

2021 POLICE & SPECIAL SERVICE VEHICLES

A FORCE TO BE RECKONED WITH

An exuberant high five for law enforcement:

- Police Interceptor Utility – not only is it the best-selling police vehicle in America,¹ it's the first-ever pursuit-rated hybrid police utility
- 2020 F-150 Police Responder – the first pursuit-rated pickup truck
- All-New 2021 F-150 SSV – available with the breakthrough 3.5L PowerBoost™ hybrid engine
- Expedition/MAX SSV – the largest Ford SUV is outfitted in the name of Special Service
- Transit PTV – Built Ford Tough® Prisoner Transport Vehicle is available with AWD capability

Vehicle imagery throughout this brochure may be computer-generated and may include available and aftermarket upfit equipment.

POLICE INTERCEPTOR® UTILITY

POLICE INTERCEPTOR

NO-TRADE-OFFS HYBRID – STANDARD

The Ford Police Interceptor Utility is the first-ever pursuit-rated hybrid SUV: Fortified with standard full-time Intelligent AWD, an amazing 3.3L V6 hybrid engine and a 10-speed transmission, it outperformed all police utility competitors – including V8-equipped models – that participated in official testing.¹ Acceleration figures, lap times and top-speed numbers were tallied during rigorous evaluations conducted by the Michigan State Police and Los Angeles County Sheriff's Department.¹

Potential fuel savings: The hybrid powertrain offers significant potential reductions in fuel use when decreased engine idle times and an EPA-estimated rating of 23 city/24 combined miles per gallon² are factored in, potentially saving \$3,509 per vehicle per year. Calculation based on comparison with the previous-generation 3.7L V6 Police Interceptor Utility and an example fuel price of \$2.75 per gallon. (See computations on next page.)

Assembled in the U.S.A.³ with duty-ready technology (like the available 12.1" Integrated Computer Screen [ICS]), the Police Interceptor Utility is designed and engineered in Dearborn and assembled in Chicago: Its abundance of standard features means there's a lot of potential value for taxpayers' money. The built-in Ford modem and complimentary 2-year Ford Telematics™ subscription⁴ make for timely cloud-based, manufacturer-grade insights to help optimize running costs and improve asset utilization. Bluetooth® wireless connectivity allows for pass-through voice commands to mobile devices at the touch of a button. Deep sand/snow traction control has a handy on/off button in the control panel. The Class III trailer hitch receiver provides trailer-towing capacity to a max. 5,000 lbs.⁵ Dual-zone electronic automatic temperature control (DEATC) helps optimize comfort. Automatic on/off headlamps revert to the last-used position. And low-/high-LED headlamps with built-in wig-wag capability and pre-drilled holes for user-installed warning strobes come standard, as do 4 user-configurable switches on the steering wheel. The steering column itself is tilt/telescoping.

Exceptional safety: The Police Interceptor Utility is 75-mph rear-impact crash tested.⁶ It proudly proclaims to be the only vehicle in the world engineered to meet this test.

Note: See additional Police Interceptor Utility DNA on pages 20-29.

¹Based on 2020 Michigan State Police Vehicle Evaluation Program – based on 0-60 mph, 0-80 mph, 0-100 mph, top speed and lap times. ²Actual mileage will vary. 2020 Ford Explorer Police Interceptor Utility 3.3L Hybrid 4WD. ³Assembled in the U.S.A. with domestic and foreign parts. ⁴2-year subscription for Ford Telematics starts on vehicle sales date. Subscription features may be limited. Factors causing this limitation may include, but are not limited to, issues related to cellular coverage, carrier outages and carrier network service interruptions. Complimentary service ends after 2 years. ⁵When properly equipped. Available wiring kit required to tow trailers. ⁶The full-size spare tire secured in the factory location is necessary to achieve police-rated 75-mph rear-impact crash-test performance attributes.

REPEAT: A NO-TRADE-OFFS HYBRID

Innovative engineering and design of the hybrid system helps ensure an abundance of versatile passenger/cargo room: Total interior volume is 170.0 cu. ft. It offers a full 3.5 cu. ft. more space than the previous-generation Police Interceptor® Utility. Passenger volume is a vast 118.0 cu. ft., and cargo volume behind the 2nd row is an expansive 52.0 cu. ft. Spaciousness originates with the strategic placement of the hybrid's battery pack below the floor.

On the standard Ford Police Interceptor Utility, the electric motor's high-voltage lithium-ion battery pack utilizes an advanced liquid heating and cooling system that's a Ford first for an FHEV (Full Hybrid Electric Vehicle). This integrated system helps keep the pack's components operating at optimum temperature. Ready and rarin' to go, the battery pack's approximately 280 volts (with 35kW peak discharge power) are more than capable of energizing the electric motor. The battery pack provides full power to on-board equipment – from emergency lights and radios, to laptops and printers, plus the cabin's AC and heat – even when the gas engine is off during idle. Remain calm, cool or warm, and collected.

Cold cranking power – to start the longitudinally mounted 3.3L direct-injection hybrid V6 – is assured with the H7 AGM (absorbent glass mat) 12V battery. It has an impressive 800-CCA/80-amp rating. Or optionally step up to the H8 AGM version with an 850-CCA/92-amp starting power. To help support police upfit and agency electronics, a high-output 220-amp DC/DC converter is put into action in place of an alternator.

A police-calibrated high-performance Regenerative Braking System means that when braking, the Police Interceptor's lithium-ion hybrid battery is charging. Regenerative technology recaptures energy from vehicle motion by turning the electric motor into a generator, converting braking energy to electricity, and storing it in the lithium-ion battery pack for later use.

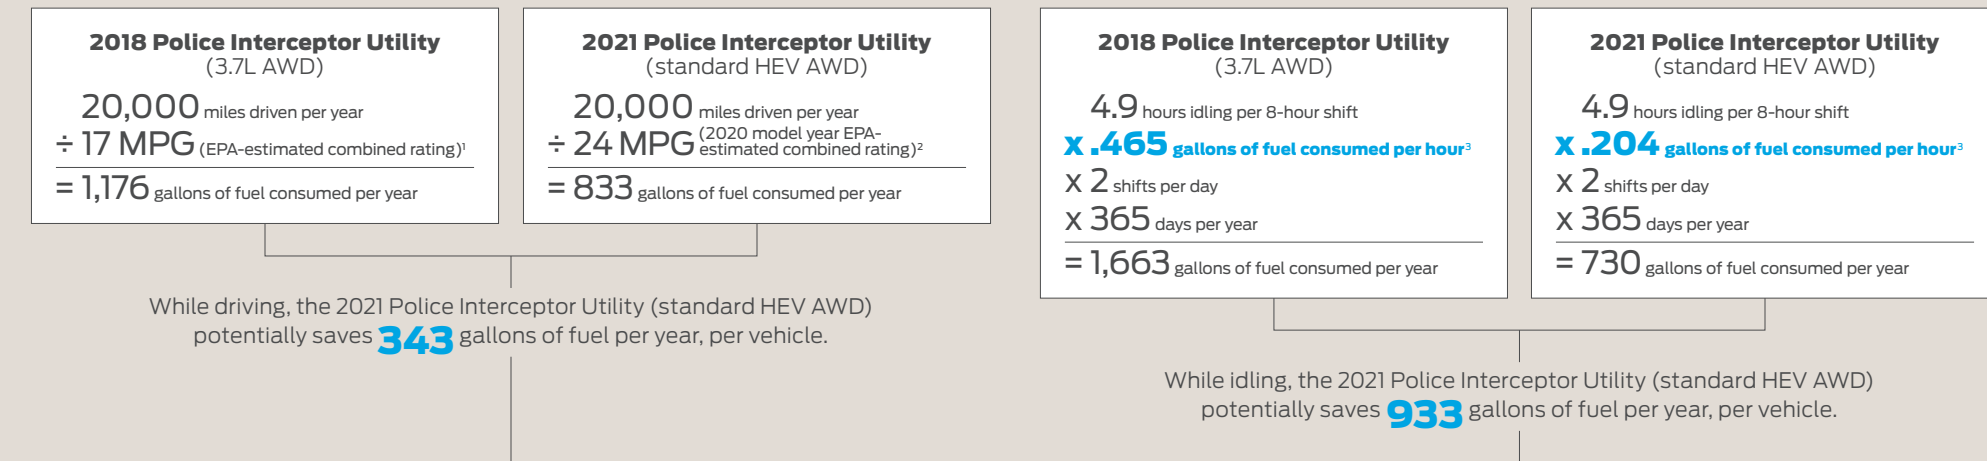

POWERFUL HYBRID SAVINGS

RESPONSIVE TO YOUR RIGHT FOOT AND, JUST AS IMPORTANT, YOUR BUDGET

The Police Interceptor Utility – that comes standard as a hybrid electric vehicle (HEV) with AWD – offers significant potential fuel savings. Its lithium-ion hybrid battery can provide added benefits when considering the unique idling demands of day-to-day police use.

