

2013
ALL-NEW CADILLAC XTS

*IT IS PERHAPS THE SMALLEST SPACE KNOWN TO MAN.
THAT RAREFIED SLIVER BETWEEN THE GOOD AND THE
TRULY GREAT. THERE'S NO MAP TO HELP YOU FIND THIS
ELUSIVE PLACE. THE ONLY WAY TO GET THERE IS SIMPLY
TO BELIEVE YOU CAN.*

*At Cadillac, we've set out to create our own uniquely American breed
of extraordinary. It's why we've created our own daring school of design
that pushes steel way beyond its comfort zone. It's why we've pushed
technology two generations ahead by pioneering a bold new way for
drivers to intuitively access entertainment and information with the
flick of a finger. And why, in everything from safety to performance,
we measured ourselves against the world's best.*

*RED-BLOODED. DARING. ORIGINAL. These are the kinds of luxury
vehicles we build. It takes tenacity, a refusal to leave well enough alone.
That is the difference between good and great.*

*That is the difference between just making luxury vehicles, and making Cadillacs.
The New Standard of the World.*

04 ESSENCE OF XTS

STATE OF THE ART
MEETS HIGH ART.

XTS PREMIUM COLLECTION / Sapphire Blue Metallic

THE FUTURE IS HERE.
AND IT'S EFFORTLESS.

We set out to build a car that would not only move you, but transport you well into the future. The result is the bold, all-new XTS. From CUE¹—Cadillac User Experience, which seamlessly connects you to a world of information, communication and entertainment—to its exhilarating driving experience, it ushers in new standards with every ingenious detail. Powerful, yet efficient². Stunningly modern, yet meticulously crafted. Tautly proportioned, yet spacious. And with its revolutionary dual-mode Magnetic Ride Control and front Brembo[®] brakes, it provides the perfect balance between agility and composure. The intuitive, invigorating XTS has arrived. And it's bringing the future forward.

1. Full functionality requires compatible Bluetooth[®] and smartphone. Some devices require USB connectivity.
2. EPA-estimated mpg 17 city / 28 highway, FWD. 17 city / 26 highway, AWD.

INDIVIDUALLY,
ITS INNOVATIONS ARE INGENIOUS.
TOGETHER, THEY'RE UNPRECEDENTED.

XTS PREMIUM COLLECTION / Caramel with Jet Black accents

SIGNATURE LIGHTING

AVAILABLE AUTOMATIC
FRONT BRAKING¹

CUE

The XTS redefines the principles of what's possible, beginning with the groundbreaking CUE. Employing first-of-its-kind technology, CUE brings the intuitive control of smartphones and tablets conveniently to the road. It's so advanced, it even senses your hand as it approaches, displaying relevant information and providing tactile feedback from its brilliant touch screen. The inspired thinking also extends to available XTS safety technologies like its perimeter warning that helps alert you to obstacles and hazards in your path. Under the artfully sculpted hood, the impressive 3.6L direct-injection V6 delivers a refined 304 HP, while available torque-vectoring All-Wheel Drive and the rear electronic Limited-Slip Differential (eLSD) responsively put power where you need it, when you need it. And it's all backed by Cadillac Shield, the most comprehensive suite of owner benefits offered by any luxury automotive brand in the world.

Where is it written that head-turning presence and formidable performance be restricted only to two-door coupes? The chiseled, angular skin of the XTS was designed not only to turn heads, but to slice through the wind, helping improve performance and mitigate noise. Its distinctive, sloping grille is integrated into the overall design so seamlessly, the final effect is both subtly detailed and yet convincingly stated. Of course, its assertive stance and striking vertical rear taillamps make a bold statement, but when you spot the massive front Brembo® brakes lurking behind the spoked alloys, it becomes clear this is a Cadillac to be reckoned with.

INSPIRING

DESCRIBES MORE THAN THE DRIVE.

WHEN IT COMES TO THE DETAILS,
WHERE DO YOU STOP?
YOU DON'T.

