

2021 **SELTOS.**
**UNLEASHING
ALL ROADS.**

PERFECT FOR CALIFORNIA'S SCENIC BYWAYS OR URBAN HIGHWAYS.

**WHATEVER DIRECTION
YOU CHOOSE,
GIVE IT EVERYTHING.**

The way we see it, no one ever said, give it a bit. No one ever said, give it less. The world was not built by half-measures, or the half-hearted. So we say, Give It Everything. Here's to going all in as you go all out. Embracing all that's possible, now and tomorrow. With more heart, more vision, and more purpose. Whether you're building a car, or building a life. For those who share this unwavering spirit, we created the all-new Seltos. Built to help you blaze incredible trails, wherever they may lead.

YOU'VE GOT SOMEWHERE TO BE.

BECAUSE YOU'VE FOUND THAT INCREDIBLE "THING" YOU'RE MEANT TO DO IN LIFE, WE MADE A CUV AS CAPABLE AS YOU ARE TO HELP YOU DO IT.

Confident, capable, and strikingly crafted, the all-new Seltos is made for the mission at hand. With an available powerful turbocharged engine* and fully active all-wheel drive with Lock Mode*† to tame rugged roads. The latest available advanced driver-assistance technologies¹ and premium features to help keep you protected and connected. Plenty of versatile interior space for your passengers and cargo. And a refined yet bold style that looks the part whether it's covered in dust, maneuvering through the city, or chasing the latest adventure of your own making.

*Optional feature available only on certain trims. See Features page for availability. 1 See inside back cover for endnote. †No system, no matter how advanced, can compensate for all driver errors and/or driving conditions. Always drive safely. Aftermarket all-terrain tires (sold separately) are recommended for off-road conditions. SX AWD SHOWN

"I WANT TO OPEN UP
CONVERSATIONS IN
CLIMBING THAT WILL
AFFECT EVERYBODY
ON A LARGE SCALE."

— SHELMA JUN

THRIVE IN TAKING ACTION.

WE ENGINEERED SELTOS TO GIVE YOU THE POWER AND PERFORMANCE TO TAKE ON
YOUR LIFE'S BIG ENDEAVORS WHEREVER THEY LEAD — WHILE EXPERTLY HANDLING
EVERY EXCITING TWIST AND TURN ALONG THE WAY.†

Climb higher, think bigger, be bolder. At Kia, this thinking embodies our Give It Everything spirit, and we celebrate others who share this passion for performance. Shelma Jun is the perfect example. She became hooked on climbing for the thrill, the adrenaline, the wild places it took her. But as a female athlete in a male-dominated sport, Shelma often felt disconnected, driving her to seek out other women with whom to climb. Her new “girl crew” inspired and supported one another, and Shelma began documenting their outings on Instagram.

Suddenly, she had thousands of follows from other women climbers seeking advice on ways to connect — and Shelma knew she had to take action. She founded Flash Foxy, a national online community that empowers and connects women climbers, along with the Women's Climbing Festival. Today, Flash Foxy is over 40,000 members strong and has created such positive change in the sport, Shelma was named by *Outside* magazine as one of “40 women who have made the biggest impact on the outdoors.”

ELECTRONIC STABILITY CONTROL[†]

can help control the engine and brakes for improved directional stability in certain difficult driving situations

DOWNHILL BRAKE CONTROL[†]

is designed to help you maintain the speed you want on steep downhills, reducing the need to frequently cycle between braking and accelerating

VEHICLE STABILITY MANAGEMENT[†]

can intervene to help enhance stability and steering responses when driving on some slippery roads

HILL-START ASSIST CONTROL[†]

is engineered to assist you when starting on a steep hill by automatically holding the brake pressure for two seconds when you take your foot off the brake pedal

DYNAMAX^{™2} FULLY ACTIVE AWD WITH LOCK MODE^{*†}

is designed to use electronic sensors to monitor road conditions, then distribute power to the appropriate wheels to enhance traction and control; for more challenging conditions, AWD Lock Mode^{*†} splits the power 50/50 to the front and rear wheels at the push of a button

TORQUE VECTORING CORNERING CONTROL[†]

can help increase cornering stability by applying braking force to the front and rear inside-corner wheels, for more controlled turning in a variety of situations

GO ON YOUR OWN TERMS.

