

09 HYUNDAI_FULL LINE

ARE WE THERE YET?

It's a common sentiment among children riding in the back seat, but you may be surprised to learn it's also the way we approach making cars here at Hyundai. We're always asking ourselves if our vehicles are as good as they can possibly be. Are the engines smooth enough? Is the design stylish enough? Is the performance inspiring enough? Are the emissions low enough? Is the vehicle safe enough? In the end the answer is yes. And no. Because as proud as we are of our vehicles, as impressively as they perform, as handsomely as they're styled and as safe as they unquestionably are, we're simply never satisfied. As a driver, you deserve nothing less. Think about it.

A choice of powerful engines propel it with astonishing ferocity. Lexicon® DVD audio delivers audiophile-quality sound. The rear-wheel-drive architecture featuring a 5-link suspension with SACHS® amplitude selective damping makes it amazingly fun to drive. A cooled driver seat offers incredible comfort. And it comes with a bevy of technological wizardry and state-of-the-art safety equipment. The perfect sports sedan? Perhaps.

The Genesis isn't just the best-appointed Hyundai, it's good enough to be judged against established luxury marques. — *CarandDriver.com*, August 2008

09 HYUNDAI _GENESIS

PERFORMANCE

With a 4.6-liter V8 engine capable of producing a breathtaking 375 horsepower and 333 lb.-ft. of torque, the Genesis is able to launch itself from 0-60 in just 5.7 seconds.¹

PROXIMITY KEY

With this key comfortably in your pocket, the doors lock and unlock with just the push of a button on the door handle, and the engine sparks to life with push-button start as well.

PARKING ASSISTANCE

A series of sensors in the front and rear alerts you to the presence of objects, and the rear-view camera allows you to see below eye level, enabling you to back out safely.

MULTIMEDIA CONTROLLER

Gain instant command over a variety of functions, including audio, navigation and telecommunications, and customize a myriad of settings with the Driver Information System.

09 HYUNDAI _AZERA

LG® NAVIGATION

Lewis had Clark, you have this. Azera's in-dash, touch-screen navigation system gives you convenient turn-by-turn voice prompts, ensuring you'll never have to ask for directions again.

RAIN-SENSING WINDSHIELD WIPERS

This system uses an infrared beam to detect when it's raining. When water hits the windshield, the wipers activate automatically, and even adjust to compensate for the level of rainfall.

INTEGRATED MEMORY SYSTEM

You're 6'2" with long arms. The valet is 5'4" with short legs. No problem. Set your seat, steering wheel and side-mirror positions, then recall them with the touch of a button.

POWER REAR SUNSHADE

This ingenious device remains elegantly tucked away until you're ready to deploy it. It's perfect for keeping your Azera's interior cool and your rear passengers content.

Luxury and comfort are words that are bandied around quite a bit these days, but making a claim and delivering on it are two different things. Thankfully the Azera is squarely in the latter category. With more interior space than the BMW 7 Series, a 3.8-liter V6 that delivers 263 horsepower and state-of-the-art safety technologies, every drive in your Azera will remind you of your uncanny ability to recognize a good thing when you see it.

...its high-quality interior materials, luxurious trappings and solid overall construction come together in a cohesive package that feels like the work of a true premium brand. – *Edmunds.com*

The Sonata is all about getting more. More total interior volume than Camry or Accord. More standard safety features, like Electronic Stability Control and active front head restraints. More technology, like an engine that delivers a partial zero emissions (PZEV) rating along with better mileage than its aforementioned Toyota and Honda counterparts. The only thing that's less is the price.

With a brand-new interior and improved engines, the 2009 Hyundai Sonata re-establishes itself as a serious contender in the cutthroat midsize family sedan segment. – *Edmunds.com*

09 HYUNDAI SONATA

EFFICIENT ENGINES

The Sonata is unsurpassed in its class in fuel economy, with your choice of a 3.3-liter V6 that achieves 29 MPG, or a 2.4-liter, PZEV-rated 4-cylinder engine that gets an impressive 32 MPG².