DIRECTIONAL HID HEADLAMPS

To help light the way at night, the brilliant High-Intensity Discharge (HID) headlamps are available with Adaptive Forward Lighting. Sensors react to the car's speed and steering, directing the headlamps to cast light precisely into your path of travel.

DYNAMIC 20" WHEELS

Featuring a brilliant, polished finish and chrome inserts, these 20" Platinum Collection wheels are the ideal complement to the XTS.

BOLD, CONFIDENT GRILLE

The aerodynamic front is discerningly accentuated with chrome and balanced by a subtle piano-black finish, delivering a sleek and striking appearance.

ROOM WITH A VIEW

A third window was engineered behind each rear door. This design not only provides an overall feeling of even more space, but also gives rear seat passengers a clearer view.

A PERFORMANCE THIS IMPRESSIVE DESERVES LIGHTING TO MATCH.

ILLUMINATED DOOR HANDLES

Refined details are everywhere, right down to the available illuminated door handles. More than an accent, their soft glow makes them easier to locate. Once you are in the vehicle, they return to their non-illuminated state.

PUDDLE LAMPS

Subtle lamps located under the outside mirrors cast a light near the entrance of the car as part of the carefully choreographed lighting sequence, so your path is well lit.

ILLUMINATED SILL PLATES

In the XTS, every detail was considered. For example, upon opening either front door in the Platinum Collection, backlit sill plates are an inviting touch.

AMBIENT INTERIOR LIGHTING

Adding drama and illumination, this available feature includes subtle lighting under the wood trim on the dash and door panels. It also includes LED spotlights under the door pulls in front, in the foot wells and from the overhead console.

With the XTS setting the perfect stage for an exhilarating performance, it's fitting the lighting was designed as if it were a contemporary theater. Every piece of illumination was choreographed with a specific task in mind, whether it is to draw your eye to the meticulous details or to add illumination to key areas. Taken individually, each light is impressive in its own right; like the signature Cadillac light pipe technology integrated into the headlamps and taillamps. They form a razor-thin blade that is clearly evident at night—making your vehicle visible and distinctive from any angle. When backing up, there's a lower-mounted LED reverse lamp to improve your view. Even the available illuminated exterior door handles add a purposeful touch on a dark night.

The XTS acknowledges your presence even before you take a seat. As you approach, lighting elements in the headlamps, door handles and side mirrors are choreographed to illuminate your way.

EVEN THE FINE POINTS HAVE
FINER POINTS.

The first moments behind the wheel are, in many ways, the most inspiring. It is why we designed the XTS to feel more like a perfectly tailored garment. You wear it, feel it, think it. There's the wraparound instrument panel that blends seamlessly into the upper doors, creating an uninterrupted sense of spaciousness. To that, add fine leather seating surfaces, exotic woods and brushed metal that work in concert to further accentuate the cabin. Even the spacious backseat with best-in-class rear legroom is slightly elevated so every passenger is afforded a seat with a view. It may feel as if every interior detail was designed to meet your personal specifications. Perhaps that's because it was.

THE LINING OF A SUIT.
THE MOVEMENT OF A WATCH.
TRUE LUXURY CAN OFTEN BE FOUND
ON THE INSIDE.

The meticulous attention to detail continues into the striking cabin. Intuitive controls are complemented with impeccably detailed materials like lustrous exotic wood that trims the steering wheel and is carefully laid throughout the center console. Laminated front side glass and triple door seals work in tandem to help deflect noise before it enters the cabin. And to optimize seat comfort, pressure-mapping technology was used extensively to design the contoured front seats. Proof that in the XTS, technology definitely comes with a sophisticated side.

OPUS FULL-LEATHER SEATS

Opus full-leather seating is exclusive to Platinum Collection models. This unique, luxurious leather is renowned for its ultra-soft feel and refined appearance.

THE ART OF DETAIL

The closer you look, the better it gets. Leather surfaces, contrasting stitching, beautifully grained woods and brushed metal all come to life in the XTS.