While driving. Police Interceptor Utility (standard HEV AWD) projected fuel economy compares favorably against the past-generation Police Interceptor Utility (3.7L AWD).

While idling. Even when not in motion, police vehicles must constantly keep their engines running to power electrical equipment. Ford data shows that police vehicles spend approximately 61% of each shift at engine idle: This equates to roughly 4.9 hours of every 8-hour shift. The Police Interceptor Utility (standard HEV AWD) reduces engine idle time by powering the high electrical loads of a police vehicle with its lithium-ion battery. So the engine runs less – intermittently called upon to top off the battery.

In summary, the 2021 Police Interceptor Utility (standard HEV AWD) potentially saves:

An estimated **343** gallons of fuel per year while driving.

(+) An estimated **933** gallons per year saved while vehicle is at idle.

(=) An estimated **1,276** gallons saved per year, total.

That's **\$3,509** in potential savings per year, per vehicle. (Assuming an example gas price of \$2.75 per gallon.) Projecting to 4-, 5- or 6-year ownership terms, savings could grow to as high as \$34,452 at \$4.50 per gallon (see chart at right).

Additionally, there's a potential **25,560 lbs.** of CO₂ output⁴ reduced per year, per vehicle.

Visit fordpoliceinterceptor.com to calculate your own agency's potential savings.

2021 Police Interceptor Utility (standard HEV AWD)			
Potential Total Savings at Varying Gas Prices and Terms			
	4 Years	5 Years	6 Years
\$3.00/gallon	\$15,312	\$19,140	\$22,968
\$3.50/gallon	\$17,864	\$22,330	\$26,796
\$4.00/gallon	\$20,416	\$25,520	\$30,624
\$4.50/gallon	\$22,968	\$28,710	\$34,452

¹2018 MY EPA-estimated rating of 15 city/20 hwy/17 combined mpg, 3.7L AWD. Actual mileage will vary. ²2020 MY EPA-estimated combined rating of 24 mpg. Actual mileage will vary. ³Idle Fuel Consumption estimates are based on fuel flow measurements taken during 2 hours of continuous idling. Vehicles were driven for 18 miles at highway speeds prior to idling. Idle testing was conducted in an indoor facility at 73°F. The following vehicle accessories were activated during the test: Climate Control A/C, set to full cool condition; Vehicle Audio System, set to 30% of maximum volume. An electrical power draw load box drawing 32 amps was also connected to each vehicle's 12-volt battery to simulate the following estimated Police accessory loads: Emergency Lights (est. 25 amps); Laptop Computer (est. 3 amps); Police Radio (est. 4 amps). Additional testing details are available at ford.to/2H9qBEf. ⁴Burning a gallon of E10 ethanol fuel produces about 17.68 pounds of CO₂ emitted from the fossil fuel content, according to data provided by the U.S. Energy Information Administration (<http://ford.to/eiareport>).

12.1" INTEGRATED COMPUTER SCREEN

CUTTING THE CLUTTER

This cabin?

or

This cabin!

Add this available factory-installed, factory-warranted¹ Integrated Computer Screen (ICS) for the freedom to stash laptops in the cargo bay, where they can be connected directly to the ICS system. Cable hookup is easy, and it helps ensure utmost security and speed. No special software is required for operation.

Centrally located, the substantial 12.1" touchscreen mirrors the laptop display and potentially eliminates the need for a standalone keyboard. Vehicle audio controls are accessible via the ICS unit. And SYNC[®] 3² voice-activated technology is included.

In addition to a built-in computer screen, you're fortified with the following associated hardware:

- One (1) Audio Video Extender (AVX) box — includes one (1) HDMI cable and one (1) USB cable
- Two (2) AVX communication cables
- Three (3) USB system cables

Equipped with the conveniently placed 12.1" ICS, perform daily duties in a neat, streamlined manner. Simply select Order Code 47E on your next Police Interceptor Utility order.

KEEPING A SHARP LOOKOUT

Enhanced situational awareness: The available **Police Perimeter Alert**¹ utilizes **Blind Spot Information System** sensors for approximately **270-degree monitoring outside of the vehicle**. It features a vivid visual display in the instrument-panel cluster that can show moving objects, the motion trail, and even the potential threat level.

Nearby movement is analyzed to determine potentially threatening behavior. When such motion is detected, the system automatically activates the rear camera (standard display in center stack only), sounds a chime, rolls up any lowered windows and locks the doors. The alerted officer can then monitor the situation.

Note: Exclusive to the Ford Police Interceptor® Utility.

POLICE PERIMETER ALERT

FORD TELEMATICS™ FOR LAW ENFORCEMENT

TAKING IT TO THE NEXT LEVEL

Increase operational effectiveness with the Ford engineered integrated modem that's standard on the Police Interceptor® Utility and F-150 Police Responder.® The Ford Plug-In Modem Kit is available to retrofit most recent Ford vehicles already in service.

The modem and plug-in device are cloud-connected gateways to Ford Telematics for law enforcement. This simple, yet powerful software tool delivers manufacturer-grade information, insights and solutions. An easy-to-use interface enables management of the fleet in real-time for quick assessments of where to take action.

Improve asset uptime with Ford Telematics. Use GPS tracking and geofencing capabilities to help keep apprised of fleet vehicles.

Maximize vehicle uptime with Ford Telematics. Receive proactive notifications – including Vehicle Health Alerts and service reminders – to help plan ahead.

Help optimize running costs with Ford Telematics. Monitor fuel consumption; not only identify areas of waste, but the causes too.

Protect the fleet with Ford Telematics. A range of timely notices can help facilitate quick action, protecting staff, vehicles and operations.

Think about the environment with Ford Telematics. Information is provided to help fully utilize the benefits of hybrid vehicles in the fleet.

Improve driver behavior with Ford Telematics. A range of valuable insights into driver performance can lead to coaching opportunities to help increase efficiency and improve compliance.

Note: A complimentary 2-year subscription to Ford Telematics for law enforcement¹ comes standard on the Police Interceptor Utility. For the F-150 Police Responder and all 2021 Ford Police Special Service Vehicles, the modem is standard, and a subscription to Ford Telematics for law enforcement is available.

TANGO. OSCAR. UNIFORM. GOLF. HOTEL.

The Ford F-150 Police Responder flaunts the most interior passenger volume of any pursuit-rated police vehicle. With 131.8 cu. ft. of interior space, it can comfortably seat 5 – complete with body armor and holsters. Shoulder room, hip room and rear leg room are the most of any pursuit-rated police vehicle. The driver's seat is 8-way powered, and both front seats – with reduced bolsters for comfort – are outfitted in heavy-duty cloth. Front seat backs have anti-stab plates, head restraints in both rows are locking, and the flooring is vinyl. Locks, windows and sideview-mirror glass are power. Amenities extend to SYNC[®], a productivity screen, and the Remote Keyless Entry System.

Possessing the greatest torque of any pursuit-rated police vehicle,¹ the F-150 Police Responder is also the first-ever pursuit-rated pickup truck. 375 horses are at your command, supplemented with 470 lb.-ft. of torque. Its 3.5L EcoBoost[®] 4-valve V6 is partnered with a 10-speed SelectShift[®] automatic configured with progressive range select and Selectable Drive Modes: Normal, Tow/Haul, Snow/Wet, EcoSelect, and Sport. The shifter is steering column-mounted, the alternator is 240 amps, and the speedo is police-calibrated. Also, upgraded brake calipers, unique brake pad-friction material and an upgraded stabilizer bar deliver necessary performance.

