

The Passat Estate

Design.

As soon as you set eyes on the Passat Estate, size and space will take on a new meaning. Combining the practicalities of an estate with the elegance of a saloon, this exceptional car delivers power and charisma more successfully than ever before. From the very first glance, the Passat Estate makes a definitive statement, its wide track width and low-set front end producing a striking appearance, giving a hint of the driving pleasure to come. The gleaming chrome-plated radiator grille surround, a real design highlight, reinforces the story. The rounded in-set headlights add an extra touch of style, echoed through its flowing aerodynamic curves and rear light cluster incorporating LED technology. This is a car designed to command attention and get results. Inside, the promise of the exterior is realised, with innovative design delivering new levels of functionality. Nowhere is this more apparent than in the boot space, where stowage capacity is increased to an impressive 1,641* litres, with the rear seats folded down.

As with any estate, flexibility and versatility are paramount, and here the Passat Estate excels, with a number of different options providing a wealth of practical solutions. For example, the optional cargo management system allows you to organise the load area with maximum efficiency, using an adjustable securing rail and retractable load securing strap to create areas of varying sizes and stow items safely and securely. So, whether you're looking to transport luggage, snowboards or simply some shopping, you'll find enough space and sufficient fixing solutions to meet all your stowage requirements.

01. Flexible: the rear seat and backrest of the Passat Estate can be folded asymmetrically, extending the loading space to a length of up to 1,960 mm.

02. Versatile: the optional cargo management system features an adjustable securing rail and retractable load securing strap to divide the luggage compartment laterally or diagonally, fastening items securely on both sides.

03. Stylish: the elegant design of the Passat Estate SEL with optional front fog lights.

04. Harmonious: Elegant design using refined materials, combine to create a luxurious interior.

05. Impressive: An aerodynamic rear tailgate spoiler and striking rear light clusters emphasise the character of the exterior.

06. Reassuring: Every seat is fitted with a head restraint and three-point seat belt, so you can relax whilst feeling both safe and secure.

* Measurement according to ISO 3832 using 200 x 100 x 50 mm blocks, with rear bench folded down and loading to roof (including 90 litres in the stowage space of the spare wheel recess with the Tyre Mobility Set).

**1,641 litres
stowage capacity.**

Model shown is Sport 2.0 TDI with optional 17" 'Le Mans' alloy wheels and pearl effect paint.

Interior.

The Passat Estate not only tells a story of exceptional space and load carrying capacity, but also superb ergonomics and interior ambience. Sit in the driving seat and you'll immediately appreciate its intelligent and convenient design, with the clearly arranged instrument panel and easily accessible controls, enhanced by the beautifully co-ordinated, luxurious décor. In such an environment, it's easy to feel good.

Carefully positioned for effortless driving, the electronic parking brake with auto hold function and press and drive key are where you would intuitively expect them, close at hand, with parking and starting operating literally at the touch of a button. For the ultimate in relaxed driving, the cruise control system, standard on BlueMotion, Highline and SEL models, maintains a preselected speed automatically, without having to use the accelerator – ideal for motorway driving. And with an abundance of storage space within the doors, roof console and front seat centre armrest (optional on S and BlueMotion), there is ample room to store maps, sunglasses, CDs and more.

The story of practicality continues. Thanks to the transversely mounted engine and spacious interior, the Passat Estate also offers plenty of legroom for rear seat passengers. Which means, wherever you are sitting, front or rear, you'll benefit significantly. Never has size been more attractively presented, or aesthetics more practically arranged.

01. High-quality: the luxurious décor and precision workmanship ensure an interior ambience that is both enjoyable and relaxing.

02. Helpful: the electronic parking brake with auto hold function secures the vehicle easily and reliably at the touch of a button. It releases automatically as soon as you pull away, preventing your Passat Estate from rolling back when hill starting.

03. Easy: thanks to the press and drive key, starting has never been simpler.

04. Convenient: the optional multifunction steering wheel (standard on Highline models) enables you to select numerous functions without taking your hands from the wheel while driving. The clearly arranged instrument panel and controls are also located directly within your field of vision.

05. Relaxing: the cruise control system, which is standard on BlueMotion, Highline and SEL models, makes driving even more enjoyable. Speed is automatically controlled, over 19 mph, enabling you to take your foot off the accelerator and relax.

06. Functional: the doors can be locked or unlocked in one simple operation and the front electric windows have a handy one-touch opening and closing function for ease of use.

Flexibility.

Model shown is Highline with optional pearl effect paint.

The Passat Estate S and BlueMotion Passat Estate.