INTELLIGENTLY DESIGNED STORAGE

From the smartly placed mobile device holder to the center control panel that opens, every millimeter of the XTS reveals yet another brilliantly engineered space.

THE SOUND DOESN'T SURROUND YOU.
IT IMMERSES YOU.

BOSE PERSONAL® SURROUND SPEAKERS

14-SPEAKER BOSE STUDIO SURROUND SOUND SYSTEM

Your choice seats to a remarkable musical event are ready. Deep, powerful lows. A wide, spacious soundstage. All the emotion and dynamics of a live performance now rendered in a remarkable surround sound experience. And it's all brought to you by the 14-speaker Bose Studio Surround sound system in the Premium and Platinum Collections. Customized for the unique acoustic environment of the XTS, it uses two Personal surround speakers on the top of each front seat to provide an immersive and individual sound experience. Of course, no matter where you are sitting, you'll enjoy rich, detailed sound that seems to extend well beyond the space. With its proprietary speakers, powerful amplifier and AudioPilot® noise compensation technology, this system puts you in the middle of the music.

INTELLIGENCE,
IN ITS SIMPLEST FORM.

Introducing CUE,¹ which blends innovative technology with highly intelligent design to create an experience that's as effortless as it is advanced. It easily accesses every contact and song on up to ten Bluetooth®-enabled smartphones. The available 3-D GPS navigation system² has

map-integrated Doppler weather³ reports. CUE also streams Pandora Radio⁴ and lets you preset up to 60 favorites, including points of interest, addresses, phone numbers and more. With CUE, the customization and content possibilities are not only endless, but right at your fingertips.

CUE is as intuitive as it is advanced. Spread your fingers to zoom in closer on a map. Swipe to breeze through your music. Simply speak and let the Natural Voice Recognition help you effortlessly place a phone call or change your music.

Considering that it can even detect your hand as it approaches the vibrant 8-inch LCD touch screen, interacting with CUE couldn't be easier. And when an icon is touched, the screen pulses to acknowledge the command, letting you keep your eyes safely on the road. On select models, you can even configure the gauge cluster to find the layout of information that perfectly suits you. With CUE, the future has arrived, and it's better than you could have possibly imagined.

ONE PART DRIVER INTERFACE, ONE PART ENTERTAINMENT SYSTEM, CUE REIMAGINES THE CONNECTION BETWEEN CAR AND DRIVER.

PERFORMANCE GAUGE CLUSTER

ENHANCED GAUGE CLUSTER

BALANCED GAUGE CLUSTER

SIMPLE GAUGE CLUSTER

CONVENIENCE

A clean, uncluttered design pairs with Natural Voice Recognition for effortless interaction. CUE is as easy and intuitive to use as your smartphone or tablet.

CONTROL

Seemingly instinctive, CUE uses proximity-sensing technology to detect your hand as it nears the LCD touch screen. Once there, press an icon and the screen pulses to acknowledge your prompt, helping you to stay focused on the road.

CONNECTIVITY

Doppler-radar weather,¹ Pandora Radio,² Bluetooth[®] connectivity,³ available 3-D GPS navigation⁴ and more.

1. Requires active SiriusXM subscription. 2. Data plan rates apply. 3. Go to gm.com/bluetooth to find out which phones are compatible with the vehicle. 4. Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada.

VISION,
IN EVERY SENSE OF THE WORD.

The best safety features are those that help you avoid a collision in the first place. That's why the XTS offers the latest innovations in driver awareness and assistance to help inform you of potential hazards you may not even see. Using radar technology and strategically placed cameras, the XTS is ever-vigilant with its available Forward Collision Alert, Lane Departure Warning, Side Blind Zone Alert,¹ Rear Cross-Traffic Alert, and Front and Rear Park Assist. Even the available

Adaptive Cruise Control^{2,3} uses radar to maintain a preset distance between you and other vehicles. And the available Automatic Front and Rear Braking³ detects large objects you may not see to help prevent certain low-speed collisions by applying the brakes for you. As an alternative to warning chimes, the XTS offers a Safety Alert Seat that subtly pulses, giving you instant, tactile feedback to alert you of select dangers on the road. Safety is no longer limited to five senses.