Resounding with the best payload capacity (2,050 lbs.) and best standard towing capacity (7,000 lbs.) of any pursuit-rated police vehicle, this powerful pickup has a first-in-class,² military-grade, aluminum-alloy³ body and cargo box to reinforce its Built Ford Tough[®] reputation for quality, durability and muscle. Aluminum resists corrosion, and this grade fends off dents and dings; a fully boxed, high-strength-steel frame sets the foundation. Need more towing capability? Then go for the available Trailer Tow Package and tow up to 10,500 lbs.

Outfitted exclusively in a SuperCrew[®] 4x4 setup – and buttressed with a versatile 5.5' box – the go-anywhere attitude is bolstered with an FX4 Off-Road Package fortitude and available Ford Telematics[™] aptitude. It's provisioned with off-road-tuned shock absorbers, underbody skid plates and an electronic-locking rear axle. Standard confidence-driving features include Curve Control, Trailer Sway Control, and a Rear View Camera with Dynamic Hitch Assist. There's also a built-in Ford modem to optionally add a Ford Telematics subscription for manufacturer-grade data and insights.

2020 F-150[®] POLICE RESPONDER[®]

POLICE RESPONDER

SPECIAL SERVICE VEHICLES

REPORTING FOR NON-PURSUIT DUTY

Like the law-enforcement professionals who drive them, these Ford police vehicles are specialized to meet the needs of the communities they serve; each vehicle has been developed with input from the Ford Elite Police Advisory Board. The main objective is to help provide law-enforcement agencies of all stripes with the ideal tools to get things done right.

Totally transformed inside and out, the all-new 2021 F-150® Special Service Vehicle is available with a choice of 3 engines, including an all-new hybrid powertrain – the available 3.5L PowerBoost™ is paired with a 10-speed SelectShift® automatic. No matter how it's powered, the F-150 SSV authenticated Built Ford Tough® is the only way to go when police work requires the capability and dependability of a pickup.

Expedition and Expedition MAX Special Service Vehicles command authority and can fulfill diverse needs. The comfortable cabin has ample room available for up to 8, along with the necessary space for police equipment.¹ For comparison purposes, the Expedition MAX SSV can accommodate an additional 16.9 cu. ft. of supplies.¹

Offering multiple configurations to suit your agency's needs,² the unibody, upfit-ready Transit Prisoner Transport Vehicle (PTV) is available in all-wheel drive (AWD) for outstanding traction and added get-them-where-they-gotta-go assurance. This Built Ford Tough people mover can be configured to exacting needs. It's offered in an outstanding array of heights, lengths and wheelbases, with an option of 2 exemplary powertrains.

70 YEARS STRONG

Ford has outfitted law enforcement for a full 7 decades. In 1950, Ford became the first manufacturer to offer a police package vehicle, focusing then – as it does now – on the DNA attributes of safety, durability and performance, in addition to being purpose-built and upfit-friendly.

ADVANCED F-150® SSV

ALL-NEW ALL-OVER

Completely redesigned for 2021, the all-new Ford F-150 Special Service Vehicle (SSV) – available with no less than 3 engine choices, including a hybrid option – can fulfill your wish for rough and ready capability. Every powerplant is teamed with a 10-speed SelectShift® automatic with Progressive Range Select. Selectable Drive Modes include Normal, Sport, Eco, Tow/Haul, and Slippery.

3.5L PowerBoost® Full Hybrid V6 engine. Pulling from the collective power of gas and electric energy, the newly available 3.5L PowerBoost Full Hybrid engine provides ample horsepower and torque to get the job done – in addition to potentially reduced idle times. Plus, the PowerBoost battery is packaged efficiently underneath the vehicle to avoid taking up space in the cab or cargo bed.

The SSV seats 5 and is available on XL SuperCrew®, as a 4x2 or 4x4. Pair the available 3.5L EcoBoost® V6 with the available Max. Trailer Tow Package to tap into the impressive towing capacity.¹ To help direct the hitch ball to the trailer receiver, the Rear View Camera with Dynamic Hitch Assist provides a visible sight line on the center stack display. Special features also include a high-output 240-amp alternator, cloth front seating with center-section delete, the space-saving convenience of a column-mounted shifter, and a vinyl rear bench and vinyl floor covering for ease of maintenance.

F-150 is the first light-duty pickup made of high-strength, military-grade, aluminum alloys.² These panels don't rust, and they're dent- and ding-resistant. In other words, this SSV is made to stand up to punishment. Its fully boxed, modular frame is comprised of 78% high-strength steel.

Not only is the F-150 SSV Built Ford Tough®, it also comes with Ford Co-Pilot360™ Technology. Standard confidence-driving features include: Pre-Collision Assist with Automatic Emergency Braking (AEB); Autolamp (Automatic On/Off Headlamps) with Auto High Beams; Rear View Camera with Dynamic Hitch Assist; and Trailer Sway Control.

IMMENSELY IMPRESSIVE

Ideal for tactical work, hazardous-materials activity, evidence-tech operations and off-road duty, the Ford Expedition Special Service Vehicle (SSV) – in standard and extended-length MAX versions – can handle all kinds of action, big time. The robust aluminum-alloy body encloses an ultra-refined cabin that has ample room available for up to 8, plus the capacity to hold accompanying cargo.³ Thoughtful design cues include smart connectivity technology and a space-enhancing, fold-flat load floor. A column shifter and front center-section seat delete make room for onboard equipment. Well-cushioned cloth adorns the front-row bucket seats, and the same cloth comfort is available for the 2nd row. Easy-clean vinyl covers the standard 2nd-row seating, along with the full floor; plus, you get a handy array of 3rd-row storage bins in lieu of 3rd-row seating spaces.

At nearly a foot longer than the standard-length version, the Expedition MAX SSV accommodates an additional 16.9 cu. ft. of supplies and munitions.³ Both Expedition models are provisioned with a potent 3.5L EcoBoost twin-turbocharged direct-injection V6. Delivering a tenacious 375 hp and 470 lb.-ft. of torque, the benefits of this engine become all the more apparent when taking advantage of the max. 9,300-lb. towing brawn.⁴ Stick with RWD, or opt for greater all-terrain confidence with available 4WD, which includes skid plates. You can also benefit from the gains of the 10-speed SelectShift automatic and Auto Start-Stop Technology.

Ford Co-Pilot360 is standard. Numerous confidence-driving features include: Pre-Collision Assist with Automatic Emergency Braking (AEB); BLIS® (Blind Spot Information System) with Cross-Traffic Alert; Lane-Keeping System; Rear View Camera; and Trailer Sway Control.

You're further reinforced with a 3.73 electronic limited-slip differential (eLSD), 17" heavy-duty steel wheels, and all-terrain tires. Take charge, even on rut-strewn rural roads.

EXPEDITION/MAX SSV

TRANSIT PTV

CONFIGURABLE CONVEYANCE

Compartmentalize the Ford Transit Prisoner Transport Vehicle (PTV) with single, double or triple prisoner inserts;¹ add optional surveillance cameras, intercoms, lighting and more.¹ Considerable versatility extends to the best-in-class² choice of vehicle formats: 3 body lengths (Regular, Long, Extended), 3 roof heights (Low, Medium, High), 2 widths and 2 engines; each powerplant is paired with a 10-speed SelectShift[®] automatic. Gain easy access to the passenger side with the available power sliding door. Available dual rear wheels (DRW) provide additional hauling and towing prowess.

A significant cargo capacity with a maximum of 5,110 lbs.³ assists this PTV to master demanding challenges. Should extra muscle be required, a substantial gross vehicle weight rating (GVWR) with a maximum of 11,000 lbs.³ comes in handy. As does something as simple as the front overhead shelf that's standard on medium- and high-roof vans. With a flat cargo floor and near-vertical sides, Transit maximizes usable space.

