased from and fitted by your authorised Volkswagen retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

Extended Warranty.

You may purchase additional protection from your authorised Volkswagen retailer or repairer, or contact 0870 9000 115.

Tax Free Sales.

For full details, please contact your authorised Volkswagen retailer.

Service Intervals.

Volkswagen are pleased to offer you a choice on how your new Eos is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Time and Distance Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts.
- Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing.
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking.

The service intervals for the Time and Distance Service are as follows:

- Oil change service
Every 10,000 miles/1 year (whichever is soonest).
- Interval service
Every 20,000 miles/2 years (whichever is soonest).
- Inspection service
Every 40,000 miles/3 years (whichever is soonest).

The LongLife Service is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

With the LongLife Service the vehicle can cover anywhere between 10,000[†] and a maximum of 18,000[†] miles or 24 months (whichever is soonest) between oil changes. Inspection service is typically in the third year of ownership and thereafter every second year, for vehicles with an approximate annual mileage of 10,000 miles.

[†] Please note that mileages are approximate as the service indicator system uses kilometres as the distance measurement.

Please consult your authorised Volkswagen retailer or repairer for advice and full details.

Volkswagen Insurance[‡].

We want you to start enjoying your new car from day one and thanks to Volkswagen Insurance complimentary seven day cover, you can. Call free on 0800 316 7892 (lines are open Monday to Friday 8 am - 9 pm and Saturday 9 am - 5 pm), provide a few details and a cover note will be sent to your retailer. They will then tax your car and you can drive it away. Visit www.insurewithvolkswagen.co.uk for details of the full range of insurance products available. Here you can also get a quote for your annual car insurance and buy it online too. All of our insurance products are designed to ease the pain of making a claim.

[‡] Volkswagen Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited, an appointed representative of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230. Volkswagen Insurance is sold, underwritten and administered by Allianz Insurance plc registered in England number 84638. Registered office 57 Ladymead, Guildford, Surrey GU1 1DB. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are authorised and regulated by the Financial Services Authority. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are not part of the same corporate group.

Volkswagen Finance[±].

Volkswagen Finance specialises in providing funding solutions for Volkswagen drivers.

Whether your Volkswagen

is for private or business use, you can choose from a range of funding options.

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Volkswagen Finance products you can choose a fixed-cost maintenance plan to help you budget for your servicing and maintenance costs.

No matter what finance product you choose, your local Volkswagen retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs.

[±] Volkswagen Finance is a trading name of Volkswagen Financial Services (UK) Limited.

An offer of finance depends on certain conditions. Available to people over 18 in the UK only.

Volkswagen Roadside Assistance.

Every new car is registered for Volkswagen Roadside Assistance for one year. This provides vehicle home and roadside recovery in the unlikely event of a breakdown in the UK and Europe (subject to conditions). Volkswagen Roadside Assistance can also be purchased for subsequent years. For full details, please contact your authorised Volkswagen retailer or repairer.

CO₂ Emissions.

Increased weight of a vehicle, including higher trim levels and the addition of options will have a detrimental influence on the level of fuel consumption and CO₂ emissions produced.

The CO₂ and fuel consumption figures are obtained from tests on a representative vehicle of the type, conducted and approved in accordance with Council Directive 80/1268/EEC as amended by Directive 1999/100/EC (or later) on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

Please Note:

Some illustrations in this brochure do not necessarily reflect UK specifications and may not be available. In particular, controls and some items of equipment are positioned differently for the UK.

The specifications contained in this brochure are for information purposes only and are subject to change. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen retailer prior to ordering.

Note: We would like to advise you that telephone calls to Volkswagen Customer Care may be monitored and recorded as part of our training and quality assurance processes. All our monitoring and recording processes meet Ofel regulations.