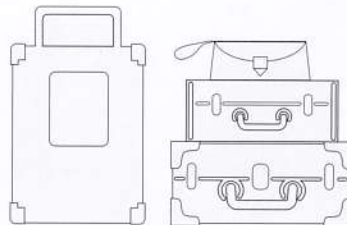

THE SPORTY SE

Enjoy a sport-tuned suspension that features stiffer spring rates, front and rear stabilizer bars and unique strut valving, along with a rear spoiler and 17-inch wheels with performance tires.

IN-DASH NAVIGATION

Now you can easily find virtually any destination. The bright, 6.5-inch color touch-screen clearly displays your route, while the system guides you with turn-by-turn voice prompts.

MOST INTERIOR VOLUME

Even though Sonata competes in the midsize segment, it's so spacious that the EPA classifies it as a "large" car. Which means you get loads of head and leg room for you and your entire family.

09 HYUNDAI _ELANTRA

GO GREENER

You can feel you're doing your bit for the planet every time you drive your new Elantra, thanks to its frugal 33 MPG on the highway and emissions low enough to meet the partial zero emissions vehicle (PZEV) standard.³

ELANTRA TOURING

It's where roominess meets sportiness. With class-leading passenger and maximum cargo capacity, a sport-tuned suspension and loads of standard safety features, it can gobble up gear as well as asphalt.

AUDIO SOPHISTICATION

When it comes to sound, Elantra's got you covered. 172 watts of power, XM® Satellite Radio,¹³ an auxiliary input jack for MP3 players like the iPod®, and steering-wheel-mounted audio controls. Who's ready for a road trip?

POWER SUNROOF

Driving is always a little more fun with the wind in your hair. So get some fresh air en route to the office. Simply touch the control to open the power sunroof and let the sunshine into your daily commute.

AUDIO SOPHISTICATION

When it comes to sound, Elantra's got you covered. 172 watts of power, XM® Satellite Radio,¹³ an auxiliary input jack for MP3 players like the iPod®, and steering-wheel-mounted audio controls. Who's ready for a road trip?

Not only does the compact Elantra have more total interior volume than competing compacts, like the Honda Civic and Toyota Corolla, it has so much more room that it's classified as a "midsize" car by the EPA, the same class as the Lexus ES 350. You'll also enjoy six standard airbags, Electronic Stability Control, anti-lock brakes and excellent fuel efficiency: 25 miles per gallon city / 33 highway.⁴

It's a great leap forward in automotive evolution.

— AUTOMOBILE Magazine

We don't like to think of our Accent as an entry-level car, because it certainly doesn't behave like one. Consider that the GS and SE 3-doors lead their class in horsepower, as well as total interior space. There's also a 4-door GLS to satisfy all of you sedan lovers out there. And when it comes to safety, we don't pull any punches, or airbags, because you get six of them – standard, of course. All starting around \$11,000.

SE models get a neat B&M® shifter and sport-tuned suspension. That helps balance out the 110-hp engine and makes the Accent a blast to toss around. – *AUTOMOBILE Magazine*

09 HYUNDAI _ACCENT

ACCESSORIES

Can a car be as unique as the person driving it? With scores of accessories to choose from, you can transform your Accent 3-door into a rolling expression of your individuality.

172-WATT AUDIO SYSTEM

A multi-speaker, 172-watt audio system brings your drive and ears to life with crystal-clear XM® Satellite Radio,¹³ an in-dash CD/MP3 player and a convenient auxiliary input jack.

SPORT SHIFTER

If you opt for the SE 3-door, you'll be treated to a leather-wrapped B&M Racing® Sport Shifter. This stylish yet functional design makes for quick shifts and sharp looks.

CRUISE CONTROL

Long trips on the interstate just got a lot more comfortable, thanks to available cruise control with steering-wheel-mounted controls for easy fingertip adjustment.

LG® NAVIGATION

Veracruz's LG in-dash navigation system ensures you'll never have to ask for directions again. Simply enter your desired address, and the turn-by-turn voice prompts lead you merrily on your way to your destination.

