OVER **530000** MILES AND 6,600 QUALITY AND DURABILITY TESTS.

ONE UNSHAKABLE COMMITMENT. Fanatical? Maybe. But when it comes to making the toughest commercial vans you can buy, we go the extra distance for you, and it's no Sunday drive. We simulate years of corrosion where we soak a vehicle with salt, bake it, and pound it around a test track. We wreak havoc with suspension and body components by driving through potholes and dips, and over 4 x 4 beams. Special chambers crank up the heat to 140° and humidity to 95% to break down seals and age interiors.

We even have machines that can simulate nearly any road in the world, and we run our vehicles on them nonstop for 12 hours, 24 hours, or even more. Do we really need to go to such extremes, just to make a Nissan Commercial Van the best you've ever owned? Yes, because every day, you depend on it to do your job. That's the motivation for us to do ours.
