The silhouette of a sleek, muscular coupe. The dynamic traction of an SAV.® The lightning-quick cornering of Dynamic Performance Control. The availability of advanced ActiveHybrid power. BMW X6 is the world's first four-door Sports Activity Coupe™ – a concept where TwinPower Turbocharging, sophisticated luxury, and flexible storage and seating all support your driving ambitions.

X6 xDrive50i shown with the following equipment:

Engine: 32-valve, TwinPower Turbo
4.4-liter V-8

Exterior color: Vermilion Red Metallic

Upholstery: Oyster Nevada Leather

Interior trim: Dark Bamboo Wood

Optional equipment:
Sport Package, Star Spoke
(Style 336) 20" light alloy
wheels, Cold Weather Package

BMW X6

For details on paint, upholstery and interior trims, please refer to pages 32-35.

THE ALLURE OF THOUGHTFUL DESIGN.

BMW's engineers and designers have created an exciting and practical class of all-wheel-drive vehicles: a Sports Activity Coupe.TM Equal parts sensual and sensible, its sure-footed athleticism and striking appearance are matched by the practicality of four doors and a usable cargo area. It's a vehicle that makes no compromises in performance – on the road or in your daily life.

BREAKING NEW GROUND.
SETTING NEW STANDARDS.

IGNITE YOUR DRIVING PASSION AT EVERY TURN.

The X6's innovative, sporty look reflects the components that give it a sports car-like driving feel that's not usually associated with AWD vehicles. In addition to a powerful engine and taut suspension, BMW's revolutionary Dynamic Performance Control technology can transfer power between the rear wheels for quick high-performance cornering. Adaptive Drive, which is included in the optional Sport Package, adds Active Roll Stabilization (ARS) and Electronic Damping Control (EDC) to the mix. ARS helps eliminate body roll, keeping the vehicle level, stable and agile; EDC continuously adjusts the shock absorbers from the softest to the firmest settings for outstanding compliance and body control. In the X6, it all comes together in a unique driving experience.

ADAPTABLE GRIP AND SMART BRAKES TO CONQUER ANY ROAD, IN ANY WEATHER.

Not all roads are dry and level. That's good news for the X6 Sports Activity Coupe.™ It welcomes challenges, easily tackling rough surfaces, tight corners, steep climbs and steeper downhills. On steep downhill grades, press the Hill Descent Control button to help keep the X6 to a steady crawl without even touching the brakes. Speaking of brakes, Dynamic Stability Control includes four innovative brake-optimizing features. When stopped on a hill, **Start-off Assistant** helps keep the X6 from rolling after you take your foot off the brake pedal. When you quickly take your foot off the accelerator, **Brake Stand-by** anticipates the need for a short stop, and pre-tenses the calipers. Whenever moisture is detected, **Brake Drying** periodically and discreetly brings the brake pads into contact with the rotors to help dry them. And on long, gradual downhill slopes, **Brake Fade Compensation** helps keep your brake pedal action even, so you don't have to keep increasing brake pressure.

**DRIVE ALL YOU WANT –
YOU CAN'T THROW IT OFF GUARD.**

In addition to inventing its own class, the BMW X6 brings with it a host of innovative technologies. For example, power distribution is nominally 40% front axle, 60% rear, for balanced handling. However, BMW's xDrive intelligent all-wheel-drive technology continuously and undetectably transfers power forward and back between both axles, depending upon which has greater traction. Dynamic Performance Control adds a secondary functionality of shifting power between the rear wheels. This helps maintain the sportier driving dynamics associated with rear-wheel-drive vehicles, so you get the best of both worlds: sporty road feel combined with pavement-hugging traction. It's an idea that perfectly fits the X6.

INSIDE A UNIQUE VEHICLE, A FAMILIAR PERSPECTIVE.

The X6 may be difficult to classify at first glance. But from behind the wheel, it looks exactly like a BMW. The leather-wrapped multi-function sport steering wheel swiftly transmits your every driving input. Steering wheel-mounted paddle shifters make shifting through the gears a motorsport-inspired experience. Every gauge and instrument dial is easy to read; every control is conveniently placed within arm's length. Standard appointments include the newest version of iDrive, which offers a variety of entertainment and communications options, six programmable memory buttons, and a hard drive with 12 GB of space that can store up to 2,000 songs. A unique touch: kneepads that give your legs a better grip in tight turns. And the commanding seat position reminds you that once you're in the X6, you're in charge of the road.

360 DEGREES OF PURE BMW LUXURY.

You have to hand it to the BMW designers: they truly understand the concept of comfort. The X6 offers a spacious interior, with a surprising amount of leg- and headroom for both the front and back seats. And while some all-wheel-drive vehicles may favor utility over luxury, the X6 impresses with a wealth of premium interior features, such as supple Nevada Leather upholstery and exotic Dark Bamboo Wood trim. So no matter what the scenery outside offers, the view of the cabin is always first-rate.

THIS IS HOW MUCH HAS GONE IN.

At BMW, we create dynamic vehicles that thrill you with quick acceleration, predictable handling and unshakable control. We are also busy finding innovative fuels and technologies that help preserve the environment while delivering legendary performance. This is what we refer to as "EfficientDynamics." This goal led to the visionary CleanEnergy hydrogen-powered engine in the BMW Hydrogen 7 Sedan. In 2009, BMW introduced Advanced Diesel with BluePerformance in the U.S., offering diesel power with quick acceleration, increased fuel efficiency and reduced emissions. And now, BMW's ActiveHybrid X6 and ActiveHybrid 7 vehicles combine combustion and electric power along with Brake Energy Regeneration to boost performance while simultaneously reducing fuel consumption and CO₂ emissions. At BMW, we are driven to do much more with less.

High Precision Injection

Turbocharging is traditionally known for boosting power at the expense of fuel efficiency. BMW TwinPower Turbo engines with piezo direct fuel injection, however, inject gasoline at high pressure and with extreme precision into each cylinder. And, thanks to BMW's fast and flexible electronic control system, both the timing and quantity of the fuel injections can be precisely adjusted to driving conditions. As a result, BMW vehicles achieve greater power with excellent fuel efficiency.

Aerodynamics

The more smoothly that air flows over a vehicle, the more efficiently it can operate. All BMWs are designed for a low coefficient of aerodynamic drag, which translates into quicker acceleration, more stable handling, quieter operation and greater fuel efficiency. A BMW's integrated front spoilers reduce the amount of air flowing underneath, minimizing front-end lift. This allows a BMW to hug the road at higher speeds for excellent stability.

Double-VANOS

BMW's electronically controlled valve timing system operates on the intake and exhaust camshafts, steplessly varying when valves open and close. It reduces emissions, and enhances torque and fuel efficiency.

Valvetronic

Instead of using a throttle, Valvetronic lets the engine breathe more easily by varying the lift height of the valves to regulate air intake, for smoother running and better fuel efficiency.

TwinPower Turbo

Both turbocharged X6 engines deliver quick acceleration without any turbo lag. Fuel economy is strong, thanks to precise piezo direct fuel injection.

Brake Energy Regeneration

Whenever you apply the brakes or take your foot off the accelerator in the ActiveHybrid X6, it stores the unused kinetic energy for later use when a burst of power is needed.

Efficient automatic transmission

Two Sport Automatic transmissions – a 7-speed in the ActiveHybrid X6, and an 8-speed in the X6 xDrive35i and X6 xDrive50i – enhance performance, comfort and fuel efficiency. Both offer Adaptive Transmission Control, Sport and STEPTRONIC Manual shift modes, and steering wheel-mounted paddle shifters.

Lightweight construction

Our engineers use lightweight aluminum throughout our vehicles – in the front section, for example, or for the suspension. BMW's inline six-cylinder TwinPower Turbo engine is all aluminum. Taken together, these weight savings lead to lower fuel consumption and better axle load distribution for more agility – especially in curves.

AND THIS IS WHAT COMES OUT.

