> WE'LL OBSESS OVER THE DETAILS. YOU ENJOY THE RIDE.

At Mitsubishi Motors, we're fixated on the idea of perfection. There's a word in Japanese for this kind of obsession: Kodawari, which means "in pursuit of perfection." The practice focuses on three key pillars: passion, persistence and precision. To manifest Kodawari, we apply these pillars over and over, infusing them into every vehicle we engineer, design and innovate.

Why do we yearn to achieve perfection? Why are our standards so exacting? Why is attention to detail so essential? The answer is simple: you. Our customers. The people who drive our cars. Those with an appreciation for uncompromising craftsmanship and a pioneering spirit. The ones who don't mind being a bit unconventional, if it means pushing boundaries and blazing new trails. Some call it idealistic, but for us, it's simply **Kodawari**.

> KODAWARI

**PASSION IS A FIRE FROM WITHIN, AN INNER
CONVICTION THAT SOMETHING IS WORTHWHILE.
WE POURED ALL OUR PASSION FOR TOMORROW'S
DRIVING TECHNOLOGY INTO THE 2022
OUTLANDER PHEV.**

MEET THE 2022 OUTLANDER PHEV

> OUTLANDER GOES ELECTRIC

Amp up your drive with the 2022 Outlander PHEV. It's leading the charge towards a future where electric hybrid driving technology is both adventurous and accessible. Now, recharging is as simple as plugging into the nearest electrical outlet. Fusing groundbreaking innovation with easy functionality, the Outlander PHEV is powered by Twin Electric Motors and a low-emission PHEV system. Super All-Wheel Control¹ nods to Mitsubishi's all-wheel-drive heritage, while features like regenerative braking shape its future. Plus, advanced safety features and an impressive range mean that no matter where you go, the Outlander PHEV will rise to the occasion. With comfort in every seat, this plug-in hybrid delights drivers and passengers alike.

Take charge of the road in the 2022 Outlander PHEV.

> 01 CHARGED UP AND READY TO GO

The Outlander PHEV's **Twin Electric Motors** and four-cylinder engine work in harmony, giving you the best of both energy worlds. Switching between electric and gas power, the PHEV Hybrid system automatically shifts into EV, Series Hybrid or Parallel Hybrid mode, depending on the situation. These different modes provide the energy and versatility you need, when you need it, to deliver a smoother on-road experience. Configured to maximize efficiency, it all integrates with Mitsubishi's legendary **Super All-Wheel Control**¹ system and up to **1,500lbs of towing capability**.

> SEIZE THE ROAD

Whether you're hitting the local circuit or going off the grid, the Outlander PHEV is game. Our 2022 model sees the addition of two new drive modes: **Snow Mode** and **Sport Mode**. Snow Mode offers an extra measure of traction and control on icy, slippery surfaces, while Sport Mode offers a more spirited throttle response when you need to accelerate.¹

Optional features shown. Available at additional cost. Visit mitsubishicars.com for more information.

> EASY ON THE PUMP AND THE PLANET

When it comes to range, the Outlander PHEV doesn't hold back.

Delivering an environmentally-friendly **74 MPGe²** and zero-emission driving modes, you can get around on 100% electric power or pull in extra power when you really need to motor.

> A CLEAN BRAKE

EXPLORE
PERFORMANCE

Regenerative braking gives a whole new meaning to stop and go. While conventional brakes discard the energy that’s generated when you stop, the Outlander PHEV captures it. Regenerative brakes convert that energy into electricity for the vehicle to use later, using it to recharge the battery. Meanwhile, steering wheel paddle shifters let you adjust your coasting levels, so you can control the amount of energy being recovered.

> 02 ELECTRIFYING TECHNOLOGY

The 2022 Outlander PHEV keeps you connected, even when you're behind the wheel. With seamless smartphone integration courtesy of standard **Android Auto™³** and **Apple CarPlay®⁴**, you can access contacts, apps, navigation and entertainment—it's all within arm's reach on the crystal-clear, high-resolution **8.0" Smartphone-link Display**. Your back will be happy too, thanks to standard **Power Driver Lumbar Support**. Designed to optimize posture and maximize comfort, it lets you tailor the seat's position perfectly to your body.