POWER TAILGATE

The power tailgate is indispensable when your arms are loaded with grocery bags or golf clubs. It opens and closes at the touch of a button, leaving your hands free and making loading and unloading cargo a snap.

PROXIMITY KEY

This convenient device can actually sense when you're near your Veracruz, and allows you to lock and unlock your doors, as well as start the engine, without ever removing your key from your pocket or purse.

APPROACH LIGHTS

These convenient lights are integrated into both side mirrors to illuminate the ground below when you unlock the doors, making you aware of any obstacles that may be nearby when you are entering or exiting.

The Veracruz is full of amenities you would expect to find on a luxury SUV from Lexus, Cadillac or Infiniti. Things like rain-sensing wipers, a backup warning system, XM® Satellite Radio¹³ and a power tailgate. Plus you get standard seating for seven, an available rear-seat DVD entertainment system and safety features galore, including Electronic Stability Control. All for thousands less than those other luxury names.

Winner of AutoPacific's® 2008 Best in Class Vehicle Satisfaction Award
for Large Crossover SUV.⁵

When you look up “versatility” in the dictionary, don’t be surprised if you see a picture of the Santa Fe. It has a 3.3-liter V6 engine that pumps out 242 horsepower. An available all-wheel-drive system. And enough standard safety features to make it a “2008 Top Safety Pick” of the Insurance Institute for Highway Safety⁶ – again. Add a beautifully appointed cabin, available seating for seven and, well, we think you get the picture.

“The Santa Fe does its best work around town. Its style and comfort feel like an SUV that should cost thousands more.” – *Edmunds.com*

09 HYUNDAI _SANTA FE

INFINITY LOGIC 7 AUDIO

The Infinity® Logic 7® surround sound audio system, with an in-dash six-disc CD changer with MP3-compatible playback, features 605 watts of power and 10 speakers for scintillating sound wherever you go.

ONE-TOUCH ADJUSTABLE ROOF RACK

The cross rails on this roof rack are so effortless to adjust, only one finger is required. Now, getting large-sized boxes and other cargo to fit snugly on your Santa Fe's roof is as easy as 1...well just 1.

HYUNDAI HIDEAWAY SEATS

It's hard to figure what the Santa Fe is more suited for, people or cargo. But thanks to available third-row Hyundai Hideaway™ seats that fold fully flat for extra storage, you'll never have to choose between them.

ALL WHEEL DRIVE

The BorgWarner ITM 3e™ torque management system gives the Santa Fe tenacious grip when the going gets rough, thanks to advanced electronics that can automatically distribute torque to each wheel as needed.

V6 POWER

The Tucson doesn't mess around when it comes to getting you places. It excels with a powerful V6 engine that churns out an impressive 173 horsepower and 178 lb.-ft. of torque. So just plant your right foot and go.

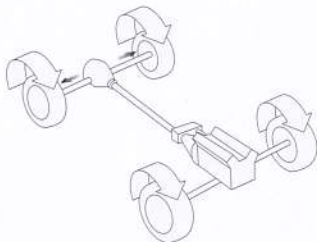

IN-DASH 6-DISC CD CHANGER

This in-dash CD/MP3 changer conveniently lets you choose your music. Tunes come through loud and clear thanks to a 172-watt, multi-speaker system.

HEATED SEATS

Nothing is less inviting on a cold winter morning than shivering on a chilly seat during your early commute. With heated driver and front-passenger seats, you may actually start looking forward to it.

4-WHEEL DRIVE

The optional on-demand 4WD system with driver-selectable 4WD lock can deliver up to 50 percent of the torque to the rear wheels for maximum traction when dealing with slippery on- or off-road conditions.

The Tucson is living proof that an SUV doesn't have to be a big, gas-guzzling road hog to give you the goods you want. Like available V6 power. Or an advanced, lockable 4-wheel drive system that can confidently transport you to those wild and wooly places you love to visit. Not to mention a spacious interior with multiple passenger and cargo configurations to maximize your friend-to-backpack ratio.