BMW models have low CO₂ emissions today. But that's just for starters. We're carrying on our research in the quest to bring you greater driving pleasure, with fewer emissions and decreased fuel consumption.

A tale of two TwinPower Turbos: the V-8 in the X6 xDrive50i (above) delivers eager acceleration in every driving situation. The inline six-cylinder in the X6 xDrive35i (right) uses Valvetronic for better breathing. BMW's High Precision direct fuel-injection system ensures both are highly fuel efficient with virtually no turbo lag.

A TURBOCHARGED DRIVING EXPERIENCE IS PAR FOR THE COURSE.

Dynamic ultimate driving requires an engine that can keep up. Both engine options for the X6 offer plenty of muscle to go from smooth highway driving to exhilarating uphill charges, all with BMW's signature crisp acceleration and responsive powerband. You'll find the X6 is capable of handling even the most challenging drives with ease.

In both engines, "turbo lag" is virtually a thing of the past, thanks to BMW's innovative use of turbocharging technology, direct injection, Double-VANOS and clean engine management software. These features also help make BMW turbocharged engines remarkably fuel-efficient.

BMW EfficientDynamics
Less emissions. More driving pleasure.

THREE ADVANCED ENGINES. ONE GREAT VEHICLE. THE X6.

How do you like your power? With the X6, you have your choice of two combustion engines and an advanced ActiveHybrid.

X6 xDrive35i: BMW's new 3.0-liter TwinPower Turbo offers a potent 300 hp and 300 lb-ft of torque. In addition to High Precision direct injection, it is the first BMW inline six-cylinder engine to be equipped with both turbocharging and BMW's Valvetronic throttle-less intake technology. This combination delivers improved throttle response from idle to redline, as well as reduced fuel consumption and substantially reduced emissions.

X6 xDrive50i: BMW engineers developed a V-8 for the X6 xDrive50i that features a cutting-edge TwinPower Turbo for reliable, virtually lag-free performance and acceleration in any situation. Both brawny and efficient, this 400-hp engine generates 450 lb-ft of torque to propel the X6 xDrive50i from 0-60 in a scant 5.2 seconds.¹

Both of these X6 models channel power through an innovative new 8-speed automatic transmission that delivers quicker shifts, greater smoothness and enhanced efficiency than before. Use the sleek, ergonomically designed electronic shift knob to select Automatic with Adaptive Transmission Control, Sport, or STEPTRONIC Manual shift modes. And when the urge for racing-inspired driving excitement strikes, steering wheel-mounted paddle shifters offer quick control.

¹ BMW AG test results. BMW urges you to obey all posted speed laws and always wear safety belts.

Portrait of an engineering masterpiece: the X6 xDrive35i
TwinPower Turbo engine produces 300 hp at 5800 rpm, and quickly develops 300 lb-ft of torque at 1200 rpm, which continues without fading through to the 5000 rpm range. With such a broad range of powerful torque, you can enjoy smooth, robust acceleration in any gear, at any speed.

A NEW FORM OF HYBRID POWER THAT'S NOTHING SHORT OF ELECTRIFYING.

Forget everything you previously thought about hybrids: that they are slow, unexciting vehicles that sacrifice fun in the name of frugality. Just as the X6 is the world's first Sports Activity Coupe,TM BMW is introducing the ActiveHybrid X6, featuring an all-new form of power poised to revolutionize the industry. This "full hybrid" combines the awe-inspiring muscle and acceleration of a BMW V-8 gasoline engine with the super efficiency of two electric motors, harnessed by a two-mode transmission. No other hybrid can surpass the ActiveHybrid X6's combination of acceleration, top speed and distance. Under 40 mph, and for 1.5 miles, the electric motors can be used alone – silently and smoothly generating maximum torque from a standing start. Over 40 mph, the combustion engine takes over. Running on a combination of electric and gasoline power, the ActiveHybrid X6 makes the trip from 0 to 60 in 5.4 seconds.¹ Yet even though it is heavier than its combustion-powered sibling, it achieves 20 percent greater efficiency. This is truly the "Best of Hybrid" – BMW-style.

¹ BMW AG test results. BMW urges you to obey all posted speed laws and always wear safety belts.

Active Hybrid

BMW PUTS THE “HIGH PERFORMANCE” IN “HYBRID.”

EXPERIENCE STILLNESS WITHOUT STANDING STILL. At speeds of up to 40 mph, the BMW ActiveHybrid X6 is able to run on electric power alone for brief periods. This occurs automatically and allows you to drive almost noiselessly – and, above all, totally emissions-free. You can hardly experience more serene driving pleasure than that.

ARGUABLY THE BEST BRAKING POWER GENERATOR. Brake Energy Regeneration – the principle of recuperating braking energy – is as simple as it is intelligent. Each time you apply the brakes or take your foot off the accelerator pedal, kinetic energy is released. Light braking boosts this energy generation further – which, in the ActiveHybrid X6, is made available for electronic braking, as well as stored in a high-performance battery. It can then be reused by the drive system. This saves fuel while also ensuring that the energy gained while braking can be used at any time to enhance overall output.

ACCELERATING THE EXHILARATION. The BMW ActiveHybrid boost function is proof that enhanced efficiency can go hand-in-hand with maximum driving pleasure. With this feature, the electric motor gives a temporary – but potent – boost to the combustion engine's output. A key advantage is that it provides spontaneous and powerful output, especially from a standing start, as well as during acceleration and when passing. As a result, the ActiveHybrid X6's performance is significantly enhanced without using more gasoline. Leave it to BMW to increase driving joy while reducing consumption and emissions.

INTELLIGENT ENERGY MANAGEMENT STARTS BEFORE YOU DO. The BMW ActiveHybrid models are the first BMW vehicles with an automatic transmission to feature an engine Start/Stop function. Every time you come to a standstill in the BMW ActiveHybrid X6, you actively save fuel, thanks to the Hybrid Start/Stop function. That's because the engine switches off when the car is stationary. This cuts fuel consumption and emissions, especially in city traffic, so you are doing a favor to both your wallet and the environment.

Streamline (Style 297) 20 x 10.0 front, 20 x 11.0 rear light alloy wheels with 275/40 front and 315/35 rear **run-flat performance tires**,¹ standard on the ActiveHybrid X6, reduce unsprung weight for increased performance.

Exclusivity that runs a blue streak: contrast stitching, unique to the ActiveHybrid X6 interior, underscores its premium status.

Special welcome: chrome door-sill finishers give an eco-friendly greeting with “BMW ActiveHybrid” lettering.

Power play: a graphic in the Control Display shows the source of power flow in real time. Electric power is shown in blue; power from the combustion engine, in red.

Battery: The high-performance nickel-metal hydride battery stored over the rear axle is powerful enough for daily use. Yet its compact design leaves ample room to stow four golf bags in the cargo area, as in the other X6 models.

Two-mode active transmission: Thanks to this innovative technology, the electric motors and the combustion engine can be used alone or together for optimum performance. Mode 1 provides high-traction, low-speed starts, which are perfect for city driving. Mode 2, which is geared for higher speeds and highways, optimizes performance for maximum efficiency and driving excitement. The 7-speed automatic transmission delivers the BMW high-performance driving experience, with deep reserves of power always on tap. Manual gear changes can also be carried out using steering wheel-mounted gearshift paddles.

Electric air conditioning compressor: The electric drive of the air conditioning system runs independently of the combustion engine. You can create a comfortable climate and maintain it while driving on electric power alone – or even when the engine is switched off. This leaves more hybrid energy available for other uses, and full use of all hybrid functions – even during sporty driving and in extreme weather.

Two electric motors: These start the engine and, when needed, back up the combustion engine to enhance driving dynamics. In addition, the two electric motors enable the vehicle to drive on electric power alone, which contributes to a substantial cut in consumption and up to a 20 percent reduction in emissions. During Brake Energy Regeneration, the two electric motors also act as generators, storing energy for later use.

¹ Run-flat tires do not come equipped with a spare tire and wheel. Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages. Performance tires not recommended for driving in ice and snow conditions.