It's loaded with standard Ford Co-Pilot360™ Technology: Pre-Collision Assist with Automatic Emergency Braking (AEB); Post-Collision Braking; Lane-Keeping System; Hill Start Assist; Rear View Camera with Trailer Hitch Assist; Rain-Sensing Windshield Wipers; and Auto High-Beam Headlamps.

Available Intelligent All-Wheel Drive (AWD) helps keep Transit PTV steady as it goes – so does standard AdvanceTrac[®] with RSC[®] (Roll Stability Control™) with Side-Wind Stabilization. AWD can make all the difference in getting to a destination. Normal, ECO, Slippery, Mud/Ruts and Tow/Haul are Selectable Drive Modes.

Helping ensure Transit PTV fulfills its missions, development vehicles were subjected to 7 million customer-equivalent miles of brutal testing in labs, at proving grounds, and on roads and highways across America. Overcoming temperature extremes ranging from -40°F to 120°F, this van is most definitely Built Ford Tough.[®]

IN THE NAME OF PROTECTION AND PRECAUTION

A. Worldwide vehicle exclusive: 75-mph rear-impact crash-tested.¹ Still the only vehicle on the market engineered to meet this test – which is well above the Federal Motor Vehicle Safety Standard of 50 mph.

B. Available Police Perimeter Alert.² It displays moving objects, the motion trail and the level of potential threat. (See page 8 for full details.)

C. Available Rear Camera On Demand. Activate it for additional surveillance at any speed, for as long as desired. This technology allows the vehicle's Rear View Camera to be operated independently with the push of a button; not limited to just shifting into Reverse.

D. Available Level IV+ or Level III+ ballistic front-door panels.³ Add National Institute of Justice Level IV protection against armor-piercing, .30-caliber rifle ammunition. Level III panels can help resist many handgun and non-armor-piercing bullets up to .30 caliber. Each "+" panel style can also handle specific special-threat rounds identified by the Los Angeles Police Department.

E. Extra-tough anti-stab plates. To help keep unruly types at bay, deflective steel intrusion plates are built into the driver and front-passenger seat backs.

F. SPACE (Side Protection And Cabin Enhancement) Architecture. A hydroformed cross-vehicle beam solidifies the vehicle's sides.

G. Multiple airbags.⁴ Just in case, the front-seat Personal Safety System™ (with front airbags), front-seat side airbags, front-passenger knee airbag, and 1st- and 2nd-row Safety Canopy® System (housing side-curtain airbags) are at the ready.

H. Sound surroundings. In the event of a crash, advanced safety technology helps to absorb the energy of the collision and to direct the impact forces away from the occupants. Additionally, crumple zones are strategically placed in the frame or body of the vehicle, further absorbing and dissipating the energy of a crash to help reduce intrusion into the occupant compartment.

I. Manual key lock cylinders. The 3 exterior cylinders – on the front doors and decklid/liftgate – provide quick, reliable access with a simple fleet key.

+ Available hidden rear door-lock plungers. These out-of-sight plungers are manually operable only by officers in front.

+ Available Pre-Collision Assist with Automatic Emergency Braking (AEB).⁵ Sensors help detect a potential collision with a car or pedestrian in front of the vehicle, flashing a warning on the instrument cluster and emitting an audible alert. The brakes will precharge and increase brake-assist sensitivity to provide full responsiveness when applied. If corrective action isn't taken and a collision is imminent, brakes can apply automatically. For law-enforcement demands, simply depress a button for temporary disabling.

+ Standard hands-free Bluetooth® wireless connectivity. Once paired, the Bluetooth system supports hands-free voice calling on mobile devices to help keep hands on the wheel and eyes on the road. Press a switch on the steering wheel, then speak commands.

+ Available Blind Spot Information System. Change lanes with help from available BLIS® (Blind Spot Information System) with cross-traffic alert.⁶

SAFETY & SECURITY

POLICE INTERCEPTOR® UTILITY DNA

¹The full-size spare tire secured in the factory location is necessary to achieve police-rated 75-mph rear-impact crash-test performance attributes. ²System can be configured to meet specific agency needs. For new-production ship-through, contact Crown North America at 1.800.321.4934, ext. 3425, or visit crown-na.com. For aftermarket system ordering, contact Intermotive Vehicle Controls at 1.800.969.6080, or visit intermotive.net. ³Contact 1.800.34.FLEET for panel performance specifications. Visit fleet.ford.com for more details. **Warning: As with any body armor, protection provided by the ballistic door panel is limited. Certain rounds or combinations of rounds may penetrate the panel and cause serious injury or death.** ⁴Always wear your safety belt, secure children in the rear seat and follow airbag warning label instructions. ⁵Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. Pre-Collision Assist with Pedestrian Detection detects pedestrians, but not in all conditions, and can help avoid or reduce a collision. It does not replace safe driving. See owner's manual for details and limitations. ⁶Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. They do not replace safe driving. See owner's manual for details and limitations.

HEAVY-DUTY DURABILITY

POLICE INTERCEPTOR® UTILITY DNA

IN THE NAME OF RELIABILITY AND RUGGEDNESS

Heavy-duty steering and suspension components on the Police Interceptor Utility respond in a controlled, capable manner. Electric power-assisted steering (EPAS) adjusts to vehicle speed, crowned roads and crosswinds. For smooth, predictable, high-speed handling at every turn, the front and multilink rear suspensions are fully independent – each one also incorporates a sturdy stabilizer bar to combat body lean. Helical coil springs and stiffened, gas-pressurized hydraulic shocks are made for the rigors of police work. Premium hubs and bearings are extra-large for extra-long durability. The available unique, Ford designed underbody deflector plate **A** helps divert debris and guard against scrapes – crucial to the integrity of the oil pan. The plate's shape facilitates oil-filter changes.

Heavy-duty anti-lock disc brakes contribute to extreme high performance. Police vehicles don't just need to go fast, they must halt rapidly – under control. Developed in association with the Los Angeles County Sheriff's Department and Michigan State Police, this long-wear-life system's vented rotors **B** are paired with large swept-area calipers **B** and unique pads for high thermal capacity.

Heavy-duty cooling system regulates extreme heat. The high-capacity radiator, engine oil cooler and transmission fluid cooler – working with the police-calibrated fan and grille – help optimize operation in times of pursuit or periods of idling.

Heavy-duty stylized steel wheels are teamed with police-purposed hubcaps and tires. Hefty 18" steel wheels **C** are designed to withstand the punishment of daily duty wherever the trail leads. The 5-spoke-star design lets the brakes breathe freely and stay cool. Tires **C** are constructed to maximize grip, handling, rigidity and tread wear. To keep things rolling, the spare is not only full size, it's equipped with a Tire Pressure Monitoring System (TPMS) sensor. While TPMS is a standard vehicle feature, the Utility takes it one step further with Individual TPMS, which can display exact, tire-by-tire pressure figures.

Heavy-duty 220-amp DC/DC converter on the standard 3.3L V6 Hybrid, along with the 250-amp alternator for the optional conventional powerplants, are more than up to the high demands. There's ample support for lights, radios, computers and other on-board electrical equipment.

Heavy-duty door tethers strengthen hinge action during police work. Instead of the hinges, these supplemental front-door tethers **D** absorb the weight and force of the door when opening, and were tested for structural and mechanical integrity.

Heavy-duty recovery hooks lend an assist as necessary. There's a pair of hooks built into the Class III trailer hitch receiver out back.

All kinds of heavy-duty evaluations: The Police Interceptor Utility is enhanced police durability-cycle tested. It has thoroughly undergone reverse J-turns, median crossings, 30-mph railroad crossings, 8" curb impacts, and water fording conducted to levels of 18" (at 15 mph) and 10" (at 40 mph), and more.

Designed exclusively for law-enforcement operations, the Police Interceptor Utility has 3 high-powered powertrain choices to optimize. The standard 3.3L V6 Hybrid propels at a 318 combined system net horsepower and 322 lb.-ft. of combined system net torque.¹ Generating an even more formidable 400 hp² the available twin-turbo, direct-injection 3.0L EcoBoost[®] V6 also delivers a powerful 415 lb.-ft.² flat torque curve across the rev range. Output for the optional flex-fuel 3.3L V6 is a robust 285 horses. Naturally aspirated V6 muscle employs twin independent variable camshaft timing (Ti-VCT) to help with peak power or efficiency, as conditions warrant.