The Passat Estate S leaves nothing to the imagination, with a wealth of safety features ensuring maximum protection and driving enjoyment. The comprehensive safety package includes such features as an Anti-lock Braking System (ABS), an Electronic Stabilisation Programme (ESP), Traction Control (ASR), speed-sensitive power-assisted steering, driver's and front passenger's WOKS (whiplash-optimised head restraints), and front, side and curtain airbags. Aesthetically too, the Passat Estate S delivers, with an elegance and style that is both understated and assured. Distinctive 'Dark Rhodium' decorative inserts in the dash and centre console, chrome-plated instrument surrounds and stylish 'Calino' cloth upholstery combine to produce an eye-catching image, while 16 inch 'Milwaukee' alloy wheels with 215/55 R16 tyres guarantee dynamic handling and appearance. And demonstrating its immense versatility, black roof rails, storage compartments in the roof console, doors and centre console offer a final touch of practicality. There's even space in the driver's door for the optionally available Volkswagen umbrella.

The Passat Estate S also offers a whole host of standard fittings providing everything you would expect – and more – from an extraordinary car. The front electric windows and electrically heated and adjustable door mirrors provide added convenience, the tailgate unlocks automatically with remote operation and the press and drive key allows you to start the engine simply by pushing the key. In addition, the rear seat backrest with integral centre armrest splits 60:40 allowing it to be folded down in separate sections, ideal if you're loading bulky items, and the stylish four-spoke steering wheel individually adjusts to your optimum driving position. And that's just for starters. Also fitted as standard is a multifunction computer, electronic parking brake with auto hold function, RCD 310 radio/MP3 compatible CD player with eight speakers and an AUX-in socket for connection to an external multimedia source (e.g. iPod and MP3 player), 'Climatic' semi-automatic air conditioning, alarm with interior protection and remote central locking. As you can see, Volkswagen have thought of everything – all you have to do is concentrate on enjoying the drive.

The BlueMotion Passat Estate builds over the already well equipped Passat Estate S and, in addition, offers impressive environmental credentials by intelligently refining existing technology. Dynamic lines reduce the vehicle's air resistance and, combined with engineering refinements, low rolling resistance tyres and lowered suspension help produce exceptional economy. A combination of all these refinements delivers a package that offers excellent economy up to 54.3 mpg over the Combined fuel cycle*, and the 1.9 litre TDI 105 PS engine with DPF (Diesel Particulate Filter) ensures CO₂ emissions are from an impressively low 137 g/km.

The BlueMotion Passat Estate adds a higher specification which is evident from its stylish exterior, with 16 inch 'Sarena' light alloy wheels with low rolling resistance tyres, chrome-plated side bump strips and rear bumper strips and chrome-plated radiator grille surround and louvres creating a visual statement. Internally, for added convenience, there is also cruise control and a multifunction computer (Highline) which includes visual gear change recommendations for optimum fuel consumption.

Interior shown is S.

The RCD 310 radio/MP3 compatible CD player with eight speakers and an AUX-in socket for connection to an external multimedia source (e.g. iPod and MP3 player) will ensure enjoyment on any journey.

The multifunction computer (Highline) includes visual gear change recommendation for optimum fuel consumption. Standard on BlueMotion Passat Estate models.

* Please see the Engines section for fuel consumption and CO₂ emissions figures.

The leather trimmed three-spoke multifunction steering wheel allows convenient operation of the radio and multifunction computer (Highline).

The Passat Estate Highline.

The Passat Estate Highline offers the ultimate in comfort and style. Well appointed and beautifully crafted, it offers a host of features designed to ensure total driving pleasure whatever the length of your journey. The 6-way electrically adjustable driver's seat with lumbar support and adjustable backrest guarantees the best possible seating position, while heated front seats with five preset temperature settings and a front centre armrest add an extra touch of luxury. Sumptuous 'Vienna' leather upholstery is complemented by a leather trimmed gear knob, carpet mats, and matt chrome inserts in the dash and centre console, (or brushed stainless steel decorative inserts with latte or pure beige leather). To ensure stress-free driving, there's a leather trimmed three-spoke multifunction steering wheel and multifunction computer (Highline), providing essential information as you drive, and to help you relax on longer journeys, cruise control will automatically maintain your desired speed above 19 mph without you having to touch the accelerator pedal.

From the outside, the Highline can be distinguished by its body-coloured front bumper strips, chrome satin side window surrounds, chrome-plated side bump strips and rear strip, while 17 inch 'Macau' alloy wheels with 235/45 R17 tyres add a distinctive finishing touch. With an exceptional specification that even includes a full size alloy spare wheel, what more could you ask for?

Interior shown is Highline with optional RCD 510 touch-screen radio/MP3 compatible 6 CD autochanger. Please note that some parts of leather interior will contain artificial leather.

Interior shown is Sport with optional DVD touch-screen radio/navigation system, heated front seats, heated windscreen and heated windscreen washer jets.

Stylish 17" 'Monte Carlo' alloy wheels, sports suspension, front fog lights and tinted windows from the B pillar back give the Passat Estate Sport a distinctive sporty look.