NHTSA 5-STAR CRASH RATING - Tucson has received the U.S. government's highest crash rating of 5 Stars for both front- and side-impact collisions.⁷

The well-being of your family is something we take seriously at Hyundai, which is why the Entourage has been engineered with your safety in mind. In fact, it was rated a "2008 Top Safety Pick" by the Insurance Institute for Highway Safety for its performance in front, side and rear impacts.⁶ Not surprising when you consider it's equipped with Electronic Stability Control, ABS and six airbags among its standard safety features.

...[The] Hyundai Entourage minivan offers lots of value with plenty of safety and comfort features, excellent crash test ratings and a price tag that's among the lowest in its class. It's a smart choice for families on a budget. – *Edmunds.com*

09 HYUNDAI_ENTOURAGE

POWER-ADJUSTABLE FOOT PEDALS

With just the push of a button, you can adjust the accelerator and brake pedals to perfectly match your foot position. This gives you unprecedented ability to customize the ergonomics of your cabin and maximize your comfort.

ROOM FOR YOUR LIFE

With 172.3 cubic feet of total interior volume – more than Honda Odyssey – Entourage fits seven passengers easily. What's more, the Hyundai Hideaway™ 3rd-row seats fold flat to offer a variety of seating and storage options.

REAR DVD ENTERTAINMENT SYSTEM

This Infinity® DVD entertainment system features 660 watts of power, Logic 7® surround sound, a remote control and wireless headphones. It also silences chants of “are we there yet?” from the back seats.

BACKUP WARNING SENSORS

It's a step forward in going backward. Using ultrasonic sensors mounted in the rear bumper, this advanced system alerts you when any objects are in the path of your Entourage with a graduated series of beeps.

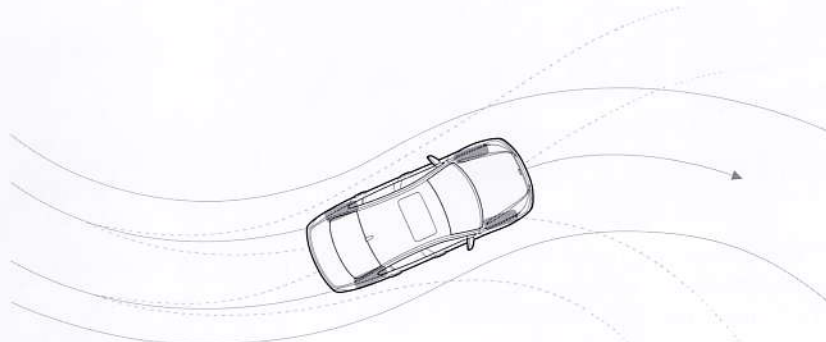

ESC

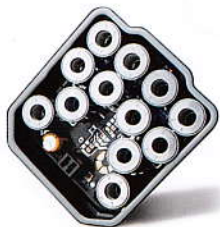

Because you never know when an emergency situation is around the bend, most Hyundais come equipped with Electronic Stability Control. It constantly monitors things such as wheel speed, steering angle and lateral g-forces. When it senses a skid is imminent, it adjusts brake and throttle input to help keep you on your intended path.⁸

SAVES LIVES

TRACTION CONTROL

TCS senses unexpected wheelspin during acceleration, then automatically applies the appropriate combination of brakes and throttle, routing power to the tire with the most traction, helping you maintain control.⁹

BRAKE ASSIST

Statistics show that drivers frequently don't brake hard enough in emergency situations. Brake Assist senses when you're in a panic stop and immediately applies the maximum braking pressure to help you stop in a shorter distance.

ANTI-LOCK BRAKES

ABS prevents wheel lock-up and helps maintain steering control during emergency braking situations by rapidly pulsing the brakes. This allows you to safely maneuver around objects that may be in your path.

EBD

Electronic Brake-force Distribution uses a network of sensors to optimally distribute brake pressure at each of the wheels, depending on road surface, load and speed, to achieve maximum braking performance.