Police-calibrated Intelligent AWD isn't an add-on – it's the standard mode of operation: a full-time, always-active system that continually adjusts torque distribution. And it's easy to operate: Just drive. Preemptive torque is delivered by the millisecond among all 4 wheels to help maximize traction in snow or rain, on ice or gravel, and even when maneuvering over dry pavement. Torque is allocated precisely from the front to the rear, up to 100% of available torque to either axle. There's no delay in delivery: Aggressive handling at any speed is predictable and easy. This unique AWD was co-developed with EVOC (Emergency Vehicle Operator Course) instructors for the utmost responsiveness and performance in challenging situations.

In addition, police-programmed AdvanceTrac[®] Electronic Stability Control provides the confidence to hit corners hard.³ The system constantly monitors wheel speeds, steering angle, lateral acceleration, and vehicle rotation for both the vertical yaw axis and horizontal roll axis. To help avoid skidding and fishtailing, it utilizes the Anti-Lock Brake System (ABS) and traction control whenever wheel slip, understeer, oversteer or roll motion is detected. Roll Stability Control[™] has gyroscopic sensors that check body-roll angle at least 100 times per second.

IN THE NAME OF POWER AND PURSUIT

Pulling from 70 years of expertise working alongside law enforcement, Ford really took it to the competition⁴ in the latest official testing⁵ by the Michigan State Police (MSP) and Los Angeles County Sheriff's Department (LASD). The Police Interceptor Utility 3.3L V6 Hybrid performed the finest for America's Finest in the majority of acceleration and lap-dynamics testing, topping all other makes of police utility vehicles.⁴ In sum, it bested even the V8-powered competition. And it turned in improved performance compared to the previous-generation Police Interceptor Utility outfitted with the 3.7L V6. How do you top these exceptional results? Add a Ford Police Interceptor Utility armed with the available all-environmental 400-hp² 3.0L EcoBoost V6 to your ranks. Taking MSP and LASD testing into consideration as a whole, this indomitable version doesn't just top all police utility vehicles, it even takes V8-powered sedans out of contention. It also demonstrated improved performance in comparison to the previous-generation Police Interceptor Utility equipped with the available 3.5L EcoBoost V6.

Shift points for the 10-speed automatic maximize acceleration. The transmission adapts to officer driving habits, tracking maneuvers for optimal response in cruising situations as well as pursuit mode. Police-tuned, electric power-assisted steering (EPAS) helps ensure light turning effort at low speeds. Suspension components are fine-tuned for deft maneuvering at any speed. All of which reinforce the maxim of "Just drive."

Engine and transmission components are backed by the assurance of 5 years or 100,000 miles with Ford Protect[®] PowertrainCARE (with zero deductible);⁶ there's also an 8-year/100,000-mile Hybrid Unique Component Limited Warranty. Here's further proof of the faith in dependability – backed by Ford Motor Company, honored at all Ford Dealerships, and fixed with Ford authorized parts installed by factory-trained and -certified technicians.

POLICE INTERCEPTOR[®] UTILITY DNA

TOTAL PERFORMANCE

3
FUTURE-FORWARD POWERTRAINS, EMPLOYING SMART 10-SPEED AUTOMATIC TRANSMISSIONS AND LIFETIME FUEL FILTERS, OFFER DISTINCT PERFORMANCE ATTRIBUTES AND EFFECTIVENESS

¹Calculated via combined performance of the engine and electric motor(s) with peak battery power. The calculations utilize SAE J1349[®] engine results and Ford electric motor dyno testing. Your results may vary. ²Horsepower and torque ratings based on premium fuel per SAE J1349 standard. Your results may vary. ³Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. Visit fleet.ford.com for more information on AdvanceTrac Electronic Stability Control or AdvanceTrac with RSC[®] (Roll Stability Control). ⁴Excludes other Ford models. ⁵Based on Michigan State Police and Los Angeles County Sheriff's Department test results for the 2019 calendar year. ⁶The earlier of 5 years or 100,000 miles with PowertrainCARE coverage is a Ford Protect extended service plan – with a zero deductible – that's standard on Police Interceptor Utility, except in Florida and New York, where it is the earlier of 5 years or 100,000 miles with a PowertrainCARE Limited Warranty. See your dealer for full details. In Texas, a Ford Protect extended service plan is a Service Contract from Ford Motor Service Company (License #SCP-165). ⁷Electronically limited in police powertrain calibrations.

PURPOSE-BUILT

POLICE INTERCEPTOR® UTILITY DNA

IN THE NAME OF FORM AND FUNCTION

No surrendering of space. Total interior volume is 170.0 cu. ft., passenger volume is a full 118.0 cu. ft., and cargo volume behind the 2nd row is a generous 52.0 cu. ft. – even with the addition of the hybrid's battery pack, which is located under the vehicle. Dual-zone electronic automatic temperature control (DEATC) helps maintain different preferred comfort levels. And comfort can be optimized with the tilt-and-telescoping steering column.

Free up space for a tidy workplace. The available factory-installed 12.1" Integrated Computer Screen **A** is stationed within easy reach and clear view at the top of the center stack. This smart touchscreen allows portable computers to be stored out of the way, freeing up valuable room in the front row of the cabin. (See page 6 for more details.)

Ergonomic front seats are made for both comfort and calls to action. The driver's seat is 6-way powered and lumbar support is manually adjustable; both benefits are available for the front-passenger seat. The premium foam padding in each front seat is specially sculpted for officers' utility belts **B**, making it easier to buckle in safely, comfortably and effortlessly – even when packing a sidearm. Side bolsters are slim-styled, as is the high-strength-steel B-pillar, to address the frequent entering and exiting of the cabin every shift. Front seat fabric is ultra-durable, with seat wear resistance against gun butts and duty belts test-proven to be long-lasting. Anti-stab plates in the seat backs provide an added measure of got-your-back reassurance.

The rear seat doesn't take a back seat to attention. Wide-opening rear doors make 2nd-row ingress/egress a no-problem matter. The simplified rear-door closeout panels have no map pockets or cupholders, reducing opportunities to hide contraband. Available hidden door lock plungers, accessible only from the front-row door jams, are manually activated to secure occupant containment in back. Rear seats come covered in durable vinyl **C**. The optional Police Interior Upgrade Package includes a carpeted floor, carpeted floor mats, a center floor console with cupholders, and a heavy-duty cloth rear seat.

Details that matter. The column-mounted shifter frees up the center console. The certified speedometer (also available in digital format) provides at-a-glance readouts. To help with vehicle maintenance, track engine hour usage and engine idle hour usage through the odometer. The cluster LCD screen is operated by 5-way steering wheel-mounted controls, while the 4.1" center stack screen is controlled by the radio ECP buttons. Stealthy red/white task lighting **D** helps keep operations under wraps. Flooring throughout is covered in heavy-duty vinyl for easy clean-up.

Simplified access measures. The liftgate release **E** is finger-touch-activated, operating on a 45-second timer for added security to help protect valuables in the rear cargo area; and a global lock/unlock for the doors and liftgate is a no-charge option when extra security isn't required. Every Police Interceptor Utility comes with a set of 4 simple fleet keys, making for a cost-effective strategy: The availability of keyed-alike sets allows use of just a "single key" for the entire fleet. And since the key doesn't have a microchip, replacement costs are minimized. Optionally, the Remote Keyless Entry System includes 4 pre-programmed key fobs.

Plus, a built-in modem with a complimentary 2-year subscription to Ford Telematics™ for law enforcement.† This powerful and purpose-built solution helps promote officer safety and increase fleet efficiency through secure access to real-time data. (See page 10 for more details.)