The Passat Estate Sport.

The very first glimpse of the Passat Estate Sport conveys its phenomenal power and dynamic performance. And regardless of which engine specification you choose, 17 inch 'Monte Carlo' alloy wheels with 235/45 R17 tyres ensure that the sports suspension, lowered by approximately 15 mm, performs spectacularly on tarmac. Of course, it's not until you actually drive the Passat Estate Sport that the full dynamic extent of this exceptional car is really revealed.

Once you're in the driving seat, the streamlined interior and predominance of sporting features only reinforce the impression. With a leather trimmed three-spoke steering wheel and matching gear knob providing that all-important extra grip, tinted windows from the B pillar back and a 6-way electrically-operated, fully adjustable driver's sport seat with 'Karah' cloth upholstery ensuring optimal lateral support at all times. 2Zone electronic climate control with an automatic air recirculation feature completes the carefully planned interior ergonomics, while the exterior black roof rails ensure even bulky items can be reliably secured and transported.

The Passat Estate Sport also has an automatic dimming interior rear-view mirror, rain sensor, dusk sensor and front fog lights ensuring good visibility even during bad weather. In addition, the manual coming/leaving home lighting function enables headlights and rear lights to illuminate the immediate area, making it easier and safer for you to get in or out of the car. Sporty and practical, the Passat Estate Sport offers an unbeatable combination.

In addition if you prefer the added stability and safety provided by four wheel drive, you could specify the Sport 2.0 litre TDI CR 140 PS 4MOTION. Volkswagen's sophisticated four wheel drive system allows the engine power to be transferred to the wheels with the best traction. The system gives the optimum traction for all driving situations and adds to the already high levels of driver and passenger safety, even in the most demanding conditions.

Stylish 16" 'Adelaide' alloy wheels provide an exclusive look to the exterior of the SEL.

The Passat Estate SEL.

Exclusivity typifies the Passat Estate SEL. With its chrome-plated radiator grille and roundel surround, 'chrome satin' side window surrounds and side strips, high-gloss chrome-plated roof rails and 16 inch 'Adelaide' alloy wheels with 215/55 R16 tyres, the elegant exterior exudes quality and refinement. The aesthetics continue in the beautifully crafted interior, with walnut wood decorative inserts in the dash and brushed aluminium inserts in the centre console with latte or pure beige upholstery, or brushed aluminium inserts in the dash and centre console with black or grey upholstery. A host of features creates a more relaxed driving environment, including a multifunction display, 2Zone electronic climate control featuring automatic air recirculation, cruise control, front sport seats in Alcantara leather*, which are heated for added comfort, an automatic dimming interior rear-view mirror and RCD 510 touch-screen radio system equipped with an MP3 compatible dash-mounted six CD autochanger, eight speakers and an AUX-in socket for connection to an external multimedia source (e.g. iPod and MP3 player). With so many extra touches such as heated windscreen washer jets, dusk sensor, manual coming/leaving home lighting function and front footwell illumination the Passat Estate SEL literally does all the work for you. All you have to do is enjoy the journey.

Specify the SEL V6 4MOTION, and your Passat comes equipped with 17" 'Solitude' alloy wheels with 235/45 R17 tyres, including a full size alloy spare wheel. Also included with the V6 4MOTION model is Volkswagen's 4MOTION four wheel drive system and the new ACC (Adaptive Chassis Control) variable suspension – you can select the Sport, Comfort or Normal setting for your journey, enabling the electrically regulated dampers and steering to adapt optimally to road conditions and driving style. In addition a multifunction computer (Highline) and a tyre pressure monitoring system, which alerts the driver to any change in tyre pressure are also fitted as standard.

* Some parts of leather interior will contain artificial leather.

Interior shown is SEL with optional 'Dynaudio' soundpack.

Versatility.

Model shown is S with optional metallic paint.

Engines.

01. The DSG gearbox offers a genuine alternative to a manual gearbox because it is able to change gear faster than a manual gearbox and more smoothly than a conventional automatic. On SEL V6 4MOTION models ACC (Adaptive Chassis Control) is standard.

02. TSI engines – using state-of-the-art turbocharger technology, Volkswagen has developed a petrol engine that combines the advantages of a compressor with those of a turbocharger.