KEEPING YOU

SAFE

When it comes to safety, compromise is never an option. That's why our vehicles are equipped with a wide array of standard safety features to help protect your well-being. We hope you never need them, but it's nice to know that they're there.

You wouldn't build a house on a shaky foundation. Same goes for cars. That's why we build every Hyundai with tough, reinforced unibody construction of high-tensile steel to effectively absorb collision energy in an accident. Then we engineer them with rear crumple zones, bodyside reinforcements and hood-buckling creases to help protect you in an impact from any direction. With all of this, you would think our cars would cost more than others, but they don't. That's because we don't think you should have to pay more to feel safe.

SEATBELT PRETENSIONERS

Pretensioners tighten safety belts in accidents to reduce the front occupants' forward movement. Force limiters release slack gently to help minimize injury.

TIRE PRESSURE MONITORING SYSTEM

Each wheel is equipped with a sensor located at the valve stem. In the event any tire reaches a critically low air pressure, a warning light on the instrument panel alerts you!¹⁰

ACTIVE FRONT HEAD RESTRAINTS

Whiplash is one of the most common injuries in rear impacts. With this feature, the head restraint moves forward to help reduce the likelihood of neck injury.

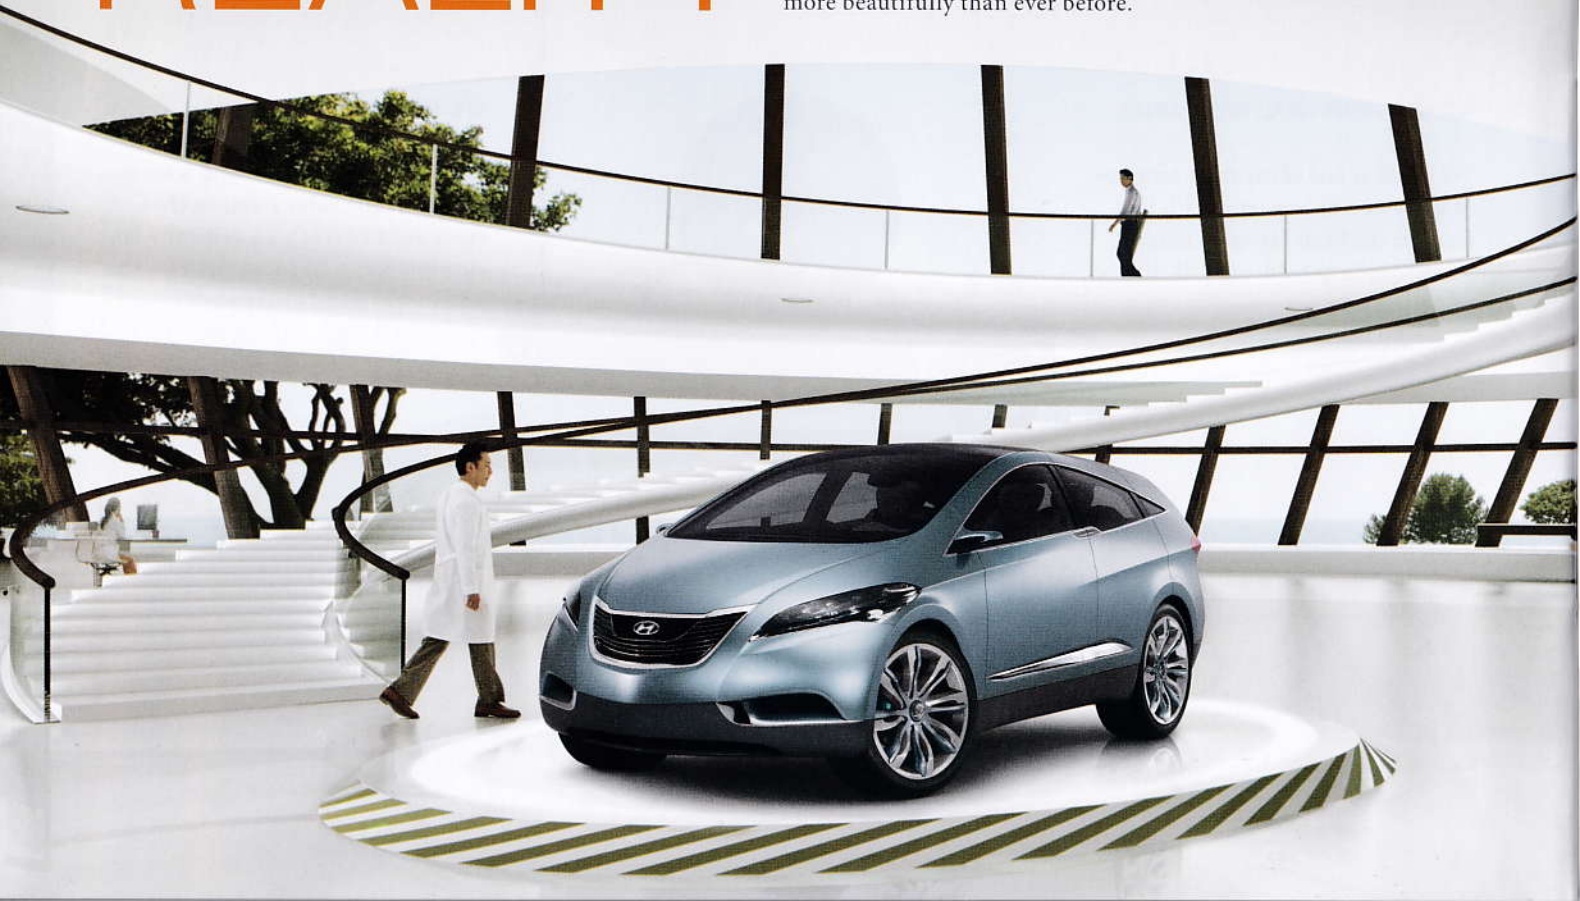

ADVANCED AIRBAGS

We give our vehicles advanced front airbags featuring the Occupant Classification System, seat-mounted side-impact airbags and side-curtain airbags for superior protection!¹¹