IN THE NAME OF CUSTOMIZING AND CONVENIENCE

To help dramatically reduce upfitting time, Ford offers optional, compatible, factory-direct police equipment that's first-rate. Save administrative time, shop time and vehicle downtime with expert factory installation, utilizing components available individually or in complete packages; everything is verified exactly as part of the Ford Quality System. Crash testing, cycle testing, vibration, severe temperature, humidity and corrosion are evaluated extensively. All parts – such as the available Ready-for-the-Road Package system controller **A** – are validated to vehicle manufacturer safety standards and backed by Ford Dealers and authorized Ford Fleet maintenance facilities; they're also covered under the Ford factory warranty.¹ For technical information that can be used as a checklist to help ensure important steps in the modification process are considered, **download an official Ford Police Modifiers Guide at fordpolicevehicles.com.**

Everything in its place. A standard 9"-wide front console mounting plate **B** is a solid foundation for attaching aftermarket equipment and channeling wiring; space actually measures a wide-open 11" between the driver and front-passenger seats. To streamline upfitting, a rear console plate **C** is available to interface with the front plate. It extends through the 2nd-row occupant area, acting as a wiring conduit on top of the transmission tunnel – providing a path from the instrument panel center stack, all the way into the rear cargo area. There's also the option of a rear-center seat section delete. A pair of 50-amp battery power circuits are included with the standard power distribution junction block in back. The column-mounted shifter **D** is a durable space-saver, freeing up the center-console space to make way for police equipment and ensuring accurate, reliable shifting. Up front, the reinforced universal top tray **E** is centrally located for mounting radar equipment or ticket printers.

Standard, customizable auxiliary control buttons, supported by a remarkable electrical system. Help keep distraction to a minimum while performing police tasks on the go: 4 user-configurable latching switches **F** are integrated on the steering wheel. These standard switches connect the driver with installed equipment, including lights, sirens, speakers, K9 door releases and other police applications, while helping keep hands on the wheel and eyes on the road. Whatever the need, grounded outputs are onboard for use with the switches, plus 12-volt powerpoints **G** are easily accessed in both the front-passenger cabin and rear cargo area. And the standard Police Interceptor Utility – with its unique hybrid system – comes with a substantial 220-amp DC/DC converter to handle the gamut of on-board electrical equipment; Police Interceptors ordered with other optional powerplants feature an impressive 250-amp alternator in lieu of a converter.

Shining array of available lighting solutions are tailored specifically to this Police Interceptor Utility. Headlamps are automatic on/off and feature LED low- and high-beam functions, with factory-integrated wig-wag functionality and pre-drilled holes for user-installed warning strobes. Intense, long-lasting LEDs provide optimum visibility and heads-up performance. They fully comply with SAE Emergency Lighting Standards. (See pages 42-43 for full lighting solutions.)

The available vault acts undercover. Positioned on the driver's side of the cargo area, this lockable vault **H** is a convenient place to store ammo and small weapons, seized firearms, drugs, and/or other assorted small goods and paraphernalia. Speaking of undercover, opt for the available exterior police badging delete, and then clip on a set of available full-face wheel covers to create a stealth-like appearance for administrative, detective and investigative ops.

POLICE INTERCEPTOR® UTILITY DNA

STANDARD FEATURES

- 4.2" color LCD screens including digital speed readout in police instrument cluster and center stack "smart display"
- 11" space between driver's seat and front-passenger seat for aftermarket consoles
- 12V powerpoint in 1st row
- 50-state emissions system
- 75-mph rear-impact crash tested¹
- AdvanceTrac® with RSC® (Roll Stability Control™)
- All-wheel drive (AWD)
- Alternator – 250-amp (3.3L Gas and 3.0L EcoBoost®)
- Audio – AM/FM stereo with Bluetooth® interface, USB port, MP3 capability, clock and 6 speakers
- Badge – Police Interceptor
- Battery – H7 AGM (80-amp-hr/800-CCA) (3.3L Hybrid)
- Battery – H7 SLI (80-amp-hr/730-CCA) (3.3L Gas and 3.0L EcoBoost)
- Battery Pack – Lithium-ion (3.3L Hybrid)
- Built-in steel intrusion plates in both front seat backs
- Cargo area – Flat load floor
- Class III trailer hitch receiver with 5,000-lb. towing capacity, Trailer Tow Lighting Package, and 2 recovery hooks
- Climate controls – Dual-zone electronic automatic temperature control
- Column-mounted shifter
- Console mounting plate – Front
- Cooling system – Heavy-duty
- Cruise control
- Dash pass-through for aftermarket wiring
- DC/DC converter – Heavy-duty 220-amp (3.3L Hybrid)
- Door-sill scuff plates – Front and rear
- Easy Fuel® capless fuel filler
- Electric power-assisted steering – Heavy-duty
- Engine – 3.3L V6 Hybrid System with lithium-ion battery pack
- Engine-hour meter
- Engine-idle-hour meter
- Exterior key locks – Front doors and liftgate

- Fleet key – Low-cost replacement (includes 4 keys)
- Flooring – Heavy-duty vinyl
- Ford Telematics™ with built-in modem and complimentary 2-year subscription²
- Full-size spare wheel and tire with TPMS
- Glass – Solar-tinted front row; privacy glass on all rear windows
- Headlamps – LED low and high beams with Autolamp, integrated wig-wag functionality and pre-drilled holes for user-installed warning strobes. Wig-wag factory-configured as traditional "ping-pong" with 2 additional programmable modes.
- Headliner – Easy-to-drop
- Independent front and rear suspensions
- Liftgate release switch – Overhead console
- Mirrors – Power sideview, manual foldaway with integrated blind spot mirrors
- Power distribution junction block with two (2) 50-amp battery power circuits
- Power door locks
- Power windows with front one-touch-up/-down and disable feature
- Powertrain mounts – Heavy-duty
- Rear View Camera with washer
- Rear-window defroster
- Red/white map lights – 1st row
- Redundant digital speedometer display
- Seat – Front heavy-duty cloth, 6-way power driver's with manual lumbar
- Seat – Front heavy-duty cloth passenger
- Seat – Rear vinyl 35/30/35 split-fold bench
- SOS Post-Crash Alert System™
- Taillamps – LED
- Tilt/telescoping steering column
- Tires – 255/60R18 all-season BSW
- Transmission – 10-speed automatic (police-calibrated)
- Universal top tray for police equipment
- Wheels – Heavy-duty 18" 5-spoke steel

STANDARD SAFETY & SECURITY

- Advanced, ultra-high-strength boron steel in the A-, B- and C-pillars
- Airbag – Front-passenger knee
- Airbags – Front-seat side, plus Safety Canopy® System with side-curtain airbags and rollover sensor
- Brakes – 4-wheel heavy-duty disc with Anti-Lock Brake System (ABS) (police-calibrated)
- Personal Safety System™ for driver and front passenger with dual-stage front airbags³
- Regenerative Braking System (3.3L Hybrid)
- Tire Pressure Monitoring System (TPMS); features a true-location Individual TPMS
- Traction control

DRIVETRAIN

- Police Interceptor Utility (AWD) – Standard K8A

POWERTRAINS

- 3.3L V6 Direct-Injection Hybrid Engine System with 10-Speed Automatic Transmission (top speed 136 mph) 99W/44B
- 3.3L V6 Direct-Injection with 10-Speed Automatic Transmission (top speed 136 mph) 99B/44U
- 3.0L V6 EcoBoost with 10-Speed Automatic Transmission (top speed 148 mph) 99C/44U

WHEELS

- Standard: Set of 5 heavy-duty 18" 5-spoke steel wheels with center caps (5th wheel is full-size spare)

- Optional: Set of 4 18" full-face wheel covers with metal clips (65L)

- Optional: Set of 4 18" painted aluminum wheels (64E)

EXTERIOR COLORS

Oxford White (YZ)	Smokestone* (HG)	Arizona Beige* (E3)	Medium Brown* (BU)

INTERIOR COLOR

Charcoal Black heavy-duty cloth (standard for front row, optional for rear row)	Charcoal Black heavy-duty vinyl (standard for rear row)

Because of occasional variations in printing, consult your Ford Dealer to ensure the true color choice you make is correct. Colors shown are representative only. See your dealer for actual paint/trim options. Visit fleet.ford.com for more information on colors and special paint options.

¹The full-size spare tire secured in the factory location is necessary to achieve police-rated 75-mph rear-impact crash-test performance attributes. ²2-year subscription for Ford Telematics starts on vehicle sales date. Subscription features may be limited. Factors causing this limitation may include, but are not limited to, issues related to cellular coverage, carrier outages and carrier network service interruptions. Complimentary service ends after 2 years. ³Includes dual-stage front airbags, safety belt pretensioners, safety belt energy-management retractors, safety belt usage sensors, driver's seat position sensor, crash severity sensor, restraint control module and Front-Passenger Sensing System.