A SAFETY SYSTEM SO ADVANCED,
WE HAD TO INVENT A NEW SEAT
TO TELL YOU ABOUT IT.

With select models featuring eight ultrasonic motion detectors, six Doppler radar sensors and a high-definition Smart Camera taking twelve pictures every second, the XTS doesn't just watch the road. It analyzes it. Cross-references it. Writes a dissertation. And then leaves you with the condensed version. All through subtle pulses in your driver's seat.

Why pulses? Because on the road there are many visual and auditory signals vying for your attention. So we invented a warning you can feel—the Safety Alert Seat, available exclusively in the XTS. By sending an immediate pulse through the seat cushion, either right or left, or simultaneously, this patented technology quickly and intuitively warns you of the direction of a potential hazard, increasing your confidence as you continue on your way.

From where you sit, it is just another example of how innovative XTS safety technology leads you confidently down the road ahead.

IT'S AS DEFENSIVE AS IT IS DYNAMIC.

CRASH-TEST TECHNOLOGY

Today's new "hyper-tech" dummies record and transmit crash data 10,000 times a second. More than 200 crash-test dummies of all shapes and sizes are wired with sensors that tell safety engineers how much and what kind of forces they endure during crash tests. This helps improve the safety of every Cadillac made.

AUTO-DRY BRAKES

It makes perfect sense—dry brakes stop faster than wet brakes. That's why we designed the XTS so that the available Rainsense wipers and Auto-Dry brakes work together. After the Rainsense wipers are activated, the brake pads are positioned closer to the rotor, sweeping away the moisture and helping to improve braking performance. Visit cadillac.com/autodry for further details.

It starts with a protective safety cage constructed with high-strength steel alloys for exceptional rigidity and strategically placed crumple zones. Then we add preventive safety features like the StabiliTrak Electronic Stability Control System and a sophisticated antilock braking system (ABS) with Electronic Braking Force Distribution that helps balance stopping power between the front and rear brakes. There's also the confidence that comes with ten standard airbags¹ and a one-year subscription to OnStar² Automatic Crash Response. In a crash, built-in sensors in your vehicle can automatically send an alert to an OnStar advisor who can contact you in your car.

1. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information. 2. Visit onstar.com for details and system limitations. OnStar acts as a link to existing emergency service providers.

IT'S A RARE ENGINE THAT
APPEALS TO YOUR LEFT BRAIN
AND RIGHT FOOT
IN EQUAL MEASURES.

XTS PLATINUM COLLECTION / Graphite Metallic

Push the start button, and the V6 comes to life with a muscular rumble. But it's what goes on under the artfully sculpted hood that is truly impressive. Designed to complement the exceptional handling of the XTS, the 304 HP 3.6L V6 engine is an advanced study in technology. Spray-guided direct fuel injection delivers fuel precisely to the center of the

combustion chamber. Along with Variable Valve Timing, this maximizes the air/fuel ratio for optimal power and efficiency.¹ The engine is coupled with an advanced Gen-II automatic transmission that delivers crisp, smooth shifts in step with the V6 engine's impressive output. When you call for power, the XTS answers immediately.

3.6L DIRECT-INJECTION V6 ENGINE

Known for its smooth, seamless power delivery, this 3.6L direct-injection V6 engine is also remarkably fuel efficient.¹

DRIVER SHIFT CONTROL

The electronically controlled 6-speed automatic transmission incorporates steering wheel-mounted paddle shifters that enable clutchless manual shifting. A quick tap is all that's required for a smooth, crisp upshift or downshift.