FROM RAIN-SOAKED CITY STREETS TO SNOWY MOUNTAIN PASSES, A LITTLE WEATHER WON'T KEEP YOU FROM GETTING WHERE YOU WANT TO GO, THANKS TO THESE AVAILABLE ADVANCED FEATURES.

We never stop striving to bring the latest life-enhancing innovations in technology to our design process, and people like Sean Petterson are driven by the same mission. His company, StrongArm Technologies, creates wearable products that protect workers from injuries on the job. Using sensor technology, big data, and machine learning, his products are designed to monitor worker's movements, detect injury risk, and intervene before incidents occur.

For Sean, the inspiration for launching StrongArm was personal. His father, a construction worker, died on the roof of a job site. His goal is to continue seeking new ways to keep the "Industrial Athlete" proud, protected, and productive — helping to keep them a little bit safer on the job. After 10 years, dozens of innovations, and thousands of their products used in the field every day, he is surely doing just that.

CREATE A WISER WAY.

WE CAN ALL USE A LITTLE EXTRA HELP OUT THERE. THAT'S WHY WE OFFER SELTOS WITH THE LATEST ADVANCED DRIVER-ASSISTANCE TECHNOLOGIES.* WE CALL THESE FEATURES KIA DRIVE WISE,* BECAUSE THEY HELP YOU DRIVE SMARTER AMIDST EVERYDAY CHALLENGES.¹

"MY MOTIVATION HAS ALWAYS BEEN TO MAKE PRODUCTS THAT HAVE AN IMPACT ON HUMANITY. I LOVE PROVIDING THIS NOTION OF HUMAN AUGMENTATION THROUGH DESIGN AND TECHNOLOGY."

— SEAN PETTERSON

KIA DRIVE WISE^{1*}

is a suite of available advanced driver-assistance technologies that are designed to help keep you alert, aware of surrounding traffic, and even intervene in certain situations to help you avoid collisions. Using radar and sensors, Kia Drive Wise includes braking technologies, maneuvering technologies, and more. You can learn about each of these impressive features on the following pages.

*Optional feature available only on certain trims. See Features page for availability.

STOPPING ASSISTANCE WHEN YOU'RE ON THE GO.

THESE AVAILABLE ADVANCED FEATURES ARE DESIGNED
TO HELP ENHANCE YOUR ABILITY TO PUT ON THE BRAKES
— PLUS OTHER IMPRESSIVE TECHNOLOGIES TO ASSIST
YOU AND YOUR PASSENGERS.¹

FORWARD COLLISION-AVOIDANCE ASSIST WITH PEDESTRIAN AND CYCLIST DETECTION^{1*}

is designed to help detect and alert you of a potential forward collision with a preceding vehicle, pedestrian, or cyclist, and can automatically apply the brakes in some cases

REAR CROSS-TRAFFIC COLLISION-AVOIDANCE ASSIST^{1*}

uses visual and audible alerts that can help warn of traffic the system detects coming from either side when you're in reverse, and, in some cases, can even automatically apply the brakes to help you avoid collisions

SMART CRUISE CONTROL WITH STOP & GO^{1*}

is engineered to help adjust your driving speed to help maintain a predetermined distance from the vehicle detected ahead of you

SAFE EXIT ASSIST¹

is designed to give an audible and visual alert to help prevent front and rear passengers from exiting the vehicle when it detects potential hazards approaching

**DRIVE

We designed Seltos to help you explore what's possible and Jerome Stanislaus has dedicated himself to exactly that. As a child, Jerome dreamed of becoming a pilot and flying high above the clouds, though back then, he never believed it could come true. The reason? "I had never seen a Black pilot." Even today, only about 3% of all commercial pilots are African American.

But having no role models didn't stop Jerome from persevering. After training to be an aircraft mechanic in the military, he earned his pilot's license and skydiving certification. And though he had finally achieved his dream of "flying planes and jumping out of them," he remained keenly aware that, without role models, many kids might never pursue a career in aviation — and he was determined to change that. Today, Jerome donates his time and costs to take racially diverse young people on flights, provide ongoing mentorship, and help them soar higher than they ever imagined.

"ONE DAY I HAD AN EPIPHANY —
OUT OF NOWHERE, MY HEART
JUST FILLED WITH WANTING TO
SHARE AVIATION WITH OTHERS."

— JEROME STANISLAUS