> A SYMPHONY OF SOUND

Set every ride to music. The Outlander PHEV's available **Mitsubishi Power Sound System** creates an immersive audio experience. With 8 premium speakers releasing rich treble notes and deep, vibrant bass, daily commutes will finally get the stereophonic soundtrack you deserve.

> NO CHILL

Kick cold-weather driving to the curb. In the Outlander PHEV, thoughtful amenities like standard heated front seats enhance the cocoon-like interior, while the available heated steering wheel keeps your hands toasty on even the chilliest nights.

> AT YOUR CONVENIENCE

EXPLORE
TECHNOLOGY

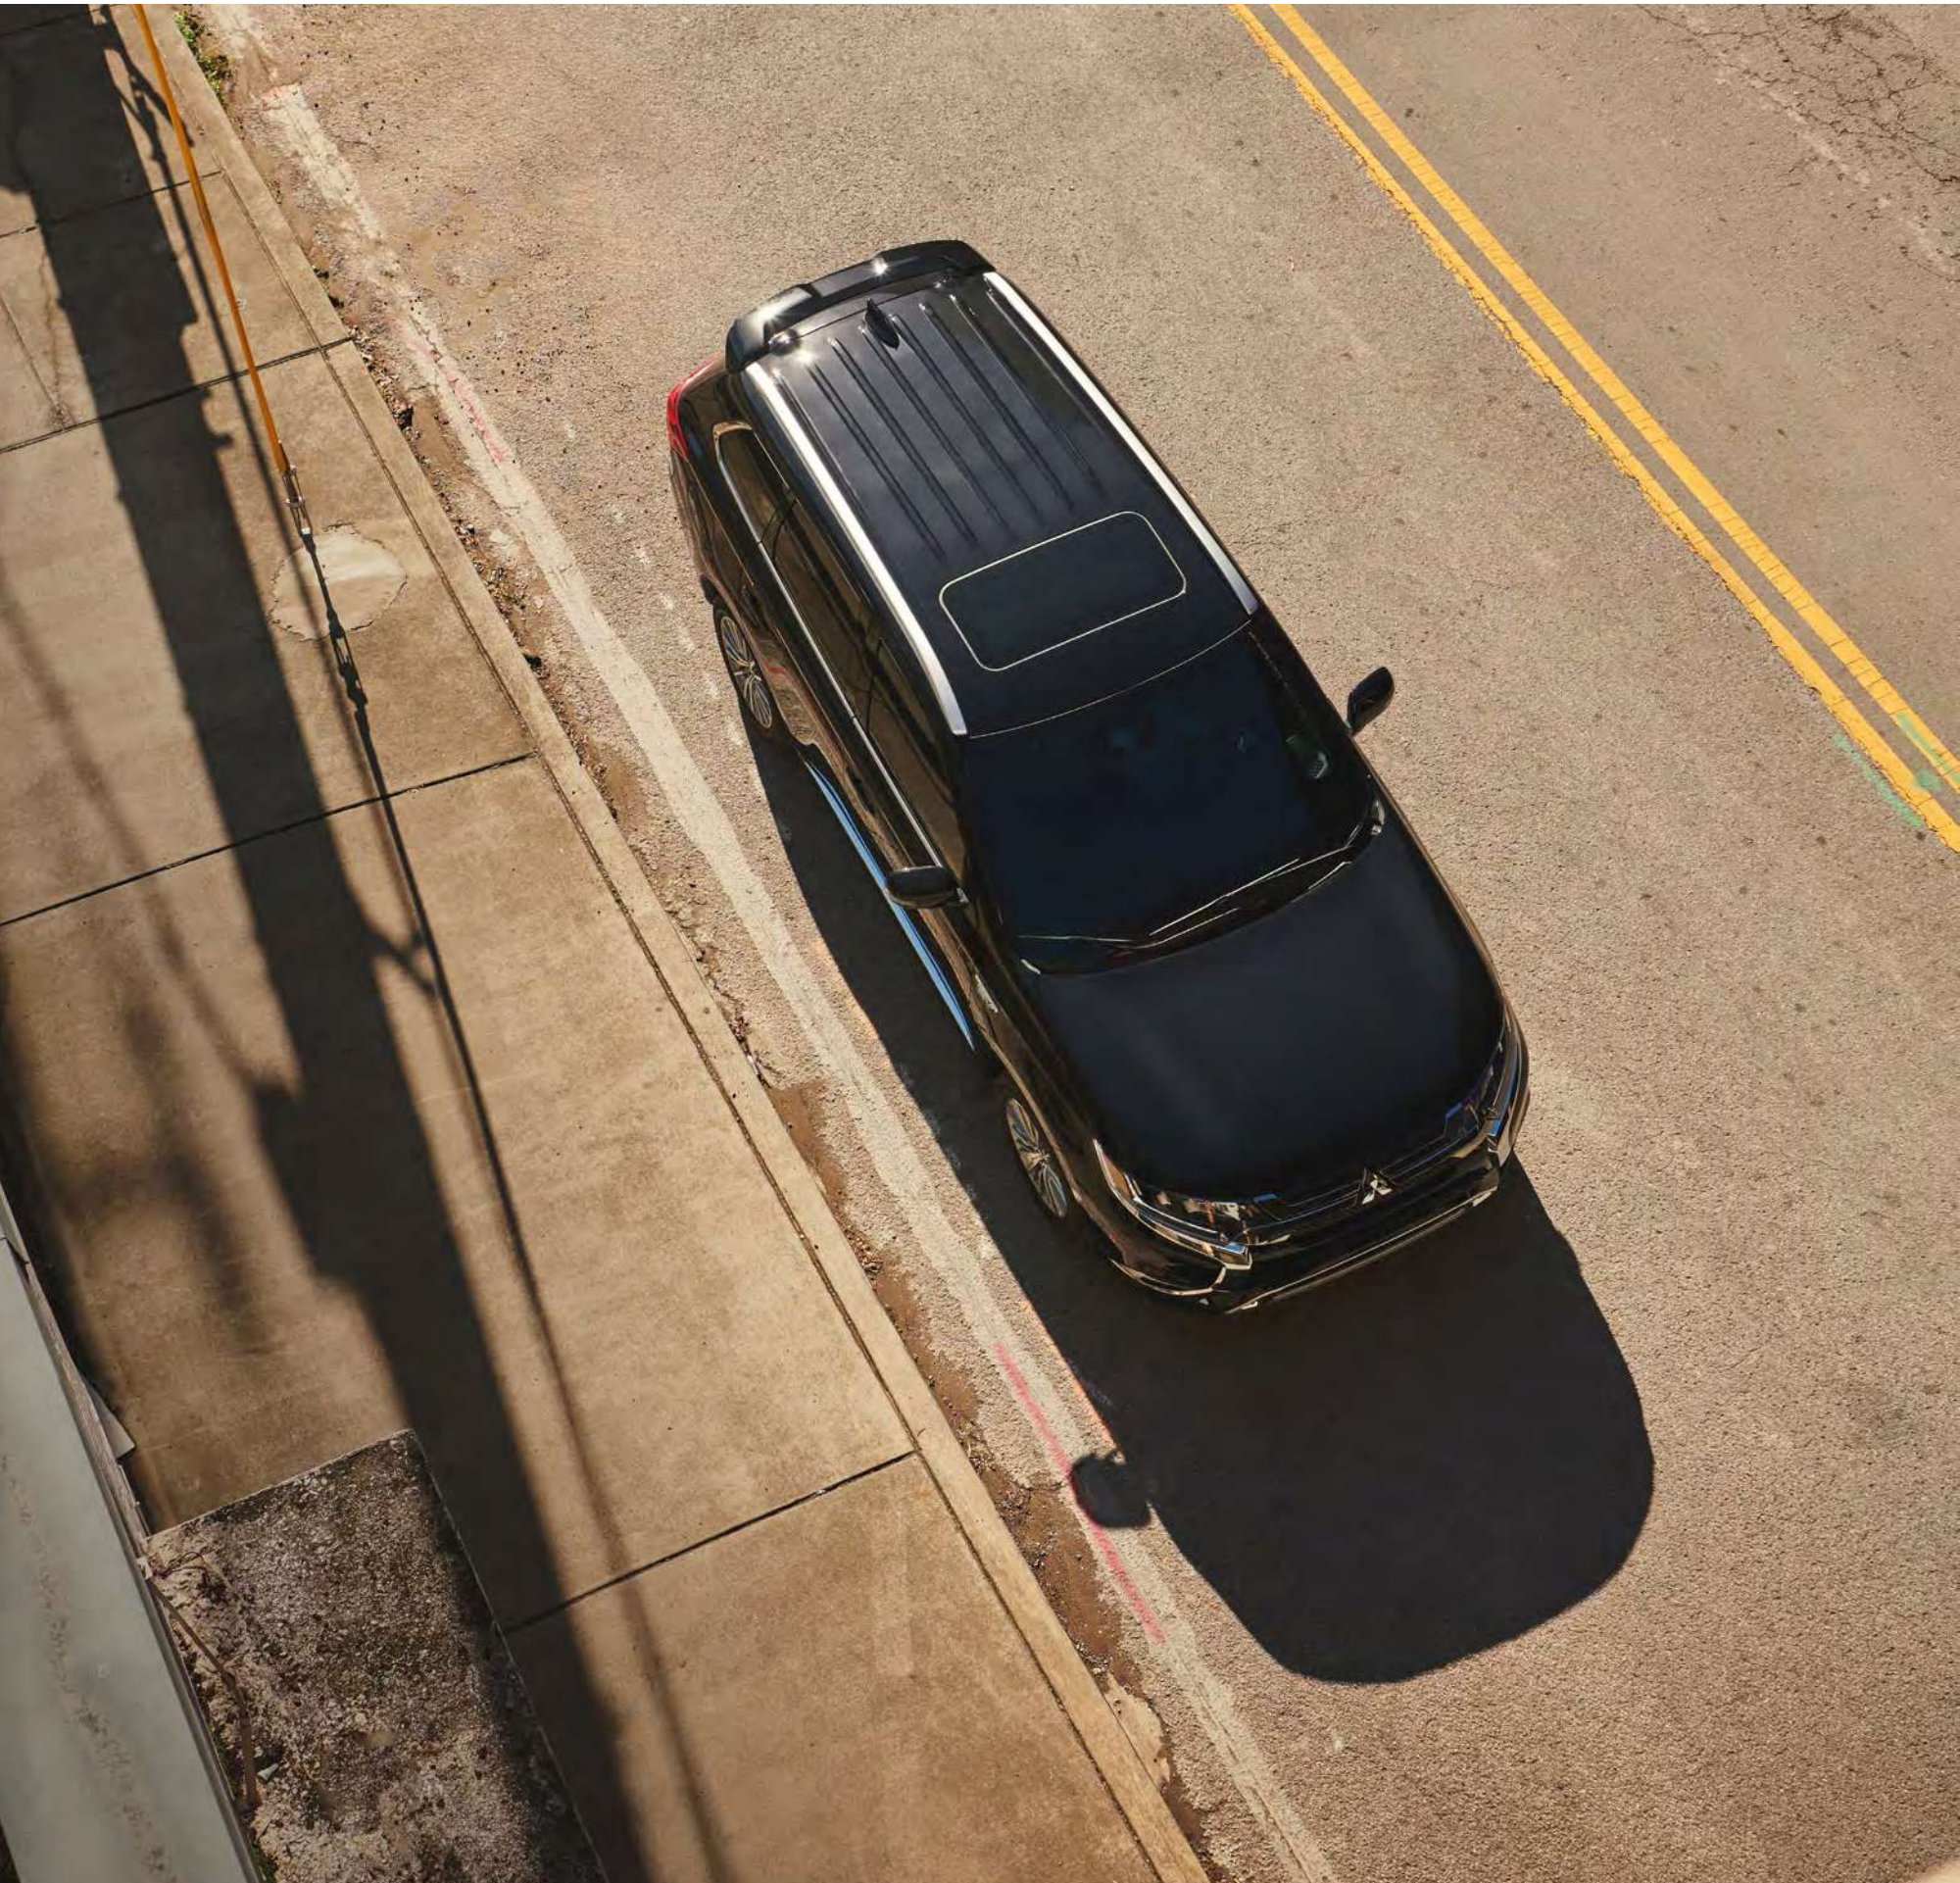

The Outlander PHEV lets you control functions right from your smartphone, thanks to Mitsubishi's **Remote Control app**. Program timers for your charging schedule and set climate controls for heating, cooling and defrosting before you get inside. You can even track the cost of your charging sessions, all with a tap of your phone.