*THE ROAD MEANDERS.
THE XTS DOES NOT.*

Any luxury sedan can hold its own on a long stretch of interstate. However, when the pavement twists, writhes and dips, the XTS quickly separates itself from everything else on the road. With its advanced suspension and precisely tuned steering, it delivers a perfectly connected and sophisticated ride. Torque-vectoring All-Wheel Drive is available and features advanced software that manages torque front-to-rear, while the rear electronic Limited-Slip Differential (eLSD) controls torque side-to-side along the rear axle, putting power where you need it most for a surefooted grip on the pavement. The XTS also features revolutionary dual-mode Magnetic Ride Control that reacts in the blink of an eye to changing demands, while its advanced HiPer Strut technology helps the tires remain keyed to the surface. Combined with rear auto load-leveling suspension and speed-sensitive steering, the XTS handling is nothing short of a revelation.

MAGNETIC RIDE CONTROL

Revolutionary dual-mode Magnetic Ride Control reads the road up to 1,000 times per second and seamlessly adjusts damping for agile handling and a controlled ride.

THE PLATINUM COLLECTION:

WE DON'T PLAY GAMES

WHEN IT COMES TO LUXURY.

UNLESS, OF COURSE, IT'S LEAPFROG.

The XTS Platinum Collection takes all the innovation, design and especially the luxury of the XTS to an even higher level. Leather envelops the instrument panel and floor console, and even flows onto the door. Opus full-leather seats are not only exceptionally supple, but so meticulously detailed that even the inside edges of their cooling perforations reveal a subtle hint of contrasting¹ color. The Lineate wood is exclusive to Platinum, and so richly grained, it takes on extra dimension. While overhead, a microfiber-sueded headliner surrounds an UltraView sunroof that opens to the heavens above.

ULTRAVIEW SUNROOF

Spanning both rows of seats and giving the XTS an even more spacious feel, this sunroof doesn't so much open as unveil.

LEATHER-WRAPPED INTERIOR

Leather wraps virtually every surface you touch and feel in the XTS, enhancing the experience before you even start the engine.

ADAPTIVE CRUISE CONTROL

Progressive technology in the XTS affords an assured and comfortable journey with available Adaptive Cruise Control^{2,3} as well as Automatic Front and Rear Braking²

EXCLUSIVE GRILLE

The strong lines and refined mesh combine to make a statement that is found only on the Platinum Collection.

1. Jet Black with Light Wheat accents interior only. 2. Adaptive Cruise Control is no substitute for the driver's personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle. 3. Late availability.

THE PREMIUM COLLECTION:
PREDICTIONS SEEM FRIVOLOUS WHEN YOU'VE ALREADY
SEEN THE FUTURE.

It's as close as you can get to a personalized fit. Tri-zone climate control means every inch of the car is perfectly heated or cooled. The reconfigurable gauge cluster allows you to find the layout of information that perfectly suits you. And the richly designed interior comes complete with a 14-speaker Bose Studio Surround sound system. Even a navigation system¹ with map-integrated Doppler weather² reports is just another example of how we've pushed refinement to a whole new level.

HEAD-UP DISPLAY

Using head-up display technology similar to that found in fighter jets, this feature helps keep your eyes on the road by projecting customizable key driving and entertainment information in full color at eye level.

ADAPTIVE FORWARD LIGHTING

With Adaptive Forward Lighting, sensors read your speed and steering angle, swiveling the High-Intensity Discharge (HID) headlamps up to 15 degrees to illuminate the direction of travel.

BOSE STUDIO SURROUND SOUND SYSTEM

Your XTS doubles as an intimate concert venue with the 14-speaker Bose Studio Surround sound system that includes two Personal[®] surround speakers on the top of each front seat.

NAVIGATION SYSTEM

Convenience is within easy reach, thanks to the navigation system.¹ Featuring easy, intuitive voice guidance, 3-D GPS color imaging with integrated Doppler weather² and more, it's your on-the-road control center.

1. Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada. 2. Requires active SiriusXM subscription.

THE LUXURY COLLECTION:

HOW CLOSE DID WE COME TO THE ONE IN
YOUR IMAGINATION?