TURNING DREAMS INTO REALITY

At our design centers and R&D facilities around the world, Hyundai is developing technologies that will carry you down the road more safely, more reliably and more beautifully than ever before.

09 HYUNDAI_ MANUFACTURING

Can a car manufacturer simultaneously build a better car as it helps to build a better world? The skeptics may be quick to answer “no,” but that hasn’t stopped us from trying to do it anyway. These are just a few of the ways we’ve endeavored to make both of these possibilities a reality.

ADVANCED ROBOTS

With optical sensors far more sensitive than the human eye, these robots inspect every vehicle for quality welds and proper fit, ensuring tight seams and perfect alignment.

STATE-OF-THE-ART PLANTS WORLDWIDE

An R&D center in South Korea.
An award-winning plant in Alabama.
An engineering center in Michigan.
A Southern California design facility.
They all use state-of-the-art technology to ensure that every vehicle we make is as good as it can possibly be.

HOPE ON WHEELS

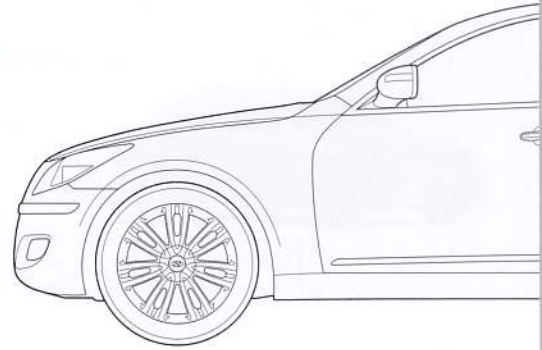

Every time you buy a Hyundai, you are helping give a child hope. Hyundai Hope on Wheels ensures a portion of the proceeds from every vehicle we sell is donated to help benefit pediatric cancer patients. Visit www.hopeonwheels.com

AMERICA'S BEST WARRANTY

What does a warranty say about a car? Well to us, it says we have the utmost confidence in its quality, so much so that we're willing to stand behind our cars long after you've driven off the dealer's lot. For an entire decade. So whatever the next ten years bring, at least you know your car is covered.