> 03 SAFETY ON BOARD

Equipped with a wealth of advanced safety features, the 2022 Outlander PHEV is ready for whatever comes your way. The standard **Forward Collision Mitigation system with Pedestrian Detection**⁵ monitors the road up ahead, alerting you when it detects something in your path. Should you not respond, it attempts to brake for you to prevent a potential collision. It's not just about the front though, the Outlander PHEV also covers your back thanks to **Rear Cross Traffic Alert**.⁶ It scans the area behind the vehicle while you reverse and if it senses anything, an audible alert will let you know right away.

Meanwhile, the Outlander PHEV's **Automatic High Beams** monitor the road, detecting oncoming vehicles and switching between high- and low-beam headlights to reduce glare for other drivers. Plus, available **Adaptive Cruise Control**⁷ sets the pace, using radar technology to help keep a safe driving distance between you and the vehicle ahead.

> SEE THE BIGGER PICTURE

In the Outlander PHEV, you can always get a clear view. The available **Multi-View Camera System**⁸ uses multiple cameras around the vehicle to create a 360° composite of the area surrounding your vehicle. It always shows you a wide angle view of your environment, so you can park with confidence, no matter how tight the spot.

> RIGHT AS RAIN

EXPLORE
SAFETY

On rainy days, the Outlander PHEV lets you focus on the road instead of fiddling with your wipers. Standard rain-sensing windshield wipers automatically adjust to match the volume of rainfall, giving you one less thing to worry about in stormy weather.

> **KODAWARI**

**PERSISTENCE IS AN ABILITY TO KEEP GOING.
THE DEDICATION AND COMMITMENT THAT
DOESN'T BACK DOWN FROM A CHALLENGE.
THE 2022 OUTLANDER PHEV PUSHES BEYOND
EXPECTATIONS AT EVERY TURN.**

> 04 STREET STYLE

Get ready to cruise in style. The sleek proportions, slick headlights and muscular lines that characterize Mitsubishi Motors design now mark the 2022 Outlander PHEV. Our signature **Dynamic Shield Front Grille** is flanked by available premium LED headlights and available LED fog lamps, creating a powerful presence that's meant to see and be seen. **Heated Power Side Mirrors** round out the considered design, giving the Outlander PHEV a jaunty appeal all its own.

> OPEN SESAME

Easy functionality is a big part of the 2022 Outlander PHEV's identity and thoughtful conveniences like the **Power Remote Liftgate** can help streamline your everyday life. With the simple touch of a button, you can load and unload the trunk with ease.