03. Diesel engines with the latest technology deliver outstanding performance with exceptionally low fuel consumption.

Every journey is a special experience in the Passat Estate, thanks to Volkswagen's superb range of economical, high-torque petrol and diesel engines, all designed to make driving pure pleasure. The four petrol variants benefit from direct injection technology, where the fuel is injected into the combustion chamber under high pressure, resulting in impressive performance even at low revs. The first variant is a powerful four cylinder 1.4 litre TSI engine developing 122 PS which utilises a sophisticated turbocharger, resulting in impressive output with a smaller engine size. This engine can reach 124 mph, where the law permits, and is capable of achieving a fuel consumption figure of 42.2 mpg on the Combined fuel cycle*. The second engine available for the Passat Estate is a 1.8 litre engine, again incorporating TSI technology developing a healthy 160 PS. When specified with the six speed manual gearbox, it can accelerate the Passat Estate to 62 mph in 8.8 seconds, yet is still capable of 36.2 mpg on the Combined cycle*. The 2.0 litre TSI engine generating 200 PS, ensures others only have the Passat Estate's elegant rear end to admire as it accelerates to 62 mph in 7.7 seconds on its way to a top speed of 144 mph, where the law permits. Finally, if it's performance you're seeking, the 3.2 litre FSI V6 4MOTION 250 PS is sure to impress, with 330 Nm of torque produced at 3,000 rpm and 0 - 62 mph achieved in just 7.2 seconds.

The three diesel variants are particularly sophisticated, mainly in terms of flexibility and fuel economy. First is the four cylinder 1.9 litre TDI engine with a five speed gearbox, developing 105 PS and 250 Nm of torque at 1,900 rpm. Like most Passat Estates, it has a 70 litre fuel tank (68 litres on 2.0 litre 140 PS 4MOTION models), and thanks to 'Pumpe Düse' technology, achieves 48.7 mpg on the Combined cycle*. This engine, in conjunction with the BlueMotion Passat Estate, is capable of a top speed of 118 mph where the law permits, produces a mere 137 g/km of CO₂ yet can still achieve 54.3 mpg on the Combined cycle* – a benefit that will make your next journey even more pleasurable.

The second diesel option, the powerful 2.0 litre TDI CR engine, is available with either a six speed manual gearbox or with Volkswagen's revolutionary six speed automatic DSG gearbox. Featuring the latest common rail technology, this engine not only ensures excellent performance and fuel consumption but also makes it incredibly quiet. With the manual gearbox, this engine can deliver 140 PS and 320 Nm at just 1,800 rpm while returning 47.9 mpg on the Combined cycle*. In addition if you prefer the added stability and safety provided by four wheel drive, you could specify the 2.0 litre TDI CR 140 PS with 4MOTION on the Sport model.

Finally, building upon the common rail technology of the 2.0 litre TDI CR 140 PS engine, the equally impressive 2.0 litre TDI CR 170 PS can accelerate the Passat Estate from 0 - 62 mph in just 8.8 seconds yet is capable of returning an impressive fuel consumption figure of 44.1 mpg on the Combined fuel cycle* – creating a fine balance of performance and efficiency.

As part of Volkswagen's continued desire to satisfy European emissions legislation, certain diesel engines are now fitted with a Diesel Particulate Filter (DPF). This is part of the exhaust system responsible for cleaning the exhaust gases before they enter the atmosphere. In addition to converting the harmful exhaust gases in the same way as a conventional catalytic converter, the DPF uses advanced technology to reduce the emission of black smoke and soot. It filters the exhaust gases and particles before they leave the vehicle exhaust system, resulting in a cleaner environment and less pollution entering the atmosphere.

Please note, driving conditions within inner-cities and the Channel Islands may not provide optimum conditions for the use of DPF technology. Therefore, it is advised that you consider this before ordering your vehicle with DPF.

* Please see the Engines section for fuel consumption and CO₂ emissions figures.

S – 1.4 litre TSI 122 PS.

Technical specification.

Manual			
Engine	Engine type	Four cylinder petrol	
	Cubic capacity, ltrs/cc	1.4/1390

Notes.

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer’s criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of unleaded Super plus. In order to achieve maximum fuel consumption benefits on the FSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- 05) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 06) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.
- 07) The use of RME and FAME (bio diesel) is not possible.

Notes.

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer’s criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of unleaded Super plus. In order to achieve maximum fuel consumption benefits on the FSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- 05) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 06) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.
- 07) The use of RME and FAME (bio diesel) is not possible.

S, Highline – 1.9 litre TDI 105 PS.

The technology.

Transmission

- Front wheel drive through asbestos-free single-plate dry clutch. Hydraulic clutch-mechanism. Five/six speed manual, six speed automatic tiptronic or six speed automatic DSG gearbox with double joint half axles
- Four wheel drive (4MOTION only) with electronically controlled multi-plate clutch. Electronic differential lock, combined with a hydraulically operated single-plate dry clutch with asbestos-free lining via a six speed manual or six speed automatic DSG gearbox
- Five speed manual:
1.9 litre TDI 105 PS,
1.9 litre TDI DPF 105 PS
- Six speed manual:
1.4 litre TSI 122 PS,
1.8 litre TSI 160 PS,
2.0 litre TSI 200 PS,
2.0 litre TDI CR 140 PS,
2.0 litre TDI CR 4MOTION 140 PS,
2.0 litre TDI CR 170 PS
- Six speed automatic tiptronic:
1.8 litre TSI 160 PS,
2.0 litre TSI 200 PS
- Six speed automatic DSG:
3.2 litre FSI V6 4MOTION 250 PS,
2.0 litre TDI CR 140 PS,
2.0 litre TDI CR 170 PS