ALL-WHEEL-DRIVE TECHNOLOGY TAKES AN INNOVATIVE NEW TURN.

Dynamic Performance Control is an advanced driving technology that made its BMW debut on the X6 Sports Activity Coupe.TM Offered in tandem with the road-gripping control of xDrive intelligent all-wheel drive, it creates a new standard for sporty driving pleasure.

Where xDrive all-wheel drive can send available power from the rear to the front, Dynamic Performance Control smoothly apportions available power between the rear wheels. When cornering, Dynamic Performance Control sends more power to the outside rear wheel, enabling the vehicle to “turn in” with less understeer. Minimizing understeer (the tendency to plow through a turn) lets you make tight turns and corner with confidence.

Previously, cornering technologies minimized understeer by applying the brakes to the inside rear wheel, slowing the vehicle down. And unlike other manufacturers’ cornering technologies, BMW’s Dynamic Performance Control works all the time – even when you take your foot off the accelerator in corners. The result is constant control, experiencing quicker turns and improved handling for optimum performance.

Dynamic Performance Control also works in tandem with BMW’s Dynamic Stability Control (DSC), to keep intervention to a minimum when accelerating out of a bend. With Dynamic Performance Control, you can fully appreciate the power and performance of the X6, in virtually any driving situation.

In a right-hand curve, Dynamic Performance Control applies additional power to the left rear wheel, enabling the vehicle to “turn in” faster. Because of the reduced understeer, the vehicle corners with greater control and precision.

If you’re driving straight ahead, the power is distributed evenly over both rear wheels for optimum acceleration.

In a left-hand curve, Dynamic Performance Control allocates more driving torque to the right rear wheel, enabling the vehicle to “turn in” with less understeer.

Dynamic Performance Control lets you hug corners more tightly and take them more quickly. In addition to precise control, its seamless distribution of power between the two rear wheels adds greater agility and sportiness for a thrilling driving experience.

ACTIVE STEERING AND ADAPTIVE DRIVE: TWO GREAT WAYS TO TAME CURVES – WHEREVER YOU FIND THEM.

The goal of BMW suspension engineers is to combine sporty handling with optimum body control and ride comfort. In addition to a meticulously tuned chassis, xDrive intelligent all-wheel drive and Dynamic Performance Control, the X6 offers two features that take driving joy even further. Active Steering delivers greater driving enjoyment with even more direct steering when cornering, and greater agility on twisty sections of road. At low and moderate speeds, it takes just two turns of the steering wheel to move the front wheels from far left to far right. When the steering wheel is turned the same amount at higher speeds, the steering ratio gradually changes, providing greater directional stability and more comfortable cruising.

In the Sport Package, Adaptive Drive offers performance-elevating Active Roll Stabilization (ARS) and ride-enhancing Electronic Damping Control (EDC). In corners, the vehicle’s body tends to roll, affecting handling characteristics. ARS twists specially designed two-piece anti-roll bars to generate stronger resistance to body roll, keeping the vehicle more level and providing maximum stability and agility. EDC, on the other hand, instantly and continuously adjusts the shock absorbers from the softest to the firmest settings. The result is exceptional riding comfort and fluid handling at all times, during changes in vehicle speed, load or road and driving conditions.

Greater agility at low and medium speeds: With Active Steering, a small turn of the steering wheel translates into a big turn of the front wheels.

At higher speeds, greater stability and precision: A bigger turn of the steering wheel is needed to turn the front wheels.

For details on the availability of standard and optional features, please refer to the **Standard equipment** / **Optional equipment** charts at the back of this brochure.

Adaptive Headlights automatically swivel in the direction you are turning, keeping the road ahead illuminated – even around bends.

In the event of a severe impact, the X6's extremely rigid steel structure is designed to route impact forces around the passenger cell, and deform in a predetermined way. The BMW Advanced Safety System coordinates the activation of airbags, head restraints, safety-belt pretensioners and more, all helping to protect you and your passengers.

Please note: These pictures of airbags are for illustrative purposes only. Depending upon the type of accident, none, some or all airbags may deploy.

WHEN IT COMES TO ACTIVE AND PASSIVE SAFETY, THE BMW X6 IS AN OVERACHIEVER.

As you would expect from a company committed to innovative ideas, the BMW X6 is filled with state-of-the-art safety features. "Active" safety features help you avoid getting involved in an accident. Like all BMWs, the X6 responds to your evasive maneuvers with quick acceleration, nimble handling and fade-resistant braking. During normal driving, if you slam on the brakes, **Dynamic Brake Control** applies the maximum available stopping power. At the same time, the **Adaptive Brake Lights** feature automatically activates additional brake light surfaces, signaling the intensity of your stopping action to those following you. The X6 also includes a wealth of other intelligent active safety features. At night or in poor lighting conditions, **Xenon Adaptive Headlights** provide daylight-like illumination, with headlights that horizontally pivot, lighting up the road around corners. **Hill Descent Control** helps the X6 tackle steep downhill slopes with ease, keeping you at a low, steady speed without riding the brake. The list of X6 active safety features continues – as does your driving peace of mind.

However, should an accident prove unavoidable, the X6's impressive "passive" safety features help protect you and your passengers. BMW's use of high-strength steel creates an extremely sturdy safety cage that, in a severe impact, deforms in a predetermined pattern as the force is routed around the passenger cell. High-strength structural reinforcements are integrated into all four doors to help protect occupants in a side-on collision by reducing intrusions into the passenger area. BMW's supplemental restraint system includes front-seat and seat-mounted airbags for the driver and front passenger, as well as BMW's unique **Head Protection System (HPS)** – a tubular cushion that stays inflated, helping to protect all four occupants' heads by shielding them from shattered glass and debris. The system also helps protect occupants with highly developed and coordinated restraints, such as three-point safety belts and front-seat **Active Head Restraints**.

At the end of the day, BMW believes the only thing that should set your heart beating faster is the pure enjoyment of driving an X6.

SEE EVERYTHING AT A GLANCE – INCLUDING THE ROAD.

Taking your eyes off the road, even if only to quickly check the speedometer, is a distraction. That's why BMW's Head-up Display is designed to give you important driving information at a glance. Vehicle speed, Check Control warnings, directional arrows from the Navigation system, cruise control information and more are projected clearly onto the windshield in the driver's line of sight. You can also adjust the display for brightness and height, or turn it off. The display lets you keep both eyes focused on the road, so you can navigate traffic while staying informed.

For details on the availability of standard and optional features, please refer to the **Standard equipment** | **Optional equipment** charts at the back of this brochure.

Lane Departure Warning feature alerts the driver by discreetly vibrating the steering wheel if the vehicle crosses lane markings without using the directional signal.

Requires clearly definable lane markings that are not obscured by rain, snow, etc. Lane Departure Warning feature is not a substitute for the driver's own responsibility in maintaining safe control of the vehicle.

The **Head-up Display** shows relevant information, such as the car's speed, directly into the driver's field of vision. The height-adjustable display helps keep you focused on what's happening on the road.

Active Cruise Control with Stop & Go uses radar measurements to automatically maintain a preset speed and distance between your vehicle and the one ahead.

Active Cruise Control is not a substitute for the driver's own responsibility in adjusting speed and otherwise controlling the vehicle. After evaluating road, traffic and visibility conditions, the driver must determine whether and how the system is used.

STAY TOTALLY IN TOUCH WHEREVER YOU GO – WITH BMW CONNECTED DRIVE.

Whether you're far from home or just in the next town, BMW Assist™ offers convenience and peace of mind. There are new ConnectedDrive features that extend BMW's leadership in wireless communications. Marvel at an extensive array of new Mobile Office functions. Get a visual image of your callers. With BMW Assist, you enjoy all this – and more.