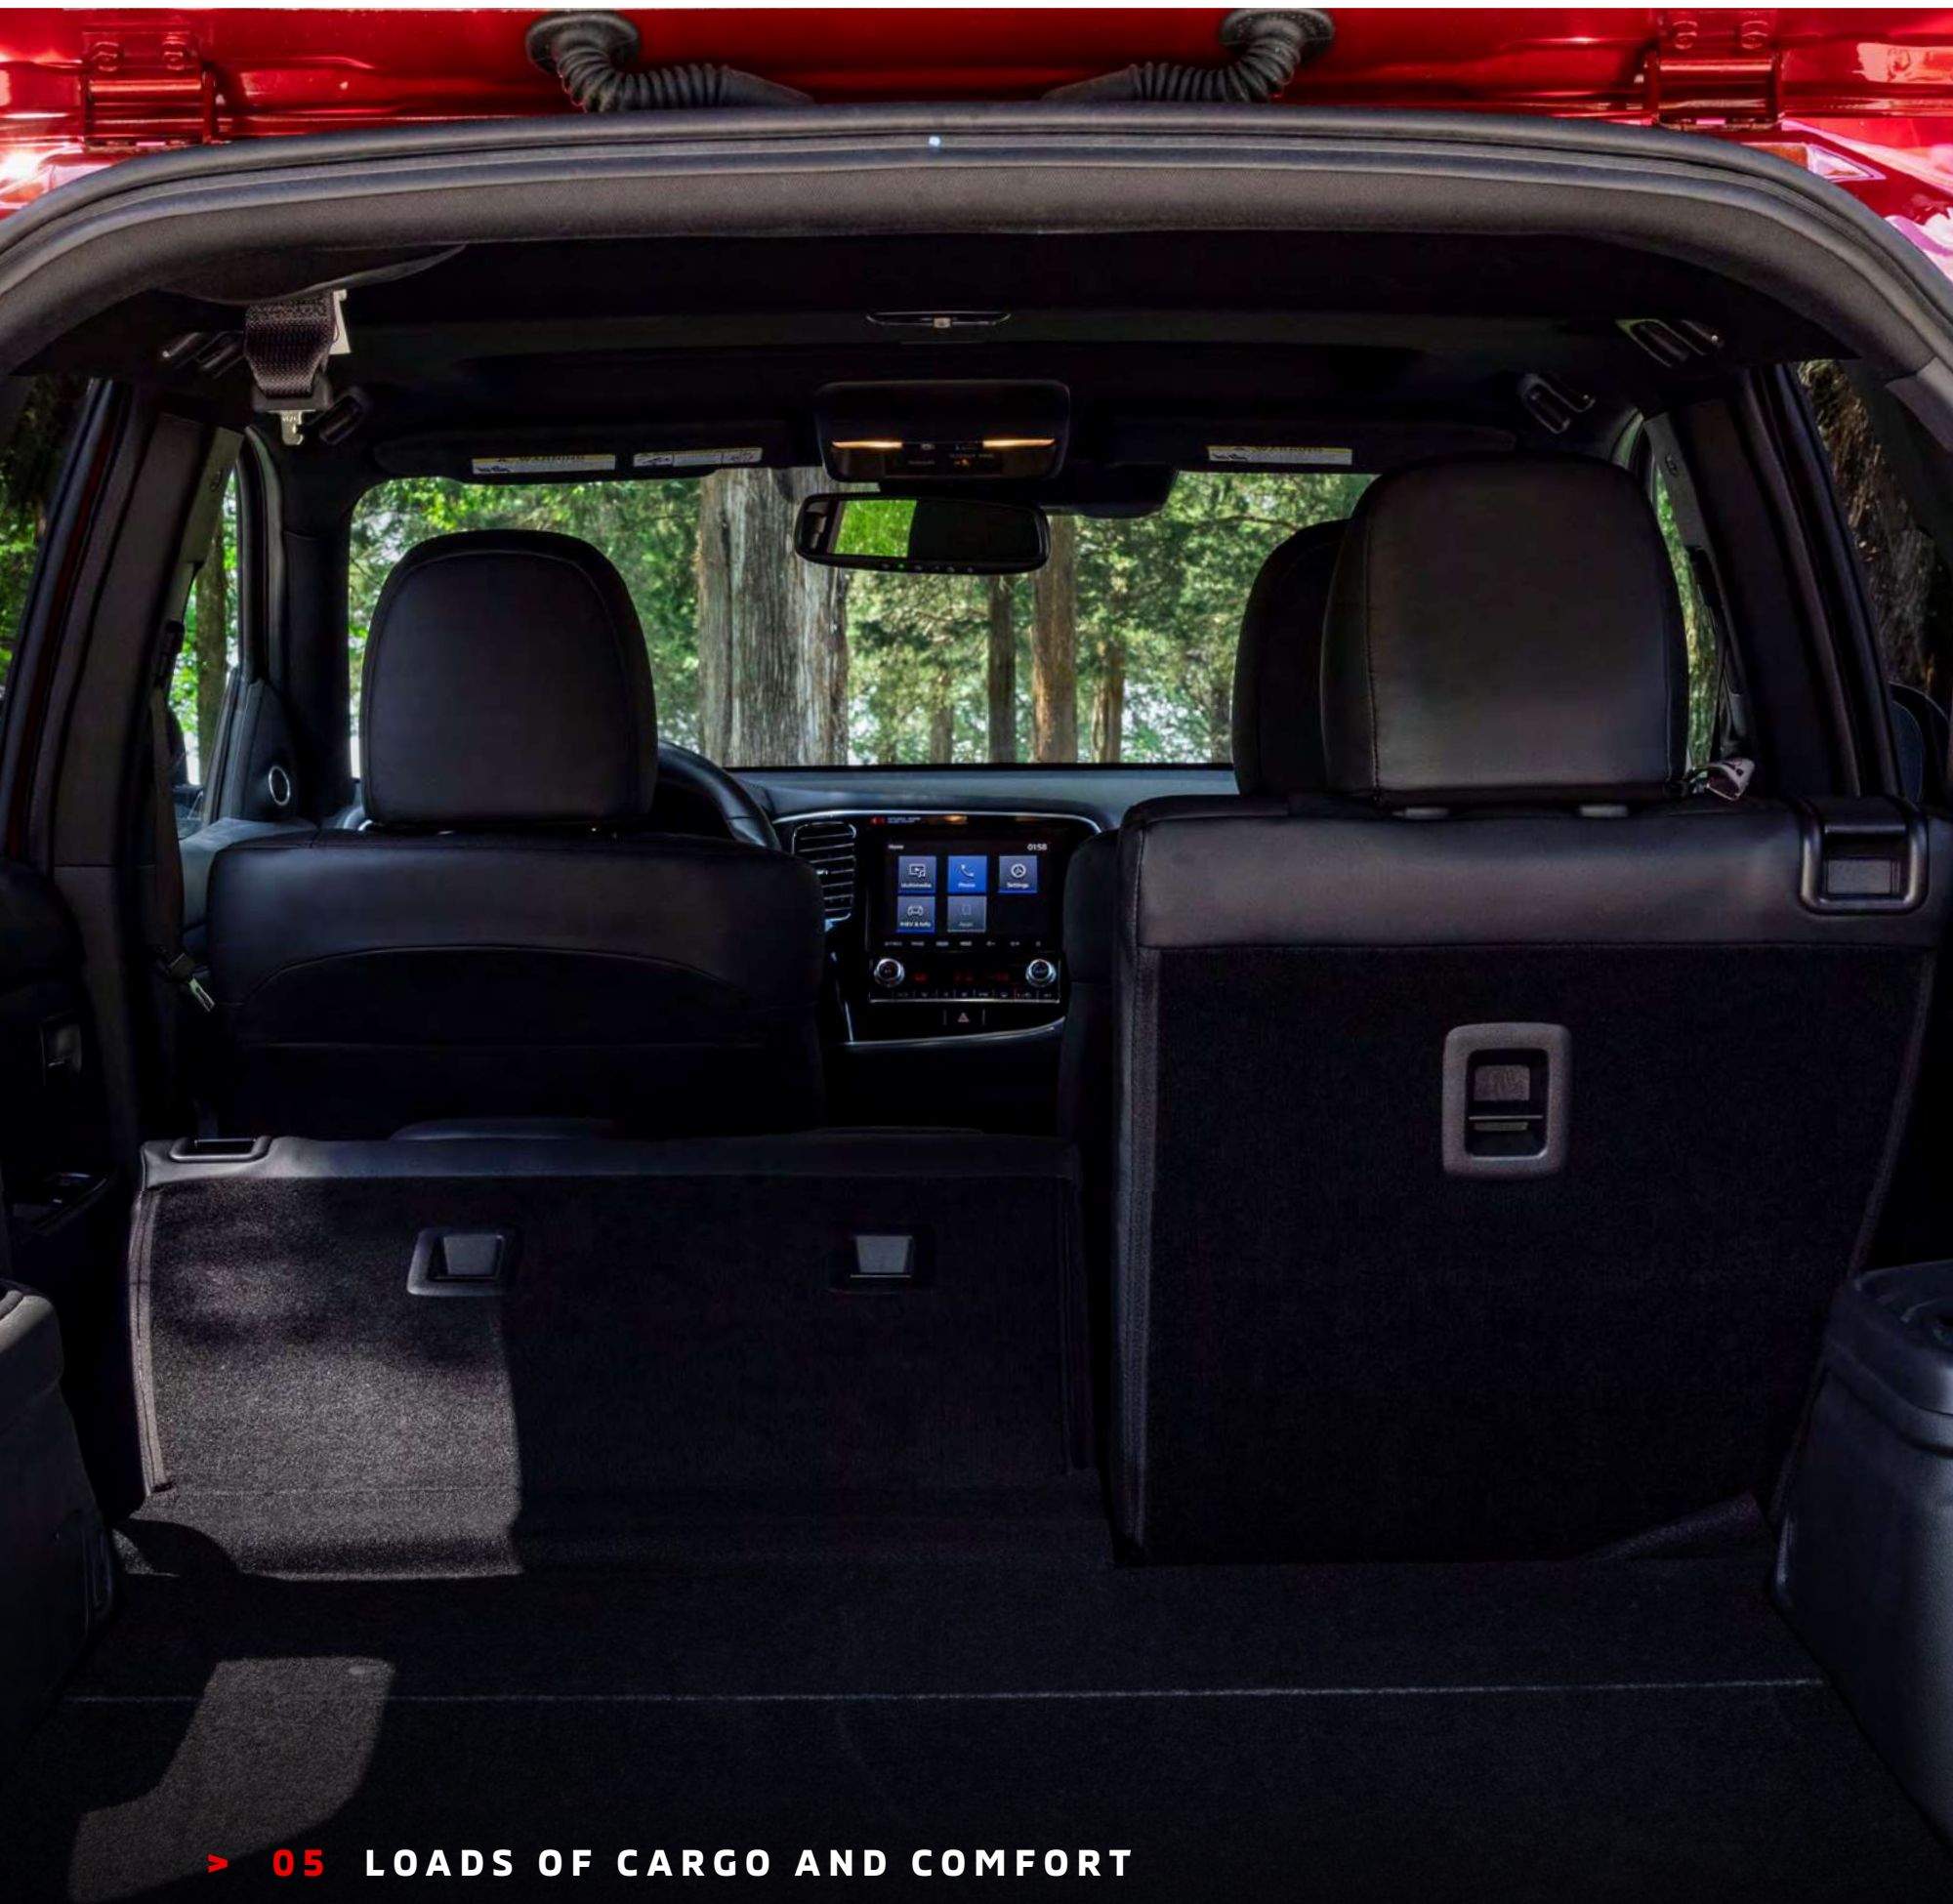

> POWER IN MOTION

EXPLORE
MORE

The bold 18" alloy wheels on the 2022 Outlander PHEV are bound to turn heads. Their sleek, sophisticated design adds an extra dose of distinctive style to underscore the PHEV's forward-thinking, intrepid character.

Optional LE Alloy wheels shown. Available at additional cost. Visit mitsubishicars.com for more information

> 05 LOADS OF CARGO AND COMFORT

Need to relax? The 2022 Outlander PHEV's spacious interior cabin is the perfect place to unplug. With seating for up to five passengers, the entire crew will enjoy sinking into the available sumptuous luxury leather and stretching out amidst the ample legroom. The configurable space with 60/40-split folding rear seats and up to 66.6 cubic feet of flexible storage give you plenty of cargo options. Whether it's an extended road trip, camping with the kids, or a simple run to the grocery store, the PHEV is ready to stow whatever you need for life's next big adventure.

> RECHARGE YOUR BATTERIES

Get the juices flowing. With 1500W of power at your disposal, you can tap directly into the Outlander PHEV's main drive battery from the front center console or rear cargo area. The available **AC Power Supply**⁹ offers an unrestricted source of electricity for lights, cooking equipment, appliances and anything else you can imagine.

> A QUIET PLACE

EXPLORE SEATING & CARGO

You can almost hear a pin drop inside the Outlander PHEV. Its insulating and dampening components muffle outside noise and road vibrations, resulting in a quieter cabin experience. When the **EV Powertrain** and **Double Layer Exhaust Manifold** are on, it enhances this effect even further, creating a smooth, serene ride.