Running gear

- Electronic Stabilisation Programme (ESP) including Electronic Differential Lock (EDL), Traction Control (ASR) and Countersteer Support
- Front suspension through coil springs with telescopic shock absorbers, all elements integrated in chassis legs
- Rear suspension with gas pressure shock absorbers and separate springs
- Wheel control: front through chassis legs and (lower) triangular wishbones (directionally stabilising steering roll radius)
- Wheel control: rear through four-link suspension with independent wheel suspension
- Front and rear anti-roll bar

Brakes

- Electronically controlled Anti-lock Braking System (ABS) with Electronic Brake-pressure Distribution (EBD)
- Diagonal twin-circuit brake system with inner-ventilated front disc brakes and rear disc brakes
- Asbestos-free brake pads
- Hydraulic Brake Assist (HBA)
- Electronic park brake

Steering

- Electro-mechanical steering rack
- Collapsible, height and lengthways adjustable safety steering column

Engines

- Front transverse-installed engine
- 1.4 litre/122 PS ⁽⁰¹⁾ (90 kW) petrol engine: CAXA TSI engine with homogeneous mode (Lambda 1), stratified high-pressure start, double injection catalytic converter heating, turbocharger with waste gate, air-to-liquid charge-air cooling, maintenance-free timing chain, plastic intake manifold with integrated intercooler, continuous inlet camshaft timing adjustment, grey cast iron cylinder block, steel crankshaft, duo-centric oil pump, dual-circuit cooling system. Fuel system regulated according to requirements using high-pressure fuel pump with integrated pressure limiting valve
- 1.8 litre/160 PS ⁽⁰¹⁾ (118 kW) petrol engine: four cylinder in-line engine, four valves per cylinder, four-stroke turbocharged petrol engine, cast iron cylinder crankcase with balancer shafts, steel crankshaft and internal oil pump
 - chain driven by the crankshaft, timing gear chain and chain driven mass balancer at the front end of the engine, four valve cylinder head, one intake camshaft adjuster, intake manifold with tumble flap, demand controlled fuel supply on low and high pressure ends, multi-port high pressure injector, MED 17 engine control unit, hot-film digital air mass meter with integral temperature sensor, throttle valve with contactless sensor, map-controlled ignition with cylinder selective, digital knock control and single spark ignition coils, integral exhaust turbocharger, charge-air cooler, boost pressure control with overpressure and electrical wastegate valve, single chamber exhaust system with close-coupled pre-catalyst, no ‘continuous’ pre-catalyst oxygen sensor in the EU4, direct injection, homogeneous combustion process
- 2.0 litre/200 PS ⁽⁰¹⁾ (147 kW) petrol engine: four cylinder in-line engine, aluminium cylinder head, four valves per cylinder with roller rocker finger valve drive, electronic direct injection, variable inlet valve timing, programmed ignition with cylinder-selective anti-knock control, four single spark ignition coils, longlife spark plugs, exhaust gas turbocharger, three-way close-coupled pre-catalyst and underbody catalyst, lambda control
- 3.2 litre/250 PS ⁽⁰¹⁾ (184 kW) petrol engine: six cylinder transverse engine in ‘V’ format, aluminium cylinder head, four valves per cylinder with roller rocker valve lever drive, electronic indirect injection, six single spark ignition coils, lambda control
- 1.9 litre/105 PS ⁽⁰¹⁾ (77 kW) diesel engine: four cylinder in-line engine, two valves per cylinder, electronically controlled ‘Pumpe Düse’ high pressure injection system, oxidation catalyst, turbocharger with variable turbine geometry, catalytic converter or catalytic coated Diesel Particulate Filter (DPF)
- 2.0 litre/140 PS ⁽⁰¹⁾ (103 kW) common rail diesel engine: EU4 emissions standard (EU5 compliant), four cylinder in-line engine, four valves per cylinder, aluminium-silicon alloy cylinder head, toothed backlash compensator, intake manifold with electric continual tumble flap control, electronically controlled common rail direct injection system with Bosch high pressure pump (up to 1800 bar) and 8-hole piezo injector units, pre-supply electronic fuel pump, oil cooler, intercooler, exhaust gas recirculation, additional coolant pump, turbocharger with variable turbine geometry, catalytic converter and Diesel Particulate Filter (DPF)
- 2.0 litre/170 PS ⁽⁰¹⁾ (125 kW) common rail diesel engine: EU4 emissions standard (EU5 compliant), four cylinder in-line engine, four valves per cylinder, aluminium-silicon alloy cylinder head, toothed backlash compensator, intake manifold with electric continual tumble flap control, electronically controlled common rail direct injection system with Bosch high pressure pump (up to 1800 bar) and 8-hole piezo injector units, pre-supply electronic fuel pump, oil cooler, intercooler, exhaust gas recirculation, additional coolant pump, turbocharger with variable turbine geometry, catalytic converter and Diesel Particulate Filter (DPF)

Dimensions.