With **BMW Assist Safety Plan**, a response specialist is there to help you 24/7 at the touch of a button. Enjoy these services for four years at no additional charge: Automatic Collision Notification, Emergency Request (SOS), TeleService, Enhanced Roadside Assistance, Door Unlock, Stolen Vehicle Recovery, MyInfo and Customer Relations. The **Convenience Plan** adds personalized Directions, Traffic and Weather reports, BMW Search, and Concierge services for restaurant and hotel recommendations, with the destination address and phone number sent to your BMW. Make up to four operator-assisted calls per year with Critical Calling if your mobile phone is not available or if its battery is discharged.

An automotive first: BMW's amazing new **Mobile Office** feature goes way beyond phone calls when it comes to staying in touch. When your compatible Bluetooth® phone is paired with your BMW, text messages and emails are transferred to your BMW's iDrive display screen – and then our system even reads them aloud to you.

What's on today's agenda? Bring up the **Calendar** and **To-do List** on your display screen while en route, to help you stay on schedule. Need to call your 11 o'clock appointment? Use the iDrive Controller knob to **click on the phone number** in the Calendar – and it's ringing. Meeting with several people? Conduct conference calls; the display screen keeps you informed of the status of incoming calls. Who's calling you? If you've uploaded photos to your on-board phonebook, you'll see the caller's picture. Even missed calls are listed on the display screen. It's never been easier to stay in touch while in transit.

Enhanced functions for the iPod® and USB adapter add to the ease and pleasure of using your iPod or iPhone®. Want to know which CD that song comes from? The album cover is shown on your display screen. Don't purchase additional cables – your iPod or iPhone's original USB cable connects to your BMW's USB port. Another rare feature: with BMW Assist and Bluetooth audio streaming, you can wirelessly play music through the BMW audio system from any Bluetooth compatible music player or mobile phone, from anywhere in your vehicle. In fact, the audio library appears on the display screen, where you can use the iDrive Controller knob to make your selection.

"Whenever I'm far from home, I have peace of mind knowing that BMW Assist is right there, ready to help me should I need it."

MyInfo allows you to send business locations and street addresses to your BMW from Google Maps.™ Destinations and phone numbers can be accessed and exported to your Navigation system for immediate route guidance, while you can call the destination with your Bluetooth linked phone.

BMW Search allows online access to up-to-date fuel prices and gas station locations; the latest weather forecasts, advisories and warnings; Dow Jones, S&P 500 and NASDAQ indices; and the powerful reach of the Google Maps database – all delivered on the control display inside your vehicle. Access news headlines and have them read aloud via text-to-speech technology. "Send to Mail" pinpoints your current location and planned destination, and allows you to send it to any smartphone or email account. Then it's just a quick hyperlink to Google Maps for your friends and family to see where you are and where you're going.

BMW TeleService monitors the status of many of your vehicle's fluids and parts that are subject to wear and tear, and automatically transmits the data to your BMW center before it requires service. Your BMW center will contact you to schedule a convenient appointment. Needed parts will be ordered, so your BMW will be serviced and returned to you as quickly as possible.

Want to know the location of a challenging golf course or a fine French restaurant? Talk to our **Concierge** and get the address and phone number of your desired destination sent to your BMW Navigation system and then start route guidance at the push of a button.

The pages in this section of the brochure show available colors and materials for the BMW X6. Use these samples to compare paint, upholstery, trim colors and combinations. Please note that these samples are representations; they are not exact reproductions. To see the actual colors, visit your local BMW SAV® center. They will be happy to show you original samples and assist you with special requests. All paint colors are standard.

³ Requires and must be ordered with optional sport seats.

HEART OF FIRE.

Outside: timeless Jet Black paint. Inside: the glow of red Chateau Nevada Leather against the black dash and carpeting. Like the fire within the coal, this X6 is visually smoldering, ready to ignite the passion of anyone who comes near. Optional 20" Y Spoke (Style 214) wheels are available with the optional Sport Package.

The flexible cargo space of the X6, with 60/40 split-folding rear seats and available pass-through, maximizes your hauling possibilities.

When equipped with the Premium Package, two lashing rails with four sliding lashing eyes, as well as additional lighting, make it easy to see and secure cargo safely and quickly.

With both rear seats lowered, the X6 provides almost 60 cu. ft. of usable storage space.

PLENTY OF ROOM FOR ALL THAT MATTERS.

BMW created the X6 with a spacious, flexible cargo area that carries your gear with ease. 60/40 split-folding rear seats and a retractable cargo cover come standard; an available pass-through with ski bag helps protect skis, poles and other long items, as well as the interior. A Storage package, included in the Premium Package, adds additional lighting and two lashing rails with four sliding lashing eyes. So feel free to bring along some friends and their gear – the X6 can handle it.

For details on the availability of standard and optional features, please refer to the Standard equipment | Optional equipment charts at the back of this brochure.

■ **Xenon Adaptive Headlights** help enhance nighttime road visibility. Sensors continuously monitor the steering wheel to determine the X6's direction. When entering a turn or corner, the outer headlights swivel accordingly, up to 15 degrees left or right. **Xenon low- and high-beam headlights** illuminate the road ahead and to the side with brilliant clarity. An auto-leveling feature adjusts for varying passenger and cargo loads. **Corona headlight-rings** circle headlights and high beams and act separately as Daytime Running Lights.

■ **Halogen free-form foglights** are cleanly integrated into the front air dam, illuminating the road ahead in bad weather and poor visibility. They also provide another practical feature: **Cornering Lights**. When the system senses you are making a turn – based on your steering angle and speed – a reflector mechanism in the foglight housing casts additional lighting up to 90 degrees in the direction of the turn. This enhances visibility and recognition of people and objects.

■ **Adaptive Brake Lights** increase vehicle visibility and signal the intensity of your braking action, thereby warning following drivers to brake quickly.

■ **Rain sensor** uses infrared light to measure the amount of rain. When the wipers are in the "intermittent" mode, the rain sensor automatically adjusts the windshield-wiping interval as needed. **Automatic headlight control** (not shown), included with rain sensor, activates headlights by means of a sensor that responds to darkness.

■ Signature **kidney grille** sits over the special intake grille, underscoring the X6's rugged stance. (Kidney grille has Black finish on X6 xDrive35i; Titanium finish on X6 xDrive50i and ActiveHybrid X6.)

□ **Power-adjustable folding exterior side-view mirrors**, in matching body color, automatically dim when reflecting bright lights, helping to eliminate glare when driving at night. (Included in Premium Package.)

□ **Running boards**, designed to add to the X6's overall visual appeal, make it easy for passengers to enter and exit the X6 with comfort.

■ **Dual rectangular-shape chrome exhaust tips** are strikingly positioned in the rear fascia of the X6 xDrive50i and ActiveHybrid X6. With their bold styling, these exhaust tips identify this X6 as the model with the V-8 engine.

■ **Dual circular-shape chrome exhaust tips**, integrated into the X6 xDrive35i's rear fascia, stand out and add an attractive touch to the exhaust system.

■ **Star Spoke (Style 232)** 19 x 9.0 light alloy wheels with 255/50 **run-flat¹ all-season tires** are standard on the X6 xDrive35i.

■ □ **V Spoke (Style 257)** 19 x 9.0 light alloy wheels with 255/50 **run-flat¹ all-season tires** are standard on the X6 xDrive50i and optional on the ActiveHybrid X6.

□ **Star Spoke (Style 212)** 19 x 9.0 light alloy wheels with 255/50 **run-flat¹ all-season tires** are included in the X6 xDrive35i Sport Package and Sport Activity Package.

□ **Star Spoke (Style 258)** 19 x 9.0 light alloy wheels with 255/50 **run-flat¹ all-season tires** are included in the X6 xDrive50i Sport Package and Sport Activity Package.

□ **Y Spoke (Style 214)** 20 x 10.0 front, 20 x 11.0 rear light alloy wheels with 275/40 front and 315/35 rear **run-flat¹ performance tires²** are available as an option when ordering the X6 xDrive35i Sport Package or Sport Activity Package. (Not available on X6 xDrive50i or ActiveHybrid X6.)

