

The Golf

It's pretty big for something small.

GOLF

DESIGN

It goes without saying, once a Golf, always a Golf.

Hatchback. Not all cars have a rear end as lovely as this. But then, not all cars are the Golf. What's so remarkable is that from the outside, you'd never guess just how much it can actually hold. Come to think of it, you'll be surprised from the inside, too.

15" Alloy Wheels! The more alloy on the wheel, the more substance and strength it evokes. A few extra spokes also add to a car's sporty look and elegance. Not a bad thing at all, if you ask us.

Rear Windshield Wiper. It's not just for rain. Since it's hard for airflow to make it around the upright rear, hatchbacks in general tend to get a bit dusty back there. So there's a wiper. We can't change the laws of physics, but we can adjust accordingly.

EXTERIOR

Pick a color, any color.

Golf GLS shown. ¹Standard on the GLS only.

Drivers wanted. 

How does a-bit-of-everything without too-much-of-everything sound?

Sunroof Dial: Know when you're craving sunshine, say, four inches worth, and you're forced to wait with your finger pressed on some button? Well, 14 automatic one-touch settings on this dial mean no more pressing and waiting. Ever again.

Power Windows. Convenience and ease are the name of the game. With a simple touch of any of these buttons, you can roll a window all the way up, or all the way down. Or, if you're feeling particularly adventurous, anywhere in between.

CD and Cassette Player. One day as you're driving along, tuning in to your favorite radio station, it might suddenly dawn on you – this eight-speaker system looks just as cool as it sounds. And to top it off, it came with your Golf as a standard feature.

INTERIOR

Some fabrics to choose from.

GOLF

PERFORMANCE

It takes more than just craftsmanship to perfect an engine.
It takes creativity.

115 hp

2.0L

This engine benefits from a simple and true design. (Some would say it's a classic.) It's compact, pretty lightweight, and requires less space under the hood. All good things. And that's not even the end of the story. To top it all off, it offers lowered emissions, too.

100 hp

TDI[®]

We couldn't leave well enough alone. Again. Thanks to a new pump injector system called Pumpe Düse (pronounced pump-ah du-sah), the TDI now boasts more horsepower and torque. Cleaner emissions and quieter operation. And all without compromising the diesel-sipping goodness that makes it our most fuel-efficient engine!

GOLF

ALL-AROUND
SAFETY

Safety.

Our most important standard feature.

Front Crush Zone. Helps to divert impact energy away from occupants in case there's a collision.

4-Wheel ABS. An onboard control unit designed to detect wheel lock-up, for enhanced control in poor driving conditions.

Anti-Theft Alarm System. Scares away uninvited guests. (Otherwise known as burglars.)

Immobilizer. Prevents the Golf from being started up if an unauthorized key is used.

Daytime Running Lights. The better other drivers see you, the safer you'll be.

Electronic Stabilization Program! For better handling and control. (Why skid if you don't have to?)

Rear Crush Zone. Helps to divert impact energy away from occupants in case there's a collision.

LATCH System. Lower Anchors and Tethers for CHildren. A standardized child seat attachment system for vehicles.

Child Safety Rear Door Locks. A feature that prevents a child inside from opening the rear doors.

Three Rear Head Restraints. Helping to reduce the risk of head and neck injury in the event of a collision.

Full-Size Spare Tire. You never know when it might come in handy.

Track-Correcting Torsion Beam Rear Axle. Angled mounts increase vehicle control as turns are completed.

Side Curtain Protection™ Airbags? These extend down the roofline, helping to minimize head and upper torso injury.

Dual Front and Front Side Impact Airbags, Supplemental Restraint System? Deploying within a tenth of a second if needed.

Anti-Intrusion Side Door Beams. Buying precious time for the side impact airbags to deploy.

Safety Cell Construction. A rigid cell of reinforced steel is built into every Golf.

Steering Column and Wheel. Telescoping, height-adjustable, and collapsible on impact. (Not bad for a steering wheel.)

Sunroof with Pinch Protection! This sunroof doesn't like munching on fingers for lunch.

WARRANTY

Basic Warranty: Every Golf comes with a bumper-to-bumper New Vehicle Limited Warranty³ for 4 years or 50,000 miles, whichever comes first.

Powertrain Warranty: The Volkswagen Powertrain Limited Warranty provides 5 years or 60,000 miles of protection, whichever comes first.

Anti-Corrosion Warranty: A fully galvanized steel body means we can offer you a 12-year unlimited mileage Limited Warranty Against Corrosion Perforation.

Roadside Assistance: The Golf has a 24-hour-a-day Roadside Assistance package⁴ for 4 years, unlimited mileage. Wherever you go, there we are.

¹ Feature available on certain trim levels.

² Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

³ Wear and tear items and adjustments are excluded after the first 12 months or 12,000 miles, whichever comes first.

⁴ Roadside Assistance, for 4 years, provided by Road America. See dealer for details.