Maximum luggage capacity, litres VDA measuring method using 200 x 100 x 50 mm blocks

With rear seat upright	513
With rear seat folded	1641

Exterior dimensions

Length, mm	4774
Width – excluding door mirrors, mm	1820
Width – opened front/rear doors, mm	3723/3462
Height, mm	1517
Height – opened bonnet/floor, mm	1826
Height – opened tailgate/floor, mm	2058
Wheelbase, mm	2709
Turning circle, mm	11400

Interior dimensions

Effective headroom – front, mm (with sunroof)	970 (952)
Effective headroom – rear, mm (with sunroof)	980 (980)
Elbow width – front, mm	1466
Elbow width – rear, mm	1511
Legroom – front, mm	725-1038

Safety.

01. The front suspension system utilises a spring strut front axle, chassis legs and (lower) triangular wishbones (directionally stabilising steering roll radius).

02. Rear wheel control is implemented through a four-link suspension system with independent wheel suspension.

03. The tyre pressure monitoring system conveniently indicates changes in tyre pressure on the instrument display. Standard on SEL V6 4MOTION models and optional on all other models.

04. Through a combination of Traction Control (ASR), Electronic Differential Lock (EDL) and Anti-lock Braking System (ABS), the Passat Estate delivers exceptional handling and braking.

05. The Electronic Stabilisation Programme (ESP) detects critical situations at an early stage and takes action by, for example, specifically braking individual wheels.

06. The body of the Passat Estate is formed from specially hardened components which possess high strength and excellent shaping characteristics. Thanks to the latest lightweight construction technology the body also offers optimal protection under heavy impact – all with a weight of only 298 kg.

The most important consideration for any driver is safety. That's why it's so reassuring to drive the Passat Estate. With a whole range of new generation safety features included as standard, the Passat Estate provides the highest levels of safety possible, ensuring optimum protection in hazardous situations.

Of course, it's even better to avoid hazards in the first place, which is where the Passat Estate's active safety concept comes in. An innovative suspension system, with a spring strut front axle and four-link rear axle, counteracts any unevenness in the road surface, keeping the Passat Estate safely in place. At the same time, the driver benefits from electro-mechanical power-assisted steering, which reacts with extreme precision even at high speeds. The Electronic Stabilisation Programme (ESP) plays a further role, utilising Electronic Differential Lock (EDL), Traction Control (ASR) and Countersteer Support to help correct oversteer, understeer and loss of stability of the vehicle. The result is optimum traction when rounding bends. And to ensure you retain control on a slippery surface, the Anti-lock Braking System (ABS) prevents the wheels from locking in the event of an abrupt braking manoeuvre. In addition, under emergency braking the hazard lights are automatically activated. Finally, a tyre pressure monitoring system, standard on SEL V6 4MOTION and available as an optional extra on all other models, automatically lets you know via the instrument panel, as soon as there is any change in the vehicle's tyre pressure.

An important element of the Passat Estate's safety philosophy concerns the protection of other road users, and involves a completely new passive safety concept. It starts with special protection zones located in the front body area and bumpers, reducing the risk of injury to cyclists and pedestrians. Occupants of the Passat Estate are protected too, by a bodyshell equipped with crumple zones designed to absorb impact energy and protect the inner passenger compartment. Further protection is provided by a six airbag system, which includes driver's and front seat passenger's airbags, curtain airbags at the front and rear, and side impact airbags for the front, with rear available as an optional extra. In the event of an accident, WOKS (whiplash-optimised head restraints) on the front seats react within milliseconds, to help protect the head from injury and reduce whiplash. All this is supplemented by three-point automatic safety belts on all seats, an acoustic and optical warning for the driver's and front seat passenger's unfastened seat belts, and Volkswagen's innovative Isofix fittings to accommodate two child seats in the rear, providing maximum protection for children. As you can see, everything has been thought of to ensure maximum safety for all concerned, whether for other road users or for you and your passengers. You couldn't ask for more than that.

Paint.

Decorative inserts.

Please note: Screen technology does not allow for exact reproduction of the paint colours and decorative inserts. For further details, please contact your Volkswagen retailer.

* Metallic and pearl effect paint are optional at extra cost.

† Optional only in conjunction with latte or pure beige upholstery.
Standard on SEL models in conjunction with latte or pure beige upholstery.