□ **Y Spoke (Style 336)** 20 x 10.0 front, 20 x 11.0 rear light alloy wheels with 275/40 front and 315/35 rear **run-flat¹ performance tires²** are available as an option when ordering the X6 xDrive50i Sport Package or Sport Activity Package. (Not available on X6 xDrive35i or ActiveHybrid X6.)

■ **Streamline (Style 297)** 20 x 10.0 front, 20 x 11.0 rear light alloy wheels with 275/40 front and 315/35 rear **run-flat¹ performance tires²** are standard on the ActiveHybrid X6.

¹ Run-flat tires do not come equipped with a spare tire and wheel.

² Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages. Performance tires not recommended for driving in ice and snow conditions.

■ **Three-spoke leather-wrapped multi-function sport steering wheel**, featuring power tilt/telescoping adjustments, lets you keep both hands on the steering wheel while adjusting both the audio and a BMW-approved, Bluetooth® enabled mobile phone.

■/□ **Voice command** lets you verbally control numerous Navigation system functions and dial phone numbers hands-free. The Voice command button must be pressed before each use, so conversations won't accidentally activate the phone or other systems. (Voice command is part of the Navigation system.)

■ **Engine Start/Stop button and remote key** control the engine. First, insert the remote key into the starter switch slot. After the electronic identification system confirms that it is the correct remote key, you can start (or later, turn off) the engine by pressing the Start/Stop button. (Foot must be on brake in order to start.)

■ **iDrive Controller**, which is conveniently located on the center console, is the central command element for the iDrive system and can be rotated, pushed and tilted to operate various functions via the Control Display. Additionally, four frequently selected menus – CD, radio, Navigation system and telephone – can be called up using direct menu-control buttons.

■ **Six programmable memory buttons** offer convenient storage of your most frequently accessed iDrive settings, such as favorite radio stations, Navigation system addresses, phone numbers (when equipped with a BMW-approved Bluetooth enabled mobile phone), and more.

■ **Glare-free Control display screen**, linked with the iDrive and Navigation system, renders clear images and text. The surface of this display is equipped with transreflective technology, ensuring legibility by automatically making adjustments to the brightness or background lighting in bright- or poor-light conditions.

■/□ **Navigation system** features a high-resolution, glare-free monitor, and uses GPS satellites in conjunction with data stored on an internal hard drive. Includes 3-D daytime and nighttime maps, zoom, travel planner and an Assistance Window. The system provides Real Time Traffic Information on potential traffic problems and solutions. The hard drive offers 12 GB of space that can hold up to 2,000 of your favorite songs.

□ **Rear-view Camera with Top View** is activated automatically by shifting into reverse gear, or manually by pressing the parking-assist button. The color display shows a real camera image that may include “static” and “track” lines to help you when backing up or parallel parking.

■ **Park Distance Control** uses eight sensors – four in the front, four in the rear – to help you judge how close you are to other cars and unseen objects when parking. The warning beeps come faster as the bumper approaches the object, turning into a constant tone when the distance is less than 12 inches.

□ **Active Cruise Control (ACC) with Stop & Go** lets you preset desired speed and following distance. When ACC recognizes slower vehicles ahead, it reduces your speed to maintain the preset distance. Stop & Go can bring you to a complete stop if traffic calls for it. When you press the accelerator, ACC resumes speed according to your presets.

Cruise control is not a substitute for the driver's own responsibility in adjusting speed and otherwise controlling the vehicle. After evaluating the road, traffic and visibility conditions, the driver must decide whether and how the system is used.

■ **8-speed Sport Automatic transmission** provides extremely fast synchronized shifting, whether performed by the Automatic shift mode or by the race-inspired steering wheel-mounted paddle shifters. (Standard in X6 xDrive35i and X6 xDrive50i. The ActiveHybrid X6 has a 7-speed Sport Automatic transmission with a Hybrid Start/Stop engine function.)

■ **Electromechanical parking brake with Automatic Hold** keeps the vehicle stationary whenever the vehicle comes to a stop, then releases the brake when the driver steps on the accelerator pedal.

■ **Front cupholders** integrated into the center console are located within convenient reach of the driver and front passenger.

□ **Side-view Cameras** offer visual assistance when side visibility is limited, such as when exiting a parking garage or parking space. One camera is located on each front fender, just ahead of the wheel arches.

■ Standard

□ Optional

Standard equipment | Optional equipment **44 | 45**

□ **Head-up Display** projects important travel information, such as current speed, on the windshield directly in the driver's line of vision. Directional arrows from the Navigation system and Check Control data can also be displayed.

■ **Dynamic Performance Control Display** shows the percentage of drive force apportioned between the front and rear axles, as well as between the left and right rear wheels.

■ **BMW anti-theft AM/FM stereo CD/MP3 player** includes Radio Data System, Auto-Store, and 3-channel FM diversity antenna; reads/displays song title.

■ **HD Radio™** receives free, digital AM/FM broadcasts in clear, static-free sound; multicast FM stations, and innovative data services.

■ **Kneepads** along the sides of the center console provide greater comfort and grip for the driver and front passenger's knees – especially during quick, sharp turns.

■ **Storage space** abounds throughout the cabin – in the front center console, in door storage pockets and in the rear cabin.

□ **Ten-way power front sport seats** with two-way manual thigh support adjustment and driver's seat memory system make the X6 driving experience more enjoyable. Thanks to specially padded, highly contoured side bolsters, sport seats provide optimum lateral support during tight cornering, while remaining exceptionally comfortable when driving over long distances. The seats have power adjustments for seat height, backrest angle, seat bottom angle, forward/backward position and head-restraint height; includes manual adjustment for thigh support.

■/□ **20-way power multi-contour front seats** conform to your body to provide optimum support and exceptional comfort over long distances. In addition to horizontal, vertical and angled adjustments, seats include an articulated upper backrest, backrest width, Comfort headrest (two-way power, two-way manual "relax headrest"), and four-way power-adjustable lumbar support. Both driver's and front-passenger's seats include memory function.

■ **Rear cabin seats** securely and comfortably hold two passengers. The ergonomic belt system includes center-mounted buckles, two three-point safety belts and head restraints.

■ **Power seat adjustments** allow customized comfort for driver and front passenger. On the driver's side, a two-driver memory system automatically adjusts the driver's seat, side-view mirrors and the steering wheel position.

□ **Heated front seats** are a welcome feature in cooler weather. With the touch of a button, driver and front passenger can individually select from three heat settings.

■ **Two-way power glass moonroof** with remote, expanded one-touch operation, slides back or tilts up to let in as much fresh air and sky as you like, while a wind deflector helps keep the wind out. Includes a sliding interior sunshade.

■ **60/40 split-folding seat** gives you the flexibility to carry any combination of cargo and passengers.

■ **Retractable cargo cover** keeps contents of the cargo area hidden from sight. When not in use, it can easily be removed.

■ **12V power outlets** are included in the front and rear passenger areas, as well as in the cargo area.

□ **Rear-seat entertainment** system lets passengers in the rear cabin watch DVDs or listen to their choice of CDs through headphones or the vehicle speaker system. The system features a fold-down 8-inch color screen and can be controlled via a wireless remote Controller or manually by the rear-seat passengers.

Premium Package

The X6 Premium Package enhances your driving experience every day. Soothe your back with the ergonomic comfort of lumbar support, and your eyes with the ambiance lighting package, as well as automatic-dimming rear- and side-view mirrors that cut headlight glare. You'll enjoy the convenience of a cargo-area Storage package, a Universal garage-door opener, and a digital compass to help keep you on track to your driving destination. The Premium Package also includes the roadgoing peace of mind of BMW Assist¹ with Bluetooth wireless communication system.

Ambiance lighting package includes lights in the exterior door handles that radiate downward whenever the doors are unlocked. They illuminate the area outside the doors for approximately 20 seconds to enable safe vehicle access in the dark. Also included are rear reading lights, rear footwell illumination, and ambiance interior lighting.

■ **Rear cupholders** are conveniently located between the two rear seats. When not in use, they can be easily covered up to form a center armrest.