Step inside, and you'll find premium wood accents highlighting the instrument panel, door and shifter. With a Memory Package for two drivers that recalls presets for the power driver seat, outside mirrors and the steering column, the XTS stands ready no matter who holds the key. Heated, ventilated front seats with cushion-length adjusters and heated outboard rear seats mean everybody in the cabin is comfortable, no matter how long the drive or the temperature outside. Of course, it's all complemented by dramatic ambient lighting. Even the dual-exhaust outlets are beautifully integrated into the fascia to complete the modern and refined look. Proof that luxury and advanced design can coexist in perfect harmony.

PREMIUM WOOD TRIM

Eye-catching wood sets the tone for the interior of the XTS with its deep, rich color. The beautiful grain appears to change with the lighting, adding an extra touch of allure.

INTEGRATED EXHAUST

The dual-exhaust outlets are integrated into the rear fascia to ensure the impeccable lines of the XTS remain unbroken.

VENTILATED FRONT SEATS

Air-cooled front seats with cushion-length adjusters are a welcome rejuvenation on hot days and during extended journeys.

HEATED STEERING WHEEL

The perfect antidote to a cold winter morning.

PAINT FINISHES

TINTCOAT

A premium 2-layer paint application with the addition of a tinted clearcoat, lending the finish an extra depth and brightness.

CADILLAC SHIELD

THE NEW STANDARD OF LUXURY OWNERSHIP

PREMIUM CARE MAINTENANCE

Premium Care Maintenance is a fully transferable maintenance program that covers select required maintenance services during the first 4 years or 50,000 miles.¹

COURTESY TRANSPORTATION

During the warranty coverage period, this Cadillac program provides alternate transportation and/or reimbursement of certain transportation expenses if your Cadillac requires warranty repairs.

SECURITY BY ONSTAR

If you've reported your Cadillac stolen, OnStar² can use GPS technology to help authorities quickly locate and recover it. On most Cadillac models, an Advisor can send a Stolen Vehicle Slowdown[®] or Remote Ignition Block signal to help authorities safely recover it.

DIAGNOSTICS BY ONSTAR

With one of the industry's most comprehensive vehicle diagnostics and maintenance reporting from OnStar², maintaining your Cadillac can be as simple as checking your e-mail or your OnStar RemoteLink mobile app. Every month, you can receive an e-mail with the status of key operating systems.

EMERGENCY BY ONSTAR

In a crash, built-in sensors can automatically alert an OnStar Advisor who is immediately connected in to your Cadillac to see if you need help sent to your exact location. Other OnStar emergency services include Injury Severity Predictor and First Assist. All Cadillac models come with 1 year of OnStar service.

ROADSIDE ASSISTANCE

Among leading luxury car brands, Cadillac is the only one to offer standard 6-year/70,000-mile¹ Roadside Assistance that provides lock-out service, a tow, fuel, Dealer Technician Roadside Service and more.

WARRANTY PROTECTION

The 6-year/70,000-mile¹ Cadillac Powertrain Limited Warranty is 20,000 miles longer than Audi, BMW and Mercedes-Benz. The 4-year/50,000-mile¹ Bumper-to-Bumper Limited Warranty covers repairs on your entire vehicle, including parts and labor, to correct problems in materials or workmanship.

NAVIGATION BY ONSTAR

Just push the OnStar² button and an Advisor can download voice-guided turn-by-turn directions to your Cadillac, and a voice will call out every turn. You can also plan routes using Google Maps[™] or MapQuest.com,[®] and then send them to your Cadillac.

CONNECTIONS BY ONSTAR

Available Hands-Free Calling capability from OnStar² allows you to make and receive calls safely from your Cadillac. With the OnStar RemoteLink mobile app, you can access and control your Cadillac from anywhere you have cell phone service.

The one-year Directions and Connections Plan² connects you with a live OnStar Advisor who can program your requested route and have directions sent to your vehicle, or to the navigation system, when equipped. It's just one example of the level of personal service we think you deserve as a Cadillac owner.