09 HYUNDAI WARRANTY

	POWERTRAIN	NEW VEHICLE LIMITED WARRANTY	ANTI-PERFORATION	ROADSIDE ASSISTANCE
HYUNDAI	10 YEARS 100,000 MILES	5 YEARS 60,000 MILES	7 YEARS UNLIMITED MILES	5 YEARS UNLIMITED MILES
TOYOTA	5 YEARS 60,000 MILES	3 YEARS 36,000 MILES	5 YEARS UNLIMITED MILES	N/A
HONDA	5 YEARS 60,000 MILES	3 YEARS 36,000 MILES	5 YEARS UNLIMITED MILES	N/A
NISSAN	5 YEARS 60,000 MILES	3 YEARS 36,000 MILES	5 YEARS UNLIMITED MILES	N/A
CHEVROLET	5 YEARS 100,000 MILES	3 YEARS 36,000 MILES	6 YEARS 100,000 MILES	5 YEARS 100,000 MILES
LEXUS	6 YEARS 70,000 MILES	4 YEARS 50,000 MILES	6 YEARS UNLIMITED MILES	4 YEARS UNLIMITED MILES

WHAT DOES THE WORD “BEST” MEAN, AGAIN?

It's difficult to know these days, with car makers claiming to have “The Best Coverage in America” or “The Best Warranty Coverage in the Business.” But the fact is, there is no manufacturer that offers a standard warranty matching Hyundai's, which means when we say we have America's Best Warranty,¹² the word best means, well, best.

Best ≠ Good

Best ≠ Kind of impressive

Best ≠ Better than my neighbor's

Best = Best

GENESIS

SAFETY

- NHTSA 5-star crash rating for frontal and side impacts⁷
- Electronic Stability Control
- Traction Control
- Anti-lock Braking System
- Electronic Brake-force Distribution
- Brake Assist
- Electronic active front head restraints
- Eight airbags including advanced front airbags with Occupant Classification System, front and rear side-impact airbags and side-curtain airbags
- Tire Pressure Monitoring System
- Available HID Auto-leveling Headlights with Adaptive Front Lighting System (auto-cornering)

HIGHLIGHTS AND AVAILABLE FEATURES

- 3.8L V6 or 4.6L V8 engine
- 6-speed automatic transmission with SHIFTRONIC[®]
- SACHS[®] Amplitude Selective Damping suspension
- 528-watt Lexicon[®] 7.1 Discrete 17-speaker audio
- Cooled driver seat
- More total interior volume than the Lexus LS 460L
- Tailored leather-wrapped dash and door trim
- Bluetooth[®] hands-free phone system
- In-dash navigation system
- Front and rear parking assistance sensors with rear backup camera
- Proximity key entry and push-button start
- XM[®] Satellite radio and XM NavTraffic^{®13}
- Multimedia controller/Driver Information System
- iPod[®]/USB and auxiliary input jacks

AZERA

SAFETY

- Unsurpassed standard safety features in its class
- Electronic Stability Control
- Traction Control System
- Anti-lock Braking System
- Electronic Brake-force Distribution

INFORMATION ON SAFETY FEATURES

⁶Based on Insurance Institute for Highway Safety 40-mph frontal crash test, 31-mph side-impact test, 20-mph rear-impact test, and availability of Electronic Stability Control (ESC). 2007-2008 models tested.

⁷Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). Models tested with standard side-impact airbags (SABs). 2006-2009 models tested.

⁸Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details.

⁹The Traction Control System (TCS) is meant to enhance conscientious driving habits and is not a substitute for safe driving practices.

¹⁰TPMS is not a substitute for proper maintenance. See Owner's Manual for details. Spare tires are not equipped with TPMS.

¹¹The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag.