■/□ **BMW Assist¹** and Bluetooth[®] system offers hands-free calling through your BMW-approved Bluetooth phone. The BMW Assist Safety Plan is included for four years, providing Automatic Collision Notification, Emergency Request, Roadside Assistance, Door Unlock, Stolen Vehicle Recovery, TeleService, MyInfo, Mobile Office features and more. The optional Convenience Plan offers Directions, Traffic, Weather, Critical Calling, Concierge services and BMW Search.

□ **Comfort Access system** offers an even greater degree of convenience: keyless access to your vehicle. Simply carrying the remote key in a pocket allows you to unlock the doors by touching the door handle. You can also turn the engine on or off by pressing the Start/Stop button without inserting the remote key. (Foot must be on brake in order to start.)

Lumbar support for front seats adds four-way power-adjustable comfort for the lower back. Lumbar support can be adjusted up/down and in/out.

Storage package adds practical extras: additional lighting and two lashing rails with four sliding lashing eyes.

The **automatic-dimming inside rear-view mirror** darkens in response to the bright headlights of vehicles behind you. The easy-to-read **digital compass**, integrated into the mirror, is a convenient way to constantly keep your bearings while driving. A **three-button Universal garage-door opener** can be programmed to open garage doors and activate various remote convenience functions.

¹See page 66 for details of standard and optional services available with BMW Assist.TM

For details on the availability of standard and optional features, please refer to the **Standard equipment | Optional equipment** charts at the back of this brochure.

Active Ventilated Seat Package¹

For the ultimate in comfort, BMW offers the optional Active Ventilated Seat Package. Both the driver and front passenger enjoy highly supportive 20-way power multi-contour front seats upholstered in Perforated Nevada Leather. The internal sections of the seats contain multiple fans that provide forced ventilation through a permeable, “sandwich” seat layer. In cooler weather, temperature-adjustable air flows through the seat and seatback, providing welcome heating. In warmer weather, air circulates through the seat and seatback, helping to dissipate perspiration. The Active function in the driver’s seat raises and lowers the left and right halves of the seat, helping to relieve fatigue during extended trips. By combining multi-contour support, ventilation and Active driver support, BMW’s Active Ventilated Seat Package adds to your long-distance traveling comfort and pleasure.

¹ Requires optional Perforated Nevada Leather and optional Cold Weather Package or heated front seats.

20-way power multi-contour front seats conform to your body to provide optimum support and exceptional comfort over long distances. In addition to horizontal, vertical and angled adjustments, multi-contour seats include an articulated upper backrest, backrest width, Comfort headrest (two-way power, two-way manual “relax headrest”), and four-way power-adjustable lumbar support. Both driver’s and front-passenger’s seats include memory function.

Active driver’s seat helps decrease stiffness or fatigue on long trips. When activated, the driver’s seat surface is continuously and imperceptibly raised and lowered from side to side, keeping your spine in motion and exercising various support muscles.

Front seat ventilation gently blows warm air or cool air through the microperforations in the leather to help keep driver and front passenger comfortably dry in hot weather, and warm in colder weather.

Cold Weather Package

Whether it’s driving to the slopes, or just running errands around town, there’s nothing like the feeling of three-stage heated front seats on a cold morning. Add the pleasure of a heated steering wheel on those blustery days, and you are truly ready for whatever nature has in store. Retractable, high-intensity headlight washers help maintain optimal visibility in all weather and driving conditions.

Heated steering wheel is a feature that, like heated seats, becomes a “must-have” once it’s experienced. The heating switch is conveniently located on the multi-function steering wheel.

Retractable, high-intensity headlight washers help keep lights clean of ice, mud, road salt and other coatings, for maximum road lighting and enhanced driving visibility.

Ski bag allows for clean transport of up to four pairs of skis with up to four occupants in the vehicle. Whenever the ski bag is not in use, it remains stored conveniently and discreetly behind the rear center armrest.

Technology Package

The Technology Package in the X6 xDrive35i enhances your driving confidence with greater all-around visibility and navigation assistance. A Rear-view Camera with a Top View function provides a clear view when backing up or when changing lanes. And finding your way is easier than ever with an advanced Navigation system that offers Voice command and Real Time Traffic Information.

Voice command system lets you select radio stations, navigation destinations and telephone numbers, if so equipped, without taking your eyes off traffic. This hands-free feature is integrated into the Navigation system.

Navigation system uses Global Positioning System (GPS) satellites and data stored on an internal hard drive to guide you to your destination. A variety of detailed maps show – and tell – the directions. Enhancements include 3-D daytime and nighttime maps, zoom, travel planner and an Assistance Window. The system also provides Real Time Traffic Information on potential traffic problems and alternate routes. The hard drive offers 12 GB of space that can hold up to 2,000 of your favorite songs.

Rear Climate Package

Let your rear-seat passengers create their own oasis of comfort. With the Rear Climate Package, all occupants, both front and rear, enjoy individual climate control settings. Each can customize the temperature and airflow rate to their own preferences. Privacy glass and manual rear side sunshades reduce the heat and glare of the sun, helping to keep the cabin cool and glare-free while increasing privacy.

Privacy glass in the rear and rear side windows enhances passenger privacy, while it reduces sun glare and interior heat.

Rear side sunshades keep the sun's heat and glare away from the rear cabin while maintaining privacy. When not in use, these manually adjustable sunshades conveniently disappear into the side doors.

Four-zone climate control lets occupants, both front and rear, select individual temperature and fan settings.

Rear-view Camera with Top View clearly shows the rear and side areas of the vehicle on the Control Display. Interactive "track" lines indicate whether a parking space is large enough to accommodate the vehicle. The Rear-view Camera is manually activated by pressing a button on the console, or automatically activated when reverse gear is engaged.

Premium Sound Package

Whatever your preference in music, you can enjoy the extraordinary listening experience of the Premium high-fidelity audio system. An equalizing method used in professional studio applications has been fitted into the X6, and the integration of 16 speakers with elaborate Digital Signal Processing (DSP) leads to optimal sound reproduction at all seating locations. And, whether your choice of music is Bluegrass or Beethoven, an iPod® and USB adapter interface enables you to scroll through and select your favorites.

Premium high-fidelity system is a multi-channel system that outputs reproduction of the surround information contained in the stereo signal in a nine-channel format (seven medium-high range channels and two central bass channels). The 16-speaker system is comprised of one center bass speaker subwoofer below each front seat; one mid-range and one high-range speaker each in the door trim panels; one mid-range and one high-range speaker each in the D-pillar; one mid-range and one high-range speaker in the instrument panel (center channel); and a digital amplifier with nine channels and 600-watt output (7x50 watts + 2x125 watts). All speakers are fitted with very strong, yet compact Neodymium drives. The system also compensates for driving noise in smooth steps by speed-dependent equalizing in the low range.

iPod and USB adapter lets you scroll through and select music by using the vehicle's radio controls, the multi-function steering wheel buttons or the iDrive Controller. Music titles are displayed on the radio or screen. **Auxiliary input port** lets you connect an external audio source, such as an iPod or MP3 player.

Sport Package / Sport Activity Package

The X6 was made for sporty driving. Make the most of its fun-loving capabilities by adding the optional Sport Package or Sport Activity Package to the X6 xDrive35i or X6 xDrive50i. High-gloss shadowline trim and 19" light alloy wheels with run-flat¹ all-season tires present an impressive sight. To enhance driving performance, the Sport Package includes Adaptive Drive with Active Roll Stabilization and Electronic Damping Control. This complements the already stiff suspension to provide more precise and agile handling. Front sport seats are designed to hold you secure in tight turns; an Anthracite headliner completes the sporty interior. Optional 20" light alloy wheels with mixed-size run-flat¹ performance tires² are available on both X6 models.

High-gloss shadowline trim gives the front and rear side-window frames and door-sill trim strips a sportier look.

10-way power front sport seats with two-way manual thigh support adjustment and driver's seat memory system make the X6 driving experience more enjoyable. Side bolsters on the seats cradle you comfortably over long distances, while holding you firmly in place during sporty driving maneuvers.