STANDARD FEATURES

SuperCrew® 4x4 with 5.5' box

12V powerpoints, front (2)

AdvanceTrac® with RSC® (Roll Stability Control™) and Curve Control

Airbags – Front-seat side and Safety Canopy® System with side-curtain airbags and rollover sensor

Alternator – 240-amp

Audio – AM/FM stereo with 6 speakers

Autolamp (Automatic On/Off Headlamps)

Belt-Minder® front safety belt reminder

Brakes – Upgraded power 4-wheel vented disc with Anti-Lock Brake System (ABS)

Built-in steel intrusion plates in both front seat backs

Cargo box tie-downs (4)

Class IV trailer hitch receiver

Electronic shift-on-the-fly (ESOF)

Engine – 3.5L EcoBoost® V6

Engine-hour meter

Engine-idle meter

Fleet Telematics™ modem¹

Flooring – Black vinyl

FX4 Off-Road Package² includes electronic-locking rear axle, Hill Descent Control™ off-road-tuned shock absorbers, and skid plates on the fuel tank, transfer case and front differential

Mirrors – Power sideview

MyKey®

Perimeter alarm

Personal Safety System™ for driver and right-front passenger with dual-stage front airbags

Power lug located underneath rear seat to accommodate Police upfitting; one (1) 80-amp battery ground circuit

Power windows and door locks

Rear View Camera with Dynamic Hitch Assist

Red/white task lighting in overhead console

Remote Keyless Entry System

Seat – Police-grade cloth, 8-way power driver's seat and 4-way manual front-passenger seat with center seat section deleted (40/blank/40 front seats)

Seat – Front-seat rear map pockets delete

Seat – Rear vinyl bench

SecuriLock® Passive Anti-Theft System

SOS Post-Crash Alert System™

Speedometer – Police-calibrated

Steering column-mounted shifter

SYNC® with 1 smart-charging USB port

Tire Pressure Monitoring System (excludes spare)

Tires – LT275/65R18 all-terrain OWL

Trailer Sway Control

Transmission – 10-speed SelectShift® automatic with Selectable Drive Modes: Normal, Tow/Haul, Snow/Wet, EcoSelect and Sport

Universal top tray (center of instrument panel) for mounting of police equipment

Wheels – 18" 6-spoke machined aluminum with Magnetic-painted pockets

ENGINE

ENGINE	Transmission (with progressive range select and tow/haul mode)	Horsepower (hp @ rpm)	Torque (lb.-ft. @ rpm)
3.5L EcoBoost 4-valve V6	10-speed SelectShift automatic	375 @ 5,000	470 @ 3,500

F-150 Police Responder was designed and developed to meet the same federal fuel system crash standards as retail vehicles and other manufacturers' police vehicles. Ford Police Interceptor® Utility is the only vehicle on the market designed for the 75-mph rear-impact crash test.

AVAILABLE PACKAGE²

Trailer Tow Package (53A)

AVAILABLE FEATURES

Backup alarm system (85H)

Bed divider (90D)

Black platform running boards (18B)

BoxLink™ with 4 premium locking cleats (55B)

Box side steps (63S)

Bumpers – Chrome, front and rear (17C)

Daytime running lamps – Non-configurable (942)

Engine block heater (41H)

Fixed rear window with privacy glass and defroster (924/57Q)

Fog lamps (595)

Integrated trailer brake controller (67T)

LED warning strobes (Red/Blue 94R; Amber 94S)

Mirrors – Manually folding, power, heated sideview with integrated turn signal indicators, high-intensity LED security approach lamps, LED spotlights, driver's side auto-dimming feature, and black mirror caps (54R/59S)

Mirrors – Manually folding/telescoping trailer tow with power, heated glass; integrated turn signal indicators; high-intensity LED security approach lamps; LED spotlights; and black mirror caps (54Y/59S)

Plastic drop-in bedliner (96P)

Pre-Collision Assist with Automatic Emergency Braking (AEB) (43P)

Reverse Sensing System (76R)

Seat – 10-way power front-passenger (61P)

Stowable bed extender (63E)

Stowable loading ramps (90R)

Tailgate step includes grab bar and tailgate lift assist (63T)

Front Headlamp Lighting Solution (66A). Includes base headlamps with LED high- and low-beam wig-wag function and LED side warning lights (driver side red/white; passenger side blue/white).

Side marker LED lamps – Rear quarter glass (63L). Features backlit flashing, linear high-intensity LED lamps.

Side marker LED lamps – Sideview mirror (63B). Features backlit flashing, linear high-intensity LED lamps.

Taillamp Lighting Solution (66B). Includes halogen base lamps, plus (2) integrated hemispheric lighthouse LED side warning lights.

Rear Lighting Solution (66C). Includes (2) backlit flashing, linear high-intensity LED lights (driver side red; passenger side blue) with surround cover mounted inside the liftgate glass. **Police liftgate lights.** Features (2) backlit flashing, linear high-intensity LED lights (driver side red; passenger side blue) mounted inside the liftgate lip; lights activate when liftgate is open.

Front warning auxiliary lamps (21L). Features integrated, custom-designed LED assemblies.

Front Interior Visor Light Bar (96W). Includes (2) backlit flashing, linear high-intensity LED lights (driver side red; passenger side blue) mounted inside the windshield glass. Lights can be programmed for tricolor (red, white, blue) patterns.

Rear auxiliary liftgate lights (43A). Features backlit flashing, linear high-intensity LED lights (driver side red; passenger side blue) mounted just above the license plate.

Rear spoiler LED traffic warning lights (96T). Includes (2) backlit flashing, linear high-intensity LED lights (driver side red; passenger side blue) mounted on the edge of the rear spoiler. Lights can be programmed for tricolor (red, blue, amber) patterns; also features amber-only traffic direction mode.

POLICE INTERIOR UPGRADE PACKAGE

Available on Police Interceptor Utility (65U)

- Cloth rear seat** – Heavy-duty fabric
- Center floor console** – 2 cupholders and unique finish
- Front and rear floor mats** – Carpeted and custom-fit
- Front and rear carpeted floor covering** – Premium-grade

READY-FOR-THE-ROAD PACKAGE

Available on Police Interceptor[®] Utility (67H)²

- A.** Front Headlamp Lighting Solution
- B.** Grille LED lights
- C.** Taillamp Lighting Solution
- D.** Rear Lighting Solution
- E.** Front console mounting plate
- F.** Rear console plate
- G.** Hidden door-lock plungers/rear door handles inoperable
- H.** Control system
- I.** 100-watt siren/speaker

Whelen CenCom relay center/siren/amp with Traffic Advisor

Light controller/relay CenCom wiring (wiring harness) with additional input/output pigtails

High-current pigtail

Whelen specific WECAN cable connects CenCom to control head

Pre-wiring for grille LED lights, siren and speaker

Overlay wiring harness, grille LED lights, siren and speaker wiring, and control power harness

Front Headlamp Lighting Solution. Includes base headlamps with high-beam wig-wag function and (2) LED side warning lights (driver side red/white; passenger side blue/white).

Grille LED lights. Includes (2) backlit flashing linear high-intensity LED lights (driver side red; passenger side blue).

Taillamp Lighting Solution. Includes halogen base lamps and (2) integrated hemispheric lighthead white LED marker lights.

Rear Lighting Solution. Includes (2) backlit flashing, linear high-intensity LED lights (driver side red; passenger side blue) with surround cover mounted inside the liftgate glass and (2) backlit flashing, linear high-intensity LED lights mounted inside the liftgate lip.

Front console mounting plate. Solid foundation for attaching aftermarket equipment and channeling wiring. Measures 9" wide, with 11" between the driver and front-passenger seats.

Rear console plate. Interfaces with front console mounting plate and extends through 2nd-row occupant area to seat bottom (acting as wiring conduit on top of transmission tunnel).

Hidden door lock plungers. Manual lock rod with inoperable rear door handles.