Optional equipment.

01 The Passat Estate features Volkswagen's latest generation **DVD touch-screen navigation/radio system**, this new DVD based navigation unit not only delivers great sound quality but it can also guide you to your destination. A 6½" high resolution, touch-screen colour display shows a perspective (bird's-eye) view of your mapped route, in addition, traffic information (TMC), landmarks, intersection zoom, points of interest and a route list can all be viewed. As well as featuring the latest in processor technology, resulting in quick route calculations using all but the last two digits of a UK postcode, this sophisticated system features a 30 GB hard drive to buffer the navigation data as well as store the driver's favourite audio and video files (i.e. MP3, WMA, DVD video data files), the integrated DVD drive and SD (Secure Digital) card reader also allow the playback of such audio and video files. Also included is a rear-view camera which allows you to judge distances and view obstacles obscured from view behind your vehicle via the touch-screen colour display. Completing the multimedia experience is the ability to connect an external multimedia device (e.g. iPod and MP3 player) via the AUX-in socket.

02 The RCD 510 touch-screen radio system with integral dash-mounted MP3 compatible six CD autochanger and an AUX-in socket for connection to an external multimedia source (e.g. iPod and MP3 player) ensures hours of listening pleasure.

03 Bluetooth telephone preparation* enables you to use your mobile phone without taking it out of your jacket pocket, thanks to Bluetooth (rSAP) connectivity. It is controlled via a separate keypad on the control panel.

04 The 2Zone electronic climate control air conditioning system, with automatic air recirculation and indirect ventilation, uses electronic 2Zone temperature control to create an air conditioned environment individually suited to the driver and front seat passenger.

'Monsoon' and 'Dynaudio' soundpacks (not shown) ensure even greater sound quality for your Passat Estate when specified with the DVD touch-screen navigation/radio system or touch-screen radio system RCD 510.

Please note: DVD touch-screen navigation/radio system and touch-screen radio system RCD 510 cannot be specified in conjunction with each other. DVD playback will not function whilst the navigation system is in use, or the vehicle is in motion.

* Only in conjunction with a multifunction steering wheel – phones must be compatible with rSAP (rSim Access Profile), please contact your retailer for phone compatibility.

05 Bi-Xenon headlights with dynamic curve lighting produce a much clearer, brighter light for both dipped and main beam, giving you a clearer view of the road ahead and helping you drive more safely, particularly on winding roads. Also included in this option are headlight washers which help keep headlights free from dirt, ensuring maximum visibility.

06 The front and rear parking sensors featuring optical parking display monitor the vehicle's distance from an obstacle, helping you manoeuvre in and out of parking bays. The radio system, or navigation/radio system display provides a visual representation, whilst an acoustic signal warns as an obstacle becomes closer.

07 This specially designed cargo management system comprises two rails positioned on the left and right of the cargo area and four lashing eyelets. The rails can be used to individually fix straps and a telescopic rail into place using variable rod positions enabling secure stowage of luggage, whatever the size or shape.

Also available, but not shown:
Integrated child seats are integrated into the rear seat bench including seat belt tensioners for outer rear seats. A new design offers booster pillows integrated into the headrest mountings, giving your child even more side support. Please note that the integrated child seats are only available in conjunction with black upholstery or black leather.

Wheels.

01 'Milwaukee' 7J x 16 alloy wheels with 215/55 R16 tyres. Standard on S models and not available as an option.

02 'Sarena' 7J x 16 alloy wheels with 205/55 R16 low rolling resistance tyres. Standard on BlueMotion models and not available as an option.

03 'Macau' 7½J x 17 alloy wheels with 235/45 R17 tyres. Standard on Highline models and not available as an option.

04 'Adelaide' 7J x 16 alloy wheels with 215/55 R16 tyres. Standard on SEL models and not available as an option.

05 'Solitude' 7½J x 17 alloy wheels with 235/45 R17 tyres. Standard on SEL V6 4MOTION models and not available as an option.

06 'Monte Carlo' 7½J x 17 alloy wheels with 235/45 R17 tyres. Standard on Sport models and optional on SEL models. 'Monte Carlo' alloy wheels also form part of the **Sports pack**, optional on SEL and SEL V6 4MOTION models.

07 'Le Mans' 7½J x 17 alloy wheels with 235/45 R17 tyres. Optional on Sport and SEL V6 4MOTION models.

08 'Chicago' by Individual 8J x 18 with 235/40 R18 tyres. Optional on Highline and Sport models. 'Chicago' alloy wheels also form part of the **Sports pack**, optional on SEL and SEL V6 4MOTION models.