Y Spoke (Style 336) 20 x 10.0 front, 20 x 11.0 rear light alloy wheels with 275/40 front and 315/35 rear **run-flat¹ performance tires²** are available as an option when ordering the X6 xDrive50i Sport Package or Sport Activity Package. (Not available on X6 xDrive35i or ActiveHybrid X6.)

Star Spoke (Style 258) 19 x 9.0 light alloy wheels with 255/50 **run-flat¹ all-season tires** are included in the X6 xDrive50i Sport Package and Sport Activity Package. (Not available on X6 xDrive35i or ActiveHybrid X6.)

Star Spoke (Style 212) 19 x 9.0 light alloy wheels with 255/50 **run-flat¹ all-season tires** are included in the X6 xDrive35i Sport Package and Sport Activity Package. (Not available on X6 xDrive50i or ActiveHybrid X6.)

Y Spoke (Style 214) 20 x 10.0 front, 20 x 11.0 rear light alloy wheels with 275/40 front and 315/35 rear **run-flat¹ performance tires²** are available as an option when ordering the X6 xDrive35i Sport Package or Sport Activity Package. (Not available on X6 xDrive50i or ActiveHybrid X6.)

¹ Run-flat tires do not come equipped with a spare tire and wheel. However, a spare tire and wheel can be ordered as an option in X6 xDrive35i and X6 xDrive50i.
² Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages. Performance tires not recommended for driving in ice and snow conditions.

Hill Descent Control (HDC) helps the X6 drive down steep hills without having to “ride the brake.” By pressing the HDC button, the system keeps the X6’s speed under control automatically.

Start-off Assistant keeps the X6 from rolling either backward or forward when you’re stopped on a hill. The system momentarily holds the X6’s position as you take your foot off the brake pedal and start driving.

Dynamic Stability Control provides remarkable tenacity on slippery road surfaces. If the system senses over- or understeer, it modulates engine power and can apply brakes individually to help keep the vehicle under control and going in the intended direction.

Dynamic Brake Control senses “panic” braking maneuvers, and immediately builds up maximum brake pressure. This cuts down the overall braking distance significantly. When Dynamic Brake Control is activated, the system also deploys **Adaptive Brake Lights**. These increase vehicle visibility and signal the intensity of your braking action, thereby warning following drivers to brake quickly.

Extremely rigid body creates a protective safety cell that directs severe impact forces around the passenger compartment. Thanks to BMW’s intelligent lightweight design and the use of high-strength steels, the interior passenger compartment is surrounded by a stronger shell than was previously possible to construct.

Rollover sensor, linked with the Dynamic Stability Control system, quickly detects when the X6 is at risk of rolling over and assists the driver in maintaining control of the vehicle. If a rollover is imminent, the airbags and the safety-belt pretensioners are immediately triggered to provide additional occupant protection.

Tire Pressure Monitor is an electronic control system designed to warn the driver if there is a sudden and irregular loss of tire pressure. Should the target pressure of a tire fall below 25%, a warning light alerts the driver.

Run-flat tires allow speeds of up to 50 mph and travel from 30 to 150 miles after a loss of air pressure, depending on the passenger load and weight of articles being transported.¹ In situations that would normally result in a flat tire, reinforced sidewalls help prevent the tires from collapsing or loosening from the rim. In the event of a decline in tire pressure, the driver is warned by the **Tire Pressure Monitor**.

¹Please see your X6 Owner’s Manual for more information detailing allotted miles to travel and load weight rules.

Telescoping steering column system. In a collision, a section absorbs a portion of the impact force and collapses, helping to protect the driver.

In the event of a collision, only the **airbags** that are needed are deployed. This includes front airbags with advanced deployment technology, front side-impact airbags, and front and rear HPS (Head Protection System).

Note: These pictures of airbags are for illustrative purposes only. Depending upon the type of accident, none, some or all airbags may deploy.

Impact-absorbing bumpers and compressible “crush tubes” front and rear help absorb the force of impact in collisions up to nine mph, minimizing damage to the vehicle’s body and simplifying repairs. Only at higher impact speeds do structural supports begin to deform, dissipating impact energy to help protect occupants.

Active Head Restraints in the front seats reduce the risk of whiplash or neck/head/spine injury. When sensors detect a rear-end collision, the headrests rapidly and automatically pivot forward, supporting the driver’s and front-seat occupant’s heads.

Xenon Adaptive Headlights with Corona headlight-rings automatically swivel to follow the curves of the road. The system uses data from on-board sensors and the steering wheel angle to determine the vehicle’s direction, then adjusts the headlights accordingly, for excellent nighttime vision. **Cornering Lights**, integrated into each of the foglight housings and activated whenever the X6’s turn-signal indicators are used, project additional lighting and increased illumination in the direction of the turn.

Performance and efficiency	X6 xDrive35i	X6 xDrive50i	ActiveHybrid X6

BMW Recycling.

BMW is a strong proponent of the environment and social responsibility. In 2000, we launched BMW EfficientDynamics – the philosophy of providing greater power with increased efficiency and fewer emissions. Today, this results in significant benefits to our customers, the climate and the environment.

Sustainability is firmly anchored in our entire production chain, from the development of fuel-saving and alternative vehicle concepts, through environmentally friendly production processes, to innovative recycling methods. This effort has been recognized worldwide, and we are pleased to have received numerous environmental honors. In the U.S., for example, the Environmental Protection Agency accepted BMW's Spartanburg, SC production and manufacturing facility as a charter member of the agency's National Environmental Performance Track. Internationally, BMW AG – the parent company of both BMW of North America and BMW Manufacturing Co., Spartanburg, SC – was the first automotive company to be represented on the Dow Jones Sustainability Group Index. It has remained on the Index ever since, and was voted the industry leader for a fifth consecutive year. At BMW, we strive for high performance in everything we do.

BMW recommends Castrol

EQUIPPED WITH THE BEST IDEAS. ORIGINAL BMW ACCESSORIES.

Add the convenience of a rear-deck bicycle holder, and the bold gleam of 21" Star Spoke (Style 128) chrome wheels.

Driving a BMW is always a special experience – and it can be enhanced even further with Original BMW Accessories. Benefit from innovative solutions that combine unique ideas, stunning design and smart functionality. Discover a wide range of Original BMW Accessories that customize, enhance and protect your X6's exterior, interior, technology and transporters. From load carriers to cargo mats, sheepskin seat covers and more, every Original BMW Accessory adheres to BMW's highest

quality standards. Each is designed to fit the X6 perfectly and last just as long. For additional information on BMW Accessories, please see your authorized BMW SAV® center or visit online at accessories.bmwusa.com.

NOTE: Some details shown in photographs may not be available in the United States.

BMW Roof Box 460 is available in Silver or Black, or painted to match your X6. The innovative design lets you load from either side and includes anti-theft triple central locking for security.

Snap-in-adaptor for iPhone® lets you control music and make hands-free calls through the steering wheel or iDrive.

Non-slip dual-sided cargo mat tailored to fit the X6 helps keep the cargo area carpet clean.

We constantly monitor your BMW's needs – so you don't have to. Tackling mountain switch-backs, the last thing you should be thinking about is the state of your brake pads. Thanks to BMW's integrated on-board diagnostics system, you will always know exactly when the next service is due, and what work will be required.

Condition-Based Service (CBS) measures the condition of key parts that are subject to wear and tear. It also tracks fluid levels and monitors your BMW's time- and mileage-dependent service requirements. Using this data, the Info Display in the cockpit automatically alerts you in advance whenever any part of

your vehicle will require servicing. You can also use the iDrive Control Display to find out which components will need to be serviced, and when.

When combined with TeleService – the innovative telematics service included with the available BMW Assist™ Safety Plan¹ – the CBS-collected data is automatically transmitted to your BMW or BMW SAV® center, which then contacts you to set up a service appointment. And because they use only **Original BMW Parts**, you can rely on expert fit and long-lasting BMW quality.