MYCADILLAC APP

The ingenuity of the XTS doesn't stop with the vehicle. As a Cadillac owner, an advanced complimentary app is available for your new car. From virtually anywhere at anytime, a few taps of your finger on your iPhone or Android smartphone let you access features like parking reminders, Roadside Assistance and more. Plus, in conjunction with the OnStar RemoteLink app, you'll have the ability³ to remotely start your vehicle from any place you have cell service, and lock and unlock your doors. In addition, you can access key diagnostic information, including fuel tank level and range, and remaining oil life.

1. Whichever comes first. Visit cadillac.com for details. 2. Visit onstar.com for coverage map, details and system limitations. OnStar acts as a link to existing emergency service providers. Services vary by model and conditions. OnStar is standard for one year. 3. Requires active OnStar subscription.

On instrument panel and door trim		•	•	•

1. Before making a lane change, always check the SBZA display, check the side and inside rearview mirrors, look over your shoulder for vehicles and hazards, and start the turn signal. 2. Available September 2012. 3. Adaptive Cruise Control is not a substitute for the driver's personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle. 4. Available July 2012. 5. Always use safety belts and the correct child restraint for your child's age and size, even in vehicles with air bags. Even in vehicles equipped with Passenger Sensing System, children are safer when properly secured in the rear seat, in an appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the vehicle Owner's Manual and child safety seat instructions for more safety information. 6. Requires a subscription, sold separately by SiriusXM after the trial period. SiriusXM Radio service only available in the 48 contiguous United States and the District of Columbia. For more information and to view Customer Agreement, visit siriusxm.com. 7. Go to gm.com/bluetooth to find out which phones are compatible with the vehicle. 8. Not compatible with all devices. 9. Full functionality requires compatible Bluetooth and smartphone. Some devices require USB connectivity. 10. Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico, and Canada. 11. Visit onstar.com for details and system limitations.

THE NEW STANDARD OF THE WORLD

ABOUT THIS CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing (06/12), please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process. Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times. Note: Some photographs in this catalog show vehicles with optional equipment.

ONSTAR OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (466-7827) or visit onstar.com for OnStar's Terms and Conditions, Privacy Policy and details and system limitations.

ENGINES Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models.

TIRE SEALANT AND COMPRESSOR KIT Unless you option into a spare tire, there is no jack or spare tire in this vehicle. If you do not option into the spare tire, your vehicle has a tire sealant and compressor kit that uses a liquid tire sealant to temporarily seal up to a 1/4-inch puncture in the tread area of the tire. After using the inflator kit, it is recommended to take the tire to an authorized dealer for inspection and repair as soon as possible but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than 1/4 inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire one time before its expiration date.

ASSEMBLY Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

UPDATED SERVICE INFORMATION Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-551-4123 or by visiting www.helminc.com.

NEW-VEHICLE LIMITED WARRANTY World-class coverage comes standard on every 2013 Cadillac. This warranty is for Cadillac vehicles registered in the U.S.A. See your Cadillac dealer for terms and conditions.

COVERED FOR 6 YEARS/70,000 MILES (WHICHEVER COMES FIRST) Powertrain Limited Warranty with no deductible, Roadside Assistance Program;¹ Courtesy Transportation Program;¹

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST) Bumper-to-Bumper coverage; Tires – Defects in material and workmanship; Repairs made to correct any vehicle defect; Corrosion on body sheet metal panels.

RUST THROUGH PROTECTION Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any body sheet metal that rusts through (in the form of an actual hole in the sheet metal) is covered for six years unlimited mileage. Cosmetic or surface corrosion, resulting from stone chips or scratches in the paint, for example, is not included in the Rust Through coverage. Application of additional rust-inhibiting materials is not required under the Rust Through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

FLEET ORDERS Some standard content may be deleted with fleet orders. See dealer for details.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, material or workmanship of any alterations by such suppliers.

1. Roadside Assistance Program and Courtesy Transportation Program are not a part of the New Vehicle Limited Warranty. A separate booklet entitled "Warranty and Owner Assistance Information" furnished with each new vehicle provides detailed warranty coverage information.