Control system. Includes CenCom controller, control head, and wire.

100-watt siren/speaker. Includes wire.

Wiring harness. Includes (2) light connectors that support up to (6) LED lights each (engine compartment); (2) grille LED light connectors; and (1) 10-amp siren/speaker circuit (engine to cargo area).

Confidence in the capability of police equipment authorized by Ford. Components and installations are verified through the comprehensive Ford Quality System for exacting evaluation in terms of crash testing, cycle testing, vibration testing, hot/cold testing, humidity testing, corrosion testing and the like.

STAND-ALONE OPTIONS

Available on Police Interceptor® Utility

- A. Auxiliary air conditioning (17A)** – Offers climate control for the rear cargo area
 - B. Cargo area storage vault (63V)** – Lockable and ideal for contraband/small arms; located on the driver's side of the cargo area
 - C. Rear console plate (85R)** – Interfaces with front console mounting plate and extends through 2nd-row occupant area to seat bottom; acting as wiring conduit on top of transmission tunnel

 - F. Rear quarter glass side marker LED lamps¹ (63L)** – Wide-angle, backlit flashing, linear high-intensity
 - G. Sideview mirror side marker LED lamps¹ (63B)** – Backlit flashing, linear high-intensity
- Ultimate Wiring Package (67U)** – Includes rear console mounting plate; pre-wiring for grille LED lights, siren and speaker; and much more
- OBD-II Split Connector (61B)** – Allows up to 2 devices to be connected to the OBD-II port
- Pre-wiring for grille lamp, siren and speaker²** – Electrical harness inlay (14290) includes: (2) light connectors that support up to (3) LED lights each (in engine compartment), (1) grille LED light connector that supports (2) LED lights, and (1) front driver's side speaker siren cable (not shown)

VSO provides special paint and equipment options that are not currently available through regular – fleet-only – production. VSO offers a means of creating customized solutions that can meet the unique requirements of your force.

VSO color and equipment availability.³ VSO can provide a variety of unique paint finishes. In addition, VSO lighting packages and options – such as those listed at right – offer a distinctive appearance and help ensure adherence to state law requirements.

New option development (VSO inquiries). Establishing new VSO options is initiated by a customer request called a “VSO inquiry.” Your dealer representative will submit the VSO inquiry. All requests are received, reviewed and approved by the VSO department to ensure the end product is compatible with regular and limited options. The end product must also meet Ford Motor Company standards of quality, durability, safety and performance.

Production timing. If you add existing VSO options to your vehicles, the process takes 60-90 days to go from order receipt to production. For newly created VSO options, please include the development timing provided within the inquiry response. For your fleet planning purposes, VSO production typically begins a month after Job One and balances out a month prior to Job Last.

To help you plan better, please visit fleet.ford.com/orders/vehicle-special-order before ordering, to view the most current VSO options.

SMART FUNDING

Many public agencies are discovering that Municipal Lease/Purchase Financing is today's answer to acquiring essential equipment within limited budget confines – without major cash outlays, long-term debt obligations or, in most cases, voter approval.

HERE'S HOW IT WORKS

- Fixed-rate financing helps you get the vehicles you need when you need them, while sticking to your current budget
- Flexible repayment terms – monthly, quarterly, semiannually and annually
- Finance add-on equipment, upfits and extended-warranty plans
- Equity is accumulated with each payment, and ownership is realized with a final payment of \$1

FOR YOUR BENEFIT

- Avoid high costs of maintaining older equipment
- Tax-exempt interest rates
- No down payment or security deposit required
- No mileage restrictions
- No maintenance or return provisions
- Access to the latest technologies

WE'RE HERE FOR YOU – JUST CALL 1.800.241.4199

- If you have any questions, call and speak to a Ford Credit Marketing Coordinator
- Let our team help you acquire the equipment you need – when you need it
- We can provide you with a payment quotation quickly so you can make a timely decision and focus on what's important: your municipality
- Visit us online at <https://www.ford.com/finance/commercial-financing/municipal>

HOW MUCH EQUIPMENT CAN YOU GET FOR \$150,000?¹

Option A: Purchase Today for Cash

Option B: Ford Credit Municipal Lease/Purchase Financing

Ford Motor Credit Company ("FMCC") is providing the information contained in this document for discussion purposes only in connection with a proposed arm's length commercial leasing transaction between you and FMCC. FMCC is acting for its own interest and has financial and other interests that differ from yours. FMCC is not acting as a municipal advisor or financial advisor to you, and has no fiduciary duty to you. The information provided in this document is not intended to be and should not be construed as "advice" within the meaning of Section 15B of the Securities Exchange Act of 1934 and the municipal advisor rules of the SEC. FMCC is not recommending that you take an action and you should discuss any actions with your own advisors as you deem appropriate.

FORD PROTECT® IS AVAILABLE FOR ALL FORD SPECIAL SERVICE VEHICLES

Upgrade your protection: Select the extended warranty that best suits your needs. There are 4 plans available that wrap around or extend the powertrain warranty – PowertrainCare, BaseCare, ExtraCare, PremiumCare – with comprehensive coverage for up to 8 years and 150,000 miles on new vehicles. In addition, drop-off first-day rental is included on all plans.

FORD COLLISION PARTS

Dependability is crucial. To do your job, you depend on every piece of your equipment to function as it was designed. The same goes for your police unit, and if you're ever in an accident, you can depend on Ford Collision Parts: sheet metal, bumpers and lights to help restore your vehicle to pre-accident condition. Ford Collision Parts are equal in quality, fit and structural integrity to the original parts that came on your vehicle because they are the same parts used in the production of new vehicles. Designed, engineered, and produced by Ford Motor Company to meet Federal Motor Vehicle Safety Standards. Cheap imitation parts can't make that claim. So don't settle for anything less dependable than Ford Collision Parts.

FORD FLEET CARE

Ford Fleet Care is a centralized billing service you can use to make a single monthly payment on behalf of your entire fleet for maintenance and repairs performed at participating Ford Dealers and Quick Lane® Tire & Auto Centers. Over-the-counter parts purchases at participating Ford Dealers can also be included. There is no enrollment fee, no per-vehicle fee and no administration fee for warranty-covered repairs. Plus, you preset your drivers' spending limits, which cannot be exceeded without your approval. Visit fleetcare.ford.com or call 1.800.367.3221 for more information.

ELITE POLICE ADVISORY BOARD (PAB)

An industry first. Acting as a liaison and resource for law-enforcement agencies nationwide, the Elite Police Advisory Board provides frank and direct feedback on the products, programs and policies of Ford. These standout officials help refine current vehicles and create future offerings. Input on safety, reliability and durability is essential to serving unique operational needs, and proves invaluable to the ongoing development of Ford law-enforcement vehicles. Please visit fleet.ford.com for more PAB specifics.

Non-original equipment can adversely impact vehicle crash performance. For example, push-bars could adversely affect airbag deployment in frontal impacts, and prisoner barricades could result in head and neck trauma in high-speed rear impacts. Due to the variability of equipment installed, based on individual law-enforcement agency requirements, Ford does not test aftermarket equipment for functionality with Ford components. Law enforcement must balance needs for function and other officer safety concerns when equipping police vehicles with non-original equipment.

Some features discussed may be optional. Vehicles throughout this brochure may be shown with optional features and/or aftermarket equipment. Features shown may be offered only in combination with other options or subject to additional ordering requirements or limitations. Information in this brochure was developed from Order Guides as of July 2020. Following publication of this brochure, certain changes in standard equipment, options and the like, or product delays may have occurred which would not be included in these pages. • Always wear your safety belt, secure children in the rear seat and follow airbag warning label instructions. • SYNC®: Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. • For more information, visit fleet.ford.com. • Ford Motor Company reserves the right to change product specifications at any time without incurring obligations. Comparisons based on competitive models, publicly available information and Ford certification data at time of printing. • King Ranch is a registered trademark of King Ranch, Inc. • The Bluetooth word mark is a trademark of the Bluetooth SIG, Inc. • Unity is a registered trademark of Unity Manufacturing Co. • Whelen is a registered trademark of Whelen Engineering Co., Inc.