JOY IS THE FEELING OF BEING LOOKED AFTER BY THE BEST. BMW SERVICE FOR YOUR BMW.

BMW Ultimate Service.™ At BMW, we believe that a premium ownership experience should feature performance and luxury, as well as safety and convenience. We believe you should be able to drive a BMW to its potential, while enjoying peace of mind and reduced cost of ownership. That's the idea behind BMW Ultimate Service: a suite of comprehensive programs and services that are included with every new vehicle. The New Vehicle/SAV Limited Warranty, the BMW Maintenance Program, and Roadside Assistance come standard, with BMW Assist available in all models. The **New Vehicle/SAV Limited Warranty** provides you with coverage for the first four years or 50,000 miles, whichever comes first. Additionally, you have 12-year, unlimited-mileage warranty protection against corrosion and rust perforation.²

BMW Maintenance Program is one of the most comprehensive maintenance programs in its class. We cover all factory-recommended maintenance during the New Vehicle/SAV Limited Warranty coverage period. This includes scheduled oil services and inspections. Also covered is the replacement of items that are subject to normal wear and tear, such as brake pads, wiper blade inserts and engine drive belts.³ And, thanks to BMW's advanced engineering, most owners enjoy a well-balanced maintenance schedule, with flexible routine service intervals that can save you time. When your vehicle requires attention, your authorized BMW or BMW SAV center ensures that it receives only genuine BMW parts – your assurance of exacting quality standards.

BMW Roadside Assistance is provided free of charge for the first four years – with no mileage limit. Call **1-800-332-4BMW (4269)** for friendly on-the-road help, 24/7, anywhere in the United States, Canada and Puerto Rico. This includes everything from flat-tire changes, emergency gasoline and lock-out service, to towing, alternative transportation and even trip-interruption benefits. This service also provides valuable trip-routing advice.

The **BMW Assist** Safety Plan is a four-year program that's standard in the ActiveHybrid X6 and optional in other X6 models. You'll enjoy peace of mind knowing that a friendly response specialist is there to help you, 24/7, at just the push of a button. The Safety Plan includes Automatic Collision Notification, Emergency Request, Enhanced Roadside Assistance, Door Unlock, Stolen Vehicle Recovery and Customer Relations. Included in the BMW Assist Safety Plan, MyInfo allows you to send business locations and street addresses with their associated phone numbers from the Google Maps™ website directly to your BMW. The destination can be sent to your Navigation system for turn-by-turn directions. With the BMW Navigation system and certain BlackBerry smartphones linked to your BMW via Bluetooth® technology, BMW's Mobile Office feature transfers text messages and emails to your iDrive Display screen and reads them aloud to you. A Calendar and To-do List can also appear on your Display screen while en route. Running late? Click on the phone number in the Calendar to call your appointment.

For the ultimate in coverage, add the optional **Convenience Plan.⁴** You'll enjoy unlimited access to personalized Directions, Traffic and Weather reports, as well as our Concierge feature, which can send a destination address and phone number, such as a restaurant or hotel, right to your BMW. You can make up to four operator-assisted calls per year with Critical Calling if your cell phone

is not available, or if its battery is discharged. BMW Search allows online access to up-to-date fuel prices and the latest weather forecasts, as well as Bloomberg's stock indices and the powerful reach of the Google Maps database – delivered to the iDrive Display right inside your vehicle.

BMW's unique **TeleService**, included in the BMW Assist Safety Plan, continually monitors specific parts that are subject to wear and tear – including the engine oil, micro-filter, spark plugs, brake linings and various fluids – as well as services that require attention at regular intervals, such as vehicle service inspections. This data is automatically transmitted to your BMW or BMW SAV center, which will then call you to schedule a service appointment. You don't have to keep track of when your vehicle requires routine maintenance. An added benefit: any needed maintenance service parts will already be on hand, so your BMW is serviced and returned to you as quickly as possible.

For more details on BMW Ultimate Service, visit your authorized BMW or BMW SAV center or log on to **bmwusa.com/ultimateservice**.

JOY COMES IN MANY FORMS.

BMW Virtual Center. If you get the sudden urge to shop for a BMW but your BMW or BMW SAV center is closed, there's good news – the BMW Virtual Center is open 24 hours a day! Log on to **bmwusa.com**, and in the top navigation bar, choose "Build Your Own," and then the model that interests you. Configure the BMW of your dreams, and see what the monthly payments would be. You can even send the specifications to your authorized BMW center, apply for financing, or request a test drive – all online!

BMW Financial Services. Arranging to buy or lease a BMW is easier than you may think. Your authorized BMW or BMW SAV center offers leasing and financing to suit your personal needs through BMW Financial Services.⁵ Start the process at our website, where you can build your "dream vehicle," get an estimate on a monthly lease or financing payment, submit a credit application to BMW Financial Services – and get approval – all online!⁵ To find out how BMW Financial Services can help put you behind the wheel of your favorite BMW model, log on to **bmwusa.com/fs** or call, toll-free, **1-800-578-5000**.

BMW Publications in the "Media Gallery & Library." Sent to new owners and lessees several times a year, **BMW Magazine** is a fascinating view of the latest events and products in the world of BMW, including personality profiles, travel reviews, and the latest BMW technologies. You can read articles from **BMW Magazine** on the BMW website at **bmwusa.com** under the "Media Gallery & Library" heading, found in the "Experience" section. Here, you can also view featured videos and images, read recent news articles, and download BMW wallpapers. While you're there, check out the "News Feed" area to enjoy articles from **Inside Track**. For more information, call Customer Assistance at **1-800-334-4BMW (4269)** or visit BMW online at **bmwusa.com**.

The new **BMW Welt** ("BMW World") delivery and brand-experience center in Munich is bold proof of BMW's passion for design. When you take advantage of the BMW European Delivery Program⁶ this is where you will meet your new BMW – in a personalized process that is highly dramatic and totally unforgettable. (You might also realize substantial savings that just may pay for your trip.) While you're there, marvel at the historic BMWs in the Museum; learn about our engineers' newest innovations in the Technology and Design Atelier; and take a tour of the plant to experience firsthand the state-of-the-art methods used to create a BMW. Then comes the unique experience of driving your new BMW on the roads it was designed for. To learn more, visit **bmwusa.com/europeandelivery**.

¹ The BMW Assist and Bluetooth Hands-free Calling system with 4 years of Safety Plan services is standard in the ActiveHybrid X6, and optional or included in the Premium Package in other X6 models. In order to receive BMW Assist services, a subscriber agreement must be completed and transferred to the BMW Assist Response Center. GPS and underlying wireless services must be available and functioning; vehicle ignition must be turned on (except for Door Unlock and Stolen Vehicle Recovery), battery charged and connected and vehicle's electrical system operational; services may be limited to certain geographic areas. Call toll-free **1-888-333-6118**, go to **bmwassist.com**, or visit your BMW or BMW SAV center for additional program details. Services are subject to the terms and conditions of your subscriber agreement.

² See your authorized BMW or BMW SAV center for details on these limited warranties.

³ The BMW Maintenance Program covers factory-recommended maintenance services as determined by the Service Interval Indicator for all new eligible MY 2004 and later BMW vehicles. Specific additional items that need replacement due to normal wear and tear are also covered. The maintenance coverage period is for the first 4 years or 50,000 miles, whichever comes first. Exclusions from coverage include: gasoline, gasoline additives, windshield washer fluid and additives, battery, tires, wheels, wheel alignment and tire balancing. All work must be performed by an authorized BMW or BMW SAV center. See the Service and Warranty Information booklet for specific terms, conditions and limitations. Further information can also be obtained from your authorized BMW or BMW SAV center.

⁴ Requires BMW Assist Safety Plan subscription. Services are subject to the terms and conditions of your subscriber agreement. Please go to **bmwassist.com** for additional details on the optional Convenience Plan.

⁵ Subject to credit approval and other terms and conditions.

⁶ Not all models available for BMW European Delivery Program. Please go to **bmwusa.com** or visit your authorized BMW or BMW SAV center for details.