Enhance your Passat Estate with a sporty new look with the optional **Sports pack** available for SEL and SEL V6 4MOTION models. This option includes approximately 15 mm lowered sports suspension, darkened windows from B pillar back and front fog lights. To complete the look just choose between 17 inch 'Monte Carlo' or 18 inch 'Chicago' alloy wheels. When you specify 'Chicago' alloy wheels on SEL models, you also get a full size spare alloy wheel. **Sports pack** with 17 inch 'Monte Carlo' alloy wheels are standard on Sport models.

Please note, alloy wheels and sports pack cannot be specified in conjunction with each other.

Volkswagen service for your peace of mind.

The Volkswagen Warranty.

Three-year Warranty.

All Volkswagen Passat Estates come with a three-year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer’s warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty. Should the mileage exceed 60,000 miles within the first two years, the manufacturer’s two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised Volkswagen retailer or repairer; however, this additional warranty must be purchased before the mileage reaches 60,000*. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

* All warranty work must be completed by an authorised Volkswagen retailer or repairer.

Three-year Paint Warranty.

The paintwork of the Passat Estate is covered against manufacturing defects for a period of three years. Naturally, the Passat Estate must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

12-year Body Protection Warranty.

The internal body sections and panels of the Passat Estates are covered against rusting through from the inside for 12 years. Naturally, the Passat Estate must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

Extended Warranty.

You may purchase additional protection from your authorised Volkswagen retailer or repairer, or contact 0870 9000 115.

Approved Accessories.

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen approved accessories purchased from and fitted by your authorised Volkswagen retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

Service Intervals.

Volkswagen are pleased to offer you a choice on how your Passat Estate is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Time and Distance Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts.
- Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing.
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking.

The service intervals for the Time and Distance Service are as follows:

- Oil change service
Every 10,000 miles/1 year (whichever is soonest).
- Interval service
Every 20,000 miles/2 years (whichever is soonest).
- Inspection service
Every 40,000 miles/3 years (whichever is soonest).

The LongLife Service is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

With the LongLife Service the vehicle can cover anywhere between 10,000[†] and a maximum of 18,000[†] miles or 24 months (whichever is soonest) between oil changes. Inspection service is typically in the third year of ownership and thereafter every second year, for vehicles with an approximate annual mileage of 10,000 miles.

[†] Please note that mileages are approximate as the service indicator system uses kilometres as the distance measurement. Please consult your authorised Volkswagen retailer or repairer for advice and full details.

Volkswagen Finance‡.

Volkswagen Finance specialises in providing funding solutions for Volkswagen drivers. Whether your Volkswagen is for private or business use, you can choose from a range of funding options.

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Volkswagen Finance products you can choose a fixed-cost maintenance plan to help you budget for your servicing and maintenance costs.

No matter what finance product you choose, your local Volkswagen retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs.

‡ Volkswagen Finance is a trading name of Volkswagen Financial Services (UK) Limited. An offer of finance depends on certain conditions. Available to people over 18 in the UK only.

Volkswagen Insurance±.

Competitive and comprehensive motor insurance designed especially for Volkswagen drivers. All new and Approved Used Volkswagens come with complimentary seven-day cover upon request – we’ll e-mail a cover note straight to your retailer, enabling them to tax your car easily. This way, you can drive straight out of the showroom. Taking out annual cover is easy and it can start when the seven-day cover expires. For more information contact your local Volkswagen retailer or call 0800 051 3136.

± Volkswagen Insurance is underwritten and administered by Zurich Insurance Company. Volkswagen Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited which is an appointed representative of Volkswagen Financial Services (UK) Limited. Zurich Insurance Company and Volkswagen Financial Services (UK) Limited are both authorised and regulated by the Financial Services Authority.

Volkswagen Roadside Assistance.

Every new car is registered for Volkswagen Roadside Assistance for one year. This provides vehicle home and roadside recovery in the unlikely event of a breakdown in the UK and Europe (subject to conditions). Volkswagen Roadside Assistance can also be purchased for subsequent years. For full details, please contact your authorised Volkswagen retailer or repairer.

Tax Free Sales.

For full details, please contact your authorised Volkswagen retailer.

CO₂ Emission.

Increased weight of a vehicle, including higher trim levels and the addition of options will have a detrimental influence on the level of fuel consumption and CO₂ emissions produced.

The CO₂ and fuel consumption figures are obtained from tests on a representative vehicle of the type, conducted and approved in accordance with Council Directive 80/1268/EEC as amended by Directive 1999/100/EC (or later) on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

Please Note:

Some illustrations in this brochure do not necessarily reflect UK specifications and may not be available. In particular, controls and some items of equipment are positioned differently for the UK.

The specifications contained in this brochure are for information purposes only and are subject to change. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen retailer prior to ordering.

Note: We would like to advise you that telephone calls to Volkswagen Customer Care may be monitored and recorded as part of our training and quality assurance processes. All our monitoring and recording processes meet Ofcom regulations.
